## HIGH SCHOOL P.-T.A. MEETING

The Taneytown Jr.-Sr. High School P.-T.A. met on Monday, March 9th, 1964, at 8:00 o'clock in the auditor-ium. The meeting opened with the Pledge of Allegiance to the Flag, fol-lowed by the invocation by Mr. Glenn Bollinger. Bollinger.

Dr. and Mrs. Wm. J. Sullivan of Providence, R. I., spent Saturday, February 29, at the home of Mr. and Mrs. Wilbur Naylor and entertained them as their dinner guests at Peace Light Inn, near Gettysburg, in honor of the Naylor's 40th Anniversary. The business meeting was conduct-ed by the President, Mr. Kenneth Stonesifer, followed by several an-nouncements by Mr. Musser. One item of special interest which he announced was the new program under the direction of the Guidance Depart-ment for On-the-Job Training for Mrs. Ruth Aughenbaugh and Mrs. Lila Taylor of Baltimore were visit-ors at the home of Dr. and Mrs. Rhinehart on Tuesday. Follow-ing this, Miss Barbel Lesche, an ex-change student from Germany now attending Gettysburg Senior High School, gave a most interesting and informative talk about various phases of life in her native land and showed some very colorful slides of some of some very colorful slides of some of the parks, buildings and cities in Germany.

The meeting was then adjourned, followed by refreshments in the cafeteria.

## Taneytown Vol. Fire Co.

At a recently held meeting of the Taneytown Volunteer Fire Company, the Ambulance Committee reported 12 calls for the past month. The Chief reported two fire calls for the

same period. The Carroll County Volunteer Firemen's Convention will be held in Taneytown on Saturday, May 16. The Committee reports that there will be which will be held at the Catholic Church Hall.

The recent short term of the Mary land General Assembly came to a halt the night of Thursday the 5th after running about an hour over the Constitutional time limit. There were some 601 measures introduced in the House and in the Senate. Out of these 199 passed both Houses, this being approximately 33 per cent. It is surprising that even this number could be given careful consideration in a 30-day period. Some of these measures that survived the legisla-tive process were as follows:

PRAYER — Because of the Su-preme Court's ruling that outlawed prayer in our public schools a bill was enacted to provide that students will be required to pray or at least meditate for approximately one min-ute each morning. It further provides that no student or teacher shall be prohibited from reading the Holy Scripture or praying.

UNEMPLOYMENT - A bill was passed to raise the maximum unpassed to raise the maximum un-employment benefits from \$38 a week to \$46 a week. At the same time the tax of the employer will be dropped 3/10 of 1 per cent. This legislation was possible because of the bill pass-ed several years ago allowing for the elimination of some of the chiseling that had been going on account the that had been going on against the Fund.

HOSPITALS — A state fund of \$50,000,000 was provided for through legislation to make loans for hospital construction.

EDUCATION - A bill to provide for the improvement of our State education system was passed. This same bill included the raising of the State Income Tax from 3 to 4 per cent to finance this program. Some of us felt that this tax increase was not necessary and that the education program could have been accomplished through other means.

LEGISLATURE - This past 30-Day Session was a prime example of the impossible task faced by the members of the Legislature in at-tempting to consider the volume of tempting to consider the volume of bills that are introduced during this short period of time. For this rea-son a bill was passed to provide for a Constitutional Amendment to the State Constitution. If passed by the voters in November, annual 70-day Sessions of the Legislature will be established to take the place of the State Constitution. voters in November, annual total sessions of the Legislature will be established to take the place of the present meetings in alternate years of 90 and 30 days. The same measure would also provide for a pay increase of \$600 from \$1800 to \$2400 a year for the members of the General L Assembly. L Assembly. L Assembly. NATIONAL GUARD — Two bills were passed in an effort to help the members of the National Guard. One provides for a \$10 minimum on the daily pay of the members of the Guard called to active duty for other than training purposes. The other bill requires employers to hold jobs open for the employees who are called into active duty by the Na-tional Guard.

LIBRARIES - A State Incentive LIBRARIES — A State Incentive Fund will be set up to help sub-divisions to construct new libraries. To take advantage of this Fund the sub-division would be required to set with 14 cent of its property tax rate for the acquisition of land or the building of new quarters. The State would provide the difference between the money coming from the sub-division and \$1 for every 4 persons

EASTER SEAL CAMPAIGN The 1964 Easter Seal Campaign is

under way and extends through Mar. 29th. The Easter Seal Society is the world's largest voluntary agency ser-ving the crippled. Last years' contri-butions to the Society permitted 255,000 crippled persons to receive treatment plus the purchase of ex-pensive equipment needed at the various treatment centers across the na-tion. All contributions from the coun-ties of Carroll, Frederick, and Washington, will be used by the Easter Seal Treatment Center at Frederick for the treatment of residents of the three counties. These treatment cen-ters function chiefly on public contributions received during this annual

campaign. George Fream, Taneytown Zone Chairman, said that special Easter Seal Canisters have been displayed at local businesses to receive individ-ual contributions. Miss Nancy Stine president of the Keyettes of Taneytown High School announced that the

town High School announced that the Keyette Club are planning an Easter Lily Parade similar to that of last year's which will be staged on one Friday evening. They will be parad-ing the business areas in solicitation for support of the program. The churches of the community are co-operating by using the special Easter Seal Bulletin on one Sunday during the campaign in an effort to call atthe campaign in an effort to call at-tention to the needs of crippled persons.

Your support to this program as an individual and community is kind-ly solicited. Contributions should be forwarded to George Fream, Taney-town Zone Chairman.

## Local Children's Pictures To Be Taken Free For **Publication in Carroll Record**

Tomorrow! Friday, March 13, is the big day for the picture taking of your youngsters! The Record is having pictures taken of all children who are brought by their parents or other guardian to the Fire Hall be-tween 10 A. M. and 6 P. M. abso-lutely free of charge. The Record wants a picture of your child to print in its forthcoming fea-ture, "Citizens of Tomorrow," a series of photographic studies of local chil-dren. Children who have been photo-

of photographic studies of local chil-dren. Children who have been photo-graphed for this feature in previous years are especially invited to return, so that we may see how they have changed. The more we get the better the feature will be, so the coopera-tion of the mothers and fathers is wread urged.

It often seems to parents that chil-dren are little one minute and grown up the next, so fast does a child's growing stage pass. Here is a splen-did opportunity to catch a likeness of your child or children at the present stage for the pleasure you will get out of it in future years and for the pleasure you will enjoy in seeing it in print. You will want to clip it from this, your home town news-paper, and preserve it for the young-ster when he or she grows up.

There is absolutely no charge or obligation for taking the pictures. Parents don't even have to be a sub-scriber to The Record nor even a reader. You do not have to purchase pictures either, though you may ob-tain additional prints by arranging direct with the Studio representative if you want them. This is entirely up to you! No appointment is nec-cessary. There is no are limit. You essary. There is no age limit. You may come at any time during Studio You hours. All children must be accompanied by a parent or guardian. Pho-tography will be handled by the Dansville, New York office of Woltz Studios of Des Moines.

# MEETING OF NEEDLEWORK GUILD

The Quantam Libet Needlework Guild met at the kome of Mr. and Mrs. Charles Rohrbaugh on Tuesday evening for the regular monthly meeting with all members present. The meeting was suddenly turned into a surprise celebration in honor of Mr. and Mrs. Wilbur Naylor's 40th anniversary when the husbands entered the room at an appointed time and joined the wives in singing "Hap-

SPICE 'N' EVERYTHING NICE" (Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth;
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

ers are artificial as it all seems to lend a gay atmosphere. Hope you and you did not miss the Ed Sullivan show to see Jack Carter for he truly works hard as a comed-ian and imitated the "Beatles" to perfection! The audience gave him much applause and laughed heartily! According to a very big TV person-ality he stated to a gentleman of C. B. S. that he was ashamed to be an American as our teen-agers met those American as our teen-agers met those "Beatles" at the airport and took off their blouses and bras and threw them at these boys! Whoops-what they will have to tell England! An d what they earned cannot be taxed by Uncle Sam over here but every bit by their own country! I heard one gentleman state that now for sume those English people will say — not the "Ugly American" — but those "crazy" Americans! ## Leonard Wantz, Jr., New Chevrolet Dealer

We wish to take this means to inform the residents of this community and surounding areas of the change in management of Lowry Chevrolet, Inc. This corporation formerly consisted of Robert Lowry, Delmont Koons and Kenneth Smith; and was known as Lowry Chevrolet, Inc. As of March 5, 1964, Leonard Wantz, Jr., entered into said corporation with Delmont Koons and Kenneth Smith. Henceforth the corporation will be known as Wantz Chevrolet, Inc.

Leonard Wantz, Jr., has been a resident of Taneytown for 23 years. He graduated from Taneytown High School in 1958 and attended Thomp-son Business College in York, Pa. At the present time he is a member of the Army National Guard. Since January 1963 Leonard was employed by Lowry Chevrolet, Inc., as a mechanic and salesman.

The new corporation expresses its sincere thanks for all past patronage and solicits future business. In re-turn, we will strive to give prompt and dependable service.

Details will be announced at the Ladies' Night Program tonight (Thursday.)

living within this subdiviison. HIGHER EDUCATION - The Advisory Council on Higher Education was changed by legislation which would permit the Governor to name

9 members from any profession. At present these members must be from the educational field. BUDGET - A record budget of

\$680,000,000 was approved for the fiscal year starting July 1. This includes the education program. The appropriation for the current fiscal year was approximately \$611,000,000.

NOTARIES - A bill was introduced and passed to provide that the office of Notary Public is not an office of profit. It has long been the rule that a person cannot hold two state officer of profit at the same time. This rule placed some office holders, including a few in the General Assembly, in jeopardy because they were Notaries. This new law would allow a person to be a Notary and hold an office of profit in addition thereto.

ROADS - A bill to provide for a road construction program of \$525,-000,000 failed to get through the Senate until after the Constitutional midnight deadline. It was approved belatedly and now there is a question of its validity.

SPECIAL SESSION - A Special Session of the Maryland General As-sembly has been called Wednesday, March 11. Among the things to be considered are the redistricting of the State's Congressional Districts and Baltimore City's Legislative Districts on a population basis. An attempt will also be made to extend the Public Accomodations Law to State-wide coverage. This Session may last for an extended period of time or it may have been concluded by the time this article goes to press. We would like to take this oppor-tunity to thank this newspaper for

allowing us to report to the citizens of Carroll County on the progress of the Maryland General Assembly during the past 30-day Session.

breast. Actually, this native bird of the East is a Thrush. This is evident in the spotted markings of the young. By the way, there is a very interest-ing and informative article about Robins in the March issue of Reader's

Digest. The ancient cedar tree is gracefully bending and bowing to the music of the March wind. I wonder how many years it has withstood the elements? Certainly, it is a landmark here at Wood Burn, as is the silvery South Craolina Poplar. Both are beautiful in their own right, and both provide refuge and nesting places for countless birds.

How wonderful it is to see bright splashes of green grass, instead of a white blanket of snow! The sturdy Easter flowers are sending forth spears, and the purple and golden Crocuses already are blooming in

their full glory. As I watch the earth turning to another season, I am reminded of the words found in Solomon's Song, 2:11-12, "For lo, the winter is past, the rain is over and gone; The flowers appear on the earth, and the time of the singing of birds is come, and the voice of the turtle (dove) is heard in our land."

Southwestern Taiwan (FHTNC) — Marine Corporal John T. Gosnell, son of Mr. and Mrs. Charles H. Gosnell of 44 York St., Taneytown, is par-ticipating with the First Amphibious Tractor Battalion in a coordinated U.S.-Nationalist Chinese amphibious exercise called "Operation Backpack" being conducted off the coast of being conducted off the coast of Taiwan.

Backpack is an exercise to test the amphibious capabilities and readiness of the forces of the Seventh Fleet and the Nationalist Chinese Navy. The exercise, with over 40,000 men and 140 units participating, will culminate in an amphibious assault on beaches of southern Taiwan, and will demonstrate the effectiveness of the United States Seventh Fleet to rapidly move a significant combat force to a troub-led area in order to assist an ally. Prior to the assault, aircraft of the Seventh Fleet will often beach de-fenses. In addition, support ships will conduct anti-submarine warfare ex-

ercises and the area surrounding the beachhead will be cleared of any obstructions and mines.

'Backpack" is similar to those exercises conducted periodically by units of the Seventh Fleet with SEATO and other allied nations in the Far East to improve their proficiency in coordinated amphibious warfare opera-tions and to maintain working relationships with allied nations.

## COUNTY COMMISSIONER NAMING

The recent decisions of the Republican Central Committee is questioned by many citizens of this County. With no reflections on the qualification of their appointees, it is felt by many voter-citizens of the County that Raymond J. Perry should have been named to fill the vacancy that appeared on the Board of County Commissioners of Carroll County following the death of Edmund L. Carr, a member of the board.

It is the duty of the Central Committee to fill the vacancy on the board following the death of a Republican member by naming a Republican.

This policy was followed with no respect to the wishes of the voting public.

At the last general election the results were as follows:

Bowman (D) 6327 Brauning (D) 6401 elected Carr (R) 7037 elected Crawford (D) 6405 elected Perry (R) 6203 Saylor (R) 6351

Brauning, Carr and Crawford war elected and the defeated candidates' standing, according to votes, were Saylor (R), Bowman (D) and Perry (R). Following the death of incumbent Carr it became the duty of the Republican Central Committee to name a man to fill the vacancy with a Republican and according to custom the next high man of the party should be selected-this man was Saylor who conditionally declined the offer. The next high man was Perry.

Even though Perry received 6203 tes at the last election, the com-

A MOCKERY OF **PUBLIC WELFARE** 

Not long ago, a leading pharmaceutical company published a photograph showing one of its physicians steadying a 34-inch stack of 8,000 pages of reports that were necessary to meet the requirements under new regulations applying to the issuance of a new drug. The new regulations are proving so burdensome that medical progress may be seriously retarded.

While the drug industry is struggling to move against a mountain of regulations and red tape rolling from the office of one government agency, another government agency, the Federal Power Commission, has presented natural gas producers with a "weighty" problem—a questionaire weighing almost 10 pounds which must be filled out in quadruplicate. The questions and instructions were sent to 114 domestic natural gas producers. The questionaire is believed to be the most detailed and extensive ever drawn by a government agency. It will require of each company an estimated 17,000-man-hours of work by specialized accountants. The cost in salaries alone will be about \$85,-000 per company.

The Commission said it needed the information it was seeking to enable t to fix the prices for natural gas. No industry objects to necessary and reasonable regulation. But there is nothing reasonable about 8,000-page new drug applications and 10-pound questionaires.

## HUMANITY'S SENTRY

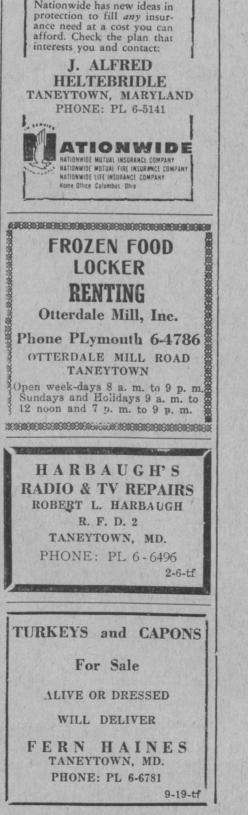

March, by Presidential Proclamation, is Red Cross Month. During this time Americans will be asked again to lend their support to this unique international organization which has done so much to alleviate human suffering throughout the world since its organization in 1863.

The great strength of the Red Cross is in its national societies, organized in some 90 countries throughout the world with a total membership of more than 157 million people. The League of Red Cross Societies with headquarters in Geneva, Switzerland, represents the national organizations and coordinates mutual efforts for disaster relief, development of programs, and staff training.

When a nation is stricken by flood, earthquake, storm, famine or some other form of catastrophe and needs outside help, it may appeal to the League, which then contacts the societies specifying the type of assistance necessary. Within hours, help is on the way, including food, medicines, clothing, and experienced relief personnel.

Finally, the International Committee of the Red Cross can move where no others can. For it is recognized by most states as the neutral channel for negotiations between belligerents, and as a means by which organized relief can cross battle lines or enter an area of conflict, moving between countries to points of conflict and suffering.

The Committee's representatives act as humanity's sentries. In its

Greetings to you:

Pastor Donald Brake of the Union Bridge Lutheran Parish was guest speaker at the Elmer A. Wolfe Mothers' Club meeting on the 4th. His topic was "The Responsibility of the School and Home in the Religion of the Child." He commented that it is indeed the memorability of the l indeed the responsibility of the home to see that a child has religious training and it is the responsibility of the school to further the character of the child; that psychologists feel that a child is already moulded in the way in which he will grow by the time he starts to school and that the old saying applies "as the twig is bent," so grows the tree." Grains of Gold (by W. Wileman) A lily drank a drop of dew, and shone with every rainbow hue. A drop of ink ran down \* pen, and wrote what moved a thousand men. A grain of wheat was multiplied a nation's harvest to provide. A thirsty plain desired a shower and all was green within an hour. A sunbeam floated down, and then the daisy smiled it back again. A multitude of grains of sand kept back the ocean from the land. A fertile mind re-ceived a thought, and with it twice ten thousand taught. A toiling preacher self denied, and hundreds live because he died.

when few people could read letters, pictures and emblems were used as shop signs, the emblem of the profession was a spirally painted white and red pole from which was suspended a brass basin with a semicircular opening in the rim. The white ground epresented the bandage used in bloodletting, the red stripe repre-sented blood, and the basin represented the vessel used to receive the blood. Strangely it has been the barbers and not the surgeons who have retained in a modified form, this ancient symbol of their profession in the United States the basin is generally omitted from the barber pole, but i

is still common in England. Ameri can barbers also added a blue stripe perhaps for the sake of showing the same colors as the national flag. This bit of information may seem just a little gory, but since television deals with so much of it, we thought the readers wouldn't mind this true story of the barber pole.

Whom do we call "the educated" Those who control circumstances instead of being mastered by them; those who meet all occasions manfully and act in accordance with in-telligent thinking; those who are honorable in all dealings, who treat good naturedly persons and things that are disagreeable; those who hold their pleasures under control and are not overcome by misfortune; and fi-

nally, those who are not spoiled by success. The most impressive evidence of

tolerance is a golden wedding anniversary.

I am very grateful to Mrs. Kenneth Nusbaum for information she furnished in her open letter about the Good News Club. We must confess that our idea of the Club was something quite different. We imagined it thing quite different. We imagined it was an adult association for the pur-pose of discussing events pertaining to literature, science, education, art and politics. However, as Mrs. Nus-baum so ably describes the work of the Good News Club, it appears that it is performing a much needed say it is performing a much needed ser-vice to the youth of the community, for it appears now more than ever before, youth is seeking for some reasonable guideline for their own actions and some clues to the real meaning of religion. Maybe this is the type of instruction that will help them find the answers to their ques

Does Carroll County need an air-port? We think not, if the taxpayer is to foot the bill. The skyways doesn't seem crowded over Carroll and since few people in the county can afford private planes why add to the tax load to build a field that would be just something to brag about. Better let the County Commissioners know how you feel on the subject. What is

now you reer on the subject. What is really needed in the county are some good black-topped roads. Insecticides have finally caught up with the dairy farmers. Spraying the with the dairy farmers. Spraying the hay crop seemed like a good idea . . . even a necessity, but it has turned out to be a calamity for some. Some-time ago we reviewed the book, "Si-lent Spring," in which the author predicted exactly what is happening now by the indiscriminate use of un-tested survey. Magy necesit tested sprays. Many people thought the warnings in the book a huge joke. But it isn't a joke when one is forced out of business by using sprays supposed to be harmless except to in-sect pests. Once again the farmer is in a dilemma. If he sprays be runs the risk of losing his dairy income; if he doesn't pray the insects will put him off the farm. So what is he to do? One farmer solved his problem by joining the Prace Corp and now is on his way to Indonesia to teach the people there how to use tractors. We wonder if they use sprays there.

When I was a child, everytime I passed a barber shop, I would look at the barber pole, with its spiral stripes and think of peppermint candy. But the trademark in front of a barber shop has nothing to do with candy. It's a relic of the days when barbers were also surgeons. As early as the fifth century A.D. the barbers Rome extracted teeth, treated wounds, and bled patients as part of their professional work. When the ondon barbers were incorporated in 461 they were the only persons practicing surgery in the city. In the reign of Henry VIII Parliament pas-sed a law providing that barbers should confine themselves to minor operations such as bloodletting and lrawing teeth, while surgeons were prohibited from barbery and shaving. It was not until 1745, only thirty rears before the American Revolution that the barbers and surgeons of London were separated into disinct corporation and the practise of urgery by barbers was not abolished n France, Germany and other Euro-

## STEERS FILES FOR CONGRESS

Newton I. Steers, Jr., on Monday Murch 9, filed for the Republican nomination for Congressman-at-Large from Maryland. Steers, Republican nominee for the same office in 1962. at the same time bosed a blast at tion as a "Funch of botchers and intchens!

By "botchers" Steers explained he referred to those who left the filing deadline for Congressional candidates on March 9, whereas the special ses-sion of the Maryland legislature to determine Congressional districts has been called for March 11. The result s that candidates, have to file for Congress without knowing what the Congressional districts will be or, indeed, whether there will be any. "It would be difficult to botch anything more thoroughly," declared Steers. By "butchers" Steers explained he referred to the majority of Governor Tawes' redistricting committee which has proposed to "slash Montgomery County in half, to hack Anne Arundel into thirds, and shatter Baltimore Cuonty into four pieces. This frenzy irrational hatchetry," stated Steers, "may properly be termed the action of a bunch of butchers." "Why should we make a shambles

of three of our four largest counties," asked Steers, "when it is completely unnecessary? The redistricting plan provided for in Senate Bill 60 meets constitutional requirements of equitable representation and at the same time cuts county lines no more than necessary. It is sheer spite to make everybody miserable just because some people have to be unhappy. The objective should be to make as few people unhappy as possible." "The administration proposal takes

care of one party henchman and flouts the wishes of well over a mil-lion Maryland citizens in Anne Arundel, Baltimore and Montgomery Counties. It also mis-districts Baltimore City to try and perpetuate the fief-doms of the three Baltimore City Congressmen. These men have beer the beneficiaries of unconscionable favoritism for more than a decade each.

Steers came to the Maryland area in 1951 to work as a U. S. Atomic Energy Commission official. let's not go into that. Cincinnati's pitching looks great and Frank Robinson and Vada Pin-

son will supply a one-two punch. But numbers three, four and five may be hard to find. Pittsburgh appears to be a fair team which will need a big boost from someone to be a conten-der. The Milwaukee Braves could make a fuss but they'll need another big year from the amazing Warren Spahn. Who is to say they won't get it? Chicago and Philadelphia may be better than rated. Houston and the New York Mets, well, the Mets will play in a new ball park this year and even while losing should enjoy it more. Houston's big new park is not ready yet.

Lesson for March 15, 1964

THIS WAS ONE of the momen-tous meetings in history. As so often is true, what you could have seen with the naked eye or with a camera, was not what you could have seen with the eyes of the spirit. To the outward eye,

Dr. Foreman Pilate had large numbers of soldiers to carry out his will, Jesus not so much as a single servant-boy. Pilate was officially the judge, and Jesus the prisoner; but now we know (would we have guessed it then?) that Pilate was being judged, not Jesus. Jesus walked out from that hall of "justice" a condemned man; but the verdict of the ages is that it was Pilate who was the guilty one.

## What Pilate thought

It is not mere guessing to sug-gest what Pilate was thinking, in that early morning court room scene. We know what he said, how

he acted, and so we can venture to say what he was thinking. "I have the power here," he must have thought. Of course. Did not Rome always have the power? What can a young and friendless barbarian (for so Pilate must have regarded his strange prisoner) do against my orders? The Governor could not know that this very prisoner would exert a power through the next twenty centuries far greater than any government has ever been able to impose. There now are societies that honor Jesus all over the globe; but where are the Pilate-societies? With Pilate's

death his power came to an end. With Jesus' death His power would begin anew.

"This man has done no wrong, but . . ." Pilate acted unjustly and he knew it. One trouble with that man was that he really cared for something else more than justice. "I have my own career to think of," he thought.

What Jesus thought What Jesus thought The prisoner looked on the judge with something between pity and contempt. He knew that Pilate knew nothing whatever about the case. He knew that Pilate, like some modern envoys, did not probably bother to learn the language of the people to whom he was assigned as gover-

nor-and that he had to depend on the chief priests and other religious leaders of Judea to guide him in his decisions. Pilate listened for the voice of power; and those who made the powerstructure in that country all said Guilty: Crucify this man. Pilate like all men in authority had to keep his ear to the ground, he had to know what people were saying. There was no difficulty in hearing them. The streets were full of screams. Luke says sadly that "their voices prevailed."

## Two kingdoms

Yet if Jesus ever had contempt for any man-and he did-he must have felt contempt for Pilate. The governor had one idea of what the real world is; the prisoner had quite another. Pilate believed in what he could see and handle and manage. Jesus believed in a Kingdom of Truth. He was not carried away by the word "King." When Pilate asked him, "You are a king, then?" Jesus said in effect, "King is your word. I was born to bear witness to Truth." This Pilate could not understand at all. A. kingdom of armies, fortresses, wealth, yes; but a kingdom of truth—what is truth? Jesus had not groveled before Pilate, nor asked him a single favor. But he had offered him his one chance, his last one. If Pilate had shown the least heart-interest in Truth, Jesus would have talked with him. He had talked with rich and poor, great and small before; he would have not refused to speak to the heart of the judge. But it was now too late. The judge had been judged. Is it not so always, when a man faces Jesus, and must choose?

## "Insect 'Invasion"

In 1918 the U.S. was invaded by the Mexican Beetle, very destructive to the bean crop and still active in spite of all the efforts toward extermination. In the 1930's the U.S. was invaded

by the Japanese Beetle, very destrucflower petals and is still here to torment the farmer or the gardener in spite of all the traps and other efforts toward extermination. In 1964 the U.S. is being invaded

by the English Beatle, lately arrived and is hereby described that all may be sufficiently informed. In appearance it seems to be a cross between an Orang-outang and a wiry haired Scotch Terrier, in fact, almost hu-man, but when disturbed, the weird cacophony of noise, sounding some-what like a bunch of sick cats under the back porch seems to detract from the human aspect. Its dertact the human aspect. Its destructiveness seems to be affecting many of immature cerebral capacity as news items report thousands of dollars in property destruction when the first litter landed on Miami, Florida; also was noted the peculiar asinine stu-York, and unless checked by court action or otherwise, you will soon see "Beatles" everywhere in Beatle Tshirts, sweatshirts, and other Beatle items, probably with a hairsuite 8 inches long and shirttail hanging out. In fact, one such, has already been expelled from school and a clothing manufacturer reports he has already sold more than \$1,400,000 worth of Beatle items with a retail value of more than \$2,500,000. Yes! We are doing as the Romans did, even if we are not there.

## News Item!

President Johnson says "We have many friends" but he failed to name even one. Newspapers can't locate one either.

### "Wake Up America"

In 1898 when Spain, "a modern tilla," treacherously blew up the Atilla Battleship Maine, the cry rang out across America, "Remember the Maine." Very soon Teddy stormed San Juan Hill, Dewey at Manila Bay said "You may fire when you are ready Gridley," and the Spanish fleet was destroyed and Spains dominion in the Far East ended, Sampson met Cevera's fleet off Santiago, Cuba, de-stroyed it with the loss of one man hilled then America neuron million killed, then America poured millions into Cuba to change it from slavery and starvation to become the Pearl of the Antilles, until the Red Castro seized more than a hundred million of American property, hundreds of American citizens and blackmailed Uncle Sam into sending over 50 mil-lion in drugs, etc., for their freedom in the meantime branding Americans as imperialists, pirates, etc., and in-vites his bosom friend Mr. Khrush-chev in to help belittle us as we send Cuba \$52,100,000 more in Foreign Aid while he demands the return of Guan-tanamo as his henchmen stand in the United Nations and call us robbers.

The Russians beg for wheat be-cause they don't have enough brains to feed themselves and then tell us they will bury us. Our guess is that they will squirm out of paying Uncle Softy for it, also as Secretary Seward paid Russia \$7 million for Alaska in 1867 we would not be surprised to hear that Khrushchey demands \$70 million more for it. As things go today Uncle would undoubtedly pay it. Pakistan received \$1,889,600,000 in Foreign Aid and used most of the

money to build a road to Communist China. Ghana received \$156,500,800 and are now picketing U.S. Embassy. Korea received \$5,433,600,000 and is

Korea received \$5,433,600,000 and is still half slave and half free, although probably due to the political wisdom of the little Artillery Captain then resident at 1600 Pennsylvania Ave., Washington, D.C., who recalled the Four Star General thus making null and void the sacrifice of American lives and dropping its military preslives and dropping its military prestige to zero. Ethiopia received \$185,300,000 to

Ethiopia received \$185,300,000 to buy a fleet of Cadillacs and build a \$10 million yacht for Salassie in a landlocked country. Japan, a defeated nation, gets \$3,-693,800,000; with it she builds more ships and ship yards while America, which won, shuts its shipyards down, and so on and on we might go with and so, on and on we might go with the same result in 95 countries but could anyone tell us where Uncle has gained anything except deepening contempt, in spite of the assertions of our President that we have many loving friends.

American officials are kidnapped in Venezuela and nobody can do any-thing about it but when a skinny malcontent like Lee Oswald renounces his citizenship but finds he doesn't like Rusisa, then Uncle Sam pays his way home.

### Conclusion

The great disease that has become epidemic in Washington is diagnosed as "Dolichocephalic Musculoctaneous Dystrophy" obviously a new disease, which has been discovered by American voters after years of painful research but is spreading rapidly to national, state, county and even mu-nicipal legislative bodies: Don't bother looking up its meaning in your dictionary for in layman's parlance it is simply "MUSCLE-BOUND FROM THE EARS UP!" -FLIVVER.
