LETTER TO THE EDITOR

I am answering to an article which appeared in your paper the week of June 25, 1959, regarding why Carroll County needs zoning. I am writing in the interest of all residents and property owners of Carroll County.

I am a farmer, victim of one of our adjoining counties who persuaded the people of that county to accept zoning with just such smooth and interesting words as was in the letter of the writer who is encouraging zoning for Carroll County. Everything that the writer endorses for zoning apparently would be beneficial and helpful to the residents and taxpayers of our county but on the contrary the black side of the picture did not show up. This black side will take away much of your freedom and privileges which you now enjoy in Carroll County with an advance tax burden.

Let me warn you, right now is your only chance to keep Carroll a free county to live in, as in most cases where zoning has been accepted or permitted, the tax payers wishes are respected by the zoning commissioners as they see fit. In our adjoining county the tax payers were turned down on a majority of 16 to 1 by the zoning commissioners.

It could happen here. For more facts contact me in person, if you wish.

Plans Progressing for the Carroll Co. General Hospital

A special meeting of the Board of Directors of the Carroll County General Hospital, Inc., was held at the Carroll County Medical Center on Monday evening, June 22, 1959 at 8 p. m.

The purpose of the meeting was for final approval of the working drawings of the new hospital. Along with the Board of Directors present at the meeting were Mr. B. E. Starr, architect and his associate, Mr. Bob Lutz who were on hand to answer any questions.

The plans are at this time in the hands of the Maryland State Health Department and also in Washington, D. C. for approval of Hill-Burton. As soon as these approvals are received the plans will be given out for bidding.

Mrs. Gladys M. Wimert, president of the Hospital Auxiliary, reported that there are now 397 Charter Members in the auxiliary, both men and women, and the auxiliary is working diligently on their first Ball - Silver Moon Annual Ball to be held September 11, at the National Guard Armory and it is to be continued as an affair in September, Auxiliary Month.

The Chairman of the Building Committee, Nathan Weinstock read a letter to the group from Washington stating that Parts I, II and III of the Carroll County Hospitals application for Hill-Burton Funds have been approved.

The time is gradually approaching for the initial ground breaking of the Carroll County General Hospital. We anticipate this to take place sometime around September 1st. All members of the various committees are working constantly to expedite this date.

The hospital when completed will be one of the most modern and efficient in the nation. The painstaking care with which the building has been developed will result in the optimum of patient care.

The people of the Carroll County and Reisterstown-Glyndon areas have been most patient in waiting for this coming event and have continued faithfully with their pledges.

As soon as renovations are complete the hospital office will reopen again at 6 E. Main St., Westminster. In the meantime pledges may be paid at either branch of the Carroll County National Bank or mailed to Carroll County General Hospital, 6 E. Main St., Westminster. KIWANIS NEWS

The regular meeting of Taneytown Kiwanis was held on Wed., June 24, 6:30 p. m. at Taney Inn.

The Mayor, Raymond Perry and City Councilmen of Taneytown, Pres. George Motter, Neal Powell, James Baumgardner, Carl Frock and Geo. Kiser were the guests of the Kiwanis president, George W. Crouse.

A brief business meeting followed the serving of dinner, after which President Crouse introduced Honorary Kiwanian, Guy P. Bready, as the guest speaker of the evening. The meeting theme was the observation of this, "The 50th Anniversary of the Installation of Gas Lights in Taneytown." Hence, Dr. Bready spoke on this subject in a most effective, entertaining and interesting manner.

Dr. Bready recalled innumerable anecdotes about Taneytown residents of the "Gas Era". He related that gas came to Taneytown in 1909 and service was discontinued in 1918, after only 8 years of usage. It was, of course, in 1918, that electricity came to Taneytown and the Grace Reformed Church was the first building in Taneytown to be electrified. Dr. Bready stated he vividly recalls the building which housed the "Gas Works" being moved from its location near the creamery to a location on George Street where it was converted into a residence and still remains so. He said the building was virtually split down the middle and moved in two sections - a method foreign to us today.

Near the termination of his remarks, Dr. Bready asked if he might see the plaque from the Gas Works building, which was presented to the town by George W. Crouse, so that he might reminisce vocally on the names contained thereon. The plaque was unveiled and revealed the following names: Burgess Samuel H. Mehring, Commissioners, Edward Reindollar, President, Edward Kemper, Judson Hill, James H. Reindollar and Franklin Seiss. Dr. Bready went down the list recalling each personage vividly and in some cases relating an amusing anecdote.

In concluding his remarks Dr. Bready related an incident which involved a fellow seminarian of his at F. & M. He was known as "Dutch". It seems that a football game was in progress between F. & M. and Gettysburg. Gettysburg threw F. & M. for a loss. All was silent - then renting the air with a resonant voice, "Dutch" was plainly heard to say by all present - "Mine Gott, Don't advance the ball backwards." Sometimes, so-called progress is like that - advancing the ball backwards. However, Bready said, what you are doing here tonight is not advancing the ball backwards, but taking a look, recalling, a solid, sturdy part of Taneytown's history. Sometimes, we must look back to assist ourselves in forming opinions and making decisions that will enable us to move forward with some degree of intelligence. He left the group with this thought, "I am proud of my ancestors, I can only hope that if they were living today, they would be proud of me."

Following Dr. Bready's remarks, President Crouse formally presented the original Municipal Gas Works of Taneytown, Maryland Plaque to the Mayor and City Council, charging

"SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Daily picking of the colorful Nasturtiums and placing them in containers in the house lends the most delightful aroma plus the beauty. It is as though I have sprayed the interior of the house with those popular sprays which are on the market today.

What a blessing the electric fans are when the weather is sweltering and of course July is always the very hottest month. It seems so odd after all through the years minus the Dressing Table for Milady! Eh? Not one shown these days with any bedroom suite!

"Say One for Me" down at the Stanley was rather disappointing for this Columnist. First of all the popular Bing Crosby is again the character of a priest as he was in two former shows, "Going My Way" and "Bells of St. Mary's"! What a changed man as he appears very, very haggard, quite thin and much older in this picture. He warbles a song or two with no affect. This show is indeed a very different show from the former two. Crosby takes the part of a Parish Priest in New York who holds Mass at a very late hour or I should say early hour in the A. M. Debbie Reynolds still acts the little girl and does a dance number in fact I had no name for it—that dance! As for the coloring and production which is quite an expensive one is beautifully done. As for her singing it all is far from a voice. To gaze upon that Star—no one would dream she was a Mother of two children and as I stated in a previous Column she could pass any day for just 18!

Letters from Readers. Dear Observer, my husband passed away 2 mos. ago and I have just 1 child, a married daughter whom I have visited just recently in another state. I am writing you so as Widows can read not to give up a home even if they are alone and do not go to live with any child—no matter son or daughter. It is really heart breaking to suddenly discover such startling things! Any widow is very foolish to sell her home and put it in another home for a son or daughter. I am so glad I discovered all before it was too late! Mrs. E. L. G. There you have it, Readers and that does not require any reply from me! Obs. Dear Observer—My only daughter makes \$60.00 a week in an office and has never given me any board. I entertain her friends for dinners and she has been giving me since she started to work \$3.00 a week which she tells me is my spending money. I feel now that I have failed as a Mother. Will you please tell me what step I should take to make her understand? Signed—Mother. Well, Mother—you should be telling your daughter what steps to take if she wants to continue to keep on stepping into your home and that pretty quickly! O.

Dear Observer—I have a lovely daughter of 18 who has a very nice position but continues with a boy friend who bosses her all the time and they continually argue. Somehow, I feel if she marries this fellow it will end up in divorce and she is breaking my heart. It seems she will not take the advice. What is there left to do? Signed—Brokenhearted. Dear Brokenhearted—Today children do not take the advice of parents and they learn the hard way when it is too late when lives are ruined. They seem to remain blind to everything and the more you oppose—the deeper she will get into things. It is truly the saddest thing for any Mother to hear, "Oh, Mother if I only had listened to you!" Can you get her to listen to the Minister? Your Obs.

Dear Observer—I do hope you do not think this is a pertinent question. In my Club the other day there was a discussion stating you were engaged to be married. I told the group that I did not believe it. Will you kindly enlighten us as we are not curious only interested knowing you for such a long time. Club of 16 Dear Club—If I was engaged, do you know this is where I would announce it—right here for you know I always sign—Faithfully Yours! Your Obs!

Seems a shame not to show a Flag with the 48 Stars—in other words to buy a new one. The flag I own—I will either buy four more stars—two for each side and sew them on and if that is not possible to purchase them, I'll make them myself. The flag I own was placed on the flag pole by my late Husband and I'll never take it off the pole to fold it away and will show it out on my lawn this 4th of July. Have a grand 4th, Folks. Remain home and sit on your porch or lawn and watch the city folks race by! Serve a special picnic meal right out doors and enjoy every minute of it. Remember when I used to place the flag out in the corner of the lawn every morning at an early hour.

Next week I'll be writing of that beautiful sign of "Leo" those born from July 20 to Aug 20 inclusive. Until then D. V. I am—

Faithfully,

Your Observer.

GRASS ROOTS OPINIONS

ITALY, TEXAS, NEWS-HERALD: "Our financial problem is not something that developed overnight. It has been in the making ever since the national government began toying with the marxist theory of unequal taxation—soaking the rich to pay for government. Such a theory worked as long as government costs were reasonable and restricted to governmental functions. But as the Marxists spread and government took on more and more of the responsibility of the individual to provide for himself, the cost of government became more than the rich alone could pay for . . .

"Our socialistic chickens are coming home to roost. . . . WHITEWATER, KANSAS, INDEPENDENT: "The other day we started to explain to a friend why we hoped to continue operation of The Independent. Since we felt the future of our nation depended on intelligent grass-roots thinking, we felt the smallest community in the nation was far more important than the biggest city . . . that the smallest newspaper was perhaps more important than the largest daily . . . that if the smallest community couldn't take care of its own welfare, the county couldn't, or the nation, or the world."

PLENTYWOOD, MONT. HERALD: "Soviet" propagandists are now ready to move into American high schools and colleges in a bold frontal movement to impress American youth with the superiority of Kremlin Collectivism . . .

"On exhibit at the joint meetings of the American Physical Society and the American Association of Physics Teachers in New York . . . are Russian microscopes, projectors, electronic equipment and other apparatus for the study of physics, and which are offered to American school people at prices that will be temptingly low to budget-conscious buyers. . . .

"It is explained that the low prices are possible because this equipment is mass-produced. Don't you believe it. What the Russians know about mass production they learned from us. And what the Russians make—in any category—is made by Slave labor, if not in the USSR then in the satellite countries or in the vastness of teeming Red China. . . .

FERNDAL, CALIF., ENTERPRISE: "Canon Jas. Shaw, of S. F. Grace Episcopal Cathedral, on recent jazz music experiment in eastern church—'If this catches on, I envision the day when priests will no longer be called Father, but Daddy-o.'"

THAYER MO., NEWS: "If a college education seems impossible to some young people—because of financial reasons—let us remind them that 'where there's a will, there's a way'. Scholarships, loans, and aid of various kinds are available to the student who sincerely desires an education."

CLOVIS, NEW MEXICO, CURRY COUNTY TIMES: "When you buy insurance, a home, stocks or bonds, or when you put money in a savings account, you become an investor—a capitalist. The money you save and invest supplies the capital on which industry thrives—builds new plants and products and services. . . . creates employment for the million young Americans who need new job opportunities every year."

WALTERBORO, SOUTH CAROLINA, PRESS AND STANDARD: "Recently, an unknown group of scoundrels broke into an Alabama jail and removed a Negro who was charged with rape. The body was found in the Mississippi River. . . . 'Such actions by unthinking, ignorant people, do more to agitate the

present race question than any other thing, and add grist to the mills of the integrators, as well as nauseate the American people who are ingrained with a wholesome respect for laws, enforced by proper authority."

McGEHEE, ARKANSAS, TIMES: "With the spiraling prices of the past years on machinery and buildings there is a great difference in the amount saved towards replacement and the price of replacement, and this difference is often very difficult to make up. . . . A revision of the tax laws in this respect would not only be more realistic, but it would help the farmer and the industrial make these necessary replacements to the great benefit of the economy as a whole."

TERRE HAUTE, IND., TRIBUNE: "There were troubling echoes of the Stanley Yankus case in the news that some New Mexico and Colorado farmers leased state land at a nominal price and then rented it to the federal soil bank program at a huge profit. Yankus, it will be recalled, is the Michigan poultryman whose battle with the government over penalties for growing too much wheat led him to sell out and head for Australia."

"The two incidents may not seem related, but they are. The relationship springs from the fact that both reveal flaws in the agricultural program . . .

FORT PAYNE, ALA., TIMES-JOURNAL: "Twenty years ago it cost only as much to run the entire federal government as our annual cost for interest alone on the national debt today."

ALBERT LEE, MINN., THE EVENING TRIBUNE: "Six New York hospitals have been struck by their service workers, members of the Retail Drug Employees Union, and some of them have been surrounded by as many as 200 pickets. . . . Now the 700 laundry drivers of the Amalgamated Clothing Workers Union (AFL-CIO) have been ordered by their local not to deliver fresh linens to the stricken hospitals. . . .

"The unions are striking for recognition, although the law specifically exempts hospitals from obligations to recognize unions. They are striking for higher pay, although the hospitals involved all lose money—over \$4 million last year—and are non-profit and charitable institutions . . .

PAYETTE, IDAHO, INDEPENDENT-ENTERPRISE: "In 1952, the Army spent \$200 million to buy canvas duck and webbing. The Army still has \$185 million worth of this material which it hasn't used. And that's a lot of canvas, enough to cover 16,447 acres of land. And it costs \$800,000 in tax money each year just to store this canvas."

"Here is just one example of the efficiency of our government in getting rid of our tax dollars. It makes one wonder just how much of our 'defense money' goes into waste holes such as this."

ARABI, LA., ST. BERNARD VOICE: "What we need to do in the United States, in Great Britain, and in the other democratic countries, is to sell the capitalist idea to the world. Capitalism, with its defects and its advantages, is a saleable product and is the most workable system, and the most beneficial system, for the average working man and the average citizen. . . .

CARRIZO SPRINGS, TEX., JAVELIN: "There is no such thing as a free lunch . . . not even when the Government provides it. Every lunch has to be paid for . . . by somebody. The same is true of Government aids, benefits and services."

"They are not free. All of these things have to be paid for by somebody, and that somebody is we . . . the people."

ANAHEIM, CALIF., THE BULLETIN: "As was pointed out in 'Alice in Wonderland', things are getting curiouseer and curiouseer, especially in the federal bureaucracy. For example, consider the bill, now before Congress, to provide an enormously expensive program of school aid . . .

"The noble purpose of this legislation is to take from the wealthy states, such as California, and give to those that presumably can't afford the new school financing they need. But as so often happens in socialist legislation, the handout would go to the wrong beneficiary."

"In a recent analysis of this program, Prof. Yale Brozen of the University of Chicago pointed out that actually the greatest need for school funds is found in the very States from which the most money would be taken . . .

BELLINGHAM, WASH., HERALD, SUN: "The Senate Rackets hearing is the converse of the old theory that if you repeat a statement often enough people will believe it. The stories of shady deals between employers and labor representatives as paraded before the committee is so commonplace that the public apparently wishes to forget it."

FACTS AND OPINIONS

Business and financial analyst Sylvia Porter writes: "Let's say that back in 1950 you received a cool \$10,000 and had this lovely lump sum free to invest as you saw fit. If you had put the whole \$10,000 in a 'typical' one-family house, your investment now would be worth around \$15,000. If you had put it in the U.S. Treasury's 2-1/2 per cent bonds due 1967 (the marketable bonds sold by the government in the war loan drive of 1942) your \$10,000 now would be worth only around \$8,800. If you had put it in 'typical' farm, your nest-egg's value would have grown to \$16,139 by early this year. If you had put it in stocks—the across-the-board list of stocks in the Standard & Poor's stock average—your \$10,000 would be up to more than \$25,100."

U.S. food chains have announced plans for an all-out producer-consumer campaign to move a record-breaking production of eggs into consumption. Some 12,000 stores will participate, and the merchandising effort will peak during two periods—June 4 to June 13, and July 9 to July 18.

Writing in National Review, Robert M. Bleiberg observes: "In a competitive market the goal of every entrepreneur . . . is to increase profits not by raising prices but by cutting costs and expanding markets. Moreover, the dismay of those who view the economic system as some kind of static model, the entrepreneur constantly is seeking to turn equilibrium into dynamic change in order to profit thereby. . . .

President Eisenhower has proclaimed 1960 as "Visit U.S.A. Year". A perfect prelude, in the view of Representative Porter of Oregon, would be to repeal World War II 10% excise tax on passenger fares. As he sees it, it's an anachronism to keep the tax on the books when every effort is being made to encourage travel within this country.

This fiscal year the interest on the national debt will total \$7.5 billion. Next fiscal year it will exceed \$8.1 billion.

Because Alaska "has the beginnings, but only the bare beginnings" of an oil industry, legislation is needed to increase the amount of public land acreage which may be held under lease or option, according to Senator Ernest Gruening. He, in company with Senator Bartlett, has introduced a bill to raise the limitation from a total of 300,000 to 1 million.

At least 35 species or subspecies of poisonous snakes are known in the United States. Bites are estimated at 3,000 a year, but the death rate is low—10 to 20 a year. It is pointed out, however, that the hazards may increase as camping and other outdoor activities become more popular.

Fortune magazine reports: "Last year U. S. pharmaceutical firms spent an estimated \$170 million on research. During the same period the British pharmaceutical industry spent only \$11, 200,000. The difference spelled success for some twenty-five subsidiaries of U. S. companies in Great Britain. U. S. firms completely dominate the British antibiotic and tranquilizer market, supply an estimated one-half of all the ethical drugs prescribed by the country's physicians."

The Tax Foundation notes that the 48 states (excluding Alaska) spent \$23-1/2 billion in the 1958 fiscal year, are likely to spend \$25 billion in the current fiscal year, and around \$27 billion in fiscal 1960.

Senator McClellan of Arkansas, head of the Special Senate Investigating Committee, urges Congress to subject all transportation unions to anti-trust legislation.

Columnist Marquis Childs writes: "Chinese Communist representatives in western Europe are known to have expressed anger and indignation that Soviet Foreign Minister Andrei Gromyko should have gone to the funeral of John Foster Dulles. To think, they are reported as saying, that he should have gone to pay homage to the man who was China's greatest enemy. The growing hostility of the Chinese toward Russian negotiation with the West and the 'soft' Russian attitude can incidentally be a factor in the Geneva talks."

American railroads have just been given a Certificate of Merit from the American Foundation for the Blind. The award was for assistance which the roads give blind travelers, such as the privilege whereby a blind person may travel with a sighted traveler for a single fare, and permission is given for trained guide dogs to accompany their blind masters free of charge.

Federal excise tax collections showed a substantial jump in the first quarter of this year as com-

pared with the same period in 1958—from \$2,616,949,000 to \$2,680,521,000.

Most meat packing companies says the American Meat Institute, pay out about three-quarters of each sales dollar for livestock.

An Omaha psychiatrist, speaking during a symposium on the aging at the American Medical Association's 108th annual meeting, said that a man spends his first 65 years preparing for the last 15. He suggested a positive health program for older persons. Some of its items: A balanced diet including more protein, vitamins and fluids; and less fats and calories; adequate rest of mind and body; pursuit of interesting and specific recreational activities; a sense of humor; participation in community affairs; continued expansion of knowledge, wisdom and experience.

A slowdown in the advance towards higher compression automobile engines and higher octane gasolines was forecast by four oil scientists at the Fifth World Petroleum Congress. Further improvements are likely, they say, "but the pace of the past cannot be presumed to be the future."

Full Production

Frank Oehme, talking to the Chicago Litho Club about management communications, went on to summarize these "8 Do-Mores":
Do more than exist—live.
Do more than touch—feel.
Do more than look—observe.
Do more than read—absorb.
Do more than hear—listen.
Do more than listen—understand.
Do more than think—ponder.
Do more than talk—say something.

Growing HEIFERS and Dry COWS need

Wayne FITTING RATION

Wayne Fitting Ration produces rugged, full-bodied heifers that are thrifty and ready to breed at an early age. Fitting Ration also helps the dry cow replace flesh lost during the previous lactation and puts her in top condition to start the new milking period at a high level of production.

Bred heifers and dry cows must receive a highly nutritious ration in order to build the unborn calf. Wayne Fitting Ration supplies the vitamins, minerals, proteins and energy needed to drop thrifty, strong-boned calves.

In a test at the Wayne Research Farm, well fitted Holsteins produced 1720 lbs. more milk and 83 lbs. more fat than when not properly fitted.

CURRENT EVENTS FIFTY YEARS AGO

The weather while very hot, has been favorable for harvest work, the barley, rye and wheat as well as hay, being cut and cured in excellent condition. The grain is reported to be of fine quality and well filled.

Union Sunday evening services will be held in Taneytown churches, during July, as follows: 4th, U. B. Church by Rev. D. J. Wolf; 11th, Lutheran Church by Rev. H. A. Goff; 18th Presbyterian church, by Rev. Christman; 25th, Reformed church by Rev. Wm. E. Wheeler.

A body of cavalymen, with wagons, on their way from Gettysburg to Ft. Meyer, Va. passed through here last Saturday. Their hot and dusty in connection with the dirty yellow colored uniforms and battered looking hats, did not arouse much want-to-be a-soldier feeling among our boys.

Harney.—Mr. T. D. Eckenrode, who has been attending an automobile school at Baltimore has now graduated and will be home for some time.—Miss Grace Shriver who has been employed as a milliner at Mechanicsburg, during the past season, returned home last week and will remain until the fall trade opens up.

Tyrone.—Henry Sell while hauling straw on Monday, was thrown from the wagon and was unconscious for several hours but at present writing is somewhat better.—On Monday evening, while Lewis Myers was cutting grain, his horses ran away the binder was broken, but the horses and men were not injured.

REMEMBERED
FOREVER:

"Where is the boy's ticket?" asked the conductor as the father handed him one fare.

"My son is only three years old," protested the father.

"Three!" said the conductor. Why look at him, that child is seven if he's a day."

The father peered intently into his son's face. Then turning to the conductor, "He's still only three . . . can I help it if he worries?"

Star and Stripes

THE FLAG OF THE REPUBLIC OF LIBERIA, which is similar to ours except for having only one star, is becoming a common sight in the seaports of the World. The small African country founded by freed slaves from the United States in 1822, now has one of the largest merchant marines in the world. Under U. S. Government encouragement, American shipowners and investors, together with shipping men from other small nations friendly to the United States, are responsible for this development, which has taken place in a mere ten years. The great new fleet includes some of the most modern and efficient vessels in the world, such as the famous Niarchos ship, WORLD BEAUTY, largest tanker built in the United States.

Many of these ships serve America's foreign trade, bringing oil and iron ore from rich overseas deposits, to help conserve our dwindling supply of these vital resources. Others carry surplus grain to famine areas in Asia and help in the economic development of Western Europe. In time of war, this great new fleet would support our Armed Forces, which would require vastly more tonnage than can be supplied by the American flag merchant marine.

All Liberian ships are required to comply with the International Convention of Safety of Life At Sea (1948) and are manned by highly trained officers and crews. The living standards, wage scales and union agreements, which Liberian ships have introduced to many ocean trade routes, have meant the dawn of a new day for seamen after thousands of years of the traditional life before the mast.

FEESERSBURG

(A Voice from Carroll)

Carroll County is at last having growing pains. The symptoms are affecting its citizens in different ways. Some are accepting them as necessary, though a bit uncomfortable, while others are rebelling and demanding that they be stopped before they grow worse. But it isn't that simple. Our country has enjoyed its rural simplicity far longer than most counties in Maryland and it would be nice if it could continue on in the same way, but change is on the way due to the outside pressures of Baltimore and its pushing population. No one can stop people from moving in to our county. The best we can do is to accept reality and do some intelligent planning to meet the needs of an expanding population and to see that the beauty and natural resources of our county and will be preserved in spite of industrial expansion. We believe the county commissioners have done the smart thing in hiring Mr. George Grier to study the needs of our county and to plan for the future. Certainly the entire set up of road-building and zoning needs in the county must undergo a complete change. No local person could do the job for the simple reason he would be under pressure by one group or another. We sincerely hope that Mr. Grier will be given a free hand to plan the county for all its citizens, and not be hamstrung by the towns that have the most pressure or by groups of citizens who want their particular pet theory put into plans. Let's give Mr. Grier a sporting chance to see what he can do for our county before we offer unsolicited criticism and throw up road blocks in his path.

The members of Beaver Dam Brethren Church with their families held their annual picnic in the Taneytown Memorial Park Sunday afternoon. In spite of the heat the younger set played softball, while the not-so-young sat in the shade and drank ice tea.

Jack Benny's definition of a true patriot is a citizen who can whistle "The Star Spangled Banner" while paying his income tax.

There is an appalling waste of animal life on the highways these days and unfortunately many of these animals are children's pets. Not always is it the fault of the driver of a car. Too often it is due to the pet's owner allowing it on the highway, Sunday evening while driving through Taneytown we saw a cat run across the street in the path of a car. It was impossible for the driver to stop even though he was traveling slowly. Two children set up a cry when their father picked up the cat, but it was too late for their pet was dead. We see so many cats on the highway run over by traffic. Maybe there is no way to keep them safe for they like to prowl and hunt mice in the grass beside the roads but it is always a heart breaking moment to see a child's tear stained face look at a dead pet, which they greatly loved.

We recently received a letter from a reader asking us to write something in the column against teen-agers smokers. We are afraid that our comments against smoking by young boys and girls will have little influence because the T. V. and radio commercials make it appear that its smart and glamorous to smoke. If every teenager was honest he or she would confess that the only reason they smoke is to impress each other with the fact that they are grown up, and can flaunt authority by smoking. Too bad that they aren't mature enough to follow a habit that is neither a symbol of maturity or good taste. The smoking habit belongs to the middle-aged and the base type. Regardless of how glamorous a girl looks on a T. V. cigarette commercial the moment she puts a cigarette in her mouth that is the moment she loses her femininity. She is defeating her own purpose, which is to attract the opposite sex. Young boys smoking looks ridiculous, to older people for it discloses an anxiety on their part to be men before they are boys. If teen-agers would stand in front of a mirror and light up a cigarette and look real hard at themselves they would burst out laughing because they would see how silly they look. Just like any child playing at grown-up games.

Mrs. Walter Hayter of Chicago and her two children are visiting her parents, Mr. and Mrs. Ralph Gordon of near Harney for two weeks. Callers at the Gordon farm Sunday afternoon were Mrs. Russell Quesenberry and Mrs. Virginia Reddick of Union Bridge and Mr. and Mrs. A. Millard Roelke of Uniontown.

This week we again celebrate July 4th as Independence Day. As all of us tend to forget how and why our Nation came about we thought it might be wise to re-read history and find out what Independence Day is all about. The extreme radicals, who first championed independence, found it difficult to convert their fellows to the idea of separation from Great Britain. The movement for independent status slowly gathered force in the colonies but there was much anxiety that for lack of support both politically and financially it might fail. The French government was the greatest factor in making our Independence assured. It is for this reason we owe France and its people a debt which the American people should never consider has been paid "in full". Reliable estimates indicate that only one third of the colonial population supported the movement for independence. This group was made up of farmers, mechanics, petty tradesmen and tidewater planters. The story of their fight is the story of the 4th of July and of the few with strong minds and spirits overcoming a majority of faint-hearted men.

There is a need for rebels in every nation but the present tempo of the people make it extremely difficult and unpopular to be a rebel.

PEN-MAR LEAGUE

Hanover's Eagles fell two and one-half games off the pace and saw their hold on the Pen-Mar League runner-up position endangered when the FOE baseballers bowed before Blue Ridge Summit, 5-2, Sunday afternoon on the Willow Beach diamond in Hanover.

While the Eagles were losing their fourth in 11 games and second straight, front-running Boonsboro copped a pair from Taneytown, 12-6 and 5-3, and third-place Fairfield downed Emmitsburg, 8-6, to pull within a half-game of Hanover.

Blue Ridge came through with three runs in the eighth inning to break a 2-2 tie and clip the Eagles. Joe Bierly fanned eight in a routing effort for Hanover, but his mates were held scoreless after posting, first and third-inning singletons.

George Crouse and Don Herring homered in a losing cause for Taneytown. Although hit hard, Crouse struck out 11 Boonsboro lads in the opening game.

Fourth of July action is next on tap for the Pen-Mar sandlotters. Taneytown goes to Hanover to test the Eagles. Boonsboro visits Fairfield for a doubleheader, and Emmitsburg is at Blue Ridge Summit.

On Sunday, the Hanover nine travels to Boonsboro, Blue Ridge Summit is at Fairfield, and Emmitsburg at Taneytown.

OUR COUNTRY

America is God's beacon to light the way
For all the nations on earth to-day;
That so many different peoples are happy here,
Is an object lesson for all on this hemisphere.

Ours is a pattern nation, the papers all say
(The 48 states are a working example to-day);
But, for ages, here, the voice of man was not heard,
And the only music was the song of the bird.

That she would be a leader was predicted long ago—
(That truth, many intelligent persons know);
For the Lord of this planet has planned a new race
The birth of which shall here take place.

"We can well afford to be generous, many say;
For, here we are happy; and prosper, day after day;
Such a thing as famine never visits our land;
So, we live, as it were, out of God's hand.

The "New Jerusalem" will be here, experts say—
(That is why our people prosper to-day);
At no other place do so many strangers you see
As in God's Great Wonderland - America.

True to prophesy, all peoples flock here—
(Thousands, from everywhere, come each year);
They have built the East and the golden West,
And have made this country one of the best.

God expects us to act in a princely way—
To help needy nations, from day to day;
They all belong in His great family, they say;
So, He is constantly sending His sons this way.

The early Christians were brothers in their day;
So they shared with each other, the Scriptures say;
And that is the way God wants things to be
In this long hidden country, called America.

Our plan antedates by 20 centuries, the Russian way;
Their leaders ignore God, the papers all say;
But, from the very beginning, it has been His plan
To establish here the brotherhood of man.

The greatest fault of Russian leaders, I find,
Is, to forget God and their neighbors, they are inclined;
For, from what I read, it is God's plan
To make the whole earth a home for man.

To-day, some of our Leaders worship the "golden calf"
What they do riles some, makes others laugh;
But, such conditions must cease to be
In this "home of the brave and land of the free".

A temporary Paganism is here to-day;
But, idolatry, they tell us, shall soon pass away,
For, when truth returns, all our people shall know;
For, God will show them, how to go.

A Leader shall arise in our midst some day,
A mouthpiece of Jehovah, the savants say;
And, men shall follow him, because they know,
What he says is true, and the right way to go.

Yes, God shall send a Leader to show the way
Which leads to Paradise and the endless day;
And, a man like Moses that Leader shall be;
For, not far ahead, is another Red Sea.

There are still some Pharaohs on earth to-day
Who make slaves of people, and want their way;
But, such nonsense, they tell us, must cease;
For on earth is nearing an era of peace.

Our Leaders must be men who never fail
To listen to God, and who look behind the veil;
For the Canaan we seek is not far away;
We can now see the dawn of the endless day.

I have written these lines to let people know
How God intends we all shall go;
And, as I have said, just so things shall be
In this great El Dorado, the land of the free.

This is not our first visit to Mother Earth;
You, too, were once an alien through another birth;
It may be that you once lived over there;
Why, then, refuse others, some pleasure to share?

When Time shall end, and no longer be—
When we walk in the light of Eternity,
Our greatest delight shall be to hear others say:
"You are the one who showed me the way."

So, I say, to the emigrant give a welcome hand;
Don't refuse to sell him a few feet of land;
For in ages to come that fellow may be
A life-long friend in Eternity.

The persons or organizations designated by the County Commissioners to issue such licenses, except the County Treasurer and the Dog Wardens shall be entitled to receive for their services in issuing licenses the sum of 50¢ for each such license issued by them and shall report all license sales and remit all license fees collected at the end of each month to the County Treasurer on report forms furnished by said Treasurer. The license fee above provided is due and payable as follows:

(1) On or before January 1st and not later than March 1st in each year, the owner or harbored of any dog six months old or older shall pay the license tax as herein prescribed; except, however, that any license issued under the provisions hereof as of July 1, 1959, shall be valid until December 31, 1960. The license tax due as of July 1, 1959 shall be paid not later than August 31, 1959.

(2) If a dog shall become six months of age or an unlicensed dog of licensed age shall come into the possession of any persons at any time during the first six months of any license period, the full license tax for the current calendar year or current license period shall be paid forthwith by said owner.

C. Kennel License

A kennel license is meant to cover one pack or collection of dogs kept on a single premises, however owned, whether maintained for breeding, treatment, boarding, sale, training, hunting or other purposes and including pet shops where dogs and other animals are on sale and the one tag securely fastened to a prominent place on the enclosure shall cover all dogs kept there within the limit of the license issued. Such license permits, when under close supervision, hunting dogs, or dogs for breeding purposes or sale to be taken from the kennel to the hunting field and hunted or taken for exercise or showing, and returned to the kennel in similar manner but does not permit any dog kept at the kennel otherwise to leave its limits without an individual license and the wearing of an individual license tag.

For protection and identification of Kennel dogs in transit between the kennel and the field as above provided they must wear collars or harnesses with kennel identification marks by name or number attached thereto and furnished by the kennel, which may be removed only when under supervision in the exercise or hunting field.

Kennel licenses are due and payable on or before January 1st and not later than March 1st in each year, or when beginning operations; except, however, that any license issued under the provisions hereof as of July 1, 1959, shall be valid until December 31, 1960. Thereafter all licenses shall be issued as of January 1, for the ensuing calendar year. The license fee for kennels owning or keeping not more than twenty dogs shall be Twenty-five (\$25.00) Dollars, and for persons owning or keeping more than twenty dogs the license fee shall be Fifty (\$50.00) Dollars, and the names of all persons owning, operating or interested in the kennel at the time of taking the licenses shall be written on the back of the certificate and the stub; and the name and address of the owner of each dog kept in such kennel and records giving full data concerning sales or other disposition of dogs from such kennels shall be kept on file thereat and available for inspection by the Warden or other Peace Officers at all times.

A kennel shall not be operated in such manner as to defraud the County of the license fee applying to dogs which cannot legally be covered thereunder or in any manner to violate other provisions of this subtitle; the primary purpose of a kennel license being to relieve owners of dogs kept at a kennel and never being allowed to run at large, from the necessity of taking out individual licenses for such dogs.

D. Penalties and Fines

Every dog license, either individual or kennel, shall be procured before January 1st or within sixty days from the time when by the provisions of these Rules and Regulations it is due and payable, and any person violating either by failing or refusing to comply with any of the provisions of Section 2 (A.) hereof, shall be liable to prosecution and punishment in accordance with the provisions of Section 199, of Article 56 of the Annotated Code of Maryland (1957 Edition).

Payment of the license tax subsequent to the issuance of a summons or warrant by a Magistrate or other court for failure to do so within the time required shall not operate to relieve said owner from the penalties provided. Any dog not wearing a license tag of the proper calendar year shall prima facie, be deemed to be unlicensed and in any proceedings under these Rules and Regulations the burden of proof of the fact that such a dog has been licensed, or is otherwise not required to wear a tag at the time, shall be on the owner of said dog.

E. Disposition of License Fees, Penalties and Fines

The County Treasurer shall keep receipts of dog license fees, penalties, and fines, and expenditures incident to operation and enforcement of these Rules and Regulations in a separate account, and all receipts shall be expended only for the proper operation and enforcement of the provisions of Sections 191 to 199, inclusive, of Article 56 of the Code, as amended, for no other purpose.

F. License Certificates

The County Commissioners, not later than November 1st each year, shall furnish the appointed persons with a supply of license certificates together with the corresponding metal tags and dog census books, in sufficient quantity to cover all requirements for the following year. Certificates shall be serially numbered in books of 100 each with triplicate stubs all of which shall provide spaces in which shall be recorded the following data: Election District, full name, home address with street and house number, or rural route and box number, telephone number of owner, and the name, sex, breed, age, color and markings of the dog. In case of loss of a license tag the owner thereof may procure a duplicate license for use during the balance of the year by surrender of the old certificates and the payment of fifty cents (50¢).

G. License Tags

The County Commissioners shall prescribe and furnish annually to the County Treasurer to accompany the license certificates, metal tags to be issued as herein provided. Such tags shall be of different shape each year, not over one inch in size and on one side shall bear the name of the County, number of the corresponding certificate, the words "Dog License", and the year of issue underneath.

Only one tag shall be issued for one individual dog or one kennel license and no tag shall ever be transferred from one dog to another dog or from one kennel to another kennel. Excepting as provided under Section 2 (c) hereof, governing kennel license, no dog shall be permitted to be at large without wearing a collar or harness with its individual license tag attached thereto and no person, except the owner of a dog or his duly authorized agent, shall remove such tag from a dog unless such removal be necessary because of accident or injury to the dog, or to permit hunting dogs to pursue game during hunting or training seasons.

H. Seizure and Disposition of Unlicensed or Untagged Dogs

A Dog Warden or other duly authorized officer shall seize any unlicensed dog. Every dog so seized shall be properly cared for and fed at the expense of the County until disposition is made thereof as hereinafter directed. Provided, however, that said officers shall not be required to take to a pound or shelter any dog suffering from serious injury or wounds or from contagious or infectious diseases, and they are hereby given full authority in their sole discretion immediately to dispose of such afflicted dogs in the most humane manner possible under the circumstances.

The owner of any dog seized as above provided may redeem it from the Warden or Dog Pound within 96 hours from the time of its apprehension by presenting current license certificate and tag and paying a pickup charge of Two Dollars (\$2.00), and the board bill at the rate of One Dollar (\$1.00) per day for the time the dog is held at a duly established public pound or shelter.

If not so redeemed within the time stated or while it is still being held and not actually sold or otherwise disposed of by the Warden, it shall be the duty of the said Warden to dispose of said dog either by sale to any person wishing to adopt it, or by destruction in the most humane manner possible. Provided, however, that the Warden shall not release to an owner a dog that is known to be vicious, or one having an infectious or contagious disease; the same shall be forthwith destroyed; with the exception that if any such dog is suspected of having rabies it shall be held for a period of at least ten days for observation before it is destroyed or otherwise disposed of.

It shall be the duty of the Warden upon learning of a dog being suspected of rabies immediately to investigate the case, confer with the owner, and if in the Warden's judgment or the judgment of any licensed veterinarian called in consultation there is reasonable ground to believe the dog may have rabies, he shall immediately impound the dog at the owner's home if satisfactory facilities are available, or at a public pound or shelter, and keep it completely isolated from all persons and animals for a period of at least ten days; and if at the end of the period of observation the dog seems fully recovered of its malady or shows that it has no further symptoms of rabies, the Warden shall then release the dog to its owner who shall be liable for the board bill for said dog at One Dollar (\$1.00) per day for the period of its detention at any public pound or shelter.

I. Disposition of Dead Dogs

The owner of any dog which has died from disease or any other cause shall forthwith provide for the cremation or burial of same. If he fails to do so, a justice of the peace or police officer, after notice to said owner, shall direct the Warden to dispose of the carcass, for which service the said justice of the peace shall require the owner to pay to the County the sum of Two Dollars (\$2.00) in full settlement for the services rendered, after a hearing before the Trial Magistrate. If the owner of any dead dog is not known and after inquiry can not be found, the Warden shall dispose of said carcass by cremation or burial.

3. DOG POUND OR SHELTER

The County Commissioners may provide for the construction of a dog pound or shelter, or may contract with Carroll County Humane Society, Inc., or any other competent agency, for the use of a suitable dog pound or shelter, to which every dog seized in accordance with the provisions of these regulations shall be taken and cared for at the expense of the County.

The provisions of Sections 191 to 199, inclusive, of Article 56 of the Code of Public General Laws of Maryland (1957 Edition) shall be rigidly enforced in Carroll County and it shall be the duty of the Dog Wardens as well as other public officers charged with responsibility by said statutes to effect such enforcement.

5. SEVERABILITY

If any section or part of a section of the above adopted Rules and Regulations is held by any Court to be invalid or unconstitutional, the same shall not invalidate or impair the validity, force and effect of any other section or part of a section of these Rules and Regulations, unless it clearly appears that such section or part of a section is wholly or necessarily dependent for its operation upon the section or part of a section so held invalid or unconstitutional.

Passed and dated at Westminster, Maryland, this first day of June, 1959.

A Nation Under God

Lesson for July 5, 1959

"THIS NATION, under God" has been a classic phrase ever since Lincoln said it. The expression had no doubt been used before him. Indeed the reverse side of the United States seal, which can be seen on the back of any dollar bill, shows an unfinished pyramid, right under an eye, which the designers meant to be the eye of God. For the motto over the picture is ANNUIT COEPTIS. This being translated means "He has approved the things which have been begun." But who is "He"? It can be none other than God. For without his approval it does no good to brag about anybody else's.

Dr. Foreman

The Gods of the Nations

So from the very beginning, our nation on its official seal has acknowledged that it was begun and must continue under the eye of God. His approval is vital. We put "In God we trust" on our coins. We open Congress with prayer every day it meets. We administer solemn oaths to public officials. Even in the army, where you would perhaps not expect it, the Department of Defense sees to it that every man has the opportunity to worship God. At Fort Knox, for instance, there are not less than 20 chapels provided by the army and used every day by Roman Catholics, Protestants and Jews.

It is not a novelty, or a peculiar thing, for a nation to recognize God officially, and to keep God—a god of some kind—before the eyes of the people. Armies have had chaplains since back in the times of the Romans—not in the modern sense of course, but professional religious men who accompanied the troops. The Chinese emperors used to sacrifice annually to the God of Heaven. We all know

about the Japanese Shinto, a religion all tied up with intense patriotism. In Abraham's time and long before that, the priest-kings of Ur used to sacrifice to the city's special deity, Nannar the moon-god. Every nation has some God. Even the wild Scythians, who bowed to no other god, would thrust a bare sword into the ground and offer sacrifice to the sword.

Where We Hang Our Hearts

Whatever a man hangs his heart on and depends on, said Martin Luther, that is his God. What a man hangs his heart on, in reality, may not be the God he officially acknowledges. "In God we trust," says every nickel of our money. But do we trust God or our money? What do we depend on? ICEM's, those intercontinental ballistic missiles that can destroy whole cities at one shot? IBM-machines, those immense robots that can solve problems faster than any human being can? What is it that can render us secure? Space satellites? More education? Democratic government? A favorable trade balance—keeping other nations always in debt to us? Capitalism? These are all gods—somebody hangs his heart on these, some or all of these, and depends on them. But they are not God.

The God of Jesus Christ

The Christian belief about God is summed up in Paul's title for him in Romans 15:6: "The God and Father of our Lord Jesus Christ." Any sort of alleged god who does not measure up to that, is no true God. Any "god" who bears no family resemblance to Christ, any "god" Christ would have disowned, is no God. This proposition should set us thinking. One of the thoughts is this: A favorite book of Jesus in the Old Testament, one he quotes often, was Deuteronomy. Now the book of Deuteronomy makes a great deal of the idea of a nation under God. But close to the very beginning of that book you will find the Ten Commandments. The true God is the one who gives to man the law by which he lives. No man and no nation has any right to suppose that either a nation or a man can claim the favor and protection of God, and at the same time defy him by breaking his laws. The God and Father of our Lord Jesus Christ, because he is indeed the High God, says to every nation that professes to be "under" him: Do you mean it?

Let's Think

by
G. H. ENFIELD

What business or profession is not dependent upon the goodwill and patronage of the people?

A fellow has no moral right to demand higher pay when he doesn't honestly earn his present pay.

How can it be otherwise than a lot of drunken driving when Mississippi is the only dry State in the Nation!

Much evil is done because of the weak-knees, stupid minds, and wayward hearts of people.

When one gets to know as much as a high school student, what is the need of a college or a university education?

The story of the development of the human race is repeated in each individual. Be sure to study one or the other.

Life is a long holiday for those too trifling to earn a living. But how they look to Uncle Sam for a check from the earnings of those not too lazy to work!

Today is the time to build a life but not the time to complete it.

It isn't the selfish love of money that destroys many marriages but the pure, unadulterated selfishness itself.

The story is told of a languid youth who refused to exercise because he was saving his muscle to take up prize fighting. Perhaps many standing idle today on street corners are training for unknown opportunities and enviable positions.

"Surrender to temper is childish and usually incurable after the spanking age. An adult's faults cannot be cured if he lacks the dignity and understanding to be ashamed of them."

The prisoner had been sentenced to twenty years solitary confinement. In order to help pass the time, he caught an ant in his cell and began teaching it tricks. The first five years he devoted to teaching the ant how to do hand stands. It took the bug five more years to learn the art of playing dead. The final ten years were spent teaching it to do an Irish jig.

On the day that he was released, the prisoner, with an eye towards making some quick folding money, placed the ant carefully in his coat pocket and headed for the nearest bar.

Once inside he looked eagerly around the crowd hunting for persons likely to wager against the unusual talents of his diminutive cell mate. He sized up the bartender as a man of sporting blood and hastily called him over.

Pointing to the top of the bar he said, "Do you see that ant there?" "How'd that darn thing get in here?" replied the bartender as he crushed it with his thumb.

The will of the wealthy, but eccentric, man was being read and the relatives all listened expectantly, his playboy nephew. Finally the lawyer said:

"And to my nephew, Charlie whom I promised to remember . . . 'Hi, there, Charlie!'"

Then there's the story of an air-conditioner salesman who was sent to Alaska. Going from igloo to igloo he was always met by the same reaction. Each resident would say, "Why should I buy one of those things when its 60 below zero here now?"

"I know," he countered, "But you never can tell when it will jump to zero."

Johns Hopkins Seeks Fireflies For Research

Baltimore, Md. — The Johns Hopkins University, which uses fireflies for important scientific research and ships them all over the world to other research institutions, is looking for more of the valuable bugs this year.

Dr. William D. McElroy, director of McCollum-Pratt Institute at Johns Hopkins, is asking that anyone interested in organizing firefly collection teams contact the Institute immediately.

Chemicals in the firefly which cause its tail to light up have been used by Hopkins in basic research connected with such diseases as cancer and muscular dystrophy since 1948.

Hopkins is the only distribution center for fireflies. As many as 500,000 of the lightening bugs have been caught in a season by youngsters in Baltimore, but this year Dr. McElroy says twice as many are needed.

Local collectors are paid 30 cents a hundred, and the bounty to out-of-town collectors will be slightly higher. Sub-stations where fireflies will be collected and shipped to Hopkins are being organized all over the country this year.

Two of these are in Maryland. One at Washington College, Chestertown, is being supervised by Edgar Gwynn. Another, in Bethesda, by David Chen of 4413 Montgomery Avenue.

Dr. McElroy points out that collectors outside of Baltimore must catch the fireflies alive and keep them in cold storage. Then they must be carefully packed in dry ice and shipped express to the University.

He warns that no one should ship fireflies without first contacting the McCollum-Pratt Institute to make arrangements for collection and handling.

Because the bugs are found only in areas with a hot and humid climate, their supply for research purposes is limited. The season here in Maryland runs from about the middle of June to the first week in August.

I paid for your first bottle of milk when you were a baby and I could be your most dependable friend when you get old and retire.

I could, but I'm not indestructible. Inflation could just about ruin me.

I want help. Bankers, financial men and others have tried, but they cannot prevent inflation by themselves.

I want some additional clear-thinking citizens to help keep up my strength.

I want to be healthy so I can live up to my famous slogan, "Sound as a dollar."

The Fourth of July holiday is one which the citizens of Maryland look forward to with great expectancy of fun and enjoyment. Governor J. Millard Tawes stated, "This holiday is a glorious occasion for all the people of our country—one to be celebrated with joy and a sense of responsibility." He warns all those preparing for a trip over this weekend not to enter into a "Careless Holiday Spirit"—but to remember traffic accidents do not just happen they are caused by the motorist and pedestrian who refuse to observe the safe rules of the road. There will be heavy traffic on the highways throughout Maryland during this holiday weekend—drive carefully—obey all traffic laws—display courtesy at all times—and don't speed—SLOW DOWN AND LIVE!

A Fourth of July motorist who starts out like a rocket may end up a wreck!
