"SPICE 'N' EVERYTHING NICE"

(Your Chatty Column)
With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!

I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Well, Mr. Farmer, Your Observer visited one of the most up to the minute "COW PARLORS" which was simply Super Duper! Such days we live in right now with the Cow and the Human Being thought of as to all improvements as to sanitary conditions. Yet, when I spoke to the big husky girl of sixteen (and quite a good looking) doing the work of any farmer's son about marriage this is what she said, "I'll never marry a farmer!"

On "Good Friday" night sat in the Slateville Presbyterian church with dozens of others listening to a Sacred Cantata by Theodore Dubois "THE SEVEN LAST WORDS OF CHRIST" which was an English Adaptation by Dr. Th. Baker. It is put out by G. Schirmer, Inc. New York and means months of real practice. The Choir was gowned in deep red Choir Robes with a tiny white Juliet cap. Hope that one of the churches in Carroll County plan this for the next Easter season. It was most beautiful and inspiring from the very start. It lasted about one hour and a half.

How wonderful—our own "UNCLE SAM" in bringing back the Colonel of our Armed Forces from across seas to attend the funeral Services of his little Mother who passed away last week! No other "UNCLE" like him! Eh?

Now, here is the Sign of the Zodiac for which you asked, V.V. That date is of ARIES—from the 20th of April to the 20th of May. These people both men and women are noted for their executive ability. They are absolutely fearless in opposition and go through life over-riding all obstacles as they march on to their goal, hence they rise to the emergency of every occasion. They have strong countenances and penetrating eyes. At times they are head strong and utterly heedless of advice. These people are judged and considered wealthier than they really are, perhaps for the real reason that they are excellent dressers and have a commanding appearance. Their tastes are inclined to be luxurious and in fact they are at their best amidst elegant surroundings or when leaders in social pleasures. They enter every battle to win—regardless. Much of their unhappiness in their domestic life is caused by their quick temper and that awful green-eyed "Monster"—Jealousy! They should mate with the Leo sign which is from July 20th to August 20 is ideally happy! Have a nice week-end, Folks. Always remember in driving that real slogan, "The Life You Save May Be Your Own". Until next week end D. V. I am,

Faithfully,

YOUR OBSERVER.

GRASS ROOTS OPINION

ELY, NEVADA, RECORD: "The foundation for genuine individual security lies in the ownership of a house and land free from confiscation by taxation. This is provided for under the Law of the Lord and the result is described by Micah: 'But they shall sit every man under his vine and under his fig tree (typifying the personal security of a privately-owned homestead); and none shall make them afraid: for the mouth of the Lord of hosts hath spoken it.' (Micah 4:4). This is the basis for true social security."

HAGERSTOWN, MD., MORNING HERALD: "The fact that most needs to soak in upon all of us right now is this: if we look to our government for security, then we have no security—for what the government can give us the government can also take away."

WALDOBORO, MAINE, PRESS: "Government is made up of services as required by the people of the State. Such services should always be ample but not more than ample. Government expenditures should be made in the same way as business expenditures are made, that is, always with an eye to economy and the Government should make certain that a dollar's value is received for every dollar expended."

FRANKLIN, IND., REPUBLICAN: "—virtually all college administrators are leery of wider government aid, feeling that inevitably it will mean federal control of education."

The inches that come in cans

Better nutrition has added at least 2 inches to the height of America's younger generations. Compared to children of the same age only fifty years ago, our kids are from 8 to 10 pounds heavier.

Why? Because today the average family's diet is rich in vitamins. Increased food values make us all not only healthier, but actually bigger.

The development of the modern food can did a lot to change yesterday's limited, monotonous diet. In its place, all year long, tastier, more appetizing foods and beverages of every kind find their way to your table.

Nutrition research has established the fact that canned foods keep their garden freshness and bring to your table the

values that make for better health.

As a result of all this can-making and can-using activity, new jobs in farming, food processing and distribution have been created right here in Maryland. Farmers have wider, more stable markets for their crops.

The 35,000 people of Canco get a special kind of satisfaction when their work pays off in added height and solid muscle.

We are proud of the inches we have helped to add to the yardstick that measures the nation's health. We are proudest of all to be part of a system where your desire for better things, plus industry's proven ability to satisfy your demands, work so well together for the good of all.

FEESERSBURG

On Monday evening the members of the Elmer Wolfe School PTA were given a musical program by the boys and girls of the school and also by the New Windsor High school chorus, directed by Miss Edna Bell. The program was made up of the following: Woodwind Ensemble, Patricia Koop, Nancy Roelke, Lois Bowman, Audrey Bowers, Jimmy Yingling. Sections by the orchestra, Waltz, Serenade, Merry Wives of Windsor, American Dance Medley. The Junior High school chorus sang, America the Beautiful and Joshua Fit the Battle, directed by Mrs. Julia Johns. The senior High school chorus sang, Carousel Medley and adaptations from "Martha". The last number was sung jointly with the New Windsor chorus directed by Mr. Philip Royer. The school orchestra was directed by Mr. Dominic Cusenza. It is always a treat to hear the musical talent of the school perform and we congratulate all the boys and girls and their teachers for a nice performance.

At the PTA meeting Monday evening, the question arose concerning representation on the Executive Committee and also the duties of the committee. It was brought out in the discussion that while about 20 members are elected to the committee only about seven attend the meetings and therefore transact all the business. No one thought to ask the members why they do not attend these meetings, but I think the reason is that the same problems are brought before them month after month and some feel that it is waste of time to attend and never reach a settlement on some issues that should have been disposed of years ago. One of these problems is: who should be responsible for paying the street lights on the High School hill. This subject has been brought before the Executive Committee for the past seven years that I know of and has been going on even longer than that. The truth of the matter is that it should not be a PTA problem at all since it is against the constitution to allow the PTA to engage in such an activity. The lights are a community problem and should be paid for by the people who derive the most benefit from them. This is just one instance where the PTA has assumed responsibility for something it has no legal right to assume. Some of the members of the executive committee know this and feel that the real purpose of the PTA has been forgotten. Persons with a full schedule of other activities feel that to come to meetings and waste two hours getting no where is just asking too much of them. I am one of them, and there are a few others thinking the same thing.

Joseph Coshun is rebuilding the chicken house destroyed a month ago by fire. The new building is made of cement blocks and will be practically fire proof.

April the 12th marked the 8th anniversary of the death of Franklin D. Roosevelt. In the past 20 years and most of them under his leadership, our country made tremendous strides in every field of endeavor. Now we are in the midst of a change. It is perhaps too soon to determine exactly what that change will bring. If it is true that history repeats itself then we are in for a rugged time in some ways. For the things in the newspapers today are almost identical with the things that were being printed in the papers when F.D.R. assumed office. Surely though, our leaders of today must have learned something during the past 20 years and will heed the signs that point to economic disaster, and change some of their policies before it is too late.

There was church service at Mt. Union Lutheran Church Sunday. The pastor, Donald Warrenfeltz spoke on the subject of achieving peace of mind and soul during the stress of living in the 20th century. There isn't a man or woman living who doesn't at one time or another strive toward mental peace. How to reach this state is the subject of hundreds of books and thousands of sermons. There is no easy solution—no short cuts. Some people try drugs, alcohol and hobbies. These may help for a time, but like any external aid, the help is of short duration. Peace of mind can only be lasting if we are able to shed our internal fears and distrusts. How to shed them was the basis of Pastor Warrenfeltz's sermon.

James Edward, young son of Mr. and Mrs. Charles Eyer remains a patient at the Maryland University Hospital where he was taken following a heart-breaking accident last Thursday. His father unknowingly backed his car into his son and the boy was injured about the head. His condition remains serious but he has been responding to treatment. The whole community feels deeply sympathetic toward these young parents and hopes that James will soon be well again.

A wife and spinster has one thing in common—both are always thinking of the men they could have married. The olive tree, more than any other tree, has enjoyed a glory and glamour in history that will never be surpassed. But besides glory and glamour it can produce 1320 pounds of olives or 264 pounds of oil. Also its wood is highly prized by cabinet-makers due to its hardness and beautiful grain. Olive trees have been known to live 700 years and none have ever died of old age. Before that time they die from weather, man and pests.

Some men like the cat, almost die from curiosity. They are generally scientists or fact finders. And some interesting useless knowledge. Recently they found out what an average cow's work day was like. It consisted of 10 hours for feeding, 54 minutes for traveling, 49 minutes for chewing

ing their cud, 11 minutes for drinking, 1 hour for resting and for 2 hours they butted each other around, nursing their calves, scratched themselves on fences or looked at the scenery. The remainder of the time they rested.

My neighbor says the reason she lets her husband help with the housework once in awhile is not for the help he gives but for companionship. It is the only way to keep him from burying himself behind a newspaper.

Next to the very young, I suppose the very old are the most selfish.—William Thackeray.

HAIFLEY—In loving memory of my dear wife BEULAH V., who departed this life, one year ago, April 18, 1952.

I'll remember you, dear, while there's life in my heart, And tho' God in his wisdom has torn us apart;

In your home up in heaven you must know that I'm true, To the love and esteem that was only for you.

And I pray that when life for me comes to an end, I will meet you in Heaven, my own dearest friend;

My friend and my sweetheart, my one dearest love, God keep you and guard you in Heaven above.

Loving husband, LEE.

HAIFLEY—In loving memory of our dear mother, BEULAH V., who departed this life one year ago, April 18, 1952.

God saw the road was getting rough, The hills were hard to climb; He gently closed her loving eyes, And whispered "Peace Be Thine".

Her weary hours, her days of pain, Her every night, her days of frame, Her ever patient, worn out frame, Has found sweet rest at last.

Her loving sons and daughters-in-law

HAIFLEY—In loving memory of our dear grandmother, BEULAH V., who departed this life one year ago, April 18, 1952.

Loving and kind in all her ways, Upright and just to the end of her days;

Sincere and true, in her heart and mind, Beautiful memories she left behind.

Her loving Grandchildren.

Reaching Out

Lesson for April 19, 1953

IF you had asked any one in Illinois about Abraham Lincoln, about the year 1858, they might well have told you he had been a failure. At that time very few persons saw in him his true greatness because so many of his ventures had either failed or not been notable successes. So with many great men. Their towers of success were built on rubble-heaps of failures. So it was with the great apostle Paul. He was sincere, earnest, energetic, from his very first week as a Christian. But he was not successful from the first week. He had tried to preach in Damascus, only to be sneaked out of that city in a basket. In Jerusalem also he had tried, but the brethren tactfully took him to a seaport and put him on a boat for home. In his home town Tarsus no doubt he tried too (we can't imagine Paul sitting around doing nothing), but if he ever had a grain of success there we never heard of it, and Paul was not one to be silent about his successful efforts.

Dr. Foreman

Home Base

If it had not been for Barnabas there is no telling what might have happened. He was a sort of pastor-at-large for the growing church in the important city of Antioch, then one of the finest cities of the Empire. Barnabas knew his own limitations. He took a trip to Tarsus, located Paul, brought him back as co-pastor at Antioch. Between them they made a great team. The church grew, everybody seemed to be happy; for a whole year Barnabas and Paul must have been the talk of the church. Then one day in a prayer-meeting it came to the hearts of those present that the two associate ministers of that big church should resign; it was God's will that they should. There was something else for them to do. Now that was the beginning of what we now call "foreign missions." But suppose people in the Antioch church had taken the line that some church members take now when foreign missions are being discussed? They could have said, "What? Send Barnabas and Paul as foreign missionaries? Why, they have all they can do here. Why bury their talents in some out-of-the-way place? People in Lystra and Iconium have their own religions, why not leave 'em alone? Let's wait till we get the heathen in Antioch converted before we start on the heathen in Cyprus!" But the church in Antioch (bless them!) did not talk that way, though there may have been a few members who did. As a church they gave their tried-and-true pastors a God-speed and saw them off on the boat for the wide west. It always takes more than a missionary to make foreign missions successful. There has to be a praying, obedient, mission-minded home church.

Expeditionary Force

Barnabas and Paul, on the other hand, were not like young chaps just out of seminary. They were seasoned mature men, tested workers, known and successful leaders. The church in sending them sent its best. It is a thundering mistake to fancy that you can send to the foreign mission field the poor fellows who couldn't hold down a church in America. It takes a lot more character and ability to make Christ known in a totally indifferent or hostile atmosphere than where there is already a partly Christian atmosphere and where the church is a going and often powerful institution. Whether it's home missions or foreign missions it is the same story. The firing line, the front line, calls for the best. By and large, too, the church has seen this (when it has "seen" missions at all).

If Not Missions, then—?

Suppose the church never sent missionaries, never did any evangelistic work, quit pioneering everywhere. Then what? Well, what would happen to a firm that never went after new business? What would happen to a newspaper that never wanted new subscribers? What happens to a herd of cattle that never admits new blood? An inbred church is like any inbred family. But the most important question is: What will Christ say of a church that pays no attention to his order: "Go into all the world"—?
