CARROLL COUNTY TAX RATE FIXED

Another Increase from \$1.56 to \$1.65 per \$100.

On Friday, Dec. 23, the County Commissioners of Carroll County adopted the 1956 County Budget, and fixed the rate of taxes on property at \$1.65 per hundred dollars of assessment. The matter of this budget living even often the belief the second of the county at \$1.65 per hundred dollars of assessment. The matter of this budget living even often the belief the county and you and you and you and you and thank all of you for your loving messages and letters!

A great big beautiful poinsetta arrived from a real faithful reader and living even often the belief the county and you and you and thank all of you for your loving messages and letters! at \$1.65 per hundred dollars of as-sessment. The matter of this budget has been under serious consideration by the Commissioners for a period

ances for the fiscal year of the Board of Education beginning July 1, 1956, amount to \$1,223,449.40, or an increase of \$64,349.40. However, in arriving at this figure the Commissioners reduced the budget for education by \$51,191.22, which was accounted for by an adjustment in the State equalization fund and a reduction of \$35,000.00 in the Board of Education's request for allowances to cover excess costs. It is probable that at least part of this reduction may have the restored depending upon have to be restored, depending upon contingencies which the Superintend-ent of Education feels will arise during the coming year. In consequence, the Commissioners have included in their levy a sufficient reserve fund to cover any such contingencies. It also should be noted that in the current budget the levy for capital outlay, budget the levy for capital outlay, that is, new buildings, alteration of old buildings, and equipment, is only \$51,000.00, which it is necessary to levy in order to qualify Carroll County to receive State Incentive Funds. It is highly probable that more than that amount will be needed for capital outlay purposes but the Com-

need be shown before additional funds are made available.

The Board of Education requested an allowance of \$600.00 per teacher in excess of the State minimum prescribed by law which is the sum of \$2800.00 for beginning teachers with a degree. This would have meant a beginning salary of \$3400.00 and a maximum salary for teachers with the required length of service of \$5200.00. Currently all teachers are receiving out of County funds the sum of \$200.00 in excess of the State minimum salaries which State minmum ranges from \$2800.00 to \$4600 with buds and will, no doubt, be open need be shown before additional funds

Marian Kemp suggests: TURKEY FILLING

Some folks like potato stuffing; some like bread stuffing, and some like none at all. Whichever group you belong to, we're sure you'll be interested in what a food editor friend told us recently. She says that she roasts have taylor without stuffing breast her turkey without stuffing, breast down in the pan. The stuffing is baked in a casserole. This allows all the good meat juices to settle in the

Well, whatever way you prefer to roast your turkey, we're sure that you'll prefer this stuffing when you try it. It's called Bacon and Walnut Stuffing and the recipe was tested in the Home Service Bureau, American Stores Company.

Bacon and Walnut Stuffing

8 slices Lancaster Brand Bacon 1 cup Louella Butter cup minced onion 8 cups dry bread cubes made from Supreme Stuffing Bread 4cup chopped celery teaspoon thyme ½ teaspoon marjoram

l teaspoon sage ½ cup minced parsley ¼ teaspoon Ideal Black Pepper 2 teaspoons salt

1 cup coarsley chopped walnuts
Dice bacon and saute in a large
skillet until crisp. Remove bacon, add
butter and onion. Brown the onion slightly. Then combine bread cubes or crumbs, celery, thyme, majoran, sage, parsley, pepper, salt and walnuts. Toss in bacon bits and stir well. This stuffs a 10 lb turkey, ready-to-eat weight

At 50-it's using less than 10% of its power

It's practically no effort at all for a sprinter to walk. It's a breeze for a weight-lifter to pick up a child.

And so it is with the 1956 Buicks in cruising-for these are the mightiest powered Buicks yet built.

Take the '56 Buick CENTURY pictured here.

It's almost a loaf for this beauty to cruise a superhighway at a legal 50 mph. At that point it's using less than 10% of its pedal-to-the-floor power.

And that's just the reason for the record-high power and compression ratio in your big 322-cubic-inch V8 engine. You and your engine can take it easy so much of the time.

You have no qualms about the response at your command. Your power plant has no need to breathe hardso it saves gas, stays young, lasts longer.

So when you take the wheel of a '56 Buick, you take it easy, and still lead the parade.

You know you can call out the reserves with a touch of your toe.

And you find you silk through a whole day's driving

REPORT OF THE CARROLL CO. FINANCE COMMITTEE

The finance committee of the Car-roll County Committee on Public Education, as directed by the Board of Education, has devoted much time to the study of financing the schools in Carroll County. In making this study, the committee reviewed many publica-tions including the five-year program for Maryland schools, the report of the Maryland Conference on Education, work sheets compiled by the Maryland Council on Education, publications by the State Department of Education (Maryland), publications of the U. S. Department of Education, Health and Welfare and the Carroll

County fact sheet.
It is the opinion of this committee that the county is in excellent financial condition and capable of meeting the present and future needs of public education in Carroll County. In the School Facility Survey of December 1953, it was estimated that Carroll 3,450 additional pupils from 1954-60. Of this amount over fifty per cent has already been allocated and will house over fifty per cent of the future pupil

enrollment to 1960. On the basis of its study the committee makes the following sugges-

tions and recommendations:
1. That beginning in the year 1956-1957, in Carroll County, the salaries of teachers be increased to a point above the average salary scale in the state. At the present time Taneytown Evangelical United Brethren Charge, Rev. A. W. Garvin, 2. That the building committee be

commended for its effort and study. The finance committee likes the recommendation #10 for a permanent building committee as made in the building committee report but would be more specific. (See #3 below).

To implement the recommendation for a permanent building commit-tee, the finance committee strongly urges the appointment of a County planning committee, rather than a building committee, consisting of nine persons: Three to be appointed by the Board of Education, three by the County Council of Parent Teachers Associations and three by the County Commissioners. One from each group for one year term, one from group for a two year term and one from each group for a three year term; thereafter, the appointment to be for three years but no one to succeed himself.

That the Board of Education budget the necessary funds to make it possible to eliminate campaigns and collections of monies for school pro-

In Memory of my dear sister, MARY GRACE SHOEMAKER, who passed away 2 years ago, Dec. 31, 1953

One by one they're gone before me They have faded like the dew But I know they're waiting for me, They the good, the fair, the true.

Dear sister you are not forgotten Though on earth you are no more Still in my memories you are with me, As you always were before.

Somewhere back of the sunset, Where the loveliness never dies They live in the land of glory, with the blue and gold of the sky.

Life is full of sorrow, I know As we journey here on earth below Jesus shares our grief through life He will take us when we wake.

You are gone, but the treasure you left me
Is truly a value untold.
A life filled with deeds of kindness
And a beauty of heart and soul.

Man's Oldest Tool For Measuring **Up To New Tricks**

WASHINGTON - The scale, man's oldest measuring tool, whose use dates beyond the Dawn of History, is taking on many fascinating new jobs in American business and industry.

Take the matter of weighing money, for example. Today, scales are used in many banks to checkweigh packages of paper money to make sure that the bills are all there. A typical transaction might be to drop a package of \$1,000 in ten dollar bills on the scale. Present weighing machines are so sensitive that if even a single ten spot is missing its absence sticks out like a sore thumb. Coins are also counted by weight. This saves time and money and makes for peace of mind for bankers (assuming the money is all there of course).

A manufacturer of baby nipples advertises that his product isn't touched by human hands-and it isn't. A machine automatically packs them three to a box. The only thing is, sometimes the machine makes a mistake. It may pack only two nipples or sometimes one in a box where the customer pays for three. This causes howls of anguish, not only from the babies, but from the customers, too. So the manufacturer has his boxes checkweighed. He doesn't give a hoot how much they weigh, but if one is missing the scales detect it.

Humans In America 7,000 Years Ago

WASHINGTON — Human beings have lived in the northern Missouri Basin for at least 7,000 years. The prehistoric people - presumably of the same type physically as living Plains Indians — passed through many cultural changes due to migrations, variations in climate, perhaps major wars. They were, at various periods, hunters. farmers, food gatherers, Sometimes they combined all three

ways of life. This lost chapter is being tenatively reconstructed from the surveys and excavations carried out under the River Basins Surveys project of the Smithsonian Institution and various Federal and State cooperating agencies. A large number of archeological sites, eventually to be flooded under the government's river development

program, have been investigated in order to salvage scientific material of value.

In the course of this archeological work, evidences of what apparently was an early human occupancy of the area were found in the basin of the Angostura Reservoir on the Cheyenne River in South Dakota.

U. S. Eye-Care Habits Compared With British

NEW YORK - Recent studies made in the United States and England reveal an interesting comparison of eye-care habits.

In a nation-wide American survey, it was found that 67.6 per cent of all adults wear glasses and that the average number of pairs owned by each person is 1.5. Average age of frames now in use is 3.0 years, while average age of lens is 2.5 years.

These figures show a slight but healthy improvement has taken place since a similar survey was conducted in 1948. At that time, 67.3 per cent wore glasses, owned 1.4 pairs, average age of frames was 3.7 years and that of lenses, 2.8 years.

The English are tied with Americans in average eye-glass ownership per wearer and those questioned expect to wear their glasses for about the same length of time, 2.75 years. But-only 59 per cent of their adults wear specs.

Old Farm Machinery Turns Pages Of Time

EAST LANSING, Mich .- Michigan State College's collection of antique farm equipment turns back the clock 100 years to the era of the horse-drawn walking plow, hand seeder and wheel cultivator.

The college museum spent five years collecting and restoring the old equipment to its original condition before placing it on display for the summer.

Those "good old days" are recalled by the surrey with the fringe on top; a grist mill, stump puller and three-horsepower sweep. Other pioneer tools that bring to life the farming past include an 1868 reaper, an 1804 threshing machine, an 1870 corn sheller and a hand-operated churn with wooden

Three Little Words

SAN ANGELO, Tex. - The San Angelo Standard-Times got a lot of long letters and weighty opinions when it sent our questionnaires for a news roundup on West Texas economic conditions.

But one reply, from a banker, summed up the trouble with the economic conditions in three words: "Too D-Dry."

Let's Think

G. H. ENFIELD

GRATITUDE

Gratitude should not be reserved only for Thanksgiving Day for then too many will forget to give it expression. Gratitude should be a perennial stream flowing from hearts made fertile by the bounties of God. "Give thanks in all circumstances, for this is the will of God", I Thessalonians 5:18. It is intended that each life be a source of cheer, goodwill, hapbe a source of cheer, goodwill, hap-piness, and thanksgiving. It is never manly to be crude nor womanly to be

impolite.

Let not the grasping hand of greed steal from the soul life's enrichments. Does the sunrise or the sunset ever elicit from you a word of gladness!
"The heavens are telling the glory of

And the firmament proclaims his handiwork".

No person's life need to be barren

which feeds in God's green pastures or bereft of thanks which finds content-ment by the still waters. It is the stagnant pools of materialism that gives off stench and pollutes the spirit and mars the beauty of the soul.

Learn to give thanks. Appreciate the water before the well runs dry. From the mountains flow refreshing rivulets to quench the thirts of weary and footsore travelers in the valley

"This is my Father's world"; it is "This is my Father's world"; it is also mine to enjoy, to cultivate, and to reap a harvest. Were we to think more, we would praise our heavenly Benefactor more. Were we to scan the heaven for the stars we would benefit by the light they give. Were the soul to meet its Maker in daily prayer and Bible reading there would beless taking of one's life, disappointed by things never meant to bestow ed by things never meant to bestow immortality. Search of less earth and find more of heaven all about you.

Cultivate the spirit of gratitude. Learn to sing praises for your in-numerable blessings. Thank God for our country. Give thanks to God for the beauties, the glories, the free-doms, the opportunties, the meaning, and the history of America. "Breathe there a man, with soul so

Who never to himself hath said, This is my own, my native land"!

Being a Hypocrite

Lesson for January 1, 1956

NOW Your began his list of New Year's Resolutions with this: "I resolve this year to be a hypocrite." Nobody wants to be a hypocrite, no one loves such a person. As if they were not al-

ready detested enough, Jesus shot at them his most piercing sarcasms. The pathetic thing is that even the best people can slip into hypocrisy without knowing it. Since Jesus "told off"

the hypocrites of Dr. Foreman Galilee very plainly, we can see just what it is that makes hypocrites what they are, and be warned.

Showy Stuff

Jesus condemned the Pharisees for being concerned with the looks of things most of all. As he put it, they cleaned up the outside of the cup and the platter but the inside was left dirty. They themselves, he said, were like graves over which men walked without knowing they were there. Outside, they were a grassy park. Down under, inside, they were nothing but decay. The other day a bulldozer turned up four little coffins under what is now an airport. Nobody had guessed those bodies were under the grass. The first thing any one asked, after, "Who were these?" was "Where shall we put them now?" It turned out that the four little bodies, buried a century ago, belonged to one family; and one living relative could be found-but she did not even want to look. Let them be put under grass somewhere else, hide them as soon as possible. Well, there are characters like that. Cover all the dead stuff with something pretty,-whatever looks right is right . thinking that way, live that way, and you will be a hypocrite too.

Trifling Stuff Another count against the Phar-

isees was that they spent so much time and energy on little things that they missed the greater things that a truly good life will have. You could see Pharisees out in their back vards counting their mint-leaves. Every tenth leaf belonged to the Lord, they said; every tenth bean, every tenth lettuce-leaf, and so on. But leaf-counting took up too much of their time. Justice? The love of God? They had no time for it. They were too busy with mintleaves. Now it is good to be conscientious about tithes; Jesus had nothing to say against that in itself. But it is rather interesting that the only times when Jesus mentioned tithing, he condemned the people who did it.-Not for doing it, but for supposing that that was the main thing in religion. When Jesus picked out something on which all the "law and the prophets" hang, a kind of nail holding up the rest of the Bible, he picked something big: Love to God and love to one's neighbor.

Old Stuff

Another way to be a hypocrite is to be so much interested in the past, that you do not apply religion to the present. In Jesus' vivid language, the hypocrites built the prophets' tombs, but they were children of those who had murdered the prophets, and they were the people who would murder Jesus himself. They honored the prophets of the past; but prophets of the living present they could not see and did not honor. It is an ancient and still strong temptation. There are persons in America who are very proud of ancestors who crossed the ocean to worship God freely; but who themselves will not cross a wet street to go to church. There are persons proud of their revolutionary ancestors, who attack with every weapon of slander any one who has any proposals for change today. Revolution in the 18th century—fine!

Revolution in the twentieth century-horrible! There are people who wish to preserve every line of some historic creed and shout down every one who has the least suggestion of change; they forget that the creed-makers they honor were themselves radicals, innovators, dangerous men in the eyes of their time. A church that becomes a preserver of antiquities, a historical society, and nothing more, with nothing to say to now, is a church the Pharisees would have loved . . . but not Jesus.

CARROLL COUNTY ANGUS HERDS VISITED

On Nov. 21 and 22, 35 Carroll County Aberdeen-Angus herds were visited by interested county Angus breeders led by C. A. Morrow, district chairman and president of the Md. Angus Association. The tour was conducted to acquaint breeders with the many purebred and commercial herds in the county, and to get ideas of various methods of handling and management. On Tuesday evening, Nov. 22 individual problems and questions of herd management, care, and feeding were discussed at an open meeting held at the new county Agricultural Center. Mr. L. C. Burns, County Agent, was present, and gave a brief history of the growth and develop-men of the Agricultural Center.

CARROLL COUNTY TAX RATE

(Continued from first page) ending June 30 which amounts to the total sum of \$35,100.00, and will be payable in lump sum to the Board of Education on May 20, 1956. This allowance has the effect of giving each teacher an increase over the State minimum salaries provided by law of \$300.00 for the current school year.

DEBT SERVICE: The County still owes one million dollars of the school bond indebtedness incurred six years ago, and \$100, 000.00 of this has been allowed in the current budget. The interest on this school loan in 1956 will amount to \$13,375.00 In addition the County borrowed from the proceeds of State bonds the sum of \$800,000.00 largely for the construction of the North Car-roll Senior High School, and the in-terest on that loan amounts to \$13,-710.67. The County also is required to pay on this State loan the sum of \$53,272.28 in 1956. This makes a total of \$189,982.95 that will have to be provided in 1956, including an interest payment of \$9625.00 on an additional oan of \$500,000.00 which has been applied for on account of the construc-tion of a new high school at Mt. Airy The County will not be required to make a payment on the principal of this last loan until two years from its

NEW SCHOOLS:

The Commissioners have approved the letting of contracts for the construction of a new high school at Mt. Airy, which likely will cost when finished and equipped in the neighborhood of \$500,000.00, to be provided by the above mentioned State loan which has been applied for and will be made available about May of 1956. The Board of Education currently

is having plans prepared for a new senior high school at Westminster, to be constructed on 25 acres of County Home land that has been conveyed un-der special legislative authority by the County Commissioners to Board of Education, and the estimated cost of this school is \$750,000, exclusive of landscaping, roads, architect's fees and equipment. The County will have available from State bonds, after deducting from Carroll County's allotment the above Mt. Airy construction loan of \$500,000.00, about \$466,000,000, which will have to be borrowed on the same basis as the above mentioned \$800,000. and \$500,-000.00. This will make a total indebtedness to the State in the sum of \$1,766,000.00, and provision has not yet been made for the borrowing of the necessary funds in excess of \$466,000.00 to pay for the Westminster High School.

Carroll County has purchased 50 voting machines at a cost of \$67,900.00 and the Commissioners are hopeful that this outlay can be met out of the receipts from cigarette and tobacco taxes, which they estimate for 1956 to amount to approximately \$75,-

Election expenses in 1956 have been estimated at \$25,000.00, whereas the appropriation for 1955 was only \$2150.00, there having been no election this year. HEALTH:

The total appropriation for health services, including the operation of the medical center, the care of County patients in State Hospitals, etc., is in excess of \$58,000.00, which represents an increase of over \$5,000.00 above the current year.

PUBLIC WELFARE:

It is estimated that this service will

It is estimated that this service will cost Carroll County about \$53,000.00 in 1956, whereas the appropriation for 1955 was \$47,000.00.

Four separate items appear in the budget for child care, and they are \$5,000.00 for boarding juveniles committed by the Court, \$9613.83 to the Children's Aid Society \$9613.88 to the Children's Aid Society, \$9613.88 to the Welfare Department for aid to dependent children, and \$6970.20 to the Welfare Department for the Board of Children. It is the purpose of the Commissioners to have a study made in an effort to determine upon a practice of uniting some of these services, in an effort to reduce the cost.

COUNTY OFFICE BUILDING:

The record offices in the Court House are completely full, and the Court and Bar Association unanimously recommended to the Commissioners that either an addition be built to the present Court House, or that a new County Office building be constructed. The land for a new office building was purchased nine years ago, and it was the consensus of opinion of the members of the Bar and the County Commissioners that it would not be advisable to attempt to add to the present Court House structure. Plans therefore are in process for the construction next year of a new office building to house the Trial Magistrate, the County Agent and all Agricultural Extension Services, the County Commissioners, Tax Collector, Assessment Officers and the Board of Education. Currently the County is renting quarters for the Trial Magistrate, the County Agent, and the Board of Education. The space in the present Court House building that will be released by the removal of these ago the present court they was the property of the present court to the provention of these ago. ly recommended to the Commissioners Court House building that will be released by the removal of these agencies to the new office building will be made available to the Clerk of the Court, the Register of Wills, the Court and Bar Library. It is estimated that the new building will cost in the neighborhood of \$300,000.00, and the current budget includes an appropriation of \$25,000.00 on account of this cost.

cost.

The whole budget as it has been adopted by the Commissioners is on file in their office and available to any interested citizens for inspection and explanation.

AN UNUSUAL EXPERIENCE

You're all familiar with the expres-

You're all familiar with the expression—"if you make a better mouse trap the world will beat a path to your door." Well, inadvertently, we've stumbled on an idea for a better one—electric, of course—and a new use for a small appliance.

Each fall, we have a field mouse or two in the kitchen, and this fall was no exception. While watching the Sullivan program last Sunday, we heard a suspicious noise in the kitchen and got there just in time to see a mouse disappear into the pop-up toaster in on the counter. The impulse to give him the hot-foot was overpowering. We pushed the bar on the toaster and waited.

waited.
Seconds later, Minnie (or Mickey)
emerged and levitated into the air,
then disappeared like a streak of greased lightning under the refrig-erator. That night Mr. Q. set a trap erator. That night Mr. Q. set a trap and came the dawn, we found the corpse of our visitor caught in the trap. A badly singed ridge down his furry back—mute evidence of what happened inside that lethal chamber. Since the incident, Mr. Q. and his missus have been eating cereal, instead of customary Hollywood toast, for breakfast.—P. E. News.

GROWTH OF BUSINESS MAKE CHANGES NECESSARY

January 10, 1956 will be the 50th January 10, 1956 will be the 50th year of incorporation of the Farmers' Fertilizer & Feed Company, and will mark the half century which it has been serving the public in this area. Because of the growth of business in this fifty years the Board of Directors have for many months had under consideration, changes in the management in an effort to operate more efficiently and to be able to give our valued patrons more detailed services. efficiently and to be able to give our valued patrons more detailed service. A decision has now become final, and beginning January 1, 1956, John P. W. Beard, who has been with the company 32 years, will devote his full time to the manufacture and sale of fertilizers. Paul R. Niswander will supervise the feed departments of our three places of business, from the Westminster office. Richard M. Warehime will serve as manager of the Un-

Westminster office. Richard M. Warehime will serve as manager of the Union Bridge office and James H. Miller as manager of the New Windsor office. The parties involved in this change have spent from 9 years to 32 years in the employment of the Farmers' Fertilizer & Feed Co,, and all wish to express their gratitude for the opportunity of serving its customers over the years, and sincerely hope to be of even greater service in their new positions.

SELF-CONTROL

He who reigns himself and rules his passions, desires and fears is more than a king.—John Milton.

Quiz question: How can you turn \$75 into \$134.68 in less than 20 years with one simple operation. Answer: Buy a \$100 Series E. U. S. Savings Bond.

Sandy MacDoe says: "Many a mickle make a muckle, but it don't take so many if you put your mickles into E Bonds. Three mickles gets you four in less than ten years".

Some 28.5 million men and 11.5 million women in the U. S. say they've caught a fish weighing over two pounds. About the same total have bought U. S. Savings Bonds and have visual evidence.

When of selfishness you're freed. God is very near.

"It's a principle as old as government, that politicians always find a way to spend every dollar that they can take from taxpayers. When taxes are exorbitant as they are today, huge sums will be wasted and irresponsibly spent. Excessive taxation corrupts and produces irresponsibility in government."—Binghamton (N.Y.)
