TANEYTOWN LIONS CLUB HOLDS MEETING

Led by District Governor Russell H. Marsh, present from Union Bridge, the recognition of International Councilors of District 22W, Lions International, was the theme of a colorful meeting prepared by Program Chairman Lion Singleton E. Remsburg for the Taneytown Lions Club, holding its regular session at Taney Inn last Tuesday, May 26. President Frank T. Dunham presided, Merwyn C. Fuss invoked divine blessing, songs were led by Harry B. Dougherty, and Harry I. Reindollar accompanied at the piano.

In brief remarks following an excellent Taney Inn roast chicken dinner, Governor Marsh expressed his appreciation to the club for its 100% attendance record, congratulated Lion Dougherty on his faithful performance of the duties of Zone chairman, and called attention to the fine record of membership which the entire multiple district will be reporting at its convention being held the balance of this week at Atlantic City. Chiefly through the statistics of B and W (W being our area of the multiple district) there will be a net membership gain, whereas Washington, Baltimore, and Delaware have had some losses. W's achievement may largely be attributed to the formation of the Roaring Run club with its 45 new members, a product of Gov. Marsh's administration.

Lion Remsburg thereupon introduced Counselor Carl C. Thomas, Carroll Manor club (Governor 48-49), Clarence O. Fishpaw, Westminster club (Governor 48-49), and Murray D. Ryan, Mt. Airy club (Governor 53-54), who is a resident of Baltimore and was General chairman of the Atlantic City district convention last year, besides being a frequent visitor and a welcome face at many a Taneytown Lions club meeting. Through his kindness, slides of last year's convention and of the International one at San Francisco two years ago were shown, and his fluent commentary added much to the appreciation of his beautiful shots, which had obviously long ago surpassed the class of amateur. He also flashed several excellent likenesses of the late beloved Secretary of State of the U. S., John Foster Dulles, who was a principal speaker at the San Francisco gathering.

Wednesday, May 27, the directors of the club were to meet in the Potomac Edison offices, and on Tuesday, June 9, the inauguration of the club's "Birthday Calendar" activity will take place at this next regular meeting.

"SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer.
Each future day and in some way—help to bring you happiness!

That "Old Farmer's Almanac" was 100% correct in the cold days for the month of May. Yet the beautiful Salmon Pink Roses climbing up and high near the brick wall right in back of the kitchen. What a nice view and the interesting part they thrive all summer! And as for the Pansies—they are plentiful for the house, too. What a wet day it was for the "Flower Mart"—yet there should be no complaints as it was only the second rainy day in 47 years! (On that special day!)

Mrs. Housewife, if you desire something real good for breakfast be sure and ask for "Buttermilk-Good-N-Rich Pancake and Waffle Mix"—and that complete with the syrup! Makes about 25. Ummmmmm good!

And thinking of food for "Sugar" my lovely Pet—now as she eats, I am compelled to hold up her ears or else—you know what I mean! Eh?

If you are going to get anyone a gift for any purpose be sure and see the "Westlock" watch. They are beautiful and so very reasonably priced.

WHAT FARMERS WANT

Farm Journal, the leading magazine in its field, has polled its readers to find out just what kind of government farm plan they really want.

The results will come as a big surprise to those who think farmers as a whole want more and more government aids, controls and supports.

Here's how the vote adds up: 55% want total abandonment of supports and controls, and a return to the free market; 15% favor supports on an emergency basis only; 8% want adjustment supports which would permit a gradual return to normal markets over a period of time. In sum, therefore, 78% favor plans calling either for no support or for less support.

By contrast, only 14% say they want high price supports, of 90% to 100% of parity, and only 8% favor the production payment plan.

The percentages were pretty much the same in all sections of the country. Among the different commodities, farmers specializing in poultry, beef, or fruit and vegetables are the most inclined to get rid of supports. Wheat and grain producers are least disposed to do this—but, even so, close to half of them consider it the thing to do.

Farm Journal has done the country a real service—and the hope is that the lesson learned will find its reflection in future policy. Farmers, like the rest of us, know past programs have been monumental failures, and that billions have gone down the drain with no return. And farmers want to stand on their feet.

GRASS ROOTS OPINIONS

OVERLAND PARK, KANSAS, JOHNSON COUNTY HERALD: "Most business firms commonly use bonding companies for employees handling cash, as a protection not only to the firm, but to the employee. Why shouldn't unions act in a similar way and for a similar purpose?"

CHESTERTOWN, MD., NEWS: "The competitive enterprise economy in the United States, which has brought us the highest standard of living of any country in the world, depends in large part on capital invested savings. Inflation, especially in its later stages, strikes at capitalism by discouraging savings. If long continued, it results in capital shortages which will reduce productivity."

PALMER, MASS., JOURNAL REGISTER: "An Agriculture Department aide told Congress the other day that 1959 wheat surplus were expected to boost the Government's price-support outlays for that crop to \$3,500,000,000. . . . If this huge sum, for wheat alone, is averaged out among Americans filing income tax returns, it equals almost \$50 per breadwinner."

ANTIGO, WISCONSIN, DAILY JOURNAL: "The Communists never 'miss a bet'. Wherever there is distress to be exploited, prejudice to be manipulated for their own purposes, and sentiments of helpfulness and benevolence to be misled and exploited, they move in. . . ."

"Various gimmicks will be used to trick the public into donating to red charity. They will include 'Freedom of the Press' committees and the slogans 'Help the Fight for Civil Liberties' and 'Donate for Peace'. . . . If approached by a stranger appealing to your sympathies don't give on impulse. Check on the solicitor and his affiliations."

UNION PARISH, La. NEWS-JOURNAL: "The point was made in a recent conversation that ours is a government of law and without the

law we have mob rule. Most of us agree with these sentiments, but we seem to have trouble determining just what the law is and who will administer it."

RULEVILLE, MISSISSIPPI, RECORD: "We long for the carefree happy days when all a little business man had to do was to look after his business. He didn't have a payroll tax, a sales tax, a social security or a withholding tax to complicate the problem of doing business. Nowadays in addition to the problem of conducting the business, and has to keep a set of books that takes a good share of the spare time. . . ."

WEST UNION, W. Va., THE RECORD: "There are few human achievements—and probably none that must be repeated on a prescribed and inflexible schedule—that represent more thought, longer hours of effort or a higher sense of dedication than the newspaper."

BUFFALO, MINNESOTA, JOURNAL PRESS: "An educator says it's better to know a lot about a few things than a little bit about most everything. Perhaps he wants quality of learning instead of quantity. . . . And maybe the smart-alecky attitude of some of our Wright county delinquents could be channeled into a more constructive pathway if they knew a little less and learned a little more. Judge O. J. Anderson says with the rise in delinquency we need a little more sternness some place—maybe in the home."

NORWALK, CONN., HOUR: "Trying to infiltrate the subterfuge employed by government spokesmen to cover up important scientific and cultural achievements until they decide the opportune moment for the best propaganda effect has arrived can be a trying chore for representatives of a free press. . . ."

"There are of course advantages to withholding important announcements for the correct psychological moment, but this license does not extend over a period of months nor does it excuse deliberate untruths to protect superficial secrecy. These techniques are successful in totalitarian countries where the public has lost its right to know—and where reporters play the game the way bureaucrats want it played—but they are totally out of place in the U. S."

SIMSBURY, CONN., FARMINGTON VALLEY HERALD: "One of the most serious cancers growing within the American system is the fiscal irresponsibility that is afflicting the people who run our governments. . . ."

"We are engaged in a life and death struggle with international communism. Further, they (Communist leaders) have told us over and over that they are not going to try to defeat the United States in a costly military conflict but by encouraging fiscal irresponsibility and reckless spending in the United States until the capitalist system and our Republic is buried in the dust and rubble of national bankruptcy. The goal is pegged by Russian leaders at 1970. Isn't it about time we evaluated our situation, and did something constructive about it?"

BEDFORD, INDIANA, DAILY TIMES-MAIL: "When you get down to cases, the continued existence and progress of every business and of the whole free-enterprise system, depend upon the skills, knowledge, wisdom and attitudes of the generation of young people now being educated. This is the businessman's special stake and a basic reason for the general public interest in the Federal-aid-to-education issue being considered in Congress."

"Permanent dependence on Federal support would lead inevitably to nationalization of the schools and would weaken the educational system which has developed, under state and local responsibility. . . ."

WILLIAMSBURG, VA., GAZETTE: "Ten years ago . . . the United States broke a tradition that had existed since the foundation of the Republic. Despite the gloomy predictions of a minority the United States joined a peacetime military alliance—the North Atlantic Treaty Organization. . . ."

"On its 10th anniversary NATO stands as the hope of the free world. Bitterly reviled and opposed by the Soviets—as it was . . . by Russian attempts to weaken or dissolve it—NATO remains the great and indispensable bulwark against aggression in Europe or North America."

MARION, IOWA, SENTINEL: "One of the trends in newspaper work that is regarded with growing fear is the tendency of government officials to deny the public information. This goes from the township to the national level. Newspapers, radio and TV stations are fighting this with everything at their command. The most flagrant cases are in Washington where bureaucrats decide what the American people are entitled to know. Newspapers have no quarrel with suppression of news concerning national safety. But this is carried far into other fields. There is only one basis on which to go. The

public is entitled to every fact about every government operation, outside of national safety."

OSWEO, KANSAS, INDEPENDENT: "History tells us that every nation and people who look for security instead of opportunity decays and rots. All advancement comes through discovery of new ideals and ideas. In a half century we have discovered and developed thousands of ideas in flying and other ideas of transportation to nuclear energy and over-coming of space by atomic power. Let us pray that we never become a nation of drones or victims of socialism."

SCOTLAND NECK, NORTH CAROLINA, COMMONWEALTH: "The great trouble with the political system of the United States is that too many folks are too lazy or too uninformed, or too selfish to acquaint themselves with political procedures, the needs of their cities, counties, states and nation to do something about it. They had rather sit on the sidelines and sneer, but they in effect are exhibiting themselves as perfect examples of poor citizenship. . . ."

HARTFORD, WIS., TIMES-PRESS: "Communism, in one century, has gained sway over more people than Christianity in twenty centuries! With socialism, its 'younger brother in short pants', Communism is mopping up the world! Can we stop it? Nobody else can and WE can only if we get our snowball rolling, pushed by dedicated men who believe in freedom, have the integrity to stand up for it, the intelligence to recognize the enemy in its disguised forms, and the moral faith by which alone freedom can survive."

**Small Home Air Conditioned
By Unit in Basement Window**

Fans circulate cooled air to rooms above.

Improved ways of using window air-conditioners are being found to overcome the objections of home owners who think the cooling units are unsightly and don't do a complete enough job.

One of the newest systems has just been developed by a Battle Creek, Mich., firm. It involves putting the units out of the way in basement windows and adding a little extra air-circulating equipment. The result: better appearance and a completely air-conditioned house, not just a couple of rooms.

The air-conditioners discharge cooled air into the basement. Small, inexpensive fans then force it through short lengths of duct into the rooms above.

For an average-size house that is well insulated, two air-conditioning units are sufficient. Even one will sometimes do the trick.

An air conditioning contractor should be consulted to make sure cooling capacity is matched to a particular home's needs.

The insulation is necessary to keep cooling requirements low enough to be handled by the window units. If six inches of mineral wool is installed in the ceiling and three inches or more in the walls, most summer heat will be kept out naturally. An added benefit is that winter heat will be retained.

The Battle Creek manufacturer says his system is especially well suited for houses with hot-water heating, which do not have heating ducts that can be converted to summer cooling. Air circulation also keeps basements dry.

Large Crowd Expected to Attend T.H.S Alumni Banquet

With only a few days left to make reservations for the annual Taneytown H. S. Alumni Banquet, the Secretary Mrs. JoAnn Dougherty reports she is being flooded with mail. The banquet and dance will be held Saturday evening, June 6, in the High School, and all reservations must be in prior to this Tuesday. The price this year includes gratuities and must be paid in advance to the secretary. It is also suggested that Alumni Dues also be paid with the reservations to save time and confusion at the door.

Mrs. James Fair, chairman of this year's affair, reports that tables will be reserved for many of those classes celebrating reunions, and many have also requested class rooms to hold sessions following the banquet. Members of these classes are reminded that even though they may have notified their classmates of their intentions to attend, their reservations must be made with Mrs. Dougherty. The class of '59 is in charge of decorations and are planning a colorful and attractive atmosphere.

Bob Kersy's Orchestra will furnish the music for the dance from 9 till 12. Bob has been very well received by the group in previous years and is well known to many since he was instrumental music teacher in T. H. S. several years ago.

CARD OF THANKS

I wish to express my sincere thanks to all who remembered me with visits, prayers, cards and flowers while I was a patient in the Annie Warner Hospital and since my return home. I especially want to thank the employees of the coat shop of the Taneytown Mfg. Co. for the lovely lot of groceries given to me and my family. They were very greatly appreciated. Also for the box of fruit sent from the factory. Again I say many, many thanks.

"SPICE 'N' EVERYTHING NICE"

heeled white pumps. "Mother, if you want me to wear them, I will but I don't like them!" "You cannot continue to wear those flat tennis shoes to church. You must grow up some time!" The girl turning her feet from side to side and getting up to walk,

the shoes slid right from the side of her foot. "Now, you see, Mother how difficult it will be for me. Why can't I have a lower heel like a Cuban Heel shoe? I know that I never will get accustomed to those things!" "Well, you are going to learn to get accustomed to them!" "All right, Mother just as you say!" The little fat girl gave me a fleeting glance and I lowered my head and they left with the package in the Mother's hand! Ugh!

A beautiful letter arrived from Joan Crawford which tops any she has written to me previously. She, no doubt will delve into work harder than ever since her great loss recently and her biggest love!

If you want to read something that is simply miraculous the following astounded me—read on! This happened in the office of the Chiropractor—Dr. Calvin Hornstein—6 W. Madison Street in Baltimore. A gentleman entered and asked the Dr. for treatments—that he had tried every thing under the sun with no results, "And now I am coming to you for help!" The patient had skin trouble for 16 years and was being treated for it that long. The Chiropractor said, "I do not know how long it will take me to make you well to rid you of this!"

The Dr. gave him one treatment and told him to come back in two days! When the patient walked in, the Dr. did not recognize him as his eye was open and the awful marks absolutely gone which covered his entire face! A. M. D. walked into the office and said, "I have heard of you through some of my acquaintances and I came to you about my neck to see if you could do anything with it as I must have twisted a muscle as I cannot move my head!"

So you see, folks when you locate a good Chiropractor what it really means. I could go on writing one thing after the other about the experiences right in that office of the patients. After one adjustment, you feel like a million dollars!

Was visiting in a home on Reisters-town Rd. on Wednesday and who should the "Butter and Egg man" be—that nice Ray Copenhagen from 'around the town!' Tells me he would not miss my Column for anything!

You really pay for what you get and get what you pay for as one visit will convince you at the Arthur Murray Studio on North Charles Street near Lexington. No other Studio can compare. F A B U L O U S ! Describes it all. Have you ever noticed, folks people who can dance are so much younger looking than their years and besides as Katherine Murray says, "For a little fun in your life, start dancing!"

Your Observer was a recent guest at their "Style Show". It was wonderful. Pupils of all ages remain on and on even after the courses are finished. Then the Medal Award Ball held at the Sheraton Belvedere on May 10 from 4 to 7 P.M. was fantastic. Seen is believe! That's all!

How thrilling it was to see the Orioles beat Chicago at the Stadium on Tuesday night! Those B I R D S are getting better and better!

In next week's Column will be writing of Gemini—those born from May 20 to June 20—"The Twin" sing—those who blow cold and then hot almost in one breath in other words a double personality. So long, folks until next week. Have a grand week end. Until then D. V.

I am,

Faithfully,

Your Observer.

BOARD OF EDUCATION

(Continued from page 1)

perintendent; Miss Beverly J. Ritter, Secretary to Supervisors; and Mrs. Nadine Saylor, Assistant Financial Clerk.

It was announced to the Board that the Superintendent was planning to have regular reports from the instructional and special supervisors at the Board meetings during the coming year.

Appointments of new teachers for 1959-60 were approved as follows: Mary Strite, Dorothy Mathias, Beverly Andron, Norma Loe Etlzer, Joan Robinson, Ronald F. Jones, Geraldine B. Ensor, Dale F. Lease, Elizabeth J. Ritter, Joseph L. Shilling, Louis Thom, Thomas Miller, III, Mrs. Doris Pohlhaus, Mrs. Joan T. Hamilton, Roy J. True, Dale A. Moyner, and Mrs. Fairy F. Flickinger. The resignations of ten employees were approved. Earlier decision had been reached to withhold public announcement of separations from service until after the end of the school year.

The Board approved the employment of Mr. Samuel Garland as a regular custodian for the Sandymount School and the temporary appointment of Mr. Quentin Gummel in the Westminster Senior High School.

Action was taken granting certain types of leaves to teachers who are separating from service for 1959-60.

The Board directed the superintendent to proceed as rapidly as possible in arranging for the advertisement of an improvement project at the Robert Moton School, work to be done during the summer for the purpose of making available more classroom space in this building.

Several actions were taken in connection with assistance to local schools in making school improvements and a number of adjustments in custodial staff assignments were approved.

Action was taken to approve several transportation details including the approval for a new transportation contract with Mr. Nathan Butler, Mount Airy.

The Board was advised that the superintendent intended to plan for major maintenance projects in several of the county schools, including interior painting.

Action was taken to approve the participation of the County Superintendent in a State study already under way in connection with school financing.

Miscellaneous purchases were approved for equipment and supplies and a number of communications were considered and action was tak-

en directing that appropriate answers be mailed.

The Board was visited by a Delegation from the Carroll County Teachers' Association, calling attention of the Board to the need for an adjustment in the salary schedule in order to assure more qualified teachers and to increase the percentage of qualified persons in the teaching service. Action on this matter was taken to direct the continued participation by the county schools in the insurance program of the Pilot Life Insurance Company.

The Board heard a brief report on the study of school finances and the plans of schools to spend local funds for improvements.

The members were given copies of attendance and enrollment reports for the month of April.

Action was taken directing the superintendent to continue to plan for the staffing of the schools for 1959-60 and the assignment of teachers and principals to their respective positions with full roster of assignments to be submitted and approved by the Board, probably not earlier than the August meeting.

Announcement was made to the Board that Mr. George Herring, principal of the Taneytown High School, had accepted a position as Assistant Director of Publications, Teachers College, Columbia University. His work in that area will begin during the summer. Action was taken to approve release from service for Mr. Herring with regrets. It was felt noteworthy that recognition of his work had been made and that his important assignment in New York was a tribute to his achievements while in the Carroll County service.

The Board adjourned at 3:30 p. m. with the understanding that the regular June meeting would probably be arranged for June 9 at which time regular decision will be made in connection with the scholarship applications for the county election districts to Western Maryland College.

Announcement was made that graduation exercises would be held in the County High Schools in accordance with the following schedule: June 3, Elmer Wolfe School; June 4, New Windsor School and North Carroll School; June 5, Robert Moton School and Westminster School; June 8, Taneytown School and Mount Airy School; June 9, Sykesville School. It was noted that for the first time the number of graduates from the County High Schools will exceed 500.

S. S. CONVENTION

The Thirty-fifth Annual Convention of the Lutheran Sunday School Association of the Western Conference of the Evan. Lutheran Synod of Md., was a great success, held in Good Shepherd Evan. Lutheran Church, Frederick, Sat., May 16. Rev. Carroll E. Boyer, pastor. Opening with an organ prelude by Mrs. Harold Keller, church organist. Ervin Stressed, "We are all one, young and old, adults never too old to learn for we do not know all that is needed. Learn by reading your Bible daily. Some say a teacher cannot teach unless first having a high school diploma. This is like cutting our own throats for there are those who have spent their whole life in Bible study that are far better teachers than many who even have a college diploma."

Zimmerman, Frederick, president of Western Conf. S. S. Association. Minutes and committees were read by Mrs. Roy B. Kiser, Taneytown, recording secretary. Here is a recipe for delicious Beef Balls, Creole, which calls for packaged corn flake crumbs. Made in a matter of minutes, this unusual meatball variation gives a novel twist to Springtime menus when served with a crisp mixed salad and garlic-flavored bread.

We Are Not Alone

Lesson for May 31, 1959

EVERY MAN who stands up for what he believes to be right in the sight of God—stands up, speaks up, and works to make the divine dream come true—every such person will have times of deep discouragement. An American will think of the familiar examples of Washington and Lincoln who went through dark times when no one, that is to say nobody who carried much weight, seemed to be on their side; times when they even wondered if they could be on God's side. Any one who speaks for a cause which has not yet become popular, any one who speaks courageously against the prevailing winds of belief in his time, will feel sooner or later that he stands alone.

Dr. Foreman

Prophets in Flight

It has often been so with God's prophets. Indeed, the picture our minds draw for us, of brave prophets bearding tyrants in their palaces, thundering God's judgments on nations and individuals, men unafraid, not caring what men might say or do so long as they were speaking for God, that picture does not always fit. Consider the prophet, Elijah, a brave man most of the time, but running now, running away, as far away as his legs would take him. And from what? Just a woman. True, she had threatened to butcher him. But Elijah had lived through threats before. The thing was, this woman was a queen, so much a queen that her wretched husband never dared say No to her. When she threatened to do anything bad, you could be sure her heart (a bad one) was in it! So when they told Elijah what she said, he lost no time getting out of there. Forty days and forty nights he fled. And when God asked him why, "I only am left,"

he said. What was one man against the nation? One Elijah for God; Jezebel and all Israel against God. Hopeless odds, Elijah thought.

The Invisible Army

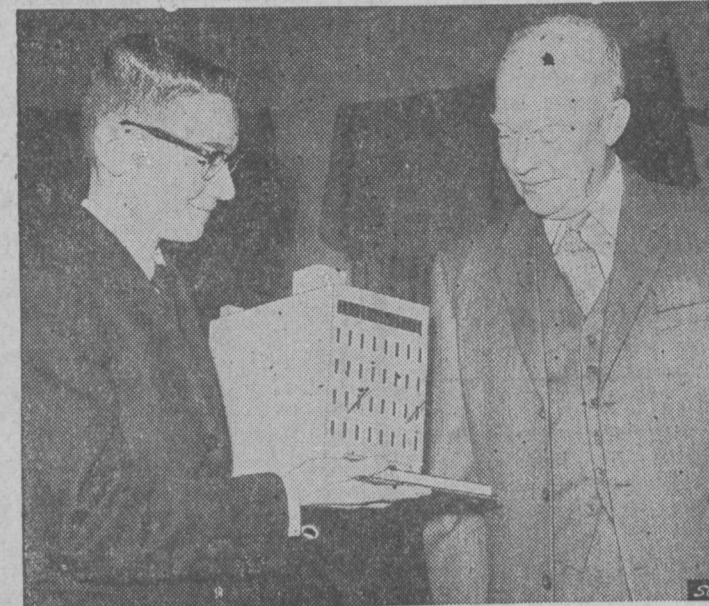

How wrong can a prophet get? Elijah estimated the number of God's loyal people in all Palestine as one, namely himself. God's count made it seven thousand. Elijah, scared as he was, turned out to be only .00014 right, no very high figure! This is a mistake which many pioneers of faith have made. There are more people on God's side than you might think. Looking about us in our country today, seeing what crowds there are that believe silly and even wicked lies, how many people who will go out and vote for candidates who are plainly not on God's side or anywhere near it, how few people there are at church compared with the crowds (let us say) at the racetrack, how hard it is to put into action, anywhere, the most elementary Christian principles—looking at the American scene, the Christian is sometimes tempted to complete cynicism and despair.

He Had God

The prophet Elijah learned something else in his wilderness hideaway. He found God there, and God had something for him to do. Elijah had believed in God a long time; but he associated God with spectacular miracles, fire from heaven, rock-breaking winds, resurrections of the dead... Now he learns to know the God of the still small voice, the God who comes in the voice of duty. The three things God gave him to do were not miracles, they were very simple acts. But they were going to change the course of history, more than some of the miracles Elijah had before then performed. Now it is not true that any one can "have God" if he likes. But it is true that those whom God has, have God with them, by them, in them. The man or woman who goes faithfully about life's plain duties, who stands for what he knows to be right, no matter what, will discover that he is not alone. To listen to the voices of the crowds, to be an echo of common prejudices, is to hear within nothing but a dreadful silence and to stand alone in a waste place. But to hear that still small voice, in spite of all the Jezebels of the world, even under threat of death is to know oneself never alone.

Ike Previews New Boys' Club Building

IKE LIKES—President Eisenhower smiles as Lindley Ruddick, 16, of Seymour, Ind., Boys' Club, displays model of "Herbert Hoover Building," new headquarters for the Boys' Club of America, now under construction.

The heart-warming story of a man's life-long devotion to youth—and their gratitude to him—was revealed recently in the announcement that the Boys' Clubs of America's national headquarters will be named in honor of Herbert Hoover.

Now under construction in New York opposite UN headquarters, the new building has been designed as a tribute to the former President, who has actively served as the national youth organization's board chairman for more than 20 years. Under Mr. Hoover's leadership, the Boys' Clubs organization has virtually quadrupled in size, and now includes well over 500 Clubs and more than half a million members.

Coincidental with the announcement came the news that a good portion of the new build-

ing's cost is being provided through donations from Boys' Club members. Through a variety of methods, most of them ingenious, all of them heart-warming, youngsters throughout the country have been raising funds "to help build a building for Mr. Hoover." There will be no public appeal for funds for the building. All costs are being defrayed by friends of Mr. Hoover, by foundations, grants, and so forth.

When completed late this year, the six-story "Herbert Hoover Building" will represent a permanent and fitting "thank you" from the countless millions of youngsters who have benefited from the former President's deep and lasting interest in protecting and nourishing what he calls "our most precious natural resource... our youth."

LET ME BID ON YOUR INSURANCE

Most policies read alike and cover the same perils, but there is a lot of difference in company financial standings and rates.

I am not a high pressure salesman, I show you printed facts and figures, then you think for yourself.

Recently I wrote a large farm, the owner had quotations before I got there, another insurance agent arrived while I was there and talked to the farmer after I left. The next day, the farmer called and I wrote all of his business.

That is the way it happens on a competitive basis.
