BASEBALL IN **TANEYTOWN**

First Game of the Season at Mummasburg, April 24

Sunday, April 24, you will witness the inaugural title of the 1955 base-ball season at the Taneytown Memorial season at the Taneytown Memorial ball park. The initial game will find Wildasin, Myers, Koontz and Company under the able leadership of Gus Shank who is replacing Manny Wildasin, at the helm. As of this date there have been no major changes in the line up. Taneytown will terrorize the league diamonds with the same fiery club as last year.

The fans will be very pleased at the appearance of the ball park because there has been many renovations since the closing of last year's season. We can now boast of new dugouts for the home and visiting teams, and a new top on the grandstand which will keep that scourching summer months sun from blaring down on

The future of baseball in Taney-town lies entirely in the hands of its supporters. In order to have a successful season and an energetic club we must have 100% cooperation from you—the fans. The ball players have complete faith in your support. Let's not disappoint them.

With 1955 still in its first half, we think it is perfectly safe to name Dr. Jonas E. Salk as the Man-of-the-

With the reading in Ann Arbor on April 12th of his 113 page report, Dr. Thomas Francis, Jr., of the University of Michigan, who evaluated the most massive field trials in the history of medicine, the world learned that poliomyelitis can be, and will be

In essence, the detailed study of the 1954 trials, involving the vaccination of 440,000 children in the 44 states with three separate inoculations of the Salk vaccine, has established the effectiveness of the preventive treatment at 60 to 80 percent. New data presented subsequently by Dr. Salk on both the processing of the vaccine and the method of administering indicate increasing effectiveness from here on.

At the President's direction, machinery was swiftly set in motion to share the Salk discovery with the world and to formulate plans for proportional distribution throughout the US and the prevention of black marketing of the vaccine. While it is not expected that we can produce enough of this precious fluid to ship any quantity abroad before 1957, Secretary of State John Foster Dulles will send copies of the Ann Arbor report and full data on the Salk vaccine to our diplomatic headquarters in 75 foreign nations, including our embassises in Poland and Russia-whence the information will undoubtedly go to

Red China. But, amidst the rejoicing, we should bear in mind two important points. First, because Dr Salk's great gift to humanity is not yet 10 percent effective, and because it will be a long time before all of our young people and expectant mothers can be inoculated, hundreds more are yet to be stricken down by this dread disease. And second, for thousands of those now suffering from polio, the battle can never be won.

Here, as with every epoch-marking advance, the suffering of those who were born too soon is etched all the sharper against this background of immunity for others.-U. S. Press Association.

GRASS ROOTS OPINION

COATESVILLE, PA., RECORD: "Under our federal-state concept of government, the Constitution gives to the states not oly authority but the obligation to safeguard the right of every citizen to seek his best economic interests. The states cannot safeguard this right except by guaranteeing the right to work.'

LAMBERTVILLE, N.J., BEACON: "Under a fancy scheme today the worker, who does not want to work can say 'the heck with it' and sit down and enjoy his unemployment compensation checks. Then too, all that talk about saving for the future is the bunk We have social security that will take care of us when we are 65. But, with all this there comes the realization that the producers are becoming less and less and the 'eaters' are growing in number. Where does this lead us? We think to the brink of full statism. It may be later than you think." "Crazy you say? Well, think about it.

ONTARIO-UPLAND, CALIF., RE-PORT: "The blunt truth is that guaranteed annual employment will not work in a free economy because that freedom includes freedom of customers to buy where they choose. To have any bona fide value a guaranteed annual wage would have to be linked to a guaranteed annual mark-

FEESERSBURG

The most important bit of news that the entire world has heard for a long time was the announcement last week that the Salk Polio Vaccine had proved to be a success. Each year parents have worried through the warm summer months with a feeling of anxiety in the back of their mind, not knowing just where the polio virus would strike next. Now the tension is over or will be over when each child, the world around, has been given the Salk Vaccine. This is going to take a little time and all parents should be patient until it is their child's turn to receive the shots. The American public can, along with Dr. Salk and his technicians be proud of the work just accomplished. For it was the great American people with its generous giving to the March of Dimes that provided the millions of dollars needed to carry out the research so necesed to carry out the research so necessary in preventive medicine. And to the thousands of volunteers, who each year worked for the Polio drive, no praise is necessary. The deep satisfaction of seeing one's work carried to a successful and climatic conclusion. sion, is reward enough. But resting on one's laurels is not the American way. The people who have worked so hard for the Polio Vaccine now must turn their efforts toward finding the solution for mental illnesses type of disease is rapidly increasing and its effect upon family and community is as devastating as the effect of polio has been. Preventive medi-cine is the best medicine and finding out the reason for mental illness is the best means of combating it.

Its a bit late to comment on Easter, but despite beautiful weather, the parades in which milady showed up in all her finery, were quite small this year. Flowers too were missing from the women's costumes. The reason? Maybe women are growing up and don't need to parade as peacocks for attention. Intelligent women anyway want to be known as something more than a rack for beautiful clothes to hang on.

Calling all dairy farmers! Please read the article in the latest issue of Colliers Magazine on Milk. Read it twice. Then write to the editor and tell him your side of the story. Too many of these articles are never analytical the average farmer's swered from the average farmer's point of view and the public only reads one side. And the public's idea of a farmer borders on the ridiculous. Recently in a large Food Fair store in Baltimore a friend of mine overheard two shoppers discussing the price of milk and other products. This is the way the conversation went: Mrs. A. "I just can't understand why milk costs so much. I read in the paper where there is too much milk and they asked the farmer to cut down. "Mrs. B—"If you ever rode out in the country and saw how some of the farmers lived you would know why milk is so high, just like millionaires. "Mrs. A. "I think they should just do away with farmers. We can buy everything in cans anyway. Even milk." You don't believe two city women could talk so stupid? Then you st don't know the The city dweller knows absolutely nothing about farming except what they read in magazines and most magazine articles are written by some writer who spends one week-end on a farm and thinks he knows all the answers. If some down to earth farmer doesn't soon take his pen in hand and write some truth in the farm artcles all city consumers will believe that food in cans are manufactured and not grown in the fields by the sweat of the farmer's brow.

The Wren family arrived at Merry Knoll today and began looking for a house to start raising another bunch of little wrens. One house was occupied last fall by a swarm of bees with their queen. But this bunch of nonconformist bees perished during the winter for lack of food and foresight. Which is another example of what happens to both man and insect when they try to be individualists. Wrens seem satisfied to follow a set plan of living. Never have I met a revolu-tionary wren. No doubt that is why they are always gay and happy and

Spring not only is meant for the birds but for men too judging by all the activity about our community. The Monroe Pfoutzs are adding an addition to their house; the Billy Coshuns have built a picket fence around their home-not to fence the house in but to keep their young son from wandering; the Reavers and the Roops are landscaping their estates and our other neighbors are painting and planting, too. There doesn't seem to

be a lazy drop of blood in anyone. We are in the midst of doing some planting ourselves and we would appreciate hearing from anyone that has some weeping willow trees for sale. We have tried the local nurseries but they do not have any. One of the nicest trees to plant for decoration is the flowering crabapple. Both the blossom and the fruit are attractive, and they are able to withstand severe

winters.
"Music and The Mode" was presented by the music and Home Economic's Departments of the Elmer Wolfe School Monday evening at the P.-T. A. meeting. The program combined the talents of musicians, models and dressmakers of the student body making it a very extension overland. ing it a very entertaining evening. The girls of the Home Economic Department turned out some very fine work equal in some instances to professional work. The musical talent shows marked improvement over last year, especially the orchestra and chorus. A one act play and a routine by the Majorettes were included in

The greatest gift that God and Nature has given to man is the ability to rise above grief and disaster. Somewhere within each person is a reservoir of strength and fortitude which rises to the surface when needed most and fills one's heart and mind with courage and the will to go on.

FAIRVIEW

We sure are having some day today (Tuesday) with the rain and the wind howling like March instead of splendid service, always available to April. They always say no pretty weather until after Easter, it looks as though we had ours before.

Well next week this time I guess we will be rising an hour earlier which makes it conventient for some but

not for others. Mr. and Mrs. Levi Frock called on the former's parents, Mr. and Mrs. Albert Frock, of Gettysburg on Satur-

day evening.

and Donald Massimore, arrived home here on Wednesday morning after receiving their discharge from Uncle Sam's service. Welcome home boys. Sparks from the anvil.

For a brighter-than-ever future, a complete regeneration of all everywhere is necessitated, when will that ome to be so?

Many of those "I-will-never-do-it-Againers" just habitually say so, and do the same thing again, and again and again, their will power has been

anaesthesized.

CARD OF THANKS

I want to thank all of my friends for their many cards, well-wishes, and prayers while I was in the Hospital and since I've returned home. Even a little girl's spirits gets a boost from knowing someone is thinking of her. Thanks to you all.

"DEATHLESS WEEK ON MARYLAND HIGHWAYS"

Remember? The sands of time have run our for Deathless Week on Maryland Highways. There were nine traffic fatalities in that week . . nine lives needlessly lost. Remember. Remember. In the sands of time Deathless Week is recorded as a failure . . . a failure that nine families will never forget. Remember Deathless Week not as a goal that might have been achieved, not as a campaign that has ended now, but remember it as a blot on the record of Maryland. Remember it with a sense of shame. Remember it, drive and walk more thoughtfully, for you could be the one that makes the next Deathless Week a failure. Remember . . . that every week must be Deathless Week on Maryland Highways.

Godly Nations

Lesson for April 24, 1955

WE MAY as well admit that no such thing as a "godly nation" has ever been seennot if you take the word "godly" at its full meaning. A godly nation, 100 per cent, would be one where every citizen kept

God's commands, where every act of Congress (or of Parliament, of decree of king) would be such as God would fully approve. For the matter of that, a hundred - per cent godly individual is

also unheard of. Dr. Foreman And yet we can speak of godly men and ungodly ones. So we can speak of more or less godly nations, nations whose trend and direction is toward God or away from him.

1s God on Our Side?

We always like to think, especially when we are at war, cold or hot, with other nations, that God is on our side. We like to think that we are God's people and the other side, the enemy, is not. The truth of the business is that no nation is either completely right or completely wrong. no nation fully carries out God's will and no nations wholly defy it. No nation in the world today is composed entirely of Christians, no nation in the world today is without Christians in it. But having said all this, we can still say truly that God is on the side of some people and nations more than he is on others. In the Old Testament we have a good example of a nation that made this mistake of supposing God would be for them whatever they did, and they were dreadfully dismayed when they discovered that they could lose wars and generally "eat bitterness." Many Jews thought God had let them down when such things happened; but the prophets knew better. Azariah, a proph-

et in King Asa's time, put the truth in a nutshell. "The Lord is with you while you are with him," he said.

Leadership in the Church

King Asa's times, and the times of President Eisenhower and Queen Elizabeth, are not so very far apart after all. What was needed for a godly nation in the days of Asa? The need that the prophet mentions first is "teaching priests." There were plenty of priests who went through the liturgies and made sacrifices, but what the nation needed was teaching priests, religious leaders who could teach the law of God that is to say, priests who could show the people what religion meant in daily living, in dealings between man and man. So long as religion stays inside the church, so long as religion concerns itself only with the Other World, so long as religion tries to confine itself to what is exclusively spiritual, it will not be Biblical, and it will be powerless to build a godly nation. An officer in a young people's church group once told the writer: "Our bunch really means business. This year we raised the money to extend the chancel two feet." -and that was all they did! One suspects that there was something missing in the parson's sermons, if those young people got the idea that the business of religion mainly has to do with how long or short the chancel is. God's law is not a law for Sunday mornings only. But until and unless there are teaching priests who take the lead in showing us how we can apply God's law-and above all the law of Love-to our life as a nation, we shall be godly only on Sunday mornings, if ever. The most church-going city in the south was for years also the city with the highest murder rate; the place lacked teaching priests.

Leadership in the Nation

Preachers and churches will have an uphill time of it, at the best, even when they do see and work for the doing of God's will in everyday social and political and business life. There is too much organized and unorganized selfishness abroad to give the God of Love much chance. So in our time, as in King Asa's long ago, there is need for leaders outside the pulpit. In those days it was the king himself who took the lead. We have no kings in America but we do have leaders, all the way from village mayors up to Congressmen, senators, supreme court justices and the President.

Want to feel a pilot feels?

Today's the day to "Join The Test Pilot Club" and see what a thrill you get when you try Variable Pitch Dynaflow*

Thrill of the year is Buick

We're not kidding.

When you try a '55 Buick with Variable Pitch Dynaflow, you'll feel like a pilot does when he heads his plane down a runway for take-off.

For you, in the driver's seat, are doing what that pilot does-you're changing the pitch of your propellers - one way for instant response on getaway-another way for better gas mileage in cruising.

Your propellers are whirling in oil, deep inside the Dynaflow unit. When you press the pedal in the normal way, you hold those propellers in their economy angle-and you enjoy plenty more miles from your gasoline. But when you want instant acceleration - for

quick getaway, or for a sudden safety-surge of

emergency power - you just press the pedal way

down, and-with absolute smoothness-you get

the action you want, and split-second quick.

It's the thrill that's the talk of the industry -performance unlike anything you have ever known before on the ground.

And so many folks have been asking to try if that we Buick dealers across America have set up April as "Test Pilot Club" Month. All it takes to join the "Club" is a test drive at the wheel of a new Buick. That's all.

So we cordially invite you to win your "wings"-to try the spectacular performance of Variable Pitch Dynaflow - and to feel the mighty V8 power that puts the whip to these gorgeous new Buick beauties. Drop in this week.

*Dynaslow Drive is standard on Roadmaster, optional at extra cost on other Series.

Local delivered price of the 1955 Buick SPECIAL 2-Door, 6-Passenger Sedan, Model 48 (illustrated) is

\$2,316.00

Heater & Defroster-\$81.70; Radio & Antenna-\$92.50.

Said a sleuth: Ah! The mystery's unravelin'-About cars that "take off like a javelin." But with Dynaflow's switch Of its Variable Pitch-You were here. Now you're there. Boy, that's travelin'!
