MARYLAND LEGISLATURE Sen. Flanagan Tells of Happenings in General Assembly

Legislation in the various States may follow a certain pattern. A law in the South may not adapt itself to popular acclaim in the North or West. Many of our laws and customs followed us from the old country and may be colored by our nationality or relig-ious beliefs. The people from West-ern Maryand have a hard time under-standing the plight of the watermen of the eastern shore and they in turn have little interest in coal mining. However, a proposition as universal

as the education of our youth is understood from the shores of Wicomico to the mountains peaks of Garrett. The interest displayed in this field proba-bly transends that of any one field in our state. America is committed to the education of everyone capable of absorbing same. To meet the problems of an advancing society the best minds of the country are taxed to their limit and they will tell you they are not always right. We try and then try again until we feel the proper method will achieve the best for the most.

a professional magazine, published by the teachers of the state. They have followed the legislation of this session and with their permission I would like to pass it on to you. A summary of these measures and resolutions af-fecting public education, follows: Sen-ate Joint Resolution 5 requests the State Department of Education to expand its progress for the recruiting of teachers. S.J.R. 6 The State Department of Education and the University of Maryland are requested to study the possibility of offering spec-ial courses in teaching methods to prepare liberal arts graduates, who not major in education, for teaching in the public schools. S.J.R. 7, under the terms of this resolution, the State Department of Education and the local boards of education are asked to study the possibilities of giving formal recognition of meritorius service per-formed by public school teachers, S.B. 11 and H.B. 6 provide state funds for 11 and H.B. 6 provide state funds for special education and training of handicapped children under six years of age. S.B. 162 and H.B. 154 call for an appropriation of \$68,000 for new salary schedules at the five state teachers' college. S.B. 164 and H.B. 156 gives \$1,705,000 for capital improvements at the state teachers' colleges. S.B. 307 & H.B. 253 would impliment the recommendations by the State Board of Education to increase the state minimum salary schedule for the state minimum salary schedule for teachers by \$800 over a two-year per-iod. House Joint Resolution 3 re-quires the Board of Trustees of the State Retirement Systems to study State Retirement Systems to study the procedures for making payments to dependents upon the death of a member of the system. H.J.R. 8 would make it possible for the State Department of Education to increase the pupil-teacher ratio to provide driver education course in all Maryland high schools. And H.B. 7 would give aid to this project. H.B. 32 would extend the provision which grants retirement credit for teacher while they tirement credit for teacher while they are in the armed services. H.B. 33 strengthens the requirements which a contractor must observe in constructing school buildings. Since this list has been prepared there are others that have been introduced and there are more to come. Some of these will be modifications and duplications, and may only serve to complicate the legislative processes. A few of the above bills and resolutions have been passed while others must wait for the budget to be cleared. We are limited for space in this column, so, if you wish additional information about theme measures please write us at An-

JAYCEE COMMITTEES ON BROOM SALES MEET

Tuesday evening the profit making and publicity committees of the Tan-eytown Jr. Chamber of Commerce met at the home of Harry Dougherty, Jr., to discuss arrangements for the broom sale to be held March 29 for the purpose of raising funds to carry on the good work of the Jaycees. This sale is of great importance to the Chamber for it not only provides funds to work with but also gives the members an opportunity to work together for a good purpose. That purpose is community betterment.

Five hundred of the best quality brooms have been ordered. These brooms are a good investment, not only as a necessity around the house but as a helping hand in the future Jaycee projects in our community.

The brooms will be on sale for one night only when the members will visit every house in Taneytown. An added attraction will be to award a cash prize of five dollars to the lucky person who will purchase the one marked broom out of all five hundred. Only the one Jaycee who marks the broom will know how it is marked until after the sale is over. There will then be a notice posted in the paper telling the people who purchased brooms how to find out if they are the owners of the lucky one. The brooms will sell for only \$1.50.

LUTHERAN EVANGELISM MISSION A SUCCESS

24 Lutheran Congregations in Carroll County Participated

Following a week of intensive activity, leaders of the Lutheran Evangelism Mission in Trinity church, Taneytown, as well as Lutherans throughout Carroll County report a highly successful Mission effort. At-tendance at the services was excellent and in spite of the ice storm which made conditions very hazardous Thursday and still disagreeable for the Friday evening Rally, total attendance at all services in the attendance at all services in the County climbed to over 20,000. Total attendance in Trinity for the six services was 2,509, for an average of 418 per service. Taneytown was also well represented at the very inspir-ing Closing Rally Friday night, and heard the splendid message by Dr. Harold Albert, of Pittsburgh. The 24 participating Lutheran congregations I quote from the Maryland Teacher, of Carroll County were under the leadership of Rev. Dr. Francis Myers, Regional Director of the U. L. C. A.'s 2 year Evangelism drive.

Trinity's church council and standing evangelism committee met with the Mission Committee chairmen Tuesday evening for a careful eval-uation of the results of this concen-trated effort. Needless to say, they are happy with what was accomplished by the men and women who worked so diligently and willingly to put their faith and beliefs into action. It seemed to be the consensus of opinion of every person involved that this was indeed the most glorious experience and the grandest display of complete cooperation by a whole congregation, ever experienced here. Individual credits cannot be given by this report for the list would include many, many names and omissions might be numerous. In fact, every one who gave their support and prayers had a share in the success of this endeavor. It was pointed out many times during the analyzation that everything was planned and pre-pared exactly as outlined by the Unit-ed Lutheran Church and certainly ran smoothly on schedule and thoroughly to the satisfaction of all concerned. Rev. Phares O. Reitz, who was the guest missioner, was cited for his

splendid messages, inspiration, and The unofficial reports given Trinity's committee show that that 59 men and women put into action their belief of "the priesthood of all the Sunday School auditorium. Anyone is welcome to attend these classes. Nine people expressed a desire to transfer membership from out-oftown churches and a number of candidates for Christian baptism were listed. Official statistics of the results of the Mission in the County have not been released by the Central Committee as yet, but will be published as soon as they are given to the press.

Trinity congregation's standing committee on evangelism, under the chairmanship of Mr. Glenn Bollinger is laying extensive plans to continue an on-going program of evangelism. These plans were explained and discussed by the group and several recommendations made. Two of these recommendations, one providing for a twelve-member committee and the other authorizing the zone system within the parish, were later approved and accepted by the Church Council. It is the hopes and prayers of everyone that the spiritual effects of this mission will be felt for many years to come, and that it will result in long-lasting interest and continuing reaching, preaching and teaching of the Christian faith in this community.

WORLD DAY OF PRAYER FOR BOYS AND GIRLS

Final plans are being completed for the first community World Day of Prayer Service for boys and girls, 6 to 14 years, in the Parish House of Grace Evangelical and Reformed Church. March 8, 1957 at 4:30 p. m.

The theme for the service is "For all His Benefits to us". Mrs. Stanley Jennings will bring the message. Special music is being provided by the Junior Choir under the direction of Miss Margaret Shreeve. They will sing "Steal Away" and "The Vision of My Saviour" with Dennis Baumgardner and George Rue as soloists. Church School teachers are urged to attend with their classes, so that the boys and girls in our community can clasp hands with other boys and girls and adults, too, the whole world round on this one day set aside for Prayer, the first Friday in Lent, an-

The offering from the service wil be sent to the National Council of Churches to be used for missions.
Mrs. Ellsworth Lambert is in charge of the arrangements for the service.

IF FIRE STRIKES

What would you do if fire destroyed your house?

There is a superficially easy answer to that question. You'd take the insurance money and rebuild. It would be a nuisance, of course, but you wouldn't be out of pocket.

The trouble with this idea is that, in a vast number of cases, it simply isn't true. Legions of homeowners think they are adequately insured against fire and related hazards when they think about the matter at all - - but the fact is that their coverage is woefully inadequate.

A simple statistic tells the story. Since the end of the war, government and other tabulations show, average building costs have just about doubled. That is generally true of practically everything inside the walls of a house - - furnishings, clothing, appliances and so on. Yet, according to insurance studies, a great many people have unwittingly failed to increase their coverage to compensate. If fires strike, in those cases, there simply won't be enough insurance money to

begin to pay for rebuilding. The remedy for the individual homeowner is to consult with his local professional insurance agent or broker. This man knows values and costs, and he knows just how much insurance each of his clients should carry. And he knows how to fit a fire policy into the total insurance pic--Iudustrial News Review

A LOCAL BUSINESS

Ever since the federal minimum wage law came into being, certain service enterprises, retailing among them, have been exempted. Periodically efforts have been made to extend the law to retailing, and that is the case again this year.

The reasons for the retail exemption are sound, and nothing has happened to change the situation. For one thing, retailing is a local business, governed by local needs and conditions - - including local living costs. It is obvious that a blanket law, covering the great cities and the little towns indiscriminately, cannot be just to all.

For another thing, retailing is a business which can provide jobs and training for marginal workers whose value is very small. If a high federal minimum wage is imposed by law, retailers will have no choice - - they will pare that kind of employment to the bone. Then beginners will look in vain for the jobs which would help prepare them for future positions requiring skills and offering good pay.

It has been proposed that the minimum wage law be extended to cover only the larger retailers, such as the chains. But this begs the issue. For, to repeat, retailing is a 100 per cent local business - - and an outlet of the biggest chain must still compete on the local level, and adapt its operations to local conditions in every re-

Congress, recognizing such facts as these, has always refused to eliminate the retail exemption. In that, it has set an excellent precedent for the present and future.

Speak Up for 4-H

Nellie Dorsey

Outstanding performance in the 4-H Public Speaking program brought top state honors for 1956 to Nellie Dorsey, 17, of Sykes-ville, and Ralph Adkins, 18, of Delmar. This marks the fifth year that the Pure Oil Co. has upported the program and provided awards.

Nellie won the state contest with her speech, "What is 4-H Club Work?" Past president of her Club, she gave numerous talks to 4-H and other groups. She also took part in various church activities. Her state award was a beautiful set of sil-

verware in a handsome gift box. Ralph achieved leadership and confidence by appearing before audiences and on the radio 13 times. He presided over and gave reports at several meetings in addition to numerous talks. He was junior leader and group leader in his local 4-H Club. As state winner he was presented

with a 19-jewel wrist watch.
The 4-H Public Speaking is one of many national 4-H awards programs directed by the Extenon Service of the University of Maryland with the cooperation of the United States Department of Agriculture.

STUDIO ONE TO PRESENT PLAY ON RETARDED CHILD

A retarded child will be the central figure in an hour-long television drama, "A Child Waiting", on CBS' Studio One March 11, at 10 p. m.

Abby Mann, author of the play, said the play will be a fictional account of a sensitive and loving little boy who is being well cared for in a home for re tarded children.
"Conflict arises when Jean Horst

an attractive young nurse with a great deal of compassion, but little training with retarded children, comes to work

"Her belief that the boy should be spared from facing life is in sharp contrast to the views of the director of the home, who employs the more stringent methods of training children

to reach their optimum."

Mr. Mann has visited three residential schools to gather material for his pay, and has talked with teachers, administrators, and pupils at all three. He has also received source materials from the NARC.

"I never approached a subject with more humility and a greater wish to do justice to it than I have this script about a retarded child." Mann said.

An unusual air of solitude has engulfed Merry Knoll and its inhabit-ants these last few days. Something has been missing that generally keeps everyone on their toes both physically and mentally. Mike, normally a happy dog, meets the school bus with tail wagging in anticipation of seeing a well-loved mistress step off, but the bus doesn't even stop and in their honor. We wish the bus doesn't even stop and in the bus doesn't even stop and i Not once in five days have we heard Elvis on the record player pleading with someone not to be crool or some other crooner whom we do not know singing about clipping some butterfly's wings. Neither have we heard the sound of gunfire by way of T.V. signaling the fact that Wyatt Earp has just rid the West of another bad man. The refrigerator's food supply seems to remain in a status-quo condition since someone isn't here to raid it five or six times an evening. The cows at milking time are restless for they are used to being entertained by a tempermental milkmaid who practices her scales while she juggles the milkers. The Mercury is developing arthritis in its ball-joint suspensions because it doesn't get its daily workout while mother and dad are becoming pretty bored with so much peace and quiet. This state of affairs has come about because one teenager took off on a five day trip bound for Atlantic City with about 800 other boys and girls to attend a music conference. We know they will have a wonderful time meeting students from so many different schools with so many different ideas. And the parents will gain too from the trip. For they will be told how their own teenage son or daughter got along with others and whether their home training was an asset or liability in their first venture into a strange adult world. Maryland's Medical Society is urg-

ing doctors to lower their price for giving polio shots. It figures that three dollars is reasonable since the vaccine costs about a dollar. Many doctors have been charging five al-though we understand that here in Carroll most doctors charge three. To the parents with large families the serum should be given at cost. We notice that the Hungarian refugees are being given their innoculations free. Surely we can do as much for our own citizens who cannot afford to pay as we do for strangers. We

believe that charity begins at home. Samuel Taylor Coleridge says that there are four types of readers. First, there are sponges, who absorb all they read and return it nearly in the same state, only a little dirtied. Secondly, the sand-glasses, who retain nothing and are content to get through a book for the sake of getting through the time. Thirdly, the strain-bags, who retain merely the dregs of what they read. The fourth type are the mogul diamonds, equally rare and valuable, who profit by what they read, and enable others to profit by it also.

Several weeks ago a beautiful and touching letter was published in the Pilot written by Phyllis Parlee. She was wondering about the true meaning of life and the real purpose of man here on earth. As long as mortals have existed, philosophers have been searching for the answers to these questions. There have been many wise explanations but somehow they do not quite satisfy many people. For they continue to strive to solve the riddle, if indeed it is a riddle. Maybe the answer is just a simple fact that we are here to live a simple life and to help each other and that is all there is to it. As for desiring what the majority wants, that is conformity. The non-conformist is not very popular in America. But each of us still have the right to pick and choose the best from the ordinary and there are still a great many people who want the best in everything. High ideals are an inherent trait in some individuals and they should be cherished and guarded, and not discarded just for the sake of conform-

We like this definition of a small town: A place where you chat on the phone an hour or so even when you get the wrong number.

The Lutheran Evangelism Mission in Carroll County came to a successful conclusion last Friday evening with a rally in Alumni Hall, Western Maryland College. Mrs. Blaine Broadwater directed the combined choirs from the 24 churches in the county with 150 voices singing for the evening rally. Leaders in the Mission declared the event an outstanding success in all the Lutheran churches. The Mission preceding Lent by only a few days should impress upon each church member the necessity to support one's church the year round and not just on special events. Many persons do not believe in Evangelism because of its limited effect on the individual. However just one visit a year to a church is better than no visit at all. So it would be a cynic indeed who would say the day of Evangelism is over, or rather the ed for it is over.

The bill introduced by Senator Sherman Flanagan in the Maryland Assembly to authorize the County Commissioners to levy a special property tax for four years to help finance construction of a county hospital has been signed. It has not been disclosed what the amount of tax to be paid each year will amount to.

People in our county are either thrifty or turning into misers. For saving accounts in the banks of Carroll have hit a new high. Almost 36 March 7, at 7. Rev. C. E. Held, Pasmillion dollars are safely tucked tor. Council meeting Friday eve-

away in savings accounts. This means that for every person living in our county there is \$750 in the bank. There seems to be a trend to decrease installment buying and to save instead for a rainy day. Maybe the warning by Mr. Humphries and Mr. Hoover about a new depression has impressed the people in Carroll and they are paying attention. But too much saving in our economy can be just as dangerous as over-spending. If winter comes can spring be far behind? Yes, it can and usually is far, far behind.

HARNEY'S LADIES AID

The Ladies Aid Society of St Paul's Lutheran Church, Harney, met Tuesday evening, March 5th. Due to the absence of the president, Mrs. John S. Harner the vice president had charge of the meeting.

The meeting was opened by singing two songs, "My Faith Looks Up To Thee" and "Lord, I Hear Of Showers Of Blessing". Mrs. John S. Harner read a part of St. Matt. 18 the Scripture, followed with prayer by Mrs. Harner.
The minutes of the last meeting

were read and approved, followed by roll-call with 20 members present. The payment of dues was accepted by the secretary.

A Thank You card was read from Mrs. Earlington Shriver, the president, for the lovely dish garden sent to her by the Ladies Aid, while she was in the hospital. Also for the lovey cards, letters and visits. She also would like for all the ladies to come

It was decided to have the covered dish social Friday evening, March 22. Mrs. Luther Fox was appointed as chairman. It was decided that the Capsule Sisters give gifts at Easter, Christmas, birthday and St. Patrick's Day. There was no price set for the gifts, but suggested that each pay a reasonable sum for the gifts. Those who do not have their names in the Capsule Sisters and wish to have them in, please contact the secretary, Miss Treva Ridinger, by March 22.

Mrs. Clyde Frock was appointed as chairman of a banquet to be served March 14, and Mrs. Lake Ridinger as chairman of a banquet to be served March 21.

THE 4-H YOUTH OF TODAY-ADULT OF TOMORROW

The farm boy and girl, or even the urban boy and girl have much to gain by being members of a 4-H Club. pledge above indicates this. When a or girl repeats the pledge: I

My Head to clearer thinking My Heart to greater loyalty My Health to better living

for my club, my community, and my country-and tries to live by this, how can he help but be an asset to himself, and his community, morally, spiritually, and physically. He is shown in his 4-H club how to learn by do-Thus using his head and hands to present his project to the best advantage. By this he gains through his excelling in the friendly competition which is always avail able and receives awards which are far reaching. These awards offer him both travel and education. There is, yearly, numerous boys and girls of own county who travel to Chicago and Washington and who also receive scholarship funds. The travel does not stop at the national level it s also international. Each there is a group from the United States which travels to England,

Maryland has been very fortunate to be able to offer a team numerous times which has won this honor and who in turn done Maryland proud by winning against all competition. This is only part of what we can gain. Think, of the advantage of learning to cook, sew, design, repair and improve our own rooms and even our homes so that we and our families may be better clothed, better fed and more comfortable in our homes. How can the boy and girl, who have been help-ed by people of his own community, through their being local leaders in the 4-H Club, and through their knowledge of the abilities and needs of each as an individual, help but be an asset to his home, his club, his community and his country? youth of today are our adults of to-morrow and the 4-H boy who has had

EDUCATION IN CARROLL COUN-TY-UNMET NEEDS

Any discussion of education services and costs of education should take into account the adequacy of existing services and should outline areas in services and should outline areas in which services are not rendered. Society in our democracy undertakes in many places to render services heretofore not included in the educational program for Carroll County. Those who view with alarm the mounting costs of public education may perhaps take comfort from the fact that up to the present citizens have not been called upon for support of services which in many communities are taken for granted, for example:

A. Kindergarten. Several counties

A. Kindergarten. Several counties of the state support, from local funds, kindergarten classes for children un-der school age. It is evident that many Carroll County parents may be-lieve that this service should be ren-

B. Junior College. Several counties of the state appropriate from local funds to provide post-high school education for young people unable to otherwise secure college training.
C. Organized Recreation. Many

counties and municipalities provide local funds to pay for equipment and leadership to provide a program of organized and supervised recreation. The need for this service is evidently

D. Adult Education. Limited funds have thus far prohibited expansion of a program of adult education. Need for this service is likely to increase as the demand for trained workers in-

the demand for trained workers increases.

E. Remedial Services to the visually handicapped. No service is provided locally for assistance to pupils suffering from partial vision and no program for such pupils is available in the schools.

F. Speech Training. No classes exist for pupils with speech handicaps nor is any professional service available. Many school systems provide personnel for discovering speech defects and therapists to offer remedial instruction. dial instruction.

Hearing Defects. No locally supported service is available in schools to assist pupils with hearing defects. Many school systems are supporting educational services in this

School Psychologists. Although considered very desirable the county schools are not provided with the ser-vices of school psychologists although in many systems personnel is provided to render this important service. The county does not provide psychiatric treatment for pupils in need of this convice.

this service.

I. Special Interests.

(1) Music, Available to only a very limited extent in elementary schools because of limited funds. Inservice is offered in all strumental music is offered in all schools but only in a limited way and largely without financial support for the purchase of instruments.

(2) Art. Although considered by many as an integral part of the educational program only only techniques.

many as an integral part of the educational program only one teacher is available in the county for art instruction and in only one school. Many communities support art instruction and there is wide acceptance of the belief that it should be a part of the school program.

(3) Vocational Education. The needs of the county school population

needs of the county school population for an expanded program of vocational education are easy to observe. Such education is the most expensive education because of the facilities and equipment required. There is no doubt that expanded offerings in industrial education, auto repair, agriommercial education, business machine operation and many other areas are badly needed to take care of the needs of many types of

J. Health Service. School health service is extremely limited and the lack of such service operates to handicap the progress of many pupils in schools. Many schools throughout the nation have fulltime nurses on the school staff and frequent clinical advice from physicians to make early discovery of disease and to assist in providing needed medical attention. Limited funds for this purpose have prevented the expansion of the health program to meet the needs of pupils.

Retarded Readers. It has not been possible to offer special service in the field of remedial reading or developmental reading. Slow are handicapped because this service is not available and the progress of such pupils through school is imped-

L. Emotionally Immature. Many pupils are in need of expert psychological and psychiatric guidance in or-der to take advantage of their opportunities for education. Funds have not been available to provide vitally needed service in this area.

M. Mentaly Retarded. Need for

Special Classes. Many school pupils are in serious need of special education organized and planned to meet the needs of the mentally retarded. Lack of funds have prevented the organization of classes for such pupils and every school in the county has many pupils whose needs are not be-

N. Physical Education—Elementary Schools. Pupils in elementary schools need trained leadership in health and physical education. Offerings in this area are extremely limited to limitations on number of teachers and lack of funds.

Library Service - Elementary Schools.—Elementary schools should in the opinion of all authorities have library facilities and trained library personnel in elementary schools. Car-roll County has not been able to support this phase of elementary educa-tion.

P. Driver Training. Offerings in

driver training are very limited due to lack of financial support. Many persons believe this training is of primary importance.

Q. Outdoor Education. Many school systems find it possible to of-fer programs in out-door and sumeducation thus meeting the needs of pupils for this type of experience. Financial limitations have prevented any experimentation with such a program in Carroll County.

R. Clerical Assistance. Limited assistance is provided to local school for clerical workers to relieve principals and teachers from such work thus permitting them to devote more time to the more important aspects of instruction.

GOD AND HIS PLAN-(Part 1)

God is quite systematic in His dealings with man, And, He has to be so, to carry out His plan; So, should He not treat His children the same, We should know the cause, before we cast blame.

All down the ages men have seen God is good-((The Prophets and seers praised Him so we all should), But, "Justice" is the key word, in His great plan; So, He follows it closely in His dealings with man.

The earth is full of the glory and goodness of God; The Heavens tell it, wherever mortal man has trod; When then, should little mortals like you and me Accuse One so Great and Good of disloyalty?

90% of the factors producing success, they say,
Are the result of man's learning to go God's way;
Then, watch your steps! and, study God's plan;
And, He will make of you, too, a perfect man.

"Thou wilt show me the path of life", the scriptures say; For those, and those only, knoweth the way Which I must take; and, go, from day to day,
To be with those whom I love in the endless day.

I must have understanding the Scriptures say; Without it, I am like the brute—I don't-know the way, So, help me to do as the Preachers all say; And, the Paradise I seek shall come my way.

The principle of energy and supply, they say,
Is always the same; and, works night and day;
So, if we help God to make this old earth new,
Our guardian Angel will tell us how to do.

Few deny that intelligence governs our earth today, It matter, not what name you give it, they say, Providence, God, mind and Nature are all the same For, all of God's attributes take His name.

It is not enough to know you have power; You must put it in practice, hour after hour; So, don't be discouraged if, at first, you fail; Just keep on trying; and, you shall prevail.

If we all work in harmony with mind, they say,
We can draw from it in the same way/
As the Sun's rays draw, from their source, heat and light To make the earth warm and keep it bright.

The mind which brought the life principle to earth
Also gave to the animals and man their birth;
And, since we are all like God, the scriptures say,
We should all try our best to do things His way.

So on your sojourn, don't forget, you are God's hands; Through you, He executes all His great plans; So, always do what He tells you to do; For, He is making this earth a heaven for you.

To solve any problem, the scriptures say, God shows us all how to work the right way; So, being a part of Universal Mind, they say, Should help us all to go the right way.

The electric spark is like a thunderbolt, they say, So it is with God and man in every way; But, having that power, we must realize it, they say,
To get the good God intends for us each day.

In the beginning all was void, the scriptures say;
But, to get order out of chaos, God knew the way;
He made a mental image on which to build, they say
And, that is how we must work, to do things His way.

And just so it is with us all to-day;
We must listen to God; and, do things His way
Our destiny, our fortune, our happiness to-day
All depend on the things we think-do-and say.

We must visualize our thoughts, they say—
To follow God's plan, there is no other way;
Clear, forceful thought has power to attract, they say;
And, causes things you decree to come your way.

There is a thinking stuff of which all things are made; It permeates and fills all space, it is said; So, a thought in that substance, experts say; Makes things take shape and come your way.

So, as I see it, the principal business of man is life. Is to learn to know God; and, avoid all strife; We have many advisors; and, some mean well; But, man's doctrine, it is said, has made earth or hell.

To reach perfection we must do as the scriptures say We must put a "P", at the close of each day; For, in no other way can mortal man

Hope to meet the requirements of God's great plan. When man learns to know God and he are one— That, of our Great Creator, he is a Son, He will do his best to help a brother in need; For, that is a "must", in God's Great Creed.

All worries and back-breaking work, you shall find,

Will go to the fellow who don't use his mind; It is in that way God shows to mortal man That, to be truly happy, he must follow His plan.

Jesus said: "I Am the Light of the World", the scriptures say-God sent Him here to show us the way; So, as the stars reflect the light of the Sun, We, too, must reflect Him-you-me-everyone!

God sent Jesus to Earth as a Pattern for man-He, only, knew of God; and, of His great plan; So, just like Jesus He intends we all must be When we all go from Time to Eternity.

There are things God wants us all to know: For, He is concerned about how we all go, He is making great preparations the scriptures say; So, let Him see His face on yours in the endless day.

Why just dream about the home you want?

Here's How Payroll Savings Can Make That Dream Come True

If accumulating the down payment has been keeping you from building the house of your dreams, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment-for a house or any large purchase.

All you do is sign a Payroll Savings application at your pay office, naming a certain sum to be set aside for you each week-a few dollars or as much as you want. After that, your saving is done for you—automatically.

And every time there's enough in your account, a U. S. Series E Savings Bond is purchased in your name and given to you. Soon the few dollars saved from your pay each week add up to a generous amount.

So don't get in the dumps about down payments. Meet the cash needs for your dream house the way millions of other Americans are meeting theirs-join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank.

Seventy X Seven

Lesson for March 10, 1957

S IT a mark of high breeding never to forget an injury? One of the most famous Americans was known also as a duelist. When he left home as a boy, his mother wrote him a letter which contained some Christian advice; but she mixed with it an idea she could not have found in her New

Testament; he must never overlook an insult or a slight. It is rather strange howmany Christians (Christians otherwise, that is,) have had the same notion.

Long after duel- Dr. Foreman ing was outlawed in most states, it was still going on in the "Bible Belt." It has gone out there too by now; which may be an indication that people understand the

The Need for Forgiveness

Gospel better than they once did.

In a southern town there lives a man who was in a penitentiary in another state, for 19 years, for a crime he did not commit. He was a stranger and he had a gun: so when the local hoodlums all came up with alibis, this man was a convenient mark, and to the penitentiary he went. And there he stayed even after the real criminal confessed. Authorities kept him there, because if the facts became known, and the man released, some important reputations and careers would be ruined. Finally, through the efforts of a sister and a friend, he was released, 19 years not guilty, but punished all the same, even years after his innocence was established. Would you be in a forgiving mood after that? Not many people have tremendous, long-lasting injustices do" 'o them of that sort; yet the story illustrates one point about forgiveness: it is not always a matter of forgiving persons directly. One may suffer severely, unjustly, without its being possible to identify the persons who are responsible for

things we suffer (such as unfair laws, or customs which harm us in some way); but although we cannot forgive the responsible persons-who may be many-face to face, it is just as un-Christian to harbor bitterness in the heart against "fate" in general as it is to feel bitterly about some one we know.

God Has More to Put Up With

When Peter asked his question about forgiveness, he was thinking, it seems, of a kind of rule Forgive a man once, twice to seven times; but the eighth time is one too much? Jesus' reply,—that if a brother repents 70 times seven times, we are to forgive him just as many times,-is not a matter of strict arithmetic. It is not intended as a rule. It is Jesus way of saying: Forgiveness must be without limit. The reason Jesus suggests, in his parable, goes to the heart of things. God has far more to forgive than we have. Even an apostle, Jesus suggests, has sinned against God more than any man has ever sinned against him. What we have to put up with from others, every day, are trifles compared with what God has to put up with from us. If the reader thinks this is an exaggeration, let him consider one point: the way we Christians misrepresent God. His reputation in this world is maintained or blackened by those who profess to be his people. We claim to be his children, and yet we often act as if we had been sired by the devil. Few if any human beings have been so persistently slandered as God is by his professed

Forgiving From the Heart

Forgiveness has been called a fiction, and in a way it is. It is not the same as ignoring or condoning, but it treats the offender exactly as if no offense had been committed. That may be fiction; but there is no true forgiveness without forgetting. God's forgiveness is complete: he casts forgiven sins "behind his back"he "remembers them no more." Human forgiveness like all things human is never complete, for in spite of our best efforts the thing will keep coming back to mind. Nevertheless, true Christian forgiveness makes every effort to forget. Forgiving without forgetting leaves things much as they were. Only in complete forgiveness can there be a complete new start. Erasing the whole thing from mind, living as if it never had happened; this may be a fiction but it is a netion of love. FOREST PROTECTION REGULATION

Maryland's forest protection regulation IV will again go into effect on March 1st and will limit open air burning until June 1st.

This regulation, District Forester Henry E. Stasiek explains provides that open air burning will be illegal before 4:00 p. m. (EST), when within two hundred feet of woodland, or inflammable material that could ignite and carry fire to woodland.

After 4:00 p. m. there must be a

and carry fire to woodland.

After 4:00 p. m. there must be a safety strip, ten feet wide, and free of inflammable material, around the burning area. Sufficient tools, and manpower are required to keep the fire under control until the last spark is out.

The question has been often asked why 4:00 p.m. (EST) has been set as the time before which burning within 200 feet of woodland isn't safe. At approximately this time of day winds generally die down, the temperature drops fairly quickly, and the moisture or relative humidity rises. These things all have great effect in re-

ducing fire intensity.

The district office and personnel wish to express their appreciation to residents in the area for the care which has reduced the number of fires and fire damage.

The Navy's new method of turning a huge carrier in a harbor without aid of tugs is called "Operation Pinwheel." Her planes are lashed to the flight deck and at a given signal their engines are turned up full power, exerting a tremendous force in the desired direction.

Here's a shopping hint for men and women: before you buy your auto insurance-for a better buy — check Nation-wide first!

Yes, when you "shop around", you'll find there is a difference in rates, claims service and coverage afforded to you by various companies. But with Nationwide, you're sure of "top-dollar" value every

Nationwide rates are lower than most. Reduced operating costs permit extra savings . . and these savings are passed on to you in the form of low rates. Claims service is tops... in fact, 50% of all claims are paid in 24 hours and 66% in 72 hours! And, Nationwide policies are non-assessable... meet financial responsibility laws in every state.

That's why, before you buy your auto insurance — for a better buy — it pays to check Nationwide first!

Detroit Reports Station Wagons Most Popular

IS IT THE TREND to suburban living or the growth of two-car families? Maybe it's both. At any rate, station wagons are fast becoming America's favorite family car. A far cry from the wood "wagons" of the past, the 1957 all-purpose vehicle is a true glamour car. In keeping with the sleek designs, manufacturers are coining fancy names, such as the Custom Sierra Dodge, shown above.
