SELP-HELP AGAIN STRESSED BY INTERNAL REVENUE SERVICE

The Internal Revenue Service during the 1963 income tax filing season will again stress self-help as its basic theme of taxpayer assistance, District Director Irving Machiz of the Balti-more District, which comprises Mary-land and District of Columbia, has announced.

"The self-help program has now been in effect about seven years," Mr. Machiz said, "and we believe that more and more taxpayers are becoming familiar with the requirements for sound preparation of Federal income tax returns." Essentially, self-help means that taxpayers complete as

means that taxpayers complete as much of their returns as possible before asking help from us. Most taxpayers can do the whole job after a careful reading of the form itself and its accompanying instruction booklet. We are still going to provide help to those who actually need it and we shall again stress our telephone assistance program, which will enable taxpayers with one or two problems. taxpayers with one or two problems to call us for a quick answer designed to enable them to complete preparation of their two completes are preparation of their two completes the complete preparation of the complete preparation to the complete preparation of the complete preparation to the complete preparation to com tion of their returns. Office assistance will be available where required but will naturally entail considerable more of the taxpayer's time.

The most important thing to the taxpayer in preparing a return or in seeking telephone or office assistance is to have all of his 1962 financial records at hand and to have all the necessary facts in mind. And again let me remind taxpayers that it will be much easier to prepare a return or to obtain any help needed early in the filing period, rather than wait-ing until the late stages of the season when telephone lines are jammed and offices are crowded ces are crowded.

If you have a tax problem, call your local Internal Revenue office. In Baltimore the telephone number is 837-1040. In Washington, REpublic 7-8750. Ask for Tax Information Service.

FIRST REPORTING OF NEWLY COVERED PROFESSIONAL GROUPS

If you're self-employed, the chances are your work is covered under the social security law. Be sure to show your social security account number on your Schedule SE when you file your income tax return. Remember the social security credits you get through your tax return now are important in getting future social security benefits. In Carroll County, for information on social security, contact your Social Security Representative at the County Office Building in Westminster or at the First National Bank, Taneytown. THE HUMAN NEED FOR LOVE

February is a cold, wintry month, but right in the middle of it comes a heart-warming day which is as welcome as a breath of spring. We mean, of course, St. Valentine's Day, when we express tender thoughts of affection to those we love. Romantic val-entines embellished with hearts, cupids and flowers, convey the wonderful message: "I Love You." Whether the valentine we send or receive is beautifully decorated and expensive or one of the penny variety, the senti-

ment of love is the same.

There are, of course, different kinds of love other than the romantic type which is associated with St. Valentine's Day. Once, a long time ago, their lived a Man who exemplified love their lived a Man who exemplified love in its purest form. That Man was Jesus Christ, who lived, taught, and expounded it throughout His short earthly sojourn. In His Sermon on the Mount, the Golden Rule, and in answering questions put to Him, Christ stressed love for God and love for one another. He well knew the awesome power of love, and each individual's great need for it.

Today, scientists and doctors are discovering these self-same truths. They have found, for example, that a new-born child can actually waste away and die if it is denied love especially mother love. Lack of it stunts children psychologically, spirit-ually and physically, no matter how well-fed they may be are or how clean they are kept.

they are kept.

Before doctors and pediatricians realized the importance of babies' being loved, there used to be a shocking number of deaths among infants who entered hospitals and children's institutions. These institutions were badly understaffed, in many cases and attendants simply did not badly understaffed, in many cases and nurses and attendants simply did not have time to love or cuddle the babies under their care. Gradually, it began to be recognized that it was the absence of "mothering" the babies that was causing the high death rate.

Psychiatrists have found that lack of love during an individual's childhood is the main causative factor in

hood is the main causative factor in various emotional and mental illnesses. Hardened criminals and juvenile delinquents are almost invariably people who failed to receive the emotional warmth and attention which

they so badly needed as small children.
We may well conclude, then, that
love is the most important force in shaping our physical, spiritual and emotional lives. No one of us can ever give too much, or receive too much of it. More than any other emotion, it enriches the lives of both the giver and the recipient.

Well, Hochschild's down town is surely rushing Spring or trying to make believe that Spring is just around the corner with the lovely canopy over the entrance of Wisteria.

One hears so many people stating they are sick of Winter and much else and word comes from Florida that due to the weather many houses are being sold! Now, this to every Housewife.

Never, never wax stairs as Your Observer had a terrific fall last week and still feeling the affects as down the stairs I fell and that was the nearest to fainting in my entire life! The M. D. gave a prescription but that medicine was not a permanent cure as it just put me to sleep and that was all. No medicine can heal misplacements of the spine. I went down to the Chiropractor last eve-ning, Dr. Calvin Hornstein, 8 W. Madison Street, and in one adjustment, I felt relieved! And to think friends were going to drive out to California and take me with them, so they put off the trip until a later time when I can accompany them. Nice?

Folks, if you are contemplating on storm windows and doors combinations by all means first get the estimate of The Maryland Aluminum Sales Co., as their Baltimore Office is on Fayette Street, 2117-19 E. and they have three offices. they have three other offices — one in Frederick, Hagerstown and York, Penna. They are much more reasonable than any other company and the workmanship and hardware is perfection. When completed, it appears snug as a bug!

Don't ever have a tree removed without first calling the State Forester. Like that Poem by Kilmer "Only God Can Make A Tree" and I saved the one by calling him which is located at the dining room window -a Pussy Willow tree.

Man may plant a tiny tree but think of the years it takes to grow!
Hope you did not miss"The Telephone Hour" on TV. It was most beautiful and the theme music really have to make inquiries haunts me. When I made inquiries to that company as to the title, they refuse to give it to the public! And now that nice Jack Benny will have his own show on Broadway after all these years. He surely is young for his age as he will be 69 this month of February.

Many inquiries arrive asking me which car I prefer. All makes are good but there is truly "NOTHING LIKE AN OLDS" and the reason for this, the longer it runs, "THE SWEETER THE MOTOR BE-COMES!" Just buy one, one time and you will never desire any other make! Ladies, the new Spring style will e tight skirts and so many suits and dresses or three piece ensembles in Pastel shades. The hats are truly glamorous down at the Brager-Gut-man Millinery Salon. No other store in Baltimore can compare their buy-er with the one right there. And that as to style, glamour and prices!
As to that grand Koontz Dairy Co.

they now have the half gallon bottle with a dented impression so as you and you can hold the big bottle easier without it slipping from your fingers.

Nothing pleased me more than to read that the B & O will soon be rolling again with their new partners. No company of any railroad gave the service that the B & O gave! The fine polished employees on those trains were always out of this world no sooner than you would place your foot upon the stool at the step of the train. The colored Porter would grab your bag with his cheery, "Good-morning" and he would wipe off the bar before you grasped it to mount those steps. He would place your baggage for you in the compartment even if it was a day coach and you were not riding far. Then he would dust off the window sill. In the dining car all those employed right there would make you so comfortable and you felt like a Queen in your own train. The Finger-Bowl always fol-lowed the meal in the dining car with the slice of lemon and to this day, I love that service. The clean cars added so much to it all. I am only hoping that with the new partner that again the B & O will show this company the finer details as to travel-

ing long or short distances.

Have a grand week-end, Folks.
don't grumble about the weather for you cannot do one thing about it; only keep warm and dry. Until next week. D. V.

Faithfully, YOUR OBSERVER.

MEETING OF GIRL SCOUTS

During the month of January and the first half of February, Girl Scout Troop #1202 has been busy working on various projects. They have been working on the Dabbler Badge which they soon hope to receive. In earning this badge the girls made objects from clay, tin and wire. They also made puppets which they hope to present to a children's ward at one of the hospitals.

On January 13, the girls had a skating party at Rainbow Roller Rink. On the way home they stopped at the Twin Kiss for refreshments. The Troop would like to thank the Cambridge Rubber Co. for the check

THURSDAY, FEBRUARY 14, 1963 THE ROOF BLOWS OFF AGAIN

The President's \$98.8 billion budget proposal is not only the world's alltime largest in peace or war, but certainly the most fantastic. The anticipated \$11.9 billion deficit, however, falls a little behind breaking the record, being half a billion below the Eisenhower deficit of '59. As heretofore, Chairman Harry F. Byrd, of the Senate Finance Committee, and the best-informed budget analyst in the nation, is not impressed with the deficit estimate. His own projection is that spending will top \$100 billion and if the Kennedy tax cut is voted by Congress, the deficit will be \$14 of the Defense Traffic Management billion.

A year ago the President warned us that deficit spending could cause and supplies "demonstrated again, inflation. Today, his fear is of "a and most forcibly, that the railroads chronic deficit of inertia due to inadequate economic growth," which is port of military preparedness." apparently to be overcome by cutting taxes, paying Government workers still more money and hiring 36,500 forecast: "With President Kennedy more of them! By his own estimate, the President's goal is a debt of \$315,604,000,000.

In his message, the President reported specific progress in improving worker efficiency in Government bureaus: Three thousand employees now do the work of 17,000 in the Veterans' Bureau, a single Treasury employee now issues nearly three times as many checks and bonds as in 1953, another group processes a third more loans per worker, and so it goes. Millions have been saved, thousands of jobs eliminated. But we need 36,500 more Federal workers and a share of the \$4.5 billion increase sought for the year beginning July 1 to fill their fatter pay envelopes!

Few Americans will be bold enough to question the record-breaking peacetime defense request of \$52.2 billion, but there should be serious question of whether we should spend the better part of \$4.2 billion next year in trying to get to the moon before 1970. And it is high time for drastic cuts, instead of further increases in foreigr aid, and the controversial, paternalistic programs incubated and inflated in the Department of Health, Education and Welfare.

A budget calculated on confining spending to the limits of income would restore much of the sagging confidence in the Administration, Better yet, a budget that allowed a margin of \$2.4 billion first-year cost of the President's tax cut program, would have greatly improved chances of passage and inspired business with new hope and enthusiasm. And this could have been done.

But it was not to be. It remains for the Congress to protect those it represents from the clinging conviction of the White House gang that practically everything has a priceand that you can buy prosperity if you just spend enough.

FACTS AND OPINIONS

In the view of Vice-President Robert R. Gros of the Pacific Gas and Electric Company, the advertising man is not a "flashy, tricky, huckster intent on bamboozling the public." In a recent speech, as reported by Stanford Review, he declared that the advertising man has taught "us how to lead a better life and contributed enormously to our tastes, high standards, and general social improvement." Also, he added, "advertising is practiced out in the open for all to see and that shady or misleading advertising destroys its perpetrators."

Pay-TV is now in operation in a few localities on a limited scale. The hope of the backers is that ultimately it will become general. This week reports: "The economics of Pay-TV

are simple and staggering. A rosy hypothesis runs like this: suppose 10 million of today's 50 million TV sets were tuned in to a first-run movie at just \$1.50 apiece. The film would recoup \$15 million in one night. A super-spectacular like 'Ben Hur' or 'Cleopatra' might bring in \$40 or \$50 million in a single showing."

Chain Store Age says that clerkselling is making a comeback in some variety stores across the nation. A growing number of these stores are manning counters with sales specialists to sell higher-priced toiletries, jewelry, appliances, sofas and dresses. Thus, the magazine observes, in certain variety store lines the pendulum is swinging back to clerk selling, after almost 20 years of selfselling and self-service.

It's easy to be a hero when you can bring help in emergencies as quickly as the telephone can.

Even so, we hope you won't have to call on your phone for more than small acts of heroism. Like finding a lost dog. Or changing plans at the last minute.

It is reassuring to know, though, that when seconds count ... you can count on your phone.

It's a built-in value of low-cost telephone service.

CURRENT EVENTS FIFTY YEARS AGO

Wednesday night was the coldest this winter, by about six degrees. Mrs. Upton Birnie of Philadelphia is visiting her sister, Miss Ellen Galt. Stable Burned in Taneytown. An alarm of fire was sounded about 9 o'clock Wednesday morning which created big excitement until the Fire created big excitement until the Fire Company had the blaze under control, which was not until the stable belonging to Edward Kemper on York St. was practically destroyed. As the stable was only a few feet from the public school building, and not over twenty-five feet from a lot of small frame buildings, the Fire Company is entitled to the credit of saving a large amount of property as there was a pretty stiff breeze.

The weather report calls for several inches but we have that already. Wonder what the final realready. Wonder what the final report will be? Actually we have been rather fortunate with our "weather" around here. LEGISLATION IN THE HOUSE

Two weeks ago we commented on HB 225 introduced early in the session by Delegate Thomas Hunter Lowe of Talbot County. Since that time some of our readers have voiced objection at our evaluation. We have the utmost respect for the ability and integrity of Delegate Lowe and we feel that he has the best interests of his constituents in mind. We further feel that the Maryland Bar Association whose backing this proposal has acquired, has the same objective. Although the criticism of the opposition is creditable, we maintain that our previous evaluation is unchanged and until convinced to the contrary will remain so.

The Administration redistricting plan was introduced last Thursday in plan was introduced last Thursday in the Senate by Senator H. Winship Wheatley of Prince Georges County. The plan which carries the Governor's mandate would result in the realignment of two present districts. One district would be composed of Carroll, Howard, Anne Arundel and Calvert Counties. Prince Georges, St. Mary's and Charles Counties would comprise the Southern Maryland District. This weak formula was the latest attempt to solve the politicially vexing dilemna of creating a home for Maryland's new Congressman. It was drafted by an Administration appointed Committee of legislative leaders headed by Senator Wheatley.

The League of Women Voters who spearheaded a drive to bring to referendum the first redistricting bill passed two years ago by the General Assembly and defeated in a referendum last November indicated they would oppose this measure also.
"The proposed legislation," 'The proposed

League said, "shows disregard for the citizens of Maryland who believe in the basic principle of equitable representation."

Equitable representation is a mis-nomer as applied to the Administration's proposal. Population would range from 244 thousand per district to 609 thousand per district. This seems little different than the inequitable plan previously defeated. We feel that the scheme proposed

Senator Gude of Montgomery County would be more equitable and reasonable since it would unite geographical subdivisions of similar personalities and maintain a closer co-ordination to population. This Bill ordination to population. This Bill would add Carroll County to the Sixth (Western Maryland) District and remove metropolitan Montgomery County from this district. This plan, despite its superiority over other plans, is doomed to defeat by the Demo-cratic majority in the General As-sembly since this scheme would undoubtedly keep Western Maryland in the Republican column.

Public hearings on the redistricting bills have been set by the Senate

Judicial Proceedings Committee for next Wednesday. Senators Malkus of Dorchester County and Weant of Carroll County have introduced a reapportionment bill which they hope to plow through the General Assembly. In return for reducing their own delegations in An-napolis, the Senators want the larger Counties divided into legislative districts—a plan which they think would dampen the influence of political ma-chines and simultaneously eradicate the cohesive nature of the larger delegations.

The objective of the Senators is meritorious but would the medicine be worse than the disease? Machine control would, admittedly, be alleviated but would not parochialism flourish as a result. It would be impossible for the delegations to speak for the sub-division as a unit under the pro-

The scheme proposed by Senators Malkus and Weant would also crucify one member of their own delegation on the sacrificial cross. In summation the plan would be reapportionment without principle or purpose. Dr. Harry Bard, noted Maryland political scientist and educator, commented on the Bill with one well-chosen word, "ridiculous." With this apropos comment, could we say more in conclusion.

Tucker was commenting on the current program of Kiwanis International extension which began less than a year ago with the chartering of the Kiwanis Club of Tijuana, Mexico —first club outside Canada and the United States since Kiwanis International was organized in 1915. Present for the confer-ence was Canadian Prime Minister John Diefenbaker, a long-time Ki-wanian himself. Addressing the new club, which he visited during the period, he said, "This organization in our two countries (Canada and the United States), 260,000 strong, has builded for a closeness in friendship based on knowledge, not sentiment; based on a common recognition of the principles of freedom and their appli-

Further described was the planning of a central consolidated school in the southern part of the county on existing State Route 26 for the accommodation of senior high pupils of the southern part of the county. This project can also relieve county. This project can also relieve materially continued enrollment increase at the Westminster High School and is to be planned as a comprehensive school unit with emphasis on both academic, commercial and vocational offerings. The Board also acted to approve the planning of the Superintendent in connection with the Superintendent in connection with the modification of attendance areas in the Winfield-Woodbine-Mt. Airy

section so as to relieve over-crowding in the Winfield School and the possible transfer of junior high pupils from the existing junior high school at Mt. Airy to the senior high school. The Board directed that further consideration be given to these matters at the next regular meeting but that the Superintendent be authorized to discuss the planning with the County Commissioners at an early date.

The Board took action to award a vacated one-half year District Tuition Scholarship to Western Maryland College, involving the remaining part of the current college year, to John Elseroad of the Hampstead District.

AGRICULTURAL CENTER BOARD HOLDS MEETING

Directors of the Carroll County Agricultural Center met in regular session Thursday evening, February 8, to discuss future operations for the year ahead. While the governing Board of Directors were enthusiastic regarding the progress to date, they felt unanimously that the loyal people who have worked so hard and diligently through the years, should not rest on their laurels.

It is so necessary according to the Directors that all groups and organizations maintain their interest and continue to exert their influence to a further expansion of all facilities, so that the larger number of rural and urban people may operate more effectively.

No individual or group of individuals are ever able to stand still! They either go forward or backward. As a result of this enthusiastic feeling, many phases of the future, planned activities were discussed in much

First, on Saturday, April 6, the Seventh Annual Dinner Meeting will be held at the Center. An unusual program is being arranged for this occasion, which will be of interest to all the people of the County. The County Board expressed great interest in this annual occasion and felt that it is of vital importance to have a large representation; group of those people in the County who have done

so much to make the project a success.

The next big event will be the Chicken Barbecue Dinner, which will be held the same date each year in August. This year the date falls on Saturday, August 17. This occasion last year resulted in a huge success and the idea now is attracting many, many people on this celebrated oc-

Progress has been made and will continue to be made exactly in proportion to the enthusiasm that is maintained by all the individuals of the County who have their genuine purpose of making Carroll County a still better place to live, work and a happier environment for their children and their children throughout the golden years to come.

Vital Religion Lesson for February 17, 1963

Bible Material: Mark 7:1 through 8:26. Devotional Reading: I Corinthians 3:16-23.

THERE is a form of insanity in which the patient loves, not living human beings, but corpses. Only crazy people prefer dead things to living. And yet there are people so far from normal that they love dead religion rather

In fact, there is so much non-vita! religion in the world, so much dummy religion machine-made imitation of the real thing, that some people make the mistake of

Dr. Foreman supposing dead religion to be the only going variety, the only kind available, and so they can't be blamed for wanting no part of it.

Vital religion is big

In the time of Christ, Jesus had His troubles and struggles with men who had a dead sort of religion. His vital religion shocked them, even angered them. They couldn't understand it. or Him. and they didn't like Him. One difference between the Pharisecs' religion and the religion of Jesus, was that they were more concerned with trifles than with bigger things. They were very particular about matters that didn't matter. They were more particular about washing their hands and their dishes in certain prescribed ways, than about what went into their minds. At another time Jesus reminded them that they were so busy counting the little green herbs in their vegetable gardens that they neglected the greater things, such as justice and the love of God. Religion is vital when it is big, concerned with big ideas, duties, hopes. It is vital when it can rise above trifles and see things in true perspective. It is vital when it looks beyond the horizon to God's children everywhere! Non-vital, trifling, dead religion is nevertheless popular, always was. It is popular because

it is easy It is easy to memorize a set of rules and keep them-as can be done without much thinking-than it is to think out, maybe desperately, what is right to do in new situations and conditions. Jesus called the people who had this dead kind of religion hypocrites, and so they were. For anreligion is that there is a wide gulf betwen what the man says and what in his heart he really wants and prefers. In vital religion there is no such gap. What a man who has a genuine case of religion says, comes out of his heart. As Middleton Murry once said, "Jesus would rather be denied by a true man than con-fessed by a liar." Insincere religion is on the death-list because being the kind of thing it is, it can't live. Take two important activities, Bible reading and prayer, as an example. These are the source of life in true religion. The sincerely religious man will do what feeds and strengthens the faith within him, the insincere man, having no real heart-interest in God or his people, does not feed on the "bread of life," he does not seek God in prayer (unless he is scared to death). And of course his religion can't be

Vital religion faces forward

Another criticism Jesus made of the Pharisees was that they thought too much about tradition. All men, including true Christians, have more than a touch of this habit of looking backward. We all know people who have one smashing argument (they think!) for not doing something they plainly ought to do: "I've never done it before." Religion that keeps a memory book but no hope chest is not vital. It may be an interesting antique, a quaint skeleton; but it is not vital.

Tradition is not a bad thing in itself. BREADED SEAFOODS BOON TO BUSY HOMEMAKERS

The Fish 'n Seafood Parade has come to town! All over the country

The Fish 'n Seafood Parade has come to town! All over the country seafoods are plentiful and prices are low, so there's reason to celebrate. Their high-quality proteins, vitamins and minerals are priceless assets to good health and well-being.

Featured in this year's Fish 'n Seafood Parade are the popular convenience seafoods—frozen breaded fish sticks and fish portions (sold as "fillets," "cutlets," "burgers" or "steaks"), breaded shrimp and breaded scallops. These handy fish products are truly the fishing industry's gift to the busy homemaker—they're all ready for the oven, broiler or fryer, and some are even precooked. And there's no waste except the tails on the shrimp! Served simply, or dressed up with a sauce or dip, these frozen breaded seafoods are real time-savers.

SERVE WITH FESTIVE SAUCES

For six servings, use two packages of frozen breaded fish sticks or squares, breaded scallops or breaded shrimp. Prepare seafoods according to directions on package. Serve with one of the following sauces:

Deviled Egg Sauce

3 hard-cooked eggs 1/4 cup butter or margarine 1 large stalk celery, chopped 1 tablespoon finely chopped onion (optional)
1/4 cup flour

1/2 teaspoon prepared mustard Dash Worcestershire 1/4 teaspoon salt 1½ cups milk Chopped parsley 水系

Slice eggs; remove yolks and put through strainer or mash well. Melt butter in saucepan; add celery and onion and saute until celery is tender but not browned, about 5 minutes. Stir in flour and seasonings; slowly stir in milk and cook, stirring constantly, until mixture thickens and boils. Blend in egg yolks. Just before serving, carefully add egg-white rings. Serve over seafood; garnish with parsley.

Sour Cream Sauce

1 cup thick sour cream 2 tablespoons grated dill pickles 1 teaspoon liquid from dill pickles

1/2 teaspoon paprika 2 tablespoons minced parsley Salt to taste Cracked black pepper

Combine sour cream with dill pickle and liquid, paprika, minced celery and salt. Spoon over fish or shellfish, or pass separately. Just before serving, sprinkle with cracked pepper for a garnish.

Any balance shall be retained and paid to him upon his discharge. Your correspondent is thinking seriously of bringing Carroll County under the effect of this law.

As the law now stands, it is State Office Buildings, Baltimore;

Office of the Supervisors of Elections for their canvass. Since it is necessary for the canvassers of Carroll County to transport the ballots to the Courtroom in the Court House from the County Office Building under the present law, your correspondent feels Commission; Friday, February 22, that it would be more practicable to allow for the canvass to be held where the ballots are kept in the Office of the Supervisors of Elections and we will therefore amend Senate Bill 122 to apply to Carroll County.
