KIWANIS NEWS

Charlie Havens of Westminster Addresses Club

Charlie Havens, of Westminster, spoke to the Kiwanis Club of Taneytown at its meeting Wednesday evening at Taney Inn. President Harman Albaugh presided. Group singing was led by David Smith with Mrs. Wallace Yingling as piano accompanist. Rev. Miles Reifsnnyder offered the prayer.

The players of the Taneytown team of the Babe Ruth League were the guests of the Club. Mr. Havens addressed his remarks to the team which was truly inspiring to these energetic and good spirited boys.

Judge Anderson, of Pikesville, Donald Smith, of San Antonio, Texas, and George Stump, of the Winchester Arms Company, were also present.

The Club has completed arrangements for the Shrimp and Crab Feed to be held next Wednesday evening, July 27, at the Taneytown Rod & Gun Club grounds. The net proceeds will be used in this community by underprivileged child committee.

CONCERT PRESENTED

On Sunday evening, July 17, an appreciative audience braved the heat to hear the well-known orchestra of Noah Arbaugh present a concert of old and new favorite music in the garden of the Historical House, 206 East Main St., Westminster. Mr. Arbaugh conducted throughout and also played several of the numbers. An interesting feature was a clarinet trio played by the three youngest members of the orchestra, teen agers Jerald and Joseph Myers and Anthony Walchshuser. The others of this musical group are Edward Bollinger, Paul Dern, John E. Grove, Mary and Wade Herbert, Norman Myers, Stewart Myers, Earl Lambert, Richard Miller, Floyd Myers, Lester Myers, Elise Shaffer Holland, Thomas Rowe and Charles Swinderman.

This concert will be the only one under the sponsorship of the Historical Society this season. The Society's next activity will be the annual tour, which will visit the Woolery's District on Wednesday, August 10. The tour will start at Sandy Mount Methodist Church at 2 p. m. on that date, and will visit the church, the Shilling's Stone House, Bethel Church, Oxmore Mill, Wesley Church, Richards Old Mill, Emory Church, and finally the Congoleum Nairn plant at Cedarhurst, where a conducted tour of the plant will start at five o'clock, to be followed by box supper at the plant's clubhouse before returning to Westminster.

PRESBYTERIAN CHURCH PICNIC

The Presbyterian church held its annual picnic, Monday evening, July 18, at the Memorial Park. An unusually large number of members and friends turned out for this very pleasant occasion.

The supper committee which provided delicious and bountiful food was headed by Mrs. Ray Crumbraker. A ball game between Taneytown and Liberty Little League was quite an attraction to both old and young, especially as Myron Tracey and two of his boys, Jimmy and Jerry were participants in the game.

As is well known the Park is well adapted for such affairs, with play equipment for the children, tables and fireplaces.

It might be suggested that each group using these facilities would be more careful about leaving it clean of papers, bottle tops and other rubbish thus making it more attractive for the group that is to follow.

NON-HIGHWAY USERS ASK TAX EXEMPTION

Support for an amendment to the proposed Federal highway roads bill to exempt non-highway users from the entire three cent gasoline tax was urged on Maryland Congressmen by the State Farm Bureau.

The measure, introduced by Representative George Fallon (D-Maryland, Fourth) has already been amended by Committee to exempt farmers, airlines and shippers from the projected increase in the gasoline tax from two to three cents.

But Congressman Frank Smith from Mississippi said he would try to amend the bill on the floor to strike out the entire three cents as far as non-highway users were concerned.

Letters supporting Smith's amendment were sent out by Maryland Farm Bureau State Secretary C. E. Wise, Jr. to each of the Free State Congressmen.

LOCAL DAIRYMAN HONORED

Mr. Frank P. Parish, Taneytown, Md. was honored in the July issue of the "Herd Builder" national monthly publication of the American Dairy Cattle Club for the outstanding performance of the American Crossbred cow Beltsville X68, X-22045. This animal was listed as a Production Queen by the Club for averaging at least 10,000 lbs. of milk and 500 lbs. of fat in three or more lactations. Beltsville X68 averaged 11894 lbs. of milk and 567 lbs. of fat in 7 lactations.

"It is my hope that the American people will increase their financial support for education,"—NAM President Henry G. Riter 3rd.

LETTER TO THE EDITOR

Suggests Plan for Traffic Safety

Harney Road Taneytown, Md., July 17, 1955
To the Editor of the Carroll Record
Dear Sir:

On many occasions all of us have noticed automobiles and trucks entering or leaving Taneytown at East or West Baltimore Streets at terrific rates of speed. As many of our homes are located on the main street and since many of our children reside and play near this main artery of traffic, such speed represents a serious threat to the safety of children and adults alike.

As a measure to slow down traffic both entering and leaving our community, I have asked our Mayor and Town Council to consider the possibility of erecting two traffic signals; one at the intersection of East Baltimore Street and Fairground Avenue, and another at the intersection of W. Baltimore St. and Harney road. The lights would normally be red facing the main thoroughfare and a green light would be produced by a car's running over a tripper on either side of the lights at the proper interval. It would appear that trippers should be placed on both sides of the lights as cars tend to greatly accelerate speed above the 30 mile limit long before leaving the corporation limits. This would tend to hold them down until out of the town.

If adopted, the main purpose of the signals to slow down traffic, should be widely publicized to the citizens of Taneytown as some would regard the lights as an inconvenience and others as unnecessary insofar as regulating intersecting traffic is concerned. If thoroughly understood, however, it is likely that our people would regard such a provision for our children's safety as adequate compensation for any inconvenience and expense involved.

I do not pretend to be thoroughly versed in the engineering aspects of the above proposal nor familiar with all of the problems involved. It is hoped, therefore, that interested citizens will give consideration to the plan of erecting traffic lights at either end of our town as a safety measure to slow down traffic and let the members of our local government know of your thoughts in the matter either pro or con.

Sincerely yours,
FRANK WAGNY

HAMPSTEAD YOUTH FOR CHRIST

Hampstead Youth for Christ still holds the Eastern Regional Championship title for their Bible Quiz team, but had to gracefully bow out on the margin of one question to the 1954 National Champion, Los Angeles. Los Angeles, in turn, lost their title by one question to Chicago, who is the 1955 National Champion.

Thousands of Young people, and adults from the 48 states gathered on the grounds of Winona Lake for the first two weeks in July to be challenged by nationally known Evangelists, and speakers, such as Dr. Bob Cook, Dr. T. W. Wilson, Dr. Bob Pierce and many more.

The music was under the direction of Ralph Germichael, with organist Les Barnett, and pianists, Rudy Atwood and Kirk Kaiser. Musical packages were presented nightly with Jack Connor, the Palamos, Alan McGill, Bill Carle featured with the 300 voice choir.

Teenagers were spurred to develop their talents for the Lord's work with vocal solo contests, vocal group, instrumental solos, and instrumental group contests on a national level. The Eastern Region came home with one of these titles—the instrumental group, from Southern Chester County, Pa. Girl speakers, and boy preachers, girl and boy song leaders also competed.

Filled with enthusiasm and ready for action 28 folks from Hampstead, Y.F.C. have returned from Winona and will be at the rally Saturday night, July 23, 1955. Instrumental trio and vocal trio from South Penn Y.F.C. will be the featured talent.

All rallies are held in the Greenmount church, one mile north of Hampstead on Route 30, prayer meeting 7:30-8:00 and Rally at 8:00.

GRANGE NEWS

Past Master Ellsworth Parks, left on the past Sunday for Batavia, Illinois, where he has accepted a position with the Campana Corporation. Mr. Parks was the first Master of Piney Creek Grange #422 which was organized in 1952 and prior to his departure the Grange surprised him and his family, who are all active members, with their families gathered at 7:15 in the evening and went to the house in a group and presented them with an aluminum folding table as a going away present. The weather wasn't as enthusiastic as the Grangers so it was necessary to move the party to the Piney Creek Church Parish House where a weiner roast and other refreshments were enjoyed while the adults reminisced and the children played games. To say the Parks were surprised would be putting it mildly and to say we will miss them would do the same.

CHILD DROWNS

Sad Accident Occurred Sunday

A Carroll County father found the body of his 21-months-old daughter floating in their farm pond Sunday and despite efforts of Taneytown firemen, the child was pronounced dead upon arrival at Annie M. Warner Hospital, Gettysburg.

The child, Yvonne Elaine Sanders, daughter of Mr. and Mrs. Mark Sanders, Taneytown, R. D. 2, Pine Hill, died about 6:10 p. m. She had wandered into the pond after playing with several other children and had been out of her parents' sight only momentarily, according to Maryland State Trooper L. L. Dunn.

The resuscitator of the Taneytown Fire Co. was rushed into use vainly. She was pronounced dead at the hospital by Dr. C. G. Crist, Adams Co. coroner.

Surviving besides her parents are two sisters, Ruth Marie and Catherine Eileen; maternal grandparents, Mr. and Mrs. Charles Hobbs, Fairfield; great-grandmother, Mrs. Martha Hobbs, Emmitsburg; paternal grandmother, Mrs. James G. Sanders, near Taneytown.

Mass of the Angels was held in St. Joseph's Catholic Church, Taneytown, Wednesday at 9 a. m., by the Rev. Stephen Melcher, pastor. C. O. Fuss and Son, funeral directors, were in charge of arrangements.

The bearers were Louise Keepers, Jane Keepers, Rebecca Sanders and Margaret Hobbs.

PEEL GRADUATES AS MISSIONARY

Paraguay will be the missionary assignment of Allen Peel, formerly of Taneytown who will be graduated July 23 from the Watchtower Bible School of Gilead located at South Lansing, New York. The graduation exercises will be a special feature of a five-day convention of Jehovah's Witnesses in Yankee Stadium, New York City, which will be attended by an expected 50,000 persons.

As a full-time minister with an outstanding record for a number of years Mr. Peel was called for advanced training at Gilead Bible School. He studied Bible doctrine and prophecy, missionary service, Biblical law, public speaking, Bible research, and archaeology, geography, Bible manuscripts and congregation organization. All costs of tuition, room and board have been paid by the Watchtower Bible and Tract Society, governing body of Jehovah's Witnesses.

The former Taneytown youth will be graduated with an international class of 102 students from 15 countries besides the United States, including Canada, England, Scotland, France, Denmark, Norway, Australia, New Zealand, South Africa, Southern Rhodesia, Japan, India, Trinidad, Jamaica and Holland.

The school has sent 2500 missionaries to 100 lands since 1943. Students of the present class have been assigned to 24 different countries including Paraguay, Uruguay, British Guiana, Formosa, Hong Kong, Indonesia, Fijian, Thailand, India, Uganda, Nyasaland, and Kenya. Others have been prepared for organizational and supervisory work in the United States and Canada.

In anticipation of his work abroad, Peel also took basic language studies and reviewed the customs and beliefs of the peoples of other lands.

Mr. Peel came to Taneytown in 1952 and while here made his home with J. W. Wilhide of Detour. He served as the presiding minister of the Taneytown congregation of Jehovah's Witnesses until going to Bedford, Pennsylvania where he continued his service up to the time of his call to Gilead Bible School.

The graduation address will be given at the New York Assembly by N. H. Knorr, president of the school and the world organization of Jehovah's Witnesses. After final counsel and presentation of diplomas, Mr. Knorr will officially announce missionary assignments.

Graduation exercises will be a main feature of the five-day event, which is the last in a series of conventions during June and July in Chicago, Vancouver, B. C., Dallas, Los Angeles and New York.

Following graduation, Mr. Peel will carry on Bible educational work in New York until leaving for Paraguay.

"FLYING EVANGELIST" TO SPEAK TO C. E.'ers

Rally of Church Workers at Parris Spring

Mr. R. G. LeTourneau, well known multi-millionaire manufacturer of heavy earth moving machinery, who spends his week-ends flying about the United States preaching at religious gatherings will fly to Maryland in his 3 motor plane to speak Sunday, Aug. 7, 2:30 p. m., at one of the most beautiful and unique spots in the state. He will speak from the same platform used by Gov. McKeldin in a previous Christian Endeavor Rally at Parris Spring. The platform is erected out in the water so that the open Bible on the speakers table will be resting in 4 counties, Carroll, Howard, Frederick and Montgomery. Parris Spring, the source of the Patapsco River was originally a small spring used by Colonial surveyors as a boundary marker for Baltimore, Frederick and Anne Arundel Counties. It is now a beautiful Blue Water pond in a Green Meadow setting.

Mr. LeTourneau pioneered in the manufacture of heavy earth moving equipment such as was used by the Smith family to transfer Parris Spring into a pond large enough for motor boating. Mr. LeTourneau started from scratch when he introduced rubber tires on primitive World War I earth moving equipment. His idea was so successful that his life could well be a Horatio Alger story for he became a multimillionaire. He still operates his factories and still experiments with new earth moving monsters but he also decided to devote many millions to church work. Established the LeTourneau Foundation. Developed 500,000 more Lake Louise Christian Conference grounds in Liberia and is now developing a Million Acres in Peru. He helps missionaries, christian schools and colleges. Thousands turn out to hear him wherever he speaks. His Maryland appearance has been arranged by Wilton J. Boswell, Brookeville, Outdoor Poster Chairman for the Maryland Christian Endeavor Union and the collection taken at Parris Spring will help finance Roadside billboards with a "COME TO CHURCH" invitation.

Mr. LeTourneau's lecture "Up From Bankruptcy" has been given in 48 states and a large crowd is expected at Parris Spring the first Sunday in August. Parris Spring, the 4 county spot, is on Md. 27 just south of the new U. S. 40 Ridgeville overpass. The new US 40 cuts thru the 4 Co. Smith farm. Mt. Airy boy Scouts will park cars in the meadow and state police have been requested to direct traffic at the entrance to the farm.

The program begins at 2:30 p. m. in order to permit Mr. LeTourneau to get away early to fly to his Monday morning appointment "Somewhere in the World".

"SPICE 'N' EVERYTHING NICE"

(Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's
dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help
to cheer
Each future day and in some way—help
to bring you happiness!

All the flowers are in full bloom around the place and it is most colorful. The Gladioli from the five and dime are not the purple and white ones which I thought I had selected but a deep beautiful red around the Blue Spruce. I have just cut the huge lawn and sitting out under a tree near the babbling brook. The only other sound is the language of the birds now and then as they look down at me. (Typing this Column).

The twelve tomato plants are thriving beautifully in between the Zinnia bed and have just placed sticks to which I tied the plants instead of having them lay upon the ground for that way the tomatoes will not rot. The tremendous Oak tree in back of the window of the breakfast nook has a breadth of 105 inches, which we measured the other day and must be about 250 years old or older!

That reminds me be sure you let your feet breathe (as I do) by going barefoot most of the day. Be sure you walk out on the cool lawn no matter who pops in and don't apologize because you are barefooted.

Here's a cute one which is new as to chickens, Mr. Farmer!

Shopping in the "Acme" to purchase a fryer there I saw two fryers in one package—one a trifle smaller than the other and a little label standing "His" "Hers"!

And then this down in that grand old store on Lexington street in Baltimore—Tuerkes'! Wrought Iron with gilt lettering and this was it, "God Bless our Mortgaged Home!"

Driving up to Philly just for the day, the traffic was terrific—exactly like New York. Driving northward up Broad Street, I slowed down to tell a policeman, "My how lucky you are to be dressed like that these hot days. Our Baltimore policemen should be wearing the same sort of affair!" Short sleeve light gray thin material sport shirt with a turn-down collar! That policeman just grinned for he realized the fact.

Now this is the very latest and a big surprise—if you have a friend who plays the piano and visits you and you are minus a piano which weighs exactly 75 pounds! He then places it on a tarpaulin and pulls up a chair and there you have it! Then, too there is a tiny radio about the size of a package of cigarettes! Life sure is wonderful these days! Eh?

Hope you did not miss Marion Marlowe taking over the Ed Sullivan Show last week. She did beautifully and thinking of T.V. and someone else filling in—don't miss that lovable Sam Levenson in Herb Shriner's seat for "Two for the Money!" The public I think laughs more at Sam's jokes than Herb's.

When you are driving please do not drive too closely to the car in front of you in other words don't be a "Bumper-Hugger" That is the cause of many accidents if the car in front should stop suddenly which I saw the other day. Both cars were damaged badly all due to "Bumper Hugging!"

It was so terribly hot in Baltimore last week individuals did not realize how the heat was affecting them. I am positive that eggs could have been fried right there on the sidewalk!

Be sure, Mrs. Housewife to have in readiness a pitcher of pure lemon juice handy so as you can immediately and quickly make lemonade for that unexpected caller. That one will be appreciated by any individual and add several cherries with the ice cubes of course.

What a woe of a sale in dresses for \$8.90 at the exclusive shop of Schleisner's North Howard Street (Baltimore) on Monday. Never have I seen such values! They were equal to 35 dollar affairs in any city. Finished as beautifully inside as the exterior plus the real deep-hems of years ago. Only up to size 18! Hope you did not miss "Grandma" on T.V. accept the \$32,000 instead of answering the \$64,000 which might have been a miss anyway. She was most wise and I know the interested public was glad.

Remember, folks the Bus enroute by my friends in Baltimore driving up to "Loves' Retreat" each summer? Wish my many Readers in Carroll County would charter a bus and do the same thing to visit me over here. What thrill that would be to see them again and all at one time! It is so very easy to find. Down to Westminster, Hampstead, Hereford, White Hall, Jarrettsville, Forest Hill and then left on Route 1 to Darlington above Bel Air. They could not miss and it is a beautiful drive. (One hour and half drive).

Well, folks, I'll close this Column with—I'll keep my fingers crossed. Until next week, D.V. Have a grand week-end. I am,

Faithfully,
YOUR OBSERVER.

GOVERNOR MCKELDIN VISITS TANEYTOWN

Maryland's Governor with first lady Mrs. McKeldin paid an unexpected visit to Taneytown last Sunday.

The Governor and his gracious wife stopped at Mrs. John T. McClellan's Antique Shop where they made several purchases.

It is seldom that Taneytown is honored by distinguished guests without an advanced announcement but nevertheless this visit was appreciated. Come back again Mr. Governor and Mrs. McKeldin. You are always welcome in Taneytown.

Keep your fears to yourself, but share your courage with others.

DEVOTION TO DUTY

On the day following former President Hoover's retirement to private life, the Portland Oregonian said: "Herbert Clark Hoover, who will be 81 years old in August, can look back on a public career that has had few, if any, parallels in the history of the republic."

"When Mr. Hoover left the presidency in 1933, he had even then reached an age when most men look toward retirement and the tranquil satisfaction of a sequestered life. But Mr. Hoover never laid aside his vital concern with the nation's fortunes at home and abroad."

"Herbert Hoover should have the warm gratitude of all Americans for his extraordinary and unselfish devotion to public duty."

Mr. Hoover has always stressed the philosophy of government upon which this nation was founded and which has been true source of its strength and well-being. Not long ago he expressed that philosophy in a sentence when he said: "The remedy is to restore the checks and balances of power, to reinvigorate state and local governments and to deflate the bureaucratic empires."—Industrial News Review.

GRASS ROOTS OPINION

ELK, GROVE, CALIF., CITIZEN: "With the completion of the 10 millionth home in the United States since 1945, it is safe to say that America has built more in a decade than any other country in history. It illustrates how the many cogs in the free enterprise machine work in harmony, for building construction is not merely a matter of putting materials together. Back of the construction industry is the vast army of producers and suppliers, along with the banks and other financial institutions, which gather individual savings and mobilize them for building and other useful purposes."

NORWALK, CONN., HOUR: "Automation does not necessarily mean fewer jobs. It means greater production by more skilled and better trained workers. It also should mean a higher standard of living for the workers who can qualify as the new operatives, as well as to the public generally through greater production."

SOCIAL SECURITY

Checks for insurance payments under the provisions of the Federal Old-Age and Survivors Insurance Program are going to 2,323 aged persons, children, and their widowed mothers in Carroll County.

In releasing these figures, Laurie J. Gillespie, field representative of the Baltimore North Social Security district office, also said that these monthly payments amount to \$104,277.00. "Without these payments earned by workers under this contributory system, the ability of many persons to pay for necessities would have been drastically curtailed or entirely ended," he added.

Almost one-half of all people over 65 in the United States who could not count on income from work for support were getting social security insurance benefits. About 1,243 persons over age 65 in Carroll County were receiving these payments.

Mr. Gillespie pointed out that this Federal program is affording substantial survivor insurance protection. Three out of every four mothers and young children in the nation are now assured of monthly payments if the insured breadwinner of the family dies.

In this connection, he cited monthly payments totaling \$14,437 to 331 children and their 76 widowed mothers in Carroll County.

For information concerning this program write or call at the district office, 3107 Greenmount Avenue, Baltimore 18, Maryland.

PRACTICAL ARITHMETIC

TEN little Christians standing in a line,
One disliked the preacher; then there were nine.
NINE little Christians stayed up very late,
One slept Sunday morning, then there were eight.
EIGHT little Christians on the road to heaven,
One took the lower road; then there were seven.
SEVEN little Christians got into a fix,
One disliked the music; then there were six.
SIX little Christians very much alive,
But one lost interest; then there were five.
FIVE little Christians wishing there were more,
But they quarreled; then there were four.
FOUR little Christians, cheerful as could be,
But one lost his temper, then there were three.
THREE little Christians, know not what to do,
One joined a sporty crowd; then there were two.
TWO little Christians—our rhyme is nearly done,
Differed with each other; then there was one.
ONE lone Christian won his neighbor true,
Brought him to church; then there were two.
TWO earnest Christians, each won one more,
That doubled their number; then there were four.
FOUR sincere Christians worked very late,
But each won another; then there were eight.
EIGHT splendid Christians, - but nothing rhymes with sixteen, so we simply note that in four more rhymes there would be 1042, WHICH WOULD BE QUITE A CHURCH FULL!

During 1955, some \$4,340,000,000 in Series E bonds bought 10 years ago are maturing, bringing the total since May 1, 1951 to nearly \$20 billion. So far nearly 75 percent of matured E bonds are being retained by their owners to keep growing in value under the 10-year extension option.

The 1955 spring pig crop totaled 60,453,000 head, an increase of 9 percent from the spring of 1954. The number of sows farrowing this spring totaled 8,758,000 and was 9 per cent larger than last spring.

More than 40 million Americans now own U.S. Savings Bonds whose cash value is around \$50 billion. More than \$12 billion are in matured E bonds more than 10 years old, still growing in cash value.

Milkshakes flavored with crushed banana, strawberry and other fruit purees make good between-meal and end-of-day snacks.

Chevrolet's got a new honey of a hardtop

...with a lower-than-ever price tag!

The new "Two-Ten" Sport Coupe

Maybe you've had a yen for a hardtop but couldn't quite squeeze it into your budget. If so, this baby's for you! It's the hardtop as only Chevrolet builds it. Long, low and plenty saucy, like its convertible cousin. It's an honest-to-goodness hardtop, too—no center pillars when you roll down the

windows. Nothing but fresh air and a picture-window view. Best of all, this big, beautiful "Two-Ten" Sport Coupe is priced right down with the two-door sedans in Chevrolet's field. It lists for less than any other leading hardtop sold today. Come in and see what a walloping bargain it is.

CURRENT EVENTS FIFTY YEARS AGO

The Farmer's Pic-Nic. The Leading Event of its kind in the State. The Farmer's Picnic, which will be held in Ohler's Grove along the N.C.R. near Taneytown, next Thursday, Friday and Saturday promises to be a very successful affair. As has been previously stated, there will be many exhibits of machinery and there will also be amusements for the young, as well as refreshments for everybody. The object of the management is to make the days full of entertainment and instruction, not only to agriculturists, but to everybody who will attend.

Two cows were struck by lightning and killed on the farm of William Witherow, near town, last Friday evening, during the heavy gust.

(Advertisement) Unique 9-Cent Sale! Special for Saturday, July 29—75 Tin Buckets, 9c—One to a customer. We feel safe in saying that no store in this town has ever offered a bucket like this for less than 20c. C. Edgar Yount & Co.

The Sunday School of St. Luke's (Winter's) church intends holding their annual festival on Saturday afternoon and evening, Aug. 19, 1905, ice cream and confectionaries will be on hand as usual; also a 20c supper will be served. Come and enjoy the evening on the lawn in front of the church. Music by the Taneytown Band.

New Windsor—Mr. and Mrs. Norval Shoemaker and daughter, spent Saturday and Sunday last with Mrs. S's parents, Mr. and Mrs. Chas. Lambert.

John S. Baile and Kelso Anders left, on Wednesday for Weems, Va., to spend several weeks.—Mrs. J. Ross Galt entertained Miss Jennie Galt and Mrs. Curtis Bowers, of Taneytown; also her niece, Miss Crouse of Coatesville, Pa.—The guests at Hotel Dielman had a spider-web party, on Monday evening.

Frizzellburg—Jacob Null picked 1625 boxes of raspberries, this season, from about one-half acre.—Harry Myers and family, of Union Mills, visited his parents, Mr. and Mrs. David Myers, here, last Saturday and Sunday.

DETOUR-KEYSVILLE

Mr. and Mrs. Reuben Bostian, New Midway, visited on Monday evening with Mr. and Mrs. Elgie DeBerry and daughter, Hilda, at their home on the Forest and Stream Club road.

A former long time resident of Detour, James Warren, died several weeks ago. Mr. Warren was 93 years old. Sympathy of the community is extended to his family.

The Edward Coshuns have a new roof on their home at Redland. Mr. Coshun while on his vacation put the roof on with the help of his neighbors and his father.

Mrs. Elgie DeBerry, whose home is on the Forest and Stream Club road, has some very pretty gladioli, lilies and cannas in her little front yard garden.

The Junior Society of Christian Endeavor of Keysville church met at the home of its leader, Jean Stonesifer in Keysville on Sunday evening. The High School Society met on Wednesday evening at the home of Mr. and Mrs. Clyde Wilhide and on Sunday evening at the home of Mr. and Mrs. Carroll Wilhide. A number of people from Keysville attended the Pine-Mar Christian Endeavor meeting on Sunday afternoon.

Mr. and Mrs. Jack Bostian of Cincinnati, Ohio called on Mr. and Mrs. William Weishaar and family of the Forest and Stream Club Road on Friday evening.

Mr. and Mrs. William Weishaar and Jimmie called on Sunday evening at the home of Mr. and Mrs. Wm. F. Weishaar of Hapes Mill.

The Union Bridge 4-H Club met last Thursday at the home of Jane Wilhide near Detour. A good number of members and visitors were present. Mrs. (Paul) Mary Margaret Bowman of Union Bridge is leader of this group.

When you slow down for that Railroad Jack as you enter Detour (or leave Detour) take notice of the pretty bed of zinnias and fine bushes right along the railroad track in back of the Wolf home. The people who work on the train in all probability get a lot of joy out of seeing these flowers bloom.

The Misses Ina Duple of Keysville, Arlene Ahn of near Detour (the Forest and Stream Club U), Jean Ogle of Graceham vicinity accompanied Miss Mabel Sharrer of near Keysville to Atlantic City, N. J., last week end. On the way they paid a short visit to Mr. and Mrs. Walter Gill and family, White Hall, Md.

Mrs. Coral Cover of Detour was kind enough to call me and give me the name of the old-time plants which are in her yard and about which I wrote several weeks ago. She said they are called "Yucca plants" and are much more plentiful out through the western part of the United States. She said a nickname for them is "Adam and Eve." Mrs. William Weishaar, the iris lady, added another nickname—"Needle and Thread".

Mr. and Mrs. Melvin Schnappinger, Garry and Betty of Baltimore were week end guests of Mr. and Mrs. Carroll M. Wilhide and family. Mrs. Schnappinger and Garry are spending some time with the Wilhides. Mr. Schnappinger and Betty returned to their work in Baltimore.

Mrs. Coral Cover of Detour accompanied her daughter (Madge) Mrs. Herman Koutz and Mr. Koutz and their two children Kenneth and Luelien of Frederick on a plane trip to Dayton, Ohio to visit Lt. and Mrs. Robert Carpenter. Mrs. Carpenter is the Koutz's daughter Joan. Lt. Carpenter is in the Air Force. Mrs. Cover and the others left here on the 4th of July and returned on the 13th.

Richard Wilhide, son of Mr. and Mrs. Carroll Wilhide, spent several days at the home of his uncle and aunt, Mr. and Mrs. Walter Gill of White Hall, Md., and assisted with the harvest.

As you go around the curve at the home of Mr. and Mrs. Gregg Kiser near Keysville, it looks like Mrs. Kiser has planted flowers in between each of her rows of vegetables. They are all beginning to bloom now and it gives the appearance of being one big flower bed.

Mr. and Mrs. Oliver Edmondson, Phillip and Billy of Adelphi, Md., were also guests of the Carroll Wilhides on Sunday. Billy is spending a few days with the Wilhides. On Tuesday Oliver called telling of the death of his mother, Mrs. William Edmondson, the day before. Mrs. Edmondson had been making her home with her two sons, Grant and Neff and daughter Mary Ellen at 5700 Franklin Ave., Falls Church, Va. The Edmondson family owned the Redland Orchard quite some time ago. The Edward Coshuns now own the home at that place. All who remember the Edmondsons extend their sympathy.

Junior and Jake Thomas, sons of Mr. and Mrs. Harold Thomas of Hollow Rock Farm, are planning to each spend a week at the Brethren Church Camp, Camp Penick, a little above Thurmont. This will be a wonderful experience for the boys.

Mrs. Dixon Yaste and Mrs. Melvin Bostian had charge of the Missionary meeting at the Keysville Lutheran Church last Tuesday evening. They discussed the topic concerning Japan. After the meeting Mrs. Robert Hummel of Steelton, Pa., as pilot of an airplane with the assistance of her two

sisters-in-law, Mrs. Robert Stine and Mrs. Gilbert Stine as stewardesses, took the group on an imaginary trip to Europe and other places. If you read Mrs. Clut's account of the missionary meeting in the Carroll Record you know we all had loads of fun—and she didn't give any secrets away, telling about it.

Patsy Heaps is spending her vacation with her grandparents, Mr. and Mrs. Charles Cluts of Riverdale, near Keysville.

Mrs. Thomas Hobb and her nephew John and niece Leona of Baltimore visited her long-time friend, Mrs. Maurice Wilhide of Detour on Sunday. They were dinner and supper guests there.

Mr. Francis Fry of Baltimore spent several nights with his brother and sister-in-law, Mr. and Mrs. Charles Minnick of Union Bridge. He had worked a few days at construction work at the cement plant in Union Bridge.

Mr. Fry's daughter Sandy visited with her grandmother, Mrs. Maurice Wilhide and her cousin Jane Wilhide on Sunday and Monday.

The Keysville-Detour Homemakers Club will hold a covered dish supper at the home of Mrs. Cecil Priest located on the Forest and Stream Club Road on Thursday evening.

Mr. and Mrs. Robert Simmons and family of Taneytown, Mr. and Mrs. Edward Coshun and family, and Mr. and Mrs. C. E. Priest participated in a picnic supper at the home of Mr. and Mrs. Carroll Wilhide on Monday evening. They all wished Mrs. C. E. Priest a happy birthday. Movies were shown after it got dark enough to see the pictures.

Miss Elizabeth Yoder, along with her nieces Joan and Linda Gill and nephew Jim Gill spent Monday and Monday night with the Clyde Wilhides. She brought Audrey Wilhide along home with her. Linda and Jimmie are going to spend some time with their uncle and aunt, Mr. and Mrs. Clyde Wilhide. Miss Yoder and Joan visited with the Carroll Wilhides on Tuesday before returning to White Hall. Ross Wilhide visited with Carroll Wilhide and family on Tuesday evening.

Mr. and Mrs. Edward Coshun with Jim and Terry and Leon and Donna, Mr. and Mrs. Bob Waltz and Bobbie and Barbara Fogle spent Sunday at the Washington Zoo.

Mr. and Mrs. John Nafzinger and children Jimmie, Barbara and Bobbie of Denton, Md., have been visiting with her people Mr. and Mrs. Clifton Poff of near New Windsor and Mr. and Mrs. William Main of near Union Bridge last week. They were guests at dinner on Monday of Mr. Nafzinger's cousin, Mrs. Carroll Wilhide and for supper at another of his cousins, Mrs. Clyde Wilhide.

Frosty Snowballs,
Edible Variety,
Make Good Dessert

NOT ALL snowballs are meant to be tossed merrily on their way! There's a perfectly delicious variety, made from ice cream, frosted with chopped nuts, served with a sundae sauce, which you'll want to spoon as quickly as possible into your mouth.

This is an excellent dessert to be served for a special family dinner or one during which you entertain, as the snowballs are very elegant, though extremely simple to make.

Why not try them on the family first, and then plan them for a dessert luncheon or evening get-

Make an elegant dessert the simple way! Scoops of ice cream are rolled in chopped nuts and then served with butterscotch sauce. These may be made ahead, then frozen to save last minute preparation.

together after you've seen how simple they are to make?

Ice Cream Snowballs
(Serves 6)

1 quart vanilla ice cream
¾ cup finely chopped walnuts or pecans

Make large snowballs of vanilla ice cream using a large scoop or spoon. Quickly roll each ball in chopped nuts. (Make in advance, if desired and place in ice cube tray in freezing compartment). Serve plain or with butterscotch sauce.

Butterscotch Sauce

1 cup brown sugar
¼ cup milk
2 tablespoons light corn syrup
3 tablespoons butter
¼ teaspoon salt

Combine all ingredients in a saucepan. Heat to boiling, while stirring; boil to about 220° or about 3 minutes. Serve over ice cream snowballs.

Tricks in Keeping
Furniture Lovely

NEW FURNITURE always looks nice, but it takes some effort to keep it that way. There are many things you can do to cut down wear and tear on furniture of all kinds, but it takes a certain amount of "know-how."

Did you know, for example, that a thin coating of furniture wax applied to painted furniture will make it more scratch resistant? It will also make it easier to clean and less apt to fade.

Chair pads and cushions, too, will aid against scratches, while frequent waxing and polishing help preserve any good wood finish.

Keep After Dirt
Dirt and dust are the great enemies of fine wood, so it's mostly a matter of keeping after these constantly. Wooden furniture, for instance, can be washed, not often, but once or twice a year so that you can get after dust and dirt which clings to the wood.

To wash wooden furniture, use a mild soap worked into a generous but light lather. Wash a small area at a time, rinsing as you go, with clear, lukewarm water. Dry immediately with a soft cloth before moving to the next spot. Finish with an application of your favorite wax or polish.

There are waxes and polishes which do both cleaning and waxing or finishing in one application. These are time-savers and well worth their extra cost. Use plenty of clean cloths, discarding those which soil.

Dusting Mitts Help
In your day-to-day vigilance against dust, you'll find that dusting mitts are excellent for the job. You can crochet one or two yourself from shaggy yarn, and you'll find they do an excellent and efficient job.

Instead of dusting with only one hand, you'll find the job goes faster if you learn how to use both hands. The mitts, too, are helpful into reaching into the hard-to-get corners and will protect hands from dirt and grime.

Scratched Furniture
Furniture will show scratch marks no matter how you work at it. Iodine, from the medicine chest, will hide scratches in mahogany or dark woods. Deep cracks can be darkened with wood stain, then filled with white shellac applied with a fine brush. Let shellac dry thoroughly, then polish.
Light scratches may be minimized by rubbing them with the meat of a Brazil or walnut. To remove heat marks from shell-lacked or varnished surfaces, apply spirits of camphor or essence of peppermint. Allow to dry, then polish.

HISTORY OF HARNEY

PART VI

The United Brethren Church

The history of the U. B. Church in this place dates back to the year 1866, a little more than a quarter of a century ago; but the causes which lead to the organization of this class dates back to an earlier period. There were in this community, as in many other places, those who were not satisfied with the spiritual condition which existed in many of the churches, and we find that about the year 1857 Samuel Slagenhaupt, Sr., Peter Forsythe, Jesse Shaffer, Samuel Bowers and a few others arranged to hold prayer meetings at private homes. This was continued for a few years with good results.

Piney Creek School House was then secured as a place to hold meetings, and it was here that the first-class was organized, with Rev. I. C. Weidner, pastor, Jacob Shaffer, class leader and Peter Forsythe, steward. They paid their pastor, \$25.00 salary the first year.

The Baptist church, near Taneytown, was next secured as a place to hold services, and was used until in the Fall of 1886, when the church was built here, and dedicated the following year, during the pastorate of Rev. H. A. Slichter, at a cost of \$1200.

The church was rebuilt and enlarged in 1889 at a cost of \$1600. It being the only church here until 1890, the congregations were always large. The first board of trustees consisted of Samuel Slagenhaupt, Sr., David Bollinger, Perry Eyer, Philip Shriner and Joseph Witherow, which represented a membership of twenty-five.

The present board of trustees consists of David Bollinger, W. A. Shoemaker, Jacob Bowers, R. S. Hill and B. F. Bowers, and the membership is eighty-seven. During this time there were 250 conversions, of which 116 joined this church, and 134 joined other churches. There were 16 deaths, 75 infants baptized and 14 adults. Pastor's salary paid since 1867 \$2518. Presiding Elders salary \$300, church expenses \$700, Sunday school expenses \$500, Missionary money \$616. Total expenses, \$7434.

The following pastors have served since 1867: Revs. H. A. Slichter, one year; J. H. Young, two years; J. T. Shaffer, one year; W. Owen, three years; A. Trippner, two years; R. H. Whitelock, three years; J. R. Hutchinson, two years; G. W. Kiraocofe, two years; W. O. Grimm, two years; D. W. Sollenberger, four years; W. H. Weaver, two years; M. W. Burtner, three years, and T. Wagner who is the present pastor and serving his second year. The congregation is free of debt, has a good substantial brick church, with steeple and bell, and a burying ground nearby.

PART VII

St. Paul's Lutheran Church

The committee appointed by the Lutheran church council of Mt. Joy is to consider the propriety of building a Lutheran church at Harney, met July 15th, 1889. Dr. J. C. Bush was elected chairman, and D. J. Hesson, secretary. After the subject was thoroughly discussed, and it was decided to build, Mr. Geo. I. Shriver and J. L. Hesson were appointed a committee to see about a suitable place for the building, and price asked for the lot.

On July 19th, the committee met to hear the report of Shriver and Hesson about the lots. Mr. Shriver reported that a lot 100 feet front and 200 feet deep could be purchased from Mr. George Fream for \$150.00, and after viewing the site it was decided to purchase it, and Dr. J. C. Bush, S. D. Reck and George I. Shriver, were appointed to procure a deed for the same, at the proper time.

Abraham Waybright, William H. Lightner and Joseph Spangler, were then appointed a soliciting committee with the power to enlarge the committee to six if necessary.

On motion of Wm. Lightner, it was decided that the church should be built 40x70 and Abraham Waybright moved that it be built of brick; both carried. On motion of Rev. Heilman, it was decided that the church be deeded to the trustees at Harney, and should they fail to raise an organization, the Mt. Joy congregation be given the first chance to buy it. Dr. J. C. Bush, Geo. I. Shriver and S. D. Reck were appointed trustees.

On Oct. 15th, 1889, a people's meeting was held, the object of which was to hear the report of the soliciting committee and their deliberations on same. Wm. H. Lightner moved that the sum necessary to be subscribed, before the subscriptions be binding, be fixed at \$2000. As an amendment, Mr. Geo. Valentine moved that it be fixed at \$1800, which was accepted.

In Nov. 6th, the solicitor gave the following encouraging report of the amount subscribed:

William Lightner	\$1131.00
Abraham Waybright	455.00
J. L. Hesson	495.00

Making a total of \$2081.00

The report was very satisfactory to all. Dr. J. C. Bush then made the motion "that we proceed to build a Lutheran church at Harney, and that eleven men, and the pastor as chairman ex-officio, be appointed a building committee to erect the church, who shall have the power to select a chairman, and elect a subcommittee of three to oversee the erection of said church, in accordance with the purposes and wishes of the committee as a whole, and that this committee of three shall exercise no power not delegated to it by the committee of eleven, and that all business be performed strictly according to parliamentary rules."

The above was accepted, and the following were elected a building committee: Dr. J. C. Bush, Abraham Waybright, Wm. H. Lightner, Abraham Hesson, J. L. Hesson, George I. Shriver, S. S. Shoemaker, W. A. Snider, George Valentine, W. E. Myers and D. J. Hesson. D. J. Hesson was elected treasurer.

The following were elected a subcommittee: Abraham Waybright, William H. Lightner, and S. S. Shoemaker. It was then decided to build a church with a tower, and have a bell. The subcommittee was then instructed to see about getting stone on the ground, and they, with the pastor, to determine the size of the

church, and see where the brick could be procured and at what price.

On Nov. 13th, it was decided to build the church on the west side of the lot and on Nov. 15th, the committee met again to hear the report of the sub-committee and ascertain the exact size to build at this time. It was decided to build 38 feet wide, 65 feet long and 16 feet to the square. A resolution was then passed giving the majority of the committee of eleven the right and power to reconsider any question at any time; a center tower was also recommended, this however, was reconsidered later, and the tower built at the east corner. The size of the building was also reconsidered and quite a number of different plans and views presented, and quite a number of discussions arose before the building was completed. S. B. Florence of near Emmitsburg agreed to put up the stone work for 65 cents per perch, and the brick work for \$3.00 per 1000. Mr. Clayton Bucher at first contracted for the carpenter work, but, after Mr. Bucher had commenced work, some trouble arose, and the committee met and considered the matter, and declared Mr. Bucher's contract void.

Mr. Henry Kemper was next seen, and agreed to do the work for \$1.37 1/2 per day, but, for some reason Mr. Kemper was unable to do the work, and Mr. Joseph Smith was employed on the following terms: Smith to have \$2.00 per day, his foreman \$1.75 and his other hands, \$1.50, allowing the committee to employ as many hands as they wanted, and at any price they could get them for, but Smith to have a general supervision over all.

On January 6th, 1890, a congregational meeting was held at Shoemaker's Hall, at which time the constitution was unanimously adopted, and signed by the following persons as charter members: John C. Bush, Abraham Hesson, A. M. Waybright, Jeremiah Meals, J. W. Black, Charles E. Myers, Walter R. Bush, Gordon H. Hess, Martin Slagle, Geo. I. Shriver, C. F. Reindollar, W. E. Myers, D. J. Hesson, S. S. Shoemaker, J. L. Hesson, E. G. Sterner, W. H. Lightner, Annie E. Black, Rachel Drach, Sarah R. Lightner, Emma L. Shriver, Mary E. Hill, and Sabina Reck.

From the records kept we learn that the committee of eleven held twenty-two different meetings, before the building was completed. During the summer of 1890, while the church was being erected, Rev. Heilman, pastor of Mt. Joy congregation had quite a number at work trying to raise money to help pay for the building. He gave five boys each five cents, and told them to speculate with it, and see how much they could make out of it, until the church was ready for dedication, they were, Morris Bishop, Frank Reindollar, Glenroy Black, Clyde Black and Vernon Black. The boys decided to form themselves into a company, and all work together, this done they were ready for business.

They invested their quarter in eggs; of course they bought as cheap as possible, and sold for as high a price as they could; some places they could buy their eggs for five cents per dozen, and Mr. J. W. Black, who was then huckstering would take them to Baltimore and sell them and invest the money in oranges and other small articles; these they would sell and invest again in eggs, and thus they kept on until they had a sufficient amount of money to start a small stand on the street, then they invested in ice cream, watermelons, oranges, candies, etc., and sold on the street every Saturday evening and were liberally patronized; thus they continued all summer, and in the fall, they held a picnic, and when all was summed up it was found that they had cleared about \$42.00.

Five of the young ladies also started out at the same time, but they took a different plan, as is natural with the gentler sex, they preferred begging to speculating; of course some did sell small articles, such as lead pencils, taffy, etc.; the exact amount raised by the girls cannot be ascertained, but they like the boys did well, although their amount, we are told, was a few dollars less.

The corner stone of the church was laid on Sunday afternoon, May 4th, 1890, and the building was dedicated to the service of God on October 26, 1890. The actual cost of the church was \$4496.96. The amount to be raised on the day of dedication was \$1456.30 and the amount subscribed was \$1437.94. Since that time the church has grown from a mere handful of workers to a membership of nearly 125, and a Sunday school numbering nearly 200, and a Christian Endeavor society of nearly 100.

The first officers of St. Paul's Lutheran Church were Dr. J. C. Bush, A. M. Waybright, D. J. Hesson, J. L. Hesson, John T. Ohler and Martin Slagle, who were installed on Jan. 20, 1890. It was understood that this congregation was to be a part of Mt. Joy charge, and was organized under the pastoral care of Rev. H. M. Heilman, which was finally ratified by the Lutheran Synod at Hanover. Rev. Heilman faithfully served as pastor for several years, when he resigned to accept a charge at Altoona, Pa.

For a short time this congregation was supplied from Gettysburg, and finally Rev. Wm. Gardner Minnick accepted a call, and began his pastoral work on Dec. 1, 1893 and to-day not only does this congregation have a very handsome church, but also a beautiful cemetery has since been added, which contains 96 lots, and is located along the Gettysburg road, about 1/4 mile from the church, and is known as Mountain View Cemetery. (To be Continued)

Forest fire damage on national forests was estimated at \$3.7 million for the calendar year 1954. According to reports from Forest Service field offices 7,369 forest fires—3,425 of them man-caused—burned 107,656 acres of national forest land last year. Timber damage was \$1,062,489.

During the 1954-55 winter feeding season dairy farmers reporting to the U. S. Department of Agriculture fed an average of 2.2 tons of hay, 2.2 tons of silage, and 0.1 ton of other roughage per milk cow. Seven-tenths of the silage fed to milk cows was corn silage, 2/10 grass silage and 1/10 other silage.

Safe Hand Torch Does Many Chores New, Compact Unit Weights Three Pounds

A safe, handy torch which operates on a disposable cylinder of propane gas is a versatile tool for the farmer to use in winter repairs on his buildings and equipment.

Suitable for any job requiring the application of heat or flame, the Bernz-O-Matic torch was designed especially for amateur repair work. It lights instantly in the coldest weather with no pumping, priming or preheating and burns in any position at 2300 degrees F.

Compact and portable, it weighs less than three pounds fully loaded and is small enough to fit into a pocket or tool chest.

The hazards of filling and spilling fuel are eliminated. When the fuel is exhausted, the non-leaking cylinder is thrown away and replaced with a new one.

Some of the specific farm applications of the torch include solder-

ing milking machines, repairing plumbing and machinery, burning paint, brazing, soldering milk pails and cans, disinfecting the brooder house, singeing fowl and igniting smudge pots to protect against frost.

On cars, tractors and other rolling stock, it is useful in leading fenders, freeing frozen fittings, loosening king pins, mufflers, tail pipes and springs.

Dehydrated Steaks Keep for Two Years

Dehydrated steak that can be stored on open shelves for two years has been developed at the University of California.

The new dehydrated products—which include roasts, chops and ground meat—are of principal interest to the armed forces, which are looking for meats that can be stored and shipped without refrigeration, and still taste good.

The dehydrating process consists of putting frozen meat under a high vacuum, which removes practically all of the water, leaving a product that weighs from one fourth to one half as much as fresh meat.

As long as the dehydrated meat is stored in plastic, glass or metal containers that keep out air, it will keep at room temperatures for two years.

The dehydrated meat is readily prepared for cooking by soaking it in water for a few minutes.

Hikers and campers would also find the dehydrated meats useful in supplying high-protein foods to the menu, said a university spokesman. Dehydrated eggs, milk, vegetables, and fruit are already commercially available.

Simple Ventilator

Keeping laying house for hens dry is no problem with this homemade ventilator. A thermostat set at 42 degrees controls hinged door at top in the side of a ventilating duct near the insulated ceiling. As long as the inside air remains above 42 degrees, it is expelled to the outside by the fan installed at the bottom of the duct. When temperature in house drops below 42 degrees, thermostat opens the door and air is circulated inside the house, picking up moisture and heat until it again reaches 42. Door then closes and air is blown outside.

Right and Wrong

Lesson for July 24, 1955

IT IS all very well to speak of the downfall of a nation, or of a national disaster, you can read in history books that such and such a nation finally was wiped out in such and such a year. Judah, for instance, ceased to exist as a nation after 586 B. C. But these are cold words. When a nation, a city, goes to smash, it means that homes are burned down, people are killed, business is bankrupt, nothing is "as usual" any more. There is no way a nation can crash without taking many individual lives and much happiness down with it.

Dr. Foreman

Pulling Others Down

Out of the many lessons one can learn from the downfall of Judah and its capital Jerusalem is that innocent people suffer with the guilty and because of the guilty. Not every one in a wicked nation is wicked; some may have been doing their level best to keep the nation from going on the wrong track. Jeremiah is a prime example of this kind of man. An inspired prophet, he had been warning his fellow-citizens for years, as had Ezekiel and other prophets. But in the general disaster he suffered quite as much as anybody who was to blame for the whole mess. Jerusalem was swallowed, you might say, in two bites. The first was in 597 B. C. when the boy-king Jehoiachin was taken off to Babylon there to spend the rest of his days as a prisoner. Along with the kinglet went the royal family, the aristocracy, the top army officers, and a thousand skilled workers. Jerusalem and Judah were left to third-raters for eleven years; stupid, weak men who (to make a long story short) committed national suicide. Jeremiah suffered a great deal at the hands of these men. More than this he suffered in the final days of starvation and panic. (Of which more next week.) He was by far not the first, last or only innocent man to suffer in a nation's disaster. A good Christian like Niemoeller suffers for Hitler's madness; a saintly Christian like Kagawa suffers in Japan's defeat, even though both of them protested against their nation's policies.

Pulling Others Up

Needless to say, there is the other side of this. Just as the innocent are dragged down by the guilty, so the guilty are sometimes protected and benefited by the good. A nation by breaking God's laws pulls down many individuals who are quite indifferent to God. Take America at the present writing for instance. The picture may have changed by the time you read this; but while it is being written our nation is at peace, prosperity blooms on every side, we are one of the two most powerful nations the world has ever seen. Who deserves the credit? Not all of us, surely! We talk about the heroism of our forefathers, immigrants and pioneers; but we are not very heroic. We talk about American smartness and know-how; but how few of us know how! We point with pride to our vast educational system—and we read the comic strips. We are happy to see erosion brought under control and fertility restored to waste land. But how many farmers were eager for such a program at first? It had been left to most of us, we would still be stuck in the mud.

The Price of Being Human

The truth is, and we cannot be reminded of it too often, that the human race is all tied together. Mankind is made for community. The human race is not like a tray of sand, where one grain can blow off without disturbing the others very much. It is more like a block of concrete; move one grain of that and it all moves. We are happy enough to be pulled up by the community or the nation when that is better than we are; so we have not too much to cry about when we are pulled down by the community or the nation when that is worse than we are. We can't have it both ways. We must not expect to benefit from the goodness of our good neighbors and at the same time not be hurt by the badness of our bad neighbors. It is the price of being human, that we are bonded together with countless others, and that with them we must often suffer the severe judgment of God.

THE WORLD'S BIGGEST SHOW HONORING THE ROSE

For readers of The Carroll Record, the author is writing this article, giving a brief history of Portland's annual Rose Festival, and which has become an institution.

The first rose parade was staged in 1907.

About 45 years ago the annual Rose festival of Portland, Oregon, had its beginning but actually the beginning of this lovely festival goes back to rose culture in Oregon more than a hundred years ago.

In an address at the Lewis and Clark exposition, in 1905, Mayor Harry Lane, suggested the need of Portland for a "festival of roses". The phrase appealed to the imagination of the public and in 1907 the first rose festival was held.

The first rose festival (1907) consisted of a dramatic pageant and a parade of 20 illuminated floats on flatcars carried over the electric trolley system of the city. Since that time no floats are permitted unless they are completely crowned by flowers. The first Queen Flora was Carrie Lee Chamberlain.

In 1908 the festival was presided over for the first time by a king-Rex Oregonus—the identity of whom was kept secret until the Queen's ball, when his huge beard would be removed. In 1914, Rex as a ruler was replaced by a queen, who again reigned over the realm of Rosaria.

It was in the year 1908 that the Portland Rose Festival association had its beginning as a non-profit civic enterprise devoted to the staging and financing of the annual Rose Festival. The association was formed as a stock holding corporation composed of civic and business leaders, the capital stock being \$10,000.

Articles of incorporation and by-laws were filed, in 1931, at the state capital in Salem. This association through the years has worked in conjunction with the Portland Rose Society and has co-operated at all times with the latter. The governing body of the former group is composed of 36 directors, 18 of whom serve for three years and actually do the voting. The honorary members are mostly past presidents, who do participate but not so actively.

The President and officers are elected annually from the directors. There are only two full-time paid employees, the manager and his secretary. A voluntary group composed of 3800 people comprising 120 committees work with and under the direction of the manager.

ROYAL ROSARIANS: In 1912, 70 business and civic leaders were chosen and by invitation asked to join the Royal Rosarians.

The names and titles used have their origin in English history of the time of the termination of the Wars of the Roses, the Tudor period and of the reign of King Henry VII. Some of the titles include: Lord High Chancellor, Lord Chief Justice, Royal Scribe, Prince Regent and Prime Minister. The costume adopted by this organization consist of a pure white suit, a rose embroidered on the left shoulder, with white hat and white shoes.

THESE MEN have become an indispensable part of nearly every phase of the Rose Festival, and to a large degree, are responsible for much of the beauty, drama and pageantry which is so characteristic. Among their many activities might be mentioned the participation in the carnation ceremonies of the Festival Queen, appearance in the grand floral parade and at the Queen's ball and as members of the city's official hospitality committee. In addition to local membership, many distinguished men throughout the world have been made honorary members of this order—the degree of knighthood being conferred at a special ceremony during each festival season.

PRIOR TO 1930, the honor of being the Queen of the festival of the Rose, ruler over all the Kingdom of Rosaria, fell usually to a socialite. Since that time a more democratic plan for choosing the Royal Court has been in effect. Each high school selects an outstanding senior girl to represent her school and from this group is chosen the Queen.

The following year the award of scholarship to members of the Royal Court became an integral part of the festival plan, each young woman receiving the sum of \$400 to be used by her as a start on a college education with no restriction as to the college attended except that it is to be in the state of Oregon.

ON AN AVERAGE, seven members of the Royal Court out of the nine avail themselves of this opportunity. In addition to the latter, a number of Rosarian Queens have been launched into brilliant careers by way of the stage, screen, radio and television. Queen Gloria Kreiger of the 1951 Festival has recently signed a seven-year contract with Columbia Studios and is continuing voice study. Between the years of 1931 and 1951 \$56,000 has been paid in scholarships, the money being raised principally by the sale of festival buttons at a cost of \$1 up to the year of 1946, and after that time by a major event ticket book at the price of \$2.

COST OF THE FESTIVAL: Although the cost of the festival averages about \$100,000 annually, the association has been able to save from \$1000 to \$1500 over and above costs each year. The exception to this was the flood year of 1948 (the year the writer first visited the Pacific Coast) when the festival ended with a large deficit which has since been entirely wiped out by the careful planning of the manager and by the generous gifts of many public-minded citizens.

THE EVENTS: All the events, which include appearances of nationally known concert and radio artists, grand floral parade, fireworks display, posse shows, harbor activities (Government naval vessels), coronation ceremonies, Rose society exhibits and, since 1921, the Junior Festival, band exhibitions and drill contests and most important of all, the dramatic pageant are planned for the people and participated in by them.

There is, too, a thread of continuity running through all these spectacles which is that of honoring the rose, "the loveliest of all flowers" which makes this festival "a thing of beauty

and a joy forever" and a memorable experience for all who behold it.

The introduction of the Rose to Western Oregon, and a brief description of a few of the floats will follow in another article.

REV. G. H. ENFIELD.

An artillery was on maneuvers in the backwoods of South Carolina trying out the new atomic cannon. Firing it at a fairly close range target, the shell detonated with a tremendous explosion. As the familiar mushroom cloud started to form, a bearded old man dressed in a tattered Confederate uniform and carrying an ancient rifle came running out of a nearby woods. Dropping his rifle, he raised his hands and addressed the soldiers, "Ah don't know what Lee's gonna do, but Ah'm going to surrender!"

Pat and Mike, touring Switzerland, were caught in a sudden blizzard. Half buried in the snow Pat was about giving up hope. Suddenly up came bounding a St. Bernard rescue dog with a large cask of brandy fastened to his collar.

"Look Pat," said Mike, "cheer up, here comes man's best friend."

"Aye Mike," said Pat, brightening, "and look at the big dog that's with it!"

In a New York school, located in a crowded tenement district, the teacher was talking about George Washington. She illustrated her remarks by showing the youngsters a picture of Mr. Vernon. "This," she explained, "is where George Washington lived". One little fellow looked at the picture earnestly for a moment, then asked, "What floor?"

The stingy landlady at the boarding house brought in a plateful of extremely thin slices of bread on which the boarders looked in dismay. One of them said:

"Did you cut these, Mrs. Brown?"

"Yes, I cut them," she replied beligerently.

"Good," the boarder said. "I'll shuffle and deal!"

The doctor received a visit from a man who was worrying about his heart.

"Do you smoke much?" inquired the doctor.

"About 15 cigars a day."

"You'll have to cut down. It will be hard but try to be satisfied with one after each meal."

A few weeks later the man returned for a check-up. The doctor complimented him on the improvement where patients follow their doctors' orders.

"Well, it isn't always easy to do," said the visitor "Sometimes it's hard to eat 15 meals in one day."

Golfer: "I don't seem to be playing my usual game today."

Caddy: "What game do you usually play, sir?"

"Daddy, I have got to write a composition proving the white man's superiority over the Indian. Can you help?"

"Fraid I can't help you any, sonny. When the white man took over this country, the Indians were running it. There were no taxes, no traffic, no debts, no long-winded commercials, and the women did all the work. You can't improve on a system like that, my boy."

"I simply can't stand my husband's nasty disposition," wept the young bride. "Why, he's made me so jittery that I'm losing weight."

"Then why don't you leave him?" asked the aunt.

"Oh, I'm going to," the bride assured her. "I'm just waiting until he gets me down to 120 pounds."

A bizarre, gentleman wearing a beret, smock, and great flowing beard was consulting a leading psychiatrist.

"You say you're not an artist?" quizzed the doctor. "Then why the beret, smock, and beard?"

"For heaven's sake," cried the man, "that's what I'm here to find out!"

Diner: "Help me? What do you mean?"

Waiter: "Well, sir, from the sound I thought you might wish me to drag you ashore."

Customer: "Here's the final installment on the baby's furniture."

Storekeeper: "Splendid, and how's the little fellow getting on?"

Customer: "Wonderfully. He was top of his high school class last term."

A sign in front of a shoe repair shop pictured several styles of rubber heels, and a beautiful girl was saying, "I'm in love with America's Number 1 Heel". Underneath in small feminine handwriting some one had added, "Too bad, sister! I married him!"

Curious one: "How long have you been working for this company?"

Truthful One: "Ever since the boss threatened to fire me."

"Dad, it says here that a certain man was a financial genius. What does that mean?"

"That he could earn money faster than his family could spend it."

Future May Bring Musical Farming Ultrasonic Sound Waves May Do Work

Within the next 25 years the typical American farmer may walk into his barn, sit down at a keyboard instrument and with the help of an ultrasonic device, pollinate the crops in his field.

This revolutionary approach to scientific farming was predicted by George Hadden, vice-president in charge of engineering at the Minshall Organ Company of Brattleboro, Vermont.

Pollination by sound? It's possible, says Mr. Hadden, who recently developed a new electronic chord organ for the home. Vast strides are being made in the field of electronic sounds, he says and "each day we are discovering new ways to use sound . . . it is now quite possible to transmit an ultrasonic sound wave into a field and actually accelerate pollination."

The reason, this can be done, he points out, is that the waves, which are more sensory than au-

dible, can actually shake the pollen from the bloom.

"By varying the frequency of the sound waves, it is conceivable to pollinate different types of plants at the same time," he explains.

There'll be good sound help for the lady of the house, too, he adds, since laboratory tests have shown "that by transmitting ultrasonic waves through soiled clothes, we can actually shake the dirt out without any detergents."

What Social Security Means to Farm Workers

The extension of Social Security to 3,600,000 farm operators and 2,100,000 more farm workers became effective January 1, 1955, but a lot of rural residents aren't yet informed on what the new coverage means.

Basically, it means monthly payments after age 65 and retirement ranging from \$30 to \$108.00 a month; payments also to wives or widows and children under 18 years of age up to a family maximum of \$200 per month.

Eligible farm operators and workers are required to invest in Federal old-age insurance, starting with payments on 1955 earnings. The tax is 3 per cent for farm operators and 2 per cent for farm workers on income or wages less than \$4200 a year.

Employers must also pay a 2 per cent tax on wages of hired workers now eligible for Social Security. Any worker who earns as much as \$100 a year from one employer is covered, as well as operators whose income is \$400 or more.

You're entitled to earn up to \$1,200 a year or receive any amount of income for which you have not "rendered substantial service" and still get full insurance payments. Farmers or workers already 65 or more can get more benefits after retirement by working one and a half years—or until July 1, 1956—and paying Social Security Taxes for that period.

Draft-Free Pens

One farmer who decided it was costly to lose food heifer calves designed the above draft-free pens. Pens are about three feet deep, three feet wide, and about five feet long. Sides are solid, so that opening and closing of barn doors while doing chores doesn't cause drafts. Heat lamps hung over the pens when calves are young and when it's extremely cold, help prevent pneumonia and other winter calf killers.

WOMAN'S WORLD

Bake Meringue Along With Filling In This Pecan Pie

IF YOU like a custard pie as well as pecan pie, you're certain to like this one which combines both to give an interesting two-layer pie made in one step rather than two.

Delectably smooth orange-flavored custard gives the light layer while meringue folded into the custard and sprinkled topping of chopped pecans offers crisp contrast to the creaminess.

Orange Pecan Pie (Makes 1 9-inch pie)

3 eggs, separated
1 tablespoon grated orange rind

½ cup sugar
1 tall can evaporated milk plus orange juice to make 2½ cups

¼ cup sugar
½ cup chopped pecans
1 9-inch unbaked pastry shell

Add orange rind to egg yolks and beat with a fork in a medium sized mixing bowl. Blend in the ½ cup sugar. Gradually stir in the milk-orange juice mixture.

Add salt to egg whites in large mixing bowl and beat until foamy. Add the ¼ cup of sugar and continue beating until egg whites are

stiff and glossy. Gradually fold in custard mixture. Pour into unbaked pastry shell and sprinkle with chopped nuts. Bake in a hot (425° F.) oven for 10 minutes, then in a slow (300° F.) oven for 30 minutes longer. Remove to a rack and cool before cutting and serving. Cracks appear in the meringue topping during baking but they will close when the pie cools.

Beautify Yourself While You Sleep

Most women whether they're homemakers or career girls are far too busy during the waking hours to go in for elaborate beauty treatments. They ask, "What can be done about patches of dry flaking skin? What about nails which chip and break easily? How shall I treat rough hands, elbows or knees?"

The solutions to these are really very simple! Help nature work while you sleep!

Preparations during the bedtime routine need not consume more than 10 or 15 minutes at the most. Neither do you have to feel "all greased" when you go to bed because modern preparations such as creams and lotions sink blissfully into the skin and leave no oily residue to smear your bedding.

Facial Tips

Blustery winds or dry houses which have caused patches of flaky skin to appear on the face or arms should be treated with rich lanolin creams. Naturally these should be applied only after you have thoroughly cleansed the skin.

Apply only a thin film of the cream, and do this in sweeping but gentle upward strokes that lift and relax at the same time.

If you have a skin which tends to wrinkle you'll find that a vitamin oil will help much to undo the damage of wrinkling. Apply in small circular motions with the fingers around the eyes and forehead where wrinkles have appeared.

Nail Care

Hands and nails can be kept in good condition no matter how your hands have to fly during the day. Always use a protective covering of cream before you plunge into your job.

At night, as the last thing before you go to bed, apply a rich hand cream or lotion to remain all during your sleeping hours.

For nails which split easily, you might find it very beneficial to apply a colorful and quick drying nail preparation which will help prevent chipping. Most of these contain iodine. A week or two of this nightly care will prove to you how well they work.

Keep the cuticle smooth and trim with a weekly manicure. This will help also to keep the nails smooth.

Elbow, Leg Care

Rough elbows and legs which frequently appear during cold weather need only be lubricated at night to shed their roughness. Use a body lotion, hand cream or even baby lotion after the evening bath.

Permanent Pasture Needs Fertilizer Adequate Plant Food Will Double Forage

Only one out of every six acres of pasture is fertilized regularly and receives good grazing management, according to the farm authorities in the midwest.

Yet much of this unfertilized grassland could produce two to three times more forage for livestock if sufficient plant food was added.

Fertilizing pastures with a balanced ration of nitrogen, phosphate and potash pays a big return in more feed per acre and

Forage is the cheapest feed the farmer can raise. It pays to boost these yields by proper fertilizing. Your local county agent will help you in a pasture rebuilding program.

a greater cattle-carrying capacity. U. S. Department of Agriculture specialists point out that pasture, hay and silage are the cheapest high quality feed a farmer can produce. Bigger yields of these crops through the use of commercial fertilizer will cut feeding costs and boost profits.

Grassland crops also help maintain soil fertility.

Legumes and grasses need plenty of nutrients. Professor C. J. Chapman, University of Wisconsin extension soils specialist, and other Midwestern agronomists, recommend adding 400 to 500 pounds per acre or more of a balanced fertilizer such as 10-10-10 to permanent pastures.

Winter Fire Hazards Menace U. S. Farms

With weeks of cold weather still in prospect for most areas of the country, the danger of disastrous fires on U. S. farms continues at its peak.

Every year at least ninety million dollars worth of farm property is lost by fire. Most of it could be prevented. Defective chimneys, carelessness with combustible materials or misuse of petroleum products rank high as the cause of farm fires during the heating season.

The National Safety Council recommends these precautions:

(1) Repair cracks or other defects and replace rusted or burned out stove pipes.

(2) Never use petroleum products to start or hasten a fire.

(3) See that combustible materials are protected.

(4) Use a metal or asbestos floor covering under wood or coal-burning stoves.

(5) A spark arrester on the chimney will eliminate the risk of starting a roof fire from sparks.

(6) When firing, guard against completely extinguishing the flame by adding coal to one side of the fire-pot.

(7) See that tank heaters, feed heaters and other types of heating equipment around the farm are installed safely and kept in good condition.

(8) Last of all, be sure that dampers in stoves or furnace pipe are never closed enough to force carbon monoxide or other gases out into the room.

New Fertilizer

A new, high-analysis, general crop fertilizer is now in mass production. Trade-marked Arcadian 12-12-12, the manufacturer claims it will benefit farmers economically because it contains no filler and nothing but high quality plant food material. The fertilizer will be marketed initially in the states ranging from New York west to Nebraska and from Michigan south to Kentucky. Your county agent may have added information about the new fertilizer.
