POPE PIUS DIES AFTER SECOND STROKE

Reign of 19 Years Ends for 82-Year Old Pontiff

Pope Pius XII, for nineteen troubled years the "Pope of Peace" died last (Wednesday) night about 11 o'clock in the papal summer castle alongside Lake Albano, in Italy.

A crucifix lay on his chest and a rosary in his hands in the final hours. Two strokes, developing a grave condition of the heart and lungs, caused his death at the age of 82 years.

He was the two hundredth and sixtieth Pope and the first to die outside Rome since the Eighteenth Century.

The new Pope will be designated by the College of Cardinals in an election expected to be held at the Vatican within the next two or three weeks—after a nine-day period of mourning.

All the Popes for the past 400 years have come from Italy. The feeling at the Vatican has been that this likely will be the case again even though Italians no longer command a majority in the College of Cardinals.

His valiant heart, weighted by years of war and the onslaught of Communist atheism, finally gave way after a period of more than twelve hours in which doctors despaired of saving him.

The body will be borne back to the Vatican City for the funeral rites.

GRASS ROOTS OPINIONS

REHOBOTH BEACH, DEL., COAST PRESS: "... Today when many decisions which affect the economy are made in politics, every voter needs some economic education so that he can determine what candidates make sense on the subjects of taxes, business regulation, labor, and related subjects. Wrong guesses, based on prejudice or ignorance, can bring on government-made hard times. They can weaken the economy in the cold war. And they can even put the thoughtless voter right out of a job."

CARTHAGE, TEXAS, PANOLA WATCHMAN: "The people of Australia and Great Britain have learned to their great sorrow that you can't dabble with Socialism and cut it on and off like a hydrant."

"Knowing this, that we are fighting the hard fight for Liberals as well as Conservatives, it is a disheartening and discouraging fight... particularly when it is a losing one. But we who believe in conservation and our free enterprise system cannot give up, even though it may appear hopeless. For once we do quit, the flood gates will be opened. Our opposition, ineffective as it may now seem, at least delays what appears to be the inevitable. But in delaying, there is always the hope of a sudden change of heart and a swing back to the principles on which our nation was founded."

STANBERRY, MO., HEADLIGHT: "It's not necessarily the itchy-fingered hunter in the field who mistakenly kills some one. The 'unloaded' gun in the home is an even more dangerous killer, according to the National Safety Council."

CARLSBAD, NEW MEXICO, CURRENT-ARGUS: "It is time for the American people to take another serious look at its Social Security Act. Security is an important factor in the lives of most people. It becomes increasingly important as they approach retirement age."

"But security at the expense of initiative is another matter."

WARRENTON, GEORGIA, CLIPPER: "The auto industry is thinking of using lightweight aluminum engines. Now, if only some smart fellow could devise a good, lightweight price."

WALTMAN, MASS., THE NEWS-TRIBUNE: "Can anything be done about the growing tendency of public officials in Washington to withhold information to which the press and the public are entitled? The question is easier to ask than to answer."

"Between the statues and the natural tendency of bureaucrats to clam up, the problems of getting news and information about the workings of the increasingly complex government will not be automatically solved."

BREESE, ILLINOIS, JOURNAL: "Two natural resources, more than any other, are basic to the national economy and to life itself. One of these is land. The other is water."

AMBRIDGE, PA., THE DAILY CITIZEN: "The McClellan committee's disclosure of corruption in the Teamsters union has been more responsible than anything else for strong public sentiment in favor of corrective legislation. As long as any such law enacted includes safeguards to protect the legitimate rights of organized labor, it will serve a useful purpose. It remains true that the best outcome would be for unions to clean house themselves, and not expect the law to do it for them."

NORWALK, CONN., HOUR: "Rockefeller Brothers Fund put 145 boys from 15 to 18 years of age at work this summer for seven weeks. At least half had been in trouble with the police. All kept out of mischief. The boys were paid \$10 a week for

working three hours a day. They renovated church and community buildings, repaired homes of needy persons, did landscaping and clerical work or supervised recreation of younger children. It proved that any community can direct delinquent tendencies of its youth with a planned part-time work program that will stress responsibility, instead of leaving them on their own."

LONDON, KY., SENTINEL-ECHO: "There is no disgrace when one becomes mentally ill. The only difference in this form of sickness and other forms is that science has only just begun its studies into cures for mental illness, and therefore, it is widely misunderstood. But about half the cases of mental illness can be cured, and the people afflicted restored to completely normal life again, if proper treatment is provided. And no stigma should be attached to the treatment."

EAST ROCHESTER, N.Y., HERALD: "It seems barely credible that in the United States in 1958, the largest trade union, with a membership of more than a million, has become a sheltered preserve for criminals to work their will on the rank-and-file membership, and on the public at large. We wonder what's become of the average citizen's capacity for righteous indignation. A century ago the pulpits and the public platforms would have thundered forth demands that this evil be obliterated."

REEDLEY, CALIF., EXPONENT: "To meet the much greater needs that lie ahead, experts agree that the financial market must be expanded. One facet of this is individual thrift. The funds invested by banks and other institutions must come from individuals and organizations."

"In the final analysis, communities are built not with bricks and stones but with money."

POMEROY, O., DAILY SENTINEL: "Schools overshadow all other community activity. Schools are determining the level of learning of all our young people. Pupils either will be prepared poorly or well for further training beyond high school. They will either be equipped to take a useful part in community life, or they won't..."

TERRE HAUTE, IND., TRIBUNE: "Polio will not actually be defeated until virtually all the population has taken advantage of the protection afforded by the Salk vaccine."

APOLLO, PA., NEWS-RECORD: "Action to increase social security payments by 7 per cent probably will be a small relief to recipients, and one should not look a gift horse in the mouth—only this doesn't happen to be a gift horse. That fact is emphasized by the announced intention of tacking another one-fourth percent to the grab taken from worker's pay, with a similar amount being charged to the employer."

TITUSVILLE, FLA., STAR-ADVOCATE: "A recent book review contained the assertion that the book was not beyond the grasp of the average citizen and that it could be read and digested in less than an hour. While one cannot be sure what the reviewer had in mind, mere ease of reading is in itself not much of a recommendation for serious literature... it should be noted that the really worthwhile objectives are difficult to obtain. In tennis, for example, a player can seldom improve his game if he avoids playing with opponents more skilled than himself. So it is with reading. A reader avoiding literature which cannot readily be understood in an hour will seldom stretch his imagination or increase his understanding of the world about him."

STARKE, FLA., TELEGRAPH: "Advertising—Anyone who ever doubted the effectiveness of advertising and promotion should have been on Call Street last Friday night to witness the crowd at 'Showportunity Showcase'. Never underestimate the drawing power of well-planned advertising and promotion."

FACTS AND OPINIONS

Raymond Moley writes in Newsweek: "Almost anything with a money tag had a chance to pass the Senate—preposterous, jerry-built schemes masked under dishonest titles and with alleged purposes nobly phrased but unsupported by reason and need. Some one said that members left the scene of their ostentatious nonsense in a troubled mood. Not half so troubled as the hoodwinked taxpayers and the thrifty whose savings have been looted by calculated inflation."

A group of University of Minnesota researchers, reporting in the Journal of the American Medical Association, says that polio vaccination during pregnancy is especially important because it serves two purposes. It combats the "extraordinary susceptibility" of pregnant women to the disease, and prolongs their infants' passive immunity.

St. Lawrence Seaway authorities

dangerously underestimated operating costs and over-estimated the waterway's capacity, according to the Port of New York Authority representative at hearings on proposed Seaway tolls. These tolls, he added, should be increased by 25 per cent.

Foreign car sales have increased 14 times in a few years. They accounted for one half of one per cent of new car registrations in 1954—and now account for more than 7 per cent.

The president of American Can Co. states that there are more than 4,300,000 business enterprises operating in this country—and only one in a thousand employs 1,000 people or more.

According to the New York Times, through June of this year the social security system had collected \$57 billion in payroll taxes and paid out \$37 billion in benefits. The system originally covered 26 million people; now it covers 74 million.

In Senator Fulbright's view: "We are treating luxuries as necessities and necessities as luxuries... We have got to return to a reasonable sense of what is really important, as distinguished from what is merely desirable... The problem is larger than what has gone wrong with our policies. Even more fundamental, it is what has gone wrong with our society."

Delegates to a Geneva conference on the peaceful uses of atomic energy believe that nuclear power as an economical and practical competitor to conventional power is at least a decade away. Speaker after speaker said research has shown that economical nuclear power is going to be more difficult to achieve than was originally supposed.

From Farm Journal: "A few steps from our office there stands in Washington Square a monument to the unknown soldier dead of the American Revolution. We here who pass by daily often wish that you and all Americans might see, engraved deep in the stone behind a bronze statue of George Washington, these dozen words: 'Freedom is a light for which many men have died in darkness.'"

Since a monthly investment plan for buying corporation stocks was offered to the public in January, 1954, investors have bought 2,397,756 shares with a value of \$93.8 million in this manner.

WHY HOT ROD?

Hot Rodding is a manifestation of the originality that is inherent in most young Americans. It is indicative of the ever present desire to improvise and improve. It is a mirror of the ingenuity possessed by so many American boys. It is a reflection of the love of competition and, in that light, assumes many of the elements that buttress our cherished ideals of free enterprise.

Most hot rodders possess a certain degree of derring-do. This quality, if turned into wrong channels can be dangerous and evil. Yet, it is this very spirit, this love of speed, power and mechanics, knowledge which makes American fighter pilots the best in the world. It is this spirit—or attitude, if you prefer—which gives us the finest armored divisions. The elements which make up an enthusiastic hot rodder are those most sought by the heads of our air force and army.

The real hot rodder is an experimentalist. He is perpetually dissatisfied with the status quo. He seeks and gets improvement. He and his fellows, in this wise, constitute a tremendous pool of technical know-how on which American industry may draw at its convenience.

Hot rodders are not pure scientists or researchers. They are inspired in their hobby by the zest of competition. When they create something, they want to see how it works. The by-product usually is speed. The indulgence in speed is the spice that stimulates them in their technical endeavors. The National Hot Rod Association insists that speed in itself is not evil. They argue that organized speed events, conducted under safe, supervised auspices, provide the answer. They point to what has been accomplished in California, Texas, Illinois, New York and Ohio to prove their point.

In these areas, it has been shown that hot rodding is quite a wonderful thing. It has been demonstrated that an 18-year-old, working on his car night after night in his garage at home is not nearly so much of a social problem as the 18-year-old who spends his idle hours in pool rooms or loafing around street corners.

The hot rod virus bites deeply. It becomes a sport, hobby and avocation all rolled into one. Adult guidance and assistance can make it a constructive enterprise. Unfair criticism, intolerance and misunderstanding serve only to create bitterness and to drive a perfectly legitimate activity underground.

Hot rodding is a facet of American life and, if properly controlled and regulated, a very healthy and important facet with many constructive elements driving therefrom.

LETTER TO THE EDITOR

Carroll Record, Taneytown, Md.

Dear Mr. Stonesifer:

It has just come to our attention that October 1-7 is National Newspaper Week.

This seems to be an excellent time for us to congratulate you on the wonderful service you give to the community.

It also seems a fitting time to say "thank you" for the very splendid manner in which you have cooperated with us in our attempt to get the facts about tuberculosis before the public.

We feel confident that the publicity you have given our annual Christmas Seal Sale has contributed greatly to the success of these campaigns in the past.

We wish you continuing success. Sincerely yours,
(Mrs.) ANNE K. WIDENER,
Executive Secretary.

CURRENT EVENTS FIFTY YEARS AGO

D. W. Garner has rented his store room and half of his dwelling to R. B. Everhart who will use the store room for his bakery business.

Vice-President Fairbanks will speak in Westminster, to-night, his only appearance in Maryland during the campaign.

The Lutheran Sunday School has placed an order for a handsome new carpet for both rooms, and will sell the old carpet at public sale, this Saturday afternoon at 1 o'clock.

Fatal accident to Mr. Geo. W. Weant. Mr. Geo. W. Weant, a well known farmer living between Walnut Grove school house and Harney in Taneytown district, met with a fatal accident last Saturday night, shortly before 9 o'clock by being thrown from his buggy on Emmitsburg, St., resulting in his death on Tuesday afternoon.

Brown-Bair.—On Oct. 4, 1908, at the Lutheran parsonage, Taneytown, by Rev. Wm. E. Wheeler, Mr. Joseph F. Brown, of Littlestown, Pa., and Miss Amelia C. Bair, of Taneytown were married.

Tyrone.—The registrars of District No. 2, added 30 new names to the registration books and gave 12 transfers.—Samuel Crouse moved into his new house adjoining the store. Paul Formwalt will occupy the house Mr. Crouse vacated in the near future.—Chas. Humbert and wife spent Saturday and Sunday with Mrs. Humbert's brother, Harry Little of Bachman's Valley.

A Surprise Birthday Party. A very enjoyable surprise party was given in the home of Mr. Amos Wantz on Oct. 2 in honor of Mr. Wantz's birthday. The evening was spent in playing games and social conversation and at the hour of 10 the guests were invited to the dining room where the table was loaded with cakes and candies and other edibles where all did ample justice. Among those present were: Amos Wantz and wife, Samuel Bishop and wife, William Fleagle and wife, William Crebs and wife, Hezekiah Ohler and wife, David Staley and wife, George Sauble and wife, James Harner and wife, Mrs. A. W. Coombs and son Ralph, of Hanover, Pa.; Mrs. John Kelley, Misses Mollie Stultz, Edna Coe, Grace Shoemaker, Clara Bowersox, Pauline and Carrie Wantz, Edith Crebs, Myrtle Bishop, Messrs. Jacob Wantz, Jesse and Frank Ohler, John Shoemaker, Vernon Smith, Charles Boyd, John and Jesse Kelley, William Pittinger and George Louis, of York, Pa. and Master Wilbur Wantz and Arb Sauble.

CHILDREN'S AID

An enthusiastic group of Maryland Children's Aid Committee and District Chairman met at a dutch treat dinner Tuesday evening, Sept. 9, in Westminster to outline their plans to raise \$18,750 for private child care needs in Carroll County.

Mrs. Wilbur Shreeve, Sr., County Committee Chairman and Board Member of Maryland Children's Aid Society, and Mr. Andrew Shaw, Chairman of the Business and Professions Committee, explained the campaign organization and goals and introduced many of the campaign leaders. Mrs. J. Pearre Wantz, Jr., of Westminster is Vice-Chairman of the Child Aid Drive. Mrs. Robert A. Scott is a vice-president of the state-wide agency and Chairman of its Western Council.

Each election District in Carroll County has been assigned a quota, and the District Chairman expressed confidence the quotas would be met. They are represented as follows: Taneytown District, Chairman, Mrs. Robert Clingan, quota \$900; Uniontown District, Chairman, Mrs. Robert Weller, Co-Chairman, Mrs. Howard Reichard, quota \$600; Myers District, Chairman, Miss Madeline Shriver, co-chairman, Mrs. Paul Keppel, quota \$750; Woolery's District, Chairman, Mrs. Robert Farley, Co-Chairman, Mrs. Fred Muse, Jr., quota \$1000;

Freedom District, Chairman, Mr. Walter Bennett, Springfield State Hospital, Chairman, Miss Anne Reifsnider, Co-Chairman, Mr. William Kidd, quota \$750.

Also Manchester District, Chairman, Mrs. Margaret Stewart, Co-Chairman, Mrs. Wilbur Ford and Mrs. Richard E. Berwager, quota \$1050; Westminster District, (outlying) Chairman, Mrs. Ary Lamme, quota \$1500; (city) Chairman, Mrs. C. Kenneth Perry, Co-Chairman, Mrs. G. Russell Benson, Mrs. Ober Herr and Mrs. Alan Waganan, quota \$7500; Hampstead District, Chairman, Mrs. Winter Wright, Co-Chairman, Mrs. Clarence Chenoweth, quota \$2000; Franklin District, Mrs. Robert Haight, Co-Chairman, Mrs. Harold Goodwin, quota \$300; Middleburg District, Chairman, Mrs. Lloyd Wilhide, quota \$300.

Also New Windsor District Chairman, Mrs. David Lawrence, Co-Chairman, Mrs. Howard Feeds, quota \$600; Union Bridge District, Chairman, Mrs. Howard Fox, Co-Chairman, Mrs. Morris Gray, quota \$500; Mt. Airy District, Chairman, Mrs. Mrs. Gill Morgan, Co-Chairman, Mrs. Bruce Hodgdon, quota \$500; and Berrett District, Chairman, Mrs. Harry Koller, quota \$500.

J. Fife Symington, Jr., President of Maryland Children's Aid Society, spoke briefly about the way in which the Society operates and its dependence upon volunteer workers and interested individuals in all the counties of the State.

Mr. Symington emphasized that the Children's aid is a voluntary child welfare organization dependent upon the public's generosity and concern for children for 85% of its funds. The Society is the only statewide agency in Maryland serving parents and children of all races and religions, he said.

Miss Frances Mansfield, Director of Central Services, Maryland Children's Aid, talked with the campaign workers about the purpose of the Society and the services it renders to individuals. Providing homes for children through legal adoption, short-term foster cares, services for unmarried mothers, and counseling of parents are the major functions of Children's Aid, she explained.

Miss Mansfield quoted a group of attorneys meeting recently in Washington to the effect that "the black and gray markets in babies can never be wiped out until adequate services for unmarried mothers exist in every community". The Children's Aid Board and County Committees, she added, are determined, insofar as is possible, to prevent helpless infants from falling into the hands of misguided baby placers and black market operators.

Several hundred volunteer workers will call on their neighbors between October 1 and 15 for their contribution for Carroll County's share of Children's Aid support.

WITH OUR ARMED FORCES

U.S. SIXTH FLEET (FHTNC)—Marines of the 1st Battalion, 8th Regiment have left the beaches of Lebanon and are finally coming home after eight months in the Middle East.

Scheduled to depart aboard amphibious ships of the U.S. Sixth Fleet during Sept. 16-18, was Marine TSgt. Carroll E. Baust, son of Mr. and Mrs. E. L. Baust of Rt. 5, Westminster, Md., and husband of the former Miss Ethel Culp of Manchester, Md.

The actual date of arrival at East Coast ports near the Battalion's home base at Camp Lejeune, N. C., is not yet known.

Twice the Leathernecks were relieved in the Mediterranean, and twice they changed course due to the Middle East crisis, eventually landing on the shores of Lebanon July 18.

The 2nd Battalion of the 8th Regiment has also re-embarked and started home. With the departure of these two battalions, Marine strength in Lebanon has been reduced to one battalion (3rd Battalion, 6th Regiment). One other, the 2nd Battalion, is about in the Mediterranean as part of the amphibious arm of the U. S. Sixth Fleet.

Milk Orders Require Co-ops

The 68 existing Federal Milk Marketing Orders were all requested by strong dairy farmer cooperatives. The Federal government will not act unless there is an effective organization sponsoring the Order movement.

Therefore, the Maryland Cooperative Milk Producers, Inc., which represents the majority of the dairy farmers shipping milk to Baltimore, is following normal procedure in petitioning for a Marketing Order.

HOW WILL THE CO-OP BE AFFECTED?

Not at all. The Federal Order Administrator deals primarily with the enforcement of minimum Class prices for milk.

He does not engage in the sale or delivery of milk to the dealer.

He does not provide Field service to dairy farmers.

He cannot guarantee full payment to

farmers for milk. Should any dealer default, the Administrator can institute enforcement proceedings which may bring bankruptcy. The amount the Administrator collects would be distributed to the producers.

WHAT WILL THE MCMP DO?

It will continue to operate in the interests of its members.

It will sell the members milk, collect for it and mail out individual checks. It will continue to guarantee full payment for the milk.

It will maintain its Field Staff to assist and advise members.

It will continue to be the legislative

agent for its members on State or City matters which involve dairy farming.

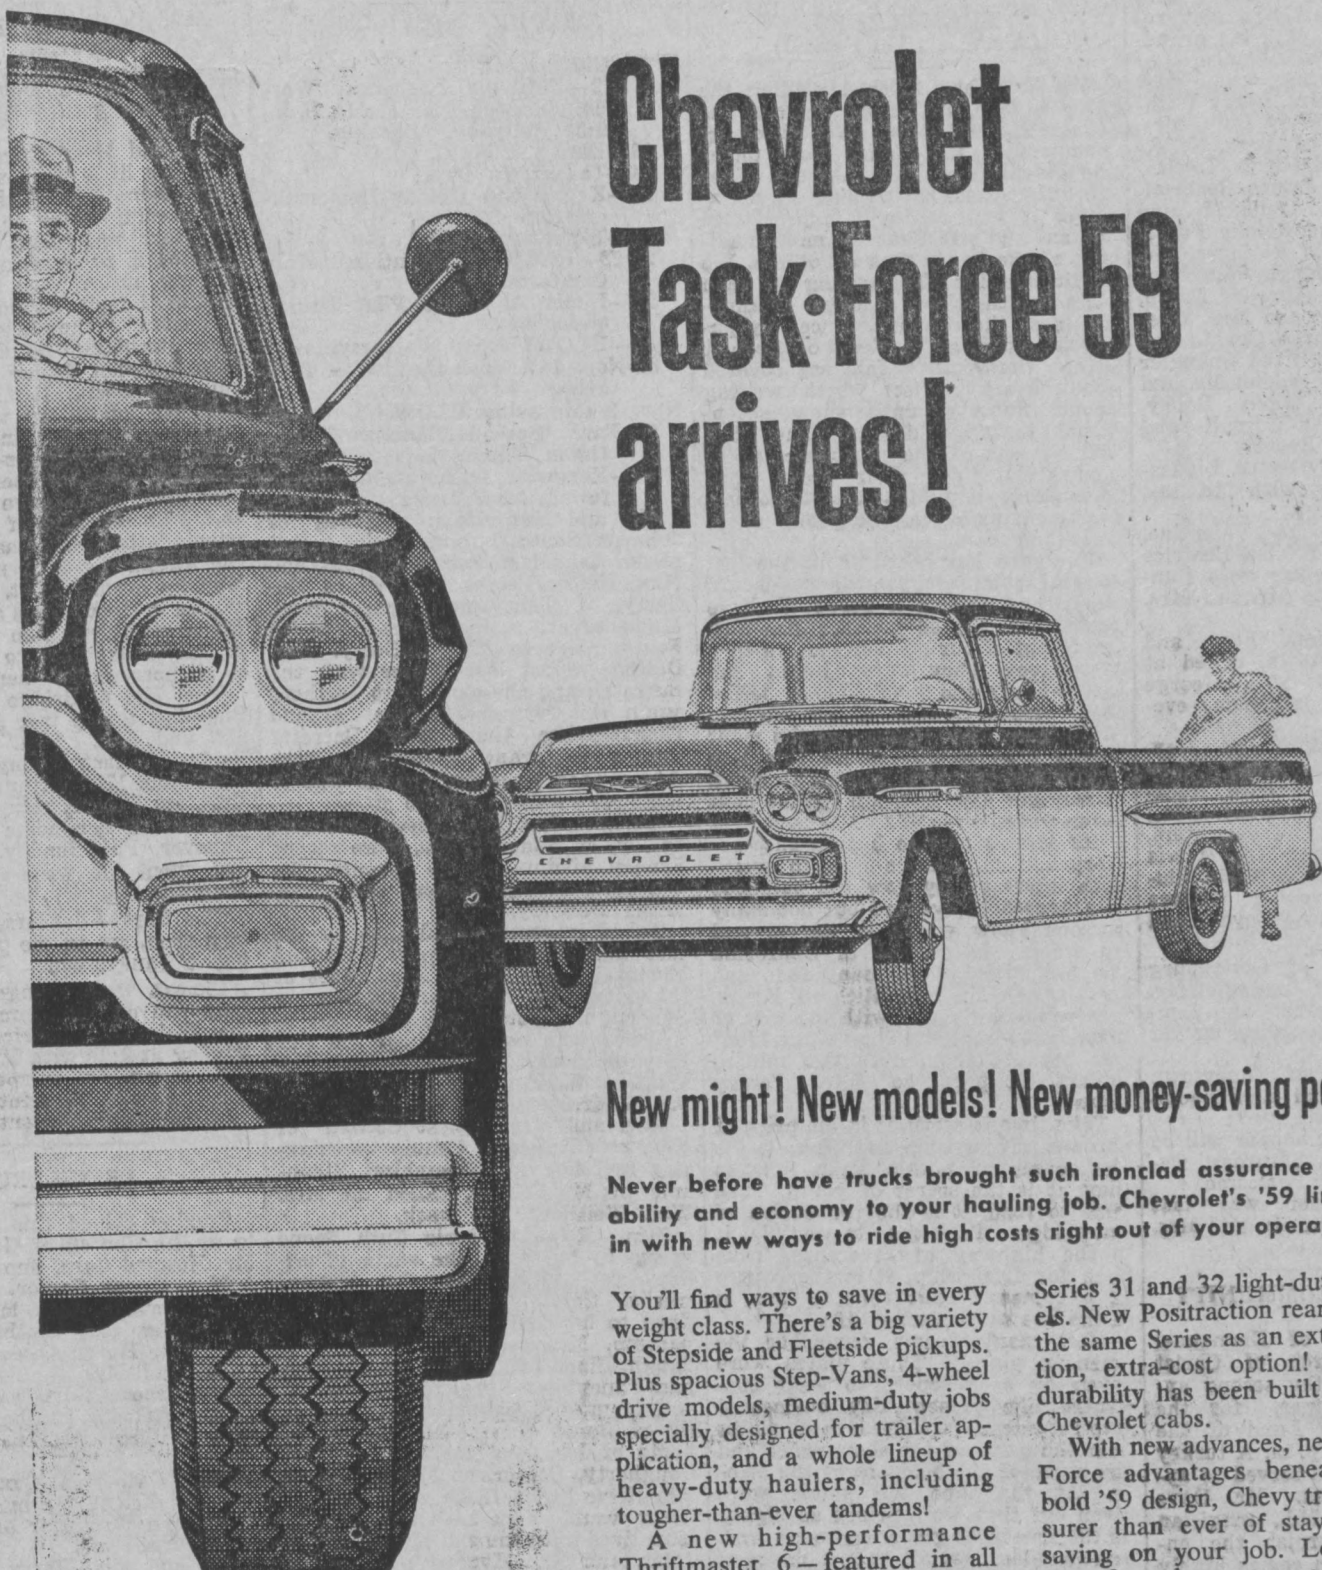

As it initiated the Federal Order, it will propose any desirable Order changes, requests for price adjustments, etc.

In other words, the MCMP will continue its service to its members as it has with increasing vigor during the past 40 years.

PEESERSBURG

(A Voice from Carroll)

We have just finished reading the Wolfe's Tale, the school paper of the Elmer Wolfe School. It is edited by members of the Junior class under the guidance of Miss Lease. Ever since the school has published a newspaper it has gradually improved in content and size. But the current edition of the paper tops all others. We particularly like the heading of each page and the clear, readable arrangements of the columns. Since any paper is noted for the kind of news it prints, the Wolfe's Tale has covered about every subject worth writing about. Some columns show exceptional mature thinking. The staff and advisor of the paper are to be congratulated on their work. They have produced a paper that the school and community can be proud of to all their own.

Everyone has heard about the last rose of summer but who has heard about the last dish of peas? We have because we picked the last dish Saturday out of our garden and did they taste good. They were planted the last of July and just made it before frost struck Sunday night. We had often heard that if one had the right season peas would mature this late in the season. We just hit it right. It may not happen again for the next seven years.

It's always nice to hear a success story and one that is close to everyone's interest. By now the hula hoop is a household by-word but not many persons know where it started and by whom. It started in California the birthplace of so many fads and by Spud Melin and Richard Knerr, two young inventors with the gift of a wild imagination. The "crazy idea" has brought them over two million dollars. It pays to have "crazy ideas".

Take time to work, it is the price of success. Take time to think, it is the source of power. Take time to play, it is the secret of youth. Take time to read, it is the foundation of knowledge. Take time to worship, it is the highway of reverence. Take time for friendship, it is the source of happiness. Take time to love, it is the one sacrament of life.

How many people remember the calendar plates? These plates were given by shopkeepers to their customers like present day businesses give out calendars. Most of these plates bear the name of the shop owner and the name of the business of the owner. At the time the plates were given out they were prized as highly as the free gifts given out today with merchandise. But all this is changed now. Collectors search everywhere for one of these plates and some fancy prices are paid for them. Recently we saw one of these collections numbering over 25 plates and it proved interesting. Everyone was different in design. Some were of the cheap at a couple of English Wedgwood. The calendars on them were of course of different years and different designs. The plates really tell a story of the relationship between customer and shopkeeper that is fast passing from the American scene. Super-markets are doing away with that personal relationship. At no time does the customer meet the owner in these ultra sophisticated markets. Only in small towns is it possible anymore for the owner of a business to know the customers well

enough to even give a calendar with his name on it. Last year we had visitor from a mid-western city. They commented on a calendar hanging in the kitchen. When we told them it had been given to us, they just couldn't believe it. If you want a calendar in the city, you buy it.

He who has learned to disagree without being disagreeable has discovered the most valuable secret of a diplomat.

It is becoming the fad to buy ceramic birds and animals and place them around the lawn and garden. They do add some charm if used correctly but we hope no one is as stupid as we were in placing the ceramics in the right spot. We bought a bird bath and a ceramic red-bird and placed it on the edge of the bath. We wondered why no living bird used the bath. Finally it dawned on us that the ceramic red-bird was keeping them away. It just looks too real. After we moved the red-bird the bath was used by the real ones. We should have known that red cardinals can scare any bird away from food or drink, or nesting places.

When the last chapter on integration in the public schools has been written it will be found that the ones who acted with the most wisdom and dignity were the children. This is another instance when "A little child shall lead them" would have saved a nation much despair and turmoil.

More and more we find that our former allies are disagreeing with us on many questions but mostly on our foreign policy. One popular American attitude that annoys our allies more than any other is our tendency to measure sacrifice in terms of dollars and to assume that the guy who pays the piper (Uncle Sam) should always call the tune. This seems fair enough to the Europeans up to a point; but the point is definitely reached, they feel, when the policy at issue may lead to a general war. The use of war to end aggression never has worked and never will. All one has to do is take a look at Korea. That was a war to end aggression. What did it actually do? It burned Korean villages to the ground, Korean factories were bombed out of existence, soldiers and civilians alike were killed and the country was ruined for generations to come. Does anyone really think that the situation in Korea was made better by a war?

And does anyone believe that war over Formosa will have better results than the Korean war? It is better to try to understand one another's logic than to be pointing a gun at each other's head all the time.

A tall, thin teen-ager had been sent to the principal's office for fighting. Asked why she was always getting into fights, she said, "As long as they call me Turnpike, I'll fight." "But why do they call you that?" exclaimed the principal. "Not a curve in sight," said the girl sadly.—Ruth Roelke.

MEETING OF KEYSVILLE ULCW

The ULCW met Monday evening to discuss the topic "The Christian Citizen" with Mrs. John Harner and Mrs. Elizabeth Shoemaker as leaders. Mrs. Harner introduced the topic and Mrs. Shoemaker had charge of the devotion and the opening hymn used was "O, Beautiful for Spacious Skies". The American Creed was read in unison. The atmosphere of the meeting room, decorations on walls and tables made one feel their responsibility as Christian Citizens.

Various members discussed "Outstanding American Citizens", "My responsibility as a citizen", "Where is my area of effective influence?" and "How do I begin my role as a Christian citizen?" Mr. Donald Six gave a very informative talk on Christian Citizenship. It is our obligation to help create an informed public conscience. He answered questions after his talk. We were better informed as to how we can witness effectively in community, city or government affairs and ways and means to support and promote constructive legislation.

Miss Peggy Kiser very ably rendered two piano selections, "Blessings" and "A Waltz".

All were happy to learn Mrs. Mary Cosden, Mrs. Mary Myers and Mrs. Dharlys Fleharty expressed a desire to become members of the ULCW. They will be formally inducted at our next meeting. Mrs. Mary Devilbiss conducted the business meeting due to the absence of the president and the vice president.

The hostesses for the social period were Mrs. Kathryn Coshun, Mrs. Bernice Wilhide and Mrs. Virgie Ohler. The table was decorated in keeping with Halloween. Cake, salad, coffee and candies were served. It was decided to have a covered dish supper at our November meeting and to meet at 6:30 and have the meeting around the table. The leaders for the November meeting are Mrs. Ruth Wilhide and Mrs. Mary Cosden. Those in charge of specials are Mrs. Thelma Schaffer and Mrs. Elita Wiley and Mrs. Raymond Myers, Mrs. Luther Keeney and Mrs. Vallie Baumgardner on refreshment committee.

CARD OF THANKS

We wish to express sincere thanks and appreciation to relatives, friends and neighbors for all kindness shown us during the illness and following the death of our beloved husband and father, Lloyd S. Lambert; also for floral tributes, expressions of sympathy and services of pallbearers. Special thanks to the Taneytown Vol. Fire Co. for the use of the ambulance and to the Ladies Auxiliary for the hospital bed.

THE FAMILY

Mother: "Tommy, what are you doing, darling?" Little Boy: "Nothing much, mom. With you and God and Santa Claus watching all the time, I can't do much."

"So you have two grown daughters. Do they live at home with you?" "No, they're not married yet."

The World's Hope

Lesson for October 12, 1958

IS THERE hope for the world? Is there hope for me? All human beings ask that question one way or another. For all citizens of this planet, with very few exceptions, can see that this world is not as it ought to be. The more unselfish, the more public-minded, the more sensitive to the needs of human beings a person is, the more deeply he will feel the woes of the world. All persons not smothered in the selfish enjoyment of their own private paradise (if they can afford one) will agree that this world sorely needs hope.

Dr. Foreman

Prisoners of Hope

But is there hope? Here opinions differ. Some of those who are most keenly certain that the world is in a bad way, are sadly convinced that it will not grow better—it can't. The ancient Greeks, and many other races besides, thought of history as going around in circles. The world would go downhill and up by turns, around and around the wheel of fate. No disaster, and no improvement, would ever be permanent.

But the Jews were a peculiar people. They were peculiar among other things for their hope. Alone among the ancient peoples of the world, the Hebrews thought of history not as a circle but as a straight line, an arrow with a point, aimed and going somewhere. If ancient men thought of a Golden Age, they placed it in the far past. The Jews dreamed of a Golden Age, too, but theirs was never in the past.

This hope, as centuries went on, became centered in one Deliverer to come. They called him by various names: Messiah, Son of David, God's Chosen One, the Rescuer or Savior. It is clear from the stories Luke tells that even very old people like Anna and Simeon lived in hope that they might see the coming of the New Age. Somehow

when they saw the baby Jesus they felt sure that the great Hope was now becoming real, at last. Impaired in circumstances they might have been; but always as "prisoners of hope."

Hope Deferred

The sad thing was that the great majority of the Hebrew people, when the long-awaited Messiah really came, could not recognize him. Jesus the carpenter, Jesus the radical teacher, Jesus the friend of sinners, did not fit the patterns and the formulas by which they had described the Coming One. As they would have said, "He does not fulfill the Prophecies." Nevertheless, some did see that he fulfilled the deeper meaning of the ancient prophets' hopes. And so by degrees the number of believers in the Messiah (or Christ, which means just the same thing) grew and grew. Most of the Jewish people were left with a sense of hope deferred. And indeed many Christians were likewise disappointed. For it appears to have been the expectation of the early Christians that Christ's absence in heaven was only temporary, that is to say for a very short time, a few days, weeks, months, years perhaps. Every one hoped and most of them expected to live to see Jesus bursting through the blue sky, riding on a cloud, coming to be King of the World. But Jesus did not come that way. Even in our time some Christians expect to outlive the world's time.

Hope Abides

Nevertheless, and despite all the disappointments and misunderstandings, the hope lives on. Most Christians no longer expect to see Jesus coming on a space-ship. But all Christians do live by hope. That Christ will reign is a hope and a faith that will not down. That in the long run his cause will conquer, that "the kingdoms of this world shall become the kingdoms of our Lord and of his Christ," this the church believes. We have to be modest and humble, or we should be so, about the "how" of hope's fulfillment. For we remember how mistaken the Jews of Jesus' time were, in their interpretation of prophecy, and we know how many Christian interpretations have been smashed by history's matter-of-factness. But we shall not be dashed. We believe that God is not going to be defeated, we believe that against Christ and his church even the gates of hell shall not prevail.

U. S. Senator J. Glenn Beall of Maryland sits at the 'wheel' of the first mailster, the contract for the manufacture of which Senator Beall was instrumental in getting for Maryland. Contract for the manufacture of 3400 Post Office mailsters, to cost about \$3,000,000.00, was divided between a Western firm and an Eastern firm to save on transportation costs. Senator Beall got the Eastern business for a Maryland firm, the Eshelman Motors Corporation, which subcontracted with Charles D. Briddell, Inc., of Crisfield, Maryland. The manufacturers invited Senator Beall to attend the 'unveiling' of the new car at Crisfield this week. Officials of the Post Office Department were on hand to give their Department's stamp of approval to the model, and the small Maryland-made car now goes into full production. The new mailsters will make their first appearance on the streets in December, according to Senator Beall.

to the low-price field with

THE WORLD'S MOST
BEAUTIFULLY
PROPORTIONED
CARS

AWARDED THE GOLD MEDAL
by the Comité Français de l'Élégance—for beautiful proportions—
at the Brussels World's Fair

The new Fords for 1959 have a casual kind of elegance—the fresh crispness of design that distinguishes the Thunderbird. They are beautifully different from all other cars—and from all other Fords. This new beauty was recognized at the Brussels World's Fair. The 59 Fords, on preview, received the Gold Medal of the Comité Français de l'Élégance for beautiful proportions!

They have a straight-through appearance... a clean-cut look that is very open and airy. The entire glass area has been designed to give you the modern picture-window feeling of indoor-outdoor living. The new thin-line roof is actually a sensational engineering achievement—to give you

even greater safety. Yet it has a gracefulness that will make riding in any other car seem "old hat."

And this easy elegance is traceable to the sporting heritage of the beautiful Ford Thunderbird. These Fords are altogether new.

But the most beautiful difference of all is money in your pocket. The 59 Fords are the standout buy in the low-price field. They are superbly designed to give you all the supreme beauty, comfort, power and performance that only Ford's creative engineering can bring you. Soon—on October 17—you'll be able to get that New Ford Feeling in the World's Most Beautifully Proportioned Cars!
