## SCOUT NEWS

### Scrap Drive Will Be Made Saturday, Aug. 18

The scrap drive announced a month ago will take place in Taneytown and surrounding country-side this Saturday, August 18, starting at 8 a. m. when Explorer scouts and Boy Scouts of American Legion Troop 348 will start out from the scout hall. Besides paper, rags, magazines and especially scrap iron are greatly desired, and public cooperation in placing it at roadside is always appreciated, particularly in the rural districts.

Not even two thousand acres of beautifully wooded hills in the Harford county section near Whiteford this side of the Susquehanna river on Broad Creek appeared to offer sufficient scope for the more energetic among 27 boys and 3 leaders of Troop 348, Taneytown, during their annual week's encampment at the Baltimore Area Council's scout camp August 4 to 11. Despite, or perhaps because of, the first few rainy days, and initiated by Junior assistant scoutmaster Harold Slaybaugh, who wanted a couple of more 10-mile trips for hiking merit badge, or perhaps by Explorers George Abrecht, Jackie Bowers, and Philip Garrett, who wanted to accompany Bowers on the required hike for second class, no less than eleven separate outings were completed. Patrol leader Frederick Sherman, Slaybaugh, Patrol leader John Myers, and Explorer Jackie Bowers may take credit in that order for the greatest mileage, Sherman's being about 100, and Bowers' 65, while next to them in the 30's were Explorers Abrecht and Garrett, and Scouts Lee Sherman and John Whalen. Since everyone in the troop who was at camp is started on that merit badge, there should be quite a "slew" of these earned in the near future.

In addition to the daily round of chores like firebuilding, cooking, dishwashing, sanitation, tent inspections, food purchases, and construction projects needed in the mechanics of staying alive and comfortable in a tented hamlet of the woodland, such activities as a softball game, swimming, boating, craftwork, and the closing ceremonial campfire were enjoyed. On this final night Order of the Arrow initiates were "tapped out," Explorer Lee Barnes and Scout Edward Reaver being the ones elected from 348. John Myers was nominated Busy Bee. John Myers being the most ambitious and helpful about camp, although he had several close runners-up.

A skit night on Tuesday was highly successful, being productive of nine more or less melodramatic offerings, and their newly appointed Explorer adviser Robert L. Bowers was drafted for appearance in so many of the skits that we wonder if he was able to finagle some percentage from the youthful producers. It could be that he gave them an idea or so.

Besides Slaybaugh and Bowers, and Wilbur O. Thomas, scoutmaster, Philip R. Lawyer served as one of the senior leaders and handled practically all of the cooking save for the tasty shrimp meal of Friday evening which was the masterpiece of "Rabbi" Bowers. Philip is claimed by Troop 348 as one of its more distinguished alumni, but lately has been Explorer adviser of 391 Silver Run. Wayne Hollinger, one of the scouts from that group, camped with the Taneytown contingent, as did Explorer Peter Manning of 464 New Windsor. Francis Nelson served in the capacity of Senior patrol leader for the Boy scout members.

Explorers participated also in a special program under John Rutter of the camp staff and were the only troop out of 28 which tackled the long hike to Conowingo Dam. Slaybaugh, Jackie Bowers, Frederick Sherman, Grant Harman, Myers, Edward Reaver, and Weishaar made this trip, while on a similar one most of these were also joined Thursday by Abrecht, Manning, and Garrett. Other Explorer highlights were a tour of Phillips Field at Aberdeen and an overnight canoe trip to Hopkins Cave on the mighty Susquehanna participated in by Patrol leader Harman, Nelson, Scribe Ronald Hopkins, Assistant patrol leader Edward Reaver, and Quartermasters James Hemler and Charles Turner.

The patrol contest was won by Team 3 Myers, Frederick Sherman, Roy Chapman, and Ronald Corbin, while the Explorer of Team 2, Abrecht, Jackie Bowers, Garrett, and Manning were second; and Group 4, Byron Baer, Harold Raab, Lee Sherman and Whalen were a close third. First prize was a big watermelon.

One of the principal achievements of the week was in advancements for Scout rank, and the one who did the most was Jackie Bowers, who also was awarded a melon that he shared among his friends. He and Baer both finished Tenderfoot, Larry Six became Candidate, 77 Second class tests were recorded, and 14 first class, with Hollinger earning cooking merit badge. The next Board of review promises to see a large group up. At the board of August 1 David Hopkins and Lee Sherman were granted second class rank, and Nelson and Turner first class.

For the paper drive Saturday bundling or at least the weighting down of papers to prevent blowing would be a wise precaution, and such little things make the drive go faster and conclude in time for getting it off to its depot. Members of the troop are reminded to report by 8 a. m. Saturday, August 18, if it is possible for them to help.

It is error alone which needs the support of government. Truth can stand by itself.—Thomas Jefferson.

Sincerity is a great virtue, rarely exhibited and seldom appreciated.

## DEMOCRATS MEET IN CHICAGO

### Nominations Being Made for President and Vice-President

The Democratic National convention opened Monday in Chicago for the purpose of nominating candidates for president and vice-president for the United States.

A bang of the gavel by National Chairman Paul M. Butler at 1:03 p. m., EDT, officially opened the 32nd nominating meeting in a haze of many claims by candidates and the North-South disagreement over civil rights.

The chief contenders for the presidential nominations are Averell Harriman, governor of New York, and Adlai Stevenson, former governor of Illinois, the defeated candidate at the election four years ago.

Gov. Frank G. Clement of Tennessee delivered the keynote address on Monday evening.

Former President Harry S. Truman was very conspicuous with his presence as a visitor. He was not a delegate but apparently he expected to play an important part in the proceedings.

Wednesday evening was highlighted with a speech by U. S. Sen. Robert Kerr of Oklahoma. The principal business of the coming day was the election of the platform of the Democratic party for the coming election.

The speakers thus far have promised lower taxes with increased benefits for everyone such as wage increases, increase the Federal share of Public Housing, lower interest rates for loan and mortgages, build more and better highways and specific relief for the farmer, repeal of the Taft-Hartley Act, and many, many other reliefs promised.

As it appears this (Thursday) morning Stevenson may win on the first ballot (barring "complications"). It is estimated at this time that he is short only 17 1/2 votes from a majority necessary for the nomination.

With the coming of the Republican convention to be held in California next week with promises and counter-charges added to those made this week the voter will be confused to the point of not knowing whether to expect calamity or Utopia.

### OLD SCHOOL PICTURES

Last week we began a different plan of publishing old school pictures (before 1900) by inserting a picture without any identifications. Mrs. Minnie Lerley, of Passaic, N. J., identified the school, pupils and teacher. Of course, she did not have too much difficulty, due to the fact that her father, J. Albert Angell was the teacher.

This week we are again inserting the picture but with complete identification.

Next week we will publish another picture without any identification and follow with identification of that picture the following week.

We will continue this sequence until the supply of pictures is exhausted. We are publishing these pictures (at a considerable cost to us) with the thought in mind of creating "reader interest."

### LIONS NEWS

**THE FIRST TO BE FIRED**

Is a minimum wage law a sound way to help people in the bottom-earning brackets?  
If you think so, an article by Bettina Bien, in The Freeman, may give you another slant on the problem. The article states: "If the minimum wage rate is set higher than the market rate, it hurts the very person it is designed to help—the lowest producers, and hence the lowest earners. The first to be fired, when a new minimum wage rate is set, are those who cannot contribute enough to the market to cover the cost of their wage."

The barometer of earning power must be productivity—which is the measure of the worker's value to the employer and to the public. No law, no matter how well intentioned, can cancel out that fact.—Industrial News Review.

**THE COST OF CRIME**

J. Edgar Hoover of the FBI states: "We complain about high taxes, but last year crime cost every man, woman and child in the United States \$122.00, or a staggering estimated total of twenty billions of dollars. Perhaps this figure could become more meaningful if we realized that for every \$1.00 spent on education, crime cost \$1.46; and for every \$1.00 which went to the churches of the nation, \$13.00 went to crime."

Mr. Hoover said this in a speech urging improvement in crime control—especially as it affects the parole system and the problems of the repeater. And the challenge of this, he added, "is a challenge to all of us."—Industrial News Review.

**GRASS ROOTS OPINION**

FOREST MISS. TIMES: "Like other business, we sometimes receive in the mail a circular describing some kind of insurance policy which would mean a 'big saving' in protecting property against fire or theft. Such circulars are tossed immediately into the wastebasket. . . . Cheap insurance is apt to be more expensive in the long run."

GREENSBORO, N. C., DEMOCRAT: ". . . the hot dog is simple and down-to-earth and economical. It's within the reach and pocketbook of everybody, and it has the taste of America. Let's toast the American Way, the hot dog way. It's a national tradition to be proud of. So pass the mustard. Hot dog!"

BASSETT, NEB. LEADER: "It is the consumer who will pay for the increased wage and fringe benefits the steel workers may gain. There is nothing remarkable about this, for obviously if a business does not recover its costs, and a reasonable profit for re-investment and for dividends to those who have provided the facilities, it cannot hope to remain a going concern for very long."

MONTPELIER, VT., EVENING ARGUS: "It shouldn't be too hard to keep your temper. Who else wants it?"

HUMBOLT, IOWA, REPUBLICAN: "After many years of experience in the newspaper business and a close association with the facts concerning many acts of delinquency by juveniles, and the attendant reaction by the parents, we have come to the conclusion that the best way to make sure of proper home training is to levy the penalty on the parents."

The doctrine that all men are, in any sense, or have been, at any time, free and equal, is an utterly baseless fiction.—T. H. Huxley.

The doctrine of equality seldom embraces those who are worse off than its exponents.—R. A. Piddington.

A hair perhaps divides the false and true.—Edward Fitzgerald.

The defect of equality is that we only desire it with our superiors.—Henry Beque.

**LOW EGG PRODUCTION COST with PURINA FEED EFFICIENCY**

You don't have to travel far to see the difference Purina efficient Chows have made in a neighbor's egg profits. Demand for Purina feeds is expanding fast. Many poultrymen have found they make more money because Purina's efficient Laying Chows did cut feed used per dozen eggs.

Look at these results from an experiment at the Purina Research Farm. One pen got an "average" ration . . . the other regular Purina high efficiency Chow.

See the Difference Purina Efficiency Made!	LIGHT BREEDS

Feed per Dozen Eggs	4.4	4.0
Dozen Eggs per 100 lbs. Feed	22.7	25.0

CURRENT EVENTS FIFTY YEARS AGO

The Taneytown Cannery commenced on the season's pack to-day (Saturday). The real work will not begin until next week. The product of about 300 acres of corn will be canned.

Rev. Dr. D. Frank Garland, who preached in his old church here, last Sunday, had a large congregation and renewed many old acquaintanceships. He will be in his Dayton pulpit, on Sunday, after a vacation of three weeks. Dr. Garland retains a warm regard for his Taneytown people, which is fully reciprocated.

Copperville—Prof. J. E. Garner and daughter, Elizabeth, of Harrisburg, Pa., spent their vacation with Mr. Garner's sister, Mrs. Samuel Galt and family. The visitors at Thevanion are Mrs. McFadden, Mrs. Shriver's mother and Miss McFadden daughter of John McFadden, all of Philadelphia, and two sons of Edward Shriver, of Hagerstown.—P. H. Shriver recently added to his already fine horses another pair of fine drivers of high mettle.

Frizzellburg—Mrs. Harry Rinehart and Master Maus were on an extended visit to Halltown, Va., where her sister Mrs. George Baumgardner resides. Her husband left for there last Saturday to spend a few days. All returned Monday evening.—The trustees of the school here have definitely assigned the principalship to Mary E. Oliphant, of Wicomico.

Harney—Thomas Lemmon is having his house painted; this will add greatly to the appearance of his home. Let others follow the example because it is badly needed.—The members of the Lutheran church are improving the grounds by putting up a lot of new hitching places.

LETTER TO THE EDITOR

712 N. Sycamore St. North Manchester, Ind. Aug. 7th. 1956

To "The Editor" "Carroll Record" Taneytown, Md.

Dear Sir:-

I was greatly pleased to receive from my nephew, Charles O. Garner, Jr., of Westminster, Md., a copy of your paper of June 21st, which published a picture taken 63 years ago. Mrs. Myrtle Koons Sentsz seems to be the lucky one who has had that copy all these years. Thanks to Myrtle.

I am one of the pupils in that picture. But either Myrtle is wrong or else I am mistaken as to my own identity. Reverse the name of Scott Garner and I and you will have the proper name to the right person. Several other names I think are not quite right. Norman Fair, Theodore Newcomer, called Pud, Dan Shivers and one girl she has not names who I think is Maude Cump.

Mr. Buffington was the only country school teacher that I ever had. I entered Maryland Collegiate Institute in 1900-01 which was the second year of its operation in Union Bridge. Graduating from there in the business course in 1904 I went to Waynesboro, Pa., and worked for the Landis Machine Co., for nearly five years.

I have been away from the old Mt. Union community most of the time ever since, being back only occasionally for a visit. My last visit there was in May of this year. At that time my nephew took me to Thurmont to see Milton Lawyer, whom I had not seen since leaving there.

Mabel Koons, who was Mabel Boon, in her school days is the only one that I had close contact with during these years. I could name a number of the older ones in school when I was a mere lad 65 years ago.

I still think that in the one-room country school we had some advantage over the children of today who are taught in a one-grade room. We heard the older ones recite and learned many things during their recitation.

I remember well the poems in the 3rd and 4th grade Butler Reader which we had to commit to memory. If we failed it meant a quiet time at recess. Unfortunately I am unable today to recite many of the poems I learned then. I can only get a few lines and many times wish I had a copy of those readers. I have tried several times but never got a copy.

My parents were Jasper C. and Hanna S. Garner and we lived just east of the corners of the Taneytown-Union Bridge and Uniontown-Middleburg roads. Lawyer's blacksmithshop was the place where Farmer's Union met and problems of the day were discussed, horses were shod, plow shares sharpened and wagons repaired.

After spending 16 years in India as a missionary we spent a number in pastoral work here in America and then about three years ago we retired to this college town. And now I am keeping books for a small plumbing and heating concern. This keeps me out of mischief. I still have three sisters and three brothers in Maryland and so I am not cut loose altogether.

I wish to extend my best wishes to the people of "The Carroll Record" thru your paper if you wish to print this note from an old Marylander.

Most Sincerely, HOLLY P. GARNER.

THE PILGRIMAGE OF MAN—

The skeptic ace question—"Where did Cain get his wife?" Has been a riddle most of my life; It has been a puzzle to me since my early youth; But, the answer is simple, when we know the truth.

Among those who lived in an age long ago Adam, like Noah, was the last to know; So, God started with him a "family tree" Which includes the names of you and me.

Down through the years it has been said That some day earth's history will be read, That it is stored in the ether, and all shall know From whence we came, and wither we shall go.

But, with that consensus, I can not agree— A fantastic story it seems to be; It is only imaginary, and no way true Of how the secret shall be revealed to you.

In your sub-conscious mind a record is kept Of the things you did each time before you slept; And someday you shall know the truth About yourself in the days of your early youth.

As from a ledger, whose pages are blurred, The accounts to another book are transferred, So it is with man; all the deeds he has done Are stored in the body of everyone.

Some picture our Father like a Great Judge to be Who is waiting to sentence all humanity; They tell us that all who fail to do well Shall be sent by Him to a fiery hell.

Such logic belongs to an age long ago; For, to-day, there are many persons who know That God is like man, and man's life shall be Both now and through all Eternity.

Heaven and hell can not be found Up in the air nor under the ground; They exist in you, and they exist in me; For, where God is, heaven must be.

In an age of emulation such as this The road is made rough to a region of bliss; An unobstructive fellow is hard to find Because of the axes there are to grind.

In our day, with so many things to compete The man of the carth will not take a back seat; He is out in front, and ready to go, And all of his eggs in one basket will throw.

But the words of Him who walked on the sea, Still ring in the ears of humanity; He made this earth; and, He ought to know Its dangerous paths, and the right way to go.

To all of the people on earth, said He; "Take up thy cross, and follow me!" "I will be with you until your last breath To light the way through the valley of death."

Do you know there is a possibility which may appear to some to be absurd that food may be a suicidal weapon. Many of the so-called heart deaths are not organic but sympathetic, inflated stomachs "lock" the heart. Dr. Victor E. Levine says: "In spite of wars, more white people die by the knife and fork than they do by the gun and sword."

Any volunteers to start this project of putting this section of the country on post cards? Maybe the two store keepers, Carroll Doughtrey and Arthur Clabaugh would be interested in having these post cards on hand for visiting customers and my card collection.

FEESERSBURG

(A Voice from Carroll)

To those of you who are not interested in politics (although you should be) this week's column will be of no interest to you, for it will mainly deal with the democratic convention. We sincerely hope the young people of these United States will watch both Conventions so as to learn how a democratic government works, what the issues are in the coming election and to become acquainted by radio or T.V. with the leaders of both parties. It is no longer enough to say you are a registered voter. It is important to be able before going to the polls to understand what each party stands for and which of the issues are of National importance and will effect the most people. Both conventions will have a lot of window-dressing and its wise voter who will be able to keep his eye on the important business and not follow the belly-boo up some blind alley. This is the week for the Democrats. On Monday the convention got off to a fine start with Mr. Butler calling the delegates to order on time. Even the newscasters were caught off guard as they kept telling the audience that Mr. Butler was only posing for pictures when actually he was calling for order. Even the delegates were astonished for by the looks of the empty hall, most of them were still in bed or in the hotels. No one can blame them for missing the morning sessions as the speeches seemed even duller than usual. We never have found out why the welcoming addresses always have to sound like "Chamber of Commerce" advertisements. The tribute to the late Alabar Barkley was touching and in perfect taste. The sound of Taps on a bugle can be the most lonely and haunting sound in the world.

The keynote address by Governor Clement had to be heard and seen to be appreciated. It was the best speech we have heard for years and years. Usually political oratory is filled with too many hackneyed phrases but the young Governor from Tennessee used modern metaphors which made his speech mighty effecting. One of the best was when he used the popular song title of "Sixteen Tons" to illustrate the farmer's plight with "Sixteen Cows". Not only did Governor Clement sound like William Jennings Bryan but he also resembled him in appearance. At the end of his speech his wife who was watching him very intently burst into tears. A wife is under as great strain as her husband on such occasions. Mrs. Clements like so many modern wives helped to put her husband through college and besides that is as beautiful as any movie queen. Why do all southern women have to be so lovely?

While the keynote address was colorful and full of political fireworks Mrs. Eleanor address was the very opposite. Serene and full of dignity she spoke to the convention as a mother speaking to her children. Without notes or a prompter she spoke from the heart and the speech left one with a feeling of having listened to a wise, warm-hearted and dedicated person. Her smile and eloquence must have touched the deep recesses of every listener's mind and soul.

One of the important T.V. networks was given a nation-wide spanking by Mr. Paul Butler, Monday evening, because it failed to carry the movie shown at the convention preceding the keynote address. We had our T.V. on the CBS channel and we wondered why it wasn't showing the film. We finally switched to NBC in time to see the end of the film and to hear Mr. Butler give CBS a good bawling out. We were peeved ourselves, because while CBS is generally our favorite channel we think that the T.V. audience was not to have to listen all the time to announcers and newscasters giving their personal interpretations of the conventions proceedings. We talked to people over the phone this morning about the film and we were told it was very good. Thanks to CBS we missed seeing it.

As we write this it is Tuesday

morning, and no one knows yet who will be the democratic nominees for President and Vice-President. By the time this column is read it should be settled. Of course we have our favorite choice as most every other Democrat has. But there is one thing about this convention that I have heard no one mention and it is this: If Mr. Stevenson is maneuvered out of the nomination then the primary has no place in our system of selecting a candidate. It will prove most conclusively that putting up a fight in a primary is a waste of time and money.

There are other things going on in the world beside a political convention so lets look around and see what they are. For one thing Betsy, the hurricane is giving the farmers some concern. With corn in a critical stage wind and lots of rain could mean severe loss. We hope Betsy decides to behave.

A young couple we know who are fond of antiques recently bought an old horse-hair sofa at a sale. They decided not to remove the horse-hair but use it as they found it, until the young wife tried sitting on it one day. Then she sadly remarked to her husband: "I now know why in Grandmother's day they wore five petticoats."

We have noticed for some time how ill-at-ease a long prayer or grace before meals can make a young child but it took Chuck, the son of our visiting friends one day to so inform the astonished elders. After someone had said a short blessing before dinner Chuck looked up and said: "When you are hungry you can really make it short."

There is a building project going on here at the farm that will be of interest to all those studying the habits of insects. A tribe of hornets are building a nest in the window frame of the dairy barn right in front of the glass window. One can stand on the inside of the window and almost look into the nest without fear of being stung by an angry hornet. We don't know anything about the habits of hornets but it appears that they try to organize their work just like a construction gang on a job. Each hornet has his particular job and he does it earnestly. I think they have bosses too and maybe a union. They work like they are doing piece work without any overtime for all they quit at a certain time. Its so fascinating watching the hornets doing their work that I don't get mine done.

In conclusion, remember during these political conventions that great leaders can only come from a great people. Leaders can only become great if the people themselves demand greatness.—Ruth Roelke.

The meeting was brought to a close by the singing of "Blest Be The Tie That Binds."

BASEBALL

PEN-MAR LEAGUE

The Taneytown team defeated Union Bridge last Sunday 1-0 in 11 innings.

Blue Ridge pulled out of reach, clinching its second straight Pen-Mar championship with a 27-3 conquest of New Windsor Sunday. The Summiteers sport a 3 1/2-game bulge with two playing dates left.

Runerup Cashtown turned back Emmitsburg, 7-4, and Fairfield moved into sole possession of third by defeating New Oxford, 6-4, while Union Bridge fell victim to the southpaw slants of Mel Blizzard, who fanned 13 as Taneytown prevailed, 1-0, in 11 innings.

The playoff picture is still hazy with the teams fourth to sixth two games apart. The semi-final league card Sunday may help clear the situation. New Oxford goes to Union Bridge, Blue Ridge to Emmitsburg, Taneytown to Fairfield and New Windsor to Cashtown.

Team standings are as follows:

Table with 4 columns: Team, W, L, Pct. Blue Ridge Summit 16 3 .837, Cashtown 12 6 .667, Fairfield 11 8 .579, Union Bridge 10 9 .526, Taneytown 9 10 .474, Emmitsburg 9 10 .474, New Oxford 4 14 .222, New Windsor 4 15 .211

The Champ, one of the most remarkable exhibits in agriculture, is now touring the country, stopping at many of the major state fairs and livestock exhibitions. Produced by the Ralston Purina Company it is dedicated to promoting a better understanding of the cattleman's business of producing beef for our nation's people. Visitors may walk through the giant steer's body and see realistic demonstrations of how feed and roughage are made into beef. People enter the animal by doors that open out of the neck. Inside, they see how the vital organs of a steer's body work in the production of beef. They also see demonstrations of how a cow makes milk and how an unborn calf develops from a 30-day to a 9-month embryo. So life-like is the exhibit that the body gives off the sound of the steer's breathing and heart-beat. The Champ stands 12 feet tall, 19 feet long, and nearly 8 feet wide. It weighs 4000 pounds without the tractor and trailer. The exterior was built in 29 different parts, then assembled out of doors. Leading veterinarians and animal nutritionists assisted in making the interior displays.

The league-leading New York Yankees, striving for their second consecutive pennant and their eighth in the last ten years, will clash with the Baltimore Orioles in a four-game series at Memorial Stadium this week-end beginning at 8 P.M. Friday night, August 17.

On Saturday, the two teams will meet in an afternoon game commencing at 2 P.M. and an evening game slated to begin at 8 P.M. The series will wind up on Sunday afternoon, August 19, with a single game at 2 P.M. Saturday's afternoon game is an added starter, scheduled to replace the rained-out May 27 game with the Yankees and, according to Elmer Burkart, ticket manager, thousands of excellent seats are still available for this event.

Manager Casey Stengel's New Yorkers, who ran into the throes of their longest losing streak of the season during their recently-concluded western trip, will find no easy victims in the Orioles. The Birds, prior to last week end, had won four of their first nine games against the Yankees.

Mickey Mantle, however, has yet to hit a home run in Baltimore's Stadium this year, but will be trying hard this week end. He now leads the league in homers and is ahead of the record-setting pace of Babe Ruth in 1927 when the Bambino clouted 60 homers.

Likewise, Baltimore fans will have the opportunity to see hard-hitting, fleet-footed outfielder Tito Francona, who is making a strong bid for Rookie of the Year honors in the American League. Tito has been hitting at a .325 clip since Memorial Day and has been one of the Birds' best run-producers during the last month.

Two of Manager Paul Richards' pitchers are sure to be rookie left-hander Don Ferrarese and veteran Bill Wight. Ferrarese owns a two-hit, 1-0 triumph over the Bronx Bombers, recorded last May, and has regained the effectiveness which characterized his pitching efforts earlier in the campaign. Before last week end, Wight whipped the New Yorkers twice this season without a loss.

Following an off-day on Monday, the 20th, the Orioles meet Kansas City on Tuesday night. The A's appearance signals the beginning of the final invasion of the year of the western clubs. Kansas City will also play a night game on Wednesday, the 22nd.

The Detroit Tigers follow the A's to Baltimore for a trio of games, featuring night games on Thursday and Friday, August 23 and 24, plus a Saturday afternoon game on August 25.

Thursday night will be ARDC night at Memorial Stadium as the Orioles salute the vital arm of the Air Force, whose headquarters are located in Baltimore.

The special night will climax a week-long tribute to the Air Research and Development Command. Displays from all of the ARDC units scattered throughout the country as well as exhibits by various aircraft companies of Maryland will be available to the public from August 17 through the 23rd. In addition to eleven ARDC exhibits, displays also will be made by: Aircraft Armaments, Inc., Bendix Radio Corporation, Esso Standard Oil Company, Flight Refueling, Inc., Glenn L. Martin Company, Hoover Electronics Company and the Westinghouse Electric Corporation, Air Arm and Electronics Divisions. All of the exhibits will be situated on the promenade deck in Memorial Stadium.

The Orioles will hold their first Hall of Fame night on August 24th. All living members of baseball's Hall of Fame have been invited to join in the evening's activities prior to the Tigers-Orioles games. Several acceptances have already been received, including Bill Terry, Frankie Frisch, Mel Ott, Tris Speaker, and others.

The Chicago White Sox will play the Orioles in the last Sunday double-header of the year in Baltimore on the 26th. The Orioles have won 5, lost 4 to the Sox at home and recently swept a double-header from Chicago in Comiskey Park.

The Cleveland Indians follow the White Sox into Memorial Stadium and play single night games on Tuesday and Wednesday, August 28 and 29. The 29th will be Family Night, a night on which all members of the family are invited to come to Memorial Stadium and take advantage of the special family rate the Orioles offer. The head of the family pays the regular rate for a seat in either the grandstand, reserved or box seat section.

Members of the family (males 16 years of age or under and all females) who accompany the head of the family will pay 35 cents each for adjacent seats. Thus, a family of four may sit in the box seat section for only \$3.80 (\$2.75 for the head of the family, 35¢ apiece for the other three).

After August 29, the Orioles will play only 10 more games at home. Manager Paul Richards, a possible Manager of the Year selection, currently has his crew fighting for the fifth spot in the American League. Featuring heavy hitting Bob Nieman, Gus Triandos, and George Kell, the Orioles are proving to be the most surprising team in the circuit.

Thousands of seats in choice locations remain for all future Oriole games. Be sure to take advantage of the opportunity to see the Orioles in their final long home stand of the '56 season.

Once in a blue moon a car like this comes along—a design so advanced in performance, so beautifully balanced that it stands out above every other car on the highway.

It has a solid, sure-footed way of going that makes driving safer and more pleasant on any road. And you feel a very special sense of security in its rapid-fire respon-

siveness to your touch on the wheel, brakes and accelerator.

You can see that the '56 Chevy is a standout for style. But until you have driven one you're missing the best part of the news—the fact that Chevrolet is the smoothest, solidest, most wedded-to-the-road automobile you ever bossed. Try it and see.

## "We Know"

Lesson for August 19, 1956

"I DON'T know, I hope so," is the answer you will often get when you ask some one if he is a Christian. It's common answer but it doesn't make sense. Are you going to be sick tomorrow? Are you descended from William the Conqueror? Will you ever be famous? You may well say "I don't know," for various reasons, to such questions. But being a Christian is something different. Are you one? You ought to know. You're not a perfect one, you may not yet even be a very good one. It is quite right to say you don't know just how much of a Christian you are, for only God knows that. But if you have ever decided for Christ, if you ever accepted Christ as Savior and Lord, then you are a Christian-by-intention. If you never settled that before, you can settle it before you read another line.

Dr. Foreman

**"That You May Know"**  
There is one of the New Testament letters which has as its theme, "We Know." It was written by the same person who wrote the Fourth Gospel. In both the gospel and the letter, the author says plainly why he has written what he did. To the readers of the Gospel, John says, "These (things) are written that you believe that Jesus is the Christ, the Son of God, and that believing you may have life in his name." (John 20:31.) Now there must have been a number of people back yonder, as there are now, were uncertain whether they really "belonged as Christians, or not. If you asked them, "Do you believe?" they would say "Yes." If you asked them, "Are you sure you have eternal life?" they would say, like their modern descendants, "I don't know, I hope so." John writes to just such people, so that they won't have to give such a timid uncertain answer any more. "I write this to you who believe," he says, "that you may know that you have eternal life." (I John 5:13.)

### "By This We Know"

You know you have a wart by looking in the mirror. You know you have a farm because the deed is on record at the court house. You know you have sixty dollars in the bank because the bank statement tells you so. But how do you know you have eternal life? It is infinitely more important than any of these things. Knowing you have it is likewise the most vital knowledge you can have. This first letter of John is not content with "We know"; the apostle goes on to say why we have every right to be sure. One outstanding reason is expressed in the sentence, "We know we have passed from death to life, because we love the brethren." (3:14.) You'll not be much of an athlete if you don't like athletes. You'll never make a farmer if farmers don't appeal to you and you have nothing to do with them. If you are a Christian, furthermore, you will surely love Christians. If you do love them, it's a good enough sign for the apostle John.

### Listening to the Word

The reader will find various other signs by which, John says, we can know whether we have eternal life. This life cannot be looked at, it cannot be photographed, weighed or measured. Like any other kind of life, it can be known by its effects. You know a plant is living by the fact that it puts out shoots and leaves. You can't cut the plant open and see the life, but you can see from the way it behaves that it is living. So with eternal life. (And by the way, the reader will note that John speaks of "having," not "going to have" eternal life.) One more point may be noted here. John has different ways of expressing this assurance: We know we have passed from death to life . . . we know he abides in us . . . we know we are of the truth . . . we know that we abide in him . . . we know that we are of God. "Whoever knows God," he says (4:6), "listens to us." In other words, those who know God listen to one who speaks the Word of God. What kind of a lover is it who will not read his sweetheart's love letters? What kind of soldier is it who never reads nor opens an order from his superior officer? What sort of sports lover is it who never looks at the sports page? So it is fair to ask: How much of a Christian is one who never reads what his Father in heaven has to say to him in his Word? God's people love God's words.

Diamond Jubilee 75 Years of Progress

It doesn't cost a cent to  
**Take a Ford Test Drive :::**  
and you may save hundreds!

Would you trade 20 minutes of your time for a saving of hundreds?

August is Saving Season at your Ford Dealer's. Bag a deal while he clears his decks for the '57 models.

**Why put off the fun of a Ford Test Drive for a single day? As you know, it puts you under absolutely no obligation. And it may save you literally hundreds of dollars—we'll get to that a little further on.**

By a Test Drive we mean more than a once-around-the-block "spin."  
We want you to test the power that rocketed Ford to a 500-mile stock car record at Indianapolis . . . the GO that won the grand prize at NASCAR's Daytona Championships. We want you to feel how this Ford *scat* pays off in your kind of driving: in traffic, passing on the highway, getting going at traffic lights. We'll put either a Ford Six or a mighty V-8 with up to 225 h.p. at your disposal.

We want you to drive and listen—drive and feel.  
That fine-car quiet results from sound insulation under the hood, under the roof, in door and body panels—the most insulation in any car at

anywhere near Ford's low price.  
Some other things that contribute to that smooth, silent, luxury-car ride are things which Ford's leading competitor certainly can't boast: Ball-Joint suspension with wide base control arms for better steering, more stabilized wheel alignment . . . shock absorbers that are mounted to the frame rather than the body.

"Sure," you'll say as you drive along the road. "Feels pretty good—but after all, this car is new."  
Well sir, when you come in from your drive we'll show you why Ford will stay like new for a long, long time.

We'll show you how Ford has five cross-members (including a "K" member) in its frame. Ford's leading competitor only has two. We'll show you the deep-block Y-like engine design which enables Ford engines to take it.

Now—what you've been waiting for. How can you save hundreds of dollars by taking a Ford Test Drive?

Simply by proving to yourself that there really is a fine car in the low-price field.

You see, the reason a Ford does not cost hundreds of dollars more than it does, is Ford's huge production and the huge volume which we Ford Dealers sell.

There are many cases where "medium-priced" cars claim to be priced within a few hundred dollars of Ford. Remember, however, these prices are usually arrived at by comparing their lowest-priced models—stripped—with Ford's most expensive models that include all of the comforts of driving.

But enough of this talk. Come in. And you do the driving and the talking. Bring the family, too.

**FORD**  
goes first

**NOW!** A FORD with AIR CONDITIONING costs less than many medium-priced cars without it. TRY ONE TODAY! Based on a comparison of suggested list prices.

It was suggested that State regulations be followed in connection with the organization of these classes and that pupils who have reached the age of 6 on or before January 1, 1957, be admitted to these classes after approval by state authorities. The board took action to approve the writing of a communication to the State Roads Commission requesting controls be provided at the crossing of Routes 32 and 26 in Eldersburg. This action was taken to more adequately insure safety in transportation of school children at this location. The board was visited by a delegation of interested citizens accompanied by Attorney George Washington Williams, from Baltimore. Mr. Williams presented to the board his opinions regarding integration policies now in operation in the Carroll county schools. The superintendent was directed to continue his efforts to secure an adequate and competent staff of teachers for all schools in the county. An announcement was made that the first general meeting for new teachers would be held on August 29th and that a general meeting for all county teachers for professional purposes is scheduled for August 30th, at 9 a. m., in the new North Carroll High school. The meeting on Wednesday, August 29th will be addressed by Miss Dorothy Shires, Supervisor in the field of Pupil Personnel in the State Dep. of Education. The meeting on August 30th will be addressed by Dr. Chester T. McNeerney, Penn State University. Citizens are invited to visit the meeting with the teachers on August 30th. All schools in the county are expected to open on September 4th. Bus routes in operation during the past year will be continued except where changes are indicated for the convenience of pupils or more adequate educational service. Few changes, if any, to bus routes are planned at this time since it is believed that existing routes cover the county rather adequately. WHAT PEOPLE LIKE IN TODAY'S MUSIC!
