## Elementary School Hits Peak Enrollment

Enrollment at the Taneytown Elementary School reached an all-time high this week with 442 pupils enrolled. This increase reverses a slight declining trend in enrollment which has persisted over the past five years and surpasses a previous high of 439 pupils established in October of 1953. The increase is due to a larger entering first grade this school year and to an influx of new families in the Taneytown area.

## MERCHANTS DINE AT TANEY INN

### Interesting Meeting Held Last Thursday Evening

The Taneytown Merchant's Association met Thursday evening, Feb. 12, 1959 at Taney Inn. Dinner was served at 6:30. Seventeen persons were present and one guest, Mr. Paul Smith of Radio Station WTR Westminister.

Following the dinner a meeting was held with President Harry Dougherty presiding. Norman Baumgardner offered the prayer.

President Dougherty opened the meeting with an historical outline and resume of the association's activities from its beginning. Vice-President Elwood Baumgardner reported the different activities of the association during the past year. He stated that the three highlights of the year were the "Spring Parade of Values" held by some of the stores in Taneytown, the Auto Show held in December, in which the automobile dealers in Taneytown and Westminster participated and considerable interest was manifested in the new model cars that were exhibited on the town's parking lot and the pre-Christmas program presented by the Taneytown merchants in which over 43,000 free tickets were given to customers entitling them to a chance on the 66 prizes that were given away.

The estimated retail value of these prizes was over \$750. Christmas and other music was put on the air in Taneytown preceding Christmas Day. Three radio stations, Westminster, Frederick and Hanover heralded the event.

S. E. Breth had a part in the program in which he asked everyone present what, in their estimation, Taneytown needed most. They were as follows: a community building in the park, promotion for Taneytown, recreation for old and young, swimming pool in the park, more and better publicity, two factories, 200 new homes, more freedom with the parking meters, more cooperation among the merchants, publicity and promotion for Taneytown, low-priced housing, enforcement of the state sales tax regarding out-of-state purchases and improvement and cooperation in the field of business. Brief discussions were made on each of the above suggestions.

It was decided that the next monthly meeting will be held at Taney Inn Thursday evening, at 6:30 o'clock, March 19 and all further meetings will be held on the 3rd Thursday evening of each month unless circumstances require a change in the date.

All merchants are urged to be present at these meetings in order to formulate plans for better business in Taneytown to help increase the town's service to the buying public.

Before adjourning, Mr. Smith took a picture of some of those present. (This picture appears on page four of this paper. Ed.)

## King's Men Crusade Begins Sunday

The King's Men Crusade will get under way in Trinity Lutheran Church Sunday with "Honor Your Neighbor Sunday". Each member is asked to invite a neighbor to the services. This is the first of six-weeks of services every Sunday morning and Wednesday evening.

Nearly 70 King's Men were commissioned at the morning service last Sunday and then visited members of the congregation in the Taneytown area. These men, witnessing for Christ and their church, carried the message of the Crusade and invited their fellow-members to worship in their home and in their church throughout the effort.

Most of these men will also make visits during the campaign upon prospective members unchurched persons in the community. A record of attendance will be kept each Sunday morning and those who do not attend will probably be visited again, later in the Crusade.

The King's Men program was adopted in 1950 by the United Lutheran Church Brotherhood, as its chief objective. The program was revised and improved in 1957 with the new dual emphasis - "Worship In Church And Home". Since its development, many successful campaigns have been carried out by men in Lutheran congregations across the nation. With so many fine men interested and helping in this effort in Trinity, success is most certainly assured.

## JUDGE BOYLAN, JR. SPEAKS TO KIWANIS

### Juvenile Court and its Processes Explained

Vice President Tom Albaugh, in the absence of President George Crouse who was in attendance at the Kiwanis Congressional Dinner in Washington, called the regular meeting of the Kiwanis Club to order last evening at Taney Inn. Key Club guests, Louis Mischea and Ronald Hopkins, and Arch Carpenter's guest Al Buchanan, were introduced. Miles Reifsnider presented perfect attendance pins to the following: Charles Stonesifer, 14 years; Sam Breth, 15 years; Norman Graham, 16 years; Howell Royer, 14 years; Carel Frook, 14 years; Charles Hopkins, 10 years; Wallace Reindollar, 16 years; Leonard Reifsnider, 4 years; Arch Carpenter, 3 years; Ned Musser, 4 years; Chas. Gartrell, 2 years; and mentioned that he was getting one, himself, for 22 years.

The program was in charge of the Boys and Girls Work committee, and Charles Hopkins the chairman of that committee, presented Judge Jas. Boylan who spoke at length on the topic, "The Child and this Community. Judge Boylan drew from his rich and long experience on the bench to show that delinquency in this community is not the result of inadequate recreational facilities, through he readily admitted that recreational opportunities, if properly and carefully supervised, might be helpful.

The problem here as elsewhere, the Judge stated, stems from parental delinquency in the home and from teacher delinquency in the schools. Recreational opportunities cannot possibly replace the lack of proper direction of children in school and at home. There is an overemphasis on recreation. "Man was born to do work, not to play," the Judge stated. He quoted Thomas Jefferson who said, "Games played with a ball are too violent for the body and stamp no character on the mind." He deplored this "Rock 'n Roll business forbidden in these countries we call backward." Our problem with young people today is not how to entertain them, but how to get them educated so that our country will continue to have the leadership it both needs and deserves.

"Parents must be brought to realize their responsibilities and do their job," the Judge said. Misdirected children, delinquents, came from homes where the parents are frequently absent from the home, or who are "too busy", or at night in bed, and therefore do not know for these reasons where their child is, with whom, or what he is doing. Many mothers work and often at the expense of their children, he said, to provide cars, and television sets, and deep freezes. Parents of children who are often times brought into Juvenile Courts have frequently been guilty of pampering their children, a habit which invariably leads to large desires which must be satisfied sometimes by crime.

The schools do not any longer provide a program of work calculated to absorb the energies of our children during their waking hours. Many no longer learn important skills or facts. Typical questions and answers asked at hearings reveal a startling lack of information. "What is the capital of Maryland?" "Washington." "Who is President of the United States?" "Nixon." "What is friction?" "Car standing on ice." "What do you study in Biology?" "Frogs." "How do you go about studying frogs?" "We stick pins in their heads. This paralyzes them and we take out their hearts and put them in something." "What do you put them in?" "I don't know." "What did you learn from this study?" "The frog died." "Can you write your name?" "No." "Can you read your name?" "No." "Can you spell cat?" "No."

When an inquiry was made at the Board of Education to discover why a child in the 11th grade should give such answers as these, the Judge was informed that children most usually are kept with their age group. Admitting that he no doubt came most frequently into contact with the exceptional child in his court, Judge Boylan pointed out that to pass such children along without providing a special program for them was not doing the child or the community a service. He remembered once hearing Bishop Sheen say that he had spent three years in the third grade, and that he did not regret a day spent there. The Judge stated that he felt the State Legislature should provide funds with which to provide special schools for those children who cannot succeed in our public schools. The emphasis in our public schools should be on the 3 R's, Judge Boylan said. "Frills are not necessary or desirable." "Saturday is a good day for athletics if there is time." "The High School Diploma should be made to mean something once again. Homework should be restored to its proper place in the life of a child."

The Kiwanis Club of Taneytown was grateful, indeed to Judge Boylan, who has before given generously of his time, for this forthright and descriptive statement of where he believes the responsibility for the increased amount of delinquency in our community must be placed.

Vice President Albaugh exhorted the members to sell their tickets to the annual Oyster and Shrimp Feed which will be held next Wed. evening, Feb. 25, at Crouse's Garage.

## Elementary P-T A. Meets

The regular monthly meeting of the Taneytown Elementary School Parent-Teacher Association was held on Tuesday evening, February 17, at eight o'clock. Following the call to order by President, Mrs. Gilbert Stine, the meeting was opened with the Lord's Prayer, followed by the Flag Salute and singing of the Star Spangled Banner.

The Secretary's report was given by Mrs. Edward Howarth and Treasurer's report by Mrs. Stoner Fleagle. Mrs. Fleagle reported the transfer of funds from the Harney School P.T.A.

Following the business meeting Mr. Wargny presented a talk on European education, comparing it to that in existence in the United States. It was pointed out that in many countries of Europe children enter public nursery school at the age of three or four, and then begin regular elementary education at 6 or 7. Russian children begin elementary schooling at the age of 7 and continue through a combined elementary and secondary program lasting 10 years. Only about 12% of the Russian children complete this 10 year program as compared to 55% completing the 12 year program prevalent in the United States. A system of eliminating slower students through competitive examinations was described as the accepted pattern in Europe, a system which tends to crush the slow developer and many from non-academic backgrounds.

The classical high schools, typical of France, Belgium, and Holland were discussed and their rigid requirements noted, particularly in the field of foreign languages. Because of a variety of factors including competitive examinations fewer than 3% of the graduates of European secondary schools enter colleges or universities, compared to a national average of approximately 25% in the United States. In many areas, notably the state of California, the percentage is much higher. Mr. Wargny stressed the democratic heritage which has been maintained in the United States enabling such as European scholars as Einstein, Teller, and Von Braun to immigrate to our shores.

Refreshments were served following the meeting by Mrs. John Harner of the Social Committee.

THURSDAY, FEBRUARY 19, 1959

**WE'LL KNOW BEFORE LONG**

Editor Godfrey M. Lebar of Chain Store Age writes: "If the new Congress is wise enough to curtail public spending in order to curb the dangerous inflation which is otherwise inevitable, the outlook for the economy in general, and for retail sales in particular, will be bright indeed."

"But if, on the other hand, the new Congress should be unwise enough to increase public spending instead of reducing it, we will be following a path which can lead only to economic disaster. True enough, adding fuel to the inflationary flames which are already threatening the economy would mean an increase in retail sales in dollars as a result of rising prices, but any increase in dollar sales without a corresponding increase in unit sales hurts our economy instead of helping it. Declining unit sales mean reduced production, increased unemployment and a lower standard of living for all."

Mr. Lebar goes on to say that retail sales are likely to increase this year no matter what government fiscal policy is followed. But the question—and it's as big a question as the nation faces—is whether this will be a healthy increase, based on a stabilized currency, or an increase which merely reflects further degradation of the dollar.

We will know before long. The answer is up to Congress.—Industrial News Review.

**"GRASS ROOTS OPINIONS"**

**BERNICE, LA., NEWS-JOURNAL:** "There have been... attempts in recent years to curtail freedom of the press. The idea behind this action is that an ignorant public is much easier controlled than well-informed citizenry. Certain government officials, in most cases appointive rather than elective, have taken it upon themselves to decide what is good for us to know and what is not, in regard to their particular departments. . . . Constant alertness is the only defense against this constant snipping at our heritage—constant alertness and the proper exercise of the voting right."

**OBERLIN, KANSAS HERALD:** "In early 1959 the face (of Russia) softened, assumed a faint smile in the person of Anastas Mikoyan, who has been traversing this land handing candy to babies and speaking platitudes. Outwardly the appearance is very warm and very human, sometimes winning. There are those who take heart from it and wonder if world peace is not possible after all. "But a moment's logic warns us that the various faces of Russia are reflections of a single mind."

**LEESBURG, FLA., DAILY COMMERCIAL:** "Instead of shaking our heads and muttering about the foreign complainers, maybe we should pay more attention to the friends we have abroad. Among the best of them are the doughty resourceful Dutch people. Not only are they generous in their appraisal of Americans but they are deeply appreciative of the help we give, of whatever kind. And many of them go to great length to demonstrate how they feel."

**CRIPPLE CREEK, COLORADO. GOLD RUSH:** "A tax expert received a call from a woman who asked, 'How much tax is due on \$75,000 income?' About \$41,180, not counting deductions, she was told. 'Well, what about \$150,000?' she asked. The bill jumped to \$101,980. 'Thanks for your help,' said the caller. 'I'm just deciding whether to buy one or two tickets on the Irish Sweepstakes.'"

**CANTON, GEORGIA, NORTH GEORGIA TRIBUNE:** "The government does not owe anyone a living. Thrift, security for the future, and saving, must continue to be praised

**MOTHER ANSWERS TEENAGER**

(Editor's Note—The editorial printed below was sent to us by a subscriber. We don't know the paper it was clipped from, but it originated in a Seattle, Washington, edition. And it applies to teenager "with nothing to do".)

THE MOTHER of a teenage student, and Ralph N. Peterson of the department of guidance of the Spokane public schools, became engrossed one day in the ubiquitous complaint of the teenagers about not having anything to do.

They came up with an answer, several of them, for that matter, and they are gaining in circulation. The ideas are reprinted here:

Always we hear the plaintive cry of the teenagers:

"What can we do.....?"

"Where can we go.....?"

I can make suggestions. Go home!

Hang storm windows, paint the woodwork. Rake the leaves. Mow the lawn. Shovel the walk. Wash the car. Learn to cook. Scrub the floors. Repair the sink. Build a boat. Get a job.

Help the minister, the Red Cross, the Salvation Army. Visit the sick. Assist the poor. Study your lessons. And when you are through—and not too tired—read a book.

Your parents do not owe you entertainment.

Your village does not owe you recreation facilities.

The world does not owe you a living.

You owe the world something.

In plain words: Grow up; quit being a crybaby; get out of your dream world; develop a backbone, not a wishbone; and start acting like a man or woman.

I'm a parent. I'm tired of nursing, protecting, helping, appealing, begging, excusing, tolerating, denying myself needed comforts for your every whim and fancy just because your selfish ego—instead of common sense—dominates your personality and thinking and requests.

in our great country. The federal hand-out system is needed in many cases, and that's why we have it. On the other hand, we must keep its payments at a minimum, for it should never be forgotten that the industrious hardworker, who might accumulate something in life, should not be forced to pay an exorbitant bill for the bums, the lazy, shiftless, or the good-for-nothings—who will always put the pressure on the politicians for bigger and bigger hand-outs."

**TAYLORVILLE, ILLINOIS, DAILY BREEZE-COURIER:** "Inherent in the works comprising and supporting this political system of ours are the words 'tolerance', 'differences', 'persuasion', 'compromise', and 'change' as aptly pointed out the Anvil Chorus. It might well be our theme song for we do hammer out actually a final product which has been forged to-

gether from conflicting public sentiment to the complete amazement of virtually the rest of the whole world".

**GRANTS, NEW MEXICO, BEA-CON:** "If we must have additional taxes to build roads, let's collect it locally where we can exercise some influence over how it's spent and where".

**CONWAY, SOUTH CAROLINA, HERRY HERALD:** "The Lords of organized labor. . . are out to wipe out that portion of the Taft-Hartley law which permits states to enact and enforce right-to-work laws. They plan to control states through the federal government and further throttle the rights of political subdivisions to guarantee American Citizens the right to work".

**CUERO, TEXAS, RECORD:** "The almighty dollar commands a lot of respect. But it doesn't go as far as politeness".

**THE CHRIST—YOUR BODY—AND YOU—**

This is a story about Jesus, the Mighty God Who made this Earth, and on it once trod; God sent Him to tell how we all must be At the end of Time, and through all Eternity.

Jesus revealed the Christ—the Spiritual man— That, too, they tell us, was part of God's plans; God sent Him here to show how we all must be Before we can go from Time to Eternity.

Jesus came as a baby—(just like me and you) God sent Him to show how we must do; He spent His time doing good from day to day Because, God wants us, to be that way.

In every Age, Jesus has come this way "He made everything that was made", the Scriptures say; So, God has crowned Him Earth's future King, And the bells of peace shall forever ring.

Jesus was the Greatest of all men they say, Because He knew the Christ and went God's way; He listened to God, the Scriptures say; And, finally learned to do things God's way.

The Christ in your body is the real you— (That is one truth mortal man never knew!) Jesus learned it through the ages, they say, And, finally learned to do things God's way.

Here, too, is something we must learn to do— We must make our body like real you; Until mortal man does it he is only a man; So, to learn to know God, we must follow His plans.

It was the Christ consciousness some writers say That under Jesus the greatest man who ever came this way; Christ is the mind of God individualized, they say; So, it is He who inhabits these bodies of clay.

Jesus said: "Ye believe in God, believe also in Me"— (Those were the words of the Christ said to be); So, since the Christ is God indwelling in man It is your God made to carry out His plan.

We cannot separate Jesus Christ from God; they say; "The two are alike in every way"; So, as Jesus did, we must learn to do; He made His physical body like the real you.

What Jesus attained, we must learn to do— (God expects the same of me and you) Jesus made the clouds His chariot, and walked on the Sea; And, like Him, God intends we all shall be.

Unity harps on the Spiritual nature of man— God only uses our bodies to carry out His plan) Jesus said to all peoples: "I am the Way"; (So, as He was, we must be some day.

God sent Jesus to show how we all must be Else we could not live through Eternity; We must have bodies free from decay Before we can enter the endless day.

There are countless things we all must learn Before the fires of hell shall cease to burn; Here God trains us like Himself to be; For, through us, He shall reign in Eternity.

We all come here to learn of God's plan— (This earth is the University of man!); God trains us all here to do things His way; For, we are His hands, the Scriptures say.

Before taking the body a Nazarine, it appears Jesus was incarnated as several great peers, He said: "Before Abraham was born, I am", they say; And, just so it shall be with us some day.

Palmedge said, as a Boy, Jesus knew of God's plan (Why He made earth, and how He made man; He said, "When a Boy, Jesus made birds out of clay; And, when He said: Fly away, they flew away.

Jesus knew many things, the records say, Which He did not tell in that early day; He did not tell all about what God did Because God has a reason for keeping them hid.

There are many other things I would like to tell About the Boy, Jesus, God sent here to dwell He said to Pilate: "I was born to be a King?"; So, hosanna shall again make the welken ring!

This is only a synopsis of God's great plan (It would take many books to tell about God and man); But it gives a hint of how things shall be When the time arrives for Earth's great jubilee.

**BIG FIRE IN HARNEY.** A midnight blaze threatened to destroy entire town. Loss about \$7,000. The prosperous, but fire defenseless little town of Harney, suffered a fire loss, on Wednesday night, which it will long be remembered both for the loss itself and for what might have been, as well as for the heroic work of the citizens who by hard and well directed work, saved the major portion of the town from destruction. The fire was discovered in the front part of the cigar factory of Ervin L. Hess, in the S. S. Shoemaker combination building, on Littlestown St. The alarm quickly spread and soon willing hands were directed to saving property but it was at once realized that this building as well as the store and dwelling occupied by George I. and H. R. Shriver were doomed.

FEESERSBURG

(A voice from Carroll)

Mr. William Condit, principal of Belmont High School has come up with some discoveries about hot rods and high school marks. He says A's and B's and cars don't mix but D's and F's do. He goes on to say that high school boys are joy riding out of an education. The boy car-owner often winds up quitting school so he can get a job to earn money to keep the jalopy's thirst for gas satisfied. It's almost beyond comprehension why parents allow a teenage boy to own a car before he has finished his education. We all know that social pressures on a boy are strong. Many teenagers feel they are nobody unless they drive their own car. Many mothers concede that cars have been the ruin of their sons and wish that there was some way to make them realize that cars are not the most important thing in their life. Many colleges forbid freshmen to have cars on the campus for the simple reason they know that when a boy is riding around he cannot be getting knowledge out of books. Boys do outgrow their craze for wheels but by that time it is too late to do anything about poor grades in school.

Saturday was no day for anyone to attend a sale but several hundred people ignored the weather and took in not one sale but two. The sale in Taneytown was held indoors for most of the selling but the one near Harney was out in the open. But people stood around in the rain like it was a bright summer's day ignoring the cold rain that was using their necks as rain-spouts. There are still a lot of hardy people in this world but the toughest of them all are the ones that have contracted the antique virus. One never gets over this disease no matter how old one gets. A woman will stand all day just to buy a broken chair that will cost her a pretty penny to have repaired or a man will put a mortgage on his farm to buy a gun that he thinks some soldier in the Civil war used at Gettysburg. Why? Who knows? Maybe for the same reason that some Indian tribes in South America collect shrunken heads. "Poise" declares Colonel Duffy, "is the ability to remain calm and at ease in a barber chair with your mouth full of lather, while the porter gives your brand-new hat to another customer."

Within her automatic home the housewife lolls and lingers, no longer plagued with dishpan hands, but bruised push-button fingers. Some people just have to be the first in about everything. The new United States flag is not supposed to be used until July 4th but already some enterprising souls have beat the gun and some stores are selling the 49 star flag. The old 48 star flag may be used until it is worn out no matter how long it lasts but the new flag is not to be used until we celebrate Independence Day.

According to news from Annapolis Marylanders are going to get some kind of new censorship law governing movies and certain kind of magazines. Also Sunday blue laws are going to get a good going over. Certain groups want to stop all kind of selling on Sunday. Our only comment at this time is that we hope they won't close the grocery stores on Sunday for we are always running short of bread or milk, especially if unexpected guests arrive. We are certain that there are many other home-makers like us for some small grocers say that do the most business on Sunday. Sunday blue laws were introduced by the Pilgrim fathers who regarded any kind of activity on Sunday a breach of religious faith. Today the laws seem sort of silly. Not at all in step with the other changes of the 20th century.

John Crosby, T. V. critic says that there is something radically wrong with a system that allows sponsors of dramatic television shows to be able to have life and death control and even editorial control over some of the best shows on the networks. The air waves are national assets and national treasures. Are we going to stand by and let Goodson and Todman fill them up with the kind of shows they write or Warner Brothers with Bang, Bang, Bang all week long. Trouble and Faith

Lesson for February 22, 1959

IT IS A thousand pities, but it is a fact, that the Christian church, which ought to be united by the Bible, has become split over it. Not split by it, but over it, in varying and discordant interpretations of what the Bible means. No passage in all Scripture has been the subject of more debates and differences than this 13th chapter of Mark, along with the parallel chapters, Matthew 24 and Luke 21. These are the chapters that report what Jesus, said as he looked down the vista of time to the "end of the age". (That is a more literal translation of the Greek expression sometimes translated "end of the world.") Many Christians, despairing of getting any unanimous explanation of these difficult sayings, have just given up the whole business as a waste of time. Yet these chapters are not a mere puzzle.

Dr. Foreman

Faith Expects Troubles

Let us stick to one general helpful truth which meets us here, namely the relation of trouble and faith. First of all, as Jesus looks down the years, he does not see the light growing brighter and brighter. At least, he does not see the future with the eye of the unadulterated optimist. He uses some frightening language—wars, earthquakes, famines, "abomination of desolation," tribulation, and darkness at noon as at midnight. Jesus gave no backing to the idea that if you have faith enough "all your troubles will be bubbles" as the song says. Some troubles are very solid, they can smash a man and his hopes. No matter what goodness there may be in the world, no matter how good God is, there are going to be troubles ahead. People who give up their faith in God because they run into a squall-line of trouble-clouds, which they can

neither fly over, under or around, cannot have read these sayings of Jesus very carefully.

If Jesus had seen only the times of darkness he would have been a pessimist. If we follow his lead we shall by faith see not only troubles as a certainty (though what troubles, and when, only God knows), but also we shall see beyond all troubles. Most important, we shall see God on his throne. There is a famous story of Martin Luther, whose wife once appeared at the table in deep mourning. Martin was astonished. "Who's dead?" he asked. "God must be dead," she answered. "At any rate you have been going around for the last week looking and talking as if He were dead." Martin Luther got the point. God is not dead... yet how many Christians we see today who, looking ahead, see only the troubles, and not the God of love and wisdom without whom not a sparrow falls. Beyond the troubles too we see Christ coming again. It is not true to Christian faith to think of the future as stretching out endlessly, a never-ceasing battle without victory, between God and evil. All that Christ lived and died for will come to pass. "Through many tribulations we must enter the Kingdom," Paul said (Acts 14:22).

Faith Outlives Trouble

Jesus did not play down, discount or underestimate what the men and women who follow him may be called upon to undergo. There are many troubles before the end-time troubles, as he pointed out. He used expressions like "the beginning of the sufferings... the end is not yet..." Even in an ordinary Christian's ordinary life, the life of one who dies centuries before the "end of the age," there will come troubles which will be absolutely crushing apart from the help of God. But the point of these appalling chapters on the End is that even though heavens (the universe) and earth pass away, God's people—the men and women of faith—shall not pass away. Look around you, wherever you are. Are you afraid that these things you see may be swept away? So they will, so God's word assures us. Whether swiftly or by slow degrees as water wears the solid granite, all things visible are destined to decay and destruction. But not all things invisible! You, the real and invisible You, will outlive all destructions. But how? In terror, calling for the rocks to cover you, or in fearless faith?

### SENATOR WEANT'S LEGISLATIVE REPORT

#### Three Important Bills Now Being Considered

This past week witnessed the consideration, among many other bills, of three matters that have commanded much attention. These matters concerned the reorganization of the State Roads Commission, the establishment of a Court of Special Appeals, and Motion Picture Censorship. Public hearings were had on the Court Bill and on the Censorship Bill. The matter of the reorganization of the State Roads Commission was presented in an address to a joint session of the Legislature by Governor Tawes.

In his address concerning the State Roads Commission, Governor Tawes recommended a plan aimed at modernizing and centralizing the State Roads Commission. In order that Maryland will be able to accomplish its construction schedule of interstate, primary and secondary highways as rapidly and efficiently as possible. He suggested that the present three-member State Roads Commission be abolished and that in its place there be created a State Roads Commission consisting of seven members. One member would be appointed from the nine Counties of the Eastern Shore, one from the four Counties in the southern portion of our State, one from the western area which includes Carroll County, one to represent Prince George's and Montgomery Counties, one from that portion of our State governing the Counties of Baltimore, Howard and Harford, one from the City of Baltimore and another to be appointed from the State at large, who would be a full-time Chairman. This matter will be taken up later in committee hearings.

The Court of Special Appeals is designed to relieve the Court of Appeals of what is thought to be an overload now existing. This new Court, if established would handle only certain types of appeals and would not be an intermediate Court but would be more in the nature of a junior Court. The establishment of this Court would call for a constitutional amendment. The proponents of these bills were heard in a joint hearing, and the opponents will be heard on Wednesday, February 18, following the two o'clock sessions of the Legislature in the Senate Chamber, probably before the publication of this letter.

The Censorship Bill proposes to have the Movie Censorship Board label certain movies as being unfit for children under 18 years of age. These bills would put certain penalties on the theater operator and other persons, including parents, who knowingly allowed children under the stated age limit to attend pictures so labeled. There has been no final action on these bills to the time of this writing.

Tuesday, February 24, is scheduled for further budget hearing concerning the Department of Health; Wednesday, February 25, concerning the Department of Mental Hygiene; and Thursday, February 26, concerning the Board of Natural Resources, which will include the Water Pollution Control Commission. These hearings will be held on the days indicated, at 10:30 A.M., by the Senate Finance Committee, and at 2:30 P.M., by the House Ways and Means Committee. E. C. Weant, Jr. State Senator
