A PAGE FROM YESTERYEAR

One hundred three years ago, the following notice appeared in the American Farmer. In light of the current deliberations concerning "Antrim," it is felt that this item might prove interesting. It is quoted for its contents of local color only, and has no bearing on the present negotiation.

"An Elegant Estate For Sale American Farmer, June, 1860

"The farm named 'Antrim Farm,' Carroll Co., Maryland, of Four Hundred and Fifty acres, with a splendid Painted Brick Mansion, 50x150 feet, including Back Buildings, with elegant Porticoes, Piazzas, and a large Observatory; two spacious barns and Stables, and every necessary Farm House, substantial and tasteful to correspond—rendering it one of the most beautiful and desirable residences in the State. The last five years the farm has been greatly improved, as the extraordinary increased crops have proved, unsurpassed by any farm of its dimensions.

"The State Chemist, in his last report, refers to it as one of the most elegant and productive estates in Maryland. This farm is susceptible of division, having in its eastern extremity a commanding position, a Dwelling, Barn, Stabling, Orchards, etc. The whole place abounds in all kinds of the choicest Fruits. Antrim possesses extensive Mountain Scenery and Landscape views of a finely cultivated and beautiful country. It has at this time a Turnpike and Plank Road passing near; a Daily Mail coach from Baltimore; one Railroad (finished) which opens a communication with Hanover to Philadelphia and Baltimore; another, to be finished in the course of a few months, opening a direct communication to Baltimore via Westminster. The time of travel on this road will not exceed two hours, and open to the City of Baltimore the rich productions of one of the most promising regions of country in our State—abounding in Lime, which can be purchased at ten cents per bushel; fine Farms; Flour Mills; a ready Market for Produce; Flourishing Town, with ample supplies for a populous county; Churches of various denominations; Colleges and Female institutions of high celebrity, Catholic and Protestant.

"Antrim will be sold with the Furniture, Stock, Farming Utensils, and growing crops at a reasonable price if desired.

"JAS. L. PIPER, Administrator, 'Antrim, Taneytown, P.O., Md.'"

Dickensheets Reunion

The fifteenth annual reunion of the descendants of the late Daniel and Sarah Dickensheets was held at the home of Mr. and Mrs. Kenneth Lambert, Taneytown, Md., on Sunday, July 14, 1963, with 42 members and one guest present. Basket lunch was enjoyed at 1 o'clock.

The business meeting was called at 2:30 P. M. by Kenneth Lambert, President. A few moments of silent prayer was observed in memory of our dearly beloved, Mr. John Eyer, who died on December 11, 1962. Mr. Herbert Ecker closed the prayer. The following officers were elected for the coming year: Kenneth Lambert, President; Catherine Putnam, Secretary; and William Winter, Treasurer.

The sixteenth annual reunion will be held at the Taneytown Memorial Park on the second Sunday in July, 1964.

The following persons were present: Mrs. Minnie Eyer, Fohnney-Keedy Home, Boonsboro, Md.; Mrs. Carrie Winter, Mr. and Mrs. William Winter, Hanover, Penna.; Mr. and Mrs. Edward Binkley, Judy and Joan, Stevens, Penna.; Mr. and Mrs. Herbert Ecker, Mr. and Mrs. Richard Bohn and Ricky, Mr. and Mrs. Lloyd W. Flickinger, Kim and Kris, G. Edwin Engel, Union Bridge, Md.; Mr. and Mrs. Eugene Miller and Eugene, Jr., Sykesville, Md.; Mr. and Mrs. Robert Carbaugh and Russell, Gettysburg, Penna.; Mrs. Lloyd R. Flickinger, Mr. and Mrs. Harold Armacost and Mike, Westminster, Md.; Mr. and Mrs. William Dickensheets, Mr. and Mrs. Norman Putman, Doris and Carl, Mr. and Mrs. Marvin Flickinger and Sheryl, Mr. and Mrs. Arthur Miller, Larry and Doris Mae, Uniontown, Md.; Mr. and Mrs. Kenneth Lambert.

While playing baseball last (Wednesday) evening in Fairfield, Pa., Graham Wildasin sustained a broken toe while sliding into third base. He was treated at Annie Warner Hospital, Gettysburg, and is now walking with the aid of crutches.

KIWANIS KLAXON

Crab Cakes with all the trimmings featured the dinner enjoyed by all, after which President Oliver Leakins turned the meeting over to the Program Chairman Dr. Charlie Hopkins who introduced Mr. Norman Huth, medical service representative of the A-H-Robins Co. Pharmaceutical Manufacturers of Richmond, Va.

Mr. Huth first impressed the club with the fact that "in the past 20 years there has been greater progress in medical research than in all the preceding centuries and given the green light to free enterprise the pharmaceutical industries will, perhaps within the next 20 years, provide the cure for cancer, leukemia, heart diseases and other medical mysteries not yet solved.

"However the dark shadow that hovers over and would limit the effectiveness of certain segments of our health team would be to convert them into governmental functionaries."

An Investigating Committee regard "profit" as a poison and we can't understand why, as the government takes it all anyway. Their proposal is to handicap or kill outright the research incentive by introducing legislation to reduce patent protection from 17 to 3 years which you instantly stop the flow of hundreds of millions of dollars of pharmaceutical research money as all spent would be irretrievably lost with only a 3-year marketing opportunity.

Likewise, the grant of autocratic power to a Secretary of Health, Education and Welfare to license and allocate generic names to drugs, which would not be subject to hearing or appeals, would not entice very many manufacturers to pioneer in research or medical development.

Government controlled medicine means poor medical service for all; medicine does not pay for surgical procedures, prescriptions, medicines or drugs of any kind administered outside the hospital, or for most doctors bills incurred in a hospital and it must be paid for through the Social Security System increasing withholding taxes on the wage earner who must provide for 40 per cent of the nation's income which pays no social security tax; therefore, the burden falls on the working folk, generally younger people with heavy family responsibilities.

To conclude, we do not care to cover our wounds or bandage our aches and pains with Government Red Tape, and to all those Congressmen and politicians who advocate government supervision of our aches and pains we prescribe a good old-fashioned horse-and-buggy doctor dose of ipecac. May we reserve the right to swallow the pills we like best and live to see the uninterrupted forward march of pharmaceutical and medical research for the welfare of humanity without the bungling intervention of publicity seeking politicians and government snoopers.

SCOUTS PLAN PAPER DRIVE SATURDAY IN TANEYTOWN

The bi-monthly collection of rags, magazines and newspapers will be conducted Saturday, July 20, by Boy Scouts of Taneytown Troop 348, which is sponsored by Hesson-Snyder Post 120 of the American Legion. Besides Taneytown itself the roads to Mayberry, Copperville, Crouse's Mill, Bridgeport and the Baptist Road to Starner's Dam will also be covered. Bundles tied securely are most appreciated, but Scouts gladly fetch from basement or attic if their attention is called to this need while the drive is in progress. Should the weather prove unfavorable, a new date for the collection will be published.

Scouts able to help with the scrap collection on Saturday are requested to report promptly by 7:30 A. M. In the event of rainy weather, a new date will be chosen and published.

ECLIPSE OF THE SUN JULY 20, AT 5:50 P. M.

The solar eclipse on July 20 will be "a most marvelous sight" but can also be dangerous to the spectator who views it with the unaided eye, cautions Paul S. Watson, curator of astronomy at the Maryland Academy of Sciences.

Although, for the United States, the eclipse reaches totality only in portions of Alaska and Maine, a partial eclipse will be seen over the entire North American continent — reaching 83 per cent of totality in the Maryland area at about 5:50 P. M., Eastern Daylight Time.

"Thousands of persons will want to see the eclipse," Mr. Watson said, "but they should remember that the sun can instantaneously burn the eye and cause blindness.

"Never look directly at the sun with the unaided eye and particularly through any optical devices — even the view finder of a camera.

"There are two points to remember for proper eye protection: reduce the brightness of the sun for comfortable viewing and reduce the unseen energy of the sun (ultraviolet and infrared radiations) which can damage the eye without your knowledge.

"The sun's surface brightness is not reduced as the eclipse progresses. The total light is less, but any particular area on the exposed part of the sun is just as bright as it is under normal circumstances," Mr. Watson said.

For viewing without telescope, ordinary sunglasses are not sufficient, he pointed out. One safe method is to expose a roll of black and white film and have it developed to maximum intensity.

For those who do not want to go through the trouble of exposing and developing film, the Academy of Sciences will have film filters available at 15c each. The Academy is located on the third floor of the Enoch Pratt Free Library.

"The film, however, should not be used with any instrument," Mr. Watson said. "If it is held at the eye end of a telescope directed at the sun, the heat from the concentrated beam can instantly burn a hole in it, severely damaging the viewer's eye.

"The best method with an instrument is to view the sun by projection onto a piece of white paper or cardboard," he said.

In describing the total eclipse, Mr. Watson said that "first contact occurs when the moon, in its eastward motion, seems to touch the edge of the sun. A bite appears to be taken from the sun and this grows larger as the eclipse progresses.

"In about a half hour, when half the sun is covered, images of the sun on the earth, formed by small apertures such as the interstices between the leaves of trees and shrubs, change from their usual circular shape to narrowing crescents. Under every tree, instead of the usual round spots of light, are found hundreds of little crescents.

"In those areas where the eclipse is total, the landscape becomes perceptively darker about a half hour before totality and the sky assumes a weird color, because the light coming from the edge of the sun is of a different quality from the central rays.

"A few seconds before totality, a favorably situated observer may see the moon's shadow in the air, appearing as a vast blue-black thunderstorm rushing with great speed upon the observer. The thin remaining crescent of the sun suddenly breaks up into a number of brilliant points of light called 'Baily's Beads.'

"The suddenness of darkness is startling; it seems as if someone has pulled the shade down or turned off the electric light. It is night and the stars and brighter planets may be seen."

Totality will last for about a minute and the darkening process will be reversed, he added.

In Baltimore, the eclipse will begin exactly at 4:42 P. M. At that moment a tiny notch will be observed on the western edge of the sun which will slowly increase until 5:50 P. M. when 83 per cent of the sun's apparent diameter will be covered by the moon. The eclipse will be over at 6:51 P. M.

Softball Game Tonight!

Tonight (Thurs.) at 6:30 P. M., the high school field will be the scene of the softball game between Keysville Lutheran Church and Trinity Lutheran Church, Taneytown.

Harry Dougherty, Jr. and Dean Brown, co-coaches of Trinity's team, are anxious to schedule games with teams from other churches in the area.

"SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth;
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Driving up last Tuesday through Carroll County and the day being an ideal one, enjoyed every minute of it. "Them 'Thar Hills,' Folks gets under your skin that once you have lived in these parts you desire to go back if you ever move away. The rolling view before you is thrilling and you find yourself saying, "Thank You, God!" Then upon the entrance of the little town which is such a clean, neat affair for blocks and blocks, you wonder why every little town does not appear just like it. All the exterior of the homes and lawns are beautifully kept and there was so much vivid coloring. The Hydrangeas seemed to stand way out and their beauty was so impressive that it all appeared as in paintings.

The first place I stopped was, "The Carroll Record Office." I was surprised to see the new Beauty Salon right next door. And to that one, "Best Wishes!" It seems there are never too many Beauty Salons regardless of the size of the town for women are getting more beautiful every day. More power to them. Eh?

I quickly went around to the little lady who would have made a grand Judge. Never have I read any more beautiful letters than she writes me. Am sorry I did not get a chance to return later in the afternoon.

Then, I called upon the Pharmacist and was I surprised to be introduced to his nice son whom I had not seen since he was a little boy. What a grand drug store for the size of the town! Wonderful is the word! And I observed of all things that sign of S & H Green Stamps for each purchase! Who does not save those stamps these days? I have gotten such lovely things with just one book at a time for I am so enthusiastic about the gifts that I can't wait to save more than one at a time! I have a beautiful pink shelf (double) in my kitchen, A TV flowered black tray on brass stand, a big vacuum bottle with the top to be used as a cup! A handsome blue and 22 kt. gold bonbon dish, a three-piece bowl set with glass covers of pink, also; towels, a handsome white gold pin and many other items and all for one book apiece! There was that nice mother at the soda counter whose daughter I wanted for my very own! Remember?

From there I went into Dougherty's Grocery Store and had a nice chat with the Mr. and Mrs. How wonderful it will be when they are located in the new quarters farther up the road. Stopped to say, "Hello" to the Butcher Boy and his father and was surprised to find that he is not a "Butcher Boy" anymore and is now living in Hanover, Pa. Well, I recall that he did not like the Butcher Business anyway just like the farmer in Carroll County who had a son who did not want to be a farmer as he was talented for interior decorating and that is what he studied.

When I went into the five and dime was so sorry to learn of the illness of my nice chubby friend who has not been in the store for six weeks or more. My best wishes and prayers for her!

I was disappointed not seeing that nice lady in the "Ma-da-Sha" store which is one of the sweetest places of that type of a shop I have ever been in. One can see the character right in those surroundings. It is so charming and I observed the lovely pieces of furniture and much else. A sweet young girl greeted me who had talent plus.

I dropped by to see Mr. Crouse of "The Ford Show Room" and his son greeted me instead and that boy, too I recall when he was a tiny fellow. Mr. Crouse was away for a few days.

Turning the car Northward, I drove up to have lunch at that nice place next to Chevrolet and the meal could not have been more tasty. They have a "special" each day and it was Ummmmmmmm good! The price was most reasonable.

I walked into the Chevrolet Auto Co. and met Mr. Lowry. Chevys are wonderful and that all down through the years! Their value always remains sky high which anyone can tell you. Good luck, Mr. Lowry, but I did wish that for you when I shook hands.

On the way back, I of course had to get a Twin Kiss from Ed and his son and that was the finest Kiss of any I have tasted for it had more body to it.

The hours just flew but I enjoyed every minute of it and I felt—oh—so at home with the grand welcome from each one!

Have a grand week-end, Folks. Until next week-end D. V.

I am,

Faithfully,

YOUR OBSERVER.

"GRASS ROOTS OPINIONS"

MILES CITY, MONT., STAR: "The Administration's failure to solve the unemployment problem is being used as a potent argument on Capitol Hill for rejection of many of President Kennedy's legislative proposals and for greater reliance upon the private enterprise system. Opponents contend that all such problems can best be dealt with at the local level and that the best contribution the federal government can make is to moderate — in the right way — the present confiscatory tax system and permit private enterprise to function effectively."

ASHLAND, ORE., TIDINGS: "The old standards for observing eclipses of the sun—sun-glasses, smoked glass or exposed photographic film—should never be used. They are unsafe. There have been numerous cases of eye damage. . . . Use a simple device made by punching a tiny round hole in a sheet of cardboard so the sun's (rays) can be focused through the hole onto another piece of (white) cardboard. . . . Look only at the reflection on that second sheet."

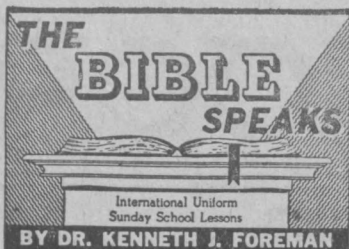

GREENSBURG, IND., TIMES: "Millions of tax dollars that are now going into research projects to study the family life of monkeys, crawdads and cockroaches might better be diverted to practicable training for young men who will be desperate for jobs next year."

EUSTIS, FLA., LAKE REGION NEWS: "Perhaps the mantle of Hero hangs heavy on the shoulders of our Astronauts. We know they are concerned with greater things than making speeches or public appearances. Or acting as a 'shot in the arm' to the citizenry. But please, our gallant Astronauts, let us have our Heroes. We need you. Our nation needs the vision of your courage and far sightedness. Our children need the image of such men as you. . . strong, straight, unafraid and God-fearing."

RIVERTON, WYO., RANGER: "The desire to govern themselves still burns in the hearts of the Indian people. A few weeks ago the general membership of the Arapahoe Tribe voted to reject a proposal that the federal government take over law enforcement on the Wind River Indian Reservation. The Arapahoes said they wanted to pay for their own law enforcement costs. They in effect rejected the idea that all that which springs from Washington is better than (that) which has local roots. They turned their backs on the idea that if it comes from Washington, it's free."

DALLAS, PA., POST: "The reason that girl drivers have fewer accidents than boys, is that girls care about their faces. . . . A boy has to show the world that he can beat that car up ahead before it reaches the crest of the hill. Nobody wants a boy to be a pantywaist. Nobody wants him to lack self-confidence. But it is too much to ask of him that he refrain from committing suicide. . . . And that he give some small thought to the young girl at his side, the girl who, as a helpless passenger, may be disfigured for life."

BLUE HILL, ME., WEEKLY PACKET: "The Constitution gives the federal government no authority to provide aid to education; no authority for Social Security; no authority for socialized medicine; no authority for ownership of private businesses; no authority for a list of government activities that could be extended to the hundreds."

Where Are You?

Lesson for July 21, 1963

Bible Material: Genesis 3 through 11.
Devotional Reading: Romans 5:12-21.

THE Bible might very well begin with an essay on sin; but it does not. It begins with two stories, one of Creation and the next of Sin. Stories, not essays, make up most of the Bible, and this is a good thing. What Christian students of the Bible have been discovering in their re-study of these ancient stories is that the point is: THIS MEANS YOU! The name Adam means Man, and the name Eve means Life. There is something very suggestive about this. Anyway, if we think of these stories as only legends out of the dim past, just stories to tell around campfire and hearth, we misjudge them. If we argue about when all this was, and should we take these stories literally or as parables, we are still off the beam. What we need to do is take the stories to heart.

Dr. Foreman

Anatomy of sin
One great thinker in the Christian church has said, Everybody's middle name is Adam. What he meant was, the story of Adam is the story of every man. The story of Adam's sin is the story of Everyman's sin. The cause, the course, the cruelty, the consequences, and the cure of sin are all here. But the central fact about sin, the really dreadful thing about it, is brought out by that fateful question that God puts to Adam, frightened Adam, silent Adam, hiding from the God whose questions must be answered.

Where are you? God asks. Now it is not hard to see that this question was not asked out of God's ignorance. God knew very well where Adam was, he knows where we all are. God asks the question to make Adam think: he had lost contact with God. God should not have had to look for him. He should have run joyfully to meet the God who had done him good and not evil. Instead, he is in hiding, friendless, useless and afraid.

Sin cut us off
That is essentially what sin is: being cut off. Adam was now separated from his Maker, out of harmony with him. He had given up trying to do what God wanted him to do. God's interests are no longer his interests. The likeness to God (about which we were thinking a week ago) is beginning to grow dim, so that not long after that—and right on up to now—there are descendants of the first man who look so cruel and are so wicked that any one in his right mind would say, If that's the image of God, I don't want any part of it. Adam was cut off in other words not only from God but from himself, his best self. Further, he was cut off from his wife. The story in Genesis tells of the joyful words of welcome when Adam sees Eve for the first time. Paradise, for both of them, is complete only when the other one, the loved one, is there to share it. Now all is changed. Adam's only word about his wife is—"The woman Thou gavest me, she gave me the fruit" . . . It's all God's fault for sending Eve, or it's all Eve's fault for tempting him, it couldn't be his own fault, oh no! When you get to the point where you won't take responsibility for your own acts, when you blame everyone but yourself for your sins and your troubles, then you have really broken off relations with the human race.

The solemn question
The first question God asks of man rings like a solemn warning bell in the heart of every one some time or other. Where are you? You are here now, at this moment; but you are wherever you act, you are wherever things happen—or fail to happen—because of you. Someone perhaps might have believed in God if it had not been for you. You are there in that person's despairing cynical mind. Where are you? Results of what you say, what you do, never stop with the saying and doing. Like stones thrown into a pond they create ripples that spread to distant shores. If an old man could realize all the evil that he caused during his lifetime, the burden of it would be overpowering. Yet there is another and a happier side. God's question, Where are you? reminds us that God does care what we do. He does not easily give up. He seeks men in their dark hiding places. If He demands obedience and punishes suffering, and He does, it is a sign of hope; for it shows that God takes human lives seriously; He is not content to let men go.

How to expand your laying flock ... without building a new house

Sounds impossible, but hundreds of poultrymen have doubled or tripled the size of their cage layer operations—without building a single square foot of new floor space! They do it by modernizing the old house according to plans supplied by Purina.

Part of the secret is in the ventilation system that keeps inside temperatures comfortable summer and winter. But the whole idea of high bird density and controlled environment works because all factors were taken into consideration.

If you're thinking about increasing the size of your laying flock, we'd suggest you stop by for more facts on the Purina Cage Egg Factory.

BASEBALL

A walk and two passed balls paved the way for a 2-1 victory as Taneytown edged Arendtsville in a playoff game for the first-half South Penn Sandlot League championship Saturday night under the lights at Littlestown.

Taneytown went into the bottom of the seventh trailing 1-0. A single and an error sandwiched around an infield out gave the Carroll Counts a run to knot the score.

In the eighth inning, Taneytown pitcher Art Caple drew a walk and advanced to third on two passed balls. A clean single brought him home with what proved to be the winning run.

Caple and Arendtsville's Dick Pitzer both pitched well. The two clubs had ended first-half competition with identical 9-2 records. Neither lost a game by more than two runs and Saturday's narrow victory for Taneytown kept this record intact.

A fair summary of each ordinance shall be published at least twice in a newspaper or newspaper having general circulation in the municipality. 41. (Budget.) The Mayor, on such date as the Council by ordinance shall determine, but at least thirty-two days before the beginning of any fiscal year, shall submit a budget to the Council. The budget shall provide a complete financial plan for the budget year and shall contain estimates of anticipated revenues and proposed expenditures for the coming year. The total of the anticipated revenues shall equal or exceed the total of the proposed expenditures. The budget shall be a public record in the office of the Clerk-Treasurer, open to public inspection by anyone during normal business hours.

42. (Budget Adoption.) Before adopting the budget the Council shall hold a public hearing thereon after two weeks notice thereof in some newspaper or newspapers having general circulation within the municipality. Provided that the tax on real and personal property shall not exceed ninety cents (\$.90) on a hundred dollars of assessed valuation. Provided further that this limitation upon the tax levy shall have no application to any tax levied for the purpose of paying the principal and interest on any outstanding bonds of the City, whether issued before or after the adoption of this charter. (Laws of Maryland 1955, Ch. 101.)

50. (Notice of Tax Levy.) This bill or account shall contain a statement of the amount of real and personal property with which the taxpayer is assessed, the rate of taxation, the amount of taxes due, and the date on which the taxes will bear interest. 51. (When Taxes are Overdue.) The taxes provided for in Section 49 of this Charter shall be due and payable the first day of July in the year for which they are levied and shall be overdue and in arrears on the 15th day of the following August. Such tax anticipation notes or other evidences of indebtedness shall be a first lien upon the proceeds of such tax and shall mature and be paid not later than six months after the beginning of the fiscal year in which they are issued. No tax anticipation notes or other evidences of indebtedness shall be issued which will cause the total tax anticipation indebtedness of the City to exceed fifty per centum (50%) of the property tax levy for the fiscal year in which such notes or other evidences of indebtedness are issued. All tax anticipation notes or other evidences of indebtedness shall be authorized by ordinance before being issued.

The Council shall have the power to regulate all matters concerning the issuance and sale of tax anticipation notes.

56. (Authorization to Borrow Money.) The City shall have the power to borrow money for any proper public purpose and to evidence such borrowing by the issue and sale of its general obligation bonds in the manner prescribed in sections 81 to 87, both inclusive, of Article 23A of the Annotated Code of the Public General Laws of Maryland (1957 edition, as amended), title "Municipal Corporations," subtitle "Creation of Municipal Public Debt."

The power and obligation of the City to pay any and all bonds, notes, or other evidences of indebtedness issued by it shall be unlimited and the City shall levy ad valorem taxes upon all the taxable property of the City for the payment of such bonds, notes, or other evidences of indebtedness and interest thereon, without limitation of amount. The faith and credit of the City is hereby pledged for the payment of the principal of and the interest on all bonds, notes, or other evidences of indebtedness, hereafter issued under the authority of this Charter, whether or not such pledge be stated in the bonds, notes, or other evidences of indebtedness, or in the ordinance authorizing their issuance.

58. (Previous Issues.) The Clerk-Treasurer shall be required to advertise for sealed bids, in such manner as may be prescribed by ordinance, for all such written contracts. Such written contracts shall be awarded to the bidder who offers the lowest or best bid, quality of goods and work, time of delivery or completion, and responsibility of bidders being considered. All such written contracts shall be approved by the Council before becoming effective. The Clerk-Treasurer, upon approval by the Council, shall have the right to reject all bids and readvertise. The City may at any time in its discretion employ its own forces for the construction or reconstruction of public improvements without advertising for (or readvertising for) or receiving bids. All written contracts may be protected by such bonds, penalties, and conditions as the City may require.

WATER AND SEWER

73. (Powers.) The City shall have the power:

(a) To construct, operate and maintain a water system and water plant.

(b) To construct, operate, and maintain a sanitary sewerage system and a sewage treatment plant.

(c) To construct, operate, and maintain a storm water drainage system and storm water sewers.

(d) To construct, maintain, reconstruct, enlarge, alter, repair, improve, or dispose of all parts, installations, and structures of the above plants and systems.

(e) To have surveys, plans, specifications, and estimates made for any of the above plants and systems or parts thereof or the extension thereof.

(f) To do all things it deems necessary for the efficient operation and maintenance of the above plants and systems.

74. (Placing Structures in Public Ways.) Any public service corporation, company, or individual, before beginning any construction of or placing of or changing the location of any main, conduit, pipe, or other structure in the public ways of the City, shall submit plans to the City and obtain written approval upon such conditions and subject to such limitations as may be imposed by the City. Any public service corporation, company, or individual violating the provisions of this section shall be guilty of a misdemeanor. If any unauthorized main, conduit, pipe, or other structure interferes with the operation of the water, sewerage, or storm water systems, the City may order it removed.

75. (Obstructions.) All individuals, firms, or corporations having mains, pipes, conduits, or other structures, in, on, or over any public way in the City or in the County which impedes the establishment, construction, or operation of any City sewer or water main shall, upon reasonable notice, remove or adjust the obstructions at their own expense to the satisfaction of the City. If necessary to carry out the provisions of this section, the City may use its condemnation powers provided in Section 89. Any violation of an ordinance passed under the provisions of this section may be made a misdemeanor.

76. (Entering on Public Ways.) The City may enter upon or do construction in, on, or over any county public way for the purpose of installing or repairing any equipment or doing any other things necessary to establish, operate, and maintain the water system, water plant, sanitary sewerage system, sewage treatment plant, or storm water sewers provided for in this Charter. Unless required by the County, the City need not obtain any permit or pay any charge for these operations, but it must notify the county of its intent to enter on the public way and must leave the public way in a condition not inferior to that existing before. The City may repair or remove the utility pipe lines, or parts thereof, or their connections or and under the surface of all the public ways within the corporate limits of Taneytown without the necessity of any other authority or permission than is hereby given, provided, however, that if any such public way be a State Highway, the work shall be done to the satisfaction of the State Roads Commission, and the entire cost of replacing the State Highway in as good a condition as before shall be paid by the City.

77. (Connections.) The City shall provide a connection with water and sanitary sewer mains for all property abutting on any public way in which a sanitary sewer or water main is laid. When any water main or sanitary sewer is declared ready for operation by the City, all abutting property owners after reasonable notice shall connect all fixtures with the water or sewer main. The City may require that, if it considers existing fixtures unsatisfactory, satisfactory ones be installed and may require that all cesspools, sinkdrains, and privies be abandoned, filled, removed or left in such way as not to injure public health. All wells found to be polluted or a menace to health may be ordered to be abandoned and closed. Any violation of an ordinance passed under the provisions of this section may be made a misdemeanor.

78. (Charge for Connections.) The City may make a charge, the amount to be determined by the Council, for each connection made to the City's water or sewer mains. This charge shall be uniform throughout the City, but may be changed from year to year. Arrangements for the payment of this charge shall be made before the connection is made.

79. (Improper Uses.) In order to prevent any leakage or waste of water or other improper use of the City's water system or sewage disposal system, the City may require such changes in plumbing, fixtures, or connections as it deems necessary to prevent such waste or improper use.

80. (Private Systems.) The City may by ordinance provide that no water supply, sewerage, or storm water drainage system, and no water mains, sewers, drains, or connections therewith, shall be constructed or operated by any person or persons, firm, corporation, institution, or community, whether upon private premises or otherwise, and may provide that cesspools or other private methods of sewage disposal shall be operated and maintained in such a manner that they do not and will not be likely to affect adversely the public comfort and health, and any cesspool or other private method of sewage disposal affecting or likely to affect adversely the public comfort and health may be deemed a nuisance and may be abated by the City. Any violation of an ordinance passed under the provisions of this section may be made a misdemeanor.

81. (Extensions Beyond Boundaries.) The City shall have the power to extend its water or sewerage systems beyond the City limits, and may make such charges for this service as it may deem reasonable and proper.

82. (Right of Entry.) Any employee or agent of the City while in the necessary pursuit of his official duties with regard to the water or sewage disposal systems operated by the City shall have the right of entry, for access to water or sewer installations, at all reasonable hours, and after reasonable advance notice to the owner, tenant, or person in possession, upon any premises and into any building in the City or in the county served by the City's water or sewage disposal system. Any restraint or hindrance offered to such entry by any owner, tenant, or person in possession, or the agent of any of them, may, by ordinance, be made a misdemeanor.

83. (Pollution of Water Supply.) No person shall do anything which will discolored, pollute, or tend to pollute any water used or to be used in the City Water supply system. Any violation of the provisions of this section shall be a misdemeanor.

84. (Contracts for Water.) The City, if it deems it advisable, may contract with any party or parties, inside or outside the City, to sell or obtain water or to provide for the removal of sewage.

85. (Charges.) The City shall have the power to charge and collect such service rates, water rents, ready-to-serve charges, or other charges as it deems necessary for water supplied and for the removal of sewage. These charges are to be billed and collected by the Clerk-Treasurer, and if bills are unpaid within thirty days, the service may be discontinued. All charges shall be a lien on the property, collectible in the same manner as City taxes or by suit at law.

SPECIAL ASSESSMENTS

86. (Power: Special Assessments.) The City shall have the power to levy and collect taxes in the form of special assessments upon property in a limited and determinable area for special benefits conferred upon such property by the installation or construction, of water mains, sanitary sewer main, storm water sewers, curbs, and gutters and by the construction, and paving of public ways and sidewalks or parts thereof, and to provide for the payment of all or any part of the above projects out of the proceeds of such special assessment. The cost of any project to be paid in whole or in part by special assessment may include the direct cost thereof, the cost of any land acquired for the project, the interest on bonds, notes, or other evidences of indebtedness issued in anticipation of the collection of special assessments, a reasonable charge for the services of the administrative staff of the City, and any other item of cost which may reasonably be attributed to the project.

87. (Procedure.) The procedure for special assessments, wherever authorized in this Charter, shall be as follows:

(a) The cost of the project being charged for shall be assessed according to the front foot rule of apportionment or some other equitable basis determined by the Council.

(b) The amount assessed against any property for any project or improvement shall not exceed the value of the benefits accruing to the property therefrom, nor shall any special assessment be levied which shall cause the total amount of special assessments levied by the City and outstanding against any property at any time, exclusive of delinquent installments, to exceed twenty-five per centum (25%) of the assessed value of the property after giving effect to the benefit accruing thereto from the project or improvement for which assessed.

(c) When desirable, the affected property may be divided into different classes to be charged different rates, but, except for this, any rate shall be uniform.

(d) All special assessment charges shall be levied by the Council by ordinance. Before levying any special assessment charges, the Council shall hold a public hearing. The Clerk-Treasurer shall cause notice to be given stating the nature and extent of the proposed project, the kind of materials to be used, the estimated cost of the project, the portion of the cost to be assessed, the number of installments in which the assessment may be paid, the method to be used in apportioning the cost, and the limits of the proposed area of assessment. The notice shall also state the time and place at which all persons interested, or their agents or attorneys, may appear before the Council and be heard concerning the proposed project and special assessment. Such notice shall be given by sending a copy thereof by mail to the owner of record of each parcel of property proposed to be assessed and to the person in whose name the property is assessed for taxation and by publication of a copy of the notice at least once in a newspaper of general circulation in the City. The Clerk-Treasurer shall present at the hearing a certificate of publication and mailing of copies of the notice, which certificates shall be deemed proof of notice, but failure of any owner to receive the mailed copy shall not invalidate the proceedings. The date of hearing shall be set at least ten and not more than thirty days after the Clerk-Treasurer shall have completed publication and service of notice as provided in this section. Following the hearing the Council, in its discretion, may vote to proceed with the project and may levy the special assessment.

(e) Any interested person feeling aggrieved by the levying of any special assessment under the provisions of this section shall have the right to appeal to the Circuit Court for the County within ten days after the levying of any assessment by the Council.

(f) Special assessments may be made payable in annual or more frequent installments over such period of time, not to exceed thirty years, and in such manner as the Council may determine. The Council shall determine on what date installments shall be due and payable. Interest may be charged on installments at the rate to be determined by the Council.

(g) All special assessment installments shall be overdue six months after the date on which they become due and payable. All special assessments shall be liens on the property and all overdue special assessments shall be collected in the same manner as City taxes or by suit at law.

(h) All special assessments shall be billed and collected by the Clerk-Treasurer.
