## SENIOR GIRL SCOUTS WORK AS NURSES' AIDES

During the first part of January, the Senior Girl Scouts of Taneytown Troop #723 completed six hours of orientation prior to becoming Junior Volunteer Nurses' Aides at the Annie M. Warner Hospital, Gettysburg. The course proved extremely interesting, not only to the girls, but also to the adults who accompanied them. Now the Scouts are actively engaged in their duties at the Hospital, working hard on Saturdays and Sunday evenings to get in their required 30 hours of duty. The girls make beds, clean units, sort linen, pass fresh drinking water, serve trays, feed certain patients, arrange flowers and answer lights.

The Junior Nurses' Aides are Joan Cassell, Marian Durham, Diana Fair, Robin Fair, Virginia Pink, Fay Hiltner, Carol Piezoni, Carol Remsburg, Nancy Wargny and Joan Clingan. Some of the girls may wish to take up nursing in the future, if so, their work as Nurses' Aides will certainly prove helpful in preparing them for it.

After the Scouts complete their 30 hours of work, they will receive their bar in the Community Service Program in Scouting.

## SELF-HELP AGAIN STRESSED BY INTERNAL REVENUE SERVICE

The Internal Revenue Service during the 1963 income tax filing season will again stress self-help as its basic theme of taxpayer assistance. District Director Irving Machiz of the Baltimore District, which comprises Maryland and District of Columbia, has announced.

"The self-help program has now been in effect about seven years," Mr. Machiz said, "and we believe that more and more taxpayers are becoming familiar with the requirements for sound preparation of Federal income tax returns." Essentially, self-help means that taxpayers complete as much of their returns as possible before asking help from us. Most taxpayers can do the whole job after a careful reading of the form itself and its accompanying instruction booklet.

We are still going to provide help to those who actually need it and we shall again stress our telephone assistance program, which will enable taxpayers with one or two problems to call us for a quick answer designed to enable them to complete preparation of their returns. Office assistance will be available where required but will naturally entail considerable more of the taxpayer's time.

The most important thing to the taxpayer in preparing a return or in seeking telephone or office assistance is to have all of his 1962 financial records at hand and to have all the necessary facts in mind. And again let me remind taxpayers that it will be much easier to prepare a return or to obtain any help needed early in the filing period, rather than waiting until the late stages of the season when telephone lines are jammed and offices are crowded.

If you have a tax problem, call your local Internal Revenue office. In Baltimore the telephone number is 837-1040. In Washington, REpublic 7-8750. Ask for Tax Information Service.

## FIRST REPORTING OF NEWLY COVERED PROFESSIONAL GROUPS

If you're self-employed, the chances are your work is covered under the social security law. Be sure to show your social security account number on your Schedule SE when you file your income tax return. Remember the social security credits you get through your tax return now are important in getting future social security benefits. In Carroll County, for information on social security, contact your Social Security Representative at the County Office Building in Westminster or at the First National Bank, Taneytown. For information about your income tax returns, contact your Internal Revenue Service Representative at the Post Office in Westminster.

C. Irvine Cather of Frederick has been appointed to the newly-created position of Marketing Manager for the Potomac Edison Company's Frederick district area, it was announced by John W. Morgan, District Manager. In this capacity, Carter will be responsible for implementing and directing over-all marketing activities of Potomac Edison here. Cather has been with Potomac Edison since 1960 and has served as technical representative for the electric utility company in Frederick since that time. He is a graduate of Virginia Polytechnic Institute and is a veteran of the U.S. Air Force. He resides with his wife and son at 215 Rockwell Terrace.

## THE HUMAN NEED FOR LOVE

February is a cold, wintry month, but right in the middle of it comes a heart-warming day which is as welcome as a breath of spring. We mean, of course, St. Valentine's Day, when we express tender thoughts of affection to those we love. Romantic valentines embellished with hearts, cupid and flowers, convey the wonderful message: "I Love You." Whether the valentine we send or receive is beautifully decorated and expensive or one of the penny variety, the sentiment of love is the same.

There are, of course, different kinds of love other than the romantic type which is associated with St. Valentine's Day. Once, a long time ago, their lived a Man who exemplified love in its purest form. That Man was Jesus Christ, who lived, taught, and expounded it throughout His short earthly sojourn. In His Sermon on the Mount, the Golden Rule, and in answering questions put to Him, Christ stressed love for God and love for one another. He well knew the awesome power of love, and each individual's great need for it.

Today, scientists and doctors are discovering these self-same truths. They have found, for example, that a new-born child can actually waste away and die if it is denied love—especially mother love. Lack of it stunts children psychologically, spiritually and physically, no matter how well-fed they may be or how clean they are kept.

Before doctors and pediatricians realized the importance of babies' being loved, there used to be a shocking number of deaths among infants who entered hospitals and children's institutions. These institutions were badly understaffed, in many cases and nurses and attendants simply did not have time to love or cuddle the babies under their care. Gradually, it began to be recognized that it was the absence of "mothering" the babies that was causing the high death rate.

Psychiatrists have found that lack of love during an individual's childhood is the main causative factor in various emotional and mental illnesses. Hardened criminals and juvenile delinquents are almost invariably people who failed to receive the emotional warmth and attention which they so badly needed as small children.

We may well conclude, then, that love is the most important force in shaping our physical, spiritual and emotional lives. No one of us can ever give too much, or receive too much of it. More than any other emotion, it enriches the lives of both the giver and the recipient.

—Zola Cantwell.

## "SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning  
A smile that shall last until the next day's dawning.  
I wish you health—life's greatest wealth;  
I wish you always near so that I may help to cheer  
Each future day and in some way—help to bring your happiness!

Well, Hochschild's down town is surely rushing Spring or trying to make believe that Spring is just around the corner with the lovely canopy over the entrance of Wisteria.

One hears so many people stating they are sick of Winter and much else and word comes from Florida that due to the weather many houses are being sold!

Now, this to every Housewife. Never, never wax stairs as Your Observer had a terrific fall last week and still feeling the affects as down the stairs I fell and that was the nearest to fainting in my entire life! The M. D. gave a prescription but that medicine was not a permanent cure as it just put me to sleep and that was all. No medicine can heal misplacements of the spine. I went down to the Chiropractor last evening, Dr. Calvin Hornstein, 8 W. Madison Street, and in one adjustment, I felt relieved! And to think friends were going to drive out to California and take me with them, so they put off the trip until a later time when I can accompany them. Nice?

Folks, if you are contemplating on storm windows and doors combinations by all means first get the estimate of The Maryland Aluminum Sales Co., as their Baltimore Office is on Fayette Street, 2117-19 E. and they have three other offices — one in Frederick, Hagerstown and York, Penna. They are much more reasonable than any other company and the workmanship and hardware is perfection. When completed, it appears snug as a bug!

Don't ever have a tree removed without first calling the State Forester. Like that Poem by Kilmer "Only God Can Make A Tree" and I saved the one by calling him which is located at the dining room window — a Pussy Willow tree.

Man may plant a tiny tree but think of the years it takes to grow! Hope you did not miss "The Telephone Hour" on TV. It was most beautiful and the theme music really haunts me. When I made inquiries to that company as to the title, they refuse to give it to the public! And now that nice Jack Benny will have his own show on Broadway after all these years. He surely is young for his age as he will be 69 this month of February.

Many inquiries arrive asking me which car I prefer. All makes are good but there is truly "NOTHING LIKE AN OLDS" and the reason for this, the longer it runs, "THE SWEETER THE MOTOR BECOMES!" Just buy one, one time and you will never desire any other make!

Ladies, the new Spring style will be tight skirts and so many suits and dresses or three piece ensembles in Pastel shades. The hats are truly glamorous down at the Brager-Gutman Millinery Salon. No other store in Baltimore can compare their buyer with the one right there. And that as to style, glamour and prices!

As to that grand Koontz Dairy Co. they now have the half gallon bottle with a dented impression so as you and you can hold the big bottle easier without it slipping from your fingers. Nice?

Nothing pleased me more than to read that the B & O will soon be rolling again with their new partners. No company of any railroad gave the service that the B & O gave! The fine polished employees on those trains were always out of this world no sooner than you would place your foot upon the stool at the step of the train. The colored Porter would grab your bag with his cheery, "Good-morning" and he would wipe off the bar before you grasped it to mount those steps. He would place your baggage for you in the compartment even if it was a day coach and you were not riding far. Then he would dust off the window sill. In the dining car all those employed right there would make you so comfortable and you felt like a Queen in your own train. The Finger-Bowl always followed the meal in the dining car with the slice of lemon and to this day, I love that service. The clean cars added so much to it all. I am only hoping that with the new partner that again the B & O will show this company the finer details as to traveling long or short distances.

Have a grand week-end. Folks, don't grumble about the weather for you cannot do one thing about it; only keep warm and dry. Until next week. D. V.

I am,  
Faithfully,  
YOUR OBSERVER.

## MEETING OF GIRL SCOUTS

During the month of January and the first half of February, Girl Scout Troop #1202 has been busy working on various projects. They have been working on the Dabbler Badge which they soon hope to receive. In earning this badge the girls made objects from clay, tin and wire. They also made puppets which they hope to present to a children's ward at one of the hospitals.

On January 13, the girls had a skating party at Rainbow Roller Rink. On the way home they stopped at the Twin Kiss for refreshments.

The Troop would like to thank the Cambridge Rubber Co. for the check for \$6.25 presented to us by Mrs. Melba Fair.
