## RURAL MAIL-BOX IMPROVEMENT WEEK

### P. M. Burke Announces Program for Week April 13-18

The Post Office Department has designated the week of April 13 to April 18, 1953 as Rural Mail-box Improvement Week.

The Post Office Department is very desirous to have patrons on rural routes cooperate with this urgently requested program, as many boxes remain in a dilapidated condition, thus constituting an eye-sore. Take pride in your mail box, as you do your home, by having them present an appearance that is attractive to your home. Rural Mail Boxes should be properly erected and in good serviceable condition, to assure safe delivery of mail and to conceal your mail from weather conditions. Provide suitable mail receptacles, erecting them in such manner so as to be readily accessible to the carrier, and present a neat appearance. It is especially desirable that the boxes be maintained in a condition that will assure complete protection to mail placed therein; that the names of box holders be inscribed on the side of the boxes, visible to the carrier as he approaches them, and that both boxes and supports be painted frequently. Inscribing your name on the box, will add convenience for the substitute carrier, the doctor, and friends to locate you with less difficulty. Patrons having unapproved boxes of top-opening type, revolving door, or other old types that are not in serviceable condition should have them replaced with boxes of the approved type. Boxes which cannot be conveniently served by the carrier from his vehicle, or boxes in such condition so as not to protect the mail should also be replaced at once. Your mail carrier will be happy to assist you in any way possible to improve your mail box conditions. With these improvements it will enhance the beauty of your property.

It is also requested that all patrons make sure that the carrier, has the names of the entire family, inasmuch as this is very important in assisting the carrier to assure delivery to the right person, when there are so many similar names in the same community. Always use your correct name, route number and address on your return card.

The fullest cooperation of all patrons, in carrying out this program in recognition for the services rendered by the Postal Department will be gratefully appreciated.

## "SPICE 'N' EVERYTHING NICE"

(Your Chatty Column)

With all my heart, I wish you every morning  
A smile that shall last until the next day's dawning.  
I wish you health—life's greatest wealth!  
I wish you always near so that I may help to cheer  
Each future day and in some way—help to bring you happiness!

New York City may have had its biggest and best Easter Parade but am confident that the girls in that big town are not the good lookers as the beautiful Baltimore women which has been known all down through the days of our Grandmothers!

The Sun was brilliant in fact hot and the cold breeze felt good sitting on the top steps of the home of one of my close friends at 80th and Charles streets. There truly is only one Charles street in the world. This year there were so many young Mothers proudly exhibiting tiny babes in arms dressed in the very best. The Mothers of course just beaming with their "bundle of love"! At 4 o'clock was the height of the parade and the sidewalks were jammed with all the beautiful girls in their finery and no two hats alike. The young girls of seventeen were precious and you know that song which would have suited them perfectly, "You Ought to be in Pictures"!

There were dogs of all breeds and Your Observer laughed aloud when many on the sidewalks stopped with their camera to take BUTTON'S picture and then asked her name. She was all done up, too with her brilliant Christmas collar and a huge plaid bow. Boston Terriers will always be THE DOG in the eyes of the public. Every one seemed thrilled at her beautiful manners and her lovely big and expressive eyes.

Thousands were in cars viewing it all as they were driven along and the corsages were beautiful.

The police force appeared perfectly groomed in fact from head to toe they were dressed in their very best. Then there were the carriages drawn by a pair of horses with the man in the Gray Derbies and all appearing as in the gay 90's with the beautiful girls looking out of the windows dressed for that period.

The Balloon Man was right there doing a tremendous business. Betcha, a man selling Sun Glasses would have really cleaned up.

The churches were crowded to the door ways with the pulpits beautifully decorated with all kinds of Easter potted flowers. Why can't the churches be thus every Sunday morning? Hope we won't have to wait until Christmas to see the crowd again!

The Restaurants were doing a thriving business in every section of both town and country. (Perhaps the Mr. treating his family out for this very special day.

Now this from our former President when it was advertised that he was going to purchase a place in one of the New England States "If I had half Million dollars, I wouldn't buy an estate in Connecticut!"

Gentlemen, now you have seen that awful side of the 300 pounder—that awful terror! If I had been the Judge, I would have barred that character forever after from the Coliseum Mat! How about you?

Next time you shop for a potted flower ask to see the GOBBINIA. They are very rare and the most beautiful I have ever seen.

The wonderful aroma fills the entire house with the beautiful Easter Lillies. The huge blue Hydranga flowers are like a picture. The Gardenia plant which I bought last year in the five and dime has many buds on which will be out in bloom shortly.

A constant Reader asked me if I purchased Easter finery. No, I never do but two months ago Your Observer bought a two piece dress of Navy Faille for \$8.75 which I wore Easter and bought mainly for the trip to Phoenix the last of May when my eldest son will graduate from the College all through your Uncle and Mine—GOOD OLD UNCLE SAM! The graduation exercises are to be held on the 26th of May and I am hoping to see you on "WELCOME TRAVELERS" with that nice Tommy Bartlett D. V.

So long, Folks. Have a nice week end. Be careful and drive slowly for then you can enjoy the scenery at this lovely time of the year. Until next week D.V. I am,

UPSY — DAISY!

Most newspaper publishers, we recall, seemed almost enthusiastic about that ten per cent increase in their mailing costs last year. It was their position, that second-class postal rates had been too low—that they did not want any Government subsidy.

Well, now comes the second ten per cent boost provided by the same law. It places a little extra strain on patriotism and independence. But we knew it was coming, we applauded the idea of stepping the rates up gradually instead of socking us all at once. Perhaps we expected to be rich by now. But in any case we should be able to grin and bear it. This reminds us, however, that the third boost, ten per cent more, comes next year. How about that? Will we laugh that off too? Maybe next year, we'll be rich.

But Mr. Summerfield, do you still tote all that Government mail for free? Can't those bureaucrats pay for it out of their budgets? That would at least lighten the load.—National Industries News Service.

**GRASS ROOTS OPINION**

SOUTH BOSTON, HALIFAX, VA. GAZETTE: "Whether the money comes from Washington—or from the treasurer's office at Halifax, it still has to be paid by the people. But there dwell among us those who dream of some modern Utopia where the halls are paved with gold and the carpets are of Persian weave. Like all Utopias, it never quite comes off, and bitter is the frustration of those who are led to believe that it will."

MADERA, CALIF., NEWS-TRIBUNE: "Senator Stuart Symington of Missouri, former Air Secretary—declared—that the jealousies and rivalries between the branches of the Armed Forces are—seriously impeding military efficiency and are imposing an unnecessarily high cost for defense on the nation."

HAGERSTOWN, MD., MORNING HERALD: "—the TVA is socialism—and all the evasions and denials emanating from it or from its proponents can't make it otherwise. It is government by bureaucratic authority. It is entirely monopolistic. It pays no federal taxes. It arbitrarily fixes rates. It is not bound by the rules that govern private enterprise—in taxation or competition or responsibility to stockholders."

## THOUGHTS FOR THOUGHT

There is something wrong with the spring fever which continues all year.

Nothing pays so large dividends as friendship.

The "sun" feels it's a duty to rise on Sunday mornings as well as on other mornings of the week.

A man reaps what he sows, even the farmer who sits on the porch.

No person should be judged by one attitude alone, but as a whole.

Worry seems universal: It is hard to be too tall or too short; too fat or too thin; too old or too young.

Share a child's interests and he will love you. Respect his property rights if you expect him to respect yours.

The clasp of a friendly hand stimulates, a smile animates.

Many people read the Bible merely to confirm their beliefs and not to discover additional truth.

If the trend continues, a public school education will consist of a knowledge of sports, listening to radio, and watching television. Progressive Education!

Today's Chuckle:  
You never could take your money with you, but some people can remember back in the old days when the government would let you have some while you were here —Butler Eagle.

## SENATE CLOAKROOM

By J. Glenn Beal

The controversial tidelands measure has now been passed by the House and is under discussion in the Senate.

The two measures differ in this degree: the House bill grants title to the States of off-shore submerged lands out to their historic boundaries; and establishes Federal jurisdiction over submerged lands on the continental shelf; the bill in the Senate would leave the resources on the continental shelf for consideration in another bill.

After prolonged discussion I am sure the Senate will pass the bill and a joint committee will work out an agreement between the two bills. The Eisenhower Administration is pledged to restore the State's rights to their submerged lands.

Over the years a lot of confusion and misunderstanding has developed and lawyers have had a field day in testifying about the legal aspects of the controversy. In some areas considerable emotional feeling has developed—and sadly to say the public has been consistently misinformed by the Federal propagandists.

Basically the controversy developed as follows: the State's claim to the lands were never questioned until Secretary of the Interior Harold Ickes reversed his own decision in the early days of the New Deal.

Mr. Ickes reversal was complete and without explanation. The Federal government then took the State of California to court and the Supreme Court reversed 52 decisions of the Court, established over a period of 150 years, and ruled that the Federal government should have jurisdiction over natural resources in the submerged lands.

The important part of the court's decision is, however, that while it did not rule that the State's had title to the lands, neither did it rule that the Federal government had title to the lands.

Justice Black ruling for the court said, "The crucial question on the merits is not merely who owns the bare legal title to the lands under the marginal sea. The United States here asserts rights in two capacities, transcending those of a mere property owner."

In other words Justice Black was saying that the court was not particularly concerned with the rights of "a mere property owner."

Justice Frankfurter in a dissenting opinion commented on Justice Black's ruling by saying: "Ownership implies acquisition in the various ways in which land is acquired—by conquest, by discovery and claim, by session, by prescription, by purchase, by condemnation. When and how did the United States acquire this land?"

Then Justice Frankfurter proceeded to state the issue now before Congress in a very concise fashion. He said, "Let us assume, for the present, that ownership by California cannot be proven. On a fair analysis of all the evidence bearing on ownership then, this area is, I believe, to be deemed unclaimed land, and the determination to claim it on the part of the United States is a political decision not for this Court."

Justice Frankfurter, often considered to be an ardent New Dealer, was saying that in a court of law ownership of land must be established by one of the contending parties and that if the court cannot decide as to who owns the lands, then the land is considered unclaimed.

Arbitrary decision and awarding the land to the Federal government Mr. Frankfurter decided was not within the jurisdiction of the Court. That decision he said was a political decision and would be up to the Congress.

The 81st Congress passed legislation reaffirming the States' claim and President Truman vetoed the bill. During this session of Congress, I think the outcome will be quite different. Congress will pass a bill in keeping with the historic claims of the States and the 52 decisions of the Supreme Court. President Eisenhower will sign the bill and the controversy that was started by Harold Ickes reversal of his own decision will be ended.

To Maryland, passage of the bill will mean that our state will retain control of our 1,600,000 acres of sub-

merged land. We will have no fears that the Federal government will preempt our lands and regulate our productive fishing industry. The rights of the Free State will be secure.

Let's Think by G. H. ENFIELD

THERE IS MORE BEYOND

There Is More Beyond is the assurance of Easter. This is the Christian's conviction based on his belief in the fact of the Resurrection. The most significant questions of earth are religious. Yet, as one watches the human race go by, one would hardly think so. For the host of them are going elsewhere than to prayer meeting, or to church to present themselves before God their Maker.

The call of pleasure is so siren, and the clang of the cash register is so magical that the "wee small" voice of God is rarely heard by multitudes even during the sacred season of Lent. Yes, people will rush on in their eagerness and stamped the world's markets for the thrills of the world's glamour.

We are nearing the end of Lent. What has it really meant to you? What difference has it produced in your life—in your manner of conduct, in your conversation, in your thoughts in your type of entertainment and amusements, in your reading, in your prayer-habits? Have you been able to deny yourself anything, or are you using the occasion to add to your own satisfaction, enjoyment, and personal glory adornment only?

Have we no time to spare for meditation upon the following profound Easter questions?

What is Man? What is Life? What is Death? What is the Resurrection? Let not your only and most important Easter question be: What shall I eat, or what shall I put on? The background of the message of Easter is expressed well in the words of the poet Browning: "I see my way as birds their trackless path. I shall arrive." The poet Bryant expressed the thought in this way: "He who, from zone to zone, Guides through the boundless sky thy certain flight, In the long way that I must tread alone, Will lead my steps aright." "I shall arrive!" is man's hope, and the assurance of Easter. Distinctive messages of Easter are the affirmation of the fact of Resurrection and of Immortality. —G. H. ENFIELD.

IMPLEMENT DEALERS WARNED OF SOCIALISM

The farm implement dealers association of Washington, Frederick and Carroll counties, meeting recently at the Tortuga Restaurant in Hagerstown, was reminded by their guest speaker that our nation grew great by the Government giving land to the people for their use as was done under the Homestead Act but now the Government may be growing socialist by reversing the process. The speaker, Edward Hardecoste, of the National Federation of Independent Business, told them that during the last 15 years 63 million acres of land have gone from the people back to the Government. Such action in Maryland is apparent, he said, even for parkways which some of the people may use but not all.

The attention of the dealers was called to bill H. R. 1559 by Congressman Mason of Illinois, cited as the "Tax Equalization Act of 1953" which has to do with equalized taxation. It was pointed out that our cooperative organizations can be traced back to Europe where they were started over a century ago. Now in this country we have as co-ops the world's largest sugar refinery, 75 per cent of the milk sold, and 55 per cent of our citrus fruits, the speaker said.

The severe criticism of the co-op movement is that it is a form of business activity that has not been taxed to the extent of other similar businesses thus they are a business favored and unfair to other business and do not fully support the tax maintained institutions of our nation.

In September 1951 Marshall Tito of Yugoslavia said, "The cooperatives are of vital importance to our socialist country", the dealers were told, and which way this country goes will be determined by what pressure the people themselves bring to bear on our Congress in Washington.

*Here's Packard's new medium-priced car!*

## The New Packard CLIPPER

Here's your opportunity to own and drive a really fine automobile at only a few hundred dollars more than you'd pay for a car in the lowest-priced field!

IN ALL truth, the new Packard CLIPPER is enjoying public response—far beyond expectations—and has, since the first day it was shown!

Because the value is there, and the price is right.

How can Packard do it? Deliver so much big-car value and performance at medium-car prices?

FIRST: It's Packard engineering—traditionally fine, historically dependable. Packard, you remember, is the oldest maker of fine quality cars in America.

SECOND: Packard occupies a unique manufacturing position, for Packard alone with 54 years' experience in fine car building, combines craftsmanship

of the highest character, and modern mass production techniques, to produce greater dollar for dollar values.

In addition to greater values, you get Packard's contour styling that is setting the new trend in automotive design. Contour styling means not only a handsome car, but better visibility—any way you look! You get the smoothness and comfort of the famous Packard ride, too—real big-car ride!

You get the unforgettable kitten-smooth, whip-quick pull and zoom of the Packard Thunderbolt-8 Engine—real big-car power!

In all, you get more than 70 big-car features!

If you plan to buy a car in the \$2500 price-class be sure to see and drive the new Packard CLIPPER and compare it with other medium-priced cars. Surprisingly enough the CLIPPER costs only a few hundred dollars more than cars in the lowest-priced field. And, of course, there's a wide range of new beautiful CLIPPER models, any one of which will give you a lift, as well as a ride, anytime you drive it!

In addition to the new CLIPPER, Packard of course continues to build one of the finest cars in the world, sold under the single name PACKARD—America's new choice in fine cars. Now—Ask the man who owns one!

**A Man New-Born**  
Lesson for April 12, 1953

THE most important convert Christianity ever made was one of the very first ones. He was important not only for his own times but for ours too. His thinking set the pattern for Christian thought ever since. His writings, or rather the truths he brought out in his writings, have been at the heart of most of the revivals from early times to now.

Sometimes the Christian church has gone too far in admiration of this man. Because his conversion was spectacular, some have thought (mistakenly) that all true conversions are spectacular. Because he always thought like a lawyer, some have thought (again mistakenly) that all true Christian thought must be legalistic. In short, some Christians have put this man ahead of Jesus Christ. Such mistakes should not blind us to the man's real and tremendous importance. Those who plan these Bible studies have set aside the next three months for a review of this one man's life and some of his writings.

Dr. Foreman

**Outside the City**

His name is Paul, though the church very respectfully usually calls him "Saint" Paul. He was a city-born, city-bred man. But as Providence would have it, the most important thing that ever happened to him came to pass in the open country, on a windswept road that is still traveled, the highway from the city of Jerusalem to the city of Damascus, in Syria. Born in the city, re-born in the country; it has happened since. The story of his conversion has been often told; indeed in the book of Acts it is told three separate times (chapters 9, 22, 26), once in Luke's words, twice in Paul's. There was no church, no preacher, no personal workers; no hymns were sung. There was no meeting at all, no visitation evangelism. It happened like a stroke of lightning. Inside of five minutes or less, Paul (or Saul as he was then called) had been changed from an anti-Christian to a Christian—Not to a saint! He was only, so to speak, a baby Christian. Being new-born into the Christian life is a little like being newborn into the human life; there is a period of babyhood first, when the newborn soul hardly knows what to do and needs much guidance and help. But in those few minutes on the Damascus Road, the whole direction of his life was changed.

**In the City**

Paul's conversion had some unique features, startling and extraordinary. But the story of it (in Acts 22) reports two questions that belong in every Christian conversion. "Who are you, Lord?" and "What shall I do, Lord?" A true conversion is a turning toward Christ. Turning away from one's old life is not the whole of it and not the most important part of it. When a driver on a country road realizes he has taken the wrong fork, and turns around to go in the other direction, which is the more important, that he now has his back to the wrong direction or that he has his face in the right direction? Conversion is from, but more importantly, conversion is to. To Christ first of all. True conversions are not produced by coming face to face with one's better self but with Jesus. And yet, this is only a start. What next? That was what Saul went into Damascus to find out. That was what Ananias came to tell him. Saul needed what all new-born Christians need, a Christian friend, Christian fellowship.

**The New City**

Paul was and remained a city man. Most of the great experiences of his life were connected with cities. But from that day at Damascus to the end of his life, there was one city above all that claimed Paul's allegiance. It is the City of God, the New City. Conversion can be looked at and described in many ways. But one good way is to compare it to taking out citizenship papers in the Kingdom of Heaven. Paul said once, as Moffatt translates Phil. 3:20, "We are a colony of heaven." That was not a figure of speech with him. Paul would have passed any loyalty test.

**"One for all and all for one"**

This famous motto of the Three Musketeers brought them safely through many adventures. Usually they were able to survive great peril only by dramatic teamwork. Of course, their adventures were purely fictional, but teamwork can give real-life drama a happy ending too. Lives can be saved by considerate party-line users who give up their lines to others in an emergency.

**Do it the easy way**

Remember the story of the fellow who loaded his mule with a sack of potatoes on one side and balanced it with a sack of stones on the other. He made many trips this way until someone suggested that it might be more efficient to balance the first sack with another sack of potatoes.

There's a more efficient way to make Long Distance calls too. When you give the operator the telephone number, instead of just the name and address of the person you want, your calls go through faster.

**CLASS TO PRESENT PLAY**

The Hustler's Class of Grace Reformed Sunday School will present a 3-act play entitled "The Darling Brats" in the high school auditorium on Thursday and Friday evenings, April 16 and 17, at 8 p. m. This play is being given for the benefit of the Parish House Fund.

The play is packed full of laughs and surprises from beginning to end. Cynthia Darling, played by Yvonne Foreman supports her young orphan sisters and brother and is greatly perturbed because Aunt Agatha, a comely young widow, played by Nancy Pennington continually lavishes expensive gifts upon them and is spoiling them rotten. The Darling children, played by Mary Alice Rue and Kenneth Reifsnider are far from darling—they are perfect little rascals. Cynthia is determined to get Agatha's influence away from the darling children by marrying her off to Appleton Crabb, played by David Reifsnider. Crabb is an irascible old bachelor. Agatha is romantically in-

terested in John Henry Judd, a cowboy rancher, with whom she corresponds but hasn't seen since childhood, played by Dean Nusbaum. Tess, played by Nadine Sentz, is also determined that her aunt shall marry Crabb and she makes Spike, played by Delmont Koons, masquerade as Judd and he cuts such wild western capers that Agatha's infatuation is instantly squashed. But young Hank and Babs, the Darling children, are equally determined that Agatha shall marry the cowboy, because they are crazy to live in his Arizona ranch. The tricks these two brats play upon Crabb and Agatha in order to make them hate each other will keep the audience screaming with mirth. They give Crabb a synthetic case of "B. O." hiding Limburger cheese upon his person. They touch Agatha up with "Fun Fest Itching Liquid" and make Crabb believe that she has the seven-year itch.

Others taking part in the play are Juneby Johnson, a Negro cook, Barbara Eckard; Red Vinton, Cyn's boy friend, Fern Bachman; and Mrs. Vin-

ton, "Gloomy Gussie", Rod's mother, Dottie Hartsock.

The various committees are as follows: Tickets, Dottie Baker; Publicity, Nadine Sentz, Barbara Eckard, Nancy Baker, Dottie Baker; Properties, Nancy Baker, Hilda Reaver, Patsy Smith; Prompter, Joan Miller; Refreshments, Mabel Perry, Jane Perry, Doris Stonesifer.

**ANSWERS YOUR QUESTIONS**

Q. Can lice cause damage in the laying flock?

A. They sure can! Lice irritate the birds so they don't eat, sleep, or lay right. Practice regular lice control by using Dr. Salsbury's Vapo-Roost or Nic-Sal. Both are flock treatments, easy to use -- just spread on roosts, then see that all birds roost. Get Vapo-Roost or Nic-Sal now and get the lice! Ask about Dr. Salsbury's Pest Spray for all poultry pests.
