## "SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning.  
A smile that shall last until the next day's dawning.  
I wish you health—life's greatest wealth;  
I wish you always near so that I may help to cheer.  
Each future day and in some way—help to bring you happiness!

The Zinnias are plentiful in the little back yard and it just means always a decorative dining table plus flowers to all the sick. The yellow monthly rose bush is thriving again and the blooms are beautiful!

Now, here's to any young man who is truly a go-getter and does not have the dough-ray-mi! I read in the paper the other night about a man who puts any young man in a business after careful investigation and you must have it on the ball and in other words most promising for this financier does all this himself and he is a shrewd one from all I read. This man is an executive—now retired from the Coastal Oil Co. in New Jersey. You must be from 30 to 55 yrs. of age, and you must have the ability only lacking capital. So if you have a business proposal why not write to Mr. Louis G. Marron? Your personal life will be investigated, personal habits and home life. It was simply fascinating to read and just like a story in a book. This man and his wife are great 'fishermen'—he is 62 and they are childless. Here's good luck for you if you happen to be the right party!

Well, wherever one goes—it seems to be the name of GOLDWATER on the lips of every individual! They say he is dynamic. The Public sees in him a real Militant Leader who will do much for these United States. The Goldwater for President movement is gaining great momentum in this country. Well, may the best man win! Eh?

Well, Ladies it sure is this Fall—"Button—button who's got the Button?" For they will be BIGGER, more plentiful and right up front and handsomer than ever before!

That "Hertz" Co. with that Driver in the seat in all cities is not just advertising on TV for so many men traveling for business that way and much else for you can pick it up in one city and leave it in the next at the same company, of course. Nice? Convenient is the word and what next?

Saw the cutest boy the other day with a big Chesapeake Bay—one of those lovable dogs and when I asked his name, the little boy said, "HOSSI!" After that nice character in "Bonanza!" Cute?

How sad it is to see a show with Marilyn Monroe now adays on TV! Saw the "Seven Year Itch" the other evening and some how she appeared more beautiful than ever while she still was in this life.

Here's a true one witnessed by Your Observer. I was walking down toward 33rd and Greenmount Ave., to go to the Waverly P. O. with a special letter and suddenly, I happened to see a hand bag hanging from a fire plug! I looked up and saw a policeman who spotted the bag at the same time and he walked over to it and then turning to me said, "Is this yours, Lady?" "No, it is not, but I'll venture to say that a young girl must have gotten on the street car taking out her fare and leaving the bag right there and somehow, I feel she will realize what she did and get off at the next corner and come back!" So he opened the bag seeing the name and address in the bill fold and there were just three one dollar bills! I worried for I knew what that would mean to any child of fourteen or fifteen. So I went to the Post Office and returning saw the policeman walking toward me right in the middle of the street. I quickly said, "Did she come back?" "Yes, lady and you hit it right on the head!"

"LIBRA" is the ruling Planet for those born from September 20 after midnight to 20th of October before midnight. These people are fond of beauty and luxury and as students are particularly interested in music, poetry and dramatic art, the study of languages and usually excel in mathematics. They are always fond of the opposite sex. Libra meaning the "Scales", these people usually are the type of balancing no matter what they do and look on both sides whatever matters. This gives fairness to their opinions and judgment. They are born expert accountants and bookkeepers. They make grand interpreters due to their love of languages. They have inquisitive minds. One thing they do not like and that is to follow a routine laid out by another and are unhappy if they cannot do the work they plan themselves. The men of this sign are as a rule extremely shrewd in business matters and are excellent managers in any business. These people are the soul of generosity and are never too busy to those who seek them. Helping hand to those to Libral! They can attain great heights in anything they plan to do.

Don't miss the "Ice Capades" at the Civic Center. THE BEST SHOW ON EARTH! It surpasses any previous Ice Capades and you will enjoy every minute of it. The Civic Center is just the place to hold this grand showing and remember it is only until the 13th. More about it next week. Your Observer attended this gala event on Tuesday evening.

Have a grand week-end, folks. This truly is the time to take that vacation as many are realizing more each year. Be kind to one another and always consider the next person. Until next week-end D. V.

I am,  
Faithfully,

## **"GRASS ROOTS OPINIONS"**

**KITTANNING, PA., LEADER-TIMES:** "Any self-righteous Federal Communications Commission employee or official will deny ardently that the government has any intention of taking over the nation's broadcast media for propaganda purposes, or that it will dictate program content. Unhappily, there is growing evidence the other way. Newton Minow, when he headed the outfit, found TV a 'vast wasteland,' and reminded the stations that their service to the public would be examined when license renewal time came around. . . . Radio and TV could soon reflect the personal tastes of the rule-makers in Washington, and antennas could soon become towers of babble with little interest for the listener or viewer. More dangerous, they could become brainwashing tools for whomever are the Washington 'ins' of the moment, and make it difficult ever to dislodge them."

**FAIRBURY, ILL., FORREST NEWS:** "It is about time that a halt be called on some of this increase in taxes which is being imposed on the American public at every turn of the wheel. Federal, State and Local taxes are constantly rising until the poor overburdened guy who foots the bills hardly knows where to get the money to meet his obligations."

**OCHEYEDAN, IOWA, PRESS:** "A wise man of the Orient once remarked, 'There are three kinds of people in all types of organizations—rowboat people, sailboat people, and steamboat people. Rowboat people need to be pushed or shoved along. Sailboat people move when a favorable wind is blowing. Steamboat people move continuously, through calm or storm. They are usually masters of themselves, their surroundings, and their fate.'"

**CLAYTON, N.M., LEADER:** "The founding fathers recognized government as citizens' biggest enemy. In order to keep the monster whittled down to size, they limited government's powers and growth with a Constitution. What has happened since? Federal government is now: The largest electric power producer—the largest lender and borrower—the largest landlord—the largest owner of grazing land—the largest holder of timberland—the largest shipowner—the largest truck fleet operator—the largest warehouse—the largest employer—in the nation. In fact, with only one exception, Soviet Russia, the United States government is the largest property holder in the world. The major part of this mushrooming growth of Federal bureaucracy has been made without Constitutional authority."

**WALTERBORO, S.C., PRESS AND STANDARD:** "Americans should not be overly shocked, nor critical of the British for their current sex scandal. This country has its own scandal, only it does not involve too much sex. The scandal is the buying of votes and support through promises of governmental aid, military installations and the like. Too often elections are determined not on the merits, or issues at hand, but on the politicians' promises. Such is not right, and until the voters realize that they are being paid off with their own money, the taxpayers' lot will not improve."

**DULUTH, MINN., PUBLICITY:** "If the Government listens to the Chamber of Commerce of Kingfisher, Oklahoma, it can save \$110,000. That body voted to ask Uncle Sam not to build a half-block long post office in their town, and to use the money saved to whittle down the national debt a bit."

**OSWEGO, KAN., INDEPENDENT:** "It looks like the proposed federal tax reduction legislation is going to be enacted, regardless of the fact that at the same time more governmental expenses are going to have to be met. President Kennedy, and many of the present democratic administration seem to think this can be done. 'Devise a plan to decrease the intake while plans have already been disclosed to show that the outlay is to be increased a few billion. Assuredly it is going to involve a principle that cannot be handily taught in school.'"

**GIDDINGS, TEX., NEWS:** "Since . . . most all the schools in Texas are receiving federal aid for education, they can well expect to have to take orders from the federal government. At least it should keep the kids under better control. Skipping school (playing hooky) could be a federal rap."

I thought this little story from the Readers Digest was a cute one. The old man had lived on this small Florida Key for 40 years. As newcomers, feeling skittish about the approaching hurricane season, we put the what-should-we-do-in-case-of-and-what-is-it-like question to him. Well, ma'am he said, nowadays the radio begins warnin' you three days before she hits. They tell you to collect drinkin' water, get canned goods, flashlight batteries, boards for the windows and a mess of other stuff. I tell you, by the time she hits you're so tucked out you don't even get to enjoy it."

### KEYSVILLE-DETOUR

Greetings to you:

World Communion Sunday is Oct. 6 and will be observed at Keysville Lutheran Church during the Service which begins at 10:45 A. M. At 9:30 A. M. there will be a Rally Day Program by the children of the Sunday School.

Werner and Ernest Rahm, the Swiss boys, have come and gone again. They arrived at the Carroll Wildlife farm on Friday evening, in time for supper with Mr. and Mrs. Wilhide and Beth, Mr. and Mrs. Richard Wilhide, Mr. and Mrs. Myron Wilhide, Denise and Renee. Saturday evening they visited with Mr. and Mrs. Cecil Priest and Andrea. They were dinner guests on Sunday — after attending Keysville Lutheran Church — with Mr. and Mrs. Hans Steffen and Herman of Sixes Bridge Road and, on Sunday evening, supper was at the home of Mr. and Mrs. Myron Wilhide, Denise and Renee, with Werner and Ernest as guests of honor. Those also present were Mr. and Mrs. Carroll Wilhide, Jane and Beth, and Mr. and Mrs. Richard Wilhide. The highlight of the evening was homemade raspberry ice cream, which all enjoyed. On Monday morning they left Detour on the last leg of their journey home. They will make visits in New York, Connecticut and in Canada before sailing for home on the 11th, and they should be home on the 19th. It has been a fine experience to meet them and we all wish them well in all that they do. Perhaps we shall meet again sometime. We shall hope so.

Sorry to hear Mrs. Loren Austin of Detour is still on the "under-the-weather" list. Hope she will soon be feeling fine again.

Among those who gave demonstrations at the home of Mrs. Joseph Coshun near Middleburg on Saturday to complete their 4-H units were Joan Thomas, Beth Wilhide, Helen Fossett and Cindy Crouch. Also attending were Janet Crouch, Betty Dean and Joanne Carron.

Welcome back to the Post Office in Detour to Mrs. Carroll (Helen) Dougherty who has had a short vacation. During that time the Post Office was in the capable hands of Mrs. Howard (Mae) Franklin.

Mr. and Mrs. William Weishaar and Randy of Forest and Stream Club Road and Mrs. James Weishaar and Bobby of Detour visited on Sunday with Mr. Charles Myers of York, Pa., who is in the hospital there.

October 9 is the date again for the next meeting of the Elmer A. Wolfe School Mother's Club with Miss Sara Leiter as special speaker. Miss Leiter is Supervisor of Pupil Services of the Maryland State Department of Education and an excellent speaker.

Mr. and Mrs. Lloyd Wilhide of Keysville were dinner guests on Sunday at the home of his sister and brother-in-law, Mr. and Mrs. Russell Durbin of Gettysburg, Pa.

Mrs. Edward (Kathryn) Coshun of Redland near Detour was the center of attraction for awhile on the 18th at the Anne Arundel County Fair. She gave a cake decorating demonstration there. This included recipes and tips on creating fancy cakes. She also displayed a number of decorated cakes which could be used for birthdays, weddings, stork showers and also a child's cake. This was decorated with large circus animals for a merry-go-round. Mrs. Coshun's sister, Mrs. Carroll Lee, was president of the Fair.

Sunday visitors with Mr. and Mrs. Carroll Wilhide, Jane and Beth, were his mother, Mrs. Maurice Wilhide, and his sister and family, Mr. and Mrs. Francis Fry and children of Baltimore. They were also accompanied by Sharon McAvoy, a friend of Sandy's. They also called on the Myron and Richard Wilhide families.

Kevin, son of Mr. and Mrs. Paul Wildisan of Westminster, spent from Sunday evening to Wednesday evening visiting with his grandparents and uncle, Mr. and Mrs. William Weishaar and Randy near Detour.

Terra Rubra Girls' 4-H Club members please note: October 18 at 1:30 P. M. will be your next meeting. This will be held at St. Luke's Lutheran Church in New Windsor and the demonstration on Physical Fitness will be presented by the Home Demonstration Office.

The teacher Bible training classes which are held on Sunday evenings from 7 to 9 P. M. at Grace Lutheran Church in Westminster are being well attended. They are conducted by Dr. Jacob Heikinen, who is a Professor at Gettysburg Seminary and an excellent speaker.

Next Keysville LCW meeting will be Monday, Oct. 7, at 8 P. M. Leaders will be Mrs. Edith Wilhide, Mrs. Kathryn Coshun and Mrs. Anna Haileigh. Specials are Mrs. Ruth and Mrs. Cassie Wilhide with Mrs. Mildred Stine, Mrs. Anna Stonesifer, Mrs. Mae Baumgardner as hostesses.

### What Are You Learning?

What are you leaving as you go along your journey here below to make the world a better place when you live run your earthly race?

To live when you have passed away, to make your little earthly stay that which shall count in life and soul while time shall last and ages roll?

If to time you give your worst, and men by you are only cursed, your life shall be a failure here, devoid of peace and love and cheer; and you shall leave no mark behind; to help the world of humankind; no life to bless, no noble name, no monument of honor, fame.

If you but leave a record dark, and this shall be your earthly mark — although you've flirted with the world and gloried in her flag unfurled, and revelled in her social pride, and shared her vanity beside, O, what shall be your answer, friend, when this you meet beyond amend?

If you will leave the best in thought, the best in truth you should have taught; the best that you can say and do, the best for other men to view; if you'll but live the Christian life and help to rid the world of strife — how great to meet your record fair and heaven's peace and glories share!

by Walter E. Isenhour.

A Kiss — is a peculiar article of no use to ONE, absolute bliss for TWO. The small boy gets it for NOTHING, the young man has to steal it and the old man has to BUY it. It is the baby's RIGHT, the lover's PRIVILEGE and the hypocrite's MASK. To the young girl it means FAITH, to a married woman HOPE, and to an old maid CHARITY.

"If time heals everything, try sitting it out in a doctor's office." — Kenny Bennett, Greencastle (Ind.) Putnam County Graphic.

The people who lead parades are not necessarily the folks who get things done by their own hard work.

Have you ever talked to a person who wasn't interested?

## THE WAY I SEE IT . . .

## Observations on the World of Sports

The New York Yankees have a sensational record in World Series play. The one reason for that is they usually play sensational ball in the series.

There is another reason, of course, and it looks as though it will be a factor again this year. That is, the Yankees usually come into the series well rested, due to their customary foresight in clinching the American League pennant in mid-September.

The National League team almost always goes huffin' and puffin' to the wire and is still trying to catch its breath when the series begins. The Giants were last year and still had enough power to carry the Yanks right down to the last out of the 7th game before losing.

What does clinching the flag early do for the Yanks? The answer to that is several things. One thing it does is give them a chance to rest their starting pitchers and work them just enough to keep them on edge without tiring them in any way.

The second thing it does is give them a chance to rest tired or injured players. The third thing it does is give a chance to adjust emotionally to a world series.

When the series start, the Yankees are at one and the same time rested and keyed up for the big doings. Too often, the National League team is worn out from its efforts in clinching the flag and is so happy about being in the series that it can't generate the extra effort that it takes to become a world champion.

When left-handers Sandy Koufax of Los Angeles and Whitey Ford of New York take the mound for the first game of the 1963 World Series in Yankee Stadium, the Dodgers will pit their stoutest pitching and speed against the Yankee's power hitting, sharp fielding, poise, experience and finesse.

The Dodgers are a team that has to scrape for runs. A walk, a stolen base, a sacrifice and a long fly ball is not an uncommon way for the Dodgers to make one run. Nothing comes easy for them. Their method is reminiscent of the 1959 Chicago White Sox and the 1945 Detroit Tigers, both of whom won the American League pennant. The Tigers won in 1945, and the White Sox lost in '59.

The Dodgers' biggest assets are pitching and speed. They have ace left-handers Sandy Koufax and Johnny Podres, and the big right-hander Don Drysdale as starters. They have something the Yankees lack—a stopper in the bullpen in the person of Ron Perranoski and he could follow in the shoes of Larry Sherry. When the Dodgers last played in the World Series of '59, it was Sherry who came out of the bullpen to win two games and save two others.

Maury Wills, who stole a record of 104 bases last year but has been slowed down by injuries this season, and Willie Davis are the Dodgers' speedsters, although just about everyone in the Los Angeles starting lineup is capable of taking two bases on a routine single to the outfield.

The Yankees, who have been in more World Series than any team in baseball, will try to counteract the Dodgers' speed by pitching left-handers in the first, second, fourth, fifth and seventh games, if necessary. Both have outstanding "moves to first base."

The Dodger runners also will be contending with one of the finest throwing arms among the catchers in Elston Howard.

Only in the infield at shortstop, with Maury Wills, do the Dodgers have an edge. Tony Kubek is the Yankee shortstop. In the outfield only Tommy Davis in left rates over the Yankees with Mickey Mantle and Roger Maris in right and center.

The Yankees also have a stronger bench with Yogi Berra (always at his best when the chips are down), Johnny Blanchard, Hector Lopez and company.

**Summing Up** — The Yankees are too much for the game Dodgers—the Yanks in six.

**Remember When Department** — The Colts lost the Eastern Division title to the Buffalo Bills in Baltimore and the fans burnt the stands. — Dec. 12, 1948.

**Sports Laugh** — Comedian Jack E. Leonard, upon meeting poetical Casius Clay told the undefeated heavyweight: "If you're smart, challenge Carl Sandburg to fight and Sonny Liston to recite poetry."

## WITH THE ARMED FORCES

**USS ENTERPRISE (FHTNC)** — Mitchell B. Livesay, fireman, USN, son of Mr. and Mrs. Charles B. Livesay of Taneytown, returned to Norfolk, Va., early in September aboard the attack aircraft carrier USS Enterprise after spending seven months in the Mediterranean.

The Enterprise tied up in Norfolk on Sept. 4, having been on deployment since February. While in the Mediterranean, she was the nucleus of the Sixth Fleet's fast carrier striking force. Aircraft flying from the carrier's deck provided air cover and potential long-range strike capability, extending the range and effectiveness of the Sixth Fleet as a deterrent to war. Enterprise crewmembers visited ports in Italy, France, Spain, Greece and Lebanon.

"With a woman in orbit this old planet is running more or less risk of being plagued again with flying saucers." — Louis Nelson Bowman, King City (Mo.) Tri-County News.

"There is a new drink called Foreignade, the refreshment that never pauses." — H. R. Smith, Brookville (O.) Star.

There may be more than one way to skin a cat, but we know of only one.

If the biting rate of fish could be plotted on a chart, the curve would go up sharply after Labor Day. At least, that's the direction much of the marine life will be taking. With vacationers gone, the city kids back from camp, and the waters starting to cool, fish will be moving to the surface for more active feeding. They seem to sense the long, lean winter months ahead.

Cooler autumn air means that bass, pickerel and trout will start biting better, particularly brown trout — sluggish in hot weather, but rough and ready for the fall. Some of the best brown- and brook-trout fishing is coming up in Western Montana and Wyoming and other trout-fishing areas where the fall spawners move into the smaller streams.

You'll find these beauties a rare treat on one of Garcia's 8-ft. or 8 1/2-ft. fly rods in the Gold Line, strung with Infalible Dick Wolf Autograph Fly Line. Balance them with either a lightweight 3 1/2" Priddy fly-casting reel or the medium-weight Beaudex in the same family.

Travel up to the Great Lakes or near the Canadian border, and you'll find pike, walleye and muskie rising more quickly to the bait. These varieties feed until it's too cold to fish — especially small- and large-mouth bass, which have sense enough to want to put on some extra weight before winter sets in.

They're looking for frogs along the weeds and water pads — and there's no reason why they shouldn't find your Abu-Hi-Eo plug waiting for them. If you use this wily lure, keep it at shallow depth by setting the lip control at almost a vertical position. When you're working awkward spots, you might prefer an Abu-Reflex spinner designed to snake through weeds and other submerged snags.

As cooler weather moves in, habits also change in salt-water angling. Bait fish, such as mullet, start moving southward, hugging the shore as they go. Their natural enemies — albacore, white marlin, and bonito — come inshore to follow them — and that's when you want to be ready with some long rods.

For surf-fishing at this time, you'll find the 11' 4" Garcia 2572 rod comfortable, especially when using it with a Mitchell 302 or 306 spinning reel and a 1-oz. Luster-Lure.

If it's salmon you're after, the 10' Garcia 2554 rod will give a good performance, especially when worked with 15- to 20-lb. test line. The later it gets the more fight in the great striped bass and bluefish. Seems like nature, shaking loose from the bonds of summer heat, is making one last huge lunge of energy before the mercury dips below freezing. Better eat a hearty breakfast before shoving out!

# CARROLL COUNTY ASSN. FOR RETARDED CHILDREN MEET

The Carroll County Association for Retarded Children held a general meeting recently at Baile Hall, New Windsor. Dr. Joseph R. Bailer, president, presided over the meeting that was opened with an invocation by Dr. William Miller.

Dr. Bailer announced that he will represent the association at the National Convention to be held in Washington, D.C., on Oct. 24-27. Mrs. Mildred Haller is the alternate. It was also announced that Mrs. Kathryn Finch will serve as chairman of the fund raising campaign to be held in the near future.

Reports were heard from the various committee chairmen as follows: Planning, Education and Library, Mrs. Lyndon B. Meyers; Finance, Dr. William Miller; Membership, Mr. and Mrs. William Specht; Campaign Fund, Mr. Roger Burdette; Day Care, Dr. William Miller; Summer Camp, Mrs. Mildred Haller; Building Fund, Mr. Charles Peltz; Publicity, Mrs. John W. Thomson; Newsletter, Mr. Charles Peltz; Hospitality and Refreshments, Mrs. Gertrude Nickoles; Facilities and Resources, Mrs. Ann Wagner; Ways and Means, Mr. Charles Peltz; Program, Dr. Joseph Bailer; Transportation, Mr. Sam Bankert. It was reported that the W. H. Davis Co. is donating a car minus the motor and transmission to the Baile Hall Day Center for instruction and recreation of the children.

A gavel, made by a boys' club at the Francis Scott Key School, was presented to President Bailer by Mr. Charles Peltz on behalf of the group of boys.

The program for the evening was moderated by President Bailer in the form of an open discussion on the following questions: 1. What ought the CCARC be doing in the next 10 years? 2. What types of facilities will be needed to carry out these projects? 3. How can membership be increased to meet the goals set? Many recommendations were made that will be acted upon in the future.

The CCARC would like to invite all interested people to become members of this organization to help fellow members in the county. A member does not need to have a retarded child; he needs only to have a willingness and desire to help those exceptional people who have less than themselves. There are three types of membership: general membership or family, \$5.00; sustaining membership, \$10.00; supporting membership, \$25. Checks may be sent to Mrs. Virginia Brown, Route 1, Liberty Road, New Windsor, Md.

## A Pampered Look On A Penny Budget

TODAY'S "FASHIONABLES," by simply making their own clothes, possess magnificent wardrobes on even the smallest of budgets. And, since nothing short of perfection will do, they use the correct sewing techniques so necessary in achieving a custom-made look. Much depends on pressing—so here are a few points to remember when you create that dress of your dreams.

REQUIREMENTS—A well padded ironing board, press cloth, sleeve board, tailor's ham, press pointer, and of course, a properly functioning iron.

PRESSING AND IRONING ARE DIFFERENT—Pressing is a lifting and lowering of the iron to shape garments in the making and to eliminate creases. Ironing is a sweeping motion used to restore the appearance of a garment, usually after laundering. Both are done on the inside using the proper temperature required for the garment.

USE A PRESS CLOTH—This will protect fabrics and prevent shine. Use a press cloth on all zipper areas, for if the zipper is metal the cloth will protect the soleplate of the iron from scratches, if it is a nylon coil zipper, such as the new Talon Zephyr, the press cloth will protect the zipper from temperatures higher than a steam setting.

PRESS AS YOU SEW—Press each seam, dart, facing, hem, etc. as you sew. Then a light touch-up, following the fabric grain, is all that is needed. In this way, garments are correctly shaped resulting in a custom-made look.

BE PAMPERED, POISED, CONFIDENT, GLAMOROUS . . . which is exactly what a heavenly new wardrobe always does for any woman.

## Cottage Cheese Salad Special

There are myriad ways to please with increasingly popular cottage cheese. But for a real taste treat, serve it with a crisp, fruit-rich salad just developed by the Borden Kitchen. It is a regal combination of fresh peach and banana halves, Bing cherries and nutritious cottage cheese. Just a hint or two on how to preserve the natural color of the fruit: To help the peaches retain their full color bluish, immerse the unpeeled peaches in boiling

water and then dip immediately into cold water. Then peel off the skins and halve the peaches. Brush the peeled peach halves, and the bananas, too, with lemon juice. This will prevent them from turning brown.

To complete the salad, use a selection of crisp salad greens, such as endive, escarole and lettuce. Garnish with a few fresh mint leaves, and, for a special flavor touch, sprinkle the cottage cheese with nutmeg or cinnamon.

### Cottage Cheese Fruit Salad (Makes 4 servings)

- |  |  |
|--|--|
| 2 ripe bananas   | 4 fresh Bing cherries or Maraschino cherries |
| 2 tablespoons ReaLemon   | Salad greens                                 |
| 2 fresh peaches*   |  |
| 1 cup (one 8-oz. container) creamed cottage cheese, large-curd |  |

Peel bananas and peaches. Cut in half lengthwise. Brush with lemon juice. Arrange banana pieces and peach halves, hollow side up on salad greens. Place 1/4 cup cottage cheese atop each peach half. Garnish each with a cherry. If desired, arrange fruit on large glass plate and let guests help themselves.

\* Four canned peach halves, well drained may be used.

## What They Wore... by PHYLLIS JOYCE

IN THE SIXTH CENTURY A.D. WHEN EMPEROR JUSTINIAN RULED THE ANCIENT KINGDOM OF BYZANTIUM WOMEN WORE COSTUMES REVEALING BOTH GRECO-ROMAN AND ORIENTAL INFLUENCE. OVER A

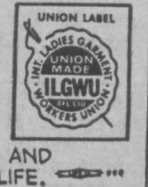

STRAIGHT TUNIC WITH LONG SLEEVES A ROYAL LADY WOULD WEAR A LARGE MANTLE TRIMMED WITH JEWELLED EMBROIDERY AND FASTENED AT THE SHOULDERS WITH A JEWELLED FIBULA OR CLASP

OFTEN THE ORIENTAL INFLUENCE WAS MORE PRONOUNCED; A KIMONA-LIKE UNDERGARMENT (SHOWN AT RIGHT) OF DAMASK OR HEAVY SILK WAS COVERED BY A RICHLY PATTERNED SLEEVELESS OVERGARMENT.

IN THE DRESS OF THE BYZANTINE COMMONER THE GRECO-ROMAN INFLUENCE WAS APPARENT; A PALLA OR TOGA WITH A DECORATED BORDER WAS WORN OVER A LONG SLEEVED GARMENT RESEMBLING A ROMAN STOLA.

TODAY WHEN BUYING WOMEN'S AND GIRLS' APPAREL LOOK FOR THIS LABEL... THE SYMBOL OF DECENCY, FAIR LABOR STANDARDS AND THE AMERICAN WAY OF LIFE.

## Cupboard-Shelf Cobbler

Staple food items found on the average cupboard shelves can yield nearly all necessary ingredients to make a delicious peach cobbler with an almond whipped topping, according to a recipe developed by the Borden Kitchen. Nonfat dry milk, a standard household item, is used to make both the crust and topping.

### Peach Cobbler (Makes 6 to 8 servings)

- |                                     |                                    |
|-------------------------------------|------------------------------------|
| 1 (1 lb. 14-oz.) can sliced peaches | 1 teaspoon salt                    |
| 2 tablespoons cornstarch            | 1/2 teaspoon nutmeg                |
| 2 tablespoons butter                | 2/3 cup Starlac Nonfat Dry Milk    |
| 2 cups sifted all-purpose flour     | 6 tablespoons vegetable shortening |
| 2 tablespoons sugar                 | 1/2 cup water                      |
| 1 tablespoon baking powder          |                                    |

Drain peaches. In medium-size saucepan combine drained peach juice (about 1-2/3 cups) and cornstarch. Bring to boil over medium heat; stir constantly. Continue to boil and stir for 5 minutes, or until mixture thickens and is clear. Remove from heat. Add peaches. Pour into 10 x 6 x 1-1/2 inch or 1-1/2 quart baking dish. Dot with the butter. Combine flour, sugar, baking powder, salt, nutmeg and nonfat dry milk. Cut in shortening until mixture resembles coarse cornmeal. Sprinkle 2 tablespoons water at a time over coarse mixture. After each addition mix lightly with fork until a portion of soft dough forms. Gently shape dough into a ball. On a very lightly floured board, roll dough to a 6 x 10-inch rectangle. Place on top of peaches. Bake in hot oven (400°F.) 20 to 30 minutes, or until top is golden brown. Serve warm with Almond Whipped Topping. In small mixer bowl combine 1/3 cup cold water, tablespoon lemon juice and 1/3 cup nonfat dry milk. Beat 8 to 10 minutes, or until stiff peaks form. Fold in 1/2 teaspoon each of almond and vanilla extracts. Makes enough for 6 to 8 servings.

## Human Harmony

Lesson for October 6, 1963

Bible Material: I Corinthians 1 through 4.  
Devotional Reading: Ephesians 4:1-7.

NO ONE needs to be told that harmony is one of the great laws of the Universe; some would say the greatest. This does not mean that we always find harmony where it ought to be, or that it is easy to produce and to maintain. It does mean that failure of harmony where harmony should be is always baffling and painful, and can be fatal. From the car engine in which the cylinders do not work with the designers intended, on to the human being who is (as we say) "all to pieces," loss of harmony is always bad. To live in harmony with yourself, your fellow men and God is the road to life, the road to peace.

**Broken harmonies**  
When we look at life around us, we see tragic need for harmony in the very situations and institutions where you would have a right to expect harmony of a high degree. Look at the American family today, look at the divorce problem. This is more than a matter of husband and wife bickering, as if their quarrels affected themselves alone. An able probation officer in a large American city has gone on record as saying he has yet to see a juvenile delinquent from a home where there was harmony between father and mother. The capital city of our country is plagued by crime of all sorts, and the authorities lay the blame less on the police force (who are doing all they can) than on the "breakdown of parental authority." Homes where there is disruption between man and wife, parents and children, are no help to society, but sore places, trouble-spots, breeders of disruption in other circles.

When we turn from the family to almost any aspect of public life, what strikes the mind again is feuding—in business, social life, politics, even in the church. You would think that in the church of Christ the very atmosphere would make quarrels impossible. Yet the experience of today mirrors the experience of the early Christian church. The same people to whom Paul writes as "sanctified in Christ Jesus," and "not lacking in any spiritual gift," are quarreling among themselves. The first three chapters of I Corinthians are devoted to this problem of quarreling Christians.

**The basic harmony**  
Paul brings out the truth that there is one basic harmony on which all others are built. Without this basic harmony every other attempt at it falls in failure. This is the harmony between the Christian and God, and of course this means between the Christian and Christ. He does not so much urge the Christians to "behave" and to "make up" as he urges them to remember whose they are and whom they serve. It is through God—Father, Son, and Holy Spirit—that the jarring factions in the church find the solution of their quarrels. The more we think of other Christians as other Christians, not just as others—outsiders, opponents, roadblocks to truth and progress—the closer we shall come to that harmony which in its perfection we shall never see in this world. The church can not come before God with its differences all ironed out, its harmonies restored, and offer God its self-made harmony and peace as a gift from us to Him. On the contrary, the church's disharmonies, quarrels, factions, once we are truly united to Christ and devoted to His cause, will begin to perish for lack of pride, the essential diet of dissension.

**Motives**  
What motives inspire those who seek harmony especially with their fellow-Christians? Is it that we don't want to be bothered by arguments? Is it for efficiency's sake that we lay our feuds aside? Is it that we want to present a solid front to the world? These may be motives, but not the best. Paul speaks of two motives promoting true Christian harmony between man and man, in the church or out. One is the "fellowship of our Lord Jesus." We belong to Him, every Christian does. We belong neither less nor more than others. Boasting and showing are out of order. The other motive is service for Christ. As Paul and Apollos are very different men, worked each in his way without conflict, so may all of us unite—not always in ideas, but always in Christian service.

## ODDS AND ENDS

Autumn's mood this morning is somber and serious. The sun is hidden by a thick covering of gray clouds, and it would seem that some rain is in the offing. Certainly, a good soaking rain at this time would be a real blessing. Our section of Maryland has been suffering the effects of a prolonged drought. The pastures are sere and brown, and some wells are running dry. Our vegetable garden was set out quite early in April, and seemed especially promising this year. However, the absence of rain has drastically cut short our usual bountiful harvest of late tomatoes and lima beans. Both of these are favorites with our family. Tomatoes are so versatile, and lima beans are wonderful for the freezer. The ironic part about this situation is that other sections all around us have been getting an abundance of rain. Even as I write this article, a Baltimore newspaper is saying that Baltimore got a downpour of 2 inches yesterday. I firmly believe the Lord causes such things as drought to make us realize that we humans are, after all, a pretty helpless lot, and wholly dependent upon Him for all of our needs and wants.

The crackling wood fire in our rather old-fashioned kitchen stove is throwing off a cozy, pleasant warmth on this chilly September day. Our newest kitten—a tiny ball of fuzz, with huge blue eyes—is soaking it up. His two little brothers have found new homes, and "Rusty" looks quite lonesome and forlorn lying there all by himself. However, he is a happy, well-balanced little fellow, and I suppose he will find ways and means of entertaining himself. He likes to attack the broom, and to frolic up and down the sofa.

Autumn is my favorite season. I love everything about it—the flaming trees, the shocks of corn, the colorful roadside stands. Not even its chilly, gray days, or the thought of another approaching winter, can dampen my enthusiasm for this most wonderful time of the year!

### Family Troublemaker

The average American family may be playing "ping-pong" with its health and never know it!

According to experts on communicable diseases, a growing threat to public health, can be passed back and forth between family members for years before anyone realizes that recurring family illnesses have a common source.

Bacteria causing a baby's impetigo may reveal themselves weeks later as a boil on Father's arm. Abscesses on Mother's skin may be connected with sister and brother's eye infections. Even osteomyelitis and pneumonia can occur while the harassed family suffers the pain and financial exhaustion such infections create.

The implications for potential damage, even death in some cases, are great considering that staphylococci are commonly carried by more than half the world's population in nasal passages and on skin. The bacteria's growing resistance to antibiotics and their easy dissemination by dust and air, contaminating everything they touch, contribute further to the extensive harm of staphylococci.

Family protection against "staph" infections and general daily resistance to skin bacteria are most easily accomplished by frequent washing of the hands with a germicidal soap that con-

tains hexachlorophene. This chemical, extremely effective in inhibiting the growth of certain bacteria, continues to reduce the number of microorganisms with repeated use.

To specifically explore family staphylococcal infections, the John Slade Ely Center for Health Education Research, a non-profit organization in New Haven, Conn., studied families whose recurring health problems were due to "staph." The study was undertaken to develop a program of education on "staph" for afflicted families to help them prevent future infections. One family participating in the study was instructed to use Dial, a low-cost hexachlorophene soap.

Through this research, the center obtained an accurate picture of "staph" families and the careless habits that can lead to continuous reinfection within family groups. Practices such as sharing the same hand and bath towels when one person is infected keep the vicious circle going.

Recommended precautions, in addition to frequent handwashing with a hexachlorophene soap, include the use of individual towels and washcloths for each family member, showers instead of tub baths, disinfection of bathroom fixtures and the laundry of infected persons, and reasonable isolation of infected family members.

### Raisin Little Packs for Trick or Treaters

— California Raisin Advisory Board Photo

Sweet California raisins in little packs are a favorite treat for Halloweeners in every neighborhood. Each 1½-ounce carton contains the perfect amount for a quick energy snack and they're easy for children to handle, too. Buy them singly or in bundles of six at grocery stores everywhere.

These festive raisin cup cakes, made with cake mix, also set the Halloween mood. Dark seedless California raisins are arranged in the shapes of prowling cats atop the raisin chocolate cakes. Orange icing contrasts with the dark cake and raisin decorations to carry the traditional color scheme of the day.

### BLACK CAT RAISIN CUP CAKES

½ cup dark seedless raisins  
1 package devil's food cake mix

Orange Icing  
Raisins for decorating tops

Chop raisins coarsely. Prepare cake batter according to package directions for cup cakes; fold in raisins. Spoon into paper baking cups set in muffin cups. Bake as package directs. When cool, frost with Orange Icing. Make cat shapes with whole raisins on each cup cake.

ORANGE ICING: Beat together ¼ cup butter, 1 tablespoon grated orange peel, 2 cups sifted powdered sugar, 2 tablespoons half and half and few drops orange food coloring.

### Make New Mince Meat Delight

Ready-to-use mince meat continues to win new culinary honors because of its many delicious uses and its year-round availability. The latest evidence of its versatility is in the form of a frozen mince meat chifon dessert, perfected by the Borden Kitchen. Prepare and serve individual desserts in paper baking cups. There's no cooking required. Place the desserts in the freezer before lunch and they will be ready to be served with the evening meal.

### Frozen Mince Meat Chifon Dessert

(Makes eighteen 1¼-cup servings or 4-1/2 cups before freezing)

1 cup finely crushed gingersnaps (28-30 snaps)  
1/4 cup sugar  
1/4 cup butter, melted  
1-1/3 cups (15-oz.) Eagle Brand Sweetened Condensed Milk  
1/4 cup RealLemon Lemon Juice

1 cup None Such Ready-to-Use Mince Meat  
1 teaspoon rum extract  
1 cup (1/2 pint) heavy cream  
1 (8-oz.) jar Maraschino cherries, optional

Place 18 paper baking cups into 2-1/2 inch diameter muffin pans. Combine gingersnap crumbs, 2 tablespoons of the sugar and melted butter. Blend with pastry blender or fork until mixture is crumbly. Place one heaping teaspoon of crumb mixture in each paper cup. Set aside remaining mixture. With back of spoon, press crumbs evenly over bottom of cups. In large bowl, stir sweetened condensed milk and lemon juice until well blended. Add mince meat and extract. Mix well and set aside. Whip the heavy cream while gradually adding the 2 remaining tablespoons of sugar. Whip until peaks form. Fold into mince meat mixture. Spoon 1/4 cup of the combined ingredients into each crumb-lined baking cup. Sprinkle 1 heaping teaspoon of remaining crumbs evenly over each filled cup. Place in freezer about 4 hours, or until frozen. To serve, carefully remove paper cups from muffin pans and place on dessert plates. If desired, garnish each with a maraschino cherry.

### HUGH FORGIE IN ICE CAPADES WITH ZANY BADMINTON ACT

Hugh Forgie used to give dazzling exhibitions of his badminton skill on regulation courts, but for more than 20 years now he has used his prowess as a skater to really put his game on ice.

Returning to the Ice Capades after a five-year tour of Europe, Hugh Forgie brings back to this country a racket-full of trick shots in a zany badminton act which has delighted and amazed worldwide audiences.

Playing with Shirley Marie, his partner on the European tour and a former physical education instructor at Wellesley College, Forgie is appearing in Baltimore at the Civic Center where the Ice Capades opened Oct. 1 for seventeen shows through Oct. 13.

While it is all in the act, Forgie seems to be forever chasing the elusive bird, only to reach it the moment it appears to be hitting the ice, and then effortlessly send it winging back over the net to Shirley Marie.

The comic flourishes he displays in his act obviously are possible only because of the perfection in form he has attained both as a badminton player and a skater. Discussing some of the attributes he considers essential for this kind of performance, Forgie noted that:

"Yes, you need speed and the proper touch to be good at badminton. But it's a game that requires a great deal of endurance. The movement back and forth is so continuous and so swift that anyone not in top condition will tire quickly.

"You must toughen your body to be able to stand the pace. The requirements are just about ten times as severe on ice as in the game off skates. Reflexes and coordination, true, they're important. But don't underestimate the durability necessary."

During his school years in Brantford, Ontario, Forgie developed into a standout athlete in football, hockey and badminton. Concentrating on badminton, he toured this country during the 1930's as a double partner of Ken Davidson, an international champion from whom Forgie learned many of his unbelievable trick shots. Later when Forgie was teamed with his own pupil, Stig Larson, John H. Harris, producer of Ice Capades, saw their act and lured them onto the ice where they played some of the fastest badminton ever seen.

In the 25 years Forgie has performed on the ice, it has been estimated that his act has been watched by some 35 million people at ice shows and an additional 50 million television viewers.

Although Forgie rarely misses a shot, he and Shirley Marie sometimes do lose control over the shuttlecock in the arenas where the Ice Capades are appearing. The bird, weighing only 1/16th of an ounce, performs some unexpected tricks on the tricksters when blown about in the currents coming from air conditioning equipment.

### SPF CHOW PLANT READY

New facilities have been completed at the Ralston Purina plant in Davenport, Iowa, for the manufacture of specific pathogen free rations for laboratory animals. Production will commence this fall.

The new facilities will serve the nationwide demand from hospitals, medical research laboratories, colleges and other research stations for laboratory animal foods which are more pure even than human food. The Purina plant is one of the first commercial installations of its kind in the world. It was built as an addition to the existing Ralston Purina plant in Davenport.

"Specific pathogen free" rations, in laymen's terms, mean that the rations will be free of certain specific pathogens, or germs, which could disturb the laboratory animals' normal physical condition. Laboratory animals include mice, rats, guinea pigs, hamsters, monkeys, rabbits, and even dogs and cats used in medical research.

Medical research has moved to the point that researchers are requiring specific pathogen free food for laboratory animals so that the possibility of disrupting the research tests by disease is reduced. This has required the developing of new techniques to formulate, process, and package these rations.

Ralston Purina has for many years been the world's largest manufacturer of rations for laboratory animals. This is the Company's first facility for the manufacture of specific pathogen free rations.

### ALUMNI CARD PARTY

The fifteenth annual Public Card Party sponsored by the Taneytown High School Alumni Association will be held next Thursday evening, Oct. 10, in the High School Auditorium.

This is traditionally one of the largest card parties of the season and is held for the benefit of the Taneytown schools. Mr. Stanley King, chairman, announces that the usual large number of fine prizes will be offered as well as several nice door prizes. Playing will begin at 8:00 P. M.

Committees for the affair include: prizes, Mr. and Mrs. Glenn Bollinger, Mr. and Mrs. J. Robert Waddell, Mrs. James Baumgardner, Miss Helen Bankard, Miss Lois Brown and Miss Nancy Keefer; refreshments — Mrs. James Fair, Mrs. John S. Harner and Mrs. Clarence Phillips; tally — James Sell; cards and tables — John S. Harner, chairman; publicity, James Fair.

A person has to be a contortionist to get along these days. First of all he's got to keep his back to the wall, and his ear to the ground. He's expected to put his shoulder to the wheel, his nose to the grindstone, keep a level head and both feet on the ground. And, at the same time, have head in the clouds so he can look for the silver lining.
