Carroll County Red Cross Reports on 1959 Fund Campaign

At its regular quarterly meeting on May 4th, the Board of Directors of the Carroll County Chapter of the Red Cross heard the report of Fund Chairman Charles R. Stroh on the 1050 Comparison fortfunde 1959 Campaign for funds.

When the Campaign opened Chair-man Stroh announced that \$14,700 would be needed if the Chapter's 1959 Activities Program was to equal that of 1958. As the campaign progressed

it became apparent that the returns were falling short of those of 1958. This was due (1) to the difficulty the Chairman was having in getting an fewer and smaller gifts. These facts were given to the public via Radio and Press, and the Chapter voiced the fear that unless the goal was reached there would have to be some curtailments.

At the May 4th meeting Chairman Stroh reported a total of approx-imately \$10,000.00, with a possibility of perhaps \$200 or some such an amount yet to come in. As the total would be considerable less than the goal, the Board was forced to decide what the 1959 program might include. By the rules of the National Organization of the Red Cross, under which the Carroll County Chapter operates,

certain activities are mandatory, while others may be suspended or modified. After a lengthy consideration, the Board voted unamiously to suspend for 1959 its (1) Swimming Program, (2) Services to Veterans' Hospitals, and (3) its appropriation to the Gray Ladies, which they had used in entertaining the patients of the Springfield Hospital. This action was taken with the greatest regret, and in hope that these curtailments will be for 1959 only.

The Board noted with pleasure that

F for each lady present in commemora-tion of the occasion. Each gift was wrapped in silver foil with colorful ribbon ties and placed on a table in the back of the room. Numbers were called throughout the dinner and each lady selected the package of her choice and opened it for the group to

enjoy The theme of the evening was "We Are 20 Tonight" which was high-lighted by an after-dinner showing of the color slide collection of Robert Smith depicting Kiwanians' homes, businesses, family gatherings, special occasions, etc., dating from the early days of Kiwanis to 1951. It not only afforded charter members the opporanorded charter members the oppor-tunity to reminisce, but gave newer members a glimpse of Taneytown and its environs, pre-1951. A dramat-ic closing took Kiwanians back even further than most in the group could remember, when a number of slides used for theatre "commercials" shorty after the turn of the century were hown.

Among the 70 persons attending the anniversary celebration in addition to Kiwanians and their ladies were Key Clubbers Doug Gunther and Merle Weant, and Roger Hall, Westminster Rotarian, who was the guest of Kiwanian Geo. N. Shower.

The trip to Harpers Ferry was truly a most enjoyable one and en-joyed by the 400 individuals on the second trip. The first trip held 1100! The proceeds go to the Peale Mu-seum! The B & O trains left exactly on schedule 10:30 A. M. and returned at 5 P. M. A gentleman explained all points of interest along the way through a loud speaker. Many car-ried their lunches from home although lunch could have been ordered in a lunch could have been ordered in a large box affair at the time of the purchase of the tickets. The beautiful B&O trains can out do any other company as to train and the service, too. The trains that made that special

too. The trains that made that special trip are only two years old and are kept beautifully clean at all times. A Bus was waiting upon the arrival in Harpers Ferry for those who want-ed to dine at "Hilltop House" and it means all you can eat for the one price—a Southern Fried Chicken din-ner. The town is really coming to life and so much has taken place as to renovation since I made the trip to renovation since I made the trip three years ago. It now is preparing for The Harpers Ferry John Brown Centennial Observance from Oct 12 to the 18—1959.

to the 18—1959. There will be a Re-enactment of the storming of John Brown's Fort, Costumed groups of people each day placed at points of interest through-out Harpers Ferry, Performance of "Living History" by the Rube Darby players, Open house at the Harpers Ferry Women's Club and Monument Headquarters. Nightly performances of "The

Headquarters. Nightly performances of "The Prophet" a three act Historical play written by Mr. Wallace Dace, Assis-tant Professor of Drama at Sweet Briar College. This play will be di-rected, produced and acted entirely by local people and will be given at the Harpers Ferry High School Audi-torium. torium.

Friday, Oct 16:—Historians Day— Historical luncheon honoring Mr. Boyd Stutler, the country's leading authority on John Brown. Various historical dignataries will be guests and speakers at the luncheon. Out-door Band concert will be by the Shepherd College Band. There will be a contest of Beard Growing and Costume judging awards! On Sat-urday, October the 17—West Virginia Governor's Day honoring the Gover-nor Cecil Underwood, his party and distinguished guests. Following, a Motorcade of all dignataries will proceed to Charlestown and back through Harpers Ferry. Outdoor band by the Harpers Ferry High School Band. Again "The Prophet" performance honoring the Governor followed by a reception for him and historical dignataries will be guests pointed for the Alumni banquet to be held on June 6. Tables - Catherine Baker, Emma Stitley, Grace Putman, Elizabeth Hawk, Catherine Clingan, Florence Flickinger. Frying Chicken - Mrs. Pauline Vaughn and Mrs. Mollie crouse; Vegetables - Ethel Harman and then "Open House" at the Shep-herd College with an afternoon "momecoming tag" and another Mat "homecoming tea" and another Mat-inee performance of "The Prophet". It is truly wonderful to see and learn how much has been accomplished as to repairs and the old homes being restored! A walk of a half mile for the beautiful sight across the Potomac River up the old stone steps you will always remember. There is a church at the top and a little sign on the door which reads, "No one can enter here in Shorts or Blue Jeans!" The trains going down for the trip is "off the beaten track" in other words no passenger trains operate over the "Old Main Line." And thinking about the Mt. Royal Station, this station was first used for passenger service of Sept., 1896 and in recent years the interior has been completely modernized. As the trains left Camden station, I realized how old it all appears and that historic station was built in 1852. This is the route from Camden station that in the wee hours of the morning Abraham Lincoln passed Feb 23, 1861 on his way to Washington for his first inauguration! Then the route goes to Relay and then on to Ellicott City and contin-ues and all explained beautifully by the Guive en route at the head of each train through the loud speaker. There is so much History to the trip and of the B&O trains that it would mean four or five Columns. This I know that to go B&O way anywhere means a grand and com-fortable trip and most immaculate one!

WHERE EDUCATION BEGINS

'In these days of super governments and growing centralized authority over our lives, it is good to be reminded that in a few areas there still remains real old-fashioned local control. A good example of this is the local school board. Dr. Paul Woodring, a consultant for the Fund for the Advancement of Education, says that: "Voters ought to study the candidates for school boards just as carefully as they do candidates for Congress."

The Board holds the legal responsibility for public education, it hires the superintendent, is responsible in the broad sense for school policy and has the final say on the budget within the limit of state laws.

A good board member has definite ideas on the subject of education. He knows the difference between policy making and administration. He doesn't try to tell the principal how to run the school.

Everyone should occasionally attend a school board meeting. Local control of the nation's schools is as vital as freedom of the press or any other freedom. Fancy school buildings do not make educated citizens. Education begins with qualified teachers, backed up by an able school board, elected by the people of each community. You owe it to yourself and your community to exercise your privilege of helping to elect the right

people to run your local school system. No one else can do it. -Industrial News Review

FACTS AND OPINIONS

Publisher Tom Anderson of Farm and Ranch magazine writes: "What is this thing we've inherited which we'll defend with our lives? If it's bricks and mortar, factories, cars, houses, gadgets, and places of pleasure - if that's all we're defending, we'll lose them, and all else. What are we defending against the Communists? We are defending the freedom and the dignity of the individual, the right to be masters of ourselves and of our government; and to be servants only of our God. Defend? We must not only defend. We must get on the offensive, and take these ideas, these freedoms, and these blessings to the world. 'Containment' of Communism is only a beginning, not an end."

Japan topped the world in ship-Shipping reports. West Germany went into second place, closely followed by Great Britain and Northern Ireland. Sweden was next, slightly ahead of the United States.

Cold War note: Part of a U. S. exhibition in Moscow this coming summer will be a typical \$13,000 American home, containing \$5,000 worth of furniture. A leading Soviet newspaper, Tass, has ridiculed the exhibit in advance, saying: "There is no more truth in showing this typical home of the American worker than, say, in showing the Taj Mahal as the typical home of a Bombay textile worker or Buckingham Palace as the typical home of the English miner." The fact is that the home is being built commercially in New York State to sell for \$13,000-and that a major department store offers the furnishings to all comers for \$5,000.

The Federal government collected \$540 million in excise taxes in 1929, and almost \$11 billion in 1958.

CURRENT EVENTS FIFTY YEARS AGO

Mr. T. A. Martin, the well known architect and builder, scored another point Tuesday, May 18th., when he directed the raising of the barn on the farm of U. Grant Crouse, near Mt. Union. With the help of 52 men, he lifted the heavy timbers in place and had all the rafters and lath up at 11:30 a.m., which was just the proper time to enjoy a magnificent dinner, prepared by Mrs. Crouse and a corps of neighborly lady assistants. Come-and bring your family and friends-and make the first Carroll County Historical Society Fair ... a day to be re-

membered with County pride. On Saturday Mr. Billopp writing in the Baltimore Evening Sun chose the topic of his column the lowly wheelbarrow. It is one of man's brainchild and has turned out to be one of man's indispensable items. No family can get along without one. Its good for many things besides hauling or rather pushing dirt from one spot to an-other. People use them to decorate the lawn with flowers in them and children use them as a means of traveling over the grass and down a hill until it upsets and then the fun is over. A wheel barrow can get a person to do a lot of work he otherwise would not think of doing. Its a temptation to fill it up with something and start pushing it most anywhere just so its traveling. So the best thing to do if one wants to be master of his own spare time is to burn, hide or bury the one wheel invention or else buy a power lawn mower and be a slave to another of man's inventions. a slave to another of man's inventions. lection and delivery service. The Department emphasizes that it is the reponsibility of the rural pa-tron to provide suitable boxes, erected and maintained for easy and safe ac-cessibility, presenting a neat appearance, and affording protection for the mail. Boxes that are improperly erected or in unserviceable condition retard delivery of mail and expose it to the weather. Names of box owners should be inscribed on the side of the box visible to the carrier as he approaches, or on the door if boxes are grouped. The box number may be inscribed on the box if desired. Boxes and supports should be kept painted they may be painted either white or silver, and your name in neat black letters about one inch in height on the side of the box. Rural mail boxes must be located on the right side of the road in the direction of travel of the carriers in all cases where traffic conditions are such that it would be dangerous for the carriers to drive to the left in order to serve the boxes, or where their doing so would constitute a violation of State or local traffic laws and regulations. Approved rural boxes must be of the regulation type and located at the curb line, and erected so that the bot-tom of the box will be 3½ to 4 feet above the roadway. "All Things Bright and Beautiful . . ." By J. Edgar Hoover, FBI Director

Years ago every child was familiar with a simple but lovely poem of praise to God for the miracles of every day—the sunset, the meadows, the color of a bird's wing, ripe fruit in the garden. Today, unhappily, that poem is not so widely known, and even more unhappily, the children who live in the cement, brick and steel canyons of the cities are unfa-miliar with "all things bright and beautiful"—those miracles of na-ture which the poet sings. Since the civilization we are building eliminates nature's great classroom for many of our children, we are duty bound to provide the best substitutes of which we are capable. That is the task to which the many Boys'

which we are capable. That is the task to which the many Boys' Clubs of America are devoted. While a tiled swimming pool cannot supplant the "ole swim-min' hole" in its natural setting, or any game match the thrill which a battle with a fighting trout provides, these substitutes may yield the sole bright spots in lives that are drab and bleak. In-deed, in many instances, "all things bright and beautiful," all stability, and all constructive ac-

tivity in the life of the street child is supplied by the Boys' Club to which he belongs. I from the fact that in areas where a Boys' Club program exists, de-linquency diminishes—the Boys' Clubs of America deserve the un-

which he belongs. For these reasons alone—apart qualified support of every citizen.

Thanks

for calling"

0

How often people use those words at the end of a telephone call!

Perhaps they mean "thanks for the good news." Or "thanks for this useful information." Or "thanks for the order."

Sometimes they mean "thanks for thinking of me. Thanks for cheering me up."

Whatever the meaning may be, people do appreciate your calls and you appreciate theirs.

"Thanks for calling" is a constant reminder of how much usefulness and value and friendship your telephone gives you. It's one of life's biggest bargains.

George Harrison, Yadkinville, milk producer, has good cause to be a firm believer in the Purina Dairy Program. His 20 cows jumped from an average of 9,726 lbs. milk per cow in 1957 to 11,083 lbs. in 1958.

"This shows exactly how much the Purina Program has helped me and my herd," says Mr. Harrison. "And, since these are DHIA records, I know they tell the whole story.

"Purina's Program is good for a cow from the time she's born until she leaves the herd," Mr. Harrison adds. "Calves on Purina get off to a good start. Heifers grow up in a hurry, freshen young, and start right in producing like grown cows.'

Government for Whom?

not unknown in the life of church

Another mistake Rehoboam made was to forget why government exists. He thought of it as an arrangement for his own benefit. This is not a notion that got buried with Rehoboam. The notion outlived him by many centuries and is still with us. There are politicians in our country who may belong to one party or another, what the party stands for makes little difference with them, what they are interested in is winning elections so as to get political jobs. Government, in their eyes, is for the benefit of the politician, the man in the government job. The truth is, that when government really is only for the officeholder's benefit, it is time for a revolution. The real aim of good government is the benefit of the people. If the people are benefited, then the government is good; otherwise not. The people of Israel had had it hard in Solomon's time. "My father [Solomon] chastised you with whips," said Rehoboam. In other words, "You took a beating." Rehoboam thought that was a good thing. But the people didn't.

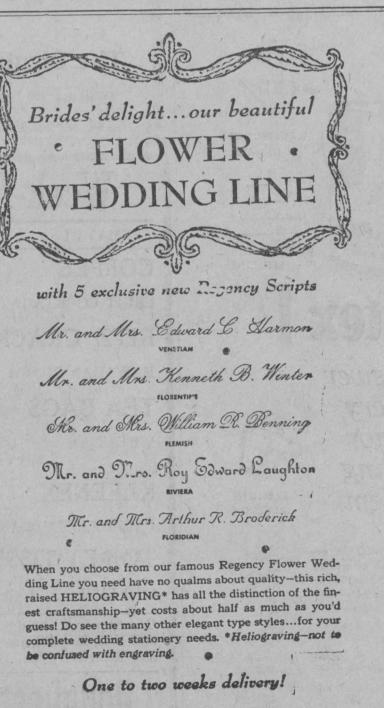

Where Does Power Come From?

It did not occur to Rehoboam (who was about 40 years old at this time and had had time to learn, but never did) that if he was to be king at all he would have to be elected. Saui and David and Solomon had all been elected by the people. Our American idea of government with the consent of the governed isn't the whole idea. Government by the people, by their will and choice, is not merely an American idea. It goes back to the ancient Hebrews. You can find it in Deuteronomy 17 already. But poor stupid Rehoboam didn't discover this till too late. He thought if he shook his sword and shouted. it would be enough. It would have been, if power comes from the top down. It is not, in a country where the power is, in the people. Power comes first of all from God. But he knows (and we find out soon enough) how dangerous power is when one mar tries to steal it all.

Statistics prove that sickness can be the direct result of emotional disturbance. Conversely, radiant health is almost invariably accompanied by an op-timistic and untroubled frame of

mind. To deny that all lives can run smoothly all the time would be a distortion of fact. But one of the most vivid signs of maturity is the ability to think constructively and with calm tolerance, come what may.

We have only to look at the modern world of science to dis-cover that the problem without a solution is indeed a rarity.
