# LIONS CLUBENTERTAINS

### Mayor Perry Delivers Address Tuesday Evening at Taney Inn

An interesting resume of civic accomplishments was related by Mayor Raymond J. Perry to members and guests of the Taneytown Lions Club who dined in their regular den, Taney Inn, at 6:29 p. m., Tuesday, Sept. 23. President Frank T. Dun-ham presided, Merwyn C. Fuss pronounced the invocation, and group singing was conducted by Singleton E. Remsburg, Harry I. Reindollar ac-

companying on the piano.

In the course of the many introductions Lion Perry, who was program chairman, presented members of the City Council who were guests, James C. Baumgardner, Carel E. Frock, Geo.
T. Kiser and George W. Motter. He began his talk with exhibits of the original election like when the town was incorporated April 15, 1878, of particular interest to older residents, and told how the first election commissioners were appointed by the then district judge in Westminster. Of necessity he concentrated on improvements of which he had firsthand knowledge since election to the council in 1946, and one of the first acts of that year was putting in a new water line, pumphouse to standpipe, for which \$6000 was borrowed.

He paid special tribute to the founders and indefatigable workers who made possible the creation of Taneytown Memorial Park, such as Harry E. Clingan, Edward Clingan, and former Lion Don Webb, and of the contribution of Lion Norman R. Sauble, who made it all come true through generous terms in the obtaining of land by the Taneytown Recreation Association under its

president, Robert W. Smith. The sewerage system was the next large project following acceptance by the town of the park-in-being from the recreation group. Financed over a 40-year period through a municipal bond issue, it will be paid for through a sinking fund operation, and the Mayor exhibited for any to examine the chart showing just which serial numbers of bonds would be called in for redemption in a given year. To date 319 permits to connect have been issued, leaving roughly 75 yet to be authorized. Two new sewer lines were extended to the Maurice Feeser development and down Companies Street the standard painted. merce Street, the standpipe painted and covered, and a disposal difficulty solved until the present year, again through the ingenious aid of Norman

This year the Red Feather in Carroll County has been dispensed with, thus the senerate the summer's storm; lights were extended to the park, and the latest pavilion erected, both by Lions expenditures from their community funds; some paving was accomplish and a fogger and truck acquired.

Lately a large building has been begun by the Cambridge Rubber Company as a new, isolated part of the factory, to house the plastic foot-wear and vinyl plastic foam manufacture.

Some enlightening figures reveal the corporation's net worth to be decided as follows: Sewerage system \$709,292.86, water system \$67,000.00, and park 17,489.17. Revenue for the year 1957-58 was \$82,657.82, of which about haif emanated from county and state funds reallocated to towns. More new homes have been put up hereabouts in the last year than were erected in the preceding ten.

Mr. Perry concluded his remarks on progress, which could have been Kiwanis International, a Cincinnati, greatly elaborated, with the lines, Ohio automobile dealer, will be a "We should so live and labor in our time that what came to us as seed may go to the next generation as blossoms, and what came to us as blossoms may go to them as fruit. This is what we mean by progress.' The dinner was also enjoyed by Lions Robert Lindsay of the New

Windsor Club, who invited all to donate to the automobile they are giving away; by Frank Burkholder of the Pikesville Club; and by Robert Farley, Walter Haines, and Charles Petry of the Westminster Club. Lion Petry extended an invitation for all Taneytown Lions and the City Council with their wives to see the Coca-Cola plant in operation on some fu-ture date. Individual Taneytown Lions who brought guests were Murray Baumgardner, who had with him Elwood L. Strickhouser; President Dunham, who introduced John T. Hottinger; and past-President, Ralph Stonesifer, who presented Ted Albaugh.

President Dunham announced that the club is well on its way in properly observing October, Four month, when new members sought, by introducing cub Donald R. Lawyer, sponsored by Carroll L. Wantz, who will be inducted next meeting.

Other business will have to be touched on in another report, but mention should be made of the Buddy Deane Record Hop Friday night, October 3rd, in Taneytown High School, with Kenneth Shorb and Frank Wargny handling tickets, Glenn Record the food concessions. Reever chairman of the food concession, Homer Myers in charge of chaperones, and Delmar Riffle heading the soft drinks committee. This popular entertainer should attract as usual an enormous crowd, which augurs well for this first of the clubs fall money-raising ventures to promote its community projects.

#### HERE WE GO AGAIN

Six months ago recession was much in the news. Now inflation is coming to the forefront again. Business is picking up, the public debt is headed for a steep rise and prices, wages and other costs are headed for another upward spiral. The sensation is somewhat like the 'here we go again' feeling of a roller coaster ride, except there is no ticket man to help us off at the end. Inflation has no end except bitterness, disillusionment and strife. These are the inevitable consequences of the depreciating value

of money. Inflation is especially painful to the nation's retailers, who must pass its effects on to consumers in the form of higher prices. Some facts about the American retail distribution system should be kept in mind. Retailing, particularly as conducted by the chain stores, operates on a high volume minimum price principle. This principle applies in all

Modern shopping centers, which are the location sites for nationally-known chain outlets, reflect the ultimate in distribution efficiency. Insofar as it is humanly possible, retailers working in a free market and competing stringently with each other, will give consumers the most for their money at its current value. That is all that can be done.

No amount of rules and regulations can change the trend of inflation nor the sacrifices it will exact if continued. It can only be stopped by curbs on government spending, on labor monopolies that force wage hikes for less work, and on price raises that inevitably follow tax and labor costs. It can't be stopped at the counter of your local merchant. - Industrial News Review.

#### TIME FOR A CHANGE

Three hundred years ago, a London bank issued the first printed checks, paving the way to the "world's biggest bookkeeping job". And today, just as in the 1600's, clerks and bookkeepers in most banks must still decipher the scrawled signature on every check individually, match it up with the right account and post the amount. Handling these checks is such a tedious and time-consuming task that many banks lose a large number of bookkeepers every year.

Each check must be handled an average of seven times, and more than ten billion of them (about \$2.5 trillion worth) are cashed every year! To post some 52 million accounts, 100 billion keys must be punched. One difficulty is findingand correcting—the mistakes that are bound to happen, so that the errors are not passed on to the depositor, A meduim-sized Chicago bank estimates this trouble-shooting takes up about 2,500 hours a year.

But things are going to be different. The era of automatic banking is now here. Electronic equipment demonstrated at the American Bankers Association convention will automate this colossal record-keeping job, cut banking costs and give depositors faster, more accurate service!

Stanley C. Allyn, chairman of the National Cash Register Company. which developed the new banking system, says its cost will be "well within the price range of most medium-sized banks". In such a bank, five or six employees supervising the machines could handle a work load that now requires up to 20 people. Mr. Allyn also points out that the equipment has been designed so that smaller banks can install part of the system and add the remainder as their needs expand.

One of the machines, we are told,

#### FEESERSBURG (A Voice from Carroll)

We wonder how many Roads" there are in Carroll County We know of six. Its enough to send a stranger in our midst to utter despair trying to find the right one. In giving road or communities names there seemed to be no originality in the selection. Five communities in our county have "Union" in their names. Imagine the mixup this causes in mail delivery and in issuing driving instruction to would-be visitors. "Unstruction to would-be visitors. "Un-ion" must have had some significance when the name was given out so freely but it has long lost its meaning. It would be almost impossible to change the names of towns now even if one wanted to do so. Even strangers don't mind getting lost try-Even ing to locate the right place. For each little town has its own indivuality and charm. Uniontown is known far and wide for its avenue of maple trees and the "salt-box" architecture of the homes. Winding Pipe Creek and the many bridges gives Union Bridge its distinction, while Union Mills is known for its homes and the people that occupy them. The simplicity of Unionville makes an impression on all that visit that community and its contact with history makes it doubly interesting. Mt. Union is a rural section given a name because of the church which dominates it. A rich farming section of our county and now boasting a boom in building by persons who saw the beauty of the landscape and have the beauty of the landscape of the landscape of the landscape of the landscape and have the landscape and have the landscape and have the landscape and have the landscape and landscape of the landscape of the landscape and built private homes on some of the It has no business places at all. Probably the best claim to fame is that it is a nice place to live and raise a family. We are especially raise a family. We are especially fond of the little towns in our nation and especially love the small hamlets of Carroll. Each one could bear the same name and yet be en-tirely different. Whenever we go to city to spend the day there is nothing so satisfying as to know that at the end of the day we will return to one of the small towns of Carroll and find quiet and as much contentment as is good for an individual.

There is a new craze out. Twirling plastic hoops. Kids of all ages try to see who can keep the hoop going around their body the longest without touching it with their hands. Its good exercise and harmless fun. Whoever thought the idea up has made some money. One store in Westminster was selling them for 98 cents and couldn't hand them out fast enough. Another store had them for 68 cents. Nearly every child on the street had one and they were trying them out. Its a good thing the hoops are light for some of the children lost control of them and they went flying into the passersby on the street. They might be good for losing weight. A person with too many pounds could just buy a hoop and twirl the weight off.

the bottom of the ninth beat the Yanks in a thrilling last minute upset. We are not much of a baseball fan but we know enough family, visited on Sunday evening about the game to appreciate an exciting inning when it happens. And anyway we like to see the Yanks lose to any team but especially to the Orioles. It happens so rarely.

It can easily happen and all over two wee islands that really belong to China. If this country can avert a third world war by handing the islands back to China then we are for it. Not one U.S. soldiers life should be wasted over a whole group of islands. Furthermore we have no business in that part of the world meddling in other peoples govern-ments. If the American people really knew how much it is costing to keep the Nationalist Chinese Government on Formosa they would be shocked. And may be a little less quite about the affair. An officer who served in the Korean war recently told us that if America is so foolas to get involved on the mainland of China it would be the most stupid and the most costly thing we have ever done. If our military men have become so blind as to risk anihalation then its up to the people to set them straight. For after all its our lives that are at stake too. nuclear war no civilian anywhere will be safe. We truly believe that there is a time to defend our country but its not in China over a reactionary leader that not even his own people

# FIRE PREVENTION WEEK 1958 By the Mayor of Taneytown A PROCLAMATION

WHEREAS fires claim lives of our

citizens each year; and WHEREAS, many deaths from fires are those of children and the fires causing these deaths could be prevented by eliminating fire hazards;

WHEREAS, destruction of either industry, business or homes is a vit-al loss to our city; and WHEREAS, most of the states and many of the municipalities of the

nation have, during that past year, organized and established facilities for more effective fire protection and THEREFORE, I Raymond Perry, Mayor of Taneytown do hereby desig-

nate the week beginning October 5, 1958, as Fire Prevention Week.
I direct all the municipal agencies of the city government, and particularly that fire departments and schools, to assist in arousing the public to the seriousness of the fire problem. I earnestly request every citizen to do his part in eliminating all possible cause of fire in his home or in his business. I urge that the school children of this community be given appropriate instructions to inspect their own residence, and that the fire department assist them in

# What's This, "Going to Pot?"

THE CONTROL OF THE CO

We have heard of individuals suggesting that the Maryland Cooperative Milk Producers, Inc. is "going to pot." Let's look at the record. The MCMP has net worth of over \$1,000,000 and last year distributed some \$22,000,000 to its members. Prices to non-members are based on the Cooperative's price to its members. It is the largest single factor in the Baltimore milk market.

#### WHAT DOES IT DO?

- 1 It represents the majority of milk producers shipping to Baltimore. It obtains, through bargaining with milk dealers, the best possible prices for its dairy farmer members.
- 2 It sells, to outlets yielding the greatest possible return to members, millions of gallons of milk each month.
- 3 It guarantees payment for this milk.

#### OTHER ACTIVITIES

- In 1955 it acted to reduce hauling rates. While it sought relief for its members, the new rates benefited all dairy farmers. Despite rising costs for almost everything a farmer buys today, the lower rates have remained constant.
- It has developed new fluid milk buyers outside Baltimore and in nearby States. Milk is bought by these buyers at Class I prices. Had these sales not been developed this milk would have brought only the Class III price.
- It maintains a warehouse which provides members with quality dairy farm materials and equipment at lowest possible prices. This action has served to reduce equipment prices generally throughout the milkshed.
- It has a well-trained Field Force, dedicated to helping members in every phase of their farm operations.

That is the record: better prices to producers. Less to pay for things he needs. Laboratory and field assistance at the end of a 'phone and the best quality of milk for consumers.

### **Final Verdict**

Lesson for September 28, 1958

ONE THING the Bible teaches quite plainly: God is the final court of appeal, his is the final verdict. This is true in two ways. First, only God's judgment is final, because all other judgments are partial, they are based on a comparatively ignorant point of

view. We never see the inside of people, or not clearly at best. We cannot even examine our own minds and hearts with any accuracy. We are ignorant

moreover, of many of the cir- Dr. Foreman cumstances surrounding or leading up to the acts of other people. Only God knows man inside and out, only God knows the "intents of the heart", only God knows all the circumstances leading up to

men's decisions. In another sense God's verdict is final, because it will be the last one. After all a man's friends and enemies have had their say, after history has enshrined him, blasted him or forgotten him, God will have the last word. Not man's opinion of himself, not other men's opinion of him, is finally decisive. Every man's destiny depends, in the long run, on what God thinks of him.

#### Justice comes first

The great prophets, and our "more than a prophet," bring this home to everybody with a working conscience. Amos had his vision of God testing the walls men have built, with his own plumb line, ready to tear down every wall not meeting the test. Isaiah tells his church-going city that God has no use for any religious thing they do, because they have been content with injustice. The first thing to do is to "seek justice." Micah pronounces the doom of God on those who make themselves rich by

making others poor. Jesus in his great prevision of the Last Judgment, divides men right and left on the basis of how they have treated their fellow-men, especially their fellow-men in distress. And then there is the Sermon on the Mount. People argue over this and try to by-pass it, in many ways. They debate over whether it is a practical ideal or not. The fact is, Jesus presents it as God's way of life for man. The Golden Rule, for example, Jesus' principle of justice in one short sentence (Matt. 7:12), is not just a nice idea if you can do it: it is a rock in life's foundation. Build on my sayings, Jesus says, in effect, and your house will stand the storm. Pay no attention, or memorize them if you like—just listen and don't do, and the great storms will bring your house of life to cureless ruin.

#### Justice is not optional

Every one agrees that it takes all kinds of Christians to make the Kingdom of God. A Christian can serve God and men in various ways. It is by no means necessary for all Christians to be ministers, or to enter politics, or to be professional men. A good Christian dish-washer—if that is the most he can do with the mind he hasis just as faithful a Christian as a good Christian governor of a

But there is one thing that is not optional, not an extra that a Christian can take on as a hobby if he likes, but an absolute essential: justice. We have seen in these past weeks that the Bible idea of justice is not confined to the courtroom (though it is there, of course). Treating people as you would wish to be treated, seeking the good of others as if it were your own: this is justice, in the home and everywhere. This is the ABC of living as a Christian.

#### Justice Comes Last

So it should not be surprising, thouh Jesus hinted more than once that a good many people will be surprised-it should not be surprising that at the last, when God sums up the case and his his final verdict, he will judge (I Peter 1: 17) "each one impartially according to his deeds." And since it is very hard to perform any act whatever without affecting other people, this means that after all other judgments are in, God's last judgment of each of us will be based on that question: How did von treat people?

#### SOCIAL SECURITY AMENDMENTS

The Social Security Amendments of 1958 will provide increased monthly payments to about 4014 people in Carroll County, beginning with the checks which are due early in February 1959, according to L. J. Gillespie, social field representative for Carroll County. The amount of the increase will be about 7 percent, although the increase in some checks will be slightly more than 7 percent and it will be slightly less than 7 percent in some others. in some others.

People who are already getting reople who are already getting social security payments do not need to apply for the increase. It will be automatically added to the checks for January, which will be mailed out early in February.

Under other changes made by the new law, social security benefits will become payable to a number of records.

become payable to a number of people not previously eligible for payments. They must, however, apply to their social security offices before payments can start. Among the groups now eligible because of the amendments are:

Dependents of people who are 50 or over who are now getting disability insurance benefits (children under 18 or disabled; a wife of any age who has a child in her care who is entitled to benefits; a wife 62 or over; or a dependent husband

Disabled people 50 or over who could not qualify for benefits under the old law because they did not have as much as 1½ years of work in the 3 years before they were disabled. (A total of at least 5 years of work under the law is still required). still required).

Some people in situations similar to those mentioned above may have applied for benefits in the past and been notified that they did not qualify for payments. These people should get in touch with their social security officer property when their officer property when their contracts of the contract of the security of the contract o district offices promptly about filing

There is a slight change in the rules on how much a social security beneficiary may earn and still get social security benefit payments. Under a new provision a person's social security benefit payments. der a new provision a person's so-cial security benefit will not be withheld for any month in which he neither worked in his own business nor earned over \$100 in wages.

Beginning January 1, 1959, the social security tax rate for employees and employers will be 2½ per cent each. The rate for self-employed people will be 3¾ percent. These rates are scheduled to increase every 3 years until they reach 4½ percent for employees and employers and 6¾ percent for self-employed people in

Starting with 1959 the first \$4800 of earnings in a year will be taxed for social security and will count toward social security benefits.

#### WITH OUR ARMED FORCES

MEDITERRANEAN SEA (FHTN C)—Fulton E. Barnes, commissaryman seaman, USN, of 190 E. Green St., Westminster, Md., is serving aboard the attack aircraft carrier USS Randolph, operating as a unit of the U.S. Sixth Fleet in the Mediterranean Sea.

The carrier left Norfolk, Va., Sept. 2, the same day she received the Atlantic Fleet Carrier Class Battle Efficiency Award for fiscal year 1958. The award was the second successive win for the Randolph.

Each year ships of the Atlantic Fleet are required to complete a given list of competitive exercises for the top class awards. In addition, the judging is based on departmental winners among the many carriers and seaplane tenders for excellence in engineering, operations, gunnery, and air department.

The Randolph made a clean sweep of all awards even though the first eight months of the year were spent in the Mediterranean area with the U.S. Sixth Fleet.
