The first plan was to have the disposal plant on the north side of Taneytown down the stream from the pumping station. ## TANEYTOWN RESIDENT CO-AUTHOR OF BOOK

"Handbook of Tomorrow's Antiques" published on November 30 by T. Y. Crowell, New York City is co-authored by a Taneytown resident, Marjorie M. Smith, wife of Robert W. Smith. In conjunction with Carl W. Drepper, New York City, noted antiquarian and author of many books on the subject, Mrs. Smith has spent the better part of a year in preparation of the material for the book.

A gala pre-publication autographing party was held for Mrs. Smith and Mr. Drepper at the Barr-Hurst Book Store, Lancaster, Pennsylvania on November 24th where the two authors autographed copies and discussed the book with purchasers. The authors have just been advised that due to the large number of advance sales, the publishers expect to have a second edition in print before the first of the year.

"Handbook of Tomorrow's Antiques" will assist the collector in describing, identifying and evaluating thousands of objects for purchase. Objects that are seen everyday at auctions, antique shops, secondhand shops and pawnshops. It suggests numerous collecting categories, arranged in alphabetical order for rapid, ready reference.

The book covers 61 subjects and contains more than 1,000 illustrations on such popular collectors items as atlas prints, signs, weathervanes, clocks, glass, needlework and commercial antiques. The authors reveal what to collect, where to find it and what the chances are of increasing its value.

## INCREASED RATES ASKED BY G. & P.

Application Made to the Public Service Commission

The Chesapeake and Potomac Telephone Company, of Baltimore City today asked the Public Service Commission to grant it increased telephone rates so that it "may continue to progress with and contribute fully to the growth and development of Maryland."

The company stressed in its application that problems caused by inflation have "plagued" all utilities including telephone companies throughout the past war period. It noted that increases in telephone rates since the war have "lagged well behind increased costs with the result that serious and irreparable losses have been incurred by the company. The stage has now been reached where effective remedial action is imperative if impairment of the company's ability to provide its vitally important communication services is to be avoided."

C. and P. told the commission it has carried out large scale telephone construction for a number of years in order to provide for the "extraordinary" public demand for new and better grades of service. Pointing out that its program today "surpasses anything heretofore experienced" C. and P. said additions to telephone plant in Maryland will total \$29 million in 1953 and will climb to \$30 million in 1954.

The company's petition noted that today's record telephone-construction is being provided at currently high price levels with the result that, as additions are made, the average investment per telephone will be substantially increased.

Wages were cited by C. and P. as one example of continued high operating cost. New wage agreements providing substantial increases for employees were negotiated in August and September. These increases alone, it was emphasized, "offset a substantial portion" of the company's last rate increase.

The company declared it "has sought by every means consistent with sound management to offset the effects of inflation through efficient and economical operations." As an example, it said use of the most modern technique and equipment, developed through the continuing research program carried on in the interest of telephone users in the state, has made possible "a significant reduction—in the number of man hours per telephone required to provide the high standard of service available in Maryland."

Without this emphasis on improved efficiency, C. and P. indicated its financial condition would be "even more critical than is now the case." It added, however, that experience has shown that the financial health of the company "cannot be restored through this medium alone. It must be accompanied by a repricing of its services which realistically recognizes the needs of the company interpreted in the light of present-day economic facts."

In its petition, the company asked the P. S. C. for a new determination of the fair value of its property, a finding of what constitutes a fair return of such fair value and the approval of a schedule of rates and charges which will yield such a return.

With all my heart, I wish you every morning a smile that shall last until the next day's dawning. I wish you health—life's greatest wealth! I wish you always near so that I may help to cheer.

Each future day and in some way—help to bring you happiness! Just things that happened during the week of Thanksgiving!

The calf being butchered and my first experience of the wrapping of the meat for the new Upright Freezer!

That precious "SUGAR" getting sweeter all the time (Cocker Spaniel Puppy). Now is really up to the 4 XXXX's! She likes to tease every- one by opening their shoe laces! And when one pair is accomplished, she walks over! Cute?

The family! Cute? Listening to Bishop Sheen on Tuesday evening and at the very end saying, "Pray for me so as I may live as I preach!"

The little boy sitting on the step with folded arms in which his head lay realizing more and more that the Crepe upon the door was for his wonderful Mother who was talking to him just this time yesterday! (That one, Your Observer will never forget).

And then the nice letter which came the next day from my eldest School Teacher son from California stating how very much he likes and enjoys his Profession! (This is his first year).

Reading in Coronet on Page 7—"WHEN CHRISTMAS WENT OUT-DOORS!" According to the article, it was just 35 years ago this Christmas! Hearing "THE LORD'S PRAYER" sung by a Member of the Thanksgiving Service in the little old church on the Circuit which was the finest I have ever heard any Operatic Star on T.V.

The sudden visit to "Rustic Acres" to purchase "SPICE" and came home without him. "RUSTIC" is the word. The nice letter from a Soldier boy in Korea which I answered immediately as he was so disappointed as well as his parents in not getting home for Christmas!

The Unusual article in the five and dime for 98 cents. Large Sleigh Bells on Plastic—all over red of course—for the front door during the Christmas holidays! (That one I'll give myself).

The trains running on the track (electric) in the five and dime plus the recording of the actual whistle, sound "n" everything at the station. And who do you think was standing there—not singular but plural—all the "FATHERS!"

Being floored hearing my youngster for the first time sing in a duet with another of Alto voice in the Thanksgiving Service—"AMERICA—THE BEAUTIFUL!"

The real surprise of the stranger from Westminster to meet Your Observer who is a student in the College. (STUDYING FOR THE MINISTRY.)

And now, Mother—No. 3 letter for your youngster—

Dearest Little Friend:— Well, Christmas is coming and all thru my shop Not a brownie is idle, they dare not to stop. The toys they are making are planned with great care. For all my good children who live everywhere. And when I arrive on next Christmas eve, I'll have much to do before I can leave.

So be sure that I find you asleep in your bed Letting sweet dreams of Santa creep into your head. Then, I'll dropdown your chimney as quick as a flash, Leave all your presents, then away in a dash; And before you know it, I'll be out of sight.

For there's many a stop on my long list that night. So, Goodbye for now—may your dreams come true; And a Merry, Merry Christmas always to you. Your Friend, Santa Claus.

Have a grand week-end, Folks. Be careful in driving over the Highways especially with the Christmas rush just ahead. So long until next week. D.V. I am, Faithfully, YOUR OBSERVER.

#### THE LOCAL PAPER LEADS

In the comparatively recent past, the local newspaper was about the only place where merchants could advertise their wares. Since then, other important media have come into existence—notably the radio and television. But, despite the inroads these have made on retailers' advertising budgets, the newspaper is still the dominant factor in the field by a wide margin.

That statement is substantiated by a recent survey of the advertising practices of department stores in all sections of the country. It found that the typical store allocated 80 per cent of the advertising dollar to newspapers, nine per cent to television, four per cent to radio, three per cent to direct mail, and four per cent to other media.

The local newspaper offers the surest means of reaching the masses of the people—whether with a news story or an editorial opinion or an advertising message. And that's why merchants place it first when dividing up their advertising appropriations.

Incidentally, one wonders if there are still people who regard advertising as a waste which adds unnecessarily to the cost of goods. Actually advertising acts as a possible factor in holding prices down by creating the widest possible demand for merchandise, and thus making mass production and mass distribution possible.—Industrial News Review.

#### GRASS ROOTS OPINION

**ABILENE, KAN., REFLECTOR-CHRONICLE:** "President Eisenhower has issued an order which relaxes some of the restrictions on the work of newsmen who must report on the activities of government departments and agencies. Hiding legitimate news does not contribute to national security. It will be well if no further attempts are made to curtail the right of the people to know what their government is doing."

**HILLSBORO, ORE., ARGUS:** "Cooperation between labor and management, not perpetual struggle between them, has made America strong. The labor of both skilled artisans and skilled executives is essential to the ever-greater productivity of our industries through which we will reach the goal of an ever-better America. Let us all remind ourselves that we are in the same boat—and that only by pulling together, not against each other, will we reach the favored shore."

#### PENCILS AND POWER

The Morning Herald, of Hagerstown, Maryland, recently ran an exceptionally compelling editorial on the Tennessee Valley Authority in particular and socialism in general.

One of the country's big pencil manufacturers, it said, could find nothing wrong with TVA. Among other things, he was an ardent fisherman, and he was enthusiastic over the lakes that TVA has created for recreational purposes.

Then the Herald commented: "Suppose the government set up an Authority to own, manage, and operate its vast timber holdings throughout the nation. Suppose this Authority decided to go into the processing of timber, and incidental to this processing operation decided to build a pencil factory."

"We would then have a situation quite parallel to that of the TVA and its electric power industry."

"This pencil factory would be built with money appropriated by the government and the Authority would be charged no interest on the investment. Moreover, the Authority would pay no federal taxes, would pay only nominal local taxes, would have franking privileges for all its advertising by

mail, free legal services and many other special privileges.

"How long could the private pencil manufacturer compete with this Pencil Authority?"

That analogy is accurate. If it is proper for the government to use the people's tax money to build facilities for generating and distributing electric power, it is equally proper for the government to use that tax money to build facilities for providing us with food, clothing, reading matter, household goods, motor cars or anything else in general use. If socialism is bad in one field of endeavor, it is bad in all. And if it is good, it should be extended to all.—Industrial News Review.

#### Award Maryland 4-H'ers Chicago, Trips

COVETED all-expense trips to the 32nd National 4-H Club Congress in Chicago have gone to four Maryland club members who have distinguished themselves in the 1953 National 4-H Farm and Home Safety, Field Crops, Food Preparation, and Home Improvement programs. Summaries of achievements of the state winners follow:

Planning, selecting and preparing nourishing foods has been a challenge to Corinne Hoff, 17, New Windsor, during her eight years in 4-H Club work. Due to her outstanding record, she has been named state winner in the 4-H Food Preparation program. The trip award was provided by Kelvinox.

From the time Corinne could sit up, she was put in blue jeans and her father took her wherever he went. She celebrated her tenth birthday by joining the 4-H Club and later received the purple ribbon for a champion Guernsey. Then her mother stepped in saying, "I am proud of my girl in jeans, but you are bound to wear open strings some day and now is the time to start learning how to be a good homemaker." In the last three years Corinne has served 378 meals, made 264 cakes, 125 pies and nearly 2,000 other special dishes.

Noteworthy results in the 4-H Farm and Home Safety program have been accomplished by Erich Willen, 17, of Westminster, for which he received as state winner the General Motors trip award to the Congress. He helped make his community more safety conscious by means of surveys, demonstrations and other aids.

Erich began safety work two years ago, centered around the home farm. Last year, he got the Hillsdale Boys' 4-H Club interested in safety. In 1953 Erich became president of the local 4-H club and under his leadership safety literature was distributed throughout the county, and the club built a booth on safety for the county fair.

He secured films on safety which were shown to 4-H'ers and last year won a trip to 4-H Club. All these programs are conducted under the direction of the Cooperative Extension Service.

Rev. C. A. Britt, performed the ceremony. Miss Estella Reifsnider, sister of the groom, was maid of honor, and Mr. Devilbiss was bestman.

A large audience filled the Methodist Protestant church, of Union Bridge, on Thursday evening, Nov. 26, 1903, to witness the marriage of Miss Ella Fuss, only daughter of Mr. and Mrs. Robert O. We desire correspondence to reach our office on Wednesday, if at all possible. It will be necessary, therefore, for most letters to be mailed on Tuesday morning. Letters mailed on Wednesday may not reach us in time.

FEESERSBURG

The shortest time of the year seems to be the thirty days between Thanksgiving and Christmas. All at once there are gifts to buy, and wrap; cakes and cookies to bake; cards to address; rehearsals for Xmas entertainments to attend and all the regular jobs to look after. But it is a merry bustle and we love every minute of it. We did when we were young and now at middle age with a teenager in the house we love it more. There is nothing like the enthusiasm of youth to spur one on toward bigger and better holidays.

Some people do their Xmas shopping the year round. But it takes the bright colored lights, the smell of pine, the carols on the radio and the pressure of time getting away to put us in the shopping mood. And it seems so much fun to shop at night! Don't ask me why for I don't know. Many others have told me they feel the same way.

It seems to be a very popular pastime these days for visiting males from European countries to try and find out what makes American women tick. This week one braver male than most, observed that American women are 'Nervous, power-crazed wives', and 'America is completely dominated by women and there is no other country like it in the world.' This man happens to be from a country in Europe which has never been known for its liberation of its women from their servile bondage since the time of Napoleon and so the freedom of American women would naturally shock him. But it might be a good thing for his country if the women were allowed to run things for a time. They couldn't do any worse for I am sure they wouldn't be forming a new cabinet every two weeks. It is becoming rather tiresome to have to listen to visiting Europeans telling us that we Americans are always wrong in our thoughts and methods. Personally, I think we are pretty smart and we have a great deal to prove our smartness. For one thing in America if a man has a smart wife he doesn't try to hide her. He takes her into his business and makes a partner out of her. But in most European countries a woman's place is in the home and there is where she stays even if she has the IQ of Einstein. This is one method the European male uses to keep his ego. It is difficult to understand why European women have stood for this treatment so long.

The following letter which I received from a reader of this column, who lives in Barborton, Ohio, could come under the heading of 'Orchids and Tomatoes'. You be the judge, for here it is: Quote—Dear Correspondent: May I congratulate you on your coverage of local news and interesting stories about people, farm pets and animals. These help to make the paper a real treat from back home and that is the reason I subscribe to it. You occasionally report your views on nation-wide or world-wide happenings or on a well known person or persons. From these writings I gather you think this country enjoyed its greatest prosperity during the long-term of one of our late presidents and that Senator McCarthy is a crackpot. I don't agree with your thoughts in many respects but won't take your valuable time to go into detail. May I suggest you make a thorough study of history from the New Deal through the Fair Deal, including the Bury the Pigs program as well as the give away and throw away projects and of course the War or Wars. When I think of Senator McCarthy, I also think of the Harry D. White case and the Ft. Monmouth New Jersey Scandal as well as Alger Hiss, the Rosenbergs and others. Maybe we could use a few more McCarthys. In closing, may I again say I enjoy the local news from Feesersburg but could do without your lopsided views on politics. —Unquote.

Thank you, reader from Ohio, for expressing your views. I like to wear orchids when I can get them and I also enjoy nice ripe tomatoes. I suspect there are a good many readers who do not like my lopsided views on politics. While there are a few who do. It all depends on which side of the fence one is standing. But it is a comforting thought to know that as long as our form of Democracy endures, I will have the right to express my views and will have the right to disagree with them. The main thing for both of us to remember is to safe guard that right.

Another thunder storm in November! About midnight Sunday a tropical storm visited our area with wind enough to blow the metal chairs off the porch accompanied by thunder and lightning and a half inch of rain. This morning the grass on the lawn looks like an emerald carpet and it may have to be mowed by the week-end.

Mr. and Mrs. Lyle Stutzman are the proud parents of a brand-new baby daughter born last Friday at the Frederick Memorial Hospital. The baby will be named Lois Faye. Mrs. Stutzman was before her marriage, June Booher, daughter of Mr. and Mrs. James Booher.

Miss Mary Lou Jackson, student nurse at the Church Home Hospital, spent the week-end with her parents, the Clarence Jacksons. The friends of Mrs. Jackson will be happy to learn that after being inactive for five months with a fractured vertebrae, she was able to attend the supper at Mt. Union Church, Saturday evening.

Pvt. Carl Fink is enjoying a short furlough with his family this week. He has been stationed at Camp Pickett, Va., but will be transferred to Texas next week.

Dick Biser, Frederick, visited with the Millard Roelkes several days this week. Thank-offering service was well at-

tended Sunday evening in the Mt. Union Church: Mrs. Edgar Bair, president of the Missionary Society had charge of the program. The young people and the choir gave a pageant titled "My Altar of Thanksgiving." Those taking part were: Mrs. Ruth Bair, Mrs. Frank Bohn, Mary Royer, Barbara King, Josephine Crouse, Stella Staudy, Nancy Roelke, Thelma Bohn, Jeanna Crouse, Linda Miller and Becky Warrenfeltz. Wayne Wilhide, son of the Albert Wilhides sang two songs with his mother accompanying him in the piano. Pastor Warrenfeltz spoke briefly and announced the offering for the evening amounted to \$93.56.

The supper sponsored by the women of Mt. Union Church and S. School was attended by over three hundred persons. The dense fog kept many away. As usual the cooks turned out a fine menu.

While on the subject of food here is a new and better way to serve spinach. Have cooking oil almost sizzling hot in a heavy skillet and fry the spinach just long enough to take away the crispness. Serve at once with your favorite salad dressing or just as it comes from the skillet. This is the way the Chinese serve it and once you try it this way you will never eat it cooked to a pulp again.

According to a write-up in a National newspaper the Post-Office Department has lost its sense of humor. About a month ago farmers received through the mail an invitation to a picnic at the head of Salt Creek on the day after their farms were foreclosed. "All the farmers who voted for Ike will be kicked (free) and can have all the crow they can eat," the invitation read. Although the cards came under the heading of gag cards the Post Office Department was not amused. It just goes to show how touchy the present administration is. For years the past administration put up with not only corny humor but down right malicious libel. The best way to end any kind of barnyard variety of fun is to ignore it.

The new phone books arrived some time ago and while searching for a number I was taken in by the interesting names of communities. For a sample: Gipsy Hill, Roller, Long Corner, Cherytown, Jordan's Retreat, Good Intent, Cranberry, Silver Run, Siloh and Detour. But the name that stirred my imagination was Buzards Delight.

The X-ray can "see" tuberculosis before there are any warning symptoms. That's why tuberculosis associations say every adult, even apparently healthy ones, should get periodic chest X-rays. # A new town in Maryland "Telephone Town"

## built since 1945

You won't find "Telephone Town" on the map. But it is a very important part of Maryland all the same. In the picture you see the telephone buildings and additions that have gone up in Maryland since 1945. It cost \$160,427,000 to build "Telephone Town" to keep up with Maryland's progress. But "Telephone Town" is much more than steel and masonry, wires and cables, and intricate equipment. It is also *people*, some of whom you probably count among your friends and neighbors. 10,100 telephone people—3,000 more than in 1945—have jobs in Maryland. They earn more than \$38,000,000 a year, and spend most of this vast sum with Maryland businesses for the things they need. The work these public-minded people do in Mary-

land contributes even more to Maryland's prosperity and well-being. Since 1945, they've added 328,000 telephones. 71 of every 100 Maryland families now enjoy telephone service in their homes. Marylanders make about 2,400,000 telephone calls a day. They appreciate the importance of good service in their daily lives. This vibrant, progressive state must continue to have good telephone service. The public requires it. Business depends upon it. But if "Telephone Town" is to grow to meet the increased demand for its service, the telephone company must be able to make a fair profit. A strong telephone company, growing with Maryland, is a good thing for everybody.

**Government Under God**

Lesson for December 6, 1953

**E**VEN today there are people who feel that religion and politics don't mix. The answer to that is, if your politics is the kind that won't mix with your religion, it's either the wrong kind of religion or the wrong kind of politics, or both. Just as it is not safe for a man to try to reserve a part of his personal life, keeping it for himself and away from God, so it is not right nor safe to reserve any section of social life and suppose that God need have nothing to do with it or about it.

Dr. Foreman

**Government**

When St. Peter tells his friends to be subject to "every human institution" he does not mean that all human institutions are what they ought to be and what God wants them to be. There are no perfect persons; how can there be perfect institutions? The truth is between two extremes.

One extreme view says: Institutions, including governments, are what they are by God's will and ordinance; therefore we must not criticize them, much less revolt. (This is the view of fascism everywhere and always.) The other extreme says: Since no human institution is or can be perfect, let us Christians stick to the one institution of the church, and leave everything else to the realm of sin. But no part of the world, or of human life, can be safely left to the devil. If it is right to try to make a family as nearly Christian as possible, it is right to try to make government as Christian as possible. God's will is that we should have government (in Lincoln's great phrase) "under God." That is to say, government is on the right line when

it is in line with the great principles of life God has shown us. Justice and law should go together. All government uses law; but only good government makes just law. Above all human laws is the Law of God. "Under God" means not simply that God's name is used but that his will is really expressed in what the government does and plans.

**The Governor**

All good government centers in some kind of executive. He may be called Prime Minister, or King, or President. The name does not make much difference. But there has to be some responsible head somewhere, some person who has the right to make decisions and to order them carried out. This is true all the way down from national to village organization. A government where it is possible to "pass the buck" all around in a circle without any one person's being held responsible or having to make a decision, is a bad government. Both in the Old Testament and in the New, the importance of the right man at the center of things is underscored. Under a good king like David or Hezekiah, the country prospers; under a bad one like Jeroboam or Manasseh the country goes to pieces. Times have not changed much.

**The Governed**

The great difference between government in the days of Saints Paul and Peter and today, is that in the English-speaking countries, where free Bible Christianity has had fullest sway, we have democracy as our form of government. (This is not forgetting other countries where the same is true, such as Holland. It is also not forgetting that in some countries called democratic, there is nothing of democracy but the name.) Both Paul and Peter, when they wrote of kings and other men of authority, did not picture modern democracy at all. In the Roman Empire the monarch were dictators; they were not elected. In our democratic world the governed are also the governors. Power resides no longer in the throne or in the palace; it resides in the people where it belongs. Furthermore, in the modern democratic world, Christian ideals can make themselves felt as they could not in the palace at Rome or Constantinople, in centuries gone by. Everybody who watched Queen Elizabeth's crowning must have been impressed by the fact that it was a religious act, performed in a church by Christian ministers.

**M**AYBE you didn't know that you can get yourself a bundle of big and able Buick Fireball 8 power at the "6-cylinder" price shown here.

But that's only the beginning of the bigger things you get in this eye-catching Buick SPECIAL for the low figure it carries—a figure that's just a few dollars more than that of the so-called "low-priced three."

Take a quick roll call.

In this Buick you get more room than those few extra dollars can buy elsewhere.

You get more comfort—comfort that a lot more money can't buy anywhere else—the comfort of the Million Dollar Ride, with coil-spring cushioning on all four wheels, torque-tube steadiness,

Safety-Ride rims, the firm solidity of a massive X-braced frame.

You get more satisfaction—more of that good and happy feeling that comes from traveling in a car of ample road-weight of brawny structure, of impressive styling.

And you get more fun, more thrill—from bossing the wallowing, silk-smooth power thrust of the highest-powered, highest-compression Fireball 8 engine ever placed in a Buick SPECIAL.

What it all sums up to is this straight fact: you get far more automobile in this Buick for just a few more dollars. Better look into the matter if it's a real deal you want for your money. We're ready when you are.

**PREPARATION OF CHRISTMAS MAIL**

(Continued from first page)  
 They are dispatched and delivered first, forwarded if necessary without additional postage, and if undeliverable, returned at no further expense to the mailer, provided the sender's return address is shown on the envelope, otherwise, they will go to the dead letter office, and you will have to pay a charge of five cents to have it returned to you, as there are thousands of greetings cards and letters every year that are undeliverable because of incomplete address.

Unsealed Christmas greetings sent as third-class mail without unauthorized writing enclosed are chargeable with two cents postage. However, a minimum charge of three cents is applicable to such greeting cards which measure less than 4 inches long or 2 1/2 inches wide. Greeting cards bearing particles of glass, metal, mica, tin, and other similar substances for decorative purposes which are likely to rub off and injure postal employees or damage canceling machines must be enclosed in tightly sealed envelopes with postage prepaid at the first-class rate in order that such cards may be accepted for mailing.

Seal and wrap your parcels securely with good quality paper and cord, but do not seal them unless you have a printed inscription reading, "Contents Merchandise—Postmaster; this parcel may be opened for postal inspection if necessary"; these labels may be purchased at your local stationery stores.

All patrons including those on rural routes having a number of greeting cards to mail are urged to tie them in bundles with addresses all faced one way before mailing so as to facilitate their handling in the Post Office.

The Post Office hours for window services will be from 8:00 a. m. to 6 p. m., daily except Sunday. The Post Office will be open all day Saturday, December 12th and 19th, but money order services will be discontinued on these Saturdays at the usual hour at 1:00 p. m.

The time for dispatching mails will be promptly at 8:45 a. m. and 10:15 a. m. and in the afternoon at 4:30 p. m. and 5:00 p. m. which is the last dispatch for the day, therefore, make sure you have your mail in the Post Office well in advance of this last dispatch, during this rush season, otherwise, they will be dispatched the following day, delaying your messages by 16 hours. Mails will also be received and dispatched on Sunday, December 13th and 20th as the Highway Post Office will operate the same as other scheduled days.

**RURAL DELIVERY SERVICE**

Rural patrons are urgently requested to cooperate with their Rural Carriers, by purchasing their stamps well in advance, and assuring themselves that all letters have postage stamps affixed thereon before placing them in the rural box for collection by carriers. The practice of placing money with letters in rural boxes expecting carriers to affix the proper postage will not be tolerated, particularly during this rush season. The delivery of ordinary parcel post too large to go in the mail box will be effected in the following manner. The rural carrier will attempt to hail the patrons, who will come to the box to get his or her package, as carriers are not required to deliver parcels to your residence, only in cases of Special Delivery, Insured and Registered Mail, and this practice is only done for patrons living one mile or less from mail box. Failing to hail a patron, the carrier will leave form 4233 in the mail box requesting the patron to indicate thereon the day on which he will meet the carrier to receive the parcel. Any patron desiring delivery outside the mail box of a parcel too large to be placed therein may file a written request at the Post Office directing the delivery of parcels in this manner, with the express provision that the Post Office Department and the carrier are relieved of all responsibility in case of loss or deperdition.

With your hearty cooperation P. M. Burke, his clerks and rural carriers takes this opportunity in expressing to their patrons a most sincere happy Holiday season, with a prosperous New Year in the future.

**RELIGIOUS BOOKS FEATURED IN EXHIBIT**

Bibles, Hymnals and Prayer Books are featured in the current exhibit being held at the Historical Society. Among the Bibles Carroll Countians will find of special interest is one which belonged to Christian Yngling, printed in German in 1748. Christian Yngling was born in the vicinity of Silver Run in 1799, died there in 1884 and is buried in the cemetery of St. Mary's Reformed church. He was the youngest son of John Yngling born in the same vicinity in 1750, died in 1836 and is buried in the same cemetery. This Bible was presented to the Society by Claude J. Rahn, Vero Beach, Florida. Another Bible of much interest is that of J. Henry Hoppe 1830-1877 with genealogy from 1752. A newspaper clipping giving an account of the funeral of Henry Hoppe on Dec. 25, 1877 at Krider's Church was attended by the largest concourse of people we have ever witnessed on such an occasion there being 261 carriages, 50 horsemen and a large number on foot present. This Bible was given by Mrs. Grace Coppersmith, Norfolk, Va.

A song book with the Psalms of David and 730 Spiritual Hymns used in the Reformed Churches, printed in German in Germantown in 1763 was given by Mr. and Mrs. Howard Wareheim; Methodist Hymnal 1849 belonged to Miss Lucinda Hooper, used in the old Methodist Church at Sam's Creek, given by Mrs. Francis Behr; Methodist Hymnal 1843 used by Miss Sallie M. K. Longwell, given by Howard Davis; The Book of Common Prayer 1892 used by Nicholas Dorsey Morris, Holy Trinity Chapel of Ease, Eldersburg, presented by Mrs. Bessie Morris Harvey, Reisterstown; New Testament 1821 belonging to Genilla Burchett given by Erman A. Shoemaker. These and many more Bibles and Hymnals form the exhibit being shown at the Historical Society of Carroll County, 206 E. Main Street, Westminster, during the month of December.

**RELIGIOUS PICTURE TO BE SHOWN**

The Taneytown E. U. B. Brotherhood is sponsoring a full-length Sound Picture in the Taneytown High School Auditorium on Wednesday evening, Dec. 9, at 7:30 p. m. The name of the picture is "The Sickle or the Cross" and depicts a dynamic, convincing and timely events of Communism and Christianity in conflict. Is it Communism or Christianity? You will never understand the ruthlessness and cunningness of Christianity's greatest enemy until you see this picture. This picture is truly a great message for all in any community of the U. S. This will be one picture none will ever forget. It is a full-length evening's showing.

There will also be shown a picture which has been released recently by the National Council of Churches in cooperation of a dozen denominations called "A People Without Fear". This picture has many scenes about the people who are facing the ruling power of Russia and struggling for the cause of real freedom as they are living behind the Iron Curtain. The film brilliantly highlights many key situations in the life and task of the people as they face the rulers of Communism. Truly this picture has been rightly named, "a people without fear."

The Brotherhood will receive a free-will offering to defray the expenses of showing the picture on next Wednesday evening in the High School. The public is cordially invited to learn about the way Communism will try to work in a community and it may be ours, who can tell? So come and learn about it.
