BAUERLIEN FOUND GUILTY OF MURDER

Jury Decides Case in Westminster on Monday

After thirty minutes deliberation of the Carroll County jury, Ralph Phillips Bauerlien, 25, was found guilty in the shooting of his estranged wife, Mrs. Betty Elizabeth Bauerlien and a man Elmer Kefauver Stambaugh who tried to rescue her.

Bauerlien was tried Monday in Westminster on only the one count, that of killing his wife.

In convicting him the jury did not recommend mercy. He will be sentenced tomorrow (Friday) by Judge John Macgill, of Howard County, and can face death or life in prison.

During his trial Monday, Bauerlien calmly related incidents leading up to the murder. Expressionless he told of going to the farm-house of Mr. and Mrs. Elmer Kefauver Stambaugh, Taneytown R. D. 2, where his estranged wife was residing on Dec. 12. He said that nobody was home and he left a letter for his wife. He said he returned in about 45 minutes and used a skeleton key to enter the house and then hid until his wife and the Stambaughs returned.

The young house painter testified that he had two guns because he wanted to "make sure" in case one jammed. He said that he had no intention of harming Mr. Stambaugh. He testified that when he entered the room Mr. Stambaugh stood up and the fatal shooting of the man was an accident. Mr. Stambaugh was shot in the stomach by a blast from a shotgun.

He said he then turned his rifle on his wife, Mrs. Betty Elizabeth Bauerlien, 22, and pumped 16 bullets into her body. She tried to run away and was shot repeatedly as she scrambled from the pantry to the yard.

Bauerlien's attorney, Theodore F. Brown tried to prove that his client was mentally unstable and the man had pleaded innocent by reason of insanity. However, two doctors testified that the man was capable of knowing right from wrong.

Dr. Morgan Stern, Annapolis psychiatrist testified the Bauerlien was aware of what he was doing. He said the man had "borderline" intelligence. Dr. Philip Lerner, Baltimore, of the University of Maryland Medical School, said that Bauerlien showed marked emotional disturbance and had an irresistible impulse. He said the man was not insane, but had below normal intelligence.

The slayer's father, Casper J. Bauerlien, Sr., Poole Road, Westminster R. D. 5, testified that his son suffered "blackouts" as a child. He also related that his son returned home after the shooting and told him that "the officers will come for me." Bauerlien had gone to his parents' home after the shooting and it was there that Maryland State Police officers Lt. John Novicki Cpl. Samuel Dorsey and Trooper 1/C P. M. Hahn took him into custody.

George H. Shriver, New Windsor R. D. 1, Bauerlien's employer testified that he did not consider the man as normal. Mrs. Elmer Stambaugh, widow of the murdered man, also testified.

State's Attorney, Donald C. Sponsler was the prosecutor.

A panel of 69 jurors was necessary before the final 12 were selected. Testimony started at 2 p. m. The jury retired at 8:10 and returned at 8:40 p. m. with the guilty verdict.

The following songs were sung America and Columbia the Gem of the Ocean. The meeting was turned over to the president. The minutes of the last meeting were read and approved.

The following committee was appointed to take charge of the food sale Saturday, March 3, beginning at 10 o'clock. Catherine Clingan, Thelma Frock and Florence Wargny.

A motion was made and passed for the class to sponsor the Mothers Day Bulletin again this year. The following committee was appointed to take names for the Bulletins, Mrs. Irene Hesson, Marion Rue and Virginia Baumgardner.

"SPICE 'N' EVERYTHING NICE"

(Your Chatty Column)

With all my heart, I wish you every morning a smile that shall last until the next day's dawning.

I wish you health—life's greatest wealth! I wish you always near so that I may help to cheer Each future day and in some way—help to bring you happiness!

Even the pouring rain did not stop this Columnist from driving over for the big turkey dinner at the Fire Department! I have been telling the folks in this County about the folks in Carroll County the way those ladies can cook. So the elderly daughter of a Minister (who used to live as a young girl right here in this Parsonage said to me that the very next time one of those dinners was being served that she would go with me.

It was a treat to me to see how very much she enjoyed it all and the abundance which was served to everyone all the time. One thing she did not know of was the crackers in the gravy!

How wonderful it was to see all the ladies again. I thought, I was "home"! Of course, I had to drive past the farm and take a look!

The nice part about those turkey dinners is that the turkey is always moist as many are just the opposite in these suppers or dinners. Then, Mr. Baumgardner came in and as I shook hands with him, and introduced him, I said "This is the Man who has the bakery where the turkeys are baked!" Right, then the ladies were carrying them in which delighted my friend to see it all.

Somehow, the folks 'around the town' always are so very friendly and neighborly with each other and that is the way that it should be. They do live by the Commandment that GOD gave to man—"LOVE THY NEIGHBOR!" Even if any neighbor may at any time do something thoughtlessly which would displease his neighbor—one must cast it aside and be even nicer to the neighbor. I have wonderful neighbors right near the Parsonage in fact one of them I have named, "My Guardian Angel!"

As we browsed around the town before and after the big feast my friend said, "Oh—I am so glad we came and that the rain did not stop us!" Then—this she added when she arrived home, "Well, Hubby I am so sorry that you did not go with us for it was really the best I have ever eaten anywhere!" (She has a big farm, too.)

So my friend has a very big impression about all the folks and how very friendly they were to her, too. It was her very first visit to Carroll County and she loved the rolling country which is always noticed immediately by the stranger.

From San Bernardino—we have such terrific rains, then the sand slides down the mountains plus the rocks making it very dangerous to drive on the Highway. Soon after the earth rolls (slight tremors when even the bed shakes from the earthquakes!) Ugh! I think I would prefer Florida! Thousands do you know!

Hope you did not miss the second shoemaker on the T.V. Show, the \$64,000 question! Italians love music more than anything else in life and I think that is why I love those people from Italy!

From Arizona—"We are having Sweet Peas in our garden!" The Monthly beautiful "Arizona Highways" magazine just arrived—colored pictures featured at Tuscon Hereford Congress—all real thoroughbreds!

Due to the Car strike in Baltimore the stores are losing thousands and thousands of dollars! It lasted six weeks in Cleveland!

What a nice letter from Arthur Godfrey! Hope you did not miss the Guy Lombardo band which was one of the first. There is a certain rhythm with the band which excels! Eh?

Did you know that Americans spend \$8,500 on religion, charity and education every minute and \$17,000 for alcoholic beverages? Awful is the word!

On a Schoolroom Wall Alcohol is an evil drink. It affects your eyes and how you think. Alcohol is an evil toy. That is not fit for man or boy. Here's old Joe who couldn't see. Because he had a drink or three. Now he's in a hospital bed. No more liquor—COKES instead!

And then this—said Doctor who knows Beverage Alcohol gives you 1. A RED NOSE 2. A BLACK EYE 3. A WHITE LIVER 4. A YELLOW STREAK 5. A GREEN BRAIN 6. A DARK BROWN BREATH 7. A BLUE OUTLOOK!

Nuff Sed! See you next week D.V. Have a grand week-end. I am, Faithfully, YOUR OBSERVER.

FEBRUARY 23, 1956

FOR A NEATER NATION

The man who wrote, "Let me live in my house by the side of the road, and be a friend to man," probably resided miles from the nearest highway. At least, it's reasonable to believe he never had to rake up the lunch papers and bottles and cans and candy wrappers and partly-eaten sandwiches from his front yard, and pick the used match-books, punctured balloons, empty cigarette packages and assorted cellophane out of his hedge.

And if he had owned vacant property "by the side of the road" especially if it had a few trees on it, the accumulation of picnic trash, newspapers, old tires, even a junked car or two would definitely have deprived us of his touching poem.

But Keep America Beautiful, Inc., a non-profit corporation organized about two years ago to restore this poetic faith in our fellow man—and to clean up our highways and byways, our beaches, picnic grounds and sylvan dells, and keep them clean—is swinging into action on a wide front.

Associated with KAB in a nationwide drive against litterbugs are 36 influential, energetic national organizations, including the 4-H Clubs, National Grange, The American Legion, Boys' Clubs of America, the Boy Scouts, the Campfire girls and the National Clean-Up, Paint-Up, Fix-Up Bureau, National Council of State Garden Clubs, the US Chamber of Commerce, the Jaycees, National Recreation Association as well as appropriate US Government departments.

And cooperating with KAB in newly inspired drives against litterbugs are the enforcement agencies of the various states where anti-litter laws, calling for stiff fines and even jail terms, have long been on the books but until recently have received scant or inadequate attention. As of now, state, county and city police, justices and judges are pretty well agreed that motorists will keep America Beautiful—or else.

It is the popular supposition that nice people (like you) are not litterbugs, and that people who strew trash in their wake are definitely not nice. But the sad fact is that all of us are litterbugs—to a greater or lesser extent. And let him who never threw a matchbook or a chewing gum wrapper out of a car window speak up in protest. In fact, he can write to Keep America Beautiful, Inc., at 99 Park Avenue, New York 17, N. Y., and they will probably strike off a medal for him!

As for how NOT to be a litterbug, here are KAB's rules: Dispose of your trash in a proper receptable—wherever you are. (If there isn't any, keep the trash till you find one.) Urge your community to provide plenty of such receptables—conveniently located. Carry a litterbag in your car. Encourage local anti-litter programs. Set a good example to the youngsters—yours and others.

And do not, as the poet says, "... sit in the scorners' seat, Or hurl the cynic's ban"—or anything else out of your car window.

ROPE-OF-SAND TRICK

The Executive Council of the AFL-CIO labor combine in its recent mid-winter conclave at plushy Miami Beach handed down the Jovian decision that there must be "substantial" wage boosts this year—plus further crocheting on those "fringe" benefits.

The news is hardly a surprise since a labor leader—at any level in the hierarchy—is a sort of professional Oliver Twist. He must keep asking for more or turn in his suit. But the

reasons given for upcoming demands are always interesting. In this latest instance it is explained that the rank-and-file dues-paying holders of working permits must get more pay in order to expand the nation's purchasing power—and thus protect all of us against unemployment.

Perhaps the boys and girls who get the raises won't mind paying higher prices for goods that will cost more to make. But more pay for 15 million of our 63 million work force does not expand the nation's ability to buy. Not when the purchasing power of several times that many non-unions is automatically reduced.

And toiling under the Florida sun the great minds of Labor also decided that:

Taxes should be cut for the great mass of those who get up the Federal billions the low and middle-income brackets.

Taxes should be raised for the wealthy—if there are any left to remit—whose taxes now range from the exorbitant to the confiscatory.

Taxes should be raised for large corporations—the same corporations who would be expected to provide fatter pay envelopes and still more expensive employee benefit programs—and who in turn can only pass these added costs on to their customers.

As we said, higher prices may not disturb the recipients of the higher wages that cause the increases. In fact, some of these people might do better than break even. But they are not the people who have to buy a tractor or a milking machine or a plow, a desk or a typewriter or a set of surgical tools to stay in business. Nor are they the merchants who must stock higher-priced goods to sell in communities that are not basking in the glow of the AFL-CIO benevolence.

The Miami Beach miscalculation is simply that there are 165 million people in America—not just the 15 million people who support the AFL-CIO thinkers. Otherwise, they would have their union-made utopia pretty well in hand. Or would they?

There would still have to be some employers to pay those higher wages—and a public for them to collect from.

GRASS ROOTS OPINION

BREEZE, ILL., JOURNAL: "Pravda, the chief Russian newspaper, gives familiar advice to those who would attain—advanced years. They should avoid worry, sleep regularly, avoid excessive smoking or drinking. This leaves out the most important requirement: Don't criticize the government."

BISHOP, CALIF., REGISTER: "... Rather than ask for price support at the expense of the consumer, cattlemen have launched a self-help effort to stabilize the present difficult cattle situation. They're gotten together with other people in the beef business—the feeders, packers and retailers. All the cattlemen ask is that the public help itself to beef, particularly to the less demanded cuts which are in such great supply right now. They point out that these cuts can be as tasty, when properly cooked, as those cuts we pay more for. And they're every bit as nutritious."

BEDFORD, VA., BULLETIN: "We believe in price supports because it is the only system yet devised which gives agriculture something at least akin to an even break, but we do not like the way the system has been administered and abused."

THE RAINBOW—

The Rainbow was first seen about 1500 B. C., (That is the story once told to me); Before then, heavy mists fell on the earth; There was much disturbance before its birth.

When the mountains arose holes were made in the ground. Which, even to-day, by men may be found; Wherever you see a lake or a sea There a hole was said to be.

Before that, the oceans were up in the sky, Never was a raindrop seen by the eye; So the water which fell in Noah's day Made what we call the ocean they say.

It was then the channels of the streams which flow by Were formed by water which fell from the sky; They drained the whole earth as well as could be And formed the rivers which run to the sea.

When I was a boy we were always told That, at each of the rainbow was a pot of gold, But that seemed fantastic; I could not understand Why it did not always compass the land.

The Rainbow is not a semi-circle—it is a ring— One must go up high to see the whole thing; Our present horizon obscures our view, So w must lift it high to see something new.

Most of the trouble, wherever you go, Is caused by horizons which hang too low; We only see half of what we think we see, So the rest is purely im-ag-i-nary.

The rainbow is a child of the Sun; It teaches valuable lessons to everyone; It shows how God colors the sky, trees and flowers Which make so enchanting this earth of ours.

The rainbow is also an emblem of peace; It never appears till the elements cease; That is another truth for men to know; For, where discord reigns, there is always woe.

About the time of the Rainbow's birth, Wickedness was rampant on earth; God forsook such conditions must end, So, he decided the water to send.

This "Bow", said He, a covenant shall be Which I have made twixt me and thee; It shall remind me that never again Shall the waters destroy all the Sons of men.

While the flood destroyed the old world in 40 days It did much good in many ways; It gave us the mountains and the sea Which now serve and bless humanity.

Men no longer have to drink the dew As people of old were forced to do; The Sun draws water from the sea And the winds bring it here to you and me.

That is how God treats His many Sons, Especially the most wayward ones; He knows the hell through which they must pass Before they shall stand "A-1" in their class.

God's love is far "broader than the sea." So His only thought is of you and me; Then try your best to do His will, And all your wishes He shall fulfill.

FEESBURG

(A Voice from Carroll)

At last a woman (Patricia Hancock) has found the courage to tell the American male that she doesn't like the way he dresses. She says men don't know or don't care how they look. Millionaires look just as sloppy as taxi-cab drivers and she wonders if their wives care so little about them that they dress like a fugitive from a rag-picker's convention. I surmise that Miss Hancock isn't married or she would know a little more about the average male's attitude about the

clothes he wears. To begin with a man is only interested in covering up his anatomy. Whether he looks like the man of distinction or the man of extinction concerns him not at all. Any wife will tell you that trying to get her husband to part with his old brown suit that has seen ten summers and a few more winters is like trying to part a politician from his office. When a wife suggests visiting a smart men's shop and buying some up-to-date clothing for her husband he has at least one dozen excuses why he can't go. The first one is that he doesn't need any clothes and the second reason is he likes what he has because he feels at home in them. Did you ever try parting your husband from his old hat that he has worn for at least ten years. If you haven't just don't try. It's a lost cause from the very beginning. Nothing short of burning it or giving it away will ever induce your husband to part from his battered, spotted, rumpled, but ever loving hat. Why? I just don't know. Most women like to see their husbands well groomed and they put forth a lot of effort to get them out of a lumber-jacket and into a tailored suit. Some husbands have the courage to buy their wives' clothes. A friend of mine tried this once and came home from her shopping spree in tears because the clerk that waited on her made her feel like a fool and she said "never again" no matter how her husband dressed. Maybe the biggest flaw in a man's approach to clothes is the way he mixes colors. The next time you are in a crowd look at the men and you will understand what I mean. There is one bright thought though, in all this discussion about men's indifferent attitude toward their personal appearance and it is this: the older a man grows the more interest he takes in how he looks. Some of the most distinguished looking men I have ever seen have been men over fifty. There may be several reasons for this. He may have more time to think about himself; he may have teen-age daughters who flatter him that they won't be seen with him unless he spruces up a bit; he may be looking for a second wife or maybe his ego has been deflated and he is trying to prove something to himself. Anyway no matter what the reason it's mighty refreshing to meet a well turned out man. Women will turn their heads when such a one passes by.

Something the President said Sunday after playing a round of golf leads me to believe that he will not run for a second term. A reporter asked him how he felt after being allowed to play his favorite game. And his reply was most significant, for he said that he was always conscious that he had suffered a heart attack. There are very few people who can forget such an experience and any doctor will tell you this constant anxiety about one's heart is as crippling as the attack itself. This subconscious fear is something that cannot be wished away nor talked away. The President being an honest man is just telling the truth about how he feels and anyone that has suffered a heart attack understands fully how he feels. We hope some of his advisers could understand this too, and tell him that the nation knows he has served his country well and deserves to spend the rest of his life at his beloved Gettysburg farm, living the kind of life he really needs to live, if he is to live at all.

Mrs. Cleon Wolfe who is spending the winter in Florida, wrote to me last week and said how much she is enjoying the beautiful State, the nice warm weather and the luscious strawberries right out of the garden plus oranges and grapefruit out of the back yard. Her health has improved too. So many people from Maryland have found that their health has gotten better after going to the south. The truth behind this fact is that Maryland's weather is about the worst in the nation due to the rapid change in temperature, and humidity. We seem to be on the line where the cold and hot airs are fighting it out all the time with first the cold air taking over and then the warm air. Often this duel brings a 20 to 30 degree drop in temperature in less than 24 hours. Its no wonder people here have sinus trouble, arthritis and just plain sniffles. But in five years no one will have to take off to the south to avoid colds and virus infections. It has been proposed by the medical profession relief from these in the form of medicine or serums.

And speaking of medicine, it is surprising to learn that every 24 hours, Americans gulp 42 million Aspirin tablets to relieve all kinds of aches and pains. What aspirin can or cannot do has long been debated, but there is no doubt that it does help a cold and fever. As for relieving headaches, it does and doesn't depending on the individual. Some people cannot take aspirin including this reporter, due to an allergy, but most people keep it on hand all the time and take it for almost any ailment that pops up. An overdose of aspirin can be fatal especially in children, but other than the necessity to keep it out of children's hands it is a harmless medicine unless used to excess.

Down on the Eastern Shore people don't look to the ground to predict the weather. They watch how the fish are running. And ast week the herring were running, a sure sign that spring is on the way and early at that. The annual meeting of the Maryland Cooperative Milk Producers will take place Feb. 25, at the Lord Baltimore Hotel in Baltimore. This is an important meeting as ratification of the recently elected board members will take place during the business session. Luncheon will be served as usual and an interesting program has been arranged.

H. L. Mencken as was to be expected, left the bulk of his estate to the Johns Hopkins University and Enoch Pratt Library. He pretended often that he didn't think the human race was worth saving but he was only trying to stir people up. Proof of this is the fact that he thought enough of his fellow men to want to educate their minds and relieve their physical suffering. Mr. Mencken liked to poke fun at people because they didn't do enough of thinking for themselves. In this he was entirely right because 90 percent of our population would rather die than think. What made Mr. Mencken unpopular sometimes was

that he told them this and they couldn't take the truth.

Coffee prices have gone up again. No reason was given for the rise but we suspect that it was to help pay for the recent revolutions in South America.

This should be tried in our County: Last spring a New England taxpayer living on a neglected muddy road put up this sign: "These roads conditions were caused by an act of God, but somebody ought to tell the county commissioners that He don't intend to fix them." It brought results and it may do the same in our county, if tried.

Somebody has figured it out—that we have ten million laws trying to enforce ten commandments. But we always prefer doing things the hard way.—Ruth Roelke.

UNION BRIDGE GIRLS 4-H CLUB

The Union Bridge Girls 4-H Club held its monthly meeting on Tues., Feb. 14, at the home of Becky Houck, near Detour. The meeting opened with the Club singing a song and everyone repeating the pledge led by Miss Sandra Weishaar. National 4-H Week starts March 3 and ends the 11th. Our Club has decided to put a display in one of the windows in Union Bridge based on the different projects.

On March 4 our Club as a whole is going to Middleburg Church. On March 6 we are all going to try to attend the District meeting in Taneytown. Each Club is to try to enter some kind of talent. Miss Joyce Riggs, the Asst. Home Demonstration Agent gave us a demonstration on making attractive things for our bedrooms which look expensive but are not.

The next meeting will be held at the home of Jean Kiser on the 3rd Monday, March 19th. Refreshments decorated for Valentine's Day were enjoyed by everyone.

The Savings Bond habit acquired now will protect you, your family, your farm and your future.

Many a farmer has had the cash he needed to buy a new tractor or other farm equipment because he put the money away earlier in U.S. Savings Bonds. The average useful life of a tractor is around ten years. In that time \$750 invested in E bonds will grow into \$1,000.

Why hold back from the fun and thrill and pride of bossing a Buick—when you can boss such a big and strapping beauty for the price of a smaller car?

Hard to believe? Listen...

If you can afford any new car, you can afford this brawny Buick SPECIAL Sedan—for a very simple reason.

This Buick is priced within a few dollars of the well-known smaller cars—and actually costs less than some models of those very same cars. (The price we show here proves that.)

Want more proof? For two years in a row now, Buick has outsold every

other car in America except two of those well-known smaller cars. And you can bet your bottom dollar that it takes bedrock prices to stay in the Top 3 of the nation's best sellers.

But even that isn't the whole story—not by a long shot.

Folks are buying Buicks in record numbers because they find in these big beauties a lot more automobile for the money.

They find here more styling freshness and distinction—more snap and ginger and power thrill—more comfort and luxury—more ride stability and steadiness—and more structural solidity and pure automobile than the same money buys elsewhere.

*2-Door, 6-Passenger Buick SPECIAL Sedan, Model 48, illustrated. Any state and local taxes, additional. Prices may vary slightly in adjoining communities. A wide variety of extra-cost equipment and accessories available at your option.

So if you want to move into the big-car travel world at a small-car price—if you want to have the time of your motoring life with the lift and lilt and pride and prestige of a beautiful new Buick as your very own—what's holding you back?

Drop in on us right quick—tomorrow, maybe?—and we'll show you the biggest bundle of high-powered Buick ever offered in America's low-price field.

Faithful in Little

Lesson for February 26, 1956

EVERYBODY has some kind of a chance in this world. We all sometimes think we would do better if we had the same chance the next man has; but we may be deceiving ourselves. Jesus tells a story about three men each of whom had the very same chance. Each was given the same sum of money, and told to make what he could out of it. One man increased the money ten times; one multiplied it by five; but the third man did not even try. What if he had tried? Considering the sort of man he was, a pessimist and a self-confessed coward, it can be doubted whether he would have been able to do as well as the other two did. At any rate, Jesus calls our attention first of all to the fact that even if everybody had an equal chance, not everybody would do equally well with it.

Dr. Foreman

Gifts of God
We call persons "gifted" when they have some remarkable talent or ability. When we say this, we mean, or we ought to mean, that a man's capacities are not his own invention, they are God's gifts. Two thoughts go together here and must not be separated: the first is that what we have to start with and the opportunities which life brings us along the way, are really gifts of God. The other thought is that God expects us to develop these gifts, take advantage of these opportunities, do something with what we have. Caruso the famous tenor said once, modestly, that he deserved no credit for his magnificent voice. He was born with an extraordinary musical development in his vocal cords, something possessed by few men. Most men could not be Carusos no matter how hard they try. On the other hand, if all Caruso had done was just to take his throat for granted, never learn singing, never go through the long discipline of the operatic star, the world would never have been thrilled by that golden voice. God's gifts plus our work, that is the divine plan.

Nothing Too Small
All this is simply the principle which the church calls "stewardship." It is simply recognizing that what God gives us, we are expected to use and make the most of, in his service. The trouble right here is that most of us are rather like that third man in Jesus' parable. We see these big, able people going "great guns," we see what wonderful things others are doing, and we know very well we can't do anything like that... so we don't try to do anything. Now it should be noted that in this little story, the retarding king does not say to the second man, who made only five pounds, "You rascal, why didn't you make ten like this other man?" On the contrary he is pleased with the man, promotes him. What God really despises is not small results; what he despises is refusing to try. We are not reasonable before God for not being brighter or stronger than we are. We are responsible for what we do with such ability as we have, whether small or great.

In the Church
See how this works out in the life of the church. A superintendent asks a girl to take a children's class. Oh no, she can't do it, she says, backing away. She hasn't had experience, she isn't a professional school teacher, she hasn't had a lot of education, she isn't like that brilliant Mrs. So-and-So who was such a whiz of a Sunday school teacher for twenty years. So what? Suppose she's not a topnotcher? She has had little brothers and sisters, she can learn the Bible, she loves her Savior and she loves children too. Stewardship, for that girl, is not what she can do with Mrs. So-and-So's brains and experience, it's what she is willing to do with her own. Or take a man who is elected to a minor position in the church. He doesn't think he can do much in that office, so he declines it. But the question still is—not, what can he do with an office he doesn't have? But, what will he do with the office he does have? Another man does not contribute to the church because he has next to nothing he can give. He is afraid of comparisons. But God does not ask: How do you compare? Only: Are you faithful?

THOUGHTS FOR THOUGHT

Freedom is tyranny in the hands of the wrong leaders.

Many souls are pierced by harsh words.

A decent young man in company with a decent young woman cannot display barnyard morals.

One's physical movements are symptoms of one's mental state.

The fellow who is drunk is unable to protect himself; then how can parents hope for his protecting their daughter in a lonely driveway!

It may be that they have been cheated so long and so often that some people are suspicious of honest praise.

No other person is so helpless morally as a yes-man.

There are those who try to boost their social importance by referring to Grandpa's payroll.

Every experience in life is a lesson for someone.

Some milk for sale in the markets would be more appetizing were bossy not to breathe so heavily into it.

A second cup of free coffee is frequently a deciding factor as to where one eats.

To interpret the motives of others is to get an insight of ourselves.

There are some people who cannot get along with others because they have so much trouble in getting along with themselves.

"In all your ways acknowledge him, and he will make straight your paths." —Proverbs 3:6 (RSV).

ABRAHAM LINCOLN

God gave him sight.
He looked beneath the surface of man's skin
And saw that outward color did not change
The heart within.

God gave him strength.
He welcomed it, then stooped to lift the weight
That greedy hands had shaped through prejudice
And human hate.

God gave him life.
He took it from God's hands with heart aglow,
Then laid it at the feet of men whose names
He did not know.

He worked with God.
And then his sun set in the western sky.
Its rays illumined earth with freedom's light
That could not die.
—George W. Wiseman.

rected by Westine a special group being selected to show the cubs how to grab the bacon is played: Mr. Bowers, Harman, David Hopkins, Ronald Hopkins, Myers, Nelson, Rue, Edward Reaver, Frederick Sherman, Slaybaugh, Turner, and Larry Weishaar. While Slaybaugh explained the purpose of the square lashing being carried out by Roger Blanchard, Harman, Myers, Nelson, Edward Reaver, Frederick Sherman, and Weishaar, a group of knot tiers was put through their paces, some even done behind their backs. Roy Chapman scored first place in this contest, runners-up being Larry Clabaugh, David Hopkins, John Knox, George Kreit, Ronald Putman, Harold Raab, Donald Reaver, Lee Sherman, and John Whalen.

The final items was an inimitable tale by Mr. Bowers as he led the entire troop, present 100% incidentally, in the popular Crows and cranes. Mr. J. D. Pomroy, Carroll County Field scout executive, was present and averred to Mr. Bowers that matches must have been used in the firemaking events, but the facts don't bear him out—the coal formed in the friction and the sparks from the flint were the only incendiaries.

Saturday night Taneytown high school auditorium was the scene for a successful record hop under boy scout auspices and well attended. Committees and acknowledgements: Refreshment, Slaybaugh and Westine; records and player Mr. Bowers, William Abrecht, Harman, Hemler, Ronald Hopkins, and Turner; cake walk, Mr. Bowers, assisted by Harman and Mr. Thomas; cakes, furnished by Slaybaugh and Miss Mabel Sharrer; posters through the courtesy of Miss Arlene Ahn and Miss Sharrer; tickets printed by Mr. Thomas, were handled by Ronald Hopkins, Myers, and Frederick Sherman, with help at the door from Clabaugh and Lee Sherman; parents were gracious in providing candy, cookies and popcorn balls for sale along with the cokes.

On Sunday Catholic boys and Mr. Thomas, twelve in all were in St. Joseph's church for the early mass, where the scouts received Holy Communion; while Protestant boys led by Messrs. Bowers, Frock, and Thomas, numbering sixteen, attended Piney Creek Church of the Brethren. In both instances special remarks were addressed to the visitors, at St. Joseph's by the Rev. Fr. Melchior and at Piney Creek by the Rev. Mr. Jacobs.

Meeting themes have dealt with Morse and Knot tying under Slaybaugh; lashing under Thomas; knots, hike methods and equipment, and the laying of special patrol compass trails under Mr. Bowers at last Thursday's meeting. New games of talkfest and fetch were produced by Bowers. Mounted football by Westine, Poison by Thomas, and Trails by Slaybaugh, while the last-named, in opening the past week's ceremonies called on each person present to explain in words of his own choosing means of the Scout laws, oath, slogan, and motto, all part of their entering ranks.

George Kreit, Harold Raab, and James Tracey completed candidates tests and were welcomed into the Foxes by Patrol leader Sherman, while George Rue has joined the Raccoons under Nelson. Merit badges earned the last two weeks were: Myers, hiking and personal fitness, and Nelson, animal industry and personal fitness. A Board of review will be in March at the Legion Home, to be conducted by John E. Myers, troop committee chairman, on the occasion of the presentation of charter and registration cards, with light refreshments to top off the evening.

A schedule of events to come starts with swimming in Frederick Y.M.C.A. pool for the meeting of Thursday, March 1, followed on Sunday March 4, by a 10-mile jaunt for the hiking merit badge aspirants. An overnight trip to Natural Dam for the entire group has been set for the week-end of March 30, 31, and April. A paper drive is also in the offing, to be named later. The intensive program has seen many newcomers to the organization, and yet there is room for any who will be active and desire to participate. Boy Scouts on Thursdays and Explorer scouts on Mondays. A few take part in both.

U. S. Savings Bonds are a wonderful help in getting things you will need, like new farm buildings, better equipment for home and barn and field the youngster's education, extra income for retirement. Every \$300 you put away in E bonds now will mean \$400 cash after 9 years and 8 months, when they mature.

Selling more U. S. Savings Bonds to more Americans is a necessary part of the proper management of the national debt in the interests of us all. Buying these bonds benefit everybody; the thrifty saver most of all.

Your banker can show you how U. S. Savings Bonds can help you get ahead. Go in and talk it over. If it's current income you want ask him about the series H Savings Bond—twin of the series E bond. It pays you good interest by Treasury check each six months. It's ideal for farm couples planning to retire or already retired.

Sandy MacGregor says: Take the IF out of your thrift. Join the payroll savings plan where ye work. It's automatic systematic, safe and sure, in U. S. Savings Bonds.
