HONORED BY MASONS

John Thomas Albaugh of Taneytown has been awarded the designation of Knight of the York Cross of Honour, it was reported Thurs., Dec. 27, 1962. This honorary degree, highest in the York Rite of Freemasonry, is conferred only on those who hold the highest office in each of the four bodies of the rite. Mr. Albaugh becomes the 9047th to have received this award in the past 33 years in North America and the Philippines, although there are over four million members of the fraternity.

Mr. Albaugh served as Master of Monocacy Lodge of Masons in 1953; High Priest of Carroll Chapter, Royal Arch Masons in 1950; Master of Carroll Council, Royal and Select Masters in 1958; Commander of Jacques de Molay Commandery, Knights Templar, in 1958-59. He was elected to membership in Francis Scott Key Priory and his election confirmed by Convent General of the Order on December 24. A certificate of membership has been mailed to him.

There are sixty-two Priories of the Order in North America and the Philippines with a present membership of 6,600.

SCAT-STEP Scores

The parents of the 7th, 9th, and 11th graders of Taneytown Junior-Senior High School are invited to attend meetings on the evenings of January 9th and 10th in the library of the High School. The purpose of these meetings is to give parents an opportunity to receive and discuss SCAT-STEP scores with the counselor and principal of Taneytown High School. These achievement and ability tests are used for counseling purposes in helping students, parents and teachers to better understand the learning problems of the student.

The first meeting, on Wednesday evening, January 9th, will be held for parents of the 9th and 11th graders. The second meeting, on Thursday evening, January 10th, will be for parents of the 7th graders. Both meetings will begin at 7:30 P. M.

Bosses' Night is celebrated throughout the nation in honor of Jaycee employers who support Jaycees and recognize the value of the organization. The program will also feature the presentation of the Distinguished Service Award to Taneytown's Outstanding Young Man of the Year.

The Budget for Carroll County

The County Commissioners on Monday (December 31) of this week unanimously approved a record budget for Carroll County for the year 1963 amounting to \$3,778,733.09. Last year's (1962) budget was \$3,625,653.13.

Such action by the Commissioners did not, however, necessitate an increase in the tax rate of 1.95 in that the assessable base rose during the past year from \$150,200,000.00 to an estimated \$157,066,400.00.

School costs in the new budget account for 73% (\$2,764,103.00) of the total funds levied. The Board provided an increase of \$35,072.60 over the 1962 allocation for schools, and while this did not represent the total request of the School Board, the County Commissioners felt that no additional funds could be provided in 1963.

County Roads are scheduled to receive 8.8% (\$334,239.84) of the 1963 budget allotment. While this represents less than the actual needs for a greatly improved road program, the Commissioners chose not to increase the tax rate for additional funds for roads at this time.

General government costs for 1963 are estimated to cost 4.9% of the budget or a total of \$185,865. Of this amount \$45,100 are allocated for judicial requirements, \$60,000 to finances (treasurer, tax collection, and assessment), \$25,400 to county commissioners' operations, \$26,700 to operation, care and maintenance of the courthouse and county offices, \$22,340 to planning, \$3,625 to elections, and \$2,700 legal expense.

Public Welfare costs in Carroll County are estimated to make up 3.1% of the budget with \$96,898.69 earmarked for the Welfare Department and \$23,100 for use of the Children's Aid Society.

The Department of Health has been granted \$85,465.00 for the coming year, while \$16,000 is scheduled for care of patients in state hospitals. The Carroll County General Hospital under recent legislation was granted \$25,000 for its capital programs.

A total of \$105,276.56 was budgeted for public safety for 1963. Items in this category include \$62,826.56 for the county fire departments, and smaller amounts for the sheriff's office, forest fires, tobacco and alcohol beverage inspection, dog control, civil defense, and coroner expense.

Sanitation, including sanitary landfill operations and planning provisions for water and sewerage facilities, totaled \$25,000 in the budget.

Other department allocations in the 1963 budget approved on Monday included \$19,235 for the Extension Service and \$37,700 for public libraries. Miscellaneous items such as retirement, social security contributions, and medical scholarships totaled an additional \$38,000.

LET'S FEED THE BIRDS THIS WINTER

One by one the autumn days have rapidly slipped away and winter is with us. Now snowflakes are sitting down from the overcast sky. As they silently pile up, Mother Earth will be blanketed with a sparkling ermine covering. The snow has a magical quality of transforming even the most unsightly object into a thing of loveliness.

Yes, the snow is indeed beautiful to look at, but we all know the many problems which it brings each winter — hazardous driving, drifted roads and power failure. It very definitely complicates our daily living.

But if we think we have difficulties, let us consider our feathered friends, the birds. They are truly at the mercy of the elements. Severe and prolonged snowstorms very often cut off their food supply. In some areas, bird-feeding is carried out on a large cooperative scale, in order to save many birds which are either permanent or winter residents. These little feathered creatures were here long before we humans were and they have always fed and cared for themselves and will continue to do so. However, under unusually severe weather conditions, it is the humane thing to give them a helping hand. We can do this by setting up feeding stations around the woods, along country roads and right in our own yards. At our place, we use a wooden "tray," which is covered with a sort of roof. It is open from the sides so the birds can see the food and have easy access to it. We wire this to our yard fence right outside the kitchen window. On the tray we place sunflower seed, mixed bird seed — which may be bought in 5-lb. bags at various stores — shelled corn, cut-up apples and certain table scraps. This serves as a bird "cafeteria." A similar feeder may be set up on a pole, or may be suspended from a tree limb. Pieces of suet nailed to trees or placed in wire containers will attract creepers, chickadees, nuthatches and woodpeckers. Feeders may be set up in window sills, also. They will be more effective if they are placed near shrubs or vines, in order to give the birds added shelter and protection.

At Christmas time, it is a nice idea to trim a special tree for the birds. We did this one year, using strings of popcorn, and it proved a big hit.

As we feed the birds, we will also become interested in watching them. A small investment in a bird book will prove most helpful in aiding to identify the various kinds and in learning many new and interesting things about them. Let's all do our part and help feed the birds this winter.

NEW POSTAL RATES EFFECTIVE JAN. 7, 1963

Commencing Monday, January 7, 1963, the following changes in postal rates will go into effect.

First Class — Letter mail, will be five cents per ounce and postal cards four cents each. The new rate for the in-town so-called "drop-letter" will change to four cents per ounce.

Air Mail — Letter mail, eight cents per ounce; postal cards, six cents each. **Second Class Matter** — Magazines and newspapers, the new transient rate is four cents for the first two ounces and one cent for each additional ounce.

Third Class Matter — Printed matter, circulars, advertisements, etc.; four cents for the first two ounces and two cents for each additional ounce.

Fourth Class — Parcel post; no change in the present rates.

In commenting on the new changes Postmaster George Fream advises patrons that cards and envelopes bearing the old rate of postage may be used by affixing an additional one-cent stamp. The Postmaster also reminds you that effective Jan. 1, 1963, the new law prohibits the admission of odd sizes and shapes of cards and envelopes. Included in this ban are envelopes and cards measuring less than 3 inches wide (height) or 4 1/2 inches long, as well as mailing pieces in outlandish shapes, such as elephants or automobiles, etc. For example, each year many valentines, particularly, fall into one of these categories. Under the new law, cards or envelopes falling into one of these odd size categories are non-mailable and cannot be accepted for transmission through the mails.

The C. & P. Telephone Company Reports:

The board of directors of the Chesapeake and Potomac Telephone Co. of Maryland authorized expenditures of almost \$2,500,000 at its regular meeting November 26.

According to L. Mercer Smith, vice president of the company, this brings the total of expenditures approved during the past 12 months to over \$62,000,000.

The new allocations will be spent on projects throughout the state for service improvements and in areas where the demand for additional telephones has been growing rapidly.

About \$201,800 of the sum has been set aside for the company's fleet of motor vehicles. It includes the replacement of 52 passenger cars and the addition of 38 small work trucks and 12 passenger cars.

The rest of the sum will provide for projects in the following areas: over \$1,170,000 for the area adjacent to Washington, over \$129,000 for suburban Baltimore, \$289,000 for the Eastern Shore, \$255,200 for Southern Maryland, \$139,000 for Garrett Co., and \$57,200 for Hampstead, Carroll County.

Among the upcoming projects for which the board approved these expenditures, several will be undertaken in the area outside Washington. These include a telephone building at Andrews Air Force Base and facilities between that building and Washington; additional dial switching equipment in the Hyattsville and new Bowie central offices; more voice channels between various suburban Washington offices and the new Ashton dial center; additional trunks between the Silver Spring and Georgia centers; and additional cable between Gaithersburg and Damascus to provide for expected increased customer calling in these areas and demands for new service along route 27.

In the area adjacent to Baltimore, plans have been made for a new building in Chase. It will house new dial switching and voice amplifying equipment needed for the coming Edgewood dial conversion. Also, the installation of additional outside cables in the English Consul and Belle Grove Road sections of Brooklyn will improve voice transmission quality for subscribers in that area.

A portion of the Eastern Shore Allocation will provide for a new building in Crisfield which will house toll equipment, extending the local calling area, and dial equipment for the replacement of the manual office, scheduled for 1964. Local calling will also be extended as a result of the installation of more central office equipment in various offices in the Salisbury area.

In Southern Maryland, the company plans to install additional outside wire and cable. The installation will prepare for the relocation of facilities from the present West River office to the new Galesville dial office. Additional trunk facilities will connect the new center to the toll network. Also, increase in outside plant in the west section of Leonardtown will help meet the present service requirements and the exchange growth that has resulted from upgrading of services.

A building addition and new dial equipment will replace the present office in Kitzmiller, Garrett County. The company will add trunks between Kitzmiller and Oakland and will provide more channels to handle the Bittering toll traffic at Oakland. The new channels will also prepare for the addition of message circuits in the county in 1964.

Finally, the Hampstead expenditure will provide for additional lines and terminals to help meet the local demand and the demand for foreign exchange service to Metropolitan Baltimore.

Women are smarter than men; they don't boast about the one that got away!

BROWER DISCOVERS BALLOON ON HIS FARM

A balloon has travelled 560 miles to benefit the tuberculosis control program in Carroll County with \$15.00.

The story began in Chicago, where on November 15, some 500 gaily colored helium-filled balloons were launched as part of the Christmas Seal Campaign of the Tuberculosis Institute of Chicago and Cook county.

The balloon which traveled the second farthest distance 560 miles was found by Paul F. Brower, 45, in his farm on RD 1, Taneytown, Md. (Carroll County).

Brower said, "I saw something yellow down in the field fence, moving around for several hours. Upon investigation, I learned it was a balloon, inflated just enough to bob around, and the card attached to it, hooked in the wire."

Brower's discovery nets him \$15.00, the second prize; a similar amount goes to the Carroll County Tuberculosis Association. The awards are made by E. John Sierocinski, vice President of the Second Federal Savings and Loan Co. of Chicago, where the balloons took off.

Brower, married and father of a son, runs a poultry, dairy and grain farm. It's a family landmark, purchased by his grandfather in 1900.

Top winner in the Chicago Christmas Seal Campaign balloon contest is Guy J. Collins of Vienna, Md., who wins \$25.00 and \$25. for the Dorchester County TB and Health Ass'n.

Third place winners, each netting \$10, are Randolph Calhoun of Everett, Pa. and Bedford-Fulton TB and Health Society.

The balloons, with attached return cards, carried the message, "Help Stamp out TB, Use Christmas Seals."

Jaycees To Select "Junior Miss"

Miss Jean Myers, Taneytown High School, will compete with high school seniors from four other county high schools for a first place trophy and \$50 savings bond, a second place trophy and a \$25 savings bond and a third place trophy, at the Westminster Junior Chamber of Commerce local Junior Miss Pageant that will be held Saturday, Jan. 12, at 7:30 P. M., at the Westminster Elementary School.

John H. Arbaugh, Jr., chairman, stated that the following schools would be represented in the contest: North Carroll High School, Joan Hansen and Darlene Mills; Mt. Airy High School, Patricia B. Stegman and Jeannie Pickett; Sykesville High School, Dottie Hobbs and Linda Volkert; and Westminster Senior High School, Sandra L. Curd and Mary Lou Wood.

The winners trophies are on display at the West Main Street branch of the Union National Bank.

The judges for the event will be from outside of Carroll County. Miss Judy Dahlgreen, 1962 local Junior Miss winner, will present the trophies and bonds to the winners. Miss Dorothy Zucco, 1962 Maryland Junior Miss, will serve as mistress of ceremonies.

The chairman noted that the pageant is not a beauty contest and that the girls will be judged on personality, character, personal ambitions, school activities, poise and talent.

NEW SUBSCRIPTION RATES

Subscription rates of the Valley Register, Middletown; Catoctin Enterprise, Thurmont, and Community Reporter, Mt. Airy, have been increased from \$3.00 per year to \$4.00 per year effective January 1.

Single copy price of the three County weekly papers has been increased from 7 to 10 cents. The publications, in making the announcements, state that the increases are the first in more than a decade which has seen continued pressures in the form of wage increases and material costs.

New postal rates, which go into effect Jan. 7, abolish the "free in county" rate, have made it imperative, the announcements state, for an increase in price for subscribers.

LUTHERANS WILL COMMUNE

Many Lutherans of the congregation of Trinity Lutheran Church will begin 1963 around the Table of the Lord. The service of Holy Communion will be held tonight (Thursday) at 7:30 P. M., and on Sunday, January 6, at 8 A. M., 10:30 A. M., and at 2 P. M. For this Sunday, the Church School will meet at 9:30 A. M.

MEETING OF THE LADIES' AUXILIARY OF THE FIRE CO.

The Ladies' Auxiliary to the Taneytown Fire Co. will hold their next meeting January 10 with a covered dish supper at 6:30 P. M. in the Firemen's Building; also there will be installation of officers.

The Ladies' Auxiliary will serve the Carroll County Firemen's Executive Banquet in the Taneytown Firemen's Bldg. on January 7 at 6:30. Any Auxiliary member who would like to help, it will certainly be appreciated. This writer wishes a Very Prosperous and Happy New Year to all.

"SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning a smile that shall last until the next day's dawning. I wish you health—life's greatest wealth; I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

As I type this letter that Bobby of mine is having much fun with the Sun and his shadows!

What experiences I have had during the Holidays — too numerous to mention but most interesting as in traveling it meant the Shaffeur's Bus and there is so much to learn, especially as one is seated in the Bus Terminal. I met a Spanish lady who really looked like a Saint and her lovely son of 23 years of age awaiting for his girl from Florida. However, that Spanish lady and I started up a conversation and it was on my part mainly the gestures, signs and much else to have her understand me due to the fact although there is Spanish in me on my Dad's side all the way back, I did not speak the language. However, I hope to learn in '63! We seemed to get along beautifully and she was thrilled when she heard my Maiden name which I have never dropped only adding, "Love" to it!

Many were gazing upon our conversation and it brought back the half hour on TV called, "Password!" As I was seated right there I heard two men talking in back of us and one asked the other if he, too was in the Service and the reply was, "Yes, The Internal Revenue Service!" Cute? That day in the snow, I walked along so many of the downtown streets and as I approached there stood the most beautiful tree of all on the landing outside of The Sun Building! I do not understand the reason for not advertising it or showing a picture of it in the papers. I really compared it with the one in New York City at Rockefeller Plaza! Did you know, Folks that the Pointsettia Plant was discovered by Dr. Joel Pointsett in Mexico? And that in the year of 1828! It is known as Flora de la Noche Buena, flower of the Holy Night.

And as to your Christmas cards — don't throw them away but send them to the following: Mrs. Violet Carter, 6143 Parkway Drive, Baltimore 12, Maryland. And as to right seeing at night, it was truly glamorous on the return home in the bus with all the glitter and decorations of the homes! And what to my wondering eyes did appear but a miniature sleigh and 8 tiny reindeer but instead of being on the roof there it all was on a huge lawn. There was St. Nick with his big pack on his back and I thought he was really calling just like the poem of Clement C. Moore — "Now, Dasher! now, Dancer, now Prancer and Vixen! On, Comet, Cupid, on Donner and Blitzen!" There really was, the "Oh's, ah's" from the teen-agers and, yes even the adults! That nice Lawrence Welk always remembers me at Christmas with a beautiful card.

Well, the days are getting longer and whoops Spring won't be too far away! And this to my dog, Bobby (Prince Ballantyne of Tiverton) He follows me around the house...And out upon the street...Wherever, I may wander, he is always at my feet...He wants to be just near me...to get a pat or two...And in return he tries to learn...What he's supposed to do...Like being very quiet when... My visitors arrive...But set to scare a stranger or...to chew him up alive...He plays with me and wags his tail...to let me know it's fun. He longs to make me understand...That I'm the only one...He's loyal and attached to me... through happiness and strife...And if there were a need for it... He'd gladly give his life!

Now, Folks here's to the Capricorn individual from the dates always the 20th of the month of December to the 20th of January inclusive. Saturn, the ruling planet of this sign bestows upon those born herein high moral natures with a conscientious regard for duties and responsibilities (and oh-how we really can depend on them) and that for both sexes. They feel that wealth and power should be theirs and also that rank should be above the common level. So if you have a little Capricorn born in this sign encourage it all. They are very deep as this is the earth sign and they are great thinkers and can always head a big business of any kind. Capricorn people in fact constitute the essential framework of civilization! They never act on the impulse of the moment and never, never are demonstrative as they are cool headed and deliberate. The women have the sweetest dispositions and in fact both sexes are quite handsome. They love elegance in the home and that for both sexes. Many times these people are jealous especially the men and they admire always beautiful women. Capricorn always fascinates me (in fact I had a Capricorn and I understood him thoroughly). They are most congenial in business and can always replace another in their employ without the least bit of worry. (as to discharging an individual by that I mean they are never thrown into confusion when they engage another to take his or her place. I could go on and on, Folks about Capricorn born individuals but the world could not go on without them as they are always the head in everything they undertake. Marriages for these people are excellent with May, September, December born and there are several others depending upon the make up of the parties involved.

Well, Folks, so long until next week D. V. I am, Faithfully, Your Observer.

"SEND MORE MONEY"

An ancient joke tells of the amateur poker player who fell in with a group of professionals, lost his shirt, and wired home: "It's a great game. Send more money."

The American taxpayer is now in the shoes of that hapless victim.

At the federal level, we hear much talk of income tax reduction—though how this can be accomplished, in the light of eight or ten billion dollar annual deficits without shrinking the dollar's buying power farther, is a question that would stump Socrates. That aside, other federal plans, now in the press-on-regardless stage, call for a myriad of changes in tax policy that would subject individual and corporate taxpayers alike to an almost endless series of expensive irritations, and bury us under a flood of tax forms.

At the state level, there is, for the most part, a mad search for more tax revenues for welfare services, for schools, for highways, for urban renewal (the current polite term for slum clearance), and for just about anything else anyone can dream up. Most barbarous of all is the scheme—now in effect in some states, and planned by others—whereby federal income taxes are not allowed as a credit against state income taxes. Thus, the taxpayer pays a tax upon a tax, on money which he never really had at all.

No man can foresee the end. But the way we're going, that "Send more money" wire, will have to go unanswered. The well runs dry.

GRASS ROOTS OPINIONS

BEEVILLE, TEXAS, BEE-PICAYUNE: "There is much talk of a tax reduction—a popular proposal, indeed—but how can this be possible if more spending is approved by Congress and we can't even pay for what had already been appropriated? We are deceiving ourselves if we believe we can reduce taxes and spend more. This is an inflationary measure and we are still in an inflationary spiral. If you doubt this last statement, talk to any merchant you may meet. Retail prices on many articles may be going up only a few pennies on some items, but the merchants are having to absorb an increase in wholesale costs from the manufacturers."

COATESVILLE, PA., RECORD: "Surveying the calendar for local and national events that might be of significance, we find that hundreds of organizations have days or weeks set aside for special observance. Yet, no matter how long and searchingly we looked, we could see nothing in the way of a salute to the American taxpayer. Not too seriously, we protest the oversight."

FORT PAYNE, ALA., TIMES-JOURNAL: "We feel there is a need for people to respond and band together to stamp out . . . the mutilations and deaths of highway accidents. There is no fund drive here. There is no humane society for the prevention of these atrocities. Yet, every driver is exposed to these hazards. Why should there be an apathetic attitude against a killer and maimer that is not a germ? Perhaps the apathy is due to the fact that it takes more than money to fight this hazard. It may seem easier to donate to others to fight a cause than to have to dig deeper than the pocketbook."

MILLINGTON, TENN., STAR: "Loss of freedom of the press invariably precedes loss of other rights and the development of a dictatorship."

TELL CITY, IND., NEWS: "Assistant Secretary of Defense Arthur Sylvester frankly admitted that the Kennedy Administration engaged in an almost total management of the news during the Cuban crisis. Actually, instead of telling nothing they gave out misinformation and many newspapers over the country published these deliberate falsehoods. We who publish newspapers in the nation today are going to find it increasingly more difficult with each passing week to defend the free press. Publishers must summon up all their wisdom, watchfulness and courage for an all-out battle. We need the help of all Americans for it is they, more than the publishers and their newspapers, who will suffer as the free press disappears."

HAINES CITY, FLA., HERALD: "A small boy's ambition: To grow up and be a farmer so he can get paid for not raising spinach."

CALUMET, MICH., NEWS: "Most householders, in these days of the High Cost of Living, have to strain to make ends meet, and many have found the only way to come out even at the end of the month is to operate on a budget. To set up their budget, they list all expenses and all income. Then they allocate some of the income for this expense, some for that expense. If there isn't enough income to take care of all expenses, they pare expenses here and there until it comes out right. Okay, so we didn't have to draw a picture . . . you knew this much all the time. The really funny, or pathetic, fact is that this simple, logical, sensible system does not lap over into the affairs of our government."

FORT SUMNER, N. M., NEWS: "Politics of late years has pretty much developed into a game of competitive promising."

SPRING VALLEY, N. Y., LEADER: "When signing an executive order prohibiting discrimination in housing built or bought with government assistance, President Kennedy . . . declared: 'It is neither proper nor equitable that Americans should be denied the benefits of housing owned by the Federal government or financed through the Federal assistance on the basis of their race, color, creed or national origin.' That Federal aid means Federal control could not be made more clear."

FISHING LINES

By DICK WOLFF

This is getting to be "long-john" weather. It's a sad sight to witness a dude fisherman struggling to get out of the tops of his long-johns in the afternoon sun. He'll suffer the indignities of a hair shirt to keep his pride. Layers of light clothing which can be peeled off one by one are perfect for Fall fishing.

Salt water sport fishermen are catching up a storm. A look at the commercial catch figures reveals that 169,000 commercial salt water fishermen catch about five and a half billion pounds of fish a year. The "catch" is that nearly half are inedible menhaden or moss-bunkers which are used for bait and poultry feed. Actual food fish caught by commercial fishermen is quickly being equaled by sport fishermen, yet the funds available to improve sport fishing along the coasts barely support one laboratory at Sandy Hook.

From Sandy Hook Marine Laboratory, Highland, N.J., comes word that not just insecticides but household detergents are killers of marine sport fish. At the only sport fishing lab in the U.S. so far, scientists are experimenting with various products that find their way into the coastal waters. It takes less DDT to kill fish than to kill the insects sprayed along coastal waters. In fact, the poisons washed by rain into bays and wetlands are sufficiently toxic to kill many fish even when diluted by rain and seawater. They hope to come up with "safe" insecticides. House-

wives and sewage departments will have to worry about the detergent problem and angry fishermen.

Hot off the presses is an exciting new book that should be in every angler's library. Larry Koller's "Treasury of Angling" includes some spectacular color photography by George Silk and 70,000 words of expert text on North American fishing by outdoorsman Koller.

Cool weather fishing for bass and trout can produce some really big ones. Big brown trout are coming up to spawn. A good rig for anglers who like to fish in the cool, crisp mornings or late afternoons is a Mitchell 330, which features an automatic bail, and a 6-foot hollow fiber glass spinning rod. Play it safe with six or even eight pound test monofilament line. Spinning tackle keeps the hands dry and monofilament line doesn't pick up water. Another advantage of spinning tackle for Fall fishing is the ease of casting. You won't have to wade hip deep in the cold water to get out a good cast.

CURRENT EVENTS
FIFTY YEARS AGO

Week of Prayer services will be held in the Presbyterian church, on Sunday and Monday night; in the Reformed church on Tuesday and Wednesday night; in the U. B. church on Thursday and Friday night, closing in the Lutheran church on Saturday and Sunday night.

Miss Clara Brining sent the first package by parcel post from the Taneytown office, and Rev. Seth Russell Downie received the first package.

Miss Nell Yount, a teacher at Miss Suttchen's school, of Morristown, N. J., spent the week with her sister, Mrs. Charles Kephart.

Vaughn-Wantz — On Dec. 23, 1912, Mr. Wm. M. Vaughn, son of Mr. and Mrs. David Vaughn and Miss Carrie J. Wantz, daughter of Mr. and Mrs. Amos Wantz, were quietly married at the Lutheran parsonage, Westminster by Rev. W. H. Hetrick. On their return they were given a lively serenade and also on Christmas Day, Mr. and Mrs. Amos Wantz gave a dinner to the immediate families.

Parrish-Repp — A very pretty and quiet wedding took place at the Reformed parsonage, at Union Bridge on Wednesday evening, January 1, 1913, when Miss Mary Repp was united in holy matrimony to Mr. Raymond A. Parrish. The bride is the youngest daughter of Mrs. C. C. Repp of Union Bridge and the groom is the only son of Mr. and Mrs. Chas. Parrish, of near McKinstry's Mills. The service was performed by the bride's pastor, Rev. Martin Schweitzer.

Copperville — Card parties are all the go with those who play. On New Year's eve, Joseph Coe and family entertained quite an assembly at cards, and later in the evening a masquerade party. On New Year's Day the annual dinner was held at W. H. Flickinger's in honor of Mrs. Flickinger's father, Mr. Henry Sell, who passed his 84th milestone. Those who partook of this feast of honor were: W. H. Flickinger and wife, Henry Sell, Rev. Schweitzer, Jacob Rodkey, Maurice Flickinger and wife, Ira Rodkey and wife, Charles Lutz and wife, Willie Flohr and wife, Howard Maus and wife, Howard Rodkey, Mrs. Geo. Nussbaum, Misses Sadie and Anna Flickinger, Bessie Yingling, Carrie Brown, Naomi, Grace and Ruthanna Rodkey, Annie Lutz, Evelyn Maus, Messrs. John Byers, Wm. and Charles Flickinger, Luther and Martin Rodkey.

HAM AND RICE FRITTERS
FOR NEW YEAR'S EVE

—Rice Council Photo

Ham and Rice Fritters with Pineapple Sauce are an excellent choice for a New Year's Eve supper. The meaty fritters are served with a slightly thickened pineapple and orange sauce and need only a crisp green salad for accompaniment. Pass a tray of assorted holiday cookies for dessert.

If the holiday supper is planned for serving near midnight, prepare the rice and ham fritter batter early and refrigerate it until frying time. The fruit sauce can be prepared long before guests arrive, then reheated just before serving with the hot and puffy fritters.

Salad ingredients — crispy bibb lettuce and slices of red Italian onions for good flavor and color — can be nestled in the refrigerator, too, awaiting last minute tossing with your favorite dressing.

HAM AND RICE FRITTERS WITH PINEAPPLE SAUCE

Fritters:

1/2 cup sifted all purpose flour
1 teaspoon baking powder
1/2 teaspoon salt
1/2 teaspoon pepper
2 eggs, beaten
2 tablespoons milk
1 tablespoon melted shortening
1 1/2 cups ground cooked ham
2 cups cooked rice
1/2 cup grated onion

Sauce:

2 tablespoons butter
or margarine
1/2 cup diced green pepper
1 can (1 pound, 4 oz.) crushed pineapple
1/4 cup sugar
1 tablespoon cornstarch
1/2 teaspoon salt
1 can (11 oz.) mandarin oranges, drained
Ground nutmeg

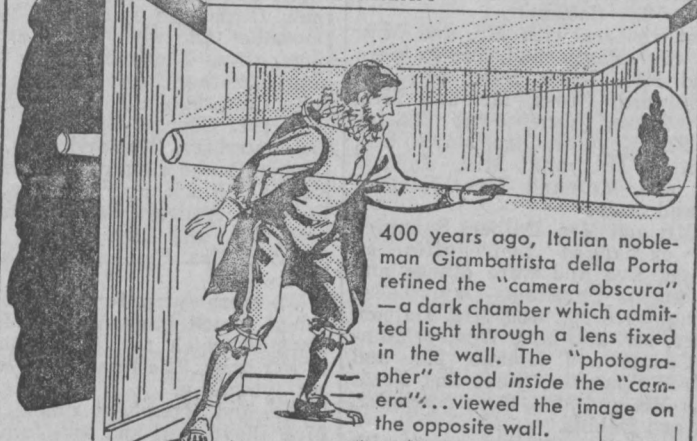

To prepare fritters, sift dry ingredients into mixing bowl. Combine eggs, milk and shortening; stir into dry ingredients, mixing well. Add meat, rice, and onion, blending well. Drop by heaping tablespoonfuls into hot, deep fat (370 degrees) and fry until golden. Drain on absorbent paper.

To prepare sauce, melt butter in saucepan; stir in green pepper and cook until pepper is slightly tender. Stir in pineapple. Blend sugar with cornstarch and salt; add to pineapple. Cook, stirring constantly, until thickened. Fold in oranges. Heat through.

Serve pineapple sauce over Ham and Rice Fritters and garnish with a dash of nutmeg.

Recipe yields about 21 fritters and 2 1/2 cups sauce.

CORRESPONDENCE

By Our Regular Staff of Writers

We desire correspondence to reach our office on Wednesday, if at all possible. It will be necessary, therefore, for most letters to be mailed on Tuesday morning. Letters mailed on Wednesday may not reach us in time.

DETROIT-KEYSVILLE

Greetings to you:

Here it is—the very last evening of 1962—and I'm writing the news I have gathered for you without knowing whether or not it will reach the newspaper office in time to make this week's publication. The reason is drifting snow. The storm began on Saturday morning but the wind has been so strong that it has kept the snow moving as tho' it is still storming and the roads are closed in many areas even now. The snow plow went through here about 4:30 P. M. and within a half hour only tractors and milk trucks were heavy enough to travel the road. Anyway, here is the news—whatever you should chance to read it!

Sympathy is extended to Mr. and Mrs. Gerald Myers and family of Detroit upon the death of her mother, Mrs. Harry Crouse of Taneytown.

The address again for cards and notes to Clay Hahn is the Western Maryland State Hospital, Hagerstown, Md.

Congratulations to Mr. and Mrs. Walter Robertson of Uniontown upon the birth of a son, Jeffrey David, on the 17th of December. Mrs. Robertson is the former Miss Georgia Asbury who made her home with Mr. and Mrs. Edward Coshun of Redland.

Belated congratulations to Mr. and Mrs. Paul Robinson who were married at Thanksgiving time. Mr. Robinson works for Mr. and Mrs. John Blainfield whose farm is just off Rood Rd.

Cub Scout Pack 459 had to postpone their December meeting and Christmas party from the 21st to the 28th because of the snow. The meeting was opened with remarks by Mr. Berman Weeks, the Scoutmaster. The Pledge of Allegiance and The Lord's Prayer followed. Carols were sung by all those present and then the awards were presented. These were: Tommy Hyde, the gold and 1 silver arrow under his gold badge and his Bear badge with the gold and 2 silver arrows under it; David Myers, Wolf badge; Glenn Weeks, Bear badge; Norman Murdoch, Bobcat pin; and Richard Persinger, Bobcat pin. Congratulations to each of these boys. Games were played and the gifts given out with treats for all the Cubs and also the visiting children.

Refreshments of cookies and punch were served to the whole Pack meets every third Friday and all the families are invited to attend these meetings. There were no church services in either church in Keysville this past Sunday because of the drifts. Church services in Keysville Lutheran have a time change next Sunday, the 6th, when they will begin at 10:45 A. M. with Sunday School starting at 9:30 A. M.

Mr. Fred Wilhide and son, Douglas, of Indiana, Pa., visited from Friday the 21st through Monday the 24th with his parents, Mr. and Mrs. Lloyd Wilhide of Keysville, and his sister and her family, Mr. and Mrs. John Harner of Taneytown.

Miss Helen Fossett, who makes her home with Mr. and Mrs. Maynard Ausherman and family of Forest and Stream Club Road, visited from Saturday through Wednesday with her mother and grandmother in Westminster.

The home in Keysville next to the Lutheran Church, formerly occupied by Mr. and Mrs. Barry Buckingham and owned by Mr. Sterling Stambaugh, is now owned by Mr. and Mrs. Donald Stanley and I understand Mr. Stanley teaches school in Taneytown. Welcome to them!

It is good, indeed, to report that Mrs. Carroll (Edith) Wilhide is feeling better after having a seizure with high blood pressure. She is also undergoing treatment for her left eye.

Two of those I know about who are on the sick list right now are Mr. James Coshun of Detroit and also his daughter, Mrs. James Unglesbee of Taneytown. We sincerely hope these two are soon recovered.

I have not had the opportunity to see or speak with her but I understand Mrs. Coral Cover has returned to her home in Detroit from Rochester, N. Y., and is now visiting with her daughter and family, Mr. and Mrs. Monroe Pfoutz of Union Bridge. The fact that I once worked in Rochester for over a year is a tie between us and I hope to soon have a chance to visit with her.

Last Friday evening, Mr. and Mrs. Maynard Ausherman and family visited in Frederick with Mr. and Mrs. Gilmore Ausherman and family.

Now for some Christmas news. I'm sure there were many other visits and get-togethers, but these are all I have for you today. Mr. and Mrs. Myron Wilhide and Denise had as their dinner guests his parents and sisters and brother, Mr. and Mrs. Carroll Wilhide, Janet and Beth, and Mr. and Mrs. Richard Wilhide. That same evening Mr. and Mrs. Clyde Wilhide with Audrey and Danny visited in this same home.

Supper guests with the William Fleharty family were her two sisters and nephew, Carol, Fay and Shawn Wolfgang of Washington, D.C., and Kensington, Md.

Mr. and Mrs. Richard Stonesifer of Rockville were seen in Church on Sunday the 23d and I assume they spent the holidays with their parents, Mr. and Mrs. Russell Stonesifer of Keysville. I did not get to speak with them at the time. Mrs. Stonesifer returned to her home from University Hospital the previous Tuesday and is improving very well, her son, Fred, reported.

Larry Dougherty, student at Maryland University, is visiting with his parents, Mr. and Mrs. Carroll Dougherty of Detroit, during the holidays. Mr. and Mrs. Lamar Ausherman and family of Taneytown were dinner guests with his parents, Mr. and Mrs.

Maynard Ausherman and family on Christmas Day. That evening Mr. and Mrs. Maynard Ausherman and family, and Mr. and Mrs. Melvin Amoss and two children were supper guests with Mr. and Mrs. LeRay Ausherman and family near Liberty.

Mr. and Mrs. Wayne Myers and son, Craig, of Hanover, Pa., were Christmas and the previous week-end visitors with their parents, Mr. and Mrs. Raymond (Bill) Myers who live at the corner on Naylor's Mill Road. Mr. and Mrs. Edward Coshun and family had their annual Christmas dinner with her parents, Mr. and Mrs. Oden Fogle of Union Bridge. That evening they were supper guests with their parents, Mr. and Mrs. James Coshun of Detroit.

Mr. and Mrs. Clarence Stonesifer and Mr. and Mrs. Charles Stonesifer and family of Keysville were guests of Mr. and Mrs. Ernest Stonesifer of Littleton, Pa., for Christmas Day dinner.

The Christmas entertainment at Keysville United Church of Christ which was held on Christmas Eve at 7:30 P. M. was very well attended. Pastor and Mrs. Wiley and daughter, Debbie, of Taneytown were lunch guests on Wednesday the 26th with Mr. and Mrs. Charles Stonesifer and family of Keysville.

Happy Birthdays wishes to Teresa, daughter of Mr. and Mrs. Lamar Ausherman of Taneytown, who was two on the 28th.

Mr. and Mrs. Richard Wilhide of Forest and Stream Club Road were visitors with her parents and family, Mr. and Mrs. Daniel Seibert, Paul, Timmy, Marianne and Johnny, of Clear Spring, Md., on the 26th. Jimmy was also home on vacation from college at Frostburg.

Mr. and Mrs. William Fleharty and family were dinner guests with his mother, Mrs. Ralph B. Fleharty of Washington, D.C., on the 26th. Also present was his aunt, Mrs. Edna Shacklett.

On Sunday the 23d, Mr. and Mrs. Charles Stonesifer and Kathy with Mr. Wayne Mummert attended the wedding reception of their cousin, Mr. and Mrs. Alan Saunders, Mrs. Saunders is the former Miss Margaret Hockensmith of Shenandoah Junction, West Virginia.

Mr. and Mrs. Richard Wilhide were Friday evening visitors with Mr. and Mrs. Melvin Baile and family of New Windsor.

Mr. and Mrs. Melvin Schnappinger and son, Gary, with Miss Carol Sipes, all of Baltimore, visited with the Carroll Wilhide family from the 26th until the 28th.

Christmas Eve visitors with the Charles Stonesifer family of Keysville were Mr. and Mrs. John Watkins from Emmitsburg.

Mr. and Mrs. Daniel Seibert and family, all of Clear Spring, were Friday dinner guests of Mr. and Mrs. Richard Wilhide. They also visited with the Carroll Wilhide family before returning home.

Christmas holiday visitors with Mr. and Mrs. William Weishaar and family were Mr. and Mrs. Paul Wildasin of Reisterstown and Miss Pat Shipley of Taneytown.

Keysville Lutheran Church Women will hold their next meeting on Monday the 7th with Mrs. Agnes Roop and Mrs. Kathryn Stine as the Leaders. Hostesses will be Mrs. Rachel Bestian, Mrs. Elizabeth Myers and Mrs. Helen Dougherty.

Mr. and Mrs. Walter Gill and family of White Hall, Md., spent Monday night and Tuesday with her sister and family, Mr. and Mrs. Clyde Wilhide of the Keysville-Taneytown Road.

—Dharlys Fleharty.

FRIZELLBURG

Mr. Delmar Warehime spent the Christmas holidays with his home folks, he will return to Fort Sill, Oklahoma, January 3rd.

Last Thursday, December 27th, Mr. and Mrs. Harry K. Myers were entertained to a surprise dinner in honor of their 50th Wedding Anniversary at the Candlelight Lodge in Catonsville. The table was beautifully decorated with large Chrysanthemums and candelabra, the bride was presented with a gold orchid, and the ladies presented with gold carnations and corsages and the gentlemen with yellow boutonnieres. The luncheon was given by their son, Arthur K. Myers and family of Briarcliff Manor, N. Y. Those present were: Mr. and Mrs. Harry K. Myers, Mr. and Mrs. Robert K. Myers, Mr. and Mrs. Norman T. Myers, Mrs. Clarence H. Myers, Mr. and Mrs. Arthur K. Myers, and three grandchildren, Billy, Tom, and Carol of Briarcliff Manor, New York.

Mrs. Mary Skinner of Westminster, spent Wednesday afternoon at the home of Mr. and Mrs. Scott Sullivan and daughter, Lamore.

Thursday dinner guests at the home of Mrs. Walter Senft were: Mrs. Claude Derr, Mrs. Wm. Hopkins and Mrs. Richard Rohrbaugh, all of Taneytown.

The Never Weary Class of Emmanuel (Baut) Lutheran Church will meet at the Marker home on Tuesday evening, January 8th, with Charlotte Shorb as hostess. The L. C. W. will meet in the same home on Wednesday evening, January 9th.

Mr. and Mrs. Earl Hawkins of Woodsboro, visited at the home of Mrs. Grace Myers and Mrs. Bessie Freet on Friday afternoon.

A very pretty Wedding was held in Emmanuel (Baut) Lutheran Church on Saturday afternoon when Marlene Kay, daughter of Mr. and Mrs. Vernon Zimmerman became the bride of Larry Petry, son of Mr. and Mrs. Chester Petry, also of Silver Run. Life starts again when New Year's bells are ringing; We have a pristine page on which to write.

But though we wonder what the future's bringing. We know God will be with us day and night. —Margaret E. Sangster.

We also should walk in newness of life. Romans 6:4.

At this writing it is very cold, the wind is blowing, snow is drifting, just a nice night to be at home.

MARRIED

PETRY — ZIMMERMAN

Miss Marlene Kay Zimmerman, 1204 Tyler Ave., Annapolis; daughter of Mr. and Mrs. Vernon M. Zimmerman, Westminster R. D. 1, became the bride of Larry Allen Petry, 50 Franklin St., Annapolis, son of Mr. and Mrs. Chester A. Petry, Westminster R. D. 1, Saturday, December 29, 1962 at 2:30 P. M. in Emmanuel (Baut) Church, Tyrone, Md. The Rev. Robert E. Thomas, Greencastle, Penna., uncle of the bride, conducted the double-ring ceremony. The church was decorated with red poinsettias, palms and candelabra. Miss Patricia Lambert, cousin of the bride, was soloist and Mrs. Audrey Buffington, cousin of the bride, was organist. Given in marriage by her father, the bride wore a gown of clipped Chantilly lace with fitted bodice and long sleeves ending in points over the hands. The neckline was outlined in dainty or-gandy flowers with pearl center. The full skirt was worn over a hoop petticoat and ended in a chapel train. Her jewelry was a single strand of pearls and small pearl earrings, a gift of the bridegroom. The bride's headpiece was a crown of pearls with an elbow-length veil of pure silk illusion. She carried a Bible topped with a white orchid, holly and miniature roses on the satin streamers. Miss Elizabeth Ann Hull, Baltimore, maid of honor, wore a Christmas red velvet dress with a satin trim on the side drape of the ballerina-length controlled skirt. The bodice was fitted with a scooped neckline and elbow-length sleeves. She wore a white fur headpiece and carried a white fur muff trimmed with carnations and holly. The bridesmaids, Miss Yvette Hull, New Windsor, cousin of the bride, and Miss Phyllis Myers, Silver Run, wore emerald green dresses styled identically to honor attendant's and wore white fur headpieces and carried white fur muffs trimmed with red carnations and holly. All the attendants wore a single strand of matched pearls and earrings, a gift of the bride, and satin shoes to match their dresses. Walter Humbert, Tulsa, Oklahoma, was best man. Ushers were: Ronald Sprinkle, Westminster, cousin of the bridegroom, and Wayne Weller, Westminster. Barry Thomas, Greencastle, Penna., was acolyte. A reception for 125 guests was held in the church parish house, after which the couple left on a wedding trip of undisclosed destination. For traveling, the bride chose a brown wool suit with loden green accessories and wore an orchid lifted from her Bible. Mr. and Mrs. Petry will reside at 1204 Tyler Avenue, Annapolis. The bride is a 1958 graduate of Westminster High School, and a 1962 graduate of Western Maryland College. She is now a case worker with the Anne Arundel County Health Department. The bridegroom is a 1956 graduate of Westminster High School and served four and a half years with the U. S. Air Force. He is presently employed by Harrison and Palmer electrical contractors, Annapolis.

There's News In This "Chip" Recipe!

You and the younger members of your family will find this recipe simple as 1-2-3—graham crackers, peanut butter and glazed chocolate chips. These new glazed chips add something extra to any chip recipe. . . They are richer, fresher and more decorative. Just try the "Quick Chips" below and the following variations and see for yourself!

Instead of peanut butter, place about 12 chips on each cracker and heat as directed. Spread chocolate over cracker and sprinkle with flaked coconut. Still another delicious idea is to use finely chopped nuts instead of the coconut. All the versions are really yummy!

Quick "Chips"

6 graham crackers
3 tablespoons crunchy peanut butter
3 tablespoons Baker's Semi-Sweet Chocolate Chips
Spread each cracker with about 1/2 tablespoon crunchy peanut butter. Top with the chips, using about 12 chips on each cracker. Heat in slow oven (325°F.) 2 or 3 minutes, or until chips are softened. Spread chips quickly over crackers. Cool. Makes 6 cookies.
Note: Do not make more than 6 cookies at one time.

SAVE-AS-YOU-GO

I come from conservative stock and my folks were great believers in "cash on the barrel-head." It made a lot of sense in those days, and every now and then my Dad would point out some horrible example who had "gone into debt and wound up in the poorhouse." As a kid I was just as sure that the two went together as I was that if you took that first drink you would wind up a drunkard.

I got married on cash, but the time came when we decided our children needed a better home environment — enough room, a yard to play in, a good neighborhood with good schools, and all the rest. We soon discovered we'd have a hard time providing these things if we had to wait until we could pay cash. If we tried to save the money out of income — paying rent for someplace to live all the while we were saving — the youngsters would be full grown before the house could ever be purchased.

And so we used long-term mortgage credit. We used our savings for the down payment, moved into the house, and started paying the rest on a twenty-five year installment plan. We were in debt, but this kind of debt helped us to increase the family's net worth each year, so it was really a "SAVE-as-you-go" plan.

... a SILENT Wife?
Then, right in the middle of the hottest part of the summer, our long-faithful-but-antique refrigerator finally went "clunk" and quit! The lady of the house didn't say a word — a very unusual wife, indeed. She merely led me gently to the kitchen, opened the refrigerator door, and let me view the lovely mess inside.

I surveyed the soggy stack of partially thawed frozen foods; a suggestive aroma

of "ripening" meats and cheeses, and sniffed at each quart of curdling milk. She permitted me to contemplate in peaceful quietude the bleak prospect of quaffing my favorite beverages LUKE WARM for the remainder of July and August.

My wife's wordless lecture was quite effective. I quickly realized that for city folks to-day a kitchen refrigerator is a NECESSITY. After weighing all the factors, we decided that a new refrigerator was a better solution than paying the cost of labor and parts required to put our antique back into somewhat dubious service. We did some arithmetic, and found there was sufficient cash on hand for a down payment — without disturbing family savings. Then we shopped around for the best buy and eventually signed a contract for two years of installment payments.

Genuine Thrift

It may take us two years to pay for the refrigerator, but in two years we will have "paid ahead" for the cost of refrigeration for another twelve years or more! That's sound economics — and I'm sure my cautious forefathers would agree that paying ahead is more thrifty than the old hand-to-mouth method of cash on the ice box — or NO ice!

At our house, Mamma and I always work out our family budget together. We planned carefully how we were going to pay the installments on that new refrigerator — BEFORE we agreed to buy it.

We aren't a "cash-on-the-barrelhead" family any more. We've found that credit can be a useful tool in family money management. It can help families acquire more of the things they want and need; it can help them save-as-they-go. But like any good tool, credit must be used wisely — and only as a part of a careful family financial plan!

Air-filled Roofs Featured on World's Fair Building

A spectacular complex of buildings, which will be constructed almost entirely of plastic materials, will make up the "Schaefer Center" at the 1964-1965 New York World's Fair.

Perimeter walls of the buildings will be transparent, smokeless plastic of a specially created "bubble" design. Roofs of the buildings will be air-filled "floaters" plastic discs.

Unveiled recently by R. J. Schaefer, president of The F. & M. Schaefer Brewing Co., the model of the Center, which was designed by Eggers and Higgins and Walter Dorwin Teague Associates, consists of three domed buildings joined together by a semi-circular satellite structure. The buildings will be surrounded by landscaped grounds which will be decorated with fountains and plantings, walkways, waterways and pools.

One building of the "Schaefer Center" will include an air-filled dome of the company's beginning.

a small beer garden and brewery in 1842—and carry through to the present. The second of the circular halls will be decorated as the "Schaefer 1890 Club"—a restaurant and bar—overlooking an old-fashioned beer garden. The third structure will be "The Restaurant of Tomorrow." Here, circular tables will seem to float on a floor of water and be scattered among arrangements of flowering trees.

The entire complex is designed to create an impression of relaxed fantasy. All the materials used will be relatively unfamiliar and unique as will be the colors, furniture and decorations.

A HOMESTYLE WELCOME FOR FOREIGN VISITORS

"We're mighty proud of this band—they are our prize-winning Sabres," Portland's City Council Chairman Daniel Felix tells visiting correspondent Renee Gesmar of Paris, during welcoming ceremonies to the Maine city.

A "person-to-person" first in hometown hospitality was extended to twenty distinguished foreign correspondents and their wives on a recent week-long visit as guests of the State of Maine and local Rotary clubs. The project, developed in cooperation with the U.S. Information Agency and the Foreign Press Association, is aimed at giving newsmen from abroad a greater understanding of America in small towns as well as in big cities.

The visit, termed a "real nice clambake" by state officials, included an all-American welcome

with a marching band serenade, transportation in a Trailways deluxe Five Star bus, tours of Telstar, industrial plants and local newspapers as well as clambakes and receptions. Especially enjoyed by the newsmen and their families was the warm hospitality and home cooking of their Rotary hosts.

Commenting upon the success of the project, Presidential Press Secretary Salinger voiced the hope that other areas of the country will extend similar invitations to visitors from abroad.

Lawyers, Courts Aim To Make Jury Duty Easier On People

Both lawyers and court administrators are campaigning to make jury duty pleasanter and more profitable.

Court administrators report in a recent study they favor upping the average juror pay from \$6.00 a day plus expenses to at least \$10.00 daily. Many believe the fees should be upped as much as \$15, \$20 or even \$25. And a large legal association has opened a drive to get more businesses to pay wage earners during jury service.

At the same time efforts are underway to make "jury service easier on the more than 1,000,000 Americans who serve each year, in state and Federal courts on both civil damage and criminal cases.

One court, in Santa Barbara, Calif. has even installed rocking chairs in the jury box. Throughout the nation, courts are installing desks, telephones, pen, paper, ink, magazines, radio and television in the waiting rooms so citizens can conduct their regular business affairs—or just relax and enjoy themselves while waiting to hear cases.

National Association of Claimants' Counsel of America (NACCA), the nation's second largest bar association, is campaigning for the continuation of the traditional rights of trial by jury in the face of attempts by some groups to curb this basic American freedom.

The association is urging individual firms to give wage earners

their normal pay during the average two week jury duty. A person is eligible to serve each 2-4 years.

John J. Lane, president of the 12,000 man NACCA group, says the trend toward making jury duty more attractive is gaining momentum. More people are actually seeking jury service, especially women.

Selection of jurors varies state by state, and even county by county, according to NACCA experts, but panels are generally drawn from voter, taxpayer, property owner and city register lists. At times even telephone directories are used.

"In one county," says Lane, "the judge selects a small child who can neither read nor write and ten juror names are picked from a hat by the youngster."

All persons—except ex-convicts—are eligible to serve as jurors in most states, but the majority of courts regularly excuse persons in certain occupations. Some states have laws specifying who can and cannot serve.

"While actually in the jury box," says NACCA President Lane, "there are certain restrictions. Jurors usually can't smoke, and of course, talking, reading or writing letters is forbidden. But many judges allow women to knit unobtrusively."

The jury system is now more than 1,000 years old and has served society well during this millennium. In each era it has been modified or expanded to suit the times. But English Lord Brougham perhaps best summed up the value of the jury system in 1823 when he said "juries are the most wholesome, wise and almost perfect invention."

SECRET KEPT FOR OVER A CENTURY

One of the most closely guarded secrets in this country—dating back to Civil War days—is not military, but rather, culinary.

In 1861 a former tinsmith, Gilbert Van Camp, and his wife opened the Fruit House Grocery in Indianapolis. Since they catered to the "carriage trade" they often found that on rainy days their store was piled high with unsold perishable produce.

The economy-minded Mrs. Van Camp hit upon an idea to save this stock. While Gilbert experimented with canners, she started canning at night. Along with the fruits and vegetables she canned her husband's favorite dish—pork and beans, made with her own secret sauce. The following winter, when they filled their shelves with "out of season" foods, included were the pork and beans.

News of this excellent fare spread quickly and when the demand exceeded the supply, Gilbert went into canning on a larger scale. By 1890, six million cans of pork and beans were being put up annually.

Now, over one hundred years later, with the 15 billionth can of Van Camp's pork and beans due to come off the production line, the recipe remains unchanged. Only four men—one in each generation—have been entrusted with the contents of the now famous "Secret Savory Sauce". All the present custodian will reveal is that the sauce is made basically of plump red tomatoes, sugar, spices and rare oils imported from the South Seas. And in this day of automation—just as in Mrs. Van Camp's time—the pieces of pork are still dropped into each can by hand.

New Soda Called A Woolly Bear

A new soda planned for kids turned out to make a hit with everyone. It is a Woolly Bear Soda named for the beloved Bosco bear, shown here looking over a jar of cookies.

WOOLLY BEAR SODA

1 tablespoon Bosco chocolate flavored syrup
2 tablespoons milk
¾ cup chilled orange soda
½ heaping tablespoons ice cream

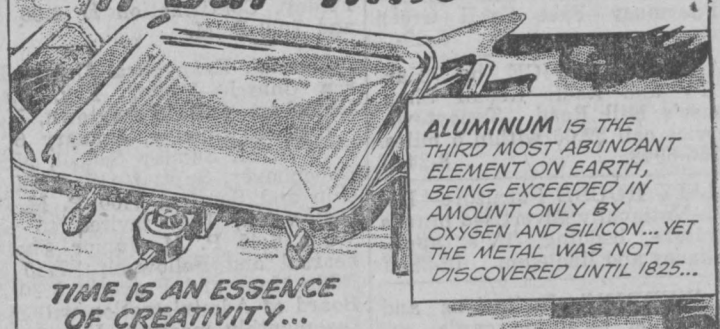

Combine chocolate flavored syrup and milk in tall glass, stirring until well blended. Slowly mix in ¾ the orange soda, then carefully spoon in ice cream. Stir slightly. Slowly fill glass with remaining soda. Makes 1 soda.

SUGAR COOKIES

3 cups sifted flour
1 teaspoon baking powder
¼ teaspoon salt
¾ cup corn oil margarine
½ cup light or dark corn syrup
¾ cup white or firmly packed brown sugar
1 egg, beaten
1 teaspoon vanilla sugar

Sift flour, baking powder, salt together. Cream margarine, then beat in corn syrup and sugar until well blended. Add egg; beat well. Mix in vanilla, then sifted dry ingredients. Chill dough about 1 hour. Shape into 2 rolls, about 2-inches thick. Wrap in waxed paper and chill at least 4 hours. Cut into ¾-inch slices. Place on ungreased cookie sheet. Sprinkle with sugar. Bake in 350°F. (moderate) oven 10 to 12 minutes. Makes about 6 dozen.

Wonderful World by Waldman

Since 1933, 3,000 witnesses—including several monks, Members of Parliament and local residents—have reported seeing a monster in North Scotland's Loch Ness. Is the ugly, long-necked creature with its two-humped back and shiny black skin real or imaginary? No one knows!

One of Europe's deepest lakes is Scotland's Loch Morar, located in the Northwest near the village of Morar. A mere 600 yards from the sea, the loch is 1,017 feet at its deepest point!

Ready, When?

Lesson for January 6, 1963

THE same man or woman will be admired by different people for different reasons. Our Lord was no exception. What is it in Jesus that draws, as he said, "all men" to himself? It is now as it was, then. Not every one would say the same. The four Gospels are not alike, and one reason they are not alike is that the four evangelists (writers of the gospels) found different aspects of Jesus' life and thought challenging and compelling. Mark, from whose short book these Bible studies for the next three months are to be taken, was drawn to Jesus on account of what he did rather than what he said. Jesus is here introduced to us as the mighty Son of God, who demonstrated his right to be Master of Men by his acts of power. Jesus had a meek and gentle side; but there is not much in Mark about a meek and gentle Jesus; rather about the kind of character that would appeal to the Romans among whom the book first circulated, Jesus the Mighty One.

Not by Age, not by Books
When is a man ready to go out and begin his life's work? Many young people begin too soon. They drop out of high school and get married, they are burdened with the cares of a job (or trying to find one) and a family at a time when they should still be preparing for such responsibilities. Others keep on "preparing" because they are actually afraid to go out and get into the swing and the fight of living. A person is not necessarily ready when he has read a certain number of books. A book, many books, can help handily in preparing those who read them for active useful living; but a young man may have put his nose into many books without

ever having put his mind into any one of them. In many books is much knowledge; but in many books may be little wisdom. Age by itself will not prepare a youth for living. In two states young people can legally vote at the age of 18; in two others, 19 and 20; and in all the rest, 21. The theory is that anybody old enough to fight is old enough to vote. But is this true? Does any one suppose that every boy or girl just turned 21 is suddenly endowed with the sense and the ability to make the serious choices demanded of a good voter? Mere years will not bring wisdom.

The call of God

Jesus of Nazareth, be it remembered, was not a bookish man. He knew his Bible, but there is no evidence that he had attended any of the great schools of that day. His "ignorance" was always thrown up to him by those who failed to "see" him. Furthermore, Jesus was what some would call over-age before he embarked on his life-work. He was thirty years old before beginning to preach. Book-wise, he was less than ready; age-wise, he was more than ready. But he considered these things (if at all) as being far down the list of indispensables. Jesus did not enter on his life-work until he was convinced that he had a divine call. Now the call of God comes to people in various ways. But surely it stands to reason that no matter what you know or have experienced, if you set out on a course God does not want you to take, you are headed for real failure.

The Voice of the Tempter

There was once a dedicated woman missionary. On her furloughs in this country, she would go from college to college, looking for those who had volunteered to go as foreign missionaries. She would talk to these young people, and try as hard as she could to persuade them not to go. She turned more than two hundred away in this fashion; but those who could not be discouraged were the ones she was looking for. They were the ready ones. Now if it is necessary to hear the voice of God (which may well come to us in the voice of a friend or loved one) before we are actually prepared for our life's work great or small as God wills, it is also well that we should listen (as Jesus had to) to the voice tempting us to do something else, anything else but what God calls us to do. Only those are truly ready who have learned to say NO to the Evil One.

PREVENT WINTER DRIVING WOES

The National Safety Council says: Always carry a pair of reinforced tire chains ready for use when needed during severe snow or ice conditions. They help avoid skid-wrecks and prolonged traffic delays. Police say chainless vehicles are responsible for chaotic traffic tie-ups.

Banker Tells Why

Mortgage Better-Secured When House Has Medallion

Medallion Homes are a hedge against obsolescence.

That's the opinion of the fifth largest savings institution in Connecticut, the Waterbury Savings Bank.

In considering any kind of home financing, obsolescence is a very important factor," says C. Frederick Goodwin, vice-president and mortgage officer of the 112-year-old bank. "Our main interest is assuring ourselves that the rate of depreciation on any home won't exceed the rate of amortization. We feel that the Medallion Home has more built-in safeguards against obsolescence than the average."

Mr. Goodwin points out that in considering any loan he looks for value in three areas: basic construction, low maintenance and future salesability.

"The Medallion home scores high in all three categories," he says. "It includes extra lighting, more built-in appliances and better wiring. Because the electric heating systems in Gold Medallion homes have no moving parts and because electric heat is clean, the cost of mechanical and decorating maintenance is exceptionally low. The electrical standards to which these homes are built help keep them up-to-date for many years and enhance future resale value."

Mr. Goodwin observes that

many of the important elements of a Medallion Home are thoroughly inspected and supervised by engineers of power companies.

"Since the power companies themselves sponsor the Medallion Home Program, they have the most to gain or lose from superior or inferior construction techniques," Mr. Goodwin says.

He points out that power company engineers check to see that insulation is properly installed in adequate amounts. They also inspect wiring to assure that it provides at least 100 amp electrical service and that service outlets in living areas are spaced so that no point along the floor line of a wall is more than six feet from an outlet. In the kitchen, outlets must be provided for every four feet of counter work surface.

Fixed or switch-controlled electric lighting is required in every room of the home including stairways, hallways, walk-in closets, and garages. Medallion standards also call for the installation of an electric range and at least three other major electric appliances.

"With so many rigid construction and performance requirements on a Medallion Home, there is little risk for either the home buyer or lending institution," Mr. Goodwin says.

MARY WASHINGTON'S

Baking Fun

DELMARVA HOMEMAKERS, whose troops are back at school, now have baking time for the production of such favorite hot breads as Spoon Bread, Hush Puppies and Corn Muffins. They make perfect Indian Summer companions for Virginia Ham, Maryland Crabmeat, and Delaware Chicken dishes.

Here are three time-tested recipes for these corn bread favorites:

SPOON BREAD

2 cups milk 1/2 teaspoon salt
1 cup enriched Washington Self-Rising Corn Meal 2 tablespoons butter or margarine
2 eggs, well beaten

Heat 1 1/2 cups milk. Mix corn meal and salt with remaining cold milk; add to hot milk; cook over low heat, stirring until thick and smooth; cover and cook about 10 minutes longer. Remove from heat; add butter; allow to stand about 10 minutes, stirring occasionally. Add eggs, mix well; pour into well-greased 1-quart casserole. Bake at 375° F. (moderate) oven 30-35 minutes. Makes about 4 servings.

HUSH PUPPIES

1 egg 1 1/2 cups enriched Washington Self-Rising Corn Meal
2/3 cup milk 1/2 cup finely minced onion (optional)

Beat together egg and milk. Add corn meal; stir until smooth; blend in onion. Drop by teaspoons into deep fat preheated to 375° F. Cook until browned on both sides. Drain on absorbent paper. Makes about 24 hush puppies.

CORN MUFFINS

2 cups enriched Washington 1 egg
Self-Rising Corn Meal 1 cup milk
1 tablespoons sugar (optional) 2 tablespoons liquid shortening
Combine corn meal and sugar. Beat egg, milk and shortening together; add to dry ingredients; stir until just blended. Fill greased muffin pans two-thirds full. Bake in a 425° F. (hot) oven 15-20 minutes. Makes about 12 muffins.

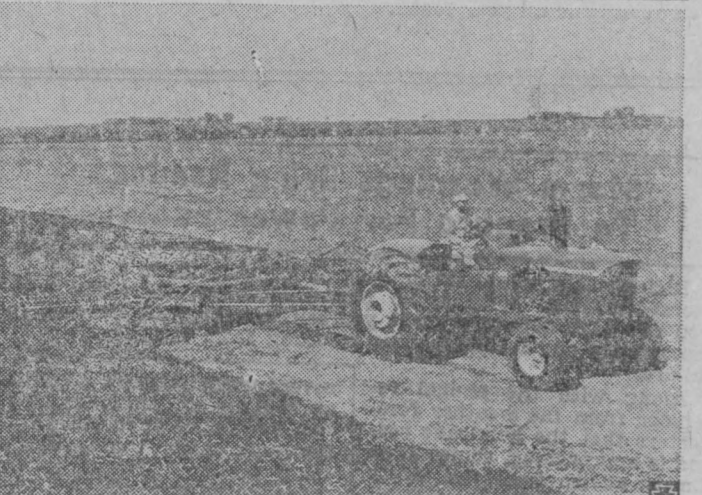

A valuable addition to any kitchen library is the 40 page book containing these and dozens of other recipes which may be obtained free of charge by writing Mary Washington, 3261 K Street, N.W., Washington 7, D. C. If you have any baking questions, send them along and they will be answered in future columns.

KITCHEN HINTS

For cutting a freshly baked layer cake in two, use a thin string, saw fashion. This saves crumbling and breaking. . . . For a simple, low calorie cake frosting, place a paper doily on top of cake and sift confectioner's sugar over pattern, coating fully. Carefully remove doily, and a lovely lace design appears. . . . Packing a pre-foam game luncheon? To carry deviled eggs, fit two halves together, wrap in waxed paper, and twist ends. . . . Make tea treats from pastry scraps. Roll out thin, sprinkle with cheese or a sugar cinnamon mix. Cut into fancy shapes and bake 475° F. (very hot) about 5 minutes. . . . If your refrigerator does not have a hydrator, store fresh fruits and vegetables in plastic bags. They will keep fresh much longer.

First 100-HP Tractor

Farmers Hike Horsepower
70% in Decade

The average horsepower size of farm tractors in the U. S. and Canada has jumped 70 per cent in the past ten years as farmers have turned to bigger, more productive machinery to ease effects of the cost-price squeeze.

The average size of all farm tractors shipped by U. S. manufacturers in 1961 was 51 horsepower compared to 30 horsepower just ten years earlier in 1951.

In 1951, of all wheel tractors shipped by manufacturers 88 per cent were under 35 horsepower. By last year these figures were reversed and 88 per cent were over 35 horsepower. In fact, in 1961, 33 per cent were over 60 horsepower and 15 per cent were over 70 horsepower.

There is no sign the demand for bigger tractors is slowing down. The first standard farm tractor ever to exceed 100-horsepower has just been developed by John Deere engineers. The 117-horsepower unit is roughly a third bigger than largest standard tractor available up to now. To transmit the huge power load efficiently, the largest farm tires ever built are being produced.

The bigger tractors permit farmers not only to handle larger equipment, such as the 27-foot wide double-action disk harrow shown above, but also have the power to permit farmers to work at faster field speeds.

Reindollar Bros. & Co.

"Mistress Mary, quite contrary, how does your garden grow?" "With appetizing edibles all in a row," might well be the answer to this old familiar nursery rhyme question. And you don't need a green thumb to cultivate this garden. Your own imagination and a pantry stocked with these two favorites, Nabisco Snack Crackers and Kraft Cheese Spreads will do nicely.

Pictured above are "flower pots" made from jars of assorted cheese spreads—such flavors as garlic, roka blue, pimento or smokelle. For the stems, use carrot strips—for the leaves, crisp green pepper slices. Assorted crackers attached to the carrot strips with cheese spread make up the flower petals—swiss 'n ham, french onion thins or bacon thins are but a few of the crackers you can try for this. The pompons are made by rolling small balls of pineapple spread in flaked coconut. Rosettes are made by piping olive-pimento spread onto the crackers. Nabisco and Kraft on your shelf, can keep this garden on your table all year round.

Storm Warnings Bring Reminder To Prepare For Power Failures

Riding out a severe storm, such as a hurricane, in a powerless, storm-blackened home is no picnic. However, there are steps you can take now to prepare yourself to cope with some of the discomforts and inconveniences resulting from storm-born power failures.

Along with the annual reminder from the weather forecasters that the hurricane season is approaching, comes some timely advice from the safety director of the Otto Bernz Company, Inc., Rochester, New York. You and your family will be better prepared for whatever the storms may bring if your home is equipped with the following storm-proof Bernz-O-Matic propane-gas operated appliances:

1. Lantern
2. Cookstove
3. Heater
4. Portable refrigerator

The propane lantern lights instantly by merely turning a valve and striking a match. The brilliant flame-fed light is fully protected by a heat-proof globe so that the lantern may be safely used outside, even in

severe winds. There's no filling or spilling of dangerous liquid fuel, no chance of flashbacks or flare-ups. Also, the fact that there are no batteries to run down means you can store your Bernz-O-Matic propane lantern indefinitely and it is always ready for instant use.

The cookstove and heater will also prove useful during emergency power failures which can stretch into days in severely hit storm areas. The portable refrigerator is ideal for keeping baby's formula safely cooled as well as protecting meat and other perishables during extensive electrical blackouts.

There's a built-in bonus, too, with all of these storm-proof appliances, points out the Otto Bernz spokesman. They are all ideally suited for use on family camping trips when the fair weather flags are flying.

Baked Chicken Served with Peas in Squash

These days nothing is what it seems—you can make a party dish from a few simple ingredients. The recipe here, for Golden Chicken, can be included in this category; it is made with an onion soup mix. The chicken stands in a marinade made with the soup, then is baked in the oven. It turns a beautiful golden brown, and has a rich onion flavored gravy made from the marinade. Peas in squash make an ideal accompaniment, along with sliced tomatoes on lettuce.

Golden Chicken

- | | |
|------------------------------------|-----------------------------------|
| 1 envelope Knorr golden onion soup | 2 tablespoons vinegar |
| 1 cup water | 1 (3 pound) broiler-fryer chicken |
| 1/4 cup corn oil | 1 tablespoon corn starch |

Empty soup mix into saucepan. Gradually stir in 1 cup water. Bring mixture to boil, stirring occasionally. Reduce heat; partially cover and simmer 5 minutes. Remove from heat; cool. Stir in corn oil and vinegar. Cut chicken into serving pieces and put into bowl. Spoon cooled sauce over chicken; cover. Let marinate in refrigerator at least 5 hours. Remove chicken from marinade and arrange in small roasting pan. Spoon a little marinade over chicken reserving remainder for gravy. Bake chicken in 350°F. (moderate) oven until tender, about 1 hour.

Remove chicken from pan; keep warm. Add all but 1/4 cup reserved marinade to pan gravy. Blend 1 tablespoon corn starch with the 1/4 cup marinade; stir into mixture in pan. Cook over medium heat, stirring constantly, until gravy thickens slightly and boils. Serve gravy over chicken. Makes 4 servings.
