There will be a service each evening Monday through Thursday at 8 p. m., with Pastor Reitz talking on the following: Monday, "God's Ceaseless Search", Tuesday, "Home Again"; Wednesday, "It's Great to be Alive"; (Continued on fifth page)

THE E & R CHURCH ADVANCE PROGRAM

The Every Congregation Visitation which is now taking place in the Evangelical & Reformed Church is a denomination-wide project whereby teams, consisting of two persons—a minister and a layman-recruited from within the synods, visit every congregation, both large and small, for the purpose of interpreting the Advance Program.

The Advance Program presents a challenge to every congregation to lift its sights and to enlist its members in the support of an aggressive and forward-going program. The Church is God's instrument in our world, working for the redemption of men and the salvation of their souls. The Advance is not "just another financial campaign". The Every Congregation Visitation is an effort to help people to understand the true nature of the Church and to make all conscious that they have stewardship to declare and a mission

In the visitation to the congregaion a color film, "A Stranger Returns" is shown. It points up how much needs to be done by the Christian Church both at home and abroad. It is the story of a missionary who, after 5 years in Japan, returns to the United States—a changed land and he is amazed by the changes that have taken place, which to those who behold them every day didn't seem so significant. Also a film-strip, Christ Calls To Faith And Actionwill be shown. It reveals how the Advance was begun and authorized and what it entails. It is a true picture of the on-going program of a

YOUTH KILLED

Victim with Companion Struck by Train

One Taneytown youth was fatally injured and another sustained severe injuries Monday when the automobile in which they were riding was struck by a Pennsylvania Railroad work train at a county road crossing about

a mile north of Taneytown.

Rodney Barnhart, about 17, of Taneytown, RFD 1, died in the Annie Warner Hospital in Gettysburg, Pa., of a fractured skull at 11:24 a. m., less than three hours after the acci-

Howard F. Klein, 19, also of Taneytown, RFD 1, was reported in satisfactory condition at the hospital. He sustained a lacerated scalp, mild concussion, contused right kidney and

and other injuries.

State Trooper Paul Hahn, who made the investigation, said the 1948 Chevrolet sedan operated by Klein was proceeding west on the Angell road and started over the grade crossing directly in front of the train, composed of an engine and several gondolas, with crane on back. The

The Harford County School presented a delightful concert last week for the Hungarian Relief for the price of \$1.00 a ticket and there were 2,000 tickets sold! There was a 'round the table discussion' with refugees from war-torn Hungary and refugees from war-torn Hungary and the interpreter was the wonderful pianist, Miss Susan Dorogi (the daughter of a prominent doctor in Harford County who also has a studio in York, Pa.) It was a most interesting program from the very beginning. Miss Dorogi has truly a style and personality all her own sitting at the piano. The selections which she played were Beethoven's Sonata in C Major and Chopin's Revolutionary Etude. She also accompanied other numbers. WEEKLY NEWSPAPERS, FAST-EST-GROWING PUBLICATIONS IN THE U. S., SHOW INCREASING EDITORIAL AND ECONOMIC VITALITY, TIME SAYS

NEW YORK-Weekly newspapers today are the fastest-growing publications in the U.S., Time says in a special report in the current (Feb. 4) issue out this week.

"Metropolitan newsmen who daydream of retiring to a country paper have long viewed weeklies more as a retreat than as an influential segment of the press," Time says. "But with the swift growth of suburbs and small towns since World War, II, weeklies have largely shed their cracker-barrel ways, developed sophistication and a new sense of mission."

Weekly Newspaper Representatives, Inc., last week reported that 8,478 weeklies in the U.S. in 1956 reached a paid circulation peak of 18,529,199, up 6.5% over 1955. Estimated gain for the 1,700 dailies (total circ. more than 56 million): about 2%. Advertising in weekies increased 1.2% to a record \$112 million; this includes a 30% jump to (\$25 million) in national ads since 1954 vs. an estimated 10% gain for dailies.

"The weeklies' resurgence reflects editorial as well as economic vitality," Time says. "In addition to relaying the back-fence chit-chat on which weeklies have traditionally thrived, the papers are the only interpreters and watchdogs of local governments in hundreds of U.S. communities, whose problems, aims and achievements go largely unrecorded in the metropolitan press."

According to one editor, weeklies "are giving back the home town" to suburbanities who have lost contact with community responsibilities. In many areas, fast-growing suburbs have produced weekly and semiweekly chains that are as slick in appearance and informative in content as their city cousins.

"Even outside metropolitan areas," says Time, most small-town weeklies -have thrown out the smudgy type and pumpkin prose that once characterized the weekly press, now run staff-written stories and editorials instead of the boiler-plate and canned sermons that once crammed country papers. The old-time jack-of-alltrades country editor has been largely supplanted by trained staffs. Lured out of the cities by the prospect of editorial and economic independence, trained newsmen in increasing numbers are bringing professional standards to weekly newspapering."

Though once renowned for their timidity, many weeklies have developed the crusading spirit that has vanished from many a fat-cat daily, Time notes. "In the South many weeklies have consistently taken a more liberal stand than the region's big dailies on the touchy desegregation issue.

"Since weeklies are closer than dailies to readers and advertisers and more vulnerable to the pressure of advertisers, they are often hit by economic boycotts. But few editors cave in under such threats-or worse. In Granite City, Ill., after Editor Cornelius E. Townsend had waged an editorial campaign against organized gambling in the community, a hoodlum recently emptied his revolver into Townsend's Press-Record office, Echoing many a fighting editor before him, Townsend said: Maybe they'll scare "H" out of me someday and I'll quit. But I don't think so.'

GRASSROOTS OPINION

DILLION, S. C., HERALD: "The television giveway programs get bigger and bigger. Successful contestants get richer and richer. Perhaps one of these days we'll be able to get the Secretary of The Treasury on such a program and pay off the national debt."

LEESBURG, FLA., DAILY COM-MERCIAL: "Up to now, railroads have been barred from any combinations. Regulations of government, they have had to struggle along in a tough competitive period without the lift other corporations have had. Recently, however, rumbling started which suggests that key lawmakers in Congress might take a different view and allow the roads some ventures afield, into airlines, trucking, barge lines and even pipelines."

BACK THE ATTACK on Traffic Accidents

'Henry says it's safer to wear something white when you walk at night, and that old costume was all he could find."

THE FOURTH DIMENSION

The Fourth Dimension is a part of God's plan Not as yet, fully, understood by mortal man; But, Jesus knew about the invisible side of life, they say, So, He often spoke of it before He went away.

"If a man hath ears, Jesus said, let him hear"; By that He meant God's words are clear; And, those words were meant for all of us, it is said; Jesus spake of the living, not of the dead.

Our scientists have at last discovered the truth Do not compare with God's great plan— They were only the ancient beliefs of man in our early youth

As you unfold your Spiritual nature you shall find The whole organism of man is controlled by mind; So, every word which from others we hear Is heard by all of the organs as well as the ear. We see and hear with the mind, they say-Mind works in the body from day to day; So, because Jesus knew of God's great plan It made of Him what we call a superman.

Jesus knew exactly how conditions shall be When we go from Time to Eternity; So, God sent Him here to let man know That he must be made perfect here below. That he must be madet perfect here below.

So long as our ears are tuned to materiality, they say, We shall not know God, nor go His way; For God is not a man, as the ancients have said; He is a God of the living, not a God of the dead.

The great trouble is men don't know of God's plan; They think their body is them, that it is the man; But, the body is only a machine, experts say, Which man must operate from day to day.

So, the great need of the whole human race to-day Is to know God as Jesus knew Him, they say; Jesus knew God just as well as I knew you, So, He always did what He told Him to do.

"God is Spirit"; you, too, are a Spirit being, they say, So, the real you is like God, in every way; How He lives in us, we don't understand; But, that is how we find things all over the land. Paul says: "God is in us, through us, about us all; So, He is the Life of all mortals—great or small; That He is the ether of soil from which we grow

Is another secret about which we do not know. Jesus compared God to the soil of the earth From which all vegetation gets its birth— First the blade, then the ear, the grain in the ear, Just so it is with us all down here.

God is closer to us than our hands or our feet; Without Him it is said, man would not be complete So, were it not for Him these bodies of clay Like some of the insects, would not lose a day. Jesus also taught that man is the light of God;

He is His only representative on the sod; Without Him God would be deaf, dumb, and blind; So, there would be no such thing as creative mind. Have you ever thought you were God's eyes, mouth and ears, That, what others say, through you He hears! The scriptures also tell us that we are His hands; So, it is through us He carries out all of His plan.

These are things all peoples should know; For God is the Life of al lthings which grow; So, we see Him—no matter where one goes In the giant oak and the tinest rose.

The chemist can make a grain of wheat Which looks like the ones we daily eat; But, if you plant it, it will not grow; For God is not in it, to make it do so.

So, everything which on earth, I see The physical body of God, is said to be; He is also a part, they tell us, of you and me For in His likeness man is said to be.

PURINA SUPER STARTENA SWEEPSTAKES

Ten modern aluminum caged hen houses, each stocked with 1000 top-bred hens, will be given by the Ralston Purina Company to the 10 winners of the nation-wide sweepstakes which the company and Purina dealers launched early this year, it has been announced by the Taneytown Grain & Supply Co., local Purina dealer.

The sweepstakes is open to any adult who is planning to start chicks in 1957, except employees of feed manufacturers and dealers and their families. Entrants will fill out entry blanks and take or mail them to Taneytown Grain & Supply Co., local Purina dealer who in turn will send all entries to Purina headquarters. Entry blanks will be available at Taneytown Grain & Supply Co. eytown Grain & Supply Co.

After the contest closes March 16, a drawing will be held in St. Louis, at which time 10 entries will be selected out of the entire group by Don M. Turnbull, Executive Secretary of the American Poultry and Hatchery Federation. The persons whose names are selected will be the winners.

Purpose of the sweepstakes is to establish more topfight caged-hen operations in different parts of the country, according to Taneytown Grain Supply Co. The caged hen method of producing eggs has been spreading rapidly in both warm weather and cold weather areas. In this system, hens are placed in individual cages which they never leave until after their productive days are over.

CURRENT EVENTS FIFTY YEARS AGO

The entertainments given in the Opera House here, on Wednesday and Thursday evenings, Feb. 13 and 14, by Pearce & Scheck, of Baltimore, were exceptionally good.

Pancake Day. Tuesday was "Shrove Tuesday." or "Pancake day" and the old custom of baking pancakes, fatcakes or tanglebreeches, was no doubt as fully observed as usual on that day. Especially in south Marythat day. Especially in south Maryland and on the Eastern shore is it necessary that pancakes form part of the menu for that day, for without them one loses all hopes of having any "luck" with chickens during the

summer.

Frizellburg.—The "ground hog" is a poor prophet, and ought to be banished from the country.—An entertainment will be held in the hall, on Saturday night, Feb. 23rd. The attractive features will be a drama in three acts, entitled "Tompkin's Hired Man," and a comedy entitled "Aunt Susan Jones". The program will be interspersed with vocal and instrumental music, tableaux, etc. Proceeds for the benefit of the public school. Admission: 10c; reserved seats, 15c.

45th Anniversary Dinner. On Saturday, Feb. 8th, a very pleasant event, the 45th wedding anniversary of Mr. and Mrs. Samuel Weybright, was celebrated at their home in Detour, Md., by the gathering of all the children and grandchildren.

There are two opinions in Taneytern as to our public school proper.

children and grandchildren.

There are two opinions in Taneytown as to our public school property. Both desire a larger and better building, with high-school facilities, but the one side favors the present location, with an enlarged and improved building, while the other is in favor of selling the present property and erecting an entirely new building in the outskirts of town. Those in favor of the present location seem to be largely in the majority.

A very fine program of music was presented at the Elmer A. Wolfe PTA meeting on Monday evening. I am not the only one requesting a repeat performance on the musical story of "The Three Pings' 'when there are many many more little ones present. Following the program Mr. Kanowicz spoke on "What's the Answer to the Teacher Shortage." A booklet "Next Step in the 5 year program for Maryland Public Schools" was given to each adult present After explaining step in the 5 year program for Maryland Public Schools" was given to each adult present. After explaining the details of the booklet, Mr. Kanowiscz referred to the "You Can Help" sheet. There are several bills to be presented to the Maryland Senate concerning this teacher shortage -everyone is urged to inform them-selves concerning these bills and then write to the State Senator and the delegates urging their passage. These delegates urging their passage. These bills are sponsored by the Maryland Congress of parents and teachers and the Maryland State Teachers' Asso-

ciation. It will not be too long before plans for the school which is to be constructed on the former Joy farm will be made. Parents and friends of the children in this school area should be interested enough to find out what should and what could be put into this new building. Investigate and inform yourself in this matter so that you will have an intelligent and reasonable idea of what should be included in this school. NOW is the time to

be up and doing about this matter.

Mrs. Maurice Wilhide and Mrs. Car rol Wilhide visited with Rev. and Mrs. Samuel Weybright, Detour last Friday. Mrs. Weybright is getting along very well since her operation. The Weybrights' daughter, Mrs. Norville Shoemaker was a helping visitor in

the Weybright home on Friday.

FEESERSBURG (A Voice from Carroll)

This is Maryland Clean-up Week. Every resident is supposed to make the place he lives as attractive as possible. The roads we travel and all public places we use should be treated with the same respect as we treat our private dwellings. Last year after a vigorous drive by civic minded groups and individuals the litterbug was made conscious of the mess he was making of our beautiful county and he restrained himself from using public places as garbage dumps. We cannot halp but retired. help but notice as we travel along the roads that there is still some educating to be done. Here and there the road side is marred by bags of cans and bottles. (Mostly beer bottles.) The litterbug habit has a deeper significance than just being a bad hous-keeper. It reflects lack of personal dis-cipline and a contempt for cultural blessings. It is born of the same germ that promotes vandalism and the disregard of the rights and property of others. The litterburg is also wasteful. Some of the money spent by the county to clean up roads, streets and public buildings could be spent toward new schools and more teachers, Every community large or small has a graveyard of discarded automobiles and farm machinery. These are not only distasteful to see but a blot on the surrounding land. Children must be taught by the example of their elders that each individual has a personal responsibility to his community. That this land of ours is only loaned to us for the time that we are here. That succeeding generations will either bless or curse us for the way we leave our heritage to them.

Last week a six year old boy was asked on a T.V. program to name the

greatest man who ever lived. Without hesitation he said: "Abraham Lincoln". There are very few who will disagree with his selection. Tomorrow we will celebrate Abe's birthday once again and without fear of contradiction we say that Mr. Lincoln is more popular today than he ever was. More words have been written about him than any other American. There seems to be no end to the Lincoln story. The trait that we admire most in Abe's life was the ability to never accept defeat as being a tragic thing, but rather a stepping stone to final achievement. A dozen times in his life he tasted the sting of rebuff in things he tried to accomplish. Even in love and marriage he knew bitter un-happiness. But his mind never believed anything but that in the end success would be his. And his firm spiritual faith soared high above the valleys of calamity. His life is a lesson to each of us who believe that every day of crisis is a prelude to doomsday. Mr. Lincoln believed that there would always be a tomorrow to cancel out the mistakes of today. Because human nature desires to hope rather than to despair, this example of Abe's life appeals to each new generation. His life is something to shape one's own by, because every individual wants to believe that eventually, success will come his way. And as we are told: "As a man thinketh

By way of the radio comes the news that a 500 gallon still has been found at Keysville. It just goes to prove that taxes can become so high on liquor that boot-legging becomes a profitable enterprise once again. The news sounds like a echo from prohi-

bition days in the twenties. We never know just how ancient we have become until something we casually say in a conversation brings a query from our teenager wanting to know what we are talking about. For instance the word "prohibition" and "tin-lizzie" doesn't mean a thing to the dating set. And when we explain exactly bright. It doesn't seem be-lievable that once a person couldn't buy liquor without breaking the law and that a Ford with four cylinders would excite people to the extent that they fondly gave it a nick name of 'tin-lizzie''. Stories like this make the teen-agers look twice at their parents and murmur' "Poor Mom and Dad. They must have had a frustrated childhood." Imagine having to ride in a four cylinder car!

For a long time we have been won-dering just how much it costs the community to send a child to school. Up until this week we have never been able to get any exact figures but through the help of a newspaper editor we now have some official statis-tics. In the year 1950 it cast \$197.63 per pupil to keep the schools operat-The officials tell me that since 1950 the cost has gone up twenty dollars each year so that in 1957 it is costing \$317.65 to educate each child. The average cost in the entire U. S. was \$197.69. The least spent on education by any state was \$74.57 by the state of Mississippi. The most expended was by the small state of Nevada. The people of that state and removed to the hospital. She was spent \$763.64 per pupil. In using a daughter of the late Wesley and these figures it must be remembered that Nevada has a small population in relation to the state of Mississippi and Maryland. Each of these two states have a population of about three million. Nevada has about 150, 000. Maryland is spending about the average of all states for education, but we ask: "Is average good enough

for such a rich State as ours?' No person may write interestingly and keep within the bounds of your beliefs. He must once in awhile go so far as to pleasantly shock you. The writer who tries to write nothing of fensive to anyone sooner or later finds himself writing hymns and the text of the Sunday School lesson; and then only children will read him because they fear if they do not they will be scolded. If a writer attacks an opinion I hold, he does not change it. He only succeeds in making me think more. So don't stop reading because an author does not write the way you think he should. Read every thing you can and if your beliefs are right they will stand the assault by writers with opposite views and you will be a much

wiser person. Uncle Pete, the family spendthrift, says: "Money isn't everything. But it's way ahead of whatever is in -Ruth Roelke

TRINITY MISSION CIRCLE

The Trinity Mission Circle held its monthly meeting on Wednesday evening, Feb. 13. The meeting opened with the singing of "Take My Life And Let It Be". Mrs. Wilbur Naylor read the scripture and offered prayer for the success of the Evangelism Mission. Kathy Jennings sang "Hark the Vesper Hymn is Stealing" ac-companied by Mrs. Dean Reindollar. Scripture was read and prayer offered by Mrs. Catherine Fritz. A vocal number entitled "Whispering Hope was sung by Misses Barbara and Rebecca Naill and Miss Myra Hess.

The topic, "Youth Serves In New Ways" was presented by Mrs. Mary Jane Smith. A very interesting film strip on work camps was shown by Mr. Merle Ohler. The society was pleased to have several Luther Lea-guers present. The meeting closed with prayer and the benediction.

A Thank Offering Service was conducted by Mrs. Mildred Jester and Mrs. Mary Alice Jennings. Mrs. Cora Cutsail, president, presided at the business meeting. Refreshments of coffee and cookies were served to the members and their guests.

MARRIED

OHLER-CROUSE

Miss Susan Crouse, daughter of Mr. and Mrs. Jack H. Crouse, Lit-tlestown R. D. 1, and Robert L. Ohler, son of Clarence Ohler, Emmitsburg, and Mrs. Margaret E. Ohler, Taneytown, were married Saturday at 5 p. m. in the Reformed parsonage in Taneytown. The double-ring ceremony was performed by the pastor the Rev. Morgan Andreas. The bride was attired in a navy blue streetlength dress, with navy and white accessories and she wore a yellow rosebud corsage. They were attended by Mr. and Mrs. Dewey Ingram, Littlestown R. D. 1. The matron of honor wore navy blue, with navy and white accessories and a red corsage. A reception was held at the Eagles ome in Littlestown for approximately 50 guests. For the present, the newlyweds will reside at the home of the bride's parents. The bridegroom, who recently completed four years service with the navy, is employed at Fishpaw's, Westminster.

STILL FOUND NEAR KEYSVILLE

Four men, arrested over the week-end in Carroll County, recently were arraigned in Baltimore on charges of operating an illegal still which federal agents said supplied whiskey to towns in Maryland., Pennsylvania

and Delaware.
Federal authorities raided the still Saturday night in a vacant farm-house near Keysville. They confiscat-ed 1,650 gallons of mash, 85 gallons of whiskey, a ton of sugar, half-ton of rye meal, ton of coke and 300 mason jars.

William L. Riley, group supervisor of the alcohol and tobacco tax division

of the Bureau of Internal Revenue. said it took a nine-man raiding crew six hours to destroy the 400-gallon capacity still. They finished their destruction at 5 a. m. Sunday. Monday four men from Cecil County, Md., were held in \$1,500 bail for a hearing Feb. 25 before U. S. Com-missioner Ernest Volkart. They were

listed as Joyce P. Sumner, 25. and Basil L. Sumner, 48, both of Rising Sun; Grover C. Hoffman, 25, North East, and Douglas B. McGlothlin, 21, Officially the men are charged with operating an illegal still and possess-

GELISM MISSION

The Keysville Lay Chairman of the Lutheran Evangelism Mission, Lloyd Wilhide, is getting his various committees for the Mission into their stages of preparation for the week of services, Feb. 24 thru March 1. The Prayer Committee, headed by Mrs. John Young, sent prayer booklets to each member family. On Sunday she urged the daily use of these booklets ,the success of the Mission is dependant upon the earn-est prayers of every one. Mrs. Ar-thur Clabaugh heads the music committee. She plans on having mimeo-graphed copies of favorite hymns from which the congregation will make a choice in the hymn singing part of the program. Mrs. Clabaugh has also planned some special numbers. Mrs. LaVerne Keilholtz is the organist with Mrs. Clabaugh as the assistant.

The first letter concerning this

Mission was mailed last week by the publicity committee to the members of the congregation and to neighbors and friends. Some of these letters may have been received by persons attending other churches if they did, we hope they will accept our congratulations upon their church attendance and accept our heartiest invitation to attend some or all of the Mission services.

Keysville Lutheran, like most of

the churches in this section, welcome and invite those of other denominations into the fellowship of these special services. It is the aim of this Mission to get all members of the congregation to attend church regu-larly, and to invite those who do not have a church home those who do not have a church home to unite with us or at least unite with a church of their choice. We are not out to get members of other churches to unite with the Lutheran church.

The poster committee, headed by Edward Coshun, has done some good work on posters. Joan Kiser made a poster on black cardboard using white the for pointing the letters.

poster on black cardboard using white ink for printing the letters. Irene Ausherman made a poster in the outline of the Keysville Church. Maria Steffen made a "Pocket Poster". Copies of pastor Hilton's sermon topics and the Bible References are in the pocket. It is recommended that each person prepare himself to receive the sermon of the evening by reading the scripture reference before coming to the service. Mary Helen Shibley made a poster in the form of an open Bible. The girls hope, as we all do, that these posters make everyone feel welcome to come make everyone feel welcome to come to these services. The posters are located in the Detour P. O, the Key, Grain and Feed Co., Detour, the Village Store and the Detour Garage.

Lay visiting will start on this Sunday, Feb. 17, after lay visitors have been commissioned in a special service. Everyone is urged to bring questions which will be answered in the service. the service. The question is to be written upon the blank card which will be handed to each person as he enters the church. The card need not be signed. More news of the Mission next week. COME.

Interested people are given an opportunity to hear and discuss the Christian faith and the Lutheran Church before making any decision. A pastor's class will also be organized to carry this through in further detail. Special music is planned for every service. The Nursery for pre-school children will be avail able in Room #1 during each of the services. However, those desiring to have their families worship together

are encouraged to do so. Following the service each evening reports will be heard from the Lay-Visitors and then Missioner Reitz will meet with various groups to discuss an ongoing program of evangel ism. KEYSVILLE LUTHERAN EVAN- SISTER-BROTHER UNITED AFTER FORTY-FIVE YEARS SEPARATION

(The following write-up appeared in The Florida Times-Union, Jackson-ville, issue of Feb. 6, 1957. Paper loaned to us by Mr. Pius Hemler.—

A brother and sister separated over 45 years—each unaware the other was still alive—are happily reunited in Baldwin, Fla., today because one of them spoke a word that hadn't passed his lips for nearly a century.

John David Shank, 74, has the look

of the pioneer about him. But like many a man who struck out on his own to new frontiers, Shank has moved in an aura of mystery in his adopted home town of Baldwin.

Where did John Shank come from? People wondered about him occasionally, thinking of his career. He came from "somewhere North" around 1916, planted roots, dug in deep and became a prominent dairyman in their town. That much the people of Baldwin knew. But John Shank would tell

them no more. Last week the near-40-year-old mystery was solved when Shank was re-united with his 71-year-old sister, Mrs. Laura R. Newcomer, of Taney-

They hadn't seen each other for over 45 years.

They had given each other up for

dead many years ago.
Yet strangely, it had taken little more than one spoken word to bring them together.

Shank, seriously ill in November, had asked a neighbor and friend, Mrs. J. R. Williams, to help him find any survivors of the family he had left in Maryland in 1912. Too weak to say much, Shank told Mrs. Williams the name of the town where he was help and the fown where he was help and the was help and the fo name of the town where he was born:
Woodsboro, Md.
With little more than that to go on,

Mrs. Williams got to work. She wrote officials in Woodsboro, who tracked down a nephew. The nephew contacted Shank's sister, Mrs. Newcomer.

It was one of the best Christmas presents Mrs. Newcomer ever had—

even it it did contacted. even it it did come three days before Christmas.

When she learned last Dec. 22, that her brother was alive but sick in a place called Baldwin, Fla., Mrs. Newcomer immediately began correspond-ing with Mrs. Williams, planning for a trip South as soon as it could be arranged

He built a home, outbuildings—including three poultry buildings, a dairy barn, milk house and milk cooling room. Shank's Dairy was producing milk from 65 cows and eggs and poultry from over 2,000 chickens. Working alone, Shank sold most of his produce in the community. And all the while his friends admired and

wondered about him. Mrs. Williams put it this way: "He worked hard—could do the work of three men-and everybody liked him. He did a lot for the community. But he never married, and though he'd talk about his childhood, he never said where he was from or men-

tioned his family. "When he got sick, there was no one to take care of him. He's got a big place and except for the neighbors pitching in, there'd be no one to take care of that, either".

Like a man who lived a long time alone and like it. Shank talked little, And he was tired. But when he looked at his sister,

his eyes lit up with revived hopes and yearnings. With no definite and yearnings. With no definite plans for the future, he was willing to sit and just enjoy being with his

The Board was advised of progress

being made in connection with the Francis Scott Key High School and devoted some time to a discussion of the problems connected with the planning of this school and its operation.

The Board devoted some time to a discussion of miscellaneous items con nected with the completion of the Mt. Airy School. Information was given by the superintendent, in connection with many of these problems. It is hoped that the new high school at Mt. Airy can be occupied and used as soon as possible after March 1. Items of adjustment remain to be resolved in connection with the com-pletion of the building and these items were referred to the superintendent and the architect.

The Board discussed at some length the adequacy of the educational program in Carroll County and directed that a publicity statement be re-leased to indicate the unmet needs in the local education program. It was the sentiment of the Board that such information will be helpful to those that are called upon to consider and discuss the school program and its scope. Copies of the release were directed to be sent to the newspapers throughout the county.

The Board was given a set of comparative statistics comparing the schools recently built in the County to enable them to arrive at judgment regarding the cost of school buildings in Carroll County and the comparison of said costs with school buildings both local and in other parts of the state. This analysis disclosed that the square foot cost of the buildings recently constructed in Carroll County is about \$10.00 per sq. ft. which is very low as compared to costs incurred by school authorities in other parts of the state. This information is available and the superintendent was directed to discuss this issue with anyone who met for the first time since 1912, felt interested in finding out the facts

The Board was given copies of the enrollment material and attendance material for the month of January showing a total enrollment for the month of January of 9,507 pupils. 5,460 of these being enrolled in the elementary schools and 4,047 in the high schools.

The Board was given copies of the results of the school census which had been taken during the early months of 1956 and recently tabulated in the Board Offices. These statistics indicated that a total of 14,358 chilnew frontiers inside the old.

The census was taken under the direction of the Personnel Department of the Carroll County Board of Education. The work was done by the teachers in the elementary schools. This was the largest number of school enrollees ever to be enumerated in a school census for Carroll County.

The Board took action to approve a calendar for the school year 1957-58 The Board gave attention to the consideration of transporation arrangements for the school year 1957. 58 and directed that careful study be given to the arrangement of transportation routes.

Approval was given for a number of miscellaneous eguipment for the various schools. The attention of the Board was

called to pending legislation including teachers salaries, driver training and other bills presently under consideration in the Md. General Assembly.

The superintendent made a brief report to the Board regarding the claims being submitted through pupil insurance plan and exhibited information to show that many injuries to pupils occuring at school or on the way to school were being taken care of through this insurance

The Board devoted a few minutes of the meeting to the inspection and examination of the quarters in the new County Office Building to be provided for the Board of Education and its personnel. It is hoped that the occupation of the new offices can take place early in the spring.

The Board was made aware of proposed legislation for the support of a public library in Carroll County. Each Board member received a number of copies of the new Annual Report of the Board of Education. This report was prepared through the cooperation of the schools and the assistance of Mr. Gerald E. Richter. Copies of this report were directed to be sent to the newspapers and to be distributed to interested personnel.

The Board approved the appointment of Mrs. Arlene Runkles as a part-time teacher of elementary music in the Mt. Airy School. Minor changes in the matter of holding the pre-school clinics for first-grade children during the spring

of 1957 were approved by the Board. Action was taken to approve a recommendation originating with the high school pupils of the County to the State Convention to the effect that under present condi-

tions it is felt unwise to sponsor trips for pupils in Carroll County which require remaining overnight at any place visited. After consideration of these recommendations the Board directed that a policy statement be made stating that beginning with the school year 1957-58, the high schools and elementary schools of the county are directed not to attempt to sponsor trips which requre pupils to re-main overnight at any place visited. The step was taken because of the difficulty presented in supervision of such trips and the safety and other factors involved.

Adjournment was at 3:30 p. m.

CARROLL COUNTY BEEF CLUB HAS MEETING

The Carroll County 4-H Beef Club had its first meeting of 1957, Thurs-day night at the Agricultural Center in Westminster. There was a good turnout of active members. The tion of officers for the year 1957 took place and the following were elected: president, Richard Ranoull; vice-president, Warren Seymour; secretary, Mary Ellen Stonesifer; treasurer, Michael Hull; and reporter, Harold

Suiter, Jr. Mr. Boyd Whittle, Animal Husbandry Department of the University of Maryland gave a very interesting talk on the topic of "Your Steer Project". It covered all phases from selecting the best steer calf, taking care of and feeding it, to show-ring preparation. A very interesting question and answer session followed. The club's next meeting will be April 15th and the discussion will be on livestock judging.

Family Project: Food 'N Fun

Cookies with the gay "glamour" treatment needn't take much of your time to prepare—and what a way to surprise the family! Your cookies can begin as simple vanilla wafers—buy some at the store if you haven't time to bake a batch. The big secret here is the way you can use candies (and your own good imagination) to decorate and dress up cookies—not just for parties, but for "everyday"—the whole business is that easy.

Cookies (make them or buy them) Frosting (boiled or packaged) Assorted candies for decoration—such as jelly beans, corn candy, chocolate-covered nuts and many others.

The children would probably love to get in on the "cookie decorating" fun, too, so make a family project of it.

Truth Is Alive

Lesson for February 17, 1957

LOW do you explain advanced mathematics to children who don't know what 2x2 means? Jesus had an equally hard time trying to explain what he meant by the Kingdom of God. (By the way, comparison of passages will show that Kingdom of "God" and of "heaven" mean just the

same thing.) nearly everything he said about it has been persistently misunderstood by somebody or other. Harder than explained a totally new idea is

A Definition

We can venture a definition of the Kingdom of God to which most persons will agree: The state of things in which God's will is wholly done by all men in all things. Many persons will agree to that definition; but it leaves several questions unanswered. One of these questions is dealt with in the parables chosen for this week's study. It is this: How does the Kingdom grow, or spread, or come? This is an especially important question if we understand that it is a part of God's plan to use his servants-meaning and including ourselves too-to help bring the Kingdom to pass, to bring it out of the world of hope into the world of fact and experience. Most churches sing the hymn: "Rise up, O men of God!" They do not sing the parody on it which begins, "Sit down, O men of God, you cannot do a thing!"

Not by Force But suppose we do rise up to work for the Kingdom, what shall

Good men have long asked themselves that question . . . and sometimes given wrong answers. Some have thought that the reign of God could be forced on men. So we have had the Crusaders, the Inquisition, the New England "theocracies". Calvin in Geneva and Cromwell in England-all working on the same theory: You can force people to do God's will. This earth can become like heaven if your police force is good enough.

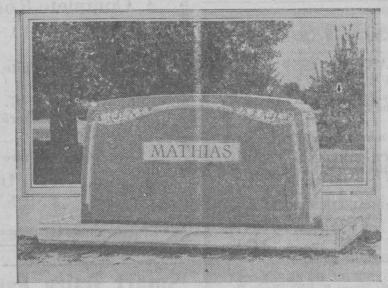

Not by Machines

But that never has worked. It can't work, because the Kingdom of God is not that sort of thing. So, other good but mistaken men have supposed that the way the Kingdom spreads abroad is by a copying system of some kind, let us say by a vast mimeographing machine. Some particular person, or period, or institution, is taken as the absolute pattern, and people are encouraged to imitate it to the last detail. For example: the early Christian church, as described in the book of Acts, is taken by some people as the picture of the ideal church, and allchurches (it is said) should be as nearly exact copies of it as is possible. Or the social and political organization set forth in the laws of Moses are taken to describe the ideal state, and we today should imitate that if we want to get the perfect society. Or some ancient saint is taken as the exact model of every one who wants to be a good person. But these notions are all off center. No world and no institution and no age or system in the past was perfect even for that day; and when you take something that was imperfect yesterday and try to make it fit today, the result is more imperfect

The Kingdom Is a Living Thing

Jesus' parables show how the Kingdom of God really spreads and grows. He called it once a kingdom of truth; and truth is a Living thing. Truth cannot be forced upon people. Mere copying of truth is mechanical and may even be meaningless. Truth grows the way a plant does, the way yeast does in dough; silently, steadily, by the sheer power of the life that is in it. But since the Kingdom of God is made up of people, since the truth of Christ is not one to be read about but one to be lived out, the Kingdom, of God, the world of his heart's desire, comes into being by the personal touch of life on life. Truth spreads from pole to pole only as it spreads from soul to soul.

IS STRONGER ECONOMICALLY **BECAUSE OF** U.S. SAVINGS BONDS

Take a look around our town! Don't you see all the signs of a strong economy? How about that mechanic down the street who just opened his own garage, the neighbor who's sending his son through medical school? How about all those homes that are being started and those bright new cars that are parked in front of our town's bustling stores? Things look pretty healthy, don't they?

Do you ever stop to wonder how much of this prosperity was made possible by U.S. Savings Bonds? Not just because they helped our country through an emergency either. Although that's part of it.

An even more encouraging fact is that all over America more people are saving more money, purposefully, than ever before in the history of the world. Today, more than 40,000,000 Americans own more than \$41,000,000,000 of cash savings—in U.S. Savings Bonds! They're one of the world's safest, surest investments. Your Government guarantees the principal of U.S. Series E Savings Bonds-up to any amount -and the rate of interest you receive.

Payroll Savings is the easiest way to save!

One of the reasons so many people are reaching their savings goals with Bonds is the Payroll Savings Plan. It's a sure-fire way to steady savings because the money is saved for you-automatically.

You just sign the authorization card in the payroll department where you work. Sign up for any amount you wish-a couple of dollars a payday or as much as you can spare. And when enough has accumulated, it's automatically invested in a Series E Savings Bond in your name and the Bond is turned over to you.

Then your savings really go to work—building up a backlog of security for you and your family. And adding to the economic well-being of our town and our country! If you haven't already signed up for the Payroll Savings Plan, why not do

FROM MEMBERS OF CARROLL
COUNTY DELEGATION IN
THE GENERAL ASSEMBLY
by Sherman E. Flanagan, Senator

School Board seeks new \$10,000,000 Bond Issue. No, this is not Carroll County, but it is the headlines for Anne Arundel County. I know they have more people to pay taxes, but the typical family does not pay its own way. It takes industry and they are crying for more of it. A family moves to Anne Arundel County with three children and pays \$200 in property tax. The children attend school at a cost of \$1000, deficit \$800. Now this is no sin or crime. It is just a statement of fact.

Of course, the same situation exists in Carroll County but not to the same extent as it does in the counties around Baltimore and Washington. What we need is the proper mixture of more citizens and industry. One will help to compensate for the other. If you can, help the chamber of com-

merce to maintain this balance.
ROADS. Three evening meetings were held this week with the State Roads Commission in an effort to understand the progress of the 12 year derstand the progress of the 12 year program that was started several years ago. They outlined the increased cost of the program which jumped from the original \$568,000,000 to \$885,000,000. Engineering costs have gone up 20 per cent, construction 24 per cent, and rights-of-way 61 per cent. Practical lessons in inflation. Every time wages go up, products rise and that calls for higher wages which ups the merchandise again, and so it ups the merchandise again, and so it goes. If it were not for the labor savings devices and modern equipment it might be worse for construction.

Federal aid under the present formula would give Maryland \$296,000,000 over the next thirteen years and on-a-needs basis it might be more. In Western Maryland it was shown that Federal funds would increase the cost of the highway many times over. It would be a much better road under the revised specification required to receive government aid.

State revenues have greatly increased over estimates made prior to the 1953 act, but costs have more than outdistanced the increase. So, now it seems that we have several methods to choose from: 1. Wait for our roads. 2. Borrow more and pay later. 3. Raise more money by increased taxes. 4. Toll roads. Take your choice. It is a hard decision.

Frederick County has appropriated

\$7500 for a junior college where in-structions are to begin in September. High school facilities will be used in the late afternoon and evening. Some of the instructors will be taken from business and industry on a part-time basis. The student will pay \$150 a year which will be matched by the County and the State will pay another third which should suffice. Washington County has had similar courses for ten years and is working very nicely The enrollment is 341 this year. It brings higher education to the youth who wants to stay at home and receive an education cheaply. Later many transfer to other col-

leges and pniversities where they qualify for the professions.

The theory is that in the next ten years, college enrollment will double and the present institutions of high fearning will not be able to expand fast enough to absorb the increase. But if local junior colleges can take over the first two years, the present per years of college work, and there-by meet the challenge on the expand-

ing population.

The final report on the legislative weeks by the Automobile Club of Maryland has this to say. The results show that the motoring public is overwhelmingly in favor of driver education in the public high schools, a chemical test to determine intoxication of drivers, increasing the State Police by a minimum of 80 men, compulsory insurance, car impoundment pulsory insurance, car impoundment of uninsured vehicles involved in accidents, and roadside protection. Each of these received a majority of 84% or better. Roadside protection and car impoundment are uppermost in the minds of the public, as evidenced by each polling 94% of the vote. Re-examination of drivers was evenly

THE SELF-EMPLOYED FARMER'S TAX REPORTS WITH THE 1956 CHANGES IN OPTIONS

A revised optional method of reporting earnings from self-employ-ment as a farm operator for taxable years ending on or after December 31, 1956 was jointly announced by Franklin M. Barnes, District Manager of the Baltimore (North) social security office and the District Director of Internal Revenue.

The District Director of Internal

Revenue pointed out that self-employed farmers who keep books on an accrual method and members of farm partnerships can now also use the op-tional reporting procedure.

The revised options are as follows:

(1) If your gross income from agricultural self-employment is not more than \$1800, you may count as your net earnings either your actual net or 2/3 of your farm gross in-

(2) If your gross farm income is more than \$1800, and your net farm earnings are less than \$1200, you may use either your actual net

or \$1200;

(3) If your gross farm income is more than \$1800 and your net farm earnings are \$1200 or more, you must use the actual amount of your net

The District Director of Internal Revenue added that this new method will enable farmers with gross income as low as \$600 to obtain social security protection for themselves in their old age and for their survivors in case of death. However, he emphasized that whichever option you choose, you must have net earnings of at least

\$400 in order to get social security credit for the year.

In addition to the revised optional method, the 1956 amendments extended social security coverage to farmers who receive cash or crop shares from tenant farmers. This income, form-erly excluded as rental income, may be reported for social security purposes if the farm-landlord under his agreement with his tenant, materially participates in the production of the farm crops. This provision is

effective for taxable years ending af-

Requests for information regarding tax return forms and taxes due should be directed to the Internal Revenue Office, Baltimore 2, Maryland. Ques-tions concerning benefits payable under the Social Security Act can be answered by your social security of-fice at 3107 Greenmount Avenue, Baltimore 18, Md.
