Churchmen and Firemen
Dine

FATHERS AND SONS DINE

The annual Father and Son banquet sponsored by the Churchmen's Brotherhood of Grace Evangelical and Reformed Church was held on Monday evening in the dining room of the parish house with 55 men and boys present. The tables were decorated in the St. Patrick's Day motif and on the tables were daffodils, snap dragons and pussy willows.

The meal was of the covered dish type and included a great variety of very tasty dishes. Several ladies of the Women's Guild served as the waitresses and attended to the duties of the kitchen.

The invocation of grace preceding the meal was offered by Rev. Morgan Andreas after which every one delighted himself to the superlative degree.

Mr. Frank Wagny, vice-president of the sponsoring organization and chairman of the program committee, served as the master of ceremonies. After the meal each father or son was asked to introduce his attending guest. Present was one 4 generation family consisting of Mr. Louis Reifsnider, Mr. Wilbur Reifsnider, Mr. Glenn Reifsnider and Glenn, Jr. There were also 2 three generation families which were Mr. Delmont Koons, Sr., Mr. Delmont Koons, Jr., and Stevie and Charlie Mehring, and Mr. William Stonesifer, Mr. Ralph Stonesifer and Billy and Jimmie Stonesifer.

The program consisted of a trumpet duet by Paul Andreas and Victor Welty and a vocal men's quartet composed of Messrs. Murray Baumgardner, Edgar Fink, Delmont Koons and Harry Mohny.

The high-light of the evening's entertainment was a 40 minute spectacular magical show presented by the sensational Ray-Mond, who as the aristocrat of deception, has presented programs of magic to the amazement of large audiences in Canada, New York, the principal cities of the far western states and in the British, French and American hospitals in France during the past 23 years. In his acts, some very simple and others, quite astounding, Ray-Mond used a number of the boys and men who were more than delighted to co-operate with him in his acts. An exceptional round of applause was accorded Ray-Mond as a mere token expression of appreciation for his sleight of hand acts.

The delightful evening was concluded with every one uniting in the Lord's Prayer.

The kitchen committee co-chairmen of the Women's Guild who assisted the program and social committees of the Churchmen's Brotherhood were Mrs. Ellsworth Lambert and Mrs. Franklin Baker.

NETWORK OF VOLUNTEERS

As the Carroll County Chapter of the American Red Cross Organization launches on its annual drive for funds we are struck with the importance of the work done by this vast organization. Our impression is further deepened by the recent test blast of the latest of the atom-type bombs in this country, the devastating floods of the Ohio valley, and the warlike mutterings of potential enemies. The people in areas not hit by disaster in the past, are only familiar with Red Cross in its more passive work done by numerous volunteers who serve faithfully without the impact of panic. On the other hand, there are thousands of people who have desperately, at one time or another, needed help. It is they who know the comfort and relief brought by Red Cross workers who wholeheartedly exert their efforts when an emergency arises. Once knowing this comfort, the victims remain ever grateful to this mighty network of volunteers and the generous citizens of each community having made the organization possible. This year, we should think seriously of the possibilities as we make our contribution. — The (Westminster) Times.

LOCAL SCOUTS
REPORT ACTIVITIESPaper Collection Saturday,
March 19

Heading the procession of Scout activities in Taneytown will be collection of rags, magazines, and paper this Saturday, March 19, a joint endeavor of both Explorer and Boy Scouts for the purpose of adding to their building fund for a new meeting place, which it is hoped will be begun within the next several months. Starting at 9 a. m., a complete covering of the town, Westminster road, and Mayberry gives promise of a big drive, and the help of residents who can bundle their paper will be greatly appreciated.

Blue and Gold Cub Celebration
Troop participation in the recent Cub Scout annual Blue and Gold dinner brought both groups into a beneficial contact with each other, for the youngest boys' eyes goggled at the realistic wood splitting "accident" of Explorer adviser Stanley F. Frock, who was promptly given expert first aid by Larry Martin and Harold Slaybaugh, explorer crew leader and senior crew leader. Ronald Hopkins, and John Myers, officers in the Boy Scout Raccoon patrol, displayed their knowledge of Moore signaling, while the two-arm Semaphore method was demonstrated by Frock and Assistant adviser Robert L. Bowers, Slaybaugh serving as writer. Always an intriguing exhibition, the old Indian method of making matchless fire by wooden bow and drill was successfully performed by Bowers with shredded red cedar bark as tinder to catch the spark and form a "bird's nest" which he then blew into flame. These are skills which explorers and scouts teach eventually to the cubs who move from Cub Pack to Scout Troop and Explorer crew. They are only some of many which crowd the troop calendar and provide an endless variety appealing to any lad's taste.

4-H TALENT SHOW

Thursday evening, March 10, members of the nine clubs of Taneytown district, their parents and interested friends, assembled in the High school auditorium for the talent show, with Malcolm Hoff as chairman. Joe Quisenberry told of what 4-H Club work is, and its history in Carroll county was given by Becky Wilhide. The film "The town that came back" was shown by Mr. Landon C. Burns. He also told of the Community Center which is being built in Westminster. The main exhibit building, 80x50 ft., is expected to be completed by July, ready for the 4-H Fair.

Miss Belva Koons, local leader, announced the following program: Vocal solo, Jim Saylor, vocal duet, Jim Saylor and Joe Quisenberry, vocal solo, Joe Quisenberry, of Limestone Club; piano solo, Barbara Rinehart, piano solo, John Rinehart and two vocal numbers by five boys and girls. Piney Creek; orchestra selection and vocal solo, Marlin Hoff, Sam's Creek; Ballet dance, Kitty Schlee, New Windsor; trumpet solo, Richard Hahn, Myrtle Weant and Carroll Hahn, Harney; piano solo, Bonnie Bair and vocal solo, Sandra Shorb, Taneytown; girls quartet, Union Bridge; vocal solo, Vesta Null, Taneytown Agriculture Club; vocal solo, Pat Welk, Pleasant Valley.

It was a fine program. No one envied the judges, Mrs. Leonard Reifsnider, Mrs. Joe Haines and Mrs. George Motter, for they had a difficult job to select winners. Rinehart won first place and Sandra Shorb was selected as second winner. These two competed with the winners of the other three districts of Carroll county, in Westminster, on Saturday evening. John Rinehart won second place in this contest.

SCHOOL CHILDREN TO BE
INOCULATED

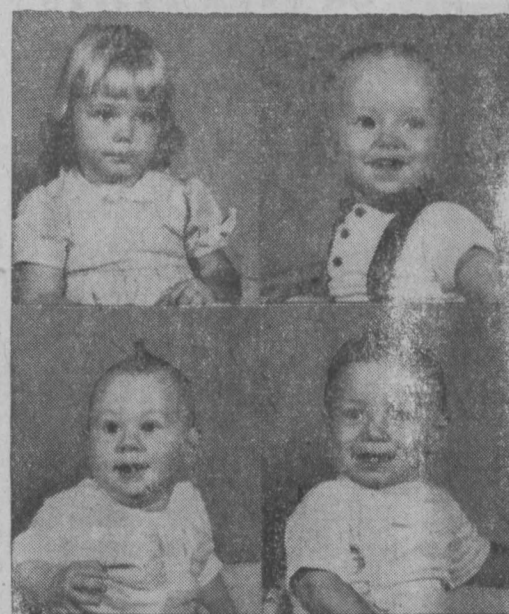

As many people in Carroll county know, health and education authorities are making plans to give, with the help of private physicians, the Salk polio vaccine to all first and second grade children in public, parochial and private schools if studies now going on prove it effective in preventing infantile paralysis. These inoculations are being scheduled to be completed before school recesses for the summer and before the beginning of the next polio season. This vaccine has been made possible by March of Dimes contributions through efforts of the National Foundation for Infantile Paralysis.

A parents' meeting will be held in the Taneytown Elementary school on Tuesday, March 22, at 8 p. m., for Taneytown Elementary, Harney and St. Joseph's schools, when Dr. George Schochet, Carroll County Health Officer, will discuss various phases of the proposed plans and answer parents' questions. "SPICE 'N' EVERYTHING NICE"

(Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's
dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help
to cheer
Each future day and in some way—help
to bring you happiness!

Oh! the Jonquills are up from the ground all around the Parsonage close to the walls and many are blooming where the Sun strikes them first. Now, I know that Spring is really here even if there are off days now and then!

Start right now, Mrs. Housewife with your Spring cleaning so as you can be out doors when the weather is even nicer.

If you need to have any painting or papering done this is the time before the workmen are flushed with that type of work.

Perhaps, the kitchen or bath rooms could stand new curtains and many are on sale right now in all the stores. It surely will give you a lifter-upper for after all you spend most of your time in the kitchen and that room should always be just as you desire it. Even that will cause you to like to cook!

That reminds me, the other day, I made my first Cheese Cake and since then made two more because they all turned out so good. It is a "No-bake cake" and will be a grand summer dessert.

Thinking of cleaning whatever you do don't pull the house apart all at one time for that causes that man in your life to become very irritable and cross. Do one room thoroughly at a time. Rest a day or so and do another and that way you will not look on Spring cleaning as a mean task but it will be most enjoyable for you.

Have you noticed, Ladies how many men these days have curly hair? I investigated that one and here is the answer! The wives are giving them a "Toni" or which ever permanent the wife prefers! Too bad about the men who are bald but even they can have hair if they desire and if they have the patience. Going to the neighborhood Drug store and purchase a box of Cuti-cura ointment and soap. It must be done regularly or there is no use to start the process. Your Observer positively guarantees hair on any bald head! After two or three months there appears a baby fuzz type of hair and then the following month it becomes heavier and darker. All you positively need is the patience!

Those "Boxy" suits, Ladies are slowly creeping in although the American women are still desiring the close fitting suit or semi. Many of the latter are being shown still but odious of the former are in all the stores.

And here is one to which you must adhere. If you take a size straight—do not let anyone insist that you buy a half size for it means, you will appear short waisted and dumpy looking. It makes one even look older. Of course, if you really take the half size that is a different question.

Hats are in both large and small and are truly most flowery this Easter season.

The finest magazine for the price on any stand or store is the grand one for 5 cents called "Family Circle" in your Acme store. If you have a growing daughter, Mr. and Mrs. be sure to read, "Like Mother Like daughter"! It is in the March issue and can be bought right now. It is even bigger and better than all the previous years. Little Anne Simmons of "The Godfrey Show" is very much "Heirish" these days.

The following you will be as glad to know as I.

If you know someone who is blind or has very bad eye sight, you can really engage "Talking Books for the Blind"! I read it recently and pass it on to you. These books are records and are provided without charge to the adult blind residents of the United States by the Library of Congress. Even if a person is partially blind who cannot read ordinary print books. The record player is also provided without charge! You must fill out a blank about the individual. There are large catalogues listing the numerous books available with brief descriptions of each. The preference of two books can always be going back and forth and as two are read, there are two more sent. Contact your nearest circulating library for all information. All the user does is to give the box to the mailman (which are similar to the ones for mailing movie film) when he is through with a book. The package then is taken free of charge. The mailing tag is even already attached with the address of the distributing library on it so that the user does not have to bother with that! If you desire more information here is the address—

GRASS ROOTS OPINION

ANTIGO, WISC., DAILY JOURNAL: "Giving something familiar a new name tends either to commend it or to arouse new fears. The word 'automation', for instance, suggests a brand new class of machines—different from any which we have ever had before, and, according to U. S. Steel Chairman Benjamin F. Fairless, it conjures up visions of a wholly automatic factory where machines with super-brains will grind out products without any human payroll whatever. Speaking before the annual dinner of the Greater Johnstown Chamber of Commerce he said 'there are no such factories and no such machines; nor will there ever be either in my time or yours.'"

ST. JOHN, KAN., NEWS: "Time was, not so long ago, when the storekeeper braced himself for Saturday, knowing that he would make his weekly monetary kill that day—Saturday was the big buying day. Barbers scraped and clipped early and late, movies were stacked all over the place. Trading habits have changed with home freezers, and automobiles for every day shopping."

MANSFIELD, O., NEWS-JOURNAL: "A salutary New York law, passed last year, requires all state officials with an interest of \$10,000 or more in a state-regulated business to file this information with the secretary of state. Legislators sometimes do have a financial interest in matters coming before them, and in some cases unfortunately fail to reveal the fact. It is no more desire to snoop that gives this information public interest."

SOCIAL SECURITY FOR FARM FAMILIES

Social security for farm families, how it works and what farmers need to do about it are explained in a booklet just issued under the joint sponsorship of the Internal Revenue Service and the Social Security Administration. It is now being mailed to every rural and star route boxholder in Carroll county, it was announced today by Franklin M. Barnes, District Manager of the social security office and Robert Schwalenberg of the Westminster office of the Internal Revenue Service.

This booklet is directed to the self-employed farmer, farm employers, and farm workers—approximately 5½ million in all—who were brought under social security on January 1. The purpose of the publication is to acquaint them with their benefits and tax obligations under the old-age and survivors insurance program. The mailing to rural boxholders in this area is part of a nationwide distribution to farm people. Those farmers who do not receive a copy through this mailing may obtain one from the District Director of Internal Revenue or from the nearest social security office.

The booklet stresses the need for self-employed farmers and hired farm workers to apply for a social security account card if they do not already have one; it also points out to the farm operators who employ workers that he should secure an agricultural employer's identification number. Examples are given of the monthly benefit payment for themselves and their families toward which farmers are now building under the old-age and survivors insurance program.

One section of the booklet is devoted to explanation of how and when a farm operator must report his own and his workers' farm earnings. The farm operator will report his earnings from self-employment on the same return on which he reports Federal income tax. He will pay self-employment tax for each taxable year ending after 1954 in which his net earnings from self-employment are \$400 or more. If the farm operator reports his income tax on a calendar year basis, his first report and payment of self-employment tax will be made for the calendar year 1955, and will be due not later than April 15, 1956.

If a farm operator has a worker to whom he expects to pay at least \$100 in cash wages during 1955, he is advised in the booklet to keep a record of the name, social security account number, and the amount of wages

paid to the worker. The farm employer, moreover, is told that he should deduct two per cent social security tax from all cash wages paid to each such employee. As the employer, he must contribute an equal amount, report the wages, and pay the total security tax of four per cent to the District Director of Internal Revenue.

The booklet includes an application form which farm workers may send to the District Director in order to obtain further instructions, tax return forms, and an employer's identification number.

(1954)

The year of nineteen fifty-four, Has gone to return no more,
All that it can ever be,
Is just a passing memory.
To some it may have been just swell,
To some it may have not been so well,
As we think we can often see,
It was just what we made it be.
It had its ups and it had its downs,
It had its sighs and had its frowns,
There were days of skies of blue,
And there was golden sunshine, too.
We had sunshine and we had rain,
We had our sorrows and we had pain,
As we lived through day and night,
All things seemed to come out alright.
There were times that we much enjoyed,
And there were times that we were annoyed.
Sometimes our life was full of cheer,
Sometimes we had to shed a tear.
We enjoyed more the good things of life.

As we live and work and strive,
We're very glad that we're alive.
The very best and noblest plan,
Is to live the very best we can.
Then it will be to our great delight,
To know that we will come out alright.

ARE YOU FULLY PROTECTED?

The standard fire insurance policy covers direct loss by fire, lightning and removal from premises endangered. By adding endorsements to the fire policy, other perils can be covered. Insurance is meant to replace what is lost, so you should be insured close to the present day value.

In case of loss, notify your company at once, protect the property from further damage, and within 60 days, render a sworn proof of loss to the company.

I can blanket cover your farm machinery under the 80% Co-insurance clause. My policies are strictly non-assessable and can be cancelled by the policy holder at any time, with the unearned premium being returned.

There are 650 companies, of all types, authorized to do business in Maryland, so there is bound to be a lot of difference in rates and companies. You owe it to yourself to see, know, and understand the difference.

CURRENT EVENTS FIFTY YEARS AGO

A debating society has been organized by some of the young men of the town, which will hold public meetings every Monday night, at Milton Academy. The subject for the next meeting is—Resolved, that co-education is the better method.

Reindollar, Mehring & Co., have opened in their new location, the Eck-enrode building, and are handsomely equipped for business.

Master Carl Haines, son of James D. Haines, while digging for fish worms one day last week, found a small family of black-head bumble bees only a few inches under the ground. The find was an unusual one for this time of year.

W. E. Burke has removed to his new building, adjoining the Firemen's building, on Baltimore Street, where he will be pleased to welcome and serve his many friends and customers hereafter. We hesitate to say "Barber Shop" as his new quarters and equipment deserve a more euphonious title.

Keep Hammering Away

When a farmer plants his wheat in the fall he doesn't expect a harvest in a week or a month. When you give an order for a ten-story office building you don't go around to the site the following day and expect to find a complete building.

A farmer knows he must wait until the seasons and the chemicals of the earth work their changes, and you know that your building must proceed by gradual stages, brick upon brick, until finished.

So it is with advertising. The first insertion does not influence the public mind, nor the last, but one added to the other, every one gathering strength from those that preceded it, gradually influence the public mind and bring to your bank the business you desire.

A single week or a month of advertising is merely a bowl or two of a cork against a bar of steel. Its effect is absolutely nothing. It is money and effort wasted, but the continuous, persistent hammering, week after week, month after month, is just as sure to start the pendulum of business swinging your way as day is to follow night.

LEADERSHIP

The genius of a good leader is to leave behind him a situation which common sense, without the grace of genius, can deal with successfully.—Walter Lippman.

The reformer must be a hero at all points, and he must have conquered himself before he can conquer others.—Mary Baker Eddy.

You can never overcome the universal material revolution by conceding to it materially; you can only overcome it by stressing the moral, intellectual, and spiritual side of your existence.—Dr. Charles Malik.

FEESERSBURG

(A Voice from Carroll)

If you want the world to beat a path to your door, you must either build a better mouse trap or some other useful gadget. But we know a man that has at least a part of the world traveling to his door because he gives a haircut with a bit of philosophy thrown in. We refer to our neighbor and friend, Mr. Garcia, who has a small barber shop on the Hape Mill road, where people as far away as Fairfield come for a hair cut and we are inclined to believe also for a chance to visit with the barber. The shop itself is located beside a stream with fat white geese waddling beside it. On every side the Carroll hills give it shelter and perfect isolation. One of Carroll's dirt roads winds leisurely past, but even when its muddy the customers continue to come. It is strictly a man's barber shop but I get my hair cut there because I time my visits when the males are busy at work. Mr. Garcia has never put his idea of life into so many words but one can sum it up in the simple phrase of "Live and let Live". He has that rare capacity of knowing what he wants with the ability of attaining it. He likes free and simple living with a friendly attitude toward all people.

This is the secret of the reason a part of the world beats a path to his door even though it must drive through bad roads to do it.

The Irish and the world will celebrate St. Patrick's Day this week. Associated with this day is the shamrock, but there has been much speculation as to what the original Irish shamrock may have been. There is no plant specifically called the shamrock. It is variously supposed to have been the lesser hop clover, the common white clover, the wood sorrel and the black medic. The leaves of all these plants are used to some extent as the emblem of Ireland. Shamrock, derived from Gaelic means "Three Leaf". There used to be a belief that the "true shamrock" will not grow in England.

A bill comes up this week in the Maryland assembly to raise the school teacher's salary. We hope it passes. Higher pay standards seems to be the only means of attracting more people to the teaching profession and keeping the ones already in it. We hope if the increase of pay is passed this might attract more male teachers. One of the draw backs in the education of our boys and girls is that they are under the influence of too many women teachers. A woman's point of view is important, but a man's is more objective and youth should be equally influenced by both. Under the current set up of salary a man teacher cannot afford to get married and raise a family. A teacher deserves a normal life and when deprived of it through lack of finances, will either leave the profession or become a hostile person and a maladjusted teacher. Sometimes I think we spend too much time blaming the teaching profession for the short comings in our educational system when we should be blaming the public for not concerning itself more about the teacher's personal problems.

It always did make my blood boil when anyone suggested that a housewife didn't get enough exercise. But now I am pacified, for someone has come up with the proof that the average homemaker travels nine to eleven miles during the course of her daily house work. No wonder the bed feels so good at the end of a day.

Signs of spring: Salesmen knocking on the door wanting to sell you paint—insulation for the attic—baby chicks—a new tractor—a new car—a silo or a lawn mower.

If the county commissioners would check the amount of traffic on the Uniontown-Westminster road they would be convinced that this stretch of highway should be among the first in the county to be widened, graded and rebuilt. It is a treacherous road. The hills are so steep that at night one's headlights point to the sky and an approaching car cannot be seen. The road is so narrow that in passing a car one almost shaves off the telephone poles as they are set too close to the road, and if one hasn't backache before, after riding this road several times one can count on several loose vertebrae. From this description the reader may assume this road is a menace. It is and a blot on the pride and prestige of all Carroll counties that live on it. It has amazed me that so many prominent citizens could be so complacent about this terrible road, running through one of the most beautiful farming sections of the state.

This seems to be the time of year for bursters. It strikes both the high and the low. The president is suffering with it and also some of our local citizens including Millard Roelke and Preston Myers. It is a very painful

disease and makes sleep impossible without sedatives.

Children need love especially when they do not deserve it.—Harold Hulbert.

Read the article in Look Magazine on the 64 million Americans who do not attend church. It is a timely article especially at this time of Lent.

A mistake a lot of politicians make is that they forget they were appointed—not anointed.—Ruth Roelke.

ALUMNI NEWS

The Taneytown High School Alumni will present a 3-act comedy "Mama's Baby Boy" on March 24 and 25, at 7:45 p. m. in the high school auditorium. The play exceeds the speed limit in laughs when a very attractive widow nearly forty has her eighteen year old son dress and pose as a youth of fourteen, so that she might pass as a younger woman and marry a widower, whom she believes to be wealthy. In turn the widower, trying to appear younger, has his seventeen year old daughter pose as a girl of thirteen, so that he might wed the widow, whom he believes to be rich. Neither the widower nor the widow has a cent. Everyone gets himself in hot water in these situations, especially when the deception on both sides is discovered. How it is all worked out makes one of the funniest farces of modern times.

In Loving Memory of
MRS. J. CURTIS STAMBAUGH,
who passed away March 16, 1953

A precious one from us has gone,
A voice we loved is stilled,
A place is vacant in our hearts
Which never can be filled.

Today recalls sad memories,
Of this loved one gone to rest,
And the ones that think of you today,
Are the ones that loved you best.

PINEY CREEK GRANGE NEWS

Piney Creek Grange No. 422 was called to regular session on Tuesday, Mar. 3, 1955 at 8 p. m. in the Grange Hall in Harney with Master Meunier in the chair. When asked for committee reports the Home Economics Chairman, Mrs. Wilmer Barnes reported with many items to keep us busy. The first item was the collection of nylons which has been going on for the past few months. Mrs. Barnes said that she had about two pounds and ten pounds are needed. The next item which she brought up was getting Queen Elizabeth's special cake and icing recipe which has been prepared in folders. We can get these recipes free of charge but we have to sell them for 15 cents each and give the proceeds to any charity of our choice. It was agreed that we should order 50 to sell. Mrs. Barnes also tried to encourage us to join the various sewing and other contests sponsored by the Grange. The Grange will also have a stand at Hoyle Weaver's sale.

The Youth committee also responded stating that plans have been made for a Square Dance to be held in the Taneytown High School auditorium on St. Patrick's Day Mar. 17, 1955 from 8-11 p. m. Robert Meunier will do the calling and there will also be cake walks and perhaps a chicken walk. Round and square dancing.

On Thursday, March 3, 1955 Medford Grange initiated five of our new members in the first and second degrees. On Thursday, Mar. 24, 1955 Barrett Grange will initiate them in the third and fourth degrees. The next regular meeting will be held on April 5, 1955 in the Grange Hall at Harney at 8 p. m.

The Carroll County Pomona Grange Meeting was held on Saturday, Mar. 5, 1955 at the Stonehouse in Westminster.

The meeting was called to order around 11 a. m. with Master Meunier presiding. At this time a report was given by the various committees.

The Youth committee reported that they would like to fill the chairs for the next meeting in June. They will conduct the meeting and put on a program. This permission was granted. There was some discussion on having the winter meetings at night instead of in the day and it was decided to take a poll of the various Granges.

At noon the meeting was recessed and a luncheon was enjoyed by all. After noon Dr. Robert Gaddis of the Health Department spoke on milk bulk and the processing and distribution of milk. Carl Weant also spoke on his trip to the National 4-H conference which was held in Chicago in November. The next Pomona meeting will be held in June.

Scouts appearing for advancement—and all are privileged to come for the review of their progress it gives—are to wear their full uniforms and present their test cards not already in the scoutmaster's possession.

Other Service, Events

Explorers rendered considerable help in getting ready for the board of review by examining in tests at the Boy Scout meeting of February 17.

A Red Cross window display was set up from that fund drive through the courtesy of the Taneytown Mutual Fire Insurance Company.

Explorers also checked coats for the Lions Shrimp and oyster feed March 8 and the Thursday before ran off a successful trial mobilization as a start at perfecting their organization for possible emergency service.

Plans were announced for a new sort of fund-raising venture, an April Fool's Day Dance, in the high school on April 1, with music by the popular Keymen.

All these financial schemes are designed to help in erecting a suitable new meeting place, and the next such opportunity for their many friends to back the boys in scout work is by supporting the paper collection Saturday, the 19th of March. Again their customary generous cooperation is earnestly sought.

HOLTER APPOINTED SANITARIAN FOR FREDERICK COUNTY

Samuel Harley Holter, 46, Taneytown, native of Middletown valley, has been named as the new sanitarian with the Frederick County Health Department, Dr. Forbes H. Burgess, county health officers, announced on Thursday.

The appointment was made by the health officer after consultation with the county commissioners. The new sanitarian will begin his duties on April 1.

Dr. Burgess said the new sanitarian has had extensive experience in dairy work. Specifications for the position set up by the State Commissioner of Personnel call for a person with a four-year college education and a sanitary engineering degree or equivalent experience in related fields.

Mr. Holter is at present manager of farms for John S. Teeter and Company in the Taneytown area. He is a former employee with the Baltimore City Health Department, Western Maryland Dairies, and the Maryland Artificial Breeders Association.

The county commissioners authorized the appointment of an additional sanitarian and clerk to assist and speed up dairy farm inspections.

The need was brought on by the desire of Washington health authorities and the Maryland and Virginia Milk Producers Association for all shippers to meet the standards of the U. S. Public Health Service.

The deadline for all farms meeting these requirements is March 1, 1956. However, all farmers moving from one farm to another must get a new certificate and must meet those minimum requirements for certification.

April 1st is the traditional fitting day in Frederick county and representatives with the Maryland and Virginia Milk Producers Association have stated that the moving of farmers from one farm to another on April 1 is peculiar to Frederick county.

As yet a clerk has not been named, Dr. Burgess stated. Salary of the new sanitarian has been set at \$4,282 by the commissioners.

Dr. Burgess said the State Department of Health will provide an automobile for the sanitarian. The position was originally requested when the budget of the health department was submitted to the county, but was turned down. Money to pay for the two additional persons is being made available from the emergency fund set up by the commissioners.—The (Frederick) Post.

LETTER FROM SENATOR HOFF

Reports Activities of General Assembly

To the Editor
Dear Sir:

LOCAL APPOINTMENTS

The Governor's "Green Bag" appointments for Carroll County were confirmed by the Senate on Thursday, March 3, as follows:

Trial Magistrate, C. Rogers Hall, Jr., Sykesville Md.

Substitute Trial Magistrate Ernest F. Dukes, Westminster, Md.

Justices of the Peace: Charles W. Brunsman, Sykesville, Md.; Ruth W. Pickett, Mt. Airy, Md.; Laura Kate Shower, Manchester; Paul Strine, New Windsor.

Supervisor of Elections: David Smith, Taneytown; J. Thomas Anders, Westminster; Francis J. Crawford, R. F. D. 6, Westminster.

Substitute Supervisors of Elections: Chester M. Nusbaum, New Windsor; Marcus Shriver, Westminster.

Each of the above appointees are to serve for a period of two years beginning on the first Monday in June, 1955.

WAGE AND HOUR LAW

About 75 per cent of the mail now being received by the members of the Senate consists of protests against the enactment of House Bill 48, known as the "Wage and Hour Bill". This Bill surprising everyone, passed the House by a vote of about 60 to 20. It is now in the Senate Judicial Proceedings Committee.

Briefly, the Bill provides for a minimum wage of 75c per hour for all types of employment, and for a maximum work week of 44 hours. All hours over that amount, under this Bill, must be compensated for by one and one-half times the employees regular rate of wages, as would all employment on Saturdays, Sundays or holidays, and on any day in which the hours of work exceed 8.

In my opinion this Bill would result in uncalculated distress. There are thousands of part-time employees who are glad to get more or less casual employment at wages of less than 75c hourly. In great numbers of instances the employees cannot afford to pay these wages. The result? Loss of employment.

Many employees in restaurants, soda fountains, hotels and elsewhere are paid only a small wage and are compensated principally by tips. What would happen to many of the thousands who work in this type of employment is anyone's guess.

Many high school and college students earn spending money and even tuition by part time employment in the type of jobs that, by necessity, pay only low wages. These opportunities too would be lost if this bill were to pass.

And these are only a few examples of the hardship this Bill could cause.

Penalties for violation of the provisions of the Bill go as high as \$5000.00 and six months imprisonment.

CONSTRUCTION INFORMATION LAW

In order to permit the County Assessors to keep up-to-date records of new construction in Carroll County H.B. 428 has been introduced.

This Bill provides for a modified form of a "permit" law but does not require a permit to be obtained before construction is begun. Under the Bill, however, the owner is required to notify the Supervisor of Assessment of all new construction amounting to \$1000.00 or more.

The text of the Bill reads as follows: HOUSET BILL 428: (1) All persons, firms, or corporations, before erection or construction of any new building or buildings, or any addition or alteration being One Thousand Dollars (\$1,000) or more, shall be required to notify the Supervisor of Assessments of Carroll County, in writing, of the intention to erect, construct or alter such building or buildings, and shall state the location of the building or buildings and the approximate amount of money to be expended on the said erection, construction or alteration.

(2) Upon receipt of said notice, the Supervisor of Assessments of Carroll County shall acknowledge the receipt of the same in writing on such form or forms as may be suitable therefor. No fee shall be charged therefor.

(3) Any person, firm or corporation failing to comply with the provision of this section shall be liable for double taxation upon a reasonable assessment of the erection, construction, addition or alteration so made for a period not to exceed three years.

Until next week, I am,
STANFORD HOFF,
State Senator.

Living in Health

Lesson for March 20, 1955

ASCARIASIS is the name of a disease. It is caused by colonies of small round worms, parasites, named Ascaris. A Christian medical missionary who operates a hospital in Korea writes: "Reducing the number of people who have this debilitating parasite from 99% to 38% in one year, in our leper colony, is something to shout about from the housetops of Korea. Ascariasis takes that sharp edge off a person so that he is dull; his ambition is dampened; his reflexes are sluggish, and his integrity is weakened. I sometimes feel that many of the attributes so often blamed on the Devil may possibly be more accurately credited to the lowly round worm that lives in comfort inside of most Koreans." This is just one single illustration of something many Christians do not realize: that spiritual health, mental health and physical health all go together.

Doing, Not Drifting

Christian living has many aspects. One of them is the importance of keeping a healthy body. Ascariasis seldom puts the patient to bed. Indeed the patient is seldom aware that anything is wrong with him, and yet his lack of ambition, his dullness of mind, his lack of dependability, may have their basis in his physical condition. So it is with all diseases, so it is with all physical inefficiency even when you can't quite call it a disease. It is a sin to be less healthy than you can be. It is (assuming you can help it) because your physical flabbiness leads to mental and moral and spiritual flabbiness too. This is not saying that every patient in a hospital is there because of his personal sins. But it is true that many of them are there precisely by their own fault. The point is, health of body is a Christian's responsibility, a duty he owes God, other men, and himself. And health of body will not come by chance, it will not come by drifting. It comes by doing. This is true of the whole Christian life, bottom to top. Paul says to his converts: "Every one of you should learn to control his body, keeping it pure and treating it with respect, and never regarding it as an instrument for self-gratification." (1 Thess. 4:4, Phillips translation.) Health begins in self-control comes only by working at it.

Purity Is Positive

It is true that the New Testament warns against spiritual sins quite as much as against physical sins, if not more so. But it is also true that there are plain teachings about virtues and vices of the body itself. Drunkenness, sexual sins of various kinds, are always marked out as spiritual dangers. Blessed are the pure in heart, that is true. But those who are not pure in body are not pure in heart. Further, purity is not a negative thing. A virgin who had never touched a drop of liquor might yet not be pure. Repression of desire as the Bible knows and as psychology on its own has also discovered, — sheer repression, with nothing to balance it, may be a bad thing. A driver was boasting about how he eliminated some distance on a certain route he took every week, and so saved three minutes on every trip. But he could not answer the question: What do you do with those three minutes? So purity of life means more than not squandering our energies and wasting our health, on drink or otherwise; it means using the energy we save, as God would have it used.

Who's in Charge Here?

The key question for health, physical, mental, and spiritual, is, Who is in charge here? Is your body in charge of your mind, or is it the other way around? But which mind is in charge here? Your lazy, sleazy, shifty mind, content with ignorance, asking only to be amused (for you have such a mind), or the mind that aspires to higher things (for you have such a mind too). You carry with you all your life the mind of the brute, the mind of the child; but you have the right to a mature mind, to be mature. Who is in charge here, the brute, the child, or you? Above all, who is in charge of you? If the true answer to that last question is God, then the true answers to the others will be easier.

A KING SEEKS HELP THROUGH THE SANCTUARY

Psalm Twenty

Monarchs usually seek strength in military power, but the king of Israel in this psalm and also in Psalm twenty-one seeks his strength from the Lord through the sanctuary. Psalm Twenty is the king's psalm. It is a prayer in the Temple before battle. Washington and Lincoln and Lee were men of prayer in warfare. God is called upon the defence of Israel. The Almighty is asked to send help from the sanctuary. In another connection the psalmist says, "God is a very present help in trouble." Many officials of our nation are turning to God and the sanctuary for strength, guidance, direction, and discipline.

The ground for seeking help from the Lord was the king's recognition of Him as his personal God, and as the God of Israel.

May he remember all your offerings, And regard with favor your burnt sacrifices!

The prayers leaves no doubt that the Lord will come to the aid of His anointed—the king of Israel, and that the victory will be an occasion for shouts of joy, and in the honor and for the glory of the Lord, we'll unfurl our banners to the breezes of heaven. Now I know that the Lord will Help his anointed;

He will answer him from his holy heaven

With mighty victories by his right hand.

Unlike their foes, Israel does not boast of military might and prowess but of their Divine Ally.

Some boast of chariots, and some of horses;

But we boast of the name of the Lord our God.

They will collapse and fall;

But we shall rise and stand upright.

The amen of the prayer is v 9:

Give victory to the king, O Lord;

Answer us when we call.

Psalm Twenty-one is a hymn of Praise for Deliverance. The king of Israel trusted in the Lord, and the Lord did not disappoint him. Neither will He disappoint leaders of the Western Nations who fully trust Him. We may be able to say of each of them as the Psalmist of his king:

Thou hast given him his heart's desire,

And hast not withheld the request of his lips.

Therefore,

Be exalted, O Lord, in thy strength!

We will sing and praise thy power.
