HIGH SCHOOL HIGHLIGHTS

Parents and teachers of Taneytown had reason to be proud of the sen-iors at the recent Class Night activities. Those in the audience who had personal memories of the roaring twenties could see themselves again in the flapper dresses, straw hats and knicker pants while they kept time to such old tunes as "That's My Weakness Now" and "Carolina

Allen Baumgardner gave a superb performance as loud, confused Arthur Palmer, father to Sally, who was ex-

pertly portrayed by Joyce Myers.

Donna Eyler deserves mention for her characterization of Maybelle Harrison. She, as well as the others, was well cast by the directors and ad-visors, Mrs. Virginia Sanders and

visors, Mrs. Virginia Sanders and Mrs. Catherine Myers.;
The evening's activities concluded when Elaine Welty, President of the Senior Class, presented the school with a turntable for use with the public address system in the auditorium. Sandra Remsburg, President of the Junior Class, accepted the key from Miss Welty.

John Lieb, a sophomore at Taneytown High School, has been chosen as one of the boys from Carroll County who will represent the county at a weekend meeting of scientists at the University of Maryland.

The weekend trip from June 19-21 is being sponsored by the Heart Association. The organization is attempting to reach these students who have

ting to reach these students who have the capabilities for a career in med-icine or research. These students should now be at the 10th or 11th

grade level.

The subject matter to be presented will be in the nature of details and opportunities in the various medical fields. There will be ample opportunity for questions and chats with the instructors on an informal basis. There will also be recreation of various kinds. The idea is to offer every opportunity for the scientists and students to get to know each other well other well.

John is not the only member of the family to have won recent honors. Myra, a senior, has been very active in extracurricular activities. She was the 1959 Betty Crocker Homemaker of Tomorrow. She won ninth place in the state "My True Security" contest. She has been a member of the chorus and senior quartet, news editor for the Taneyette, art editor of 1959 Tahian, treasurer of Future Teachers of America and president of Future Nurses Association. She also held a leading part in the class

# MEETING OF MAYOR AND CITY COUNCIL

#### Plans Being Made to Increase Taneytown's Water Supply

At the meeting of the Mayor and City Council Monday evening, June 1, Officer Hahn was instructed to issue warning tickets and then tag cars that are parking illegally in the 3-hour parking zone from the Presby-terian Church on York Street to the Cambridge Rubber Company and on Fairview Avenue and Middle Street to the Post Office.

Representatives of the Baltimore Engineering Corporation met with the council to discuss the changing to automatic of the pump at the pump-

ing station.
Mr. Dave Hilterbrick also met with the council on the same question and after discussion the job was awarded

to Mr. Hilterbrick.
Mr. C. R. Ford of the Pittsburgh-Des Moines Steel Company also met with the council, Mr. Ford's company being the lowest bidder on a 150,000 gallon elevated water tank. The price of the tank erected will be \$30,995.00, excluding foundation. The money for the tank is on hand.

The contract for the tank is signed pending the acquiring of a site.

#### Keysville U.L.C.W. Meeting

The Keysville ULCW began their meeting Monday evening by singing "Let All The World in Every Corner Sing." The 24th Psalm was read responsively, Mrs. Hazel Cluts conducted the devotions and Mrs. Anna Stonesifer conducted the study of the topic "Around the World in Christian Education." The discussion was in the form of a class in school. Mrs. Stonesifer was the teacher and the following were pupils: Mrs. Mildred Stine, Mrs. Helen Dougherty, Mrs. Mary Devilbiss, Mrs. Vallie Baumgardner and Mrs. Gregg Kiser. As the various countries were discussed Mrs. Lloyd Wilhide pointed them out on a map. We learned from the discussions that Christian Educaaries sent by different denominations do all kinds of educational work as well as medical and evangelistic work. One great need is for more men and women who can write Sunday school lessons. After the prayer, Miss Janet Royer of Taneytown was introduced.

Miss Royer spent twenty two and a half months in Puerto Rico. She showed slides taken while there and very ably explained each slide; also told of her many experiences while there. She talked to a very appreciative audience. Many asked questions and viewed the display of trophies from Puerto Rico. Thank you so

much. Janet. Mrs. Helen Dougherty conducted a short business meeting and thanked the members for loyal support during her term of office. The following officers were installed Sunday and will begin their term of office in July: president, Mrs. Kathryn Stine; vice president, Mrs. Hazel Cluts; treas urer, Mrs. Clara Clabaugh; secretary, Mrs. Doris Harner; and pianist, Miss Vallie Shorb.

The hostesses for the evening were Mrs. Elizabeth Shoemaker, Mrs. Marion Coshun and Mrs. Edith Wilhide. June being the month for graduation, the tables were decorated in keeping with graduation. On a pedestal in the center of the table rested a graduation can. Beautiful red roses adorned the tables.

Delicious refreshments consisting chicken and ham sandwiches, punch, and mints were served. This being graduation month each member was given a diploma as a challenge to action asking each person to e-dedicate her life to help carry out Jesus' instructions "Go ye into all the world and tell the gospel to all na-

The following is the "Gemini" sign for those born from May 20 to June 20—inclusive. Mercury is the ruling Planet and bestows upon these people a success and are too liberal to ever have a real bank account. They make friends easily and are most sympa-thetic and kind and make excellent nurses. These people have more new and clever ideas in a week than most people have in a lifetime and many are deep schemers. Some of the most famous Wits in History were born in this sign. Many times, the unenlight-ened individuals of this sign are the complaining and nervous type and are very restless and many look upon the dark side of life. This all can be remedied through their own patience and inventory of themselves. The men of this sign are easily influenced by the opposite sex. Gemini people having learned self-control are truly very remarkable.

#### IT PAYS TO READ YOUR NEWSPAPER

The value of reading a newspaper is well established. In a changing world, following the news is a continuing education for any thoughtful person. And in the field of thrift and specific benefits, a single advertisement of a needed bargain often saves more than the cost of the newspaper for a year.

Even after being read and discarded, newspapers have many uses. In this respect, they clearly are much superior to rival media. You cannot wrap a fish or start a fire with last night's television program.

More rewards of newspaper reading continue to turn up. An expensive New York charm school, for example, tells feminine students eager to make a hit with men to read a good newspaper regularly. It will happening to most individuals . . ." give them something to talk about, will show that they are bright and alert.

A new Harper's book on the drug industry, "The Merchants of Life", by Tom Mahoney adds another testimonial as to the power of the press. A scientist of the Upjohn Co. at Kalamazoo, Michigan, in 1954 read one day in the Detroit Free Press of a new German drug that when taken by mouth promised to control diabetes, previously controlled only by daily injections of insulin.

#### FACTS AND OPINIONS

Throughout the free world there has been almost unanimous praise for the character of John Foster Dulles, on the part of those who opposed his policies no less than those who supported them. The Reporter presents a typical opposition appreciation: "We have too much respect for Mr. Dulles to take back any of the criticism we leveled at him during his tenure of office. In fact, we never liked him. But there are so few men in our day and country with the capacity to follow a sustained train of thought, to be themselves to the farthest reaches of loneliness and of risk. Mr. Dulles has proved to be one of the very, very few. When we learned of his resignation, we knew that our lives had become the poor-

According to Dr. Edward L. Bortz, a former president of The American Medical Association, a do-it-yourself health program is the greatest insurance policy for a longer, healthier life. The major scourges of the aging, he says, are largely the result of faulty diet, flabby bodies from poor hygiene, excessive fatigue, and aimless living.

In the last few months all manner of organizations have been urging that businessmen take an active interest in politics, on behalf of the candidates, parties, and programs they believe in. This has been given the blessing of top political strategists. Chairman Paul M. Butler of the Democratic National Committee observes: "I say, with the strongest possible conviction, that businessmen belong in politics." Chairman Thruston B. Morton of the Republican National Committee sees the matter the same way: "Men and women of the business community should, not only in their own self-interest, but in the

The National Association of Manufacturers states that the most spectacular failure in the Russian planned economy has been in agriculture. Soviet agricultural labor productivity per worker is only onesixth to one-twelfth that of the American farm warker.

Organized crime in America is more widespread and more serious than it was even in the days of Al Capone, and the situation will grow worse in the future. That's the view of Robert F. Kennedy, chief counsel of the Senate Rackets Investigating Committee, as expressed in an interview published in the May issue of Nation's Business.

The Glasgow, Montana, Courier, says: "The Montana Power Company is an efficiently operated corporation, expanding and gaining strength, as anyone who watches the progress of its stock value can note. The Montana Power Company need not apologize to anyone for its record. Still we find one aspect of its 1958 report to stockholders, as shown in a simplified financial statement, alarming and thought-provoking. We ask: what item of expense of the company outstripped all the money it spent in 1958 for wages, salaries, pensions, materials, supplies and insurance? All these items, together came to something slightly more than \$13,000,000. But one other item bulked larger; the company paid out \$13,701,413 in taxes. Taxes represent almost half of its total gross expenditure of \$30,342,025 in 1958 . . taxes have grown even out of proportion to the growth in income. In 1954, they were \$9,575,025, compared with \$13,701,413 last year . . . What is happening to the utility firm is

# **Color Gives Tracts Lift** In California

More courage in the use of exterior color is helping Califor-nia's big home developers build attractive communities today in-stead of the faceless tracts of

yesterday.

These builders are guided in bold, tasteful uses of color by skilled color stylists such as Miss.

Margaret Hargreaves, of South

Pasadena.

Miss Hargreaves, one of the West Coast's leading color consultants, says that the color stylists and developers work toward a constant goal of "making the tract look like a pleasant community and not a drab development after the houses are occupied and the signs are taken down."

"Builders came to color stylists for help," Miss Hargreaves says, "after they learned that varying architectural styles, elevations, curving streets, and the like weren't enough. Bright, tasteful color was needed to get away from the dull, tract look."

Miss Hargreaves uses what she calls "color engineering" to achieve an integrated commu-nity. This is a process by which three harmonizing colors are chosen for each house—one of the roof, another for the siding,

and another for the trim.

"If the siding color is sharp," she says, "I prefer to use a subdued accent color. I like a deep tone in the asphalt shingles, a stronger color in the siding, and a lot of white on the trim. The roof color is selected first

because the roof is the common denominator in color styling a single home or an entire devel-opment," Miss Hargreaves points. out.
"This is because the roof is the largest visible area, whether the largest visible area, which is the largest visible

seen on a single house or as part of the entire development from a moving car.

"You need color here, you see, to keep individual houses from being lost in a sea of rooftops."

> Notice is hereby given, in accordance with the requirements of paragraph (i) of Section 3 of Article 25 of the Annotated Code of Maryland, that the following resolution has been proposed for adoption by the County Commissioners of Carroll County: BE IT RESOLVED, by the County Commissioners of Carroll County, under the authority vested in them by Sections 2 and 3 of Article 25 of the Annotated Code of Maryland, as fol-

1. That before any person, firm or corporation shall construct or begin the operation of a trailer camp or park within the limits of Carroll County, but outside the limits of incorporated towns and cities of Carroll County, for the purpose of renting parking space therein, with or with-out utilities, for mobile homes or trailers for residential occupancy and use, he, they or it shall give appropriate notice to the said County Commissioners of the intention to construct or operate such trailer camp or park indicating therein the exact location thereof, the trade name to be used, if any, the approximate size of the area to be occupied, and the number of units that will be accom-

That any person, firm or corporation that operates any such trailer camp or park within the limits of Carroll County, but outside the limits of incorporated towns or cities of Carroll County, shall obtain a license for such operation from the County Commissioners of Carroll County, on a form to be provided by them, and be as follows:

(a) For camps or parks with a maximum capacity of ten (10) units, the sum of One Hundred Dollars (\$100.00).

(b) For camps or parks with a maximum capacity of twenty-five (25) units, the sum of One Hundred Fifty Dollars (\$150.00).

(c) For camps or parks with a maximum capacity in excess of twenty-five (25) units, an additional license fee of Twenty-five Dollars (\$25.00) for each ten (10) units, or fraction thereof, in excess of twentyfive (25) units.

(b) That the owner or operator of any such trailer camp or park shall report in writing to the County Commissioners of Carroll County twice annually, on or before June 15 and on or before December 15, in each year, the number of trailer spaces or units then occupied in such camp or park, with a description of the trailers or other vehicles so occupying such units, with the names and addresses of the several owners thereof, such reports to be made on forms to provided by the said Commissioners

3. That upon the failure or refusal of any such owner or operator, to secure a license as herein provided, or to make the reports herein required, and if such failure or refusal shall continue for a period of one month, such owner or operator shall be liable to have his license or privileges for the operation of such camp or park revoked, and any sum of money due the County as the result of the operation of such camp or park without the requisite license, shall be recoverable in an action by the County Commissioners against such person, firm or

4. That this resolution shall be effective July 1, 1959, and the license fees herein provided for any camp or park then in operation in said Carroll County, outside the limits of the incorporated towns and cities of Carroll County, shall then be due and payable, and if not so paid, shall be collectible by the said Commissioners by appropriate legal action at any time after the first day of August, 1959; and thereafter such licenses shall be renewable from year to year from the first day of July in each year; provided, however, that for any camp or park beginning operations after the first day of January in any year, the license fee collectible for the remainder of the licensing year subsequent to the date of beginning of such operation shall be one-half the fees herein provided.

5. That any person violating of the aforegoing rules and regulations and/or operation for the construction and/or operation of a trailer camp or park within the limits of Carroll County, outside the limits of incorporated towns and cities of Carroll County, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding Twenty-five Dollars (\$25.00) for any

such violation; and
BE IT FURTHER RESOLVED, that the matter of said proposed res-olution be set for hearing at the Office of the County Commissioners of Carroll County, in Westminster, on Tuesday, June 23, 1959, at ten o'clock a.m. provided a copy of said proposed resolution be published in one or more newspapers of general circulation in said County at least once a week for three weeks, at which time and place any person shall have the opportunity to appear and be heard thereon.

## Dad Has His Day

Once a year, Dad has his day and this year it falls on June

There are always two highlights to his day. First is the home ceremony of gift giving, a remembrance from each member of the family including Rover, and then Dad's outing with the

When thinking about a gift for Dad, consider getting him a new shirt, either sports or dressy. A recent survey by the Arrow Style clinic found that this was his most wanted gift.

Look through his bureau drawer. Does he need white, or colored shirts? Do his handsome cuff links require a Link Cuff, or does he prefer the plain barrel cuff? Has his neck size changed? Style and size are very important to a man, so be sure both are correct.

For summer wear, the new Arrow Bi-Way is a good choice, for it can be worn directly from the office to the golf course. With a necktie, he can preside at a board meeting; with an open collar, he can sit in comfort on the club patio. If his summer schedule involves a few business trips, select this style in a wash and wear finish so he can rinse it out in a hotel wash basin.

If he takes his sports seriously, he'll appreciate one of the new knit shirts, now made with extra-long shirttails for active sportsmen. Let him boast about his favorite sport by selecting a shirt with a tiny sports emblem embroidered on the breast pocket. Whether he's a yachtsman, golfer, fisherman or bowler, you'll find a shirt to show his game. If he prefers the standard sport shirts rather than the knits, select a bold paisley in blue, or a

Whichever shirt you select for him, ou can be sure that he will wear it proudly when he takes the youngsters to the zoo, beach or just for a walk.

#### FEESERSBURG (A Voice from Carroll)

Miss Marguerite Anders, a former resident of New Windsor, was hon-ored at a luncheon last week by the directors of Women's Hospital, where she has worked for forty years as a switchboard operator. Mrs. John T. Tucker, president of the board of directors presented Miss Anders with a clip made of a wreath of gold leaves set with pearls in behalf of the hospital for her years of faithful service to the patients and the staff of Women's Hospital. When Miss Anders answers the last buzz of the switchboard in July she will return to her native New Windsor where she first learned to manage a telephone exchange. The New Windsor that Miss Anders knew fifty years ago has changed little but she will no longer see a switchboard in her home town. The dial system has laid to rest forever the need of a "hello"

We have been busy all week manning our spraygun and dealing out death to all insects invading our flower beds. But although we have served notice to them that we will not retreat nor give a conditional truce we seem to be outflanked, outmaneuvered and out of spray ammunition So knowing that a strategic with-drawal is better than a complete out we have withdrawn from the battle area to regroup our forces and also to learn something about our enemies. Nearly 750,000 species of insects have been classified, but about 4,000 new varieties arrive each year, so it looks like the census taker has a lifetime job counting insect noses Did you know that an insect has no bones? Its true, even if a mosquito bites like a mule and the hornet stings like he has a bear trap for jaws. The little flea that rides around on our dog's back can make a leap of 100 times its own heighth. If man had the flea's jumping power, he could easily jump over the highest tree top. Insects look fragile but that tended Church service at the Pres-byterian Church in Gettysburg after which they left to visit Mrs. Angell's and try to kill it. The proposal by the Carroll County Commissioners to hire a Techina Assistant to aid them in planning for a better county government, has met with some bitter opposition in some sections of the county. Over 150 persons attended an open hearing Monday in the new County office building. The impression one got at the hearing was the fact that most of the speakers were more concerned with insulting the elected commissioners than learning the facts about the duties of the proposed Techinal Assistant. Only two speakers were realy concerned with the future progress of our county. No one discussed realistically the very problems that confronts the leaders and planners of the county. #### New Social Security Law **Booklets Available**

Residents of Carroll County will be interested to know that new infor-mational booklets are now available to local people explaining the lastest changes in the Social Secrurity Law.

Examples of such booklets are:
1. OASI - 33e "Social Security Credits". This compact leaflet tells you how many quarters of social security coverage you need to be insured under the Law, what type of work is covered, where you must report earnings, and who must report. 2. OASI - 33H "Social Security for Clergymen". If you are a minister or are a member of a clergyman's family, you will be interested in these provisions of the law. This booklet explains the procedure by which a minister can obtain coverage, file a wavior certificate, report his earn-ings, and explains other matters relating to social security coverage for

3. OASI - 1958 - 2 "Disability Benefits". The 1958 amendments to the S. S. Law made numerous changes affecting those people who be-came disabled or who are now receiv-ing payments under the disability program. These changes are discussed in

simple terms, easily understandable to those interested in these benefits. In addition to the above named folders, your local social security office now has a generous supply of OASI - 35 "Your Social Security". This booklet contains general information pertaining to all phases of the Social Security Law. It is a handy home-reference guide if you have questions as to your or your family's rights under the Social Security Program. All of the latest amendments are included and it is the most up-todate folder now available to

If you desire one of the folders end a letter or postcard to your local social security office at 3107 Greenmount Avenue, Baltimore 18, Maryland.

#### Local Group Attends State Retarded Children's Convention

Mr. Wagner Miller, Mr. Fern L. Smith, and Dr. Lydon Myers, of the Carroll County Association for Retarded Children attended the First Annual Convention of the Maryland Society For Mentally Retarded Children at Carvel Hall, Annapolis, Md., on Sunday, May 24, 1959.

They participated in an all day ses-

sion which consisted of an exchange

of information, business meeting and election of officers and a luncheon. During the day, the group heard two outstanding leaders in the field of mental retardation. Dr. Elizabeth BOGGS, President of the National Association for Retarded Children was the keynot; speaker of the Convention Dr. BOGGS, a distinguished leader in the field, is a member of the President's White House Conference Committee and on the advisory Board of the World Health Organization (WHO). Dr. Robert E. COOKE, Chief of Pediatrics, Johns Hopkins University Medical School will address the luncheon gathering. Dr. COOKE is holder of the first National Association Research grant, the Grover F.

Powers research professorship. The Carroll County Association for Retarded Children conducts a local program of aid and service to the mentally retarded in the community and goes to the Convention, which marks a milestone in progress in the field of retardation. It is 1 of 10 local units throughout the State who have merged into a State Organization the better to continue the never-ending fight to serve and aid the cause of mental retardation and continue to prove that "Retarded Children Can Be Helped".

#### **Lust For Power**

Lesson for June 7, 1959

IS THERE one sin from which all I other sins come? Many theologians think there must be; but they do not all agree on what sin is the root-sin of all the rest. One sin which has been singled out for this doubtful honor has been called "the lust for power." It is not wrong to

desire power; otherwise Jesus would have severely condemned the two disciples who wanted to sit on thrones at his right and left. It is not wrong to wish to influence

exaggerated that it becomes a pas-

#### sion, a soul-destroying passion. Law and the Lust for Power

There is a first-class example of how the lust for power can run away with a man, an example of how other sins are spawned by this one, in the Bible story of King Ahab and the private citizen named Naboth. Nearly all readers of the Bible know this story, and those who do not know it should look it up (see the references given here), for it is a dramatic story. King Ahab was of course one of the wealthiest men in the kingdom. He had all he needed and more besides. But he wanted the vineyard of the small farmer Naboth. He wanted it so much that he was willing to break the law of the land, he was willing to go even as far as murder, to get what he wanted.

Ahab could never have got that vineyard by legal means. If Naboth did not want to sell, there was no law to make him. More than that, according to the law of those times. Naboth was required to hold on to his property, Ancient Hebrew law saw to it that every family was provided with land, and must

not get rid of their landed prop erty, large or small. Ahab was at first "stumped" by this fact. But spurred by his wife Jezebel, a sor of Lady Macbeth, Ahab rode right through the law, using perjury and murder before he was through, all to get that one vineyard.

#### Property for use or for Power?

History is filled with examples of men who have been so mad for power that like Ahab they paid no attention to laws that would have held them back from what they wanted. We have seen this in our time in Hitler abroad, and in some men in high places in our own country.

But there is another thing about the lust for power. Why is it that many persons seem unable to stop acquiring property? Long after they can no longer use it, long after they have enough, they keep on going, they never feel up to the game, they want more and more. The thing becomes almost a disease.

One wise thinker of our times believes that this sort of thing, the sort of thing Ahab did, is a case of wanting security overmuch. A man wants to feel safe, so he piles up wealth and property around him like walls to shut out misfortune. He does not care whom he hurts, just so he himself is safe. Another thinker sees in all this, evidence to support the proposition that while property for use is a good thing, property for power alone is dangerous to society and that wanting to have what you cannot use

#### My Rights and my Reach

One thing is certain: the prophet Elijah, being God's man and not the king's, saw no good in what Ahab had done. There was nothing in being a king which gave a man the right to disregard other people, nothing in being a king that gave a man the right to smash the laws of God. Ahab must have thought, "My rights go as far as I can reach." But the fact is, the true rights of a man, especially a strong man, are very seldom as big as his reach. To put that into other words: Don't think that because you can get by with it you have a right to do anything you please. When you, whoever you are, begin to think your rights outrank all others' rights, take care The sin has already begun to work in you

at the wheel. Knowing our own at the wheel. Knowing our own limitations is a key consideration. According to researchers for the Murine Company, leading eye lotion producer, we all are born with a blind spot in our area of vision. Many of us are unaware of it. We can locate it, however, by penciling a small dot on a sheet of caper and marking a cross an inch paper and marking a cross an inch or two from it. Close one eye and or two from it. Close one eye and look at the dot. As you move the sheet of paper slowly back and forth from the eye, you will reach a point at which the cross will disappear. That is your blind spot. If it concealed a road sign or pedestrain, it could be treacherous.

GET OUT YOUR . & PAD and start to add - now that we're well into 1959, it's a good idea to look at the family-

finances for the year. If, you had trouble in '58 keeping track of where your money went, here's a simple solution. Pay all your bills by check. Then, you'll have a perfect record of everything you've spent; your cancelled checks are proof of payment recognized in any law court; and your checkbook gives you a perfect "built-in" bookkeeping system that makes managing the family-finances easy. Good idea, don't you think?

THERE IS SOME-THING NEW under the sun is the 12-pound book-size line of dictating instruments which the

Edicon Voicewriter division of Mc-Graw-Edison Co., has just made available. Mindful of changing tastes and trends in office and home decor, engineers and designers put their heads together and came with a mechanical wonder with a choice of five colors: gray, green, beige, blue and tan! That's enough color variety to satisfy even the most discriminating tastes. And to look at the sleek lines of these instruments, you would never guess that they contain some 900 details made into 60 sub-assemblies and seven major assemblies,
