## LIONS NEWS

The Taneytown Lions Club met in regular session Tuesday evening, Oct. 13, 1953, at 6:29 p. m. with President, Homer Myers presiding.

Meeting opened with the singing of the Star-Spangled Banner with Lion Harry I. Reindollar at the piano. Invocation was offered by Lion Curtis G. Bowers.

The Club was honored by having two very fine speakers at this meeting: the first Lion Arthur E. Holgate, of Reno, Nevada. Lion Holgate is Civil Defense Director for the State of Nevada and Chairman of the American Public Works Association of Nevada. Lion Holgate was one of seven hundred who were named to be present at the Detonation of the Atom Bomb at Yucca Flats in Nevada on August 20, 1953. Lion Holgate gave a very vivid description of this event and all the actions leading up to and after the detonation. Lion Holgate's description and talk was much enjoyed by all present.

The next speaker was Mr. Raymond Beard, Safety Engineer of the Potomac Edison System. Mr. Beard's address was based on the loss of property and life from the destructive fires which occur in the United States. He used as an example the recent General Motors fire which caused a property damage of 30 million dollars not counting the lost time of the workers. Mr. Beard stated that the General Motors building covered thirty-four acres had no protective fire walls and was caused by a spark from an electric welding machine falling on a greased soaked belt. Fire walls would have confined the fire to a small section and would have given the firemen a chance. He stated that a great many fires are in homes and asked the question how many have a fire extinguisher in their homes. Five was the answer. Mr. Beard stated that the fire loss in this country last year was 850 million dollars and this year is far ahead of last year.

Both these fine addresses gave us something to think about first the protection from invasion by the use of the Atom Bomb and the use of protectives from disastrous fires. Mr. Beard was in fine form and gave us a real message.

Lion Bernard Arnold introduced his new member Herbert McKettrick who was welcomed into the club by Lion President Homer Myers.

## KIWANIS NEWS

Mr. Arthur Holgate of Reno, Nevada, addressed the Taneytown Kiwanis Club at the Club's regular meeting at Taney Inn Wednesday evening. Mr. Holgate is in the East in the interest of Civil Defense being the Director of Civil Defense in the State of Nevada. He attended a meeting in Washington, D. C., of representatives of Civil Defense. Mr. Holgate who was introduced to the club by Elwood Baumgardner, described the recent detonation of the A Bomb at Yucca Flats, Nevada. He had the distinct honor of representing his Governor at this awe-inspiring event. His description of the explosion was quite interesting and informative.

Guests of the club were Mr. Frank Wagny, Principal of the Taneytown Elementary school and Glenn Copenhaver and Frank Henshaw of the T. H. S. Key Club.

The meeting next Wednesday evening will be "Farmer's Night."

## WEEK'S PROGRAM IN REFORMED CHURCH

### Governor McKeldin will Speak Tonight

After years of planning and anxious anticipation the congregation and church school of Grace Evangelical and Reformed Church greatly rejoiced on Sunday morning as the week of dedication ceremonies was begun.

The congregation gathered outside the new building at the appointed time. Raymond Perry, Chairman of the Building Committee presented the key to Edgar Fink, Gen. Superintendent of the Sunday Church School. He then unlocked the door and Rev. Morgan Andreas, the minister, opened the door. The choir, the ministers and the congregation entered into the beautiful building as they sang joyfully and lustily with feeling "Holy, Holy, Holy."

As part of the worship program the Sr. Choir sang "Open the Gates of the Temple" by Knapp and the Chapel Choir sang "God's House," by Loucks. The Men's Quartet rendered "Glorious Things of Thee are Spoken" by Haydn.

The dedication address, "The Christian's War," was brought by Dr. Robert V. Moss, Jr., Professor of New Testament Science at the Lancaster Seminary. He challenged his listeners to "put on the armor of God" which includes the girdle of Truth, the shield of Faith, and the sword of Salvation. Only as these are used can God's Kingdom be established and the day of peace and brotherhood come on earth.

Sunday evening the C. E. Society dedicated the altar to God in memory of Mrs. Amos Hilbert, who had been a faithful, charter member of the Society for its many years of existence. The minister spoke on the meaning and significance of altars and Mrs. Carrie Beal spoke on the meaning of a faithful church member.

The Taneytown District Church School Rally Day program was held in the parish house on Sunday evening when the High School chorus sang three sacred numbers and Professor Harry O. Smith, Principal of the Frederick High School, was the speaker. He urged his listeners to the development of the full life as they put Jesus Christ at the center of life as his core.

On Tuesday evening a most tasty and delicious meal in the style of a covered dish supper began the program of Church Family Fellowship night. Group singing was led by Miss Margaret Shreeve with Mrs. George Harman as the pianist. Under the direction of Mrs. Harry Mohny a one-act play, "Every Husband" was presented. The cast included Mrs. Geo. Harman, Mrs. Carel Erock, Mrs. Emerson Rue, Mrs. Ellsworth Lambert, Mrs. George Motter, Mrs. George Freeman, Mrs. William Airing, and Miss Helen Bankard.

The fellowship address was delivered by Dr. Nevin Smith, minister of Emmanuel E. & R. Church, Hanover. With practical wit and humor intermingled with the most touching seriousness he addressed the most appreciative audience. He encouraged the assembly to use the building wisely in teaching and bringing the gospel of Christ into the lives of those who shall use it so that new generations of Christian men and women dedicated to peace, love and brotherhood might rise up.

On Thursday night the Governor of Maryland will speak and on Friday night the Carroll County E. & R. Laymen's Conference will be held in the parish house, bringing to a conclusion a most noteworthy and highly regarded week in the history of the church and congregation.

## PARENT STUDY GROUP NEWS

The Parent Study Group of Taneytown Elementary school met Oct. 7th, at 1:15 p. m., in the library for their first meeting of the school year. Following the secretary's reading of the minutes, Mrs. Charles Hopkins, chairman, introduced those who will serve as Home Room Mothers for the school year, and welcomed all other mothers present.

Miss Evelyn Maus, leader of the group spoke briefly on the activities of the Parent Study Group. Since the meeting was centered around television 2 articles on the danger of TV were reviewed by Mrs. Glenn Stahl. Surveys prove that the average televising of children is 4 to 5 hours daily, which means our children are spending nearly as much time before a television screen as they are in the classroom. Naturally, this takes much time away from library book reading, social companionship between parents and children, and home work assignments.

Other factors contributing to the harmful effects of TV and discussed by the group, are dangers of eye strain, incorrect posture, improper speech and too many second rate programs. Mothers were selected from the group to view the educational programs on television, and present their views at the next meeting.

Principal Wagny spoke to the group thanking them for their interest in the school program. The meeting then adjourned.

## "SPICE 'N' EVERYTHING NICE"

### (Your Chatty Column)

With all my heart, I wish you every morning a smile that shall last until the next day's dawning. I wish you health-life's greatest wealth! I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

## MORE LETTERS

Dear Observer: I have been married a number of years with a husband who has a frightful temper. I keep thinking and praying that he will be better and have forgiven so many times only to see it all over again. I tremble when he comes from work at night as soon as I hear the key slip into the front door lock. His sister told me many years ago when our marriage first took place that if I lived with her brother, I would be an earthly angel. I am terribly nervous and can't sleep at night. Will you kindly advise me? Answer—Why not consult your Minister first and if that fails see a lawyer immediately. It is sinful to live in strife and discord and that is the reason I firmly believe in divorce. It is never too late to find peace and happiness!

No 2—I have a young son who has always been a very fine boy until lately through his associations. He is fifteen years of age and does not want to go to school and remains out very late at night. We sit up and wait for him until all hours of the mornings. I have scolded and punished him to no avail. You have three sons and I am asking you please to let me know how you managed.

Answer—You will smile, Mother when you read that my boys were always in bed at 9 o'clock up until they were fourteen years of age. Of course, if there was anything very special going on for their benefit, they were always permitted to go. I use to tell them that I believed in everything they did and always come to me and talk it over if anything troubled them. That way, we always were very, very close and our love grew and grew and grew. Try being affectionate with your boy, hug him and caress him and tell him what he means to you and just what you are expecting of him. All the fine things in life and that you I hope he will never disappoint you. I have discovered that boys somehow are very close to a Mother even more so many times than to the father.

Faithfully,  
YOUR OBSERVER.

### SPEEDING THE MAIL

Postmaster General Summerfield deserves credit for experimenting with a plan to carry regular first-class mail by plane. The scheme has limited application. It is feasible only on trunk mail routes, such as New York to Chicago. And we are told it will merely supplement the air mail; three-cent letters will go by plane only when the air lines have "extra space" available—and on which the ton-mile charge is halved. Is this an oblique way of cutting the air mail subsidy?

It is not clear either how the Post Office will adjust its contracts with the railroads. However, it is pleasant to see the government showing enterprise to speed the mails.

The experience of many users of the mails suggests that employing more planes is by no means the key to speedier postal service. The big time loss is not between major termini but in pickup and delivery. It is possible for a man in Chicago to get an answer by mail from Boston in 40 hours. But air mail won't do it—unless a special delivery stamp is used. We wish Mr. Summerfield success in his effort to put wings on regular mail. But we hope he will experiment with the tougher problem of moving our letters faster before they take off and after they land.—Christian Science Monitor.

### GRASS ROOTS OPINION

AFTON, WYOMING, STAR VALLEY, INDEPENDENT: "Farmers must realize that an era of 'false prosperity' will always have a day of reckoning, and unless they face problems realistically they can be unnecessarily hurt."

CHISHOLM, MINN, FREE PRESS: "The Constitution of any government, if it is to withstand human corrosion and deceit must contain meat for strength, and bread and salt for stability. Nothing since the penning of our own great Document has ever reached such near perfection. Under its protective wing, men and women of all races and creeds have found nourishment and life."

SAUGERTIES, N. Y., DAILY POST: "The principle on which this country's government was founded is that of civilian authority over the military. When the majority of Americans forget this safeguard, it will be an ominous turn in the history of these United States."

LOVINGTON, N. M., LEADER: "The sooner that everyone realizes that everyone can't work for the government and that some work elsewhere, the better off this country will be. Someone has to pay the taxes to pay the government workers."

LIBERAL, KAN., SOUTHWEST DAILY TIMES: "The people really want government by the people, not by bureaucrats."

# Most-liked low-priced car

... among people who want more for their money when they buy . . . and more money when they sell!

There's a big reason why more folks are buying more Fords than ever before. No other low-priced car offers so many of the things people want and need for today's driving. In fact, to get such "Worth More" Ford features as a V-8 engine, completely automatic transmission and fine-car power steering in any other car, you'd have to step well up from the low-price field.

Of course, Ford owners will discover that Ford's worth more when they sell it, too. Surveys of used car prices show year-old Fords returning a higher proportion of their original cost than any other car.

## because it's most like high-priced cars

... more and more people are considering Ford as the one fine car in the low-price field!

It's hard to believe that a car which is built like the finest still sells in the low-price field. Yet a Ford with its huiltight Crestmark body, its Full-Circle Visibility (most in its field), its new fine car ride and roomy luggage locker (roomiest in its field) delivers at a figure that keeps it right down in its price class.

Ford's the only low-priced car which offers you a choice of a completely automatic transmission (Fordomatic), Overdrive or Conventional Drive.

And Ford Master-Guide, available on all V-8 models, is the last word in power steering . . . makes turning up to 75% easier, yet retains the natural feel of the wheel on the straightaway.

See . . . Value Check . . . Test Drive the Ford of your choice at your Ford Dealer's. Find out why Ford is America's "Worth More" car.

Ford's V-8 is the same type of engine powering America's finest (and costliest) cars. And Ford's Mileage Maker Six is the most modern Six in the industry.

## CURRENT EVENTS FIFTY YEARS AGO

President Roosevelt wishes it known that he takes a deep interest in the Maryland election and is thoroughly in sympathy with the Republican ticket. With this in view and desiring to extend a special mark of courtesy, he had Mr. S. A. Williams, the Republican candidate for Governor of Maryland, at lunch at the White House last Friday, by special invitation.

The November term of the Circuit Court will begin on Monday, the 9th. The list of jurors drawn by Judge Thomas for Taneytown District is as follows: David C. Ott, James Kuhns, John V. Eyer, Benjamin F. Bowers.

Under an opinion rendered by Attorney-General Isidor Rayner, on Saturday, to Secretary of State Wilfred Bateman, the candidates of the Prohibition party for the state offices to be filled this fall have been ruled off the official ballot. The reason for this is that the certificate of the candidates were not filed until Friday afternoon, which was one day too late.

St. Joseph's Catholic Church has been greatly improved with a slate roof and slatted belfry. The Taneytown Republican Club will be addressed tonight (Friday) by Samuel S. Ford. The Band will be present and a large turn out is expected.

W. E. O. Hiner, of Copperville, has been appointed to select choice fruit for exhibition at the World's Fair, St. Louis, and will be glad to hear from all who have very fine specimens of fruit of any kind.

Copperville—Miss Laura Ridgely, who has charge of the Oregon school so far, has progressed without a reprimand. Prof. Simpson visited the school, and upon investigation was highly pleased with the present discipline. Miss Ridgely contemplates holding an entertainment for the purpose of purchasing an organ for the benefit of the school, and the plan should be encouraged by all patrons of the school.

## GLADYS SWARTHOUT WILL SING WITH MOUNTAINEER GLEE CLUB

There has always been music at Mount St. Mary's. As far back as 1809 when Elizabeth Ann Seton walked over to the Mount from her home in the Valley to accompany the choir boys at benediction on a simple hand organ, male voices have blended in harmony at the stone fortress at the foot of the Blue Ridge. There are memories of the great men of music at the Mount who played, sang, composed and handed down traditions of the past to be cherished.

At Christmas time Dr. Henry Casper Diehlman's "With Glory Lit" stirs memories of the man from Frankfurt, Germany, who received a medal from the Pope in 1876 for meritorious musical compositions while at the Emmitsburg school. There was Professor Braun who directed the college orchestra in 1908. . . . Prof. Baptista Ferrata from Italy, the noted pianist who came from Europe in the early part of this century to teach piano at the Mount. Prof. William Sterbinsky who taught the students most anything in the musical world from piano to flute. For years St. Cecilia's Society presented elaborate classical programs at the annual commencement.

In 1947, the Rev. Fr. David W. Shaum, native of Taneytown, and graduate of Peabody Conservatory, Baltimore, and Rev. Fr. Peter Coad, dean of the college faculty, brought new life to the music department of the school. Together the two priests reorganized the Glee Club and Father Shaum, who is a graduate of both the college and Mount St. Mary's Seminary, was named director. At the time the young musician was assistant pastor at Old St. Vincent's Church, Baltimore.

Father Coad, cherished as the "old man of the mountain," was a guiding spirit in the forming of the new group.

His aim, along with Father Shaum's, is to give the non-experienced an opportunity to discover their talent and to develop promising voices. A democratic procedure was followed by the election of officers the first year with the club composed only of members of the freshmen class. Roy Drake, who is presently a scholastic in the Society of Jesus, was named first president of the club.

Father Shaum, who holds a certificate in piano from the Preparatory of Peabody Institute, Baltimore, has outlined varied plans for the school year. About 17 concerts are on the schedule with the Christmas Candlelight concert and the spring festival of Music as features. The highlight of the year will be the appearance of the mezzo-soprano, Gladys Swarthout, of the Metropolitan Opera with the glee club November 29 at the Lyric Theater, Baltimore.

Auditions are held at the beginning each school year. Rehearsals are held twice a week with a heavier schedule just before concerts. A strict discipline is maintained. Any member who has three unexcused absences from rehearsals is dismissed.

The singers appear at concerts in white dinner jackets and black trousers. On special occasions when they appear in operatic settings the singers wear a white satin blouse with full sleeves, blue shoe-string ties and dark trousers.

Last year's president was Guy Baker, Jr., Emmitsburg, who has joined the armed forces and is presently stationed at Fort Knox, Ky. Present officers include: President, Bernard Jankowski, Mount Carmel; Vice-president, Paul Camiletti, Wheeling, W. Va.; Secretary, John Mahoney, Valley Stream, Long Island, N. Y.; Treasurer, William Fanelli, Ashland, Pa., and Librarian, Andrew Schwind, Jr., Rochester, N. Y. Camiletti is the piano accompanist.

The club will sing in Baltimore, Harrisburg, Atlantic City, Mount Carmel, Washington and other cities. Father Coad, in his 80's, the moderator, who made all the trips with the

club, is seriously ill in a Camden, N. J., hospital and will not be with the club this year.

Father Shaum attended the Fred Waring Camp this summer in order to derive some ideas and techniques from the famous Pennsylvania musician. He is presently working for his Master's degree in Liturgical Music at Catholic University of America, Washington.

The Glee Club is affiliated with the Associated Male Chorus Inc. of America which carries the privilege of participating in the Maryland district concert held in Baltimore annually with several hundred voices participating. The club has appeared in WMACTV on the "Church Visible" program and will appear on television again this season.

Clair Redding, son of Mr. and Mrs. Clement Redding, R. 2, is a second tenor. A member of the freshman class, he was graduated from Delone Catholic School, McSherrystown, in June. Charles Baker, Emmitsburg, a brother of last year's president, is also a second tenor. Tenor soloist for the year will be James Campbell of Freeland, Pa.

In addition to Father Shaum's work with the college club, he is also director of the Mount St. Mary's Seminary choir, "Scola Cantorum." A member of the National Music Educators Association and the National Catholic Music Educators Association, Father Shaum was graduated with "Summa Cum Laude" from Mount St. Mary's and was organist for the choir while a student.

## YOUNG REPUBLICANS MEET

The Young Republican Club of Carroll County met October 5 at the Charles Carroll Hotel, Westminster, with Miss Ellen Arnold presiding. Representatives were present from Westminster, Mt. Airy, Franklin and Hampstead Districts. An invitation was extended to the club to attend a meeting on Wednesday, November 4 in Fellowship Hall, St. Paul's Reformed Church, Westminster, when Miss Bertha Adkins, Assistant to the Chairman of the Republican National Committee, and State Committee woman for Maryland, will be the guest speaker. Charles Miller, Hampstead, Chairman of the Membership Committee, announced that twenty-one new members have been added to the Club's roster since the June meeting. State Senator Stanford Hoff spoke, describing the Republican organizational set-up. Senator Hoff announced that a meeting will be held in each district, probably next January, for the purpose of submitting nominees for the Republican Central Committee. He invited the Young Republican Club to submit a name in each district. Following Mr. Hoff's speech an open forum was conducted and he answered many questions which were raised by the group. At the conclusion of the meeting refreshments were served by Miss Arnold, Mrs. Evelyn Wagner, Mrs. June Lindsay and Mrs. Maxine Peeling.

## "THE CONSTANT INVADER"

A new dramatic radio series, "The Constant Invader," sponsored by the Carroll County Tuberculosis Association, will be broadcast for 13 weeks beginning the first of October over Station WTTR, Westminster at 11:15 o'clock. The series is presented as a public service in cooperation with the station's management, Mrs. Kathryn Diffendal, executive secretary of the association, announced.

Edward Arnold, distinguished stage and screen actor, and star of the "Mr. President" radio series, is featured as narrator of the dramas based on true stories of people who have fought personal battles against tuberculosis.

This is the sixth series of The Constant Invader produced by the National Tuberculosis Association in New York with professional casts including stars of radio, movies and the Broadway stage. The 15 minute transcribed dramas have been heard in past years on radio stations throughout the country.

"The series combines stirring dramatic entertainment with information to help us all protect ourselves against TB. Some of these stories could have come right out of our communities. And most of the problems they illustrate so forcefully are problems right here in Carroll County," Mrs. Diffendal said.

The fight to control TB dramatized in The Constant Invader is carried on in this area by the Carroll County Tuberculosis Association through projects such as Health Education; Case Finding and Rehabilitation. Presentation of The Constant Invader itself is part of the association's program to help people of this county to protect themselves against TB.

## Why 54,267 Families In This Area Use Electric Ranges

The reasons why over 28,000 Electric Ranges have been purchased here in the past FIVE YEARS

**FAST COOKING:** Heat is applied directly to cooking utensil; none "escapes" around the edge of the pan. Surface units glow almost instantly and oven is completely insulated, retaining more heat and allowing foods to cook quicker.

**ECONOMICAL:** Cheap electric power cooks meals for about 10 cents per day. Electric oven cooking seals in juices and flavor—reduces shrinkage. Range-top cooking preserves full flavor and vitamin values because less cooking water is needed.

**PERFECT RESULTS:** Temperature controls assure accuracy. Baking, broiling or cooking on surface units, just-right cooking speed every time you flick the switch. Electricity provides complete control of all phases of cooking, assuring perfect results.

**CLEAN:** No smoke, no soot, no fumes. Kitchens remain fresh and clean; pots and pans stay bright. Electricity is the only fuel that cooks with 100 per cent clean heat.

Well it happened again. Another accident here on Thursday night. A car driven by Richard Crushon and accompanied by three other boys side swiped a telephone pole between the cross roads of this place and the hill, completely demolishing the car, and seriously injuring Thomas Rippon who was thrown out of the car. An Ohler boy received head injuries. Both were taken to the Gettysburg Hospital where the Ohler boy received treatment and sent home while the Rippon boy remained a patient. Another boy Wade Weaver received only a few scratches and the driver was unhurt. I don't see why something can't be done about this road. After all that is what the taxpayers are paying taxes for to have better and safer roads, also there should be signs to caution the people of the dangerous sections in the road. We of this community hope that something will soon be done for the safety of all concerned.

I consider the happiness of being a grandmother much overated. How it can make any woman of experience happy to stand by and see her sons and daughters mismanage their children, I have never yet been able to understand.—Mrs. de la Pasture.

It is hard to believe but there are many people who cannot stand the quietness and dullness of country living. Some time ago we were in Bucks County, Pa., and came upon a beautiful country home that had been deserted by its owner simply because he couldn't bear the terrible stillness. He was a writer and thought he could do better work in the country. But he was city bred and he missed the clamor and bustle of a busy life. He went back to his city apartment and no doubt is very happy, and probably writing a best seller at this moment.

The kidnapping and killing of Bobby Greenlease has both shocked and disturbed every parent in America. Crime has become one of the major sins that plague the public. What can be done about it? Indignation on the part of every honest citizen and a demand for law enforcement and less babying of criminals will help but more important are the eliminations of the causes of crime. There have been dozens of surveys on this subject and many suggestions offered on how to eliminate the seed beds of criminals, but the public turns a deaf ear. Not until a particular revolting crime occurs does the public show any particular concern. Jails nor the death penalty reform criminals. The place to stop the makings of a lawbreaker is in the home and in the schools. Look around in your own community and you will be able to spot at least a dozen children between the ages of ten and fifteen that already have the makings of future criminals. If something was done for these children now, they would make good citizens. But will the community make the effort? The answer is NO. Unless some individual takes it upon himself to salvage these children, a dozen more criminals are in the making, and every American citizen will pay the price, not only in suffering, and in taxes, but in the stigma of shame. America today stands before the world as the most lawless Nation in the family of Nations. Not a record that anyone cares to boast about.

Dick Biser, of Frederick, was the guest this week of Paul Roelke at Merry Knoll Farm.

Men who desire power are seldom of a warm and humanly affectionate disposition. The longing for fame and the longing for love are the two chief motives which govern mankind. Unfortunately these two motives are opposites, for one signifies the will to conquer, the other the desire to capitulate. They are incompatible and rare indeed is the man of power who also has a heart.

The squirrels this year will have short rations as the crop of wild nuts are unusually small due in part to the dry weather and also due to the two hailstorms we had.

This is the last week of the Children's Aid Society drive for funds. If you have been asked to mail your contributions to your local solicitor or to the office in Westminster. You cannot afford not to help the needy children of your county. No person that calls himself a Christian can afford to close his heart or his purse to a child in need whether that child is his own or his neighbors.

Over a century ago, Irish immigrants brought to this country a bit of folklore and mischief making which we know today as Halloween. This date of ghosts, goblins and witches on brooms goes back two thousand years to the sun-worshipping Druids. Ireland was the stronghold of the Druid Priests, who practiced their rituals in the oak forests of the Gaelic countryside. While the Druid Priests took these rituals seriously and believed in the witches and goblins they worshipped, today the emblems of Halloween are used for fun and frolic. Sometimes, too for vandalism. But most of us remember the date as a time to dress up in costumes and play harmless jokes on each other.

The moon not only pulls the oceans back and forth in the tides, it stops cars on the side roads. (Heard on a college campus).

Well, the farmers in Wisconsin had a chance to let the Republicans know how they feel about their farm policy. Yesterday (Tues) they elected a democratic congressman in a special election on a landslide victory. The first time in history that a Democrat was elected from this particular district. The honeymoon is over for Senator McCarthy. He is back looking for communists in every fence row in Wisconsin.

### The Shining Light

Lesson for October 18, 1953

ARE we agreed that Christians ought to plan ahead for a better world? Are we agreed that the foundation of a better world is Jesus Christ and Christlike persons? Then we can go on with the next question, a very practical one. What exactly can God's "new men" do to leave this world better than they found it? Granted, we shall never see an ideal world this side of heaven; granted, we shall be imperfect persons as long as we live in this world. It is still possible—more than that, it is imperative, a "Must,"—for Christians to work and plan in the direction of the world of God's ideal.

### Salt And Light

The first thing we can do, odd as it may sound, is not to do anything, but to be something. Jesus spoke to his disciples—and to us—in terms of salt and light. Now salt and light do not do anything, or rather what they do depends entirely on their being what they are. If salt could change its mind and decide to be pepper or sand, no cook would want it. If Dr. Foreman an electric light could change itself into a doorknob, it would cause no end of trouble. The salt doesn't rush around doing something, it just is salt, the light is light. Salt and light are alike in this: there is no real substitute for either one. So there is no substitute for real Christians in this world. They are alike also in that they do whatever good they do, by contact. Salt in a shaker, light in a steel box, are of no use. So the Christian to be of use in the world must not shrink from contact with it.

Furthermore, salt and light are alike in that they must not be too prominent. No one cares for over-salted food or glaring lights. So a Christian who is like a Pharisee, wearing his virtues on his chest like a string of medals, is a nuisance to all concerned. But still it is true that the first and most constant service which every Christian can render in this confused sad world, is simply to be as good a Christian, as faithful a representative and servant of Jesus Christ he can possibly be.

### Helping Others

Another thing that God's new men can do, a thing which can remake the world and in many respects has been re-making it,—a thing that sounds simple but which calls for a great deal of thought and planning, is this: just helping other people.

The New Testament makes it quite clear that an unhelpful Christian is hardly a real Christian at all. Naturally, not all Christians have the same opportunities. A little girl just entering the first grade can help her classmates and the teacher; but the teacher if she is a good one, can help all the class even more. The principal of the school, by selecting good teachers, can by his skill in judging people help every pupil in the school. The members of the school board by picking good principals can help the whole school system.

A boy on a farm in Missouri does not have the same opportunity to be helpful that he would have if he had been appointed Secretary of State. But a Christian, whether his zone of operations is a farm or the world, can always find ways of "going about doing good" as the Master did.

### Winning Others

There is one thing that most Christians do not do, which—if they only went at it with any enthusiasm—would spread their light farther than any other one thing. (We bear in mind that if a Christian has any light, it is because Christ shines through him.) If it is true that the "better world," even if only a little better, can come to pass only as personalities are changed into the likeness of Christ, then the best thing a Christian can do toward a better world is to win others to his own Saviour. Saint Paul no doubt was helpful to others by the tents he made, for we can scarcely imagine him turning out shoddy or bungled work. He was more helpful still by "growing in grace" and shining as a true Christian character. But was there any service he performed which meant as much to him, in satisfaction, or to the world, by way of improvement, as the service he rendered in winning men from the kingdom of darkness to the kingdom of light?

All American Indians are citizens of the United States.

"People have two ideas about a secret. It's either not worth keeping or it's too good to keep." Reporter, Kanawha, Ia.  
So they give it away.

From the cradle to the grave, a human being is engaged in a quest.

A man's measure is often discovered in the nature of the things he seeks.

Twenty-five cents a quart for milk places a premium on a cow.

What wears so forlorn a look as an empty hotel or a deserted resort center?

The little one knows should make him eager to know rather than think he knows it all.

What is the value of sighting at a target if you never fire the gun?

Dr. Walter S. Donaldson, editor of the Pennsylvania Medical Journal, told 57-year-old John Pappas, of Pittsburgh, Gratitude is better than money.

One passes through 46 tunnels on the Milwaukee Railroad between Chicago and Seattle. The shortest 163 feet, the longest 2 1/4 miles, and the highest 6,335 feet.

The 45th parallel north latitude, which indicates the distance half way between the Equator and the North Pole, is marked on the highway a very short distance north of Salem, Oregon.

"The trick for New Year's resolutions is to make so many that you forget to break some of them."—Richard Attridge.

### MD. BANKERS ASS'N WINS NATIONAL AWARD 10TH STRAIGHT YEAR

For the tenth consecutive year, the Maryland Bankers' Association was given the top rating of the American Bankers' Association for the best agricultural program in the nation.

The thousand point rating program was started 25 years ago to measure the effectiveness of the agricultural activities of state bankers' associations. Maryland won with a 1275 point score, having won 600 extra points for special activities.

A. S. Gadd, Jr., Centerville National Bank, and Nevin S. Baker, Citizens National Bank, Frederick, co-chairmen of the Maryland bankers' agricultural committee, were presented a recognition certificate in the afternoon (Sept. 23) by W. W. Campbell, chairman of the national bankers' agricultural commission. The award was made in the second general session of the bankers' convention being held in Washington.

The Maryland bankers were cited for their farm credit conferences, support of 4-H Club work and their cooperation with conservation groups.
