Assisted at the projector by Kerry Muse. Explorer and Senior Kerry Muse, Explorer and Senior patrol leader of the Westminster Methodist church troop 380, who also was a member of last summer's expedition of Philmont Scout ranch in New Mexico, he then showed the movie of the new Exploring program, which is finding great appeal throughout the nation for adolescents who desire to remain in appeal throughout the nation for adolescents who desire to specialize in more adult phases of an active program. The film depicted many possibilities being tried in many places: for example, skin diving and underwater photography on the Gulf, horseback riding in the Minnesota lake country, a glamour panel and TV lake country, a glamour panel and TV forum in Los Angeles, a father-son pheasant shoot in Virginia, witnesslong the Florida coast, a church maintenance service project in the middle west, an electronics course here, a college inspection there, a sailing project at a sea ide marina, canoeing trip down the Big Rapids, beach party, square dance, and so on and so on. As one Lion said to another, "I wish there had been such a program when I was 14". All these activities were carried out by the boys themselves, acting in committees, with but the counsel of an adult advisor. The reel was certainly an inviting one, and considarable appreciation was expressed to Mr. Taylor for showing it, and to Lion Frank O. Wargny also for his professional skill at helping in its

Plans are now afoot for a much longer trip, possibly one out of the U.S. Mrs. Chaplain stressed the importance of community backing in a project of this kind. She stated that a great many things must be considered, and that there must be very careful planning. Some trips may require 2 years working and plan-ning if they are to be successful. Finances, of course, must be worked out first. Then the length of the trip, means of travel, and accommodations must be considered. #### Weant Reports Senator Legislative Procedure

The General Assembly of Maryland went slowly into action the first week of the Short-Session which conof the Short-Session which convened at 12 o'clock noon on February 3, 1960, and at this writing is swiftly gaining momentum. While this is a so-called "Short-Session", the adjournment on Friday, February 5, saw some 49 Senate Bills already introduced and 61 House Bills. Many of these have already been schedof these have already been sched-uled for hearings.

By the time this appears in print, there will have been hearings on the controversial Teachers' Bills, the Court of Appeals Bill, some parts of the Budget, the Public Accountants Bill and the Workmen's Compensa-

There are several Bills pending affecting teachers' salaries, the more important of which is Senate more important of which is Senate Bill 26, introduced at the request of the Legislative Council and sponsored by the Administration, and Senate Bill 49, introduced by several Senators and supported by the Maryland State Teachers Association and the Maryland Congress of Parents and Teachers. Whichever of these Bills is finally adopted by the Legislature, it is apparent that the Legislature, it is apparent that the rising cost of education must be born by taxation on something other than increased levies on real estate. Several of us in the Senate are giving this matter careful consideration in the hope that some solution can be found to the ever increasing burden of taxation carried by the land owners and which burden of course is in turn shored.

burden, of course, is in turn shared by those who rent. The Senate Bill No. 7, which is designed to change the organiza-tion of the Court of Appeals, ap-pears to be scheduled for fairly easy sledding with the exception of the fact that some of the counties wish to make some changes in the suggested Appellate Judicial Circuits. It seems that some of the bigger couties are demanding more representation on the Court of Ap-

Senate Bill No. 10, which deals with public accountants, materially revises and amends the present laws pertaining to the certification and registration of public accountants within the State; creates and enlarges the powers of a new Maryland State Board of Public Accountancy; and generally specifies the necessary qualifications for applicants to the position of C.P.A.

House Bills 19 through 26 deal with the Workmen's Compensation laws. The most of these are not too

controversial. However, House Bill 21 would remove the presently existing ceiling of \$20,000.00 on benefits that permanently totally disabled, thereby permitting employees so disabled to receive benefits for life if the permanent total disability continues that long. This Bill appears to be the only one that will run into any serious

opposition. Unfortunately, hearings on the various Bills have not been scheduled sufficiently in advance to permit notice to be given in these columns. However, if we receive the schedule of hearings in time, we will publish the dates and the nature of the Bills to be considered in order that those interested parties who so desire might attend the hearings of their

choice.

#### THAT JAM JAR

The President forcasts a \$4.44 billion budget surplus for the coming fiscal year, and urges that it be used to reduce the national debt.

This, if it happens, will be good news indeed after so many years when big deficits were the rule. But it is not going to happen automatically. Indeed, going by the views and statements of some members of Congress, there is grave doubt if it will happen at all.

As one observer put it, the bigspenders in Congress, "eye a \$4.4 billion surplus the way a small boy eyes a jam jar in the pantry". They want to spend it on more "do good" and welfare state programs, including programs which socialize taxpaying inflationary pressure. business and make swollen budgets inevitable.

The President can propose a budget, but only Congress can make it \$1 Billion. into law. If the big spenders have their way, the expected surplus will disappear, there may very well be another deficit, and hope for either debt or tax reduction will go glimmering.-Industrial News Review.

#### SPEND, SPEND, SPEND! PAY, PAY, PAY!

I am constantly getting letters askeral funds for a particular service or project. Many good people push their pet projects, some worthy, some unworthy, while often insisting that Congress stop spending money. I don't like figures any more than

you do, but let's face a few. The 290 billion dollars of current public debt, plus 350 billion dollars of future obligations for past services, plus 98 billion of C. O. D.'s, adds to the incredible total of 738 billion dollars. That, my friends, is the Federal government's mortgage on America's future, beyond the regular annual costs of defense, welfare, and so on. Even without the addition of new programs, the level of Federal spending SATURDAY, FEB. 20, 1960 will climb higher because of built-in increases in existing programs. These amount to nearly 2 billion, 500 million for 1961 alone.

It is all too easy for citizens to attempt to shift personal, local, and State responsibilities to the Federal government-and then turn around and complain about the Federal taxes they have to pay. We must pay for what we spend.-U. S. Senator Glenn

#### GRASS ROOTS OPINIONS

DOVER, DEL., STATE NEWS: "One of the greatest methods of obtaining information is by reading a good newspaper. And the place to learn how to do this is in school. So I read with much interest of the following experiment.

"After using newspapers for two years as a classroom textbook in contemporary living and as a supplement to books, junior high school teachers in Austin, Texas, find them invaluable in making subject matter more meaningful and in stimulating interest in reading."

REEDLEY, CALIF., EXPONENT: "It could be that in years to come we'll all be working for the Government. In California there are no less than 362,000 people on the public payrolls. The Federal Government has a quarter of a million and the State of California 112,000. Even though the State is playing second

fiddle in numbers it's catching up. DULUTH, MINN., PUBLICITY: "Big budgets mean big tax demands, and yet, everyone knows that taxes already are too high. So, in Washington, they're talking about closing the

'loopholes'. But, it turns out that the Be Sure you are Registered biggest beneficiaries of the loopholes are the small taxpayers and that the middle bracket folks have fewest loopholes. There aren't enough big taxpayers around to matter much. So it looks like the only hope the citizens have is to tell their Congressmen that they want cheaper government."

WASHINGTON, IOWA, JOURN-AL: "Gradually the Federal Government seems to be moving into the field of business, in direct competition with private enterprise.

"It is a trend that should be strenuously opposed. The name of government ownership and management is Socialism. At its worst it becomes Communism. The perspiring candidate who says he favors government ownership only in cases where private ownership can't do the job, is seldom willing to give private enterprise a hearing."

MORAN, KANS., SENTINEL: "John L.'s cheerful acceptance of automata was the thing that distinguished him the most as a union leader and it was mainly responsible for the present amitable relations that exist today between the mine workers and the owners.

"Curiously, even in his most turbulent days, John L. Lewis was never accused of dishonesty. Not one cent of shabby money ever touched his fingers. While other union treasuries were being looted by the bosses, The United Mine Workers remained notably free of corruption".

NEWBERRY, S. C., OBSERVER: 'All this time we'were under the impression that the American institution known as the coffee break was merely an excuse to slip away from the office. Dr. Jean Spencer Felton of the schools of medicine and public health, University of California at Los Angeles, says, 'The results of coffee consumption are seen in clearer and more rapid thinking, forestalling of sleep and fatigue, a prolonged intellectual effort, better association of ideas.""

ASHLAND CITY, TENN., TIMES: 'While everybody is relieved that the steel dispute has been settled for at least 30 months, it remains to be seen whether the settlement was made without price increases and without

"Roger M. Blough, U. S. Steel Corporation Chairman, says the settlement will cost the industry more than

"Undoubtedly the steelworkers won a complete victory, but their victory should be tempered with knowledge that production must be even more efficient, else American-made steel will be priced out of the market. A headless goose cannot lay golden eggs.

BEEVILLE, TEX., BEE-PICA-YUNE: "The fate of our nation rests ing me to support some certain bill upon you and the people you influauthorizing the expenditure of Fed-ence. If you want to make a quick buck above all else, if you would trade security for freedom, if you have lost the moral fibre of your ancestors, our nation is in grave danger. For in a free world you do your choosing as to leaders, but they cannot put meaning or purpose or moral standards into your lives. That is up to you. The fate of the world is within each of us."

## to Vote!

Not only is 1960 the beginning of another decade, but it brings to the minds of many American citizens the beginning of another election year—a Presidential Election year.

Since the people of this country are so aware of the nuclear, electronic and other space era in which they

c, and other space era in which they are now living, it would seem logical that some of these same people would be aware of their free right to register and vote under the laws of this Nation — a free privilege granted to anyone born in this country.

From a recent survey in the State

of Maryland, statistics show that out of approximately 3,000,000 persons now residing in the State, there are at least 800,000 unregistered eligible Maryland voters — Baltimore City's total reached 285,000, with Prince George's County numbering nearly 130,000. Baltimore County ranked third with nearly 74,000 unregistered potential voters. An estimated 15,000 persons in Carroll County are eligible voters but have not yet registered to vote.

Transferring your registration from one County to another, is quite a simple matter now. In previous years, a person transferring their registration would have to return to the Election Board Office or place of registry throughout the Districts on certain registration days to obtain a removal or transfer slip. This method has been disbanded. The necessary step for a person moving into Carroll County, is to come to the Election Board Office in the County Office Building, Westminster, Md., re-reg-ister, and the Board Office, in turn, a cancellation authorization back to the County in which that person previously resided. That person may also wait and re-register when registrate days are held within their election districts in the spring and early fall, whichever is most con-

Young men and women entering the Armed Services, and those already in, and who will be 21 years of age on or before Election Day in November, may make application to register and vote through their Commanding officer or by writing their Secretary of State.

With Alaska and Hawaii having been granted their States Rights, it will be interesting to see what per-

ually registered to vote this year.

Be a good citizen! Be sure you are registered to vote! Be a better citizen by making sure your friends, neighbors, and relatives are registered to vote. Remember, you must be registered before you can exercise your right to vote. Do it now. Make sure you are in that line of voters on

Election Day.

Registration Day, Tuesday April 12, 1960, will be held at all Polling Places in each District within Car-roll County - time, 9 a. m. to 9 p. m. The Election Board is open for registration every Saturday morning from 9 a. m. to 12 Noon. The last day of registration before the Primary Election will be Saturday, April 16, 1960 at the Election Supervisor's Office.

In Loving Memory of our dear wife and mother. MRS. DAVID H. HAHN. who passed away Feb. 7, 1946

The world may change from year to

year And friends from day to day, But never will the one we loved From memory pass away.

The depth of sorrow we cannot tell Of the loss of one we loved so well, And while she sleeps a peaceful sleep Her memory we shall always keep By her HUSBAND & CHILDREN

In memory of my wife, RHODA, vho passed away February 14, 1952

The stars are brightly shining Upon a silent grave, In it lies a loved one I loved but could not save.

In my heart your memory lingers Sweetly, tenderly, fond and true;—
There is not a day, dear wife,
That I do not think of you. Her loving husband,

JEREMIAH B. CLINGAN

The appointments were announced today by C. D. Lyon, PE's vice President, Marketing and Public Relations. In his new capacity, Sanders will continue to supervise the Company's over-all merchandising activities, and residential and farm promotional pro-

A veteran of over 25 years of service with PE, Sanders has spent the last eight years as Manager of the Company's Merchandise Department. His entire working career with PE has been spent in sales activities.

As the Manager of the Merchandise Sales Repartment, Geoghegan will be responsible for all merchandise sales activities throughout the PE System, reporting to Mr. Sanders.

Geoghegan has had 14 years ex-

perience with PE, all in the Merchan-dise Department. Until January 1, 1958 he was the Keyser (West, Va.) district sales department. On that date he was promoted to the post of Sales Training and Sales Promotion Supervisor, in which capacity he served until his new assignment.

#### Keysville ULCW Meeting

The ULCW of Keysville began their meeting, Monday evening, Feb. 1, by singing, "Spirit of God Descend Upon My Heart". The leaders were Mrs. Clara Clabaugh and Mrs. Anna Clabaugh and the topic for discussion was "Who Is My Neighbor?"

The scripture lessons taken from Luke 10:25-27 and Luke 21:144 ware

Luke 10:25-27 and Luke 21:1-4 were read by Mrs. Anna Clabaugh. The group prayed in unison the Prayer for Brotherhood. Mrs. Clara Clabaugh introduced the topic stating the chief aims were personal—dealing with the attitudes of each other toward racial, economic, social and intellectual prejudices and how we as Christians can overcome these

preiudices.

The offering was received and consecrated by Mrs. Clara Clabaugh.

A special number "Trees and the Master" was played by Mrs. Anna Clabaugh at the organ and Miss Vallie Shorb at the piano. It was written in minor. The rendition was different but well received.

To illustrate the topic more thoroughly a picture, "It Happens Every Day" was shown with Mrs. Anna Clabaugh as narrator. It was shown on the installment plan. A certain

mative and every one responded.

The Life Membership chairman,
Mrs. Ellen Kiser, presented two life
membersrip to Mrs. Elizabeth Shoemaker and to Mrs. Marion Cushon for her grandson, Kevin Robert Unglesbee. Due to illness in the family, Mrs. Unglesbee could not be present. Mrs. Kiser also received the quarterly

Thank-offering.

The regular business meeting was conducted by the president, Mrs. Robert Stine. The minutes were read by Mrs. Doris Harner and Treasurer report given by Mrs. Clara Clabaugh.

"Push-button Chores" Southern States **Materials Handling Program** 

> . Saves time, labor . Cuts production costs

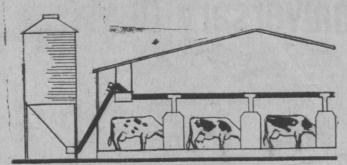

#### Feed home-grown grains?

Thru Southern States Augers your grain goes from wagon to Unico Grain Bin where it's dried automatically in storage. Augers take grains and supplement to Mix-Mill, which measures, grinds and mixes any feed formula from 4 ingredients-3 grains and supplement. (Mix-Mill is automatic-just dial the ration you want and walk away!) Finished feed, traveling by Auger, automatically fills livestock or poultry feeders.

#### Grow cash grains?

Southern States Augers take grain from wagon to Unico Grain Bin, where it's dried in storage by fan and supplemental heaters. Augers also automatically unload bin into truck or bag.

#### Feed in bulk?

Angers your feed from Bulk Feed Bin to livestock or poultry feeders-automatically.

Come in now and find out how Southern States Materials Handling Program can modernize your chore procedure.

Get the quiet proof of Chevrolet's superior performance on the road-No other car in the low-priced three can match the borne-on-the-wind sensation you get from a ride in the 1960 Chevrolet. But that's not surprising when you consider to what lengths Chevy has gone to provide for your comfort at no extra cost to you. As you drive, count the ways Chavrolet has been thoughtful:

Supple Full Coil suspension-Coil springs at all four wheels melt bumps as no other suspension can. Taking the punch out of rough roads is their only function-they don't have to anchor the rear axle.

Butyl rubber body mounts-Thicker, newly designed body mounts Body by Fisher-Only Chevy in its field offers the polish and craftsmanship of Body by Fisher.

Foam cushioned seats-Chevy offers foam cushioned seats in both front and rear in all series but one. Safety-Girder frame-X-built and not merely X-braced, the Safety-Girder frame affords greater rigidity to minimize twisting and squeaks.

Hydraulic valve lifters-Oil hushed hydraulic valve lifters reduce engine noise to a whisper.

Cushioned steering shaft-A universal joint and cushioned coupling keep those annoying road tremors from the steering wheel.

Precision balanced wheels and tires-Here again Chevy has shown concern for your comfort by eliminating vibration in this vital areatire life is longer, too.

Easy steering ratio-Chevy's high ratio Ball Race steering takes the work out of steering for you.

Superior weight distribution-Chevy rides better, handles better and stops better because the car's weight is more equally divided between the front and rear wheels.

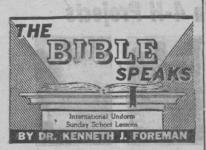

Wide choice of power teams-Choose from 24 different power combinations to satisfy the itchiest driving foot-more than any

#### Our Fight

Lesson for February 14, 1960

THE CHRISTIAN church is a fighting church. Long, long ago, when everybody spoke Latin, somebody nicknamed the church on earth "Ecclesia Militans," the church at War. Only the church in heaven is called the Church Triumphant. If the church wins vic-

tories on earth, it cannot suppose the war is over. It only breaks out in a new place.

What does the church fight? Sin, of course, for one thing. But sin is not the only form

of evil. There is Dr. Foreman also suffering, and the church wages war against that, as every church hospital testifies. There is ignorance too, and so the number of church schools and colleges grows year by year. (Ugliness is another form of evil, but the church has been very slow to recognize this, and indeed many churches have actually added to the sum of ugliness in the world. But that another story.)

#### When Evil is Organized

A great part of the evil in th world is spontaneous. Nobody seems to push it, it just starts by itself. It is occasional not regular unpredictable not certain, individual not organized.

But another great part of the world's evil is regular, certain and far from spontaneous. It is organized. It knows the church is its enemy and it takes steps, often all too effective, to muzzle the church or by any means to beat down its opposition.

In the story of Saint Paul at Ephesus, there is a typical case of organized evil. The silversmiths there did a big business making little shrines of the local goddess and selling these. When Christianity came to Ephesus in the persons

of Paul and others, these silver-smiths were not heard from, for some time , nt as mere and more persons we converted, fewer and fewer believed in the total goddess or bought her little shrines any more. So then the silversmiths got together, worked up a mass meeting, raised so much trouble in fact that for a bad few minutes it looked as if Paul might not get out of the mob's clutches alive.

As with that incident, so it is always: The motive for organized evil, determined, planned opposition to the church and what it is doing-the motive is nearly always money. Whenever it becomes clear that if the church's convictions about a better world actually come true, the income of a large number of people will be cut down or cut off, then you see evil getting organized fast.

#### Big Business

In a commercial civilization like ours, when evils of any sort are organized-that is, when they repont investments of money on a wile scale, when their stocks are sold in the market like other stocks, such evils become more deadly than even for then otherwise good and intelligent people will support such evils on the ground that to interfere with them interferes with the right of private property, the right of investors, the profit motive. Take the liquor business as an outstanding example. It is enormously profitable to its operators. Liquor is made available to American troops abroad, in some areas, at cost; this reduces the "stateside" price by as much as three-fourths. In other words, % of what a man pays at a local store for a "fifth" of whiskey is somebody's profit—a good many somebodies.

#### Human Values or Property Values?

When efforts have been made in Congress for example, to forbid liquor advertising in magazines or otherwise, these attempts have generally failed. The "lobby" never fails to point out that to curtail the right of any business to advertise is to interfere with the system of free enterprise, and to attack the profit motive. It never occurs to them that the very same argument would permit the advertising of drugs like heroin and cocaine. People make money from the sale of such things, why not encourage them? The Christian question ought to be, not "Does this make money?" but "What does this thing do to the people's lives and the happiness of the mmunity?"

#### State Winners in 4-H Projects

Miss Zeiler Among the 1959 crop of Maryland winners who attended the 38th National 4-H Club Congress in Chicago are the four pictured above. They were selected

by the Cooperative Extension Service.

The new beef project champion is a Lutherville girl, Ann Gover, 21. Since 1951 she has raised and shown 15 head, mostly Herefords. In 1958 she had entries in the International Live Stock Exposition,

Miss Gover is assistant leader of the Chestnut Ridge Boys 4-H Club and secretary of the county local leaders' association. A graduate of Franklin High school, she works as a flow designer. Donor of her trip was E. I. du

Pont de Nemours.
Gabriel Middleton of Waldorf was a winner with his field crops project. For five years he has concentrated on tobacco as a major yield. He intends to use

his tobacco profits for further education after finishing at Notre Dame High school.
Young Middleton has been three-term president of the Sen-ior Pioneer 4-H Club, is a junior leader and was elected to the 4-H

All-Stars.
Allied Chemical Corp. donated his state award.

Iva Zeiler, 19, of Frederick, took state home improvement

project honors. Her award was donated by the Sears-Roebuck Foundation

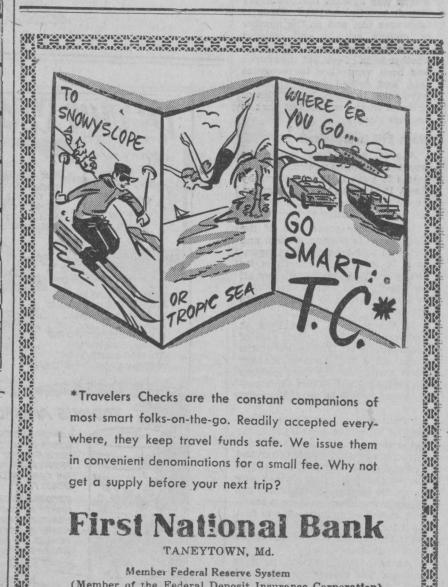

Since 1951, when she joined 4-H, her energy and skills have been helpful to friends and relatives in renovation of homes, cottages, rooms and furniture.

Her prize-winning demonstration was "the latest in interior decoration," an appropriate title for this Mary Baldwin College sophomore.

Ralph Buckel Jr., 17, of Bittinger, has been in 4-H work seven years, but did not take up entomology until 1957. He now has 142 insect specimens.

This high school senior is junior leader of the Bittinger Boys 4-H Club and vice president of the county council.

His Chicago trip was provided by the Hercules Powder Co.
