FACTS AND OPINIONS

The new publication, National Observer says editorially: "Immorality in government was further demonstrated in a little White House ceremony the other day when the President signed the new law authorizing the spending of \$900 million on 'emergency' public works. What is certain is that this legislation authorizes pure pork-barrel waste. Not only is the Government constantly spending enormous sums on ordinary public works; it also has a 'depressed areas' program intended to accomplish the same ostensible purposes as the new 'emergency' project."

Henry A. Barnes, an authority on traffic control said: "I drove 20 miles in 20 minutes on the Harbor Freeway in Los Angeles; then I spent 45 minutes going three blocks when I got off the freeway."

Columnist, Henry Hazlitt says a free economy generally saturates demand because, "... in such a system of private property and free markets, everybody's reward tends to equal the value of his production."

"The greatest danger that we face is not the external enemy," said Senator Thurmond recently, "but it is the internal enemy—it is Communism from within."

The American Medical Association has underwritten \$53,800 in loans to 98 Cuban refugee physicians, most of whom have now qualified for practice in this country and found employment.

"The credit for our ability to meet the tremendous demands of our forces does not belong to the Military alone. We are heavily dependent upon the petroleum industry. It is absolutely essential that the United States have a healthy and vigorous oil industry in the interests of national defense." - Rear Admiral O. P. Lattu, U. S. Navy.

Commenting on the complaint of Guillermo Herrera Carrizosa, head of the Columbian government's Development Corporation, that companies take more out of the country than they put in - - the U. S. accounts for about 80 per cent of all private foreign investment in Columbia - - Times magazine says, U. S. Ambassador Freeman made a survey of 90 big U. S. corporations doing business in Columbia. Of a total net income of \$29.3 millions since 1957, the companies sent only \$8,050,000 in dividends home. Of investments of \$149 million only \$18 million was owed to Columbian lenders. Jobs were created for 16,000 Columbians.

"The thing I like most about modern youth is its uninhibited frankness. You know exactly where you are with them." - Archbishop of Canterbury.

Commenting on the importance of U. S. shippers using U. S. ships for foreign cargoes the Oregon Voter says: "The Baltimore Sun gave prominent news attention to the recent session of the World Bank International Monetary Fund in Washington D. C., when a report prepared in 1960 by Sig Unander, then Vice Chairman of the Federal Maritime Board, and now Republican candidate for U. S. Senator (Oregon), was studied as a plan to save the U. S. gold supply and stabilize dollar exchange. Briefly, the Unander study showed that the U. S. could effect dollar exchange savings of about \$812 million a year on defense, commercial, and foreign aid cargoes by taking steps to assure that more American foreign trade was carried in American ships, thus shoring up the U. S. gold reserve outflow . . . the U. S. Senate could use such constructive thinking."

**How Super Shell's
9 ingredients can give
cars top performance**

POWER INGREDIENT in Super Shell works for world champion driver Phil Hill (above, in Ferrari racer). Hill, first American to win the World Championship for Drivers, relies on Super Shell. One important reason: power. Today's Super Shell contains "cat-cracked" gasoline—a power ingredient made by cracking heavier petroleum molecules into lighter, livelier ones. It works to give you the power you need for top performance.

NOISE-FIGHTING INGREDIENTS in Super Shell work for a quiet engine at all speeds. Shell scientists even use a stethoscope (above) to check effect of Super Shell's anti-knock ingredients. One of these ingredients, an anti-knock mix, is so effective that a teaspoon per gallon can boost anti-knock rating five points. Alkylate, another Super Shell ingredient, is noted for controlling knock in hot engines at high speeds better than anything else yet available.

MILEAGE INGREDIENT in Super Shell is Platformate. Shell scientists test it in many cars, many places. In a recent test in San Francisco (above), exactly 250 cc. (about half a pint) of fuel without Platformate was fed into test car. Car ran until fuel was used up, then coasted to a stop (left). Distance: 6186 feet. Test was repeated, using same blend of fuel with Platformate added. Same amount of fuel. Same car. Same conditions. In this test, Super Shell with Platformate took car 6454 feet (right), gave a mileage bonus of 4.3 percent.

TCP* AND FOUR OTHER INGREDIENTS complete Super Shell's 9-ingredient blend. TCP additive can help restore power lost due to combustion deposits—can also extend spark plug life. Butane is for quick starts. Pentane mix helps engines run smoothly during "warm-up." The gum preventive ingredient is to help keep carburetors clean inside. And, when the weather calls for it, Super Shell contains an anti-icer. That's nine ingredients in Super Shell—scientifically blended to give your car top performance.

*Trademark for Shell's unique gasoline additive. Gasoline containing TCP is covered by U. S. Patent 2889212.

**CURRENT EVENTS
FIFTY YEARS AGO**

Wilson and Marshall Elected. Woodrow Wilson and Thomas R. Marshall, Democrats, were elected President and Vice-President on Tuesday.

The Vote by States, the following figures represent in round figures the resulting electoral vote of each candidate: Wilson: 439; Taft: 15; Roosevelt: 77.

The probability is that the Senate will also be Democratic, or a tie. This can not be positively determined until after the official count.

Edward Kemper and Calvin T. Fringer have been drawn as jurors in place of Joseph E. Roelkey and P. B. Englar, excused.

Flickinger - Erb. - On Nov. 7, 1912, at the Reformed Parsonage, Taneytown, by Rev. D. J. Wolf, Mr. Harry M. Flickinger of Taneytown and Miss Annie C. Erb of Mayberry were married.

Mehring - Dern. - A very quiet wedding took place in the parlor of the National Hotel, Washington, D. C., Monday, November 4, at 2:30 P. M., when Miss Bessie Virginia, daughter of Geo. W. Dern and wife, of Keymar, became the bride of Mr. William M. Mehring, also of Keymar. Rev. Charles H. Hastings, pastor of the M. E. Church of Union Bridge, performed the ceremony. After Dec. 1, they will be at home and will reside in Keymar.

Horgan - Birnie. - Miss Lucy Gunn Birnie, daughter of Col. and Mrs. Rogers Birnie, U. S. Army, was married to Mr. Henry Vincent Horgan, Nov. 2, 1912 in the Chantry of Grace Church, New York City. The Rev. Dr. Charles Lewis Slatery officiated.

Jere J. Garner's Barn Burned. The barn on the farm of Jere J. Garner, near Taneytown was totally destroyed by fire on Wednesday morning with its contents except stock. Mr. Garner was doing his early morning work, as usual, with the aid of a lantern and in moving about fell over the tongue of a drill, causing the lantern to fly out of his hand and explode.

TANEYTOWN SCOUTS TO HAVE PAPER DRIVE SAT., NOV. 10

The usual bi-monthly collection of rags, magazines and newspapers will be conducted on Saturday, November 10, by Boy Scout Troop 348, Taneytown, sponsored by Hesson-Snyder Post 120, American Legion. The roads leading to Mayberry, Copperville, Crouse's Mill, Bridgeport, and the Baptist road will be covered also, besides Taneytown itself. Bundles securely tied are greatly appreciated, although Scouts will gladly gather direct from basement or attic if their attention is called to this need while the drive is in progress. Should early and continuing rain or snow force postponement, a new date will be published.

Meetings Shift from Natural Dam To Scout Hall

The series of outdoor meetings with swimming followed by a wiener roast and game or contest was brought to a close on September 27 when the scene shifted to the Scout Hall and the first of two meetings with knot tying as theme. On Friday, October 12, the meeting was a visit to an Aerospace Exhibit in the Fifth Regiment Armory, Baltimore; 28 persons being transported by automobile through the courtesy of Scout Samuel Bower, Richard C. Etzler, Troop Committeeman Clarence A. Harner, Mr. and Mrs. Glenn L. Martin and Mr. and Mrs. Wilbur O. Thomas.

The following Thursday saw the first of a succession of inter-patrol contests in Morse signaling, in which the Panthers under patrol leader Bower have compiled the best average as the buzzer messages became more difficult. Last Thursday, however, with only four letters of the alphabet omitted from the weekly assignment, the Panther average was equally high, but two stellar performers from the Raccoons, Leroy Smeak (with 100) and assistant patrol leader Ronald Martin (with 96) weighted their score sufficiently to earn the Morse plaque for the night.

The performance of a number of recruits in the Morse code theme has been remarkable, especially Gary Etzler's and Donald Hahn's, and last week Daniel Study did well. Robert Howarth, however, has been the first of the fall new-member group to have completed his Tenderfoot test. He is now a Fox. Others who are engaged in work on this initial Scout rank, required for joining, are Samuel Cassel, Douglas Dayhoff, Jack Ditzler, Carroll Foreman, Richard Greene, Paul Hahn, Jack Howarth and James West. For this reason knots, the whipping of rope ends, and displaying the flag, part of Tenderfoot test, were chosen for additional themes and contests.

Games have included sleeping pirate, steal the bacon, pony-riding relay, crows and cranes narrated by assistant patrol leader Rickey Clingan and Richard Eckard, British bulldog, a Clingan selection, tug-of-war and cockfight.

Hallow'en refreshments were served last Thursday by four members of the Green-bar leaders' council, patrol leaders Bower and Thomas West and assistant patrol leaders Clingan and Robert Miller, their parents contributing gingerbread to be included in the menu.

Overnight Camp at Tumbling Run

A fine overnight camping trip was conducted October 20 and 21 at Tumbling Run lean-to on the Appalachian Trail near Old Forge Park in Pennsylvania. Those attending were patrol leader West, assistant patrol leaders Ronald and Philip Martin, Scouts Gary and Richard Eckard, Robert Howarth and Leroy Smeak as well as candidates Dayhoff, Greene, Jack Howarth and James West and their scoutmaster. Vital transportation assistance was rendered by Mr. and Mrs. Donald R. Eckard. Much work on second and first class tests was done, the avowed purpose of the outing.

The only other recent advancement has been Pioneering merit badge earned by Bower and Home Repairs by James Frock. A board of review is to be scheduled for several who are ready for second and first class ranks.

Special 100 per cent attendance recognition was given Thomas West for one year and Philip Martin for two years.

It is expected that archery will be a program feature shortly through the courtesy of Ned C. Musser, high school principal, in the use of equipment and of Stanley F. Frock, Littleton Explorer adviser, by way of instruction.

Paper Drive Saturday

Scouts able to help Saturday with the scrap collection are requested to report by 8:00 A. M. In the event of unsuitable weather, a new date will be set and publicly announced.

Hardest

It was a tavern where a newly-arrived commercial traveler was holding forth. "I'll bet anyone five dollars," he said, "that I have got the hardest name of any one in this room."

An old farmer in the background shifted his feet to a warmer part of the fender.

"Ye will, will ye?" he drawled.

"Well, I'll take ye on. I'll bet ye ten 'gainst your five that my name'll beat yours."

"Done," cried the commercial traveler, "I've got the hardest name in the country. It is Stone."

The old man took a chew of his tobacco. "Mine," he said, "is Harder."

DENIM MEN OF AMERICA

BUILDING WITH WOOD

American homes of the future will soon be built from giant rolls of wall material as displayed at the Seattle World's Fair. All a carpenter does is unroll a piece, cut it off and put it in place. In an era of nuclear power plants and space exploration the ancient skill of carpentry is still indispensable. The nation's 900,000 denim clad carpenters and joiners are now building or renewing urban areas which, by the year 2000, will house 85% of our population. Carpenters are providing the manpower for a nationwide church reconstruction program and are now at work on a California cathedral that will be the sixth largest in the world. Another flank of the denim army, part of Chicago's urban renewal program, is toiling to add 13,000,000 square feet of new office space to the city's downtown area. Yet there's always a carpenter or joiner in blue denim ready to answer the call for a helping hand around the house.

Pork Chops with a Sweet and Sour Sauce

Pork chops are a very good and economical buy at this time of year. In the recipe here, the chops are marinated in a sweet and sour sauce, made with Knorr Cream of Mushroom Soup Mix, which counteracts the richness of the pork, and gives it a marvelous flavor, too.

Serve the chops with green beans and mashed sweet potatoes.

Marinated Pork Chops

- 1 envelope Knorr Cream of Mushroom Soup Mix
2 cups water
2 tablespoons vinegar
2 teaspoons sugar
4 pork chops (1-inch thick)
2 tablespoons Mazola Corn Oil (about)

Empty soup mix into saucepan. Gradually stir in water. Bring to a boil, stirring constantly. Reduce heat; partially cover and simmer 5 minutes. Remove from heat; cool. Stir in vinegar and sugar. Arrange chops in shallow dish. Spoon cooled sauce over chops; cover. Let marinate in refrigerator 2 to 3 hours, turning once and spooning sauce over chops.

Heat corn oil in skillet over low heat. Remove chops from marinade, reserving marinade, and cook in corn oil, turning once, until lightly browned on both sides. Drain if necessary, then arrange in shallow baking dish. Spoon marinade over chops. Cover. Bake in 350°F. (moderate) oven, basting once, until meat is tender, 45 to 60 minutes. Makes 4 servings.

Mashed Sweet Potatoes

- 1 (16 to 17 ounce) can sweet potatoes
3 tablespoons Mazola Margarine
2 tablespoons orange juice
1/2 teaspoon salt
1/8 teaspoon nutmeg

Mash sweet potatoes in saucepan. Add remaining ingredients and cook over low heat, stirring occasionally, until thoroughly heated. Beat until fluffy. Serve immediately. Makes 4 servings.

Man

Lesson for November 11, 1962

MOST people would call the Bible a book about God; and this is true. But there is something just as true, and for us very important: it is a book about man. Just as there are truths about God that will not be known unless God reveals them, so there are truths about man that have to be shown us. The race of man has seldom taken itself seriously enough. Men suppose they are like the beasts that perish: today here, tomorrow gone, and nothing else to be said. Men think their lives are so short and insignificant that it does not matter to any one what they do. Men have thought of themselves as so tied to this planet Earth that when it dies we shall die with it. Men have seen that we are animals, and so they think we need no more than animals do, food, a roof, a little place in the sunshine. What's right or wrong for a beast is right or wrong for us . . . and so forth.

Dr. Foreman here, tomorrow gone, and nothing else to be said. Men think their lives are so short and insignificant that it does not matter to any one what they do. Men have thought of themselves as so tied to this planet Earth that when it dies we shall die with it. Men have seen that we are animals, and so they think we need no more than animals do, food, a roof, a little place in the sunshine. What's right or wrong for a beast is right or wrong for us . . . and so forth.

Man the Master

The Bible gives no encouragement to any such mistakes. Man is much higher than a mere "higher animal." He is first of all a creature of God, that is the key to the meaning of his existence. "Thou hast made him," the poet psalmist cries. This alone gives man a glory. The same hand that wrought the universe, the same Mind that conceived the galaxies, are the mind and the hand that designed and developed man and mankind. Not only so, but God has made man only a little lower than God, so far as this earth is concerned. On this earth, our home, God has set man as the master of all. Every living thing is placed under the control of man. Much that man does, especially the good that man does, is part of his continuing age-old struggle to be what God created

and intended him to be: master of life on this planet. Every hospital you see is a battle-ground, a part of the long war against the tiny living things that cause disease—germs and viruses. When you see a wheat field or a water tower, you see signs of man's conquest of hunger and thirst. When you see a clothing store, or turn on your furnace or light the wood in your fireplace, you are looking at part of man's long war with the climates in which he lives. Man is not meant by the high God to be the victim of his environment but to rise above it and control it.

Man the Slave

But that is not the whole story. The meaning of man is not to be found in his conquests alone, but in his service. Some master he must have. Man (it has been said) is "incurably religious." That is to say, some God man must have. He has a kind of worshipping instinct. The strange thing is that man is often found devoting himself and his talents to what is actually below him.

Jesus put it memorably. You cannot serve God and mammon. In other words, you cannot serve God and money. To serve God is to fulfill the purpose for which you were created. To serve money, to serve things, is to be a slave of what should serve man, not ride him. Whatever a man hangs his heart on and depends on, that is God to him, said Martin Luther. Strange how many idols man makes for himself!

Man the Spirit

Another mistake men make about themselves is to confuse themselves with their bodies. This is a natural mistake, because whatever we do or think, we can do or think only with the aid of our bodies. But that does not mean that the body is the most important part of us. It does not rate our major concentrated interest. It does not deserve the pampering we give it. Jesus asks why we put so much thought on caring for our bodies.

A lady selling a young people's encyclopedia went by appointment to a beautiful home where lived a family with several children. The lady of the house did not want the encyclopedia; too expensive, she said. Her visitor pointed out: "As I came up the drive I noticed about \$200 worth of play equipment—bicycles and what not—in the yard. Why do you spend all that for what's below their necks and begrudge the same money for their minds?" And she might well have added: "And how much do you spend for their souls?"

HIGHWAY FATALITIES

The weekly survey of highway fatalities published by the Maryland State Police each Monday shows that twelve persons were killed in highway accidents last week, ending midnight November 4.

Two of those killed were drivers; four were passengers; and six were pedestrians. Three of the pedestrians were youngsters who ran into the path of a vehicle.

As in previous surveys, alcohol was a principal contributing factor, being present in four of the deaths; speed was present in one; and "driver error" was a contributing factor in eight.

Of the 215 deaths on Maryland highways during the past seventeen weeks, alcohol has been a contributing factor in 46 per cent; speed in 46 per cent; and "driver error" in 80 per cent.
