### "IN FLANDERS FIELDS"

In Flanders fields the poppies blow  
Between the crosses, row on row,  
That mark our place; and in the sky  
The larks, still bravely singing, fly  
Scarce heard amid the guns below.

We are the Dead. Short days ago  
We lived, felt dawn, saw sunset glow,  
Loved and were loved, and now we lie  
In Flanders fields.

Take up our quarrel with the foe:  
To you from failing hands we throw  
The torch; be yours to hold it high.  
If ye break faith with us who die  
We shall not sleep, though poppies grow  
In Flanders fields.

## TWO MEN ELECTROCUTED Men Killed When Floodlight Touched High Tension Line

Two employees of the Taneytown Speedway were electrocuted Saturday when a metal floodlight pole they were erecting touched a power line of the Potomac Edison Company.

The dead were identified as Joseph F. Murphy, 27, and Clyde E. Smith, both of Hanover, Pa.

At the time of the accident, the men were standing on a slight slope at the speedway. They intended to pull the 20-foot pole to a vertical position, first swinging it under the power line.

Trooper Lawrence L. Dunn, of the State police barracks in Randallstown, said the metal pole slipped and touched the 7,200-volt transmission line.

Both Mr. Murphy and Mr. Smith were knocked unconscious as the electricity traveled down the pole and through their bodies.

Vincent Risano, owner of the speedway, which opened its season Saturday night, called police and fire units from Taneytown and Westminster when he discovered the fallen men.

Dr. Robert S. McVaugh, of Taneytown, worked for 90 minutes, trying to revive the men with respirators furnished by the Taneytown Fire Department.

At 1:15 p. m., the men were declared dead by Dr. James T. Marsh, Carroll County deputy medical examiner. Their bodies were taken to the Taneytown funeral home.

Mr. Smith was the son of Claude and the late Annie Schlitz Smith, and besides his father, is survived by his wife, Audrey Deskins Smith, and a daughter, Pamela Ann Smith. Also a brother, Kenneth Smith, and a half-brother, Charles Schildt, both of Taneytown; three sisters, Mrs. Raymond Hockensmith, of Gettysburg; Mrs. Joseph Hockensmith, Hanover, and Mrs. Anne Moose, Littlestown, Pa. He was a member of the VFW of Hanover.

Funeral services were held from the C. O. Fuss and Son funeral home in Taneytown, Tuesday at 2 p. m., conducted by Rev. Arthur W. Garvin. Interment was in Keysville cemetery.

Surviving besides his wife and parents are two daughters, Debora and Belinda, at home; paternal grandmother, Mrs. Thomas Murphy, Hanover; and 11 sisters and brothers, Kathleen A., Helen M., George T., Nicholas J., Elaine M., Rose Marie, Michael R. and Anne T. Murphy, at home; William J. Murphy, Hanover, Pa.; Mrs. Mary Lou Markle, Hanover, Pa.; and John T. Murphy, Bethlehem, Pa.

With all my heart, I wish you every morning  
A smile that shall last until the next day's dawning.  
I wish you health—life's greatest wealth!  
I wish you always near so that I may help to cheer.

Each future day and in some way—help to bring you happiness!

Once again the trees on the parsonage lawn are thriving with the dresses of beautiful green that soon my next door neighbor's house will not be visible. Such a privacy in this grand old stately parsonage with the four acres of lawn all around it (leaving just a little space for the minister's vegetable garden.) Spring is just like that song for it is truly "Busting out all over". I prefer a late garden which that smart farmer in Carroll County told me it was much more successful than an earlier garden and it has happened just that way each year.

When Your Observer visits 'around the town' I'll bring along "Silk 'n Satin" just five months old (that Easter gift Cocker Spaniel). Hope to be seeing you soon!

### YOUR GOOD HEALTH!

A child born in this country in 1900 had a life expectancy of less than 50 years. A child born today will live, on the average, for about 70 years.

This means that life expectancy has increased by some 40 per cent in a little more than half a century. That is a development of almost incredible magnitude. What has made such unprecedented progress possible?

Obviously it wasn't just magical good luck. It was the result of many factors. And one of those factors—possibly the over-riding one—is found in medical progress.

Disease after disease has been conquered. Infant mortality has been reduced and reduced. Frontiers of medical knowledge have been pushed back and back. Our medical schools produce more and more physicians—and better prepared physicians. The standards of hospital care have been constantly raised. In every phase and facet of the healing arts there has been outstanding achievement.

All this, let us not forget, has been accomplished under a system of free medicine. Here the doctor is not an employee of the state. Here the patient is not a pawn, to be shuffled about according to a rule book, as he is under socialized medicine. Here the stress is on the value of freedom and independence of the individual.

We live longer lives and healthier lives than our forefathers did. Each day some new contribution is made to the vast body of medical knowledge. Thus do free men achieve in an atmosphere of freedom. —Industrial News Review.

### FROM THE SAME TREE

A short time ago a 10-year-old California boy won the \$100,000 jackpot on a TV quiz program.

This was a remarkable feat. What makes it still more remarkable is that the questions involved had to do with the stock market. They were tough questions too—it's a safe bet that not one adult in many thousands could have answered them correctly. As a fitting climax to the victory, the president of the New York Stock Exchange presented the young wizard with \$2500 worth of stock of his own choosing, plus a monthly investment plan of \$40 a month for five years.

There is a further significance in this. It is certainly not possible that many youngsters will become ranking authorities on all the procedures and complexities involved in corporate finance. But it is eminently desirable that great numbers of the adults-of-tomorrow learn the basic principles of finance in a free enterprise system—and learn too what stock exchanges do and why they are necessary. There are now something like 7.5 million shareholders in American corporate enterprise. It is estimated that, if our businesses are to grow as they should and in the manner they should, this number must be multiplied many times. And that means that tens of millions more people must gain the necessary knowledge and interest.

Under political democracy, everyone has the right to vote. Under economic democracy, everyone has the right to invest in a business and become a partner. The two are branches of the same sturdy tree.—Industrial News Review.

### ENERGY AND INITIATIVE

The energy of the free individual is the most dynamic force in human affairs.—Dwight D. Eisenhower.

Let us feel the divine energy of Spirit, bringing us into newness of life and recognizing no mortal nor material power as able to destroy.—Mary Baker Eddy.

Silence is one of the hardest arguments to refute.

## "LIKE MOST NEWLYWEDS..."

"Like most newlyweds, we wanted our home appliances to be electric. We also wanted to make sure that what we bought would give us years of service—that's why we went to our hometown dealer.

"He delivered our appliances, installed them and arranged for a home demonstration by trained personnel.

"We know he can keep our appliances in good condition too, because he stocks parts and employs trained repairmen.

"Our advice to you is: Buy modern electric appliances and buy them locally. You'll save worry... and money!"

## CURRENT EVENTS FIFTY YEARS AGO

Decoration day will be observed in Taneytown, this year, on Sunday evening, May 27, at 5 p. m. There will be no music or services; simply a modest parade to the cemeteries, and the strewing of flowers. Following the plan of other years, the children will be formed in line at the Public School house, while the old veterans and members of the various organizations who desire to take part, will assemble at Eckenrode's Hall.

Burgess Mehring has determined to break up fast driving through town, and all good citizens will support him in his efforts. Some of the driving exhibitions on our streets are simply outrageous. Automobiles also, will have to observe the six mile an hour rate of speed, or they are likely to find our streets a "hard road to travel."

Middleburg—Our quiet little town was thrown into a state of great excitement last Saturday, when it was discovered that the large brick warehouse at the depot was on fire. In a very short time a large crowd had assembled and by hard work and aided by the wind kept the dwelling house from catching fire; they also saved a large lot of lumber and kept the fire from the hay shed. The buildings are owned by the Walden estate and have been operated by E. O. Cash for the past 14 years. We understand that the warehouse will be rebuilt as soon as possible. The R. R. company

is fitting up several cars to serve as ticket office and waiting room. (Advertisement) Hutchins' Roller Swing. The Most Practical, Unique and Attractive Swing ever put on the market. For sale by D. We will have a number of good horses, carload of young cattle, harness, buggies, in fact, a little assortment of almost anything used by the farmer. E. E. Reindollar, Scott M. Smith.

How to Be Beautiful.—Take care of your health and your conscience and beautifying will not be a difficult matter. Mold your disposition so that those who meet you will feel the warmth of the golden sunshine of your soul. Don't live in a cellar. Get out in the fresh air, with a nod for fellow travelers, a kiss for the ones you love best and a great love of humanity all the world over.

### NEWS FROM THE FRONT

Mrs. Eugene Gesele never batted an eye or shed a tear when she received a message her sailor husband was missing in action. In fact she laughed. Hubby, home on a furlough, laughed with her. When he returned to duty another message came to the effect he had been found and finally that he had survived the enemy's attacks.

The first of Maryland's famous horse races was run in 1740, but interest centered around the "Fashion Show" rather than the horses.

### DECORATION DAY—(Memorial Day)

Decoration Day comes at a time of the year When God sends the roses to this hemisphere; Their beauty enchants us, their scent fills the air, So they fill us with joy, and banish despair.

It seems like He sends them at this time of the year, To give the disconsolate a feeling of cheer; They say: "We, too, went; but, now we are here!" Just so, your loved ones shall re-appear.

Your son or daughter now lying there, Just as always, is under God's care; He shall see to it, that they rise again To mingle with the sons of men.

On Decoration Day we should rejoice, not weep; For, like the flowers, your loved ones only sleep; "They, too, shall awake!" the flowers say to me; And, we have God's promise, that so it shall be.

Jesus came to tell us death is not the end; So, on His words you may well depend; In a body of glorified electricity, He lives, they say, And so it shall be with us all some day.

On Decoration Day we honor the body alone Of those who from childhood to manhood have grown; They now have an etheric body in which to be; And, with them you shall spend eternity.

Our God is too good to let His children lie In the cold, damp ground, while the ages go by; Furthermore, He has other work for them to do, To renovate Earth, and make "all things new".

God and man are one—don't you see?— Between the two there is a close unity; Man is really "a god" in embryo; But, to learn to grow like Him, he must come and go.

A single lifespan too short would be To emulate God, and live through eternity; So, back to earth man must return; Eternal life is one blessing he must earn.

The resurrection of the body shall not take place In the dead bodies of any race; In a living body one must be To prepare to live in eternity.

As the tree which stands in the storm-clouds path Must train its roots to encounter its wrath, So man must prepare in every way To weather the storms of the endless day.

This Earth of ours is two billion years old— Only 6000 years of its history is told; Jesus, Himself has never ceased to be; And, so it shall be said of all humanity.

On Decoration Day our thoughts revert to the past, For our loved ones among the immortals are classed; But, the "Valley of Death" through which all must go Leads to a wonderland from here below.

You place a wreath of flowers on the mound Wonder which the remains of your son may be found; But, he is not there; he has taken his flight; To prepare to enter the day without night.

So it has been since Time first began— It is the old story of the pilgrimage of man; To reach Perfection through the valley we must go It is the way of all travelers here below.

Of the far distant past little is known; The winds of time its records have blown Into the sea of Oblivion; but, great men all say: "We are the people who lived yesterday."

To visit Earth, they tell us, "There is no other way Than to come through physical birth, they say"; That, the scriptures say, is how Jesus came, So all of God's children must do the same.

Reincarnation, they also tell us, is the only way By which to prepare for the endless day; So, like the rivers, man must come and go Till he is made perfect here below.

This earth is God's school-house, where all must be Trained, and taught how to live in Eternity; So back to earth man must return; It is here the fires of hell still burn.

That eliminates the place some people call hell; For here God intends we all shall dwell; Not one of His children shall ever be lost, Regardless of what his salvation may cost.

Of all the wonders of God's great plan The least understood is mortal man; He don't know himself; if he did, you would see Just how wonderful man can be.

Jesus was the Pattern God gave to man; To become like Him is His plan; So, when man is made perfect, you shall see The kind of creature God wants him to be.

"All power has been given in Me", Jesus said; He even had power to raise the dead; He stilled the winds, and walked on the sea; And, the same power is promised to you and me.

Man is supposed to represent God on Earth; Instead, he emulates man, from his day of birth; That is why our progress has been so slow; We listen to self, don't know how to go.

Man shall always have a body in which to be, Not only in time, but in Eternity; Through him God speaks, tells us how to go; Were it not for man, even God we would not know.

The day is not far distant when all shall know More about God, and of how we should go; God knew this; because it is part of His plan To make of you a perfect man.

In every mortal God's face we must see Before he can go from Time to Eternity; As the tree in the acorn an oak must be, So it is with God and humanity.

### FEESERSBURG

(A Voice from Carroll)

Five High Schools in the county held their Junior-Senior proms last Friday evening. It was a big night for the girls and boys and chaperones. The prom is considered the social event of the year in all high schools and the juniors who are hosts to the seniors at this event go to much work to decorate the place where it is held and to serve refreshments. To the average girl the prom is the nearest thing to a coming out party she will ever attend and she goes to as much trouble selecting a gown as a debutante. Parents enter into the spirit of the occasion, too. . . . father foots the bill and mother sees that her offspring is properly dressed and coached in good manners. She also tries to see that they return from the prom at a decent hour. In recent years some parents join forces and give a party or breakfast after the prom is over to keep the girls and boys from going into the city or some other spot after the prom is over. It seems then at midnight all the steam and spirit hasn't been exhausted and it is a wise policy for parents to have a party for the teenagers so that their exuberance doesn't get out of hand. So far, parents in the county have had no serious trouble with their girls and boys after leaving the proms, and the proms themselves have been as properly conducted as a Sunday School picnic. Indeed we can be very proud of our teenagers. They have a strict code of their own and know how to deal with those who do not live up to it.

The proposed idea for a hospital in our county is growing. So far, of course, it is only in the talking stage but more and more people are talking which is a good sign. The majority of people think that there is a real need for a hospital, but they wonder how the money will be raised to build one. Hospitals in the past have been built by endowments, by help from the state and by personal subscriptions. It is the five, ten and twenty dollar gifts from the average citizen that helped Frederick Memorial Hospital enlarge its buildings twice and it was due to the same that Gettysburg Hospital is at the present time adding to its facilities. Our county has made substantial gifts to both hospitals. It therefore stands to reason that for a hospital of our very own the people would be much more generous. Our county is rated one of the richest in the U. S. Indeed we have some very wealthy citizens living in our county and some of them are civic minded. What could be a more fitting memorial to anyone than a hospital that would dispense life and mercy to all that needed these two priceless qualities. There are quite a few men and women in Carroll who could contribute 50 or a 100 thousand dollars and never miss it. But I don't think it should be left to the few to build the hospital. It should be a hospital built by all, and for all. It should stand as a symbol of man's compassion for man. Our county's population is increasing every year, Baltimore is pushing out into our county and the need for medical care is likewise increasing. A hospital in our midst will draw more doctors to our communities and right now in the small towns the doctor shortage has reached the critical stage. Every family sooner or later will have some member of his family in the hospital. When that time comes one likes to be as close to home as possible. This is just one more reason why a hospital in Carroll would prove a blessing. We hope the citizens will respond to the idea. Why don't you write a letter to Mr. Earl Shipley or the County Commissioners and express your ideas on the subject? It is the only way for them to know the true sentiment for or against the idea of a hospital in our county.

The annual covered dish supper of the Mt. Union Missionary Society (U.L.W.) will be held June 11 at 7 p. m. in the parish house. All members and their guests are cordially invited to attend.

The frost last week did more damage than was first realized. Besides the gardens getting frost-bitten, the alfalfa fields took a beating and so did the foliage on some trees, especially the walnut trees.

The students of the French class at Elmer Wolfe school under the direction of their teacher, Mrs. Shauk, prepared a french dinner Tuesday evening and served it to their guests

and themselves. The conversation at the dinner was in French and if the student didn't know how to ask for something in French he or she had to do without it. But there wasn't reason for anyone going hungry for Mrs. Shauk was determined the first French class at Elmer Wolfe was going to learn French and they did. This year for the first time a foreign language was introduced in our local school. Much depended upon the first class. If it succeeded, the subject would be continued. If the class failed no doubt it would mark the end for a while of a foreign language. But thanks to a determined and skillful teacher and students who made a good try, the French subject is safe for a time at our school.

I don't know why but this spring we have been having a battle with moths, and the moths have built up an immunity to sprays and crystals. The other day we had the house sprayed from attic to cellar and the net result was that I succeeded only in almost killing myself. The new sprays are dangerous and shouldn't be used unless the windows and doors are open. Some scientist said last week that while man was trying to get rid of insects, he would only wind up getting rid of himself. He is right. We use too many sprays. We should take a lesson from the Koreans. They eat bugs. A man in Pa. makes his living by selling fried earth worms and pickled grasshoppers. No fooling. There is a store in Frederick that sells all kinds of unheard items like these two.

You're middle-aged and glad of it if you would rather buy beautiful clothes for your daughter than yourself and would rather your son take the wheel than drive the car yourself.

"SPICE 'N' EVERYTHING NICE"

(Continued from First Page)

full bloom just about everywhere and it is indeed a glorious sight against the green.

Mrs. Housewife, don't attempt to carry those heavy shopping bags full of food thinking you can save a few cents on any article. It is best always to purchase right around the town. Another big thing is this which I have discovered long ago, don't go shopping for food when you are hungry for it will mean that you will purchase much more than you really had planned in doing.

Was in a home the other night and a lovely one, too, just recently built and it was a real love match when it came to that couple and they are entirely too different faiths.

Never, never allow religion to interfere with the big thing in life—love. Religion really is based on love and no sensible couple will ever disagree and be made miserable when love is the foundation.

Did you know that it was the romance of John McDonough, who was a miser, that made him treasure a young girl's slippers along with his gold and which resulted in the school systems in New Orleans and Baltimore? The story is a lengthy one.

This man, John McDonough, was the Merchant Prince of New Orleans during the first half of the 19th century and lived and died a bachelor but he probably did more for these two cities than any other man. There was much more than romance and misery in the life of John McDonough who, until two days before his death, worked on an average of eighteen hours a day, although he granted his slaves a half-holiday every Saturday.

He loved and was loved by Elizabeth Johnson, a young Creole society belle (Creole meaning French and Spanish blood of the very finest). They had hoped to marry but because of paternal objections their plans were abandoned. She became a nun and he remained a bachelor until his death forty years later. After 35 years, Elizabeth Johnson became Mother Superior of the Convent she had entered and on New Year's Day following, among the many who came to visit her and extend good wishes was John McDonough, their first meeting since they had parted. After McDonough had died, among his effects were found a faded pair of dancing slippers that had been worn by Elizabeth Johnson at one of their famous New Orleans balls when she was a beautiful young girl and he was a gay young gallant.

There have been many wild and weird stories regarding the patron of the McDonough school system but despite all of these, every May Day the school children of New Orleans make a pilgrimage to the statue erected to McDonough's memory in Lafayette Square on St. Charles Street, to bank his marble likeness with flowers for it was John McDonough who at his death left approximately \$1,500,000 to be divided equally between the public schools of Baltimore, his birthplace, and New Orleans, his adopted home.

Twelve of the thirty five schools built are still in use. He was born in Baltimore December 29, 1779 and died at McDonoughville, Louisiana, Oct. 26, 1850.

Most everyone likes the Daylight Saving but the farmer and I do understand that it means a change entirely for them which is more difficult. There are always drawbacks in everything in life so we must learn to be satisfied. Betcha, there were many who forgot to set their clocks forward.

The wonderful "Flower Mart" at the Washington monument will be on May 9th. Hope to be seeing you there.

Until next week D. V. Have a grand week end. So long until then. I am,

Faithfully,

YOUR OBSERVER.

MEMORIAL DAY

Let us not burden our remembrances

With a heaviness that's gone.

—Shakespeare

Bloodshed, war, and oppression belong to the darker ages, and shall be relegated to oblivion.

—Mary Baker Eddy

War will disappear, like the dinosaurs, when changes in world conditions have destroyed its survival value.

—Robert Andrews Millikan

A little flattery now and then makes husbands out of single men.

Some people believe everything you tell them if you whisper it.

## MARRIED

NUSBAUM—MOTTER

The Keysville Evangelical Lutheran Church was the scene of a quiet wedding Saturday, May 19 at 10:30 a. m., when Miss Thelma Virginia Motter, daughter of Mr. and Mrs. Clarence J. Motter of near Taneytown and Dean Edmund Nusbaum, son of Mr. and Mrs. Edmund J. Nusbaum, Taneytown, were united in marriage. Rev. Dixon A. Yaste, pastor of the bride, solemnized the double ring ceremony in the presence of the immediate families. The altar was adorned with lighted candles and flowers.

The bride wore a princess style dress of white imported French Chantilly lace over slipper satin. The full gored skirt fell from a tight fitting bodice ending in a V neckline and long sleeves ending in points over the wrists accented by tiny buttons. Her elbow-length veil of French illusion was attached to a matching headpiece of lace and satin. She carried a white beaded Bible, gift of the bridegroom, topped with a baby white orchid and pink sweetheart roses to form a cross. Long streamers and lily of the valley flowed from the Matron of honor, Mrs. Robert Sell, wore a mint green satin dress fashioned similar to the bride's with short sleeves and ribbon and bow trim. She also wore a matching headpiece and white gloves. Her bouquet consisted of pink carnations and white pom-poms in the form of a cross. Both attires were made by the bride.

The bridegroom chose as his best man, Robert Sell, Keysville.

The newlyweds left upon an unannounced destination. For traveling, Mrs. Nusbaum chose a black linen sheath with white accessories and the orchid lifted from her Bible. Upon their return, they will reside in an apartment on East Baltimore Street, Taneytown.

They are both 1955 graduates of Taneytown High School. The bride is employed as secretary to E. E. Stuller, building contractor. The bridegroom is attending Thompson Business College, York, and part time employed by his father at the canning factory.

It is commendable to get in and dig, but be careful where you throw the dirt.

When the great men of this earth are revealed in the happy hereafter, there will be many surprises.

## HIGH SCHOOL ALUMNI MEETS

The Taneytown High School Alumni Association met Monday evening in the High School. The annual banquet and dance which will be held Saturday evening, June 2, was the main topic of discussion. James Fair reported that reservations are coming in gradually, and that all indications point toward a large crowd this year. Monday, May 28, is the deadline for reservations, and it is hoped that everyone will respect this date. Since the purchase of tickets makes your reservation, tickets are available at Dougherty's Grocery and at the First National Bank.

Miss Helen Bankard will obtain some of the girls of the Junior class to assist the Fire Company Auxiliary in serving the dinner. The scarcity of available flowers suitable for tables and decorations was discussed, and it is hoped that anyone having flowers to offer will contact President Wadell or Betty Jane Hahn. The Class of '56 will have charge of the decorating, with the chairman Miss Patsy Flickinger. Miss Alice Frock, secretary, Mr. Delmont Koons, Jr., treasurer, Mrs. Doris Harner, historian, and Miss Helen Bankard will be in charge of checking reservation lists, tickets, and membership cards at the door.

President Wadell reported that the very attractive trophies have been received which will be presented to the girl and the boy in the Class of '56 who showed outstanding sportsmanship in athletic activities. These awards are made annually by the Alumni Association.

The Summer Outing will be held at Beverly Beach on Sunday, July 15, leaving the High School at 8 a. m.

Committees were appointed for the annual Weiner roast which will be held at Taneytown Memorial Park for all paid members and their guests on Monday evening, August 20. Games committee will be James Fair, William Rittase, Albert Angell, and Arlene Naylor. The refreshment committee will be Marlin Rittase, John Harner, Wayne Baumgardner, Frank Henshaw, Phyllis Smith, Barbara Clingan, and Mary Alice Rue.

## The Power of Memorial Day

by Dr. Norman Vincent Peale

I had the privilege of growing up in small Ohio communities in the early part of this century, and one of my most inspirational memories centers around Memorial Day and the old soldiers of the Civil War.

To me, Memorial Day was one of the most moving of all the national holidays. I was stirred by the speeches and martial music from the bandstand or cemetery on what we called "Decoration Day." There was something about the newness of life that the Spring had brought; soft sunshine falling on the fresh green grass of early summer, the misty hills in the distance, the sound of stirring national songs, and above all, the softly flapping flag in the gentle breeze as the speaker told us of our country, the deep devotion of its heroes, and recounted once more the stirring episodes of our heroic past.

And many a lazy summer afternoon, I sat on the coping around the old courthouse listening to the veterans of the Civil War tell of their experiences in the epic struggle between the States. A boy's imagination quickly sent him off behind long columns of blue or grey, and to him, such names as Antietam, The Wilderness, Shiloh, and Gettysburg became very real and meaningful.

Those old soldiers used to talk gratefully of Lincoln's insistence that those who had borne the heat of the battle and the burden of the struggle, the widow and the orphan, were to be given not charity, but their rightful due as the dependents of those brave men who had fought to preserve liberty and to keep the Union intact. It was regarded as a sacred duty of the nation, and the nation kept faith with its veterans.

In those days, as now, were many who had been disabled by the struggle. Their ability to compete in life had been reduced by wounds suffered in battle. Even as a boy I remember hearing how it seemed they were thought of only on such days as Memorial Day, when orators, fervent in their patriotism, remembered, if only for a day, the long continuing sacrifice made not by those who had died in battle, but by the disabled who were to live for many years following the great struggle.

The heroes of World War I and World War II and the Korean War are, of course, men who, with no concern for themselves, gave their lives that freedom might live. We can never do them adequate honor. And, we must never forget them. They died in their young life, forsaking the opportunities of the years that the rest of us might live and develop our highest hopes and dreams.

However, there are other living heroes who deprived themselves of either physical, emotional, or mental health for us and for their fellow countrymen. It would be as wrong for us to neglect or forget them as their buddies who today sleep on some Pacific Island or in a European cemetery. A hero dead or a hero maimed and disabled are both due our equal gratitude and our unceasing devotion.

We must never forget that the most effective way of honoring those who have died is to remember the living disabled, that their lives may be rich and full. They are a great asset to our country as the living embodiment of devotion to freedom. A country is recreant indeed which does not everlastingly keep alive grateful appreciation to those who suffered disability to perpetuate everything that we Americans hold dear.

There could be no better time than on Memorial Day to resolve that we shall gratefully support the honored men and women who have suffered disability from the wars of the United States.

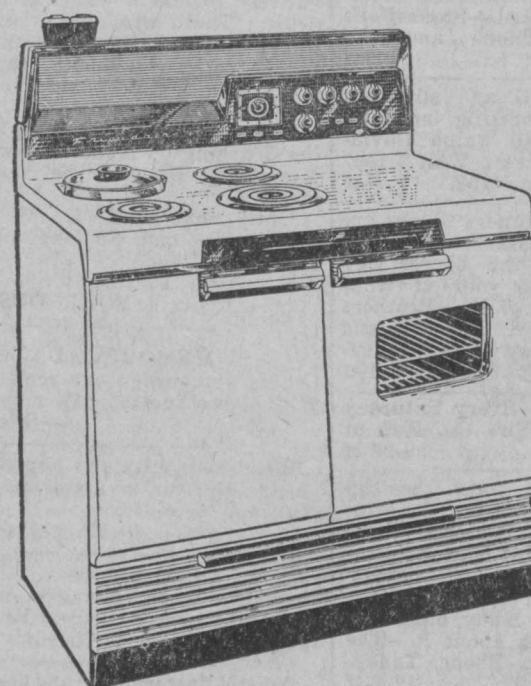

(Written especially for the Disabled American Veterans, the Identity-Tag organization)

### Sending Spirit

Lesson for May 27, 1956

IF THE Descending Spirit is the story of the second chapter of Acts, the thirteenth tells part of the story of the Sending Spirit. People may be very much interested in the Descending Spirit but not enough in the Sending Spirit. People today like Simon of Samaria in olden times, want the Holy Spirit to descend into their hearts—but for the wrong reasons, sometimes. We want the Spirit to help us do what we want to do, to accomplish our plans, to make us persuasive and popular personalities. But the Spirit of God, although everybody's aid, is nobody's aide. The aide to a general is just the General's right arm, his tongue—whatever the General wants done, the aide is there to see it done. The Holy Spirit is no aide!

#### God Can Break Up Good Plans

The church at Antioch was going strong when the Holy Spirit broke into their plans. We don't know how the Spirit spoke to them, nor how they were sure it was the Spirit. But one thing is pretty certain; they must have had plans which the Sending Spirit broke up. Barnabas and Saul were what we would call today Associate Pastors of that big city congregation. They had been together there only a year, and that is a short pastorate. Very likely Saul and Barnabas both, along with the church, had plans of one kind and another afoot—good plans, evangelistic, sacrificial. But the Spirit said No. The Spirit had other plans. The church must set aside Barnabas and Saul, cut them off from their growing, successful work in the First Church of Antioch, and send them out as missionaries. They must go to parts unknown, to places not nearly so important as Antioch, to the backwoods perhaps. They must go out and endanger their lives, far from the peaceful busy streets of Antioch. The Holy Spirit has often come to men in disturbing ways. He often breaks up our best plans. The thing to remember is that God knows better than we do. God's Spirit never breaks up a good plan unless it is for the sake of his better one.

#### The Spirit Through the Church

The way the Spirit operated there in Antioch is instructive. The Spirit called Saul and Barnabas; also the Spirit spoke to the church. The command was given: Separate Barnabas and Saul for the work to which I have called them. And the church obediently "laid its hands on" these two leaders and sent them out. The Sending Spirit often works in this way. Most missionaries today are selected and sent out by mission boards of some kind. The boards will not, if they know it, send any one to a mission field who has no sense of being called by the Spirit. But on the other hand, even if a young man feels the Spirit has called him, if in the Board's judgment he will not make a good missionary, they will not accept and send him. This is all in the wisdom of God. It gives a missionary today, and it gave Saul and Barnabas back yonder, a strong "lift" to know that the church is backing them up, praying for them, wishing them well, ready to send reinforcements if they fall by the way-side. Sometimes the only way a call of the Spirit comes to a man or woman is through the church. Older Christians ought to realize their responsibilities here.

#### The Church Through Men

God does not call all men to be missionaries. But he does call every Christian man, woman and child to be missionary. That is, missionary in heart and purpose. The church that is not sending and supporting missionaries, directly or indirectly, by themselves or through a board of missions, the church that is not out there on the firing line through its representatives, the church that doesn't even know there is a firing line, the church that spends all its money and all its interest on itself—such a church is not even a cousin of the kind of church we read of in the early days, like the Church at Antioch. The selfish congregation is contributing to the death of the church; the sending church is contributing to its life—its own and the life of the Christian fellowship around the world.

## World's most popular POWER STEERING?

\*Buick ROADMASTER 6-Passenger 4-Door Riviera

### Right this way!

EVERY YEAR, more and more new cars are equipped with Power Steering. Many a man has bought it "for the wife"—then wondered how he ever got along without it.

And if you have in mind a new car with Power Steering consider this fact:

Since the beginning of last year, Buick has sold far more new cars equipped with Power Steering\* than any other car—over 20,000 more in 1955 alone.

That's the record—and the reasons for it are just as impressive.

Buick brings you In-Line Safety Power Steering. In addition to the one-finger ease of turning common to all such systems in varying degree, it has several distinct advantages.

It gives you surer, steadier, safer control at highway speeds—because it retains that good natural "feel" of the road.

On the other hand, it gives you more power assist when you need it most—at crawl speeds and at full stop. Here, Buick's Power Steering makes wheel turning nearly twice as easy as other types of systems.

Add another plus: this Buick feature works through the new Buick front end—where a unique new geometry and steering linkage bring a sweet new response and a wonderfully easy handling and a surer "sense of direction" even to new Buicks not equipped with the power system.

So there you are—and here we are, waiting to prove it all to you.

Waiting, also, to let you try the new thrills to be had in Buick's advanced new Variable Pitch Dynaflo†—where getaway response and gas

mileage both step up even before you switch the pitch.

And waiting to show you how the highest power yet, the sweetest ride yet and the boldest styling yet—all help to make this bright new beauty the Best Buick Yet.

Today is fine with us. How about you?

\*Buick's In-Line Safety Power Steering is standard on Roadmaster and Super, optional at moderate extra cost on other Series.

†New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.
