## CARROLL COUNTY GENERAL HOSPITAL REPORT

To the People of Carroll County and The Reisterstown-Glyndon Area

It is with great pleasure that the Board of Directors of the Carroll County General Hospital submit the following financial and statistical report on the operation of our hospital for the fiscal year July 1, 1962 to June 30, 1963. Please bear in mind that although we opened our hospital approximately October 1, 1961 we started our fiscal year from July 1, to July 1st for purposes of accounting, therefore, this is our report for the first fiscal year. You will note that for all hospital services we received \$733,039.56 and that our total expenses for professional services, employees salaries, supplies of all kinds, heat, light, water and power, etc., amounted to \$731,318.41. This shows a slight gain in income over expenses of \$1,721.15. After consideration of proper depreciation charges we show an excess of expenses over income of \$57,473.75.

It is the policy of your board to achieve the proper funding of depreciation for mechanical equipment only, and not of the building. This must be accomplished as the daily wear and tear on mechanical equipment will necessitate replacement from time to time as motors, etc., wear out. Complete replacement of most of the mechanical equipment can be expected within fifteen to twenty years.

In the original proposal we stated that a hospital in Carroll County could be operated without a financial drain on its citizens. We are pleased to announce that this has been accomplished within the first year and a half of operation.

During the year we accomplished the following:

Admissions	— 2,773
Discharges	— 2,297
Births	— 552
Patient Days of care	— 17,956
Occupancy	— 75.7%
Laboratory Examinations	— 18,607
X-ray Examinations	— 4,746
Cardiographs	— 838
Operations	— 1,593
Emergency Room Visits	— 1,777

The Board of Directors wish to express their appreciation for the continued support of the voluntary workers of the Auxiliary, the employees, the Medical Staff, and the general public. We hope the enthusiasm and support for our hospital will continue to grow throughout the coming years.

President, Board of Directors, Atlee W. Wampler, Jr., (See Financial Report on Page 2.)

## "SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning a smile that shall last until the next day's dawning. I wish you health—life's greatest wealth: I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

Don't fail to see, at the "Town Theatre" across from Ford's. It is as the title states "the best" of all Cinemas and you will think you are taking a vacation! Every American should see it! One would think that they are really in a Plane and you see the shadow of the plane on the ground. The finest Narrator any place is right along with you, Lowell Thomas, and this latest production of his truly beyond describing! Three projectors are required to fill this vast space, approximately six times the size of the normal Movie Screen. It really made Chills and Thrills all over and as to the audience, they screamed with delight, just surprise! As soon as the curtains part you know you are going to love it from the very beginning!

Hope you and you will go down to the Hecht Co. Pinata Party. You will tour Peru and other Latin American countries via of this party at that grand department store. It is on the 8th floor. The objects that you see right there are more than just exquisite beauty... they were used to record the history of the people. One could write on and on about the showing and it is all for free! Don't miss it for you could really spend hours plus the appreciation. The entire floor has been transformed into a fascinating colorful market place. You see the native Peruvians in person and hear their music and you can watch them as they weave on their hand-loom. Then you can go right into the Courtyard Restaurant and have lunch or dinner to accent popular and appealing foods of South America!

And thinking of eats—there is a fabulous place, "Les Tuilleries" being made right in back of the Stafford Hotel on Morton St., just off of Madison St., near Charles. The color scheme is blue and white and all French foods will be served which will be the only of it's kind South of New York City. More about that one, folks in my next week's Column after I dine right there.

At the Alameda Shopping Centre there is the A. L. Mathias Co. Cafeteria and Restaurant and the food is Ummmmmmmm good! The Organ is played by Mr. Ivan Frank on the grand "Hammond" while you dine and that every evening from five o'clock except Monday and Tuesday evenings. He plays many request numbers and you will enjoy it all as he is most accommodating.

That Frank Sinatra Show disappointed me — "Come Blow Your Horn" — a few more on that order will drop his popularity gradually!

As to Chiropractic treatments, folks — nothing can compare! I visited that nice Dr. Calvin Hornstein at his office on Madison St., (Mon., Wed. and Fridays,) and he always takes the B. P. before the treatment and after! Folks, by this time you realize that I never write anything but real facts in my Column — the points went down or dropped 35! Then, too, the adjustment really makes you sleep that night for it is the relaxation that counts! The other office is in Randallstown. Be sure and make an appointment for you will feel like a million dollars!

A letter arrived from one of my Readers and here it is, "Dear Observer — the other night, believe it or not, I was in a very swanky restaurant with an escort and we ordered T-Bone steaks as the table next to ours, we observed had the same order. That couple was finished their dinner sooner and I heard the woman say to the waiter to wrap the part of the steak that she had not eaten so as she could take it home! I was so humiliated that I lowered my head for I did not like to take a second look at this patron but sure enough there the waiter was coming with the wrapped package and I heard her say, "Thank You! Can you give me any information on that one for it was most embarrassing. "Thank you — Signed—J. S. S. Dear J. S. S. — That unfinished steak was not for Rover, I can assure you! That was for Madam herself and here is where it started down in a hotel in Atlantic, Ga. I was right there years ago and saw it all and that unfinished steak was brought in done up so beautifully in white waxed paper and handed to the patron with a bow by the waiter and I said, "Well, now I have seen everything!" It was supposed to be for Rover that many years ago but not now as you are liable to see it happen anywhere and in any city only instead of Rover it is for Rover's Mistress!

Have a grand week-end, folks. Tell Jr. and his sister to be oh—so careful when he or she drives, as the insurance rates, I hear are going up terribly for teen-agers, due to speeding and killing themselves and others, too!

So long until next week D. V. I am, Faithfully, YOUR OBSERVER.

### FACTS AND OPINIONS

Ralph T. Moore writes in the Oregon Voter: "Our fiscal problems and the safety of our dollar are of eminent concern and mostly because of the contempt for the people's tax monies that seems to have crept into the thinking of the Congress and the several State Legislatures. We have betrayed the integrity of our national debt limitation by cynically raising the limit periodically and when it suits our convenience. We have allowed the keeping-up-with-Lizzie technique to influence our state and local public affairs. This forces us to discard consideration of merit in our tax expenditures and instead adopt a policy of spending not from need but from pride. Another State does and therefore we must follow suit."

Motor vehicle registrations in this country will total about 82 million during 1963, an increase of 3 million over the previous record set last year. By way of comparison, only 8,000 vehicles were registered in 1900, and only 32.4 million as recently as 1940.

U. S. Senator Beall of Maryland says: "By some distorted logic the merit of a legislative session has come to be judged by the number of laws enacted. If these are numerous, Congress is thought to have done well; if the number of bills side-tracked is high, the session is deemed a failure. This misconception indicates that we have forgotten the whole theory of our form of government. . . The true measure of a Congress could very well be the measure of bad bills it refuses to pass."

Columnist Austen Lake of the Boston Record-American considers his profession: "The danger in conducting a daily column is that a writer tends to pontificate on the vast ponderosities instead of sticking to his role as an observing reporter of the earthly ordinaries. Now there! See what I mean? Persiflage replaces ideas! One succumbs to the sweet, senselulling harshness of polysyllables. The misty vapor of words substitutes for the solid nourishment of corn-beef'n-cabbage logic. But it only takes a small pinprick to let the gas out of one's bag."

The latest FBI report shows that crime in this country set a new record last year, and is increasing four times as rapidly as the population. More than 2 million serious offenses were recorded — an average of four a minute.

Joe Parham writes in the Macon, Georgia, Telegraph and News: "The U. S. Treasury borrows money at the going rate of four per cent plus and lends it to REA at two per cent. Result: you and I and umpteen-million taxpayers make up the difference. The electric co-ops enjoy an income tax exemption (which private power companies do not enjoy) while their managers grow fatter, more sassy and more powerful. In pioneer days, this state of affairs would have called for strong action."

More than a million truck-trailer loads will move over steel rails instead of highways during 1963, the Association of American Railroads estimates. "Piggyback" or trailer-on-flat-car loadings this year are running 14 per cent above those of 1962 and double the 1959 level.

The Citizens Public Expenditure Survey points out that annual school classroom construction, without benefit of federal aid, has averaged just under 70,000 classrooms a year for the past five years, more than enough to meet the anticipated 600,000 classrooms needed in the next 10 years.

## Pineapple Glazes Breakfast Bread

Give breakfast a boost at your house during September, National Better Breakfast Month. Be sure your family begins the day with a good breakfast of fruit or fruit juice; cereal; milk; an enriched bread, and a beverage. Complete breakfasts of this sort pay dividends in alertness and energy during the busy morning hours.

Here's a breakfast that makes the morning meal popular. Begin with orange juice. Then serve Raisin Bran flakes and a hot bread, Pineapple Glazed Breakfast Ring. Made with All-Bran, the ring has a baked-on pineapple juice glaze for added appeal.

**Pineapple Glazed Breakfast Ring**  
1/4 cup butter or margarine 1/2 cup sugar  
1/2 cup pineapple juice

1 cup All-Bran (whole bran cereal)  
2/3 cup pineapple juice  
1 egg  
1/4 cup soft shortening

1 cup sifted flour  
2 teaspoons baking powder  
1/4 teaspoon baking soda  
1/2 teaspoon salt  
1/4 cup sugar

Combine butter, sugar and pineapple juice. Cook over low heat, stirring constantly until sugar has dissolved and mixture has boiled about 2 minutes. Spoon into bottom of greased 8-1/2-inch ring mold. Combine All-Bran and pineapple juice; let stand until most of moisture is taken up. Add egg and shortening; beat well. Sift together flour, baking powder, soda, salt and sugar. Add to All-Bran mixture, stirring only until combined. Spread evenly over pineapple glaze. Bake in moderately hot oven (400° F.) about 25 minutes. Turn upside down on warm serving plate. Let stand a few minutes before removing pan. Serve at once.

Yield: 6-8 servings.

As the wedding guests assembled, a recital was presented by Jack Wiestling, organist. His selections included "Fantasy in C," "Jesu, Joy of Man's Desiring," "Arioso in A," "Sheep and Lambs May Safely Graze" and "Air for G String," all by Bach. ## THE WAY I SEE IT—

## Observations on the World of Sports

Steve Barber of the Baltimore Orioles is certainly a lucky guy. The "famed" left-hander of the Free State's entry in the American League should never have nineteen wins under his belt. He has failed twice to get his twentieth win of the season. He will probably get it the next time around. To prove my point, how many times have you seen Dick Hall come trudging in from the bullpen to rescue Barber from blowing a close one. Barber just can't go the distance and always get into a jam in one inning or another. His earned-run average shows a respectable 2.69 and that isn't bad for a man only four years removed from class D ball. Still I have to say he's been lucky to have just about twenty wins; maybe the record books should read Steve Barber and Dick Hall 19 and 12.

Stan Musial, the 42-year-old star of the St. Louis Cardinals, doesn't even have to go out on the playing field to make records these days. The holder of more records than Elvis Presley recently set a Major League record when he became a grandfather. The record book doesn't carry such listings but it is doubtful if many grandfathers have played in the majors. His son presented him with a youngster at Fort Riley, Kansas, where Army Lieutenant and Mrs. Dick Musial are now living. To celebrate his new record, "Gramps" hit a home run and single in the Cardinals win over the Chicago Cubs.

My nominations for "Unsung Oriole Player of 1963" is Luis Aparicio. His play all season long has tightened up the Bird infield and his hitting and base-running have been a joy to behold. I'd hate to think where we would be if we didn't have "Little Lulu". His forty-four runs batted in don't begin to tell his worth to the team. He was hitting when no one else was. He never or seldom gets the headlines because he doesn't hit the long ball that often (although we don't want to overlook that grand slam a week or so ago). Yes Sir, Luis deserves the "Unsung" award and then some.

My nomination for "Most Valuable Oriole" player of 1963 goes to John Orsino. Certainly Johnny has been a bright spot in an otherwise dim year for the Birds. As best he was a throw-in in the trade with San Francisco last December. He had hit good in the minors for the Giants but with people like Ed Bailey and Tom Haller going one-two for the Bay Cities you couldn't expect John to get too much work. With the Birds it has been another story. He has consistently hit the long ball and frequently when we needed it the most. It has helped to take some of the pressure off Jim Gentile who is not having a good year to say the least (more about this in another column). John Orsino should get the most valuable player award from the Orioles but what do you

want to bet that John Powell gets it instead.

If the Los Angeles Dodgers need any morale boosting, perhaps we can help them. Put a ring around three dates on the calendar, September 24th, 25th and 26th. The New York Mets will be in Los Angeles on those three dates to play the Dodgers. No matter how tough it gets before then the Mets will brighten things for the Dodgers. They have gone about that process in resolute fashion all year. The Mets and Dodgers have played 15 games this year and the Dodgers have won 13. You can't be any more of a brighter than that.

**Today's Sports Laugh** — Jake Gaither, football coach at Florida A. & M. says he has three simple qualifications for his players — "Give me boys, says Jake, who are Agile, mobile, and hostile."

**Remember When Dept.** — Willie Mays hit into three double-plays in one game? It happened in May's rookie year of 1951 against the Yankees in the World Series. The pitcher was Allie Reynolds and the Yanks won 6-2.

—John Breth.

## God in History

Lesson for September 22, 1963

Bible Material: Genesis 37 through 50.  
Devotional Reading: Psalm 47.

THE story of Joseph is strikingly modern. It is updated in every century. It is true, the actual events of this strange history—this success story to end all success stories—never repeat themselves, for no two lives are just alike. Joseph rose not only to the chance of his lifetime, but to the big chance of all time. There never was another historic moment just like any moment in Joseph's life, never another opportunity like his. The thing that links Joseph with all of us is the way his life-history illustrates what every man's life also pictures, namely what Christians call the "providence" of God.

### Evil is real

The Christian doctrine of Providence, which is believed in every church in Christendom, is a name for the belief that God is in constant touch with this world, and that He so controls and guides the affairs of not only this planet but of the universe so that His purposes do come to pass. The universe is vast and complicated beyond our understanding; but God is in charge. That is the heart of what "providence" means. It is more than foresight. It is more than "taking care of His own." It is more than God's occasionally reaching a hand into the machinery of the world to give it a little shove. The thing that makes this not the easiest Christian doctrine to believe is that there is so much in the world which, so far as we can see, doesn't fit in with God at all. There is a lot of anti-God loose on earth. How can we square that with the idea that God is in control? One way of solving the difficulty is to deny that there is any evil. This won't wash. Evil of one kind or another, and especially sin, is too tall and terrible to be laughed off or ignored. Talk about God being hard to believe in! It is less of a strain, by far, to believe in a God more powerful than evil, than to believe that evil is no more than a kind of illusion, something done with mirrors so to speak. An old couplet written for children says, "The world is so full of a number of things, I'm sure we should all be as happy as kings." That's not the doctrine of providence. This world is full of a number of things that make anybody with a heart most unhappy. We have to believe in God through our tears, not pretend there's nothing to cry about.

### Freedom is real

Some people push the doctrine of Providence too hard. They are afraid that if God allows the tiniest bit of freedom to mankind, something is bound to go haywire sooner or later, and God will find things have gone out of control. They make the history of mankind look like a puppet-show with God working the strings. This isn't the doctrine or the truth about Providence; it's a kind of caricature of it, something first cousin to fatalism. The story of Joseph is an illustration of what we are driving at. Joseph's brothers knew what they were doing when they plotted against their brother. They didn't have to do what they did. They were not puppets, they were free men. This isn't saying they could have done good just as easily as they could have done wicked acts. It came a lot easier to do evil, but they didn't have to. Joseph never pretended they couldn't help it! And neither did they.

### God the weaver

God may be compared to a master weaver who stands at the loom of time and weaves the fabric of history. Not all the threads in the loom are beautiful. There is the black thread of ignorance and the crooked thread of pain and the blood-red strand of sin. The pattern might be more beautiful if it were not for the tangled ugly threads of perverted human wills. But God does not throw anything away. He makes use of the evil. He keeps the freedom within bounds. Some will ask, How does God do this? If we knew, we would know as much as God knows—and this is beyond us forever. But that God does this, every believing heart is assured. Here our own story blends with that of Joseph and all the saints. Who cannot tell his own story of how God's hand has been felt in his own life? What Christian has not been led to say, after some painful experience, God knew best?

## FORD SERVICE

Drivers who race to win provide a valuable service for Ford engineers who race to learn. For Ford performance on the race track contributes importantly to Ford total performance on the highway.

The Ford concept of total performance includes roadability; ease and precision of steering and braking; visibility that minimizes blind spots; comfort that allows travel hour after hour without fatigue; durability for years of dependable service; and performance itself for surer, safer passing and entry into high-speed traffic.

Ford Motor Company's history in competitive events dates from the company's founding. Ford engineers have known for many years that not all of the elements of total performance can best be developed under normal driving conditions. Total performance results from knowledge painstakingly gained by careful analysis of cars and engines subjected to the most gruelling automotive test possible—the competitive event.

The outstanding competition record of the Ford—winner in seven consecutive stock-car events of 500 miles or more in length—has resulted in significant improvements for Ford for 1964. Almost every major component of the car reflects the lessons of competition.

Engine improvements include a strengthened cylinder block, longer wear bearings, more effective piston-pin retainers, connecting rods with a remarkable increase in fatigue resistance, an improved distributor, and a more positive lubrication system.

Brakes, steering and suspension systems also have been improved as the result of lessons learned on the track or road-rally course, during pit stops, and later in engineering tear-down tests.

Some of the improvements are noticeable immediately in smoother rides and better handling. Others the customer won't notice—because they represent problems that have been avoided through application by Ford engineers of the lessons learned in competitive events.

The restyled Ford Fairlane for 1964 presents a big-car appearance and boasts engine performance that was proved in the Indianapolis "500." Although new styling makes the middleweight Fairlane look bigger, it remains about the size of the 1956 Ford on the outside and the 1959 Ford on the inside. Five engines are available, three of the same basic design as the Fairlane V-8 that powered Lotus cars to second and seventh places in the gruelling Indianapolis race. These include two 289-cubic-inch V-8s, one 260-cubic-inch V-8, plus 170- and 200-cubic-inch six-cylinder engines. Combined with five transmissions, these power plants offer a full array of performance and economy choices for 1964. Eight Fairlane models—hardtops, station wagons and sedans—will be introduced in Ford dealer showrooms September 27.

TELEVISION RADIO AND TALENT TALK

by Joe Cal Cogno—ANS

IT'S HARD to believe that Dr. Bergen Evans, acknowledged language expert, whose top-rated Words in the News program is heard over the Westinghouse Broadcasting Company stations and syndicated to other radio outlets, was once as rustic as perhaps Huckleberry Finn.

Born in Franklin, Ohio, he moved to Totley, England, a hamlet of about 200 people, where a Chaucerian dialect was spoken, and became aware of the English language. Later as a barefoot boy he frequented Ohio swimmin' holes, fed chickens and performed all farm chores. At sixteen he left his Huckleberry Finn existence, entered Miami U. in Oxford, Ohio, earned his Master's at Harvard Graduate School and attended University College in Oxford for three years on a Rhodes Scholarship.

RECORD WHIRL... RCA-VICTOR execs think that their hottest new property since Elvis, is singer Tommy Boyce. Young, handsome, a talented songwriter, too, his recent hits were "Til Remem-

ber Carol" and "Have You Had a Change of Heart." DECCA's Bob Hope LP, "Hope in Russia" is Bob at his best... Jimmie Haskell, arranger of Richard (Kildare) Chamberlain's MGM disks is responsible for the Rick Nelson, Bobby Darin, Lettermen, etc., smash disks.

LUCILLE BALL, vivacious as Jello, whose CBS show is soaring in ratings, has learned that its no easy job being a comedienne and TV Tycoon of Desilu Studios. "Keeping up with both careers was difficult at first," says Lucy, "but I developed a new philosophy which helps a great deal. Before rendering a decision on any new productions—or settling any problems at all, I ask myself, 'Is it good for Lucy?' That's made things a lot simpler, for I found that if it was good for me, it was also good for all of those around me."

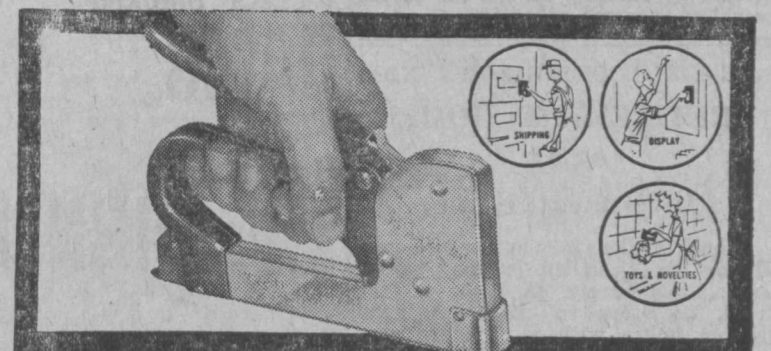

## "Look Mom, a Pony!"

Spots is a king-sized companion for this little man, but big as he is, he needs respect and affection from his pint-sized master. According to Clarence C. Fawcett of the Purina Pet Care Center, "Most dogs can be taught to be gentle with children, but the children aren't always as easy to train! Teach your youngster kindness and love for his pet... discourage mischievous tricks and rough play."

## 14 MINORITY PRESIDENTS

—Three Presidents of the United States were elected despite the fact that they received fewer votes than did their respective chief opponents. They were John Quincy Adams in 1824, Rutherford B. Hayes in 1876, and Benjamin Harrison in 1888. Adams' election was decided by the House of Representatives, and Hayes' election by a special Congressional commission; Harrison, after coming out second best in popular votes, received a majority of the Electoral College votes. In 11 other Presidential elections, the successful candidate received less than 50 per cent of the popular vote. The last time this happened was in 1960, when John F. Kennedy edged out Richard M. Nixon.

GOVERNMENT  
WASTE-OF-THE-WEEK

During 1958-61, the State Department built a \$453,000 ambassadorial residence at Rabat, Morocco. This is an impressive price for a diplomatic residence in a tiny country. But even at this price, the embassy was so unsatisfactory that the ambassador refused to move into it.

"Does your husband talk in his sleep?"  
"No, and it's terribly exasperating. He just grins."
