Happy Thanksgiving across the miles! Somehow, I always connect the country with Thanksgiving. Hope you and you did not fail to place out our Flag Nov. 11? The stores in Baltimore had many sales with signs on every window which with signs on every window which read, "Veterans Day Sales". Right now all the stores are chucked full of Christmas gifts but more pronounced than ever there appears to be so many more toys. Can you imagine, Folks many of the "Farmer's Al-manacs" are sold out but the stores are expecting another shipload.

Well, Ladies, Black is Back and White is Right again for the winter months and that goes for hats, too. The dresses are still short and as to the width—there are as many slim styles as well as full skirts. And don't forget to get those "SNUGGIES" for which you will be glad this winter! When you drive to town, the best parking place is "The Lexington Mar-ket Garage" on Paca street where you truly are given the "Red Carpet"! Never have I met so many employees who treat the customers with such consideration and kindness! So you see what I mean as to any business-regardless? Mr. Baracco, the Manager is surely on his toes observing the slightest detail.

And here is a new one of which I did not know. As I went in Brager-Gutman's store I noticed the crowds heading for the basement so I went along, too. There it was the dining room down there filled as to tables and many had to wait in line to be seated! I met a close friend whom I had not seen for about six months and we awaited our turn as she said to we awaited our turn as she she and to me, "The meals here are just out of this world. I always eat here!" Well, it was truly just that, Folks and all so reasonably priced. You can order delicious Sea-Food, too Ummm good! I thought that I was being dined at "Miller's"! There is a Host instead of a Hostars and he tries to make you a Hostess and he tries to make you feel very much at home. In the next Maryland Hobby Show,

I will have or exhibit a new Hobby which I have named, "MEMORIES". (Of course along with the hand made

Pennsylvania Dutch furniture). Now, Folks this I do want to relate to you. As to those Chiropractic treatments. Suddenly there was a big lump on the back of my neck as large as a half dollar. The pain was terri-fic beyond describing! I went immedific beyond describing! I went immedi-ately to that Chiropractor of whom I have written so much, Dr. Calvin Hornstein at 6 W. Madison Street— Corner of Charles near the Washing-ton Monument. I really winced with pain as he touched the place and then the adjustment started. In a flash, the pain was gone and the lump. tool I pain was gone and the lump, too! and also state vice president, led in asked the Dr. what it really was and

#### VICTORY FOR FREEDOM

Early in October the Supreme Court of the United States handed down a decision of far-reaching significance.

Kansas is one of the 19 states with right-to-work laws-laws which say, in effect, that a man may join or not join a union, as he voluntary chooses, and have the right to pursue his trade in either case. A big union attempted to get around the Kansas law through a gimmick known as the agency shop. Under the agency shop, non-union workers would have to pay fees to the union in order to hold their jobs. In a court test, the Kansas Supreme Court outlawed the agency shop. The decision was appealed to the highest court in the land, which refused a hearing, and thus upheld the Kansas Court.

This marks a decisive victory for the freedom of a man to make up his own mind, without coercion from either side, as to whether he wants or does not want to join a union and pay its dues. There can be no doubt that the court decisions accurately reflect the will of Congress, which flect the will of Congress, which authorized state right-to-work legislation in the Taft-Hartley law - - and represent a long step forward in protecting and guaranteeing a fundamental right of the individual citizen. -Industrial News Review

WOMAN'S WORLD Graceful Hands,

# Trained in Grace **Reflect Your Poise**

N ERVOUS tension, stiff wrists and fingers make hands look ungraceful when they go through the simplest movements or even when they're supposedly at ease. Graceful hands are rarely just come by naturally, as far as adults are concerned. They're the product of training and poise.

There are exercises to make you overcome some of the tension in fingers and wrists, and there's also know-how in what to do with hands to make them look more graceful.

Neither of these are as time consuming as going to a hairdressers! They're easily achieved if you'll think about them and do the exercises a few times daily. Hand Exercise

Hand exercises are neither strenuous nor tiresome. They're pleasant and wonderfully relaxing. One of the best of them is to flap the hands back and forth from the wrist, just as though they were empty gloves. Do this one just after you've been sewing, mixing

movements if you would have graceful hands. One of the easiest is using the middle finger and thumb when you hold small objects. It does a great deal towards making hands graceful.

There are lots of situations when your hands can look more relaxed if you'll just remember to use hands properly. When you're seated at a table, playing bridge, perhaps, rest the hands in the lap, both palms up, having one hand lie across the other.

Add More Space To Small Bedrooms

You can't easily push out the walls of small bedrooms, but you can change the color scheme and furnishings to give you more space. Some of it may, of course, be an optical illusion. but properly chosen furniture can add more storage space.

First of all, you must simplify the color scheme. In any small room, bedroom or otherwise, you can achieve a feeling of spaciousness by using a single color in the walls, furniture and drapes. If possible, repeat it in the rug.

One color gives a singleness of effect and doesn't cut up the room. Even a small-patterned wallpaper will destroy the unity of effect you want to achieve when space is small. Solid Color

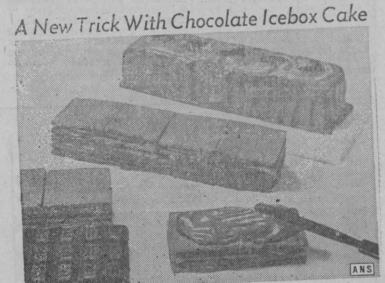

If your furniture is blonde it's easy to choose a single color as the walls can be a beige almost to match that of the furniture. The ceiling should be painted the same color. A related color might be used in the bedspread and rug which should be a wall-to-wall type or at least cover most of the

You don't have to do without a spark of color if you have chosen beige, for instance. A chair cover can be bright red, orange or green. These same colors might be repeated in small scatter pillows for the bed.

**Choosing Furniture** 

Simple lines on furniture do much to relieve the clutter in furniture. Decide what your storage needs are and select carefully chests that can be pushed together so two or three chests can be used as one to fit your space

Base-ball's Fritz Maisel and Buck Herzog, boxing champion Harry Jeffra, and Bill Evans, a three sport star will be the newcomers to the State Shrine. Maisel, who spent considerable time with the Orioles, was a utility man, distinguished by his outstanding base-running ability. Herzog, an aggressive shortstop and third baseman, played with the Giants, Braves, Reds, and Cubs from 1908 until 1920. Jeffra, winner of two world championships, quit fighting in 1950 with a record of 94 wins, 18 defeats and 7 draws. Evans was All-American in lacrosse in 1929 and 1930 and also starred in football and basketball at the Uni-versity of Maryland.

### Birds Acquire Temple

The Baltimore Orioles, critically hurt by an infield shortage, have obtained Johnny Temple from Cleve-land in an attempt to remedy the sit-uation. To land the 1961 American League All-Star second baseman, five-time participant in baseball's mid-season classic, the Orioles traded catcher Harry Chiti and two other unident field players.

### Colts Take Sunday's Game

Colts Take Sunday's Game 56,112 fans were on hand Sunday to watch a dull, lifeless Colt team win over the St. Louis Cardinals by a score of 16 - 0. The only bright spot in the game was the defensive play of Baltimore, allowing the Cards to invade their territory only twice. Those two times were on St. Louis' first and last series of the game. The initial drive died at the Colt 45 and the final drive ended at the Colt 42. On the other hand, the Cardinals de-fense allowed Baltimore 406 yards on the ground but limited them to 16 points. Anyone who knows anything about football can see that this was poor playing on the part of both teams. But the object of any sport is to win and the Colts did just that. Now with their season record stand-ing at 5 - 5, what can the Steeds ex-pect to come from behind the next wall? pect to come from behind the next

The combination of blackberries and apple slices baked to succulent goodness in a crisp pie shell is one of the joys of summer eating. The fruit mixture is thickened by quick-cooking tapioca which helps keep that wonderfully fresh flavor. The juice is spar-kling clear, running just a little onto the plate, while the berries and fruit stay within the wedge of crust . . . in other words, this is a pie filling that bakes to perfect consistency.

2 tablespoons Minute Tapioca 1 cup sugar 1/2 teaspoon salt 2 cups fresh blackberries 2 cups thinly sliced peeled	1 tablespoon lemon juice Pastry for two-crust 9-inch pie 2 tablespoons butter
fresh apples	

Combine tapioca, sugar, salt, fruits, and lemon juice. Let stand about 15 minutes. Roll half the pastry thin (less than 1/8 inch thick). Line a 9-inch pie pan and trim pastry at edge of rim. Roll remaining pastry thin (less than 1/8 inch thick) and cut several 2-inch slits or a fancy design near center. Fill pie shell with fruit mixture. Dot with butter. Moisten edge of bottom crust. To adjust top crust, fold pastry in half or roll loosely on rolling pin; center on filling. Open slits with a knife. (Well-opened slits are important to permit escape of steam during baking.) Trim top crust, allowing it to extend 1/2 inch over rim. To seal, press top and bottom crusts together on rim. Then fold edge of top, crust under bottom crust and flute. Bake in hot oven (425°F.) 55 minutes, or until syrup

THE word "grow" is used three times in the New Testament as a command. Each time it is so used, it is written to "grown" people. You do not grow taller and stronger all your life. You do not keep growing more intelligent with ad-

Dr. Foreman you, you will feel not only that you can, but that you ought to grow. If you are not growing you are neglecting something God wants you to do. "Stir to Flame the Gift . . ."

The word translated in the 1611 translation "Stir up" the gift, has nothing to do with anything stirred with a spoon. The Greek word means to stir to a flame, to re-kindle, as more recent translation correctly express it. The gift of God (Paul means in general the gift of being a Christian, and specially the gift of being a Christian minister) in Timothy is like a spark, glowing but without a flame. Paul wants to see that gift burning brightly, sending light farther than it was doing. The spirit God sends to those who ask Him is indeed a gift. It is nothing we can create or imitate. But the Christian is expected to do more than merely receive it. It is possible so to neglect the gift of God that in time we might almost as well never have had it: There is a kind of law of co-operation between men and God; we neglect it at our peril. God sends the spark, we have to stir it to a flame. No one else, not even God, will do that for us. There is nothing automatic, nothing instantaneous, about Christian

life and development. We have to stir the flame, to tend the fire. It takes more than wishing! But what is this fire, this spirit,

this gift of God? Some claim to have it who have never known it. Some pray for it, but would not recognize the aswer to their prayer. Let u. pass by an argument which commentators can always have over Paul's meaning here. When he speaks of the spirit God gave us, does he mean the Holy Spirit or does he mean the

Every parent wants his son to get honor marks in math, English, his-tory, psych, and shop. With little cramming, but plenty of advance preparation, you can get your son off on the right foot this year by taking 3 simple store. 3 simple steps:

Step #1—Inventory His Clothes

Un-mothball all of his fall and winter suits now, and see what suits need to be mended, altered or reshirt collars and cuffs need to be fixed.

Replenish or renovate his wardrobe now, and you won't be frantic halfway through the school year with in-adequate suits, shirts and sweaters. Step #2—Check Books and Supplies

Is your son as vague as most boys his age? If

ten all the teacher's instructions on text books, note books, lab needs, etc. Simply urge him to phone the #1 Boy in Class and have him get all the dope from him -he'll have it, complete and well-

Step #3—Roundup the Grooming Aids If you don't want him to look like a Greenwich Village beatnik, you'd better see to it that the shoeshine box is well-

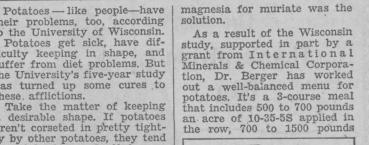

stocked with brown and black polish; nail scissors and nail file ready to keep nails clean and attractive; and by no means allow him to forget his hair. And that means frequent sham-pooing followed by 100% oil-based hair tonic such as Vaseline Hair Tonic that which replaces the grooming oil that water removes, and keeps hair and scalp healthy and well-groomed.

Man and his "Linen"

The modern man's attire, whether he's a clerk or a banker, is quite simple. We judge him by the *neatness*, not the *type* of his dress — especially his "linen" or white shirt white shirt.

Potatoes do best if they avoid plant foods containing chlorine, just as some people are healthier on a salt-free diet. With potatoes, it seems that excessive chlorine in muriate of potash fertilizer makes them soft and puffy. Potatoes firmed up when a diet of double sul-fate of potash-magnesia was substituted for the muriate of potash. of sulfate of potash-magnesia, and 50 to 150 pounds of nitrogen side-dressed or in irrigation water.

This diet raised yields from a little over 400 bushels an acre to 845 bushels an acre.

to 84b busnets an acre. Sickness is no respecter of potatoes. One ailment, which New York farmers simply called potato sickness, was characterized by a paleness of the young plants' leaves. A prescription of sulfate of potach mormacia curved the sile potash-magnesia cured the ailing spuds.

A psychiatrist has suggested that potatoes may have emo-tional problems, too. But agron-omists and farmers aren't getting very excited about this. They've adopted the attitude that a contented potato wouldn't taste any different than an unhappy one. 0 Besides, how do you keep 'em from rolling off the couch?

HIF Reports -2<sup>1</sup>/<sub>2</sub> Million Health Workers in U.S. Millions of persons 2.5 2.0 1.5 1.0 1960 (est.) 1950 1940 Source: Health Information Foundation

The number of health workers in this country is growing rapidly in terms of the nation's total manpower. According to Health Information Foundation, "the 1960 Census may very well show/

spirit as the Psalmist did who cried: Renew a right spirit within me? Is it, in short, the Spirit of God or the spirit of man which is on Paul's mind at this point? Either way, Paul may be speak-ing of the Holy Spirit or of the "new heart," but the first produces the second, you cannot have the second without the first.

The marks of the genuine Spirit which Paul gives at this point are three. We don't know why he said so strongly that this spirit is NOT one of fear; perhaps Timothy himself was still a timid man. At any rate, the Spirit-gift of God is one of power, and love, and self-control. Are any of these lacking? Then it is not God's spirit-gift. To be sure, all men know something of power, love and self-control; but at the divine level they go beyond anything human beings can do by their own strength.

#### Model to Grow By

There is another important fact about God's spirit-gift. It is this: It will not save us from the necessity of thinking and working. Again and again the New Testament makes it clear that what God intends for each of us is to grow into the likeness of the Master. But again, this is far from automatic. A Christian cannot relax and say to himself, "God will make me what He wants me to be. I will wait and see how I turn out, and then I'll know." By no means. Paul gives Timothy something to do. "Rekindle the gift . . . do not be ashamed of testifying to our Lord ... God has called us to a dedicated life ... take your share of suffering ... Follow the pattern ... Guard the truth."

The Christian life calls for study; this is a world filled with difficult problems, and we cannot solve them just by being sweet. The best of Christians need some pattern, some model, to go by, he needs a human teacher he can look up to and trust. The Christian life is not easy. Twice on the same page Paul has to tell Timothy to take his share of suffering. The way of life is sure, but it is steep and unpaved-and there are no detours! ...

The Foundation estimates that about 2.5 million people — one out of every 30 persons employed in this event the persons employed in this country — now work in "health service industries," as defined by the U.S. Bureau of the Census. As the chart indicates, this is an increase of about 150 per cent in the last two decades. • Currently about three-fifths of all persons who work in health service industries are connected with hospitals or related institutions, the Foundation reports. In recent years "there has been an increased diversification and specialization in health occupations, as well as growth in the number of persons college-educated or

professionally-trained." An example of this trend, the Foundation points out, is the fact that the medical profession has become much more specia"?" of the simpler duties ence per-formed by physicians are now handled by professional purses, technicians, and other members of the health team. However, comments Founda-tion President George Bugbee, new medical knowledge has also

placed new demands on the phy-sician. "If current physician-population ratios are to be maintained. he adds, "many more medical schools must be established, or physicians must turn over more duties to specially trained technical and professional workers."

### NEW WHOLE-WHEAT BREAD

Ranch Loaf has all the good, nutty flavor of whole-wheat bread-and the time for making it has been cut way down, thanks to the new for-mula developed by the experts in the Fleischmann's Yeast Kitchens. The recipe makes 2 loaves; double it and store the extra away in the freezer for later enjoyment.

A word or two about using whole-wheat flour: stir, don't sift it, be-fore measuring. The dough will be slightly more sticky at first than allwhite-flour dough, but the stickiness will work out during the kneading process.

#### RANCH LOAF 1/2 cup brown sugar 2 cups very warm water 2 packages or cakes Fleischmann's 1 tablespoon molasses 3 tablespoons Fleischmann's Yeast, active dry or compressed Margarine 2 tablespoons sugar <sup>1</sup>/<sub>2</sub> cup boling water 51/<sub>4</sub> cups whole-wheat flour (about) 2 teaspoons salt 3 cups sifted white flour 1/2 cup dry milk solids

<sup>1/2</sup> cup dry milk solids Measure very warm water into large mixer bowl. Sprinkle or crumble in Fleischmann's Yeast; stir until dissolved. Add sugar, salt and white flour. Beat 2 minutes at medium speed of electric mixer, or 300 vigorous strokes with spoon. Cover; let rise in warm place, free from draft, until voubled in bulk and bubbly, about <sup>1/2</sup> hour. Meanwhile, add brown sugar, molasses and margarine to boiling wa-ter; cool to lukewarm. Add to doubled flour mixture. Mix 1 cup of the whole-wheat flour with dry milk solids; add. Then continue adding whole-wheat flour to make fairly stiff dough. Turn out onto floured board. Knead until smooth and elastic, about 10 minutes. Place in greased bowl, turning to grease all sides. Cover; let rise in warm place, free from draft, until doubled in bulk, about 40 minutes. Punch down; divide in half. Turn out onto floured board. Cover and let rest 10 min-utes. Shape each half into loaf; place in greased 9 x 5 x 3-inch pans. Cover; let rise in warm place, free from draft, until doubled, about 40 minutes. Bake in moderate oven (350° F.) 50 minutes or until done. Remove from pans; cool on wire racks. Makes 2 loaves. Remove from pans; cool on wire racks. Makes 2 loaves.

M. Fishing the surf to its many adherents is a madness akin to no other. If you have ever spent a day on a sandy beach, no doubt you have seen that breed of angler who stands at the water's edge and with a great heave slings out over the white plumed waves some three ounces of lead. Occasionally, you might have even seen one eat a sandwich while his eyes scan the hori-zon for sight of a fin or splash in the surf. Discontinuing House Keeping will offer at Public Sale, located at 111 West Main Street, at the residence of Mrs. B. P. The skill and patience required to successfully fish the surf is one of the least appreciated of all of angling's many arts. Yet, despite its difficulties, millions of anglers live and breath surf fishing along the 11,500 mile U.S. coastline. Equipment is inexpensive and no boats or licenses are required. Rods suitable for casting from 100 to 300 feet into the surf usually run between seven and nine feet long, are made of light but durable hollow fiber glass, and feature agate guides and locking reel seats. My recommendation for a good com-bination rod and reel for surfing is the Mitchell 302 salt water reel with a line capacity of 250 yards of 20-pound test monofilament, and a Companion 9-foot surf spinning rod. The com-bination will handle the special lures ideal for surfing which run from two to five ounces.

As closely kept a secret as wax to the skier or herbs to the gourmet cook is the surfer's lures. Baits vary from metal squids to surface poppers. Old timers usually have a favorite "guaranteed to catch fish" and this is most often some combination of rigged eel. Underwater plugs, surface plugs, feathered jigs, and just plain pork rine are also widely used.

While the most unlikely time for humans to be up and about is usually when the surf catcher is doing his darnedest, fish can be, and have been, caught on sunny hot afternoons while the family enjoyed the beach. Hot or cold, stormy or balmy --surfing is a thoroughly enjoyable, relaxing, pre-occupation.

Flavorful Frozen Pea Polka Dot Sauce Accents Cauliflower

White as new-drifted snow is the beautiful cauliflower in market now. Dramatize its attractive appearance and enhance the delici-ous flavor by serving this popular vegetable under a filip of creamy sauce bright with the jade-green of garden fresh frozen peas.

Cauliflower with Polka Dot Saue Frozen Green Peas (5 to 6 servings) 1 head cauliflower 1-1/2 cups milk 1 10-ounce package frozen 1/2 cup cream green peas 4 tablespoons butter salt, pepper, paprika 2 tablespoons pimiento 4 tablespoons flour

4 tablespoons flour Select a beautiful head of cauliflower. Remove all leaves except the pretty small leaves next to the head. Wash and allow to stand, head down, in cold, salted water, (1 teaspoon salt per quart) for 15 minutes. Remove, rinse, and place, head down, in boiling salted water (same amounts) to cover, adding 1 tablespoon white vinegar or lemon juice. Boil, uncovered, until just tender, 15 to 20 minutes. (Do not overcook, or cauliflower will darken and develop a strong flavor.) Meanwhile, cook peas by flavor-saver method, and make sauce: Melt butter, blend in flour, and add milk gradually, stirring constantly until sauce is smooth and milk gradually, stirring constantly until sauce is smooth and thickened. Continue heating several minutes over low heat to thoroughly cook flour. Add cream, season to taste. Add peas and pimiento and mix carefully. Place cauliflower in serving dish and pour sauce over it. Serve at once.
