THE SCHOOL BAND UNIFORMS

The weekly meeting of the parents of the Band Uniform Committee met Tuesday evening following the band

The group unanimously voted to issue a public "Thank You" to the many folks who in numerous ways so generously supported our recent festival. The affair was a huge success. We would like to personally thank each one who helped in one way or another, but the task seems too great due to the many contributors. We shall not forget your helpfulness. The success of the festival goes to each one who

again like to say thank you.

There are those who have expressed their desire to make a contribution, and we are certain some who wish to contribute who have made no commitment. Your early attention in this matter will be appreciated some have given a measure full and sandwich, cheese-potato sticks, but-tered beans, fruit and ½ pint of milk yond words to express our thanks to

Dr. Daniel A. Poling, President of World Christian Endeavor Union, delivered a body blow, at the opening session against persons critical of Mass Evangelism, saying he regards Billy Graham and many other mass evangelists as "God's accepted and honored special messengers." He included the founders of two of the greatest Protestant movements—Martin Luther and John Wesley in his list of great evangelists. He described St. Peter as "the first and greatest mass evangelist" pointing to his 3000 converts in one day at Pentecost. From the radiant day (Pentecost) until now, mass evangelism has played a significant vital part in the acceptance of the discovered and buffalos. list of great evangelists. From the radiant day (Pentecost) until now, mass evangelism has played a similar vital poet in the ed a significant, vital part in the on-ward march of Christianity. Everyone in the world and in every age, evangelists, dedicated men and women, have become the open channels of the Holy Spirit, calling their generation to repentance and regenera-tion. Today Graham, in Madison Square Garden, and by television to all America, is leadnig literally tens of thousands to an open acceptance of Jesus Christ as their Savior and Lord. More than 40 per cent of these thousands state they have never before been identified with the Church. Christian Endeavor itself is the fruit of Evangelism, and a demonstration of the effectiveness of both mass and personal Evangelism. Christian Endeavor was born in the evangelistic crusade of a local church. Francis E. Clark, its founder became perhaps the most successful evangelist to youth in all the history of christianity, with over a million followers now in all parts of the world, after 76 years of existance." YOU CAN TAKE IT WITH YOU

Labor Day has always been, to us, a misnomer. That is the one day of the year on which the fewest possible all men for all time . . .' number of Americans is required to toil. Not only that, but it has become not merely a day, but a week-end, and a long one at that.

So what happens? We take to our fifty-some million cars to hie us to some sylvan dell or meadow or woods, to mountain or lake or stream or beach. And, what with the need for sustenance and refreshment, smokes and snacks, we create mountains of

As we start back to the salt mines on the Tuesday morning-after, highway workers on our primary roads alone will expect to be facing 100,000 tons of this litter that must be picked up and disposed of. This much trash, in case you can't quite visualize it, would cover a two-lane highway a foot deep from Chicago to Minneapolis, and that's 427 miles. Also, around the 48 states, a lot of carefree week-enders, apprehended while tossing this and that out of the car window, will be facing the judge. They will be leaving as little as a dollar, in Kentucky, or as much as \$1,000 in Georgia to purge their disrespect for their fellow man. Utah, for example, is very specific about this offense against good manners. The sign at the roadside says simply: ",299 for littering highways". And practically nobody seems to think it is a bargain.

But there's a brighter side to the in existence right now. picture. For every offender, a dred, or perhaps a thousand, more thoughtful citizens will be collecting their trash in litterbags as they go along, and parking it in suitable receptacles as provided by publicspirited gas stations, picnic areas, resorts and roadside rests.

In spite of steadily increasing highway travel, the clean-up cost to the taxpayer has been halted at the \$50 million a year level, and appears to be gradually diminishing. Credit for this, we think, belongs largely to an organization called "Keep America it has usually operated at a deficit-Beautiful, Inc." and to the garden clubs and many other civic organizations that have joined its nation-wide crusade against the litterbug, and have supported local and state enforcement agencies in a tougher attitude toward the trash-tossers.

Thus we can hope for the cleanest Labor Day yet. Remember your litterbag and remember the KAB slogan: "You CAN Take It With You!"

OUR RESPONSIBILITY TO * TEACHERS

Next to parents, no one deals more intimately than school teachers with a youngster's talents and deficiencies, failures and achievements, during the crucial, formative early years.

Every citizen has only himself to commend or to blame if schools in many's remarkable postwar recovery, our free society are-superb, average, he said: "The more the principle of or below average.

to the teachers of today and tomorrow," Ernest G. Swigert, president of the NAM, emphasizes in introducing the study. "If we do so, each child will have the opportunity to know teachers who will make every school day the challenge and opportunity it should be."

THE TOWN'S "BIG MAN"

"The only doctor is the small town's 'big man'," says the Patriot, of Harrisburg, Pennsylvania. "His nome is usually the town showplace, Sometimes, so is his life."

This was inspired by what happened in Cameron, Louisiana last June, when hurricane Audrey razed the community and took a ghastly toll of death and destruction. There was but one doctor there. His home was totally destroyed. He did not, for long hours, know what had happened to his family. Then he learned that his three daughters had perished in the flood. Yet, a Cameron citizen said, "He just kept working, taking care of the injured as though nothing had happened."

The Patriot quotes the Hippocratic Oath which all physicians take: "So far as power and discernment shall be mine, I will carry out regimen for the benefit of the sick, and I will keep them from harm and wrong ." And that Oath goes on to say: 'If I shall fulfill this Oath and break it not, may the fruits of my life and of art be mine, may I be honored of

This doctor in ruined Cameron lived up to that Oath under the most trying circumstances conceivable. The Patriot observes that he will rebuild his home as his community rebuilds, and that his new one may be a showplace-"But it always will be only a dull patch compared to the showplace that is his life." There is a symbolism here. All over the country, in little towns and great cities, other doctors are quietly and effectively carrying out their Oath, and placing duty above all other considerations. They do this as a power potentials, the company-all matter of course, in ordinary times, as well as in emergencies. Their lives are showplaces.

TIME FOR REFORM

Suppose a new store opened in your town, selling groceries, furniture, automobiles, or anything else. And suppose this sign appeared above the door: "Owned and Operated by the United States Government".

You'd be amazed-and you'd be shocked. For it obviously isn't the government's business to go into trade-and it is equally obvious that the private citizen would have a mighty tough time trying to meet this kind of competition. Yet the fact is that there are comparable cases

Take, for instance, the parcel post service of the post office department. It was established primarily to supply transportation facilities in rural areas, at a time when there seemed to be a real need. But, like most governmental functions, parcel post has expanded and outgrown the original concept. It now transports a huge volume of purely commercial traffic between communities where privately operated services are more than adequate.

Then, to make a bad matter worse, and all the taxpayers, whether they ever use parcel post or not, must chip in to pay that deficit.

To quote a Hoover Commission report, "The private enterprise system is the basis of the military strength of this Nation and of its unparalleled standard of living." In the light of that, it is certainly not surprising that the Hoover Commission—like other authoritative bodies - has strongly recommended sweeping reforms of the parcel post system. -Industrial News Review

SAFETY FACTS

CHICAGO—"Twilight Time" was immortalized in a once-popular song. But safety men of today would just as soon forget the "twilight time"

of 1953—as usual the most dangerous, time of day in traffic.

More fatal traffic accidents and more auto mishaps of all kinds occurred from 4-8 p. m., than during any other four hours of the day. The just-published 1957 edition of "Accident Facts," the National Safe-

ty Council's statistical yearbook, shows that a fourth of all traffic deaths and 29 per cent of all auto accidents occurred from 4-8 p. m.

GETTYSBURG HOSPITAL MAKES SURVEY

Residents of the area served by the Annie M. Warner Hospital have a high regard for their hospital, but feel it is too small to meet their

health needs. This has been revealed in early findings of a public opinion survey now being conducted by the hospital's community relations committee. Some 3200 questionnaires were mailed re-cently to residents of Gettysburg and the neighboring communities to find out their views on the hospital, and their reactions to its present problems

of directors, who said that replies

Of the people participating in the survey, 90 percent said they would go to the Annie M. Warner now if they needed hospital care, and almost the same number described the at-titude of nurses and attendants at the hospital as either "kindly" or "sympathetic."

Approval of the efficiency of the hospital's management was expressed

by more than nine out of every ten

An almost equally large majority, however, thought the hospital was neither large enough, not well enough equipped "to serve adequately all who may apply for care.'

Being transported from range to laying house puts a strain on the bird. Aside from the discomfort of being moved and handled a pullet must adjust to new quarters, new feeders, new waterers.

My Recommendation: Another good time to have Dr. Salsbury's Avi-Tab in the mash. It helps condition birds to make these adjustments and builds up the bird for housing stresses. Avi-Tab, too, may be used following specific medica-tion to aid convalescense. It adds extra "kick" to any program.

James Kiser is still with his daughter, Mrs. Carroll Kiser and family of Detour. He has shown some improvement. Last week he spent a day at the heme of his son Carroll Kiser, Mrs.

Lee in Annapolis on Tuesday.

Rev. and Mrs. Dixon Yaste of Politimore called at the home of Mr.

Kiser and Judy. well, Shirley, Ronnie and Pamela Susan and Mr. Creswell's mother, Mrs. Creswell, Mr. and Mrs. Melvin Schnappinger's mother, Mrs. William Gerbrick, all of Baltimore, were guests on Sunday, August 18th of the Carroll Wilhides. Mrs. Creswell and Harry Schnappinger both returned to their homes in Baltimore after having spent a week at Key-De-Blue Farm.
Those going thru Detour are warned

concerning the Railroad tracks by the large railroad signs painted on the road. The one in Detour is right in the middle of town.

The sale at the Delaplane Home located on the Keymar-Detour road was well attended and, I understand. quite profitable and interesting. I have been told that Mr. and Mrs. Gerald Myers and family will move to this place. This farm has been called "The Delaplane Farm" for a long Mr. and Mrs. Robert Strickhouser attended services Sunday morning at the Centenary United Brethren the Centenary United Brethr oridge which bridges Pipe Creek on Nu the road to Detour.

It was good to see Mrs. Earl Roop of near Keysville back in church on the 18th. This is the first time since snider accompanying them on the her illness and operation that she has piano. been able to attend.

Eleanor, daughter of Mr. and Mrs. Arthur Clabaugh is spending this week at Camp Nawaka in Pa.
The Village Store, Mr. and Mrs.

Summers of Yore

Had Cool Knights

In medieval times, knights and fair damsels lucky enough to live in stone castles weren't bothered

too much by hot weather. The thick walls kept out heat as well

as warlike invaders.

Today, man could escape heat in much the same way by build-

ing his home with walls of equally massive stone, brick, or

concrete. Instead, science pro-vides him with modern insula-tion that fits neatly in thin wall

spaces and in ceilings.

The fact is that a four-inch

thickness of mineral wool insul-

ation will stop as much heat penetration as 12 feet of con-crete or 74 inches of brick.

This is because mineral wool is composed of mineral fibers

surrounding millions of dead air spaces. These spaces reduce heat flow into a house in summer and

keep expensive heat inside in winter.

Nation's Color Taste

Improving, Stylist Says

Coast's leading color-stylists, says a trend toward "low key" colors means that the nation's tastes are improving.

"Low key," says Grau, who color-styles thousands of new development homes in Califor-

nia every year, "means soft pas-tels in a monochromatic scheme,

such as an asphalt shingle roof in a quiet brown, with harmo-nizing beige or gentle yellow siding and trim."

Architect's Drawing: New Home Office, Kiwanis International, Chicago, Illinois

Construction of a permanent home office building in Chicago at a cost of nearly a million dollars will begin proximately 251,000 Kiwanis memlate this winter, the president of bers in the United States, Canada, Kiwanis International, Mr. H. Park Arnold, Glendale, Calif., announced recently in Chicago during the organization's late-summer Board meeting.

recently in Chicago during the organization's late-summer Board meeting.

The new building, which will be headquarters for the international service group, will occupy property at the corner of Rush and Erie Sts., on Chicago's near north side. The site is one block west of the city's famed "Magnificent Mile," and about five blocks north of the Chicago River. The building will contain approximately 35,000 square feet of floor space in a ground level, a first level, and a second level.

The building will be of modern, light construction, air conditioned threughout. Its exterior will be composed of dark opalescent imported granite and textured, light Georgia marble, with enameled extruded aluminum pilasters and plate glass windows. A ground level, landscaped court and a parking area will share the rear portion of the property. Provision will be made to enlarge the building by constructing a multistory shaft of office space above this court as the need arises.

The new building is designed to provide facilities for the administration of approximately 7000 Kiwanis clubs, the organization's 1965 goal. (Nineteen hundred and sixty-five will be the 50th anniversary of

THE TRUTH ABOUT REINCARNATION

This poem was written when Bridey Murphy came out; It really explains what the story is about,—
It was not written for wealth or fame; But to tell whither we go; and, from whence we came. Reincarnation is a belief that was taught of old;
But, in the last few centuries it has not been told;
Jesus spoke of it when He was here;

And, that it is true, He made quite clear. Some think the Bridey Murphy story is not true; But, the very same thing can happen to you; In your sub-conscious mind a record is kept

Of the things you did each time before you slept. This is not your first visit to Mother Earth; It is only another try through another birth To make of yourself a perfect man—
It is one of the secrets of God's great plan.

A single lifespan too short would be To prepare to live through the years of eternity; So, God has decreed we must come and go Till all of Life's secrets we shall know. This Earth is God's School-house here below;

It is here we learn how to do and how to go;

To live where a thousand years are as one day, One must have a body which shall not decay. Don't you see? Your body must be perfect in every way. To weather the storms of the endless day. So, every mortal on earth must learn God's plan

To make of him a perfect man. Sometimes, when the hypnotist gets one under his spell, Certain things about the past he will tell; He forgets all about the things on earth And, tells of things which happened at another birth.

That is what experts mean when they say
Earth's history shall be known by all some day
In our sub-conscious mind a record is kept
Of the things we did each time before we slept. As from a ledger whose pages are blurred
The accounts to another book are transferred,
So it is with man; all the deeds he has done

Are stored in the body of everyone. Your sub-conscious mind is the real you; It is he who tells mortal man what to do; Men call him their conscience—they don't understand, That, of you, God has given him full commmand.

But, God also gave to mortal man free will; That is why the sub-conscious has a hard job to fill;
The spiritual I is wiser, in both you and me;
That is why men with each other fail to agree. Through you the sub-conscious must build a home,

A perfect body in which to roam; For, it must be perfect in every way

To weather the storms of an endless day. The real you of each one of us is wiser than we;
It is he who shall live through eternity;
From the very beginning you have been God's son—
That statement is true of everyone.

But, you must have a body in which to dwell— (That is one thing we know quite well); God not only lives in man-he is God's hands; So, his must have a body to carry out His plans. Jesus is the pattern which God gave to man; So, for us to be like Him is God's plan; On every mortal we must see God's face;

That is the goal of the whole human race. When Jesus was born in Bethlehem, they say, That was the last time He came this way; But, in every age He had been here before; And, we too, shall come back many times more. Like the rivers, we must all come and go; Life's many secrets we must learn to know;

For, a god among gods, God intends man shall be, So, he must practice love and charity. To be like God, godly he must be-Love, justice, and mercy, are only three Of the attributes God requires of man; Patience also figures in His great plan. We sometimes talk of the patience of Job-Such patience is seldom seen on this globe; But, think of how patient God must be

To close His eyes, and forget our iniquity. DAVID THOMAS REINDOLLAR, 2656 Edmondson Ave., Baltimore 23, Md.

can withstand and USE the 4 times hotter heat

There are many reasons why Siegler Home Heaters are constructed of heavy cast iron. First, it will withstand continuous high temperatures necessary for full house heating. It can't make annoying "popping" noises like so many sheet metal heaters do. It permits the sturdy construction that gives you many, many years of dependable, trouble-free service. Just try and tip a Siegler-you'll be convinced it's built to last!

In Capitols

Lesson for September 1, 1957

PEOPLE in capitols have tremendous power. A President, a senator, a parliament, a cabinet member . . . whether it is the county court house or the worldrenowned capitol building of a mighty nation, the people who work under the dome, just because they work there, have a leverage

for moving public opinion, for getting things done on an immense scale, a power far greater than any one of them has by himself. The man there in his of-

man he defeated. November Is Coming

The ancient Hebrews were a democratic people in some ways, but in others they were most unlike us. At the time of King Josiah the kingship was by no means an elective office. "And his son reigned in his stead" is the regular formula. So the Hebrews had at that time nothing to say about who should be their kings. They took whatever son the royal harem produced first. For good ones (there were some) they thanked God, and for the bad ones they were thankful they were no worse. King Josiah, whose story may be read in the Background Scripture, was one of the outstanding good kings. But it was custom and tradition that made him king, not the people. With us it is different. The people have to decide who shall occupy our places of great power. November is com-

ing; many will be elected, many more defeated, in our American elections. It is not too soon to ask ourselves seriously, what kind of men do we want under our capitol dome? Sometimes the choice offered us makes us discouraged so that we stay at home and don't vote. But even if all we have is a choice between two third-raters, a good third-rater is better than a poor one. If we have good men in our capitols, it is our responsibility to see that they get there.

Little Capitols

It's a peculiar thing, but often true, that although candidates for local offices can be better known than those for state or national office, rascals and ne'er-do-wells are more often elected to the small offices than to the large ones. For some reasons, local government gets less attention from the voters than it should. The mayor of a single large city, today controls more power over more people than King Josiah ever did. It is in the "little capitol" if you like, the county court houses for example, that public affairs sometimes take the wrong turn. Where there is a public program well conceived and organized, it can look good as a public law, it can look good as it comes to the states . . . but when it goes through the local courthouses it can turn into some pretty rotten trickery. In a certain state not long ago federal funds for a very good purpose had to be cut off from a dozen or more countries because the officials there had been lining their pockets with easy money. It's a poor voter, one with a sense of responsibility, who takes pains to elect good senators and presidents, but who when it comes to voting the local ticket, just says, Oh well . . . and votes straight because it's easiest.

Capitols Can't Do It All

The sad truth is, King Josiah's reforms didn't stick. They didn't, because they were reforms from the top. Even an absolute monarch can make his country no better than his people want it to be. It is true, we ought to have the best officials, from town to county to state to nation, that we can elect; but even if they were all praying, intelligent, devoted Christians, they cannot make this a better country merely by passing laws. Like Josiah, our men in government can make this a better country. Only if we the people want to have it so.

How the Payroll Savings Plan can

PART OF EVERY AMERICAN'S SAVINGS BELONGS IN U. S. SAVINGS BONDS!

Make your **Labor Day** holidays more enjoyable!

Why did you celebrate this Labor Day? Because of the good things your job makes possible for you and your family? Nice home? Car? All kinds of laborsaving appliances? We Americans have plenty of reasons!

One of the best of them is the Payroll Savings Plan your Government offers you. This plan makes saving for the things we really want easy.

You simply sign a card in the payroll office where you work. Sign up for the amount of money you want. Then that amount is set aside for you-automatically. When there's enough, a U.S. Savings Bond is bought in your name and given to you.

And now Savings Bonds are better than ever! Every Series E Savings Bond purchased since February 1, 1957 pays 31/4% interest when held to maturity. It pays higher interest, too, in the earlier years, and matures in only eight years and 11

So there's an extra reason to sign up for the Payroll Savings Plan where you work now. Let higher-interest Savings Bonds work for you every day-including holidays!

The U.S. Government does not pay for this advertisement. The Treasury Department thanks, for their patriotic donation, the Advertising Council and
