Southern States Cooperative Holds Annual Meeting

One way for farmers to control agriculture is through general farm organizations and cooperatives.

This solution to the problem of "Will farmers control agriculture in the future?" was offered by Dallas O. Adams, district manager of Southern States Cooperative, at the Taneytown area Annual Membership Meeting at Big Pipe Creek Park on Tuesday, August 18.

In order to accomplish this, Mr. Adams said, it would be necessary for farmers to do several things:

1. Build a strong and diversified cooperative, capable of sitting at the bargaining table with big business, big labor and big government.

2. Produce what the consumer public demands, process to meet the standards set by the housewife, and control enough of the production to bargain effectively with large scale buyers.

3. Farmers must be willing to finance their cooperative to the extent to render the services they demand of it.

4. Farmers will have to equip their cooperative to serve all farmers, large or small.

Another highlight of the meeting was the elections of local board and farm home advisory committees.

Elected to the local Southern States Board were: Martin Zimmerman, Taneytown, Md.; and Paul Brower, Taneytown, Md.

Elected to the local Southern States Farm Home Advisory Committee: Mrs. Robert Bollinger, Taneytown, Md.; and Mrs. Raymond Baker, Taneytown.

There was also the election of a delegate and 1st and 2nd alternates to a District Election Meeting to be held in Martinsburg, W. Va., in late fall.

Percy Bollinger of Taneytown, Md., was named as delegate while Claude DeBerry of Emmitsburg, Md., was named as alternate.

Other highlights of the meeting included: Geo. C. Flohr, Taneytown, Md., gave a report on store operation. This report revealed a 4.8% refund would be paid on all purchases through Southern States Taneytown Cooperative for the year ending June 20, 1959.

Taneytown Chamber of Commerce Visits Westinghouse and McCormick's

Recently fifty members of the Taneytown Chamber of Commerce visited the Westinghouse Air Arm plant adjacent to Friendship Airport. The group toured the various areas of the plant and grounds. They heard a short talk on molecular electronics and observed a demonstration of its practical use. Of paramount interest on the morning phase of the trip was a visit to Friendship Airport where the group boarded and inspected a 707 jet airliner.

In the afternoon the Chamber made a journey to the McCormick and Company where they observed the processes that go into the production and packaging of teas and spices. A highlight of this tour was the serving of tea and cookies in the famous McCormick Tea House by tea hostesses.

To conclude this very pleasant and educational day of activity, the Chamber dined at Haussner's Restaurant and attended a baseball game.

The Board also took action to approve a number of business transactions in connection with supplies for the county schools during 1959-60 and gave approval for certain additional school improvement contracts.

The superintendent recommended the teacher roster for 1959-60 and the Board approved the roster as submitted and directed that steps be taken toward publication of the teacher lists and that such lists be made available to the school principals and others interested.

The Board heard a report regarding the current fire and liability insurance from Mr. Herbert V. Anders, Insurance Broker and Supervisor of Insurance for the Board of Education. The Board was advised that contracts had been issued for school improvements at the Robert Moton, Taneytown and Hampstead Schools.

The Board heard a brief report regarding arrangements for building custodians and their work from Mr. Roland F. Hailley, who has been assigned to the responsibility of supervision of building custodial service.

Announcement was made regarding the meetings connected with the opening of school, including a meeting for new teachers on September 2 and general meetings for all teachers expected to be present at the general meeting on September 3, and to be in their schools preparing for the opening of schools on September 4. Schools will open for regular 1959-60 sessions on Sept. 8.

The Board considered a number of proposals in connection with school building needs and proposed school construction in areas where enrollment indicates. No formal action was taken in this matter, since it is apparent that more planning and information will be essential.

The Board directed that a resolution of respect be passed and made a part of the minutes in connection with the recent death of Mr. Frank A. Conaway, who had been a member of the Board from January until May, 1959.

H.R. PASSES NEW LABOR REFORM BILL

Congressman Brewster Reports Merits of Measure

The House of Representatives has passed the labor reform bill. The final vote was 303-125. I voted for the bill.

The investigations of the McClellan Committee have clearly pointed out the need for strong reform measures in the labor field. Countless instances of corruption, hoodlumism, violence, coercion, terror, and the destruction of property were brought to light by the Committee's investigation. The presence of criminals in certain unions of the labor movement also was graphically shown. Aroused citizenry demanded that the criminals be driven from the labor movement and that the aforementioned abuses be halted.

The bill which was passed contains a bill of rights for union members, including freedom of speech and assembly; protection against arbitrary dues; and the right to sue a union for violation of a member's rights. It requires both unions and employers to report on their finances to the Secretary of Labor.

The bill requires unions to hold periodic elections by secret ballot, and bars the use of union funds to promote the candidacy of any person. It bars convicted felons and Communists from holding union office. It makes it a crime for any union official to embezzle or illegally convert union funds. It requires union officials to be bonded.

There are also provisions covering legal jurisdiction in labor disputes, the banning of hot cargo agreements, and secondary boycotts. Blackmail picketing is also prohibited.

One of the unfortunate results of the controversy and the blatant attempts of Hoffa and his ilk to coerce the Congress has been an undesired blackeye for the many clean, decent unions in our country. The vast majority of our unions are clean and decently run by men of unquestioned integrity and ability. The American trade union movement has made a tremendous contribution to our way of life. These good unions do not deserve to be punished because of the excesses of a few union leaders.

The bill will now go to a Senate-House Conference Committee, where an attempt will be made to reconcile the differences between the House bill and the Kennedy-Ervin bill. I am not satisfied with some of the provisions of the House bill, and I hope that the conferees will ultimately draft a fair bill which will be completely acceptable.

Bowers Reunion

The 32nd annual reunion of the Bowers Clan was held at Taneytown Memorial Park, Taneytown, Md., on Aug. 15, 1959. A basket lunch was enjoyed by all followed by the playing of games. There was a short program and business meeting.

The following officers were retained for the year 1960: president, Earl Bowers; vice president, Clair Bowers; secretary, Miss Genevieve Baumgardner; assistant secretary, Mrs. Charlotte Sentz; and treasurer, Charles Schildt.

Awards were granted to: oldest lady, Mrs. Maggie Cutsail; oldest gentleman, Edward Copenhaver; youngest, Robin Liessa Little; longest married, Mr. and Mrs. Harvey Lockner; newest married, Mr. and Mrs. Robert Kelly; largest family present, Maurice Bowers family; greatest distance traveled, 850 miles, by Mr. and Mrs. Orville Legore. Ice cream and cake were served to 140 persons at the evening meal.

The portly man was trying to get to his seat at the circus. "Pardon me," he said to a woman, "did I step on your foot?" "I imagine so," she answered, after glancing at the ring, "all the elephants are still out there."

If horse sense were only equal to horsepower these days, there would be a lot fewer accidents on the roads.

THE FARMER IN HIS RIGHT MIND

The recent observance of National Farm Safety Week brought an interesting editorial comment from the *Ivanhoe*, Minnesota, Times:

"There is not a farmer alive today," says the Times, "who would trade a few fingers for a few seconds or even a few hours of time. There is not a farmer alive today who would give the life of his son or daughter in order that they could first have a joyride into the fields on a tractor or wagon . . ."

"All farmers living today know it is perfectly foolish to delay fixing lights that are not working on their tractor, and they don't ever intend to ride along the highway in the dark because they took that extra trip around the field.

"No farmer in his right mind would operate farm machinery contrary to the rules of the manufacturer; they might wind up with a stub of an arm or an artificial limb, or a tombstone for a head rest."

Yet, as the Times goes on to say, farm accidents, including fatal accidents, continue at high rates. And many of these accidents are connected with the use of tractors and other farm equipment.

The equipment manufacturers have gone all out to make the machines mechanically safe. Complete instructions for safe operations are furnished. But, once the machine is sold, it is beyond the maker's control. He can't stop a farmer from breaking the safety rules, or from making mechanical alterations on his own hook, or from taking long chances in other ways. It's entirely up to the farmer. He can perform his tasks safely—or he can run the risks that lead to disablement and death in a tragic number of instances.

—Industrial News Review

FACTS AND OPINIONS

From National Review: "J. Handy Wright, vice president of the Association of American Railroads, told an industry group . . . that union featherbedding has, in effect, stolen seven billion dollars from the rail carriers since World War II. Now, seven billion dollars is just about equal to the total outstanding common stock of the railroads, and about half their net capitalization. Since all the railroads taken together have averaged less than four hundred million dollars in dividends per year since the war, the unions have received more in featherbedded extras than the stockholders have managed to earn for taking truly hazardous risks. Talk about profit sharing, you name it and the railroad fireman, who is paid for not stoking the no-fires on the Diesels, has got it. And how!"

One of the biggest industrial birthday parties in history is pending. It will occur next August 27, when the oil industry celebrates its 100th birthday. Salutes and tributes began in May and will continue through November. The Centennial slogan: "Oil's First Century: Born in Freedom, Working For Progress."

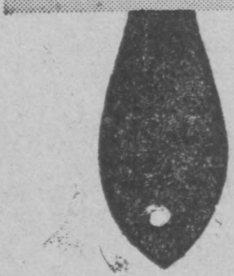

Maurice E. Peloubet, a partner in a leading New York accounting firm, points out that about \$95 billions of a total plant investment of some \$300 billions in the U. S. is now considered obsolete. Industry wants to replace the old equipment with new and more efficient machines. But, says Mr. Peloubet, antiquated and unrealistic depreciation methods imposed by tax laws make it impossible.

**"Thanks
for calling"**

How often people use those words at the end of a telephone call!

Perhaps they mean "thanks for the good news." Or "thanks for this useful information." Or "thanks for the order."

Sometimes they mean "thanks for thinking of me. Thanks for cheering me up."

Whatever the meaning may be, people do appreciate your calls and you appreciate theirs.

"Thanks for calling" is a constant reminder of how much usefulness and value and friendship your telephone gives you. It's one of life's biggest bargains.

After the nice shower Monday evening did you see the pretty rainbow in the eastern sky?

Boats sail on the rivers, And ships sail on the seas; But clouds that sail across the sky Are prettier far than these.

There are bridges on the rivers, As pretty as your pleasure; But the bow that bridges heaven, And overtops the trees, And builds a road from earth to sky, Is prettier far than these.

—Christina G. Rossetti.

Mrs. Dinterman and her family, on the square at Keyville, have made a wonderful display of flowers all over the place; it pays in more ways than one to go slow at that crossroads. Mrs. Wm. Stambaugh, the Keyville store, is having beautiful luck with her flowers, too. A lot of people in this area, Keyville-Detour, have nice lawns and flowers but few have the advantage of such good locations as the above two. I believe either Mrs. Charles Diller or the Raymond DeBerry's hid several rows of colorful "glads" behind their homes in Detour. Mrs. Gertrude Warner, Frederick County side of Detour, is displaying some exceedingly tall and pretty geraniums on her front porch.

Flag Presentation

The presentation of the 49 Star flag from Fort McHenry occurred in the garden of the Historical Society of Carroll County on the evening of August 13. It was preceded by a display of other flags of historic interest in the possession of the society. While they were unfurled from the balcony, Dr. Theodore M. Whitfield, president of the organization, gave a history of the flag and young women costumed in the periods of the various designs appeared.

The 49 star flag was presented by Walter T. Berrett, superintendent of Fort McHenry, National Monument and Historic Shrine, and Mr. David Thompson, historian of Fort McHenry. Supt. Berrett reminded the audience that the very first flag to be flown in the nation on July 4, at one minute after midnight, was raised at Fort McHenry. After flying for five days, night and day, by special Presidential proclamation, that flag was taken down to be preserved in the Fort Museum. The second 49-star flag to be raised flew from July 9 to July 14. This was the one Superintendent Berrett presented to the Historical Society of Carroll County. When asked if this flag had been flown on the exact site from which Francis Scott Key saw it, he replied in the affirmative and added that information concerning the spot had been lacking for many years. Discovery of the location happened only last fall when a team of archeologists and historians carried out research excavations with the help of an old 1803 map. After digging seven feet down in the old parade ground outside post headquarters, they found a massive base of hand-hewn timbers preserved in mud. This was the long-sought base of the towering mole from which the Star Spangled banner waved in 1814. The tattered remains of that 42 by 30 feet emblem are now in the Smithsonian. The flag in the possession of the Carroll County Historical Society is 19 by 10, unfurled by Harold Roon, Eltinge Reifsnider, and Stuart Zenggraf it extended from the second story of the Shellman House to within a foot or two of the ground. Carl Myers gave the call to the colors and led the Star Spangled Banner following the Salute to the Flag by the large audience.

The flags presented earlier in the program began with the original 13 stars. The first was a homespun flag from the Union Mills homestead, made about 1800. The second

was made from the 1876 centennial celebration in Westminster. There was a dramatic moment when Mrs. Granville Bixler, in her rose colored colonial gown, walked over to a garden bench and led Mrs. B. S. Cranston of New London, Ohio, to stand with her under that flag. In 1876 Mrs. Cranston was Nicie Meade Wheeler representing one of the 13 original states as she rode on a float, horse drawn, in the big parade. Her father was proprietor of the old Wheeler Hotel, later known as the Main Court.

Other flags belonging to the Society were displayed in the historic order of their appearance. The 32-star flag which came when Minnesota entered the Union in 1858 was represented by a small silk flag carried by Thomas Gorsuch in a Frederick Parade, 1861. A 34-star flag picked up on the Battlefield of Gettysburg during the time of conflict was the gift of Miss Elizabeth and Miss Amelia. The 35-star flag which appeared with the admission of West Virginia, 1863, was represented by a worn woolen flag which hung from the second story of the Shellman House on high holidays for 60 odd years. Mrs. Rena Fleagle Kennedy appeared under this flag in costume of Civil War Days. A 36-star flag was displayed through the courtesy of Dr. Frederic Shriver Klein. It was carried in the Victory Parade when Abe Lincoln was re-elected in 1864.

Two of the 38-Star flags, which signaled the entrance of Colorado in 1876, were displayed. The one of special interest was that belonging to the old Burns Post of the G.A.R. Miss Katherine Stoner appeared in a blue and gold checked taffeta gown of that period. Perhaps the most unusual flag to be shown was the 39-star one which legally never existed. Although it did represent the 39th state, whether it was North or South Dakota will never be known. Whichever it was, it existed for only a few seconds because President Harrison juggled the twin documents so that it would never be known which was 39th and which 40th.

The 42-Star flag, which ushered in the state of Washington in 1889 came from the Veterans of Winfield. Mrs. Leeds K. Billingslea, in a purple bustle gown represented that era. Four of the 48 star flags which came in with Arizona in 1912 were displayed while Miss Edith Rill modeled a shirtwaist and skirt attire of Gibson Girl vintage. The Society owns four of the 48-Star flags which appeared with the entrance of Arizona in 1912. One was used at the dedication of the Francis Scott Key Monument. Two were used at the Mexican Border and one was carried in the Armistice Day Parade, November 11, 1918. In contrast to the period costumes, Miss Virginia Stoner wore a summer dress of 1959 as she posed under the 1959 Star Flag which salutes the admission of Alaska.

How fitting that Carroll County which now claims Terra Rubra, home of Francis Scott Key, should own a Star Spangled Banner which has made new history at old Fort McHenry!

Costumes were arranged by Miss Dorothy Elderdicke. The program was in charge of Mrs. Edgar G. Barnes.

AN URGENT MESSAGE TO EVERY MAN, WOMAN AND CHILD WHO DRINKS A GLASS OF MILK!

CIVIC ORGANIZATIONS—HOMEMAKERS CLUBS AND COMMUNITY GROUPS ATTENTION!

IF YOU'RE A MILK USER—YOUR MILK BILL STANDS A GOOD CHANCE OF GOING SKY-HIGH BECAUSE OF A PROJECTED FEDERAL REGULATION!

PLEASE READ CAREFULLY!

Certain pressure groups and giant milk interests have combined to try to bring Federal Milk Regulations to Baltimore City and many Maryland counties. Not health or sanitary regulations, mind you—but PRICE regulations.

If these regulations go in—your milk bill is going to jump! This is no wild guess—it's part of a national pattern and has happened in many other communities. Besides that—independent dairy farmers will receive less for their milk—and many of them will be forced out of business. This, too, is part of a national pattern. Below are three examples of the sort of things which occurred when this Federal regulation went into effect elsewhere.

- 1**
- 2**
- 3**

In Washington, D.C., the price of milk went up the same day the Federal Regulation went into effect—July 1, 1959.

In Bernardsville, New Jersey, the price of milk went from 26c to 30 3/4c per quart in less than 3 years.

In New York city, believe it or not, the number of active dairies dropped from over 40—to 5.

Here's what you can do; Instead of just thinking about it—act! Let your feelings be known! Our Maryland Senators can nail this thing—stop it right in its tracks—if they know YOU don't want it! So—TODAY—NOW—clip the blank, fill it out and mail to either Senator J. Glenn Beall or John M. Butler, Senate Office Building, Washington, D. C. They're waiting to hear from you!

Dear Senator:

WE DON'T WANT THIS FEDERAL MILK PRICE CONTROL IN MARYLAND. PLEASE USE EVERY EFFORT TO HAVE IT STOPPED.

THANK YOU
