Mrs. J. Osborne Beall, Stevenson, Md., active in the Maryland State organization of Republican Women, introduced Mrs. Fife Symington, Lutherville, who asked support of her husband who has filed for U. S. The Republican Basket, which earned so much money so easily last year, will soon be making its rounds again. Mrs. Harry Mohney and Mrs. Charles Stonesifer were appointed as Social Committee. Plans were made for a concentrated effort to interest all Republican women voters in the community in active par-ticipation in the club. As a beginning, each member was urged to invite personally at least three non-members to the March 6th meeting, when Miss Pat Patterson of Westminster, a missionary teacher at the University of Tokyo, will show slides and talk on her experiences in Japan. This meeting will be open to all, and if you would like to attend, don't wait to be asked, but contact Mrs. Geo. Harmon. Since refreshments will be served, reservations are helpful. # A BOUQUET TO THE CARROLL RECORD

There are times in the lives of most folks when in contemplation one must realize that aside of any gains from his own efforts he owes much to others. Assuming that such a person in recognition of due gratitude, has given thanks to God, family, friends and society in general, there is sometimes yet a special praise of 'thank-you' due to someone or something more remote. At this point I would offer a small bouquet to the Carroll Record and its personnel.

"It pays to advertise", is a very old and true slogan. Big business would be short lived without adver-

would be short-lived without advertising. Likewise the small business-man who ignores this fact will invariably see the day when the business he once held has gone to his competitor that does advertise.

During thirty years of self-employment I have had good reason to accept the above personally, for in that time I have continually been very busy, thanks in part to the Carroll Record. For I am quite sure that without this medium of communication it am it is not accept that without the medium of communication it is not accept to the continuation of the continuation tion, it's wide circulation and it's economical advertising space, many hundreds of businessmen over the years would have found it impossible to bring their messages to the local

The Carroll Record was old when I was a boy, or at least it seemed so to me. (Come to think of it, I wonder how old Charley Stonesifer must be). However when I decided to go into business it was the 'Record' that announced my small venture. Over the years as I placed my ads., t soon became apparent that my job-list' grew pretty much in pro-portion to my regularity of adver-tising. In fact on many occasions with ob orders promised for months ahead it became necessary to suspend weekly 'Record' advertisements until such time that I would be in completion of past commitments.

Many times each year, someone will call and say, "I saw your advertisement in the 'Record' and it put me in the notion of having the living room done over", or, "We are strangers in this community and saw your ad IN the Carroll Record", etc. As the new generations come onto the scene and new faces move into our community, the small businessman's best approach to these people will continue to be through the Carroll Record.

Though this letter states my own humble opinion, I am sure that there are many who would join me in a 'bouquet of praise' to a grand old Taneytown institution, the Carroll

Only when the government gets out of Lax-free, rent-free business can you expect taxes to come down ... . Government must come down to its Constitutional size before you can expect the national debt to be reduced and taxes lowered."

The American Medical Association warns that hucksters of quack health machines continue to flourish-and says that legal loopholes and a gullible public are the reasons. A Senate sub-committee issued a report entitled "The Technique of Soviet Propaganda". It recommends the creation of an institution for: "Enlightening public opinion by means of documented synopses released to press and radio organs. Who's my Valentine this year? Let me whisper in your ear; One who has the dearest eyes, Makes delicious cakes and pies; When I call sets forth in haste Doughnuts just to suit my taste; If I have a button gone, Always stops to sew it on She is always trim and neat, And her cookies crisp and sweet; Knits the prettiest of caps; Bakes the nicest gingersnaps Has the smoothest, shiniest hair; Often has a dime to spare Often when I see her sitting With her sewing and her knitting. Then I come beside her knee, And some tale she'll tell to me. Makes me wish that I was good; Seems as if she understood Just how hard it is for boys When they're told to make no noise Haven't you guessed this secret fine Grandmother's my Valentine!

# A VOICE FROM CARROLL

We believe that our county commissioners used poor judgment when they failed to grant a \$12,000 increase in the budget for the Davis library in Westminster. The commissioners are closing their eys and ears to some facts of life and one of them is that our county is growing in population.....not decreasing. And that the demands upon our cultural facilities are also growing and will continue to do so. Unless the leaders of our country are far-sighted and courageous enough to build for the future, our county will fail to live up to its bright potential. When Mr. and Mrs. Davis contributed the library many of us felt that at long last a great need had been filled and from then on, the people in the county would take pride enough in it to see that it grew and expanded. Change and certainly we Americans are eating a lot differently than we did ten years ago. Vitamins are taking the place of nourishing foods and easily prepared menus are preferred Mr. and Mrs. Clarence Frailey, Mrs. Ruth Peppler and Miss Ann Cadori of Emmitsburg recently spent the day in Baltimore.

Mr. and Mrs. Clarence Frailey, Mrs. easily prepared menus are preferred by the modern homemaker. Mrs. John Beam Sheib of Bonnie again then it would seem that change is the real culprit. A few years ago, we heard a prediction that milk would disappear from the American scene. At the time it seemed a silly prediction, but we may live to see it. The chinese have never been a milk drinking people and they have survived by the millions. Dairy farmers will be the losers of course but that's the way the chips fly. Change to some means added advantages, to others it

means loss of jobs and a complete new way of life. The difference between winter and summer is that in winter the bare limbs are on trees.

Pretty Party, Valentines

The happy young hostess shown above has used her own ingenuity to provide a unique Valentine table, complete with souvenirs. Here are a few simple instructions to help you plan your party of the season and double the fun by doing it yourself. As a focal point, use amusing little Valentine comedians, perched atop slim wands, in a simple single bouquet of sweetheart roses. Use a red paper table cloth, white napkins and paper plates with a heart decoration.

For refreshments, ice-cold Coca-Cola, served with a straw-berry or cherry tart. Serve the Coke on a tray, surrounded by ice, right from the bottle. Your favorite bakery can supply the pastry while you indulge your creative genius on decorations. To make your pretty party Valentines, just follow these simple instructions:

Using a styrofoam ball for the nead, attach blue sequins for eyes. Make corkscrew curls from red chenille stems and mount on the head with tiny hairpins. A pair of heart cutouts form the hat. Mount the head on a slim dowel, then slide a pink carnation up the stick to make a ruff. Bind three miniature roses and a few ivy leaves to the stick below the carnation. Slide a lace paper doily up the stick and into position. Bind the dowel stick with floratape, then wind with ribbon. Add several of these party V-lentines to a bouquet of miniature asses.

#### To Make A Home Lesson for February 11, 1962

THE English language is one of very few that have a word for home. Other languages have words meaning family, or house,

word, though we did not so much invent it as in herit it from our mother-religion, the Jewish faith. The Bible does not say much about the Christian home as such, for of

Dr. Foreman course in Old Testament times there were no Christians, and in New Testament times no writer of those books had been born into a Christian home. It was something quite new.

Nevertheless, as was just said, we inherit the home, as an institution, from the Jews. We may well be grateful, for no other one thing is so fraught with blessing as a true home.

Father and Mother

What does it take to make a home? A modern popular poet wrote, and truly, that "it takes a heap of livin' to make a house a home." Another poet retorted that it takes a heap of plumbin' and a heap o' mortgage, and a heap of repairin', and who knows what, to make a home. Indeed this is all true. But before the living and the mortgage and all the rest of it, two people must love each other and want a home together. Homes do not spring up by magic. They are planned. So the Old Testament Scriptures seldom if ever speak of a home (indeed they didn't have the word in the Hebrew language); but they do speak often of Father and Mother Now a father and a mother do not by themselves make a home. They may both travel and live in suitcases, he may be away so much he seems almost like a stranger when he loes come home. Father and mother may achieve nothing but 4 madhouse, and a divorce as the

result of it. But where there is true lasting determined hopeful Christian love, there you have the right foundation for a home.

This does not mean that only with a father-mother combination and partnership, can there be a true home. A mother can carry on-heavy though the burden be -when her husband is taken from (though not so well as a mother) if he has to be father and mother both. Indeed there are homes where there are no children, and where those who live there are not even related to one another. For example, we have the wellknown story of how Jesus said from the cross, "Son, behold thy Mother!" and "Mother, behold thy son!" And how John took Jesus' mother Mary into his own home. John and Mary were no relation that we know of; yet we can be sure that their home was a real one. We do not know what John's wife said to this; but it is not likely that Jesus, who must have known John's home situa tion well, would have said what he did if he thought for a moment that John's wife was a selfish woman. At the very threshold of Christian history, then, we see already what has been multiplied many times over and over:-the making of homes by, and for,

those whose own homes have been broken by death and disaster. One of Jesus' puzzling sayings is that one about Corban. The reader may wonder what that has to do with a home. Well, our Lord is speaking of a situation where a man who should be contributing to the home where his father and mother live, makes excuse for not helping them by claiming that he gave the money to the church (as we would say). One point is certainly clear. The home has first claim among all our creditors. For it takes money to support a home. This doesn't mean we all have to be rich. What it does mean—among other things—is that such matters as income, minimum wages, and so forth, are not just "economic" matters. They affect people's ability to make homes at all. A bus broke down in Louisville, Kentucky, last summer. It was filled with migrant workers headed for the cherry orchards of Michigan. Those hard-working people had no money at all, and only the clothes on their backs. They are not covered by minimum wage laws. How much of a home can you have on a migrant's wages? To deny people a decent living is deny them life's greatest blessing.

The national winners plus 37 state safety winners received all-expense trips to the 4-H Club Congress from General Motors for their superb 4-H farm, home and highway safety activities.

Typical was Suzanne Shideler, 17, of Lathrop, Calif., who with her county safety council helped fight highway hypnosis on holiday weekends by serving free coffee to tired motorists traveling to Yosemite Park.

"Drivers on rural roads tend to think that where there is less traffic, there is less danger," she said. "Actually, they must be constantly alert for blind intersections, animals crossing the road, and provided the said of said of which slow moving farm machinery and road defects-all of which

THE BLOODY LANE—During the Battle of Antietam an old sunken road, now known as the Bloody Lane, played a never to be forgotten role in the annals of our American heritage. As the Federal force came upon the Confederates posted along the road, a desperate conflict followed until, from sheer exhaustion, the men brought an end to this part of the battle. The road was filled with the bodies of the dead from both sides. The Bloody Lane can be seen today as one tours Antietam Battlefield, reliving the events of the Battle of Antietam, often called the "bloodiest day of the Civil War."
