Letter To The Editor

Dear Editor:

At last we have found a fellow adult who shares our annual "melan-choly" (we use his word for it, there choly (we use his word for it, there is no other that is just right) over the reopening of school. We quote Editor J. B. Siemer of THE TEU-TOPOLIS (III.) PRESS with utter and complete sympathy for his post-Labor Day depression and for his daughter Meg and all the other kids —who probably don't feel as we do at all: at all:

"For me the start of school marks the end of summer, even though the season has most of another month to run; and for Meg, each year, I experience the same melancholy that always attended the end of my own summer vacations. It's not because summer vacations. It's not because fall and winter are on the way. I enjoy both seasons . . . So it must be a hangover from plain hating school those first few years. The exhorta-tions to 'be a big boy, now,' and didn't I 'want to grow up to know a lot of things' had no appeal, and the threat of what would happen 'when your Dad hears what a great big baby you are' brought no fear, at least that early in the day. "It was only after at least half a thousand daily incidents each includ-ing in the order named, coaxing, brib-

ing in the order named, coaxing, bribing, pushing, pulling, prodding and paddling, that I gradually became aware that it was inevitably going to happen to me for some years any-way; and so I came to accept it with the same reluctance that I accepted mowing the lawn on Saturday mornings, taking baths anytime, going to church on Sunday afternoons, espec-ially when there was a ballgame, and going to bed early of a Sunday night because I had to get up early to go to school the next day—which was causing the whole mess in the first place.

"And so it is that whenever I see "And so it is that whenever I see a youngster approaching the school-house door looking like a reluctant little dragon, or digging his heels in at every vantage point as he is dragged along the road to learning, I'm on his side. I'm almost sure he's going to lose, but, who knows, some-day there may be a 'breakthrough'." In our own case, we suspect that the pressures incident to education were even greater. Imagine having

were even greater. Imagine having for a mother a former school teacher, and one of the few women in the com-munity—or of her generation, for that matter — who had graduated from college: and for a father an unerring disciplinarian who would, of a Monday or Tuesday, for instance, judge us guilty of an infraction requiring a licking, with the sentence to be executed the following Sunday -and never forget!

Finally, we evolved a game to make attendance tolerable. As Public School 128 loomed ominously across the (then) open fields of Brooklyn at our approach, we told ourself resolutely that this was not school. This was our office-and we were going to work! The best we can do in a message to-youth at this time is: "Even this will pass.'

Mr. John Hoagland accompanied his mother, Mrs. Vallie Hoagland home on Saturday following Mrs. Hoagland's three-week visit with her winter schedule for the Bookmobile winter schedule for the Bookmobile son and wife, Mr. and Mrs. Robert Hoagland of Smallwood, N. Y.

KEEP WITHIN YOUR HEART A SONG

When the nights are dark and dreary, And the days seem hard and long, Lest you falter or grow weary-Keep within your heart a song!

When the clouds of sorrow thicken And you're feeling far from strong, Lest your spirit fails to quicken— Keep within your heart a song!

When you're ridiculed and cheated And the whole world seems all wrong, Lest you feel hurt and defeated-Keep within your heart a song!

Music fills our lives with gladness And keeps moving things along, So do not give way to sadness-Keep within your heart a song!

The trouble with too many people is that the only thought they have is that they have to say something.

But it constitutes an appeal for reason and restraint, in levying taxes on property or other valuables in such form and degree that it actually constitutes a penalty on energy and industry in our freeenterprise society."

GOSHEN, IND., NEWS: "Under a buy now, pay later philosophy, the present generation has run the national debt up to \$305 billion. . . To help Congress check the growth of this debt, committees of the Chamber of Commerce of the United States have analyzed President Kennedy's 1964 budget and have itemized 117 spending requests that could be cut without hurting national defense or essential services. The cuts could save as much as \$9.1 billion."

PORTLAND, ORE., JOURNAL OF COMMERCE: "Twenty-four million bushels of grain would more than fill all the space in the hulls of liners Queen Mary, Queen Elizabeth, France and United States. It would seem to be impossible to lose 24 million bushels of grain, but the government did it. And now the Agriculture Department assures us that it doesn't matter, anyhow."

THORP, WISC., COURIER: "We've been running over the list of things the government taxes, and whether you know it or not they-ve missed a few things. It's a pretty sloppy way to run a country. For example, they've taxed everything about an automobile, but they've done very little about pedestrians. If people insist upon walking, make them pay for it. Every time a pedestrian steps on a sidewalk it wears a little. In a couple of hundred years these pedestrians will ruin our sidewalks.'

GLEN RIDDLE, PA., ROCK-DALE HERALD: "Either America begins now to move forward toward freedom and private ownership - or else we go back to the dark ages where government will tell us what we can and can't do, and we will all live in slavery and poverty."

AFTON, WYO., STAR VALLEY INDEPENDENT: "A California congressman had a word about bureaucracy when he spoke to a group in Wheaton, Illinois. Keep spoonfuls and servings small . . . Introduce new foods at the beginning of a meal, when baby's hunger and inter-est are lively . . . Gently warm main course foods, including High Meat Dinners and vege-tables: serve others at room tables; serve others at room temperature. Introduce color

HARRY M. MYERS

Harry Michael Myers, husband of Mary S. Myers, died of a heart attack Saturday, August 31, 1963, at 1:30 P. M. at his home, 74 Uniontown Road, Westminster. A son of the late Joseph and Eliza-

Kitchen counter tops and ta-| press the two surfaces firmly tobles can be handsomely modern-ized by covering them with plas-tic laminates. The first step is to remove the old covering material' and, if you can do it easily, move the counter top to your work area to simplify the job.

If the old counter top is paint-ed, sand off the paint and remove the old adhesive. Then cut the plastic laminate to the over-all size required. Next, apply con-tact cement to the plastic laminate and the counter top. When the adhesive is no longer tacky, position the two surfaces care-fully and press together.

To help determine the exact position, cut a piece of kraft paper to the same size and place

gether. Remember, as the name implies contact cement forms an immediate bond, so be sure to proceed slowly and deliberately. Elmer's Contact Cement requires no mixing, spreads evenly and easily, and gives a strong long-lasting bond that is resistant to heat and moisture.

A completely detailed pattern is available. It tells how to beautify and modernize your kitchen from new counter tops to base and wall cabinets. The full-size pattern and step-by-step directions are simple and easy to follow.

WHEN HUNGRY TEEN-AGERS sail home in the afternoon their first port of call is the kitchen for a thrist-quencher and a quick snack to keep them going until dinner time. Wise mothers have taken to keeping a jar of instant tea on the pantry shelf all year round to fill the orders for "something to drink." It's low in calories and non-filling so they can drink all they want without spoiling their appetites for dinner. And because it's made with cold tap water, the youngsters can make their own in seconds.

SCOUT NEWS

Frederick W. Pyne, Scoutmaster of Troop 464, New Windsor, and a Wood Badge Assistant Deputy Camp Chief, Badge Assistant Deputy Camp Chief, has been appointed District Jamboree Chairman for the 6th National Jam-boree of the Boys Scouts of America to be held at Valley Forge, Pa., in July 1964. A National Jamboree is held every four years and a Scout normally would only have an oppor-tunity to attend one once during his tunity to attend one once during his Scouting career. The last Jamboree was held at Colorado Springs and a number of Scouts from this area were able to go.

The nearness of Valley Forge will make this Jamboree particularly in-teresting for us. Mr. Pyne has application information and will arrange for a meeting in this area later in the fall to show films and furnish detailed information to the parents and boys. In the meantime, parents of interested Scouts can contact Mr. Pyne at his home (775-2450) to obtain applications and secure a firm reservation for their son. It would be very nice to have an all Carroll County Troop represented at this Jamboree and with an early start and proper response from the parents, this may be possible.

Tough Roofs Take Today's Rough Wear

It takes a tougher roof today to resist "sunburn" than it did in days gone by. That's why wise home owners specify asphalt shingles that wear the Underwriters' Laboratories label on every package.

A sunburned roof can be as bad for a house as sunburned skin is for you. It looks bad and doesn't do a good job of protecting what's underneath.

Overexposure to the sun, which causes pain and peeling in a person. and premature wear in asphalt shingles, is more of a problem than it ever was. One reason is that the low slope of today's roofs results in a more direct assault on the roof from the ultra-violet rays of the sun. High winds, beating rain, and hail also do more damage to lowslope roofs. Roofs today also suffer more

from cold in winter and heat in summer because houses are better insu-lated than in former years. Insulation in attic floors or ceilings keeps summer heat right under the roof, and in winter the roof remains cold because the insulation prevents

house heat from risin. These extremes o^c temperature call for higher-quality roofing. As-phalt shingles bearing the UL label meet Underwriters' Laboratories requirements for fire resistance and quality. Shingles that do not have the UL label may look the same but have not been subject to this rigorous UL testing and inspection.

One of the most pleasant things about Summer is eating outside. Food just seems to taste better when it's served and enjoyed out of doors. And what better main course to prepare than a ham? Served with spiced peaches, scalloped potatoes and a crisp green salad—it makes a perfect patio meal!

Canned hams are a real find for the busy homemaker. They're-available from 3 to 10 pounds, can be sliced and tied together by your butcher. They're completely cooked. You just have to put them in the oven long enough to heat through. Try this recipe for

little. The only reason they didn't kill Joseph was that they could make a little money (about two dollars each) by selling him. The lie they told their father about it. or rather the lie they acted out, was all of a piece with the rest of it. There wasn't a shred of good in the intentions of those ruffians. Furthermore, there was no good in the Midianite slave traders, and there was no good in the slave trade. When Potiphar bought Joseph, he didn't do so from motives of charity. It was purely a business transaction. Years and years after this, Joseph said to his aging brothers, speaking of these same events, "You meant evil against me." (Gen. 50:20) But God meant it for good

In the same sentence, hardly stopping for breath, the boy Joseph now a middle-aged experienced man, went on to say, "but God meant it for good." At the time of that wicked sale of Joseph to the wandering traders, it would have been no wonder if Joseph had been "wondering why . Why didn't God stop this terrible thing? We can imagine that on the way to Egypt (some days' journey at best) a bright 17-yearold like Joseph might have plotted an escape; and if he had tried it (maybe he did, at that) you would have surely been hoping he could manage the break-away. But no, it was not to be. The whole future of the nation of Israel depended on Joseph's being sold into Egypt. Indeed one may say that all history depended on it. If he had broken away, and gone home, there would have been nowhere to go when the big famine struck. The Israelites would never have found stored-up grain in Egypt, they never would have found protection there. there would never have been an Exodus, a Moses, a David . . . Never a Mary and never the other Joseph. Never a babe in the manger at Bethlehem, never a Cross, a Resurrection, a Good News. What would have happened to the world? It is too dark to think about; but try to imagine- what this world would be if there never had been a Christ nor any Christians. Surely "God meant it for good."

Summer was made for the outdoors - and certainly for fishing. But the warm weather months that make possible this healthy sport bring their share of hazards. Woe betide the novice or incautious fisherman who bulls out the door without remembering that Nature can frown as well as smile.

A few simple precautions can save a fisherman plenty of grief. Since carelessness and failure to anticipate are the two main causes of a ruined outing, it might be wise to stuff this checklist of reminders inside your creel:

1) A good start is to think of the things that may bother ou — insects, wind, sunburn, etc. Then take along whatever is needed to protect you - a straw hat, sunglasses, sun-tan lotion. It's surprising how many people forget the power of the sun.

2) Whether you're going on a boat or into the mountains, bring proper clothing for sudden weather changes. Shirt-sleeve temperatures can shift quickly to chill at nightfall or when it rains.

3) Even off-shore, you can be bitten by insects; a suitable repellant can prevent discomfort from this irritant.

4) Stow plenty of water or soft drinks in your pack - and don't forget the can or bottle opener for the beer

5) A flashlight comes in handy under any number of circumstances — such as being caught out after dark . . . or when the engine conks out (it can happen even on charter boats).

6) Stay cool "in action." A lot of people get chopped up by fish after their catch is in the boat. They also get stuck by a hook, or bitten by such predators as blue-fish, which can take a sizable chunk out of a man's hide. Bonita and mackerel have also been known to leave teeth marks.

7) This, of course, suggests the importance of having a first-aid kit handy for simple repairs. No need to describe its uses; advice on medicine and surgery is part of an advanced course.

There's another kind of emergency that can be forestalled by foresight. A line parts when you have 175 yards of a 200-yard spool in the water - and what happens to the rest of your day? Avoid

While you're at it, a spare rod and reel can be a valuable addition to your outing. A Mitchell 302 salt-water reel with matching Conolon Boat and Jetty rod make a convenient duet as your extra gear for salt-water trips.

Finally, a large tackle box for your lures, leaders, hook hone, spare line and other accessories can prevent confusion and loss of gear during the expedition. Most boxes are big enough to stow a transistor radio, flashlight, spools. and other items.

When kids walk out of the house, parents are forever asking them if they have everything or warning them to be careful. Mom and Dad may well profit from this concern when they pile into the car for a family fishing day.

Orange Sherry Glazed Ham:

1 (6 lb.) canned ham, cut into slices 3/2 cup Widmer New York State Sherry Wine 1 cup brown sugar 1 cup orange marmalade 1/4 teaspoon nutmeg

Tie ham slices together with a string. Put ham into a shallow baking dish. Bake, uncovered at 350 degrees F. for about 30 minutes. To prepare the glaze, combine Widmer New York State Sherry, brown sugar, orange marma-lade and nutmeg in saucepan. Bring to a boil and simmer for about 5 minutes. Pour over ham and continue baking for about 1 hour, basting occasionally with pan drippings. In the last 15 minutes, place canned peaches around ham and spoon some of the glaze over them. Serves 15 to 20.

Makes a wonderful main attraction for a Summer patio meal.

Frozen Strawberries "Go Formal"

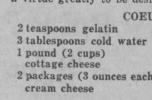

FOR GENERATIONS this French original, Coeur a la Crême, has been a world-famous dessert. The recipe given here is a simplified version as creamy and delicious as the original. Frozen strawberries, just thawed, make a perfect sauce for the delicately textured "heart of cream". Despite its elegance, Coeur a la Crême is easy to make and requires very little last-minute preparations, a virtue greatly to be desired in a company dessert.

COEUR A LA CRÊME

cottage cheese 2 packages (3 ounces each) cream cheese

l cup whipping cream 1 tablespoon confectioners' sugar 3 packages (10 ounces each) frozen strawberry halves, thawed

Soften gelatin in cold water. Heat over hot water until dissolved. Put cottage cheese through a fine sieve. Soften cream cheese; add cream gradually, blending well. Add sugar and the cottage cheese. Stir in dissolved gelatin. Spoon into 1-quart mold (heart-shaped, if desired) or 8 to 10 individual molds. Chill until firm. Unmold. Serve topped with the strawberry halves. Makes 33/4 cups, enough for 10 servings.
