## FARMER DIES IN COLLAPSE OF SILO Structure Erected on Farm Less Than a Month Ago

Injuries sustained when a newly-constructed silo collapsed on his farm near Emmitsburg Tuesday afternoon, proved fatal for Glenn Springer, 45, at Annie Warner Hospital, Gettysburg, Pa., early Wednesday morning.

Mr. Springer's brother, Elmer, aged 49, was still in critical condition at the hospital late last night with multiple injuries. The 45-foot silo collapsed Tuesday afternoon as the brothers were filling it. The men were buried for a time in an estimated 70 tons of ensilage.

The County Building Permit Office revealed Wednesday that the metal silo was placed on the Springer farm less than a month ago.

The used silo was moved from another farm where it had been filled without difficulty six times before, a Springer family source said Wednesday night. It was placed on the Springer farm two weeks ago. This is the first time the Springer family had attempted to fill it.

The permit to replace a silo on the Springer farm, at a cost of \$425, was applied for at the Building Permit Office by Glen and Margaret Springer on Aug. 5 and was approved one day later.

Mr. Springer was a native of the Emmitsburg area. Survivors include his parents, Milton G. ## Scout Paper Drive Sept. 12

The September collection of newspapers, rags and magazines will be made by Boy Scouts of American Legion Troop 348, Taneytown, a week from Saturday, on Sept. 12, to avoid the holiday weekend.

Activities Scout meeting tonight will again be set in the beauty of the Natural Dam sportsmen's area, preceded by a swim, and the evening's meeting theme will be handled by Assistant Patrol leader, James Tracey. Last week the block swimming hunt saw Michael Tracey, Ralph Hoffman, James Tracey, and Thomas West in that order. The theme selected by Patrol leader Donald Kooztz was a fortunate one for his Panther patrol, who placed 1st in Morse signaling by flashlight, with James Tracey of the Foxes second. The other three patrols did not place.

A marshmallow roast on the grassy grounds of Troop 84, Littlestown, concluded the program, and sincere appreciation is expressed to Mrs. Myron R. Tracey for transportation assistance.

The Foxes, led by Larry Six and James Tracey, continue to lead in the year-long patrol contest, while the Panthers, headed by Kooztz and Samuel Bower have nosed out of 2nd place the Raccoon patrol, whose leaders are Byron Baer and Gerald Tracey. The excitement will increase as the summer disruptions permit all to settle down to a steady pace.

## LETTER TO THE EDITOR

Aug. 30, 1959

Dear Mr. Stonesifer:

We left West Palm Beach, Fla., July 20, 1959.

At Clermont we viewed 17,000,000 orange and grapefruit trees; also over 100 lakes from the Citrus Tower, which is supposed to be the highest point in Florida, 226 feet.

Many horse drawn carriages were available at Old Town for a drive along the Suwanee River. We made our first visit to the State Capitol building at Tallahassee. This was one place that the pedestrian pressed a button to change the light when he wanted to cross the street and the cars just had to wait.

Just before entering Alabama, there was a thunderstorm in the afternoon. We had to stop along the roadside for twenty minutes. Several other cars joined us.

Birmingham, Ala., is a nice city. A bridge is to be built over it in the near future.

Traffic was heavy around Biloxi, Miss.

We enjoyed the French district at New Orleans, La.

8,500 people live at Picayune, Miss. The first car bearing Maryland license we saw after leaving Florida was at Ft. Loudon, Tenn.

The mountains and valleys in Kentucky made a pretty picture, especially at Cumberland Gap.

We arrived in Maryland July 25, and found a warm welcome by relatives, friends and even the weather.

After a pleasant visit, we again started south, August 24th.

Two days were spent with friends in Silver Spring, Md.

We visited the National Lutheran Home in D. C., and enjoyed a guided tour of this nice building by Uncle Tom Wantz. He looks very well and is alert, being respected by all with whom he comes in contact.

The most amusing incidents along our way were in South Carolina; colored men carried a handkerchief and were chasing insects, mostly gnats from their faces; a colored lady was walking along the roadside carrying an umbrella, and fanning herself; a white couple had a hog leashed to a moss covered tree.

Some cotton was being picked by hand and piled along the road to be bagged and weighed.

The temperature in the Carolinas was 97 degrees, being in the 90's the last twelve days.

We arrived in West Palm Beach, Aug. 28th. The temperature was 89 degrees.

Sincerely,  
WESLEY and MARY SHOEMAKER

## WITH OUR ARMED FORCES

NORFOLK, Va. (FHTNC) — Larry F. Cornett, seaman apprentice, USN, son of Mr. and Mrs. John Cornett of Route 1, Westminster, Md., is serving at the headquarters of the Commander in Chief, U. S. Atlantic Fleet in Norfolk, Va.

He reported to Norfolk July 31 from the Naval Training Center, Great Lakes, Ill.

Before entering the Navy in April 1959, Cornett attended Taneytown High School.

"SPICE 'N' EVERYTHING NICE" With all my heart, I wish you every morning a smile that shall last until the next day's dawning. I wish you health—life's greatest wealth! I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

If you really want to be happy in other words satisfied with your lot it would do you good to just sit in the "Emergency" entrance of a busy hospital any day of the week.

At a very early hour about 3 or 4 a. m., on Sunday, Your Observer broke her middle toe! As I walk very quickly, I hit my toe against the chromium post in the bathroom and I saw S T A R S—no foolin! The pain was intense and I called the nearest hospital and a cab drove me over to Union Memorial later that day. A sweet woman—Miss Fields met me at the entrance with a wheel chair and then I sat there awaiting my turn for x-rays. Frankly, I was glad to remain right in that position so as I could observe all that was going on.

In a very few minutes an elderly lady was wheeled beside me being dismissed and the head nurse said to her, "This lady did the same thing you did!" It was also number two toe or the middle one! She suffered more than I from what she told me.

Then our wonderful Baltimore Police were bringing in all types of people who had been in car accidents. No one could ever tell this Communist anything against our Police force in Baltimore or our State. They truly are gentlemen and the concern, anxiety, tenderness and consideration with each person they handled was most gratifying and kind. Words really fail me! They are the ones who should get top salaries.

There was a young woman who came in for another x-ray of her broken nose who was on the arm of her father.

The Student nurse who had her forearm bandaged due to a fall while on duty and also awaiting x-ray.

Then this surprised me—a gentleman being wheeled in by his wife who had never had a Dr. in his lifetime and when he stood up on the floor in the morning getting out of bed his wife told me that he gave out one scream. He was there for x-ray and when I asked the result his wife told me it was due to a torn ligament in his foot and he did not know how he did it!

When I observed a tall thin young woman who was in Bermuda Shorts with her husband and tiny daughter. I saw the swollen knee and to my question she told me she had been in Ocean City in the water when a child banged into her on a SURF BOARD and her leg started to get stiff and then the swelling and pain followed. She, too, was there for x-ray.

A young couple bringing in their tiny infant fearing some thing very serious was wrong when the Dr. stated it was sore throat! Dozens of other cases followed until I wheeled me up to x-ray which showed a broken bone, the ligament on my instep stretched and a little bone crushed and back I must go in ten days! As I came home in that Taxi—there were many thoughts racing through my brain and I think, dear Readers you know just what I mean. Now, I am on crutches—hobbling around the house. But I do know just how to handle the crutches having kept them all through the years when I had used them for a broken ankle. I was tempted to give them away a number of times but each time, I hesitated! Strange?

What a delightful surprise to receive a lovely picture of that precious Princess Grace Monaco with her two children and her charming Prince! The Rockefeller romance was truly a real one, too and betcha, that one will last and last until Death Do Them Part!

Now, Mrs. Housewife the best T.V. dinner I have tried is Mrs. Paul's and it tops others in quantity and quality! Just try the fish dinner.

Soon the stores on Saturday in town will be open again in fact by the time this Column goes to press they will already have been opened. When one goes around in these hot days and sees all the winter garments on the racks—it really makes one feel hotter. Eh?

And when you do go down town, folks stop for the entire day—all for 80 cents parking at the "Lexington Garage" across from the Market—that friendly place where everyone is so kind and pleasant. You can also have your car washed at the same time and it will appear like new when you call for it at the end of the day and the gas tank is right there, too. Real service if you ask me! You will never park anywhere else when in town.

And don't forget if you desire to purchase that grand little "Ovenette" for cooking—even baked pies and cakes and is the best thing I ever had had any experience with. Cooks in less than half the time and as for roast chicken—Ummmmmm good! It will answer the problem for many plans and arrangements and after it gets cool and cleaned you can store it away in a closet. Ideal for the Bachelor apt. Ask any electric appliance store for full information as most of all of them sell it. If you cannot get full information about it write direct to "West Bend Aluminum Co." West Bend, Wisconsin. The Recipes and Instructions will be sent to you for this Electric Ovenette.

Now, Mother when the children go back to school relax a few weeks before you begin your Fall-cleaning. It will pay big dividends, I can assure you.

You see you sent for one of those wonderful History Maps of the State of Maryland. Bailey Goss on the Bowling Show gave out information. It

**WORKERS WHO WON'T BE HIRED**

Last July, the Senate Labor Subcommittee voted for an increase of 25 cents an hour—from \$1.00—in the federal minimum wage. A great many people honestly believe that this was a good and necessary act, and that anything which betters the lot of the lowest paid workers deserve support.

Yet, there is another side to this coin. The publication Economic Intelligence puts the problem in these words: "A worker is hired to make an economic contribution to the enterprise. If he is unable to produce additional service worth at least \$1.25, he simply will not be hired."

In other words, artificial jacking up of the minimum wage produces unemployment among the unskilled workers whose productivity does not justify the higher rate. Then, at the same time, it deprives these workers of opportunities to learn skills that will qualify them for better-paying jobs.

Precisely the same thing will happen if the campaign to extend coverage of the minimum wage law to groups of workers who always have been exempt—such as those in retailing—is successful. The employers affected will have no choice save to pare marginal employment to the limit. All the laws on earth can't change a worker's value to an enterprise. They can simply make it more difficult for him to find a job.

**FACTS AND OPINIONS**

Soviet spokesmen have pooh-poohed an American home which is part of our Moscow exhibition, saying it could be possessed only by the well-to-do. The fact is that the home, with land, is for sale in a Long Island community for \$14,490. This means that more than half the families in America can afford to purchase it—for government figures show that the average American workman today purchases a \$14,207 home and pays for it at the rate of \$96 a month.

National expenditure for research and development has reached \$10 billion a year. Two-thirds of it is spent by private industry.

Ralph T. Moore writes in the Oregon Voter: "This writer has difficulty in trying to understand why the Germans instead of the Americans are now the leading exponents of the American way of life. Perhaps it is because the Germans are intensely practical while the Americans continue to be patsies for every socialistic nostrum that the fevered brain of the neurotic bigot can contrive. The German rejects something for nothing philosophy as a complete phony while we continue to play with it, hoping to somehow make it work." Then, speaking of the success of the Volkswagen, he observes: "The end of American competition for the popular car market will approach at racehorse speed unless American workmen change their attitudes, an unlikely prospect."

We often hear about a car going out of control. A traffic safety authority says that this is a misstatement—a car doesn't and can't go out of control unless its driver allows it to do so.

**GRASS ROOTS OPINIONS**

**COVINGTON, TENN., THE LEADER:** "Let's not fool ourselves. We, the people, are going to pay for our schools. We can pay to a city or special school district, a county school organization, a state department of education or a federal education bureau. Whichever one raises

taxes and meets the needs will handle the funds and set up the standards by which the schools should be run.

"If the financing is federal, sooner or later the federal bureaucrats will be calling the tune. We believe we would rather pay a piper who is a little closer to home..."

**CHEWELAH, WASH., THE INDEPENDENT:** "It's an I for I when two egotists get together."

**FREDONIA, NEW YORK, THE CENSOR:** "It is difficult to see how an artist's political coloration could sensibly be used as a basis for deciding whether his work was good enough to represent the United States in an art exhibit..."

"The judgment of art and literature by political standards—by the criterion of how well they conform to government views—is a Soviet trick, one we would do well not to emulate. Anyone who doubts that the Kremlin goes in for this sort of judgment need only view the art displayed at the Soviet exhibit in New York..."

**ELKTON, MD., CECIL WHIG:** "President Eisenhower has campaigned for economy in Government in spite of almost overwhelming pressure from Capital Hill..."

"Many thinking citizens across the nation have seen the wisdom in the President's program. Despite political attachments, they have rallied to the cause of Government economy."

**WINNEMUCCA, NEVADA, THE HUMBOLDT STAR:** "Recent months have brought measurable improvements in the unemployment picture. And the signs suggest will further betterment as business continues to climb.

"But some political figures—and organizations—are still talking as if we were in the depths of the recession. They want to beat the drum until the skin wears through."

**TEMPE, ARIZ. DAILY NEWS:** "Today's most discussed problem is Inflation. All kinds of answers are uncovered, but what interests most of us is how it affects us personally. This Question-and-Answer gimmick supplies the answers:

"QUESTION: If a man with a family of four earned \$57 a week 20 years ago, how much would he have to get today to have the same buying power?"

"ANSWER: \$135 a week... \$62 for inflation and \$15.40 more in taxes!"

**CHERRYVALE, KAN. THE REPUBLICAN:** "After seven years of opposition to laws for protection of union members' rights within their unions, the American Civil Liberties Union has reversed its stand.

"The ACLU had contended that 'self-policing' of the unions was the answer. It took a lot of evidence to change the ACLU's mind, but that evidence has been piling up..."

"When a man's right to hold a job is dependent upon his membership in a union as the result of Federal policy, the government owes it to him to see that he's not forced to serve union dictators."

**LEBANON, KENTUCKY, MARION FALCON:** "Sometimes an editorial writer believes all his efforts are in vain, that nobody reads these lines, and much worse, nobody cares. We were going through our letter file this week, and we were amazed at the number of letters of appreciation we had received in our ten years here..."

**KNOXVILLE, GA., THE POST:** "Things can always be worse. Thirty years from now speeders will crash in the sky and fall on pedestrians."

**FRANKLIN, IND., REPUBLICAN:** "...the federal government's massive 12.5 billion dollar deficit for the fiscal year just closed deals us all a stiff right cross.

"For one thing it's nearly three times the previous peacetime peak deficit of 4.4 billion dollars, recorded in the depression year 1936, when Franklin D. Roosevelt was laying out what was then considered vast sums to shore up the business structure and ease the burdens of distress.

"Whatever the future holds, we must all fervently wish that 12.5 billion dollar budget deficits never come to be regarded in this country as either commonplace or inevitable."

**HUMBOLDT, IOWA, INDEPENDENT:** "A man's right to work at his chosen occupation is one of the most fundamental American rights. That right is being violated constantly by compulsory union membership. Men are being forced, against their will, to become members of labor organizations and pay tribute for the right to earn a living. Many union members are against this but are powerless to stop the big labor bosses."

**NORWALK, CONN., HOUR:** "There is inherent in a \$70 to \$80 billion annual spending program much duplication, waste, inefficiency and irresponsible fiscal overseeing..."

"Domestic tax consumers are far more ravenous than those in distant lands, and until Congress again assumes the responsibility to oversee the spending of every dollar flowing from Washington, there can not be an honest approach to fiscal sanity in the nation's capital."

**EL DORADO, KAN., TIMES:** "American aid saved 11 million Russian

lives—and this is a conservative estimate—during the famine of 1921-22. Most of the \$62 million cost was covered by the U. S. Government or private American donations.

"It must therefore have come as an outrageous shock to Secretary of State Herter to be told recently by Soviet Deputy Premier Koslov that the American Relief administration under Herbert Hoover had made Russia pay in gold for this humanitarian help. This was a lie, but it seems to have been what the ignorant Koslov had been told."

**CANTON, N. C., ENTERPRISE:** "Now, women are found in every responsible financial position of trust. From the pennypinching housewife to the woman president of a bank, they are recognized for their good business sense. And the men don't seem to mind anymore that members of the fair sex have taken over these positions of trust.

"It is all part of the struggle of woman to gain an equal place with her counter-part in society."

**OMAHA, NEB., PUBLIC LEDGER:** "Federal aid to education is on the prowl again—bigger and bolder than ever.

"H.R. 22...reported out by the House Education and Labor Committee calls for \$4.5 billion of tax money in Federal grants over the next four years. These funds would be used for school construction and for teachers' salaries. But after four years, what? 'Human Events', in reporting on the measure, notes that 'The bill fails to include, however, any provisions for ending the program—so, like price supports, the grants would probably continue on and on'."

**BOONTON, N.J., TIMES-BULLETIN:** "Unfortunately, we still have too many youngsters who are not protected... It seems incredible to me that a parent would not take that interest in a child," asserted United States Surgeon General Leroy Burney in urging parents to have their children inoculated with the Salk vaccine.

"He added that results of the Salk polio vaccine have been both 'dramatic and miraculous'—protecting about 85 percent of those vaccinated against paralytic poliomyelitis."

**FALLON, NEV., EAGLE-STANDARD:** "Although jokes are being poked at it, it appears that the custom of the American coffee break has become a time-honored habit, as much a part of modern fringe benefits as hospitalization and vacations."

SAFETY INSTRUCTION IN OUR SCHOOLS

Schools will open in Taneytown on Tuesday, Sept. 8, 1959. Together with thousands of other communities across the nation, Taneytown will observe National Child Safety Week, September 8-15, inaugurating an educational campaign for both school children and the general public aimed at making Taneytown a no-accident community.

"Opening of the schools always poses new problems for parents, school authorities and teachers, public safety officials and the drivers of automobiles," Chief Emory Hahn commented in reporting the program being sponsored by the Department of Police.

"To kindergartners and to many first-graders it is their initial experience in going to the school and returning to their homes. They must be taught to stay on the sidewalks, to cross streets only at the proper crosswalks, to obey signals of officers or traffic lights and they must be especially warned of the dangers of careless disregard of such precautions," Chief Hahn continued.

Older children also must be reminded that they are back in school and that, with great numbers of pupils on the streets at certain times each day, careful observance of the good travel rules of the Junior Safety Patrol must replace the independence and freedom of the summer days.

"National Child Safety Week focuses the attention of parents, teachers, P.T.A. groups and all motorists on the need for cooperation in making our highways safe for young and old. "It is not enough to teach a child the proper way to use our streets, only to have the youngster mowed down by some impatient and careless motorist," Chief Hahn concluded. "We would have no problem if each and every driver of a car or truck would be courteous and considerate of pedestrians, especially at crosswalks, in school zones or where children are at play. I hope all our citizens will take this very seriously, not only through National Child Safety Week but throughout the entire year, and cooperate with our police department to make this a no-accident year in our community.

This program is under the direct sponsorship of the Taneytown Police Department with the cooperation of a group of public-spirited citizens.

### A VOICE FROM CARROLL COUNTY

Did you ever wonder why so many women's faces that pass you on the street are drawn with lines about their eyes and mouth and a pinched expression all over? Its not their troubles or their job that is giving them this haunted look but their feet. Its true! Nine women out of ten are bothered with foot trouble caused by ill-fitting shoes. Women spend hours on their face trying to make it look more beautiful while they ignore the most important members of their body... their feet. Any kind of shoe will do just so its stylish. Comfort doesn't matter. The bones of the feet are crushed together to fit a sharp pointed English shoe and the natural arch of the foot is given no support at all but left to flatten out in blue tennis shoes. Americans use to be horrified by the old Chinese custom of binding up the feet of their infant daughters. The Chinese have abandoned this custom but American women still walk around on three inch spike heels and then wonder why they have back trouble and can't walk more than half a block because of corns and bunions. At every opportunity women take off their shoes; not to save shoe leather but to save their feet from torture. More and more women are walking around the house in bare feet, and its a good thing, that is for the feet. Maybe women will learn that its no use to spend millions on cosmetics for their faces if their feet are going to undo all their magic of make up by making them look old and worried. Better give a little attention to the two powers of locomotion that must last at least 70 years.

Die when I may, I want it said of me by those who knew me best, that I always plucked a thistle and planted a flower where I thought a flower would grow. Abraham Lincoln

This week we are in quiet sympathy with all first grade teachers. For we have just finished a visit with three children who will be first graders this September and it is going to take us until Thanksgiving to get over the effects. Not that the children were bad; a better word would be inquisitive. They wanted to know the why and how of everything and weren't content to take your word for it, but insisted on finding out for themselves. For instance, a boy of six wanted to know why the clock on the library table made that funny noise. We explained that because it was a very old clock it had developed a strange sound. We left it at that but not Don. When we were busy else where he found a hammer and screw-driver out of the kitchen drawer and operated on the clock. Now the odd sound is gone and so is my antique clock. Beverly another six year old wanted to know what the thermometer was doing on the wall. We explained that it controlled the heating system. Unknown to us she set the thermostat up to 90 degrees and almost suffocated us. For a long time we thought the weather was making the house so hot. So, now we are thinking of the teachers who will have 40 or 50 of these kind of children to handle, and we are quite willing to see that their salary is doubled. They will certainly earn it if they do no more than to keep the children out of mischief.

Its no use in trying to figure people out. We thought that more than anything in the world Americans wanted a thaw in the cold war between our nation and Russia. Now that the hopes for this is running high we find that many Americans are worrying about what the easing of tensions will do to our economy. Before, no one wanted to admit that our prosperity was geared to government spending for defense. Now American business men admit that if the defense spending is cut, our economy will suffer. One thing is certain, the government cannot keep on spending billions for armaments and not wreck the average American's budget. The tax burden is getting out of hand and there is no relief in sight. One answer is to sell for less profit and to cut the interest rate on borrowed money. No one is going to do either one until they have to. Maybe a shift in world tension will be the incentive to do both.

In spite of the warning with conclusive evidence that smoking increases the chance of developing lung cancer, Americans are smoking more cigarettes than ever before. A word to the wise is sufficient but to the foolish its a waste of time.

In a message to Congress, President Grover Cleveland said he had vetoed a bill appropriating \$25,000 for farm relief because "such misuse of government funds would be unconstitutional." More-over, he continued it is the province of the people to support the Government, but not the province of the Government to support the people. We wonder what Mr. Cleveland would say now if he were alive when the reverse is true. "I'm afraid I can't help you" the man said to a woman who had been injured in an auto accident, "you see I'm a veterinarian, not a medical doctor." You're just the man, "moaned the victim. "I was a jackass to think I could pass that car on a curve."

Today marks the end of August. It has been a hot, uncomfortable month but it brought us much needed rain. Due to this the fields and lawns are as green as they were in the spring. But even so, there are signs that fall is not far away. The goldenrod is in its yellow glory, the walnut

trees are losing their foliage and the crab grass has gone to seed. It won't be too long before the air will have some crispness in it and the birds will be off to the southlands. How soon the seasons change and how quickly we adjust to them.

Americans may not walk as much as they use to but believe me they mow more lawns than they ever did before the day of the power mower. In fact playing nurse-maid to a lawn with shrubbery seems to be Americas chief form of recreation during the summer months. Mowing doesn't hurt anyone and it keeps a lot of boys out of mischief.

Next Sunday's Games Hanover at Fairfield Taneytown at Blue Ridge Summit

Another pair of games will be played next Sunday in the Pen-Mar League to decide positions for the post-season Shaghneshy play-offs. Fairfield moved into a tie for second place with Hanover by taking a 3-2 victory in 11 innings at Hanover, while Taneytown pulled into a tie with Blue Ridge Summit for fourth place via a 15-10 triumph at Taneytown on Sunday. Fairfield took advantage of eight errors on the part of Hanover to gain its triumph. In the 11th inning Wortz was safe on an error, advanced to third base on two more miscues and raced home with the winning run on a double by G. Weikert.

Score by innings: Fairfield 200 000 001—3-9-2 Hanover 110 000 000—2-9-3 Batteries: Fairfield, Orner, G. Weikert (10) and Kuhn; Hanover, Bierly and R. Lehig. Winning pitcher, Weikert. Taneytown blasted out 19 hits in routing Blue Ridge Summit 15-10 in a free-scoring and wildly played game. Blue Ridge Summit managed but six safeties.

Score by innings: Blue Ridge Summit 322 030 000—10 Taneytown 813 403 40x—15 Batteries: Blue Ridge Summit, Biser, L. Calmer and Pilbrick; Taneytown, Crouse, Eckard and Singel.

The absent minded professor walked into a barber shop and sat in a chair next to a woman who was having her hair bobbed. "Haircut, please," ordered the professor. "Certainly, sir," said the barber, "but would you mind taking off your hat first, sir?" The customer hurriedly removed his hat. "I'm sorry," he murmured apologetically as he looked around. "I didn't know there was a lady present."

There's a big gap between advice and help.

Bible Material: Obadiah; Jonah 1 and 2. Devotional Reading: Psalm 37:1-9.

Going Against God

Lesson for September 6, 1959

YOU WOULD never think that such a fool lived on earth as to try to go against God. But there not only have been such fools, there are such nowadays, and you and I, dear Reader, may be two of them. Look at the testimony of the Bible; look around you in the church and in the world; look into your own heart; and you may be convinced.

Dr. Foreman

Yes, in the church and in the world; for even God's own people go against him, as fractious children kick and scream when their mother is trying to do them good. Consider the cases of Obadiah and Jonah. Obadiah is a little 2-page "book" mostly about the sins of Edomites, who were enemies of God's people to start with. Jonah is all about the sins of Jonah, one of God's prophets. The curious fact is that both the Edomites and Jonah were guilty of the same kind of sins. Both worked against God.

Pride

The Edomites as a nation, at the time of Obadiah, were a proud people. They had wealth, they had power, they occupied a territory where an invading army had scarcely a chance. Being proud, they could not believe that any evil would ever touch them. They were immune, serene, never to be conquered. They had defied men; they were prepared to defy God.

Jonah the prophet also was proud. He was so proud, so sure he knew what to do and when to do it, that when God told him to go preach to Nineveh, he not only did not go but he paid the fare for a long sea voyage in the exactly opposite direction, to Tarshish. The peak and center and symptom of the sin of pride is this conviction, "God doesn't know best; I do!"

Violence

The prophet Obadiah condemns Edom, in the name of God, for their violence in war against their "brother Jacob," meaning Israel. We all object loudly to violence in war when somebody else is doing it. From the days of Grant and Sherman, whose names are not yet revered in the land that sorely felt their violence, to these perilous times when we can't say enough against the Russian rocketeers, the victims of violence don't like it. The thing the Japanese did to us, at Pearl Harbor we did to them, only more so. We didn't like it when they did it; they didn't like it when we did it.

But it is not only "godless" nations that love violence. God-fearing individuals may be found shrieking "Kill him!" Jonah the prophet (to get into next week's story a little) was not content with preaching as the Lord commanded. He wanted to see Nineveh burn, and was bitterly disappointed when the fireworks did not go off.

"You Stood Aloof"

A careful study of Obadiah 11-14 shows that what Edom did to Israel was not so much actual attack, as it was just standing by and doing nothing, or cheering on the armies which did the fighting. The Edomites were the looters, the camp-followers of the main enemy. They did comparatively little actual damage themselves, but they were pleased to see it done.

Jonah likewise kept himself aloof from Nineveh and Ninevites. He did not encourage their repentance, he did not like it. He evidently thought the only good Ninevite was a dead one, not a repentant one. He could not put himself in their place. He could sympathize with God's anger, but not with his mercy. The 120,000 babies of Nineveh meant something to God; nothing to Jonah.

"As You Have Done"

God plays no favorites. Going against him is complete folly, it is absolute sin. If God had no use for violence, pride and selfish aloofness in the time of the prophets, has he changed today? Is America such a favorite nation with God that all our own pride and violence can go unnoticed by the Almighty? "As you have done, it shall be done to you!" echoes down the ages as a warning to all. Wind is the seed of whirlwind.

**Kiwanis News**

Wednesday evening August 26, the Taneytown Kiwanis Club, Inc. met at Taneytown Memorial Park for a picnic and outing. Thomas Albaugh was the caterer. Fried chicken was served. At 5 p.m. the boys of the Babe Ruth Baseball Team played a softball game for the benefit of the Kiwanians and their families. At 6:30 the teams were the guests of the club at a sumptuous meal prepared by Mr. Albaugh. President George Crouse presided at the meeting and had secured Coach Kibbler of Washington College Baseball Team and scout for the Philadelphia Phillies National League Team. Mr. Kibbler presented his remarks in a most interesting manner stating that there are three cardinal points in any boy's baseball career. First he must learn to throw straight. He said that his son when he first learned to throw a ball, would not throw straight but each time he missed the target, he made him retrieve the ball himself. This taught him to be so accurate that he could throw the buttons off a shirt. The second point is to hold on to the ball. He said there is absolutely no excuse for a ball player to drop a ball after once he lays a hand on it. The third and final cardinal point is to learn to run and touch each base. He told the story of how in a certain game they were playing in the big leagues, he was on second and the batter hit to the infield. He, thinking the batter would be easily thrown out at first, failed to touch third but on the play an error was made and the batter did reach first and the umpire whose attention was drawn to the play at first did not see him skip third and so his run counted. Mr. Kibbler said he felt like a heel because it was not gained honestly. The moral of this story is not to act smart but play the game as it should be played. Smokey Morelock had obtained two pictures of the Baltimore Orioles and an autographed baseball by most of the Oriole players. These were given to three of the boys.
