Fight Tuberculosis Says The Carroll County TB Association

The announcement that on Tuesday, April 7th, the World Health Organization in cooperation with government and voluntary organizations throughout the world, including our own tuberculosis association, will focus a powerful global light on the huge problem of tuberculosis is indeed good news. The question frequently raised in my talk about tuberculosis? Is it not on the decline, they ask? Unfortunately, the answer cannot be in the affirmative. Tuberculosis was one of the diseases that President Johnson referred to in his speech to the United Nations General Assembly recently.

In many areas of the globe, including such cosmopolitan centers as New York, let alone underdeveloped parts of Asia, Africa and South America, the number of new cases of tuberculosis reported was higher than during the same period in 1962. Tuberculosis is not yet conquered. In every country in Africa, TB ranks with malaria and malnutrition as a main cause of illness and death. Therefore, the theme of this year's World Health Day Campaign, "No Truce for Tuberculosis," seems particularly appropriate.

In no sector of the world, including Carroll County, can we afford to relax our vigilance against this terrible disease. Progress has been great but no one can rest until there is total victory. In our community, in the United States and in the world as a whole, we cannot let up on TB.

Disease, including tuberculosis, does not recognize race, creed or color or for that matter, geography. It grows in evil and abundant fashion in many climates, in lands developed and underdeveloped. Thus it behooves all of us to try to achieve the World Health Organization's goal of "complete physical and social wellbeing." The Carroll County Tuberculosis Association is helping in a most practical way in its unremitting campaign against TB, one of the greatest global killers.

JAYCEES TO PRESENT ARSENIC AND OLD LACE

Rehearsals have begun for the comedy, "Arsenic and Old Lace," which will be produced by the Junior Chamber of Commerce, April 24 and 25 in the High School auditorium. After an exceptionally successful Minstrel last year, the Jaycees are confident that they have another comedy hit this year.

"Arsenic and Old Lace" should make for two solid hours of hilarious entertainment. The story revolves around two charming and innocent ladies who populate their cellar with the remains of socially and religiously "acceptable" roomers. This now famous comedy was presented for the first time by Lindsay and Crouse on Broadway in 1941 and was an immediate smash hit. A movie version was also made.

Reserved seat tickets will go on sale next week.

"A song is needed to express the spirit of the world today," says a composer. If such a song would be written, it could be properly interpreted only by Spike Jones and his orchestra. — Cincinnati Enquirer.

MEETING OF CARROLL COUNTY BOARD OF EDUCATION

The Carroll County Board of Education met in regular session on March 17 at 3 P. M. with President DeVries R. Hering presiding. Action was taken by the Board to approve a number of contracts for teachers for service in 1964-65 and certain replacements at various dates during the current school year. These appointments included: Mrs. Esther C. Thompson, Mrs. Leona V. Dell, Mrs. Donna D. Connors, Mrs. Althea V. Miller, Mrs. Norma Barnhart, Harold Griffie, Diane Schwarz, Mrs. Anna N. Meadows, Dorothy J. Petry, William C. Timberman. The Board took miscellaneous action in connection with certification and salary adjustments related thereto.

The principal purpose of the meeting was to consider plans for the submitting of material for consideration by the State Board of Education in connection with the Mount Airy Citizens' League which had been granted a hearing before the State Board. The Board reviewed the material which had been prepared by the attorney and after discussion and consideration, directed that the material be submitted as required, by the Superintendent.

The Board also was given brief information regarding the agenda for the April meeting at which time a number of important administrative matters will be considered.

The Board was advised that by its authority and through the attorney, L. Pearce Bowles, correspondence had been conducted with the State Law Department and the Attorney General, Thomas B. Finan. This was in connection with the original negotiations between the Board of Education and the Capital Improvements Commission with respect to the Board's responsibility and authority with the construction of school buildings. It had direct relation to the action taken by the Capital Improvements Commission in connection with disapproving a proposed site for a school building in the Oakland Mills area. An opinion has been requested because of the need to learn from the Attorney General the position of the Board and its responsibility, particularly with respect to Chapter 493 of the Laws of 1963, in which the Capital Improvements Commission was authorized. The opinion of the Attorney General was read to the Board to the effect that... "Section 56 of Article 77 of the Maryland Code (1957 Edition) grants to the county boards of education in this State the exclusive right to purchase grounds, subject, however, to the provisions of Section 40 of Article 77. Section 40 provides that the State Superintendent of Schools must pass upon all proposals for the purchase of school sites and approve all plans and specifications prior to the construction of any school building."

The opinion stated in detail the apparent powers and duties of the Capital Improvements Commission and may be quoted as follows... "The Commission is authorized and directed to make a full and detailed study of the type of construction, the plans and specifications, and the costs of all building projects in Carroll County on which the public funds of Carroll County are expended. After the adoption of this section no completed building project on which public funds of Carroll County have been expended shall be accepted by the County Commissioners of Carroll County except until and after the building project is approved by the Commission and the approval has been communicated to the County Commissioners." Further statement of the opinion was... "Accordingly, it is our opinion that the Carroll County Board of Education may proceed with the construction of its proposed school building without the previous consent of the Capital Improvements Commission, assuming of course, that the project has had the approval of the State Superintendent of Schools."

A motion was made and passed that the opinion be made a part of the record of the March 17th meeting and that proper publicity be given through all channels regarding the responsibility of the Board of Education in the construction of school buildings.

Bridgewater, Va., March 26th — Miss Barbara Ann Rinehart, a senior, made the Dean's List at Bridgewater College for the Fall semester. In order to achieve this honor, a student must make a 2.2 grade point average. Only 10% of the student body achieved this average.

Every one is most cordially invited to attend the Service which is sponsored by the Taneytown Ministerial Association. The bulletins for the Service will be provided by the Kiwanis Club.

WERE YOU THERE?

A well-known Easter hymn is entitled, "Were You There When They Crucified My Lord?" This is a thought-provoking question, and one which all of us should think about especially during this Holy Week.

Let us, first of all, consider the various people who played a part in Christ's crucifixion. Let us then, in the light of our own characters, try to imagine what our respective roles might have been, had we been in Jerusalem during that first Holy Week almost 2,000 years ago.

If we like thrills and crowds and excitement we would no doubt have been in the throng of people who welcomed Jesus into Jerusalem as He entered that ancient city, riding on the back of a donkey. We, too, would have shouted "Hosanna" as we waved palm branches and scattered garments along His road. But then, when Jesus refused to let us crown Him as our earthly king, we would no doubt have been in the very same crowd which, five days later, shouted, "Crucify Him!"

If we are inclined to be proud and self-righteous, it is entirely possible that we would have numbered ourselves with the scribes and Pharisees. These arrogant Jewish leaders hated Christ and were so jealous of Him that nothing short of His death would satisfy them. These men absolutely refused to believe that Jesus was God's only son. If we had been in their midst, we might have bargained with Judas Iscariot, offering to give him 30 pieces of silver for showing us where to arrest Jesus. Or we might have persuaded the fickle mob to shout "Crucify Him" when Pilate asked what should be done with Jesus.

It is even possible that some of us might have been Roman soldiers whose duty it was to beat Christ and then nail Him to the Cross. Crucifixion was the Roman method of execution. To these hardened men, it was merely a job to be done.

Our role might have been that of a scornful by-passer, who jeered at and mocked Christ as He was dying on Calvary. We might have shouted, along with others, "If You are really the Son of God, save yourself and come down from the cross."

However, had we been friends and followers of Jesus, the situation would have been entirely different. True, we would have forsaken the Master when He was arrested. Like Peter, we would have denied Him. But like him, we would have shed bitter tears over the whole affair. We would have stood at the Cross, heart-broken by the cruel suffering and shameful death of our Lord. We might have helped lay His body in the new tomb. And then, wonder of wonders, we might have been among the first to hear the joyous news, "Our Lord is not dead, He is risen!" We might even have peered into the empty tomb on that first Easter morning.

"Were You There When They Crucified My Lord?" All of us were there—maybe not in the flesh, but well represented by other people just like us. — Zola Cantwell.

Common speakers have only one set of ideas, and one set of words to clothe them in; and these are always ready at the mouth; so people come faster out of a church that is almost empty, than when a crowd is at the door. — Swift.

'SPICE 'N' EVERYTHING NICE'

(Your Chatty Column)

With all my heart, I wish you every morning A smile that shall last until the next day's dawning. I wish you health—life's greatest wealth; I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

Well, this year again, ladies hats are really flower gardens regardless of the colors and they are truly beautiful. Many coats are collarless for Spring and there will be capes and capes and capes and those in pastel shades too; but black is back and white is always right in suits, capes, coats and dresses! Dresses and skirts are still short, in fact I have seen many for the Spring to the knees, but if you do not have beautiful legs, don't attempt to wear the skirts short but below the knees.

Don't forget "JACUZZI" for a better you. The way to pronounce that name is as follows — Ja-cu-ze! You and you won't want to do without one when once you try it. It really makes you feel super-duper, in fact a new you and you know, dear Readers that I do not write about anything in this Column unless I have had the real experience.

Mr. man of the house when you are down town be sure and take home a bunch of posies for the best half, from the "Flower Man" on Lexington Street, near Park Ave. That will please the little Mrs. so much, for flowers always say, "I love you!" in any language. The nice part there is quite a variety right there.

Went from a M. D. who would not let me know just how high the B. P. was, so walked to the Chiropractor at 6 W. Madison St., and after the treatment, Folks—believe it or not it went down 46 points! And he told me just what it was before and after! I predict it will be a coming thing that the public will invest in those grand Chiropractic tables and call the Chiropractor to the home just like Sophie Tucker does and she was 80 in Jan.!

Now, here's one for that garage man to know so as his customers can have confidence in him. Don't keep making service calls and charges by giving him "shots" to the battery. This, I discovered that it could be the Spark Plugs alone that are worn out or it may be the Points. Now, since discovering about the plugs from a very reliable another garage man, the old car has plenty of zip and pep! I keep on learning, Folks but I do get shocked myself and you know when a person loses confidence, it is most difficult to restore and that is always when it is too late. You know what I mean! And that for anything in any business with Your Observer. Look or check the fan belt, too for they wear out and you may be quite a distance from a garage and that would be just too bad. Look at the pipes located to and from the exhaust or the muffler. Just like your own body so the car works and be kind to it. I can always judge a person by the exterior of his car even if he allows the snow on it over night.

I have discovered that "ATLAS" products are simply tops to every detail. They sell just everything for your car and it all lasts, too.

If your little girl or boy has talent for the organ by all means see the "Hammond" company on N. Howard St., right above Franklin, as they moved from the Charles St. address. That would be a grand birthday, Easter, or graduation gift and it means forever after!

Mrs. Housewife, as housecleaning days are approaching be sure and make it easy for you as to cooking. Here's one I discovered lately and all through "DOXSEE" those minced clams in the can. Be sure and get that brand and follow the directions on the can for "Manhattan Clam Chowder." Ummmmmmmm delicious and you won't have to cook one vegetable.

How sad at all times, Attorney General Robert Kennedy appears. He is getting thinner, too. He was a devoted brother to the President. I noticed how sincere he was as he sat with Jack Paar having loaned the latter a film of our former President to be shown that was taped in Germany.

The weekly report of that nice State Senator E. O. Weant, Jr., for Carroll County is to the point and so simplified that any teen-ager can understand. I prefer reading it to many other reports of "What's Going On!" down in that quaint little town of Annapolis.

Have observed the nice big ears of our President of these United States, Lyndon Johnson. What was it they use to say about big ears, Folks? I recall that little ears meant the individual was stingy. Eh?

So long, Folks. Don't plant the flower seeds until the middle of April as they will surely thrive then. Until next week. D. V.

I am,
Faithfully,
YOUR OBSERVER.

CHRISTIANITY'S BIRTHDAY

It's a fine time of year. The quickening of Spring is on the land and March 29 will be Easter Sunday. We are reminded of Irving Berlin's famous song, Easter Parade. The lyrics paint a vivid picture of the lighter side of this day and the melody comes back to our mind as we read the words — "In Your Easter bonnet, with all the frills upon it, You'll be the grandest lady in the Easter Parade." The musical genius of Mr. Berlin and the appalling inventiveness of the female mind have combined to make the Easter bonnet a kind of contemporary symbol of the observance of Easter. Tens of millions of Christians attending church on Easter Sunday morning may have a new bonnet, many millions more around the world will not, but the meaning of the day will be the same for all. Following the crucifixion, Christ rose in both body and spirit and Christianity was born.

For those of us who live in the northern hemisphere, it seems fitting that this time should come in the Spring of the year — a time for new bonnets and for rebirth and growth after the rigors of Winter. And for Christians everywhere, it is a time of rededication and renewed faith in the way of the Lord as a guide to a better life and a peaceful world.

FACTS AND OPINIONS

The American Medical Association recommends that some applicants for driver licenses be given medical examinations by physicians. This would be done when an applicant displays an obviously impaired physical function; when a driver has been involved in multiple accidents within a short calendar period, and when a driver must be placed on the "assigned risk" pool for insurance underwriting because of refusal by various commercial insurance carriers to assume the risk.

Thurman Sensing of the Southern States Industrial Council writes: "Poverty has existed since the beginning of history. In the United States, it has been alleviated as nowhere else. Charity has been carried to incredible lengths, in the private as well as in the public realm. . . . All good citizens want to continue such good works of charity. But this doesn't mean that the productive citizen, whether a farmer, industrial worker, white-collar employe or professional man is responsible for such poverty as exists in the nation. It is a fact of human nature that some people are shiftless and prefer to live as drones."

A bulletin issued by the Public Service Company of Colorado reports that a time-lock cigarette case is among the new crop of ideas aimed at the bemused cigarette smoker. It will help the too frequent puffer to go anywhere from 10 minutes to two hours between smokes. The case is preset from the inside and, when closed, will not open again before the preset time. The bulletin observes that hammers are effective, however, for those who overestimate their will power.

According to the Information Director of the Arizona Farm Bureau Federation, American farmers are deeply concerned about the Civil Rights Act. As now written, it requires the farmer to hire workers of all races, according to government formulas or "racial balance", despite their desirability, their individual worth and the farmers' independent judgment.

Senator Strom Thurmond says: "Khrushchev's wars of subversion take numerous forms, of course, but

in Africa, particularly, the first phase of such wars is to 'free' the colonies, possessions, and trusteeships from the influence and control of western powers, and make these countries 'neutralists' . . . Obviously, the more unstable the newly 'independent' country, the easier is the second phase of such wars, which consists of overthrowing the government and installing communists in control."

According to the American Petroleum Institute, a recently concluded study shows that "the total U. S. payments deficits during the years (1958-1962) would have been substantially greater" without the foreign operations of some 200 American oil companies. These companies, the study showed, produced a net inflow to the United States of more than \$638 million. The survey showed that the international operations of the 200 companies resulted in net payment surpluses in each of the past five years. The five year total surplus was in favorable balance by more than \$1.6 billion. In 1962, the companies' outflow of dollars was \$1.9 billion, while the inflow totaled \$2.5 billion.

Scrap Age reports that, despite U. S. protests, Spain is extending its dealings with Cuba. A pact for which sugar is exchanged for machinery has been agreed upon. A pending agreement would have Spain supply Cuba with ships and fishing boats in exchange for sugar and other commodities.

The President has told the House and Senate Commerce Committees that "our tangled transportation policies must be reformed."

How Some Farmers "SAVE" MONEY on OAT SEED
Some farmers strive to "save" money on oat seeds. They plant feed oats from their feed bins. Or they buy untreated, untested, "over-the-fence" seeds from their neighbors. Or they get "bargain-price" seeds from any old store or off a truck from strangers.
But these ways are not for you because your goal is to *make money*. You know that to make money with oats, either grain or forage, you start with top-quality seed. Southern States top-quality Seed, for example. Steer clear of feed oats, "over-the-fence" seed, "bargain" seed. No farmer can really afford the poor yields, diseases and weed grief that can result from planting inferior seed.
With Southern States top-quality Seed Oats, you spend pennies to make dollars. You get top yields and top profits, without weed problems.

CURRENT EVENTS
FIFTY YEARS AGO

Quite a number of "movings" have passed through town, this week, and a number of town residents have changed their location.

Taneytown will not have men out of employment this Summer — except those who don't want work — as the outlook is for plenty to do for all classes of mechanics and ordinary laborers. What is needed more than anything else is more dwellings.

The town of Mt. Airy was visited by a big fire, on Wednesday, which destroyed about \$50,000 worth of property. This is the third disastrous fire in the history of the town.

Morningstar-Shriner — On March 25, 1914 at the Lutheran Parsonage, Taneytown, by Rev. L. B. Hafer, Mr. Clyde W. Morningstar of New Wind and Miss Nellie O. Shriner of Taneytown were married. The bride is a daughter of Mr. and Mrs. John T. Shriner, of Taneytown.

Keysville — The following were regular in attendance at public school during the Spring term, in spite of the winter weather and snow drifts; Virgie Fox, Vallie Kiser, Victoria Waybright, Albert Welty, Wilbur Hahn, Roscoe Kiser and Victor Weybright. . . The Union Sunday School was re-organized last Sunday. The following officers were elected:

Supt. W. E. Ritter; Assistant Supt., N. R. Baumgardner; Secretary, C. A. Harner; Assistant Secretary, C. R. Cluts; Librarians, Misses Anna Newcomer and Lillie Baumgardner; Treas., Charles Cluts; Organists, Misses Bertha Stonesifer, Anna Newcomer and Elsie Baumgardner; Chorister, C. H. Valentine. . . A very enjoyable surprise party was held at the home of Peter Wilhide and wife, near Keysville on March 19th, in honor of Mr. Wilhide's 49th birthday.

Pleasant Valley . . . Mrs. Raymond N. Myers, nee Miss Hollis P. Leister who has been our assistant teacher has resigned and the vacancy filled by Miss Jeanie N. Weybright of Detroit. . . The attendance in public school during the last term was especially gratifying. . . The following pupils were neither absent or tardy during the entire term: Ruth N. Frock, Gladys M. Myers, Helen M. Zepp, Fannie Yingling, Margaret M. Myers, M. Pauline Helwig, Ruthetta Wantz, Herbert J. Smith, Guy E. Myers, Fern F. Myers, John L. Helwig, Clarence E. Welk, George H. Helwig.

Saturday, March 21st we had plenty of snow, from 7 to 8 inches at this place. Do you remember Palm Sunday, March 29th, 1942, when we had such a big snow, from 24 to 30 inches? The most snow I ever saw on the ground at one time, and to fall in such a short time.

The Hope of Easter, Christ's resurrection changed Mary from a mourner into a messenger; it changed Thomas from a doubter into a believer; it changed Peter from a denier into a preacher and it changed Paul from a persecutor into a missionary. For early Christians the Easter event became an Easter experience: a cleansing, life-changing, transforming experience. Today, nearly 2,000 years later, that Easter event is still the greatest hope in a world of fear and confusion.

—Dr. Paul S. James

The Middleburg Methodist Church Men did not have a good day, weather-wise, for their supper last Saturday. However, there were enough hardy folks around for them to sell about 250 suppers. Isn't that grand?

Mr. and Mrs. Paul Wildisan and Kevin of Westminster visited on Saturday at the home of her parents and brother, Mr. and Mrs. William Weishaar and Randy of Forest and Stream Club Road. Kevin stayed with grandmother and the rest of the family were among those attending the supper at Middleburg.

Ellen Fleharty and "Libby" Coshun were among those who attended the 8th birthday party for Roxanne Singer in Union Bridge on Saturday.

Week-end guests with Mr. and Mrs. Russell Stonestifer of Keysville were son and daughter-in-law, Mr. and Mrs. Richard Stonestifer of Rockville. Mrs. Richard Wilhide and Susan near Detour visited Friday afternoon with Mrs. Terry Poist, David and Dana, near Keysville (former Allender home).

She accompanied them in the afternoon to the Dedication Service held at St. James Lutheran Church in Union Bridge. A number of Keysville parishoners were present for this service and are happy that their sister church will now be able to enjoy nice indeed. Former pastor, Dixon Yast, took part in the service as well as Dr. Fife, who is President of the Maryland Synod.

Mr. and Mrs. Carroll Wilhide, Jane and Beth, near Detour were Saturday visitors with Mr. and Mrs. Melvin Schnappinger and family of Halethorpe, Baltimore. They "ran into" some nasty roads at Reisterstown and Westminster on their return trip.

Sunday visitors with Mr. and Mrs. William Weishaar and Randy near Detour were their sons and families, Mr. and Mrs. Larry Weishaar near Taneytown and Mr. and Mrs. James Weishaar and Bobby of Detour.

Guest speaker at Keysville Lutheran Church on Sunday was Mr. Neil Newton, who is a student at the Seminary in Gettysburg. Mr. Newton spoke on "Justification of Faith" and the "Priesthood of Man." He also assured us that God is always with us whether we notice it or not.

Ford Waggoner of New Windsor was guest speaker for the Lutheran Church Men of the Union Bridge Lutheran Parish on Tuesday evening (17th). Mr. Waggoner used the theme "God Will Take Care of You" and quoted the poem "Whisperin' Bill" which tells of a soldier who was wounded during the Civil War. Seems this boy's mind was affected and he couldn't remember anything but the truth his mother had taught him as a toddler: that "God will take care of you." This poem made a success of actress Jenny Potter O'Neil during the 1870's when she recited it on stage in N. Y., Boston and Philadelphia, so it is assumed it was written very shortly after the Civil War itself. Mr. Donald Leister, Vice President of the Lutheran Church Men in Carroll County, was also present and told the men of their organization

county-wide: some of their "doings" and statistics. Rocky Ridge group was host for the evening at the Mt. Tabor Church.

Saturday overnight guest at the William Fleharty home near Detour was her sister, Miss Carol Wolfgang of Washington, D.C. Carol came for the day but the snow kept her overnight instead. Grandmother, Mrs. Ralph B. Fleharty of Washington, also arrived on Saturday. She came with good friends, Mr. and Mrs. Edward Bageant of Washington, who were on their way to Westminster to pick up their son, who attends Western Maryland College. Mrs. Fleharty will now make her home with her son and his family so you'll be seeing her around.

Mr. and Mrs. Myron Wilhide, Denise and Renee, near Detour were Sunday visitors with her mother and stepfather, Mr. and Mrs. Charles (Bill) Phoebe, and Sharon and Alan of Union Bridge.

Miss Ethel Hartzler of Lewistown, Pa., who is on the Evaluation Team at the Robert Perry High School in Rockville, was a Sunday visitor at the Carroll Wilhide home. She will be with them again on Wednesday and Thursday. Miss Hartzler has two nieces who have also been visitors here: Carolyn Hartzler—now Mrs. Allan Conley—and Beryl Hartzler.

Did you see Mrs. Daniel Seibert (mother of our own Mrs. Richard Wilhide) of Clear Spring on TV on Saturday. Eleanor Nash of the Washington Star had a program called "Teen Talk" on Channel 2 at 3:30 P. M. which was panel discussion.

A panel of teen-agers from Clear Spring were asked questions by the principals of both the elementary and high schools of Clear Spring. Mrs. Seibert as parent and the President of their P.T.A. about "leisure time and how it can best be used."

The Monocacy CYP held their March meeting on the 17th at the home of Mr. and Mrs. David Reifsnider near Keymar with Rankin Lusby as their speaker. Mr. Lusby, who is associated with the State Office of Farm Bureau, showed slides and told of his recent trip to the United Arab Republic. He told of many customs of the area, mostly of a farming aspect, and his pictures were most interesting and informative. The April meeting will be held at the home of Herman Steffen of Sixes Bridge Road near Detour.

I'd like to take this opportunity to wish each and every one of you and yours the very finest of Easters from me and mine.

—Dharlys Fleharty.

Cub Pack 459 Meeting

Cub Pack 459 met Friday evening, March 20, at the Union Bridge Church of the Brethren. Cubmaster Weeks opened the meeting by having everyone join in singing "The More We Get Together."

Cub Glenn Weeks led the Pledge to the Flag and Cub "Dickie" Stultz led the group in singing "America." Mr. Richard Stultz read a humorous story and everyone joined in saying "My Paw says so" whenever he paused after saying "cause." Mrs. Earl Myers read the poem "Just A Boy."

Cubmaster Weeks extended welcome to new member Mike Carioffe and his mother. He advised the group that Richard Stultz has been appointed Committeeman to replace Earl Myers who has accepted the post of Neighborhood Commissioner. He also announced a Committee Meeting for Wednesday evening, the 25th, for Den Mothers, Committeemen and Chairmen to do some summer planning since there are no regularly scheduled Den Meetings during June, July and August.

Den 3 had the Closing with all the Cubs joining in the Living Circle and repeating their motto.

Mrs. Luther Houck and Mrs. William Fleharty furnished the refreshments for the evening.

Keysville-Detour Homemakers Club "Identifying Quality Furniture Construction" was the topic presented to the Keysville-Detour Homemakers Club by Mrs. Patricia Stabler, Extension Agent, on Wednesday afternoon, March 18, at the home of Mrs. William Fleharty near Detour.

Mrs. Stabler opened her program with a few words about the 4-H program and how it benefits boys and girls by teaching them things that will be needed in later life: things often not learned at home. She stressed the "YOUth depends on YOU."

There is a simple arithmetic for furniture selection, she told the group, and that is Style plus Function multiplied by Construction divided by Price and this equals the Appropriate Choice. Two types of furniture construction and they are Wooden (sometimes called case goods) and Upholstered. In wooden furniture one should check joints, drawer construction and hardware; also rock it for evenness and open doors and drawers for ease of opening and closing. New plastic tabletops are very good and worth considering. In upholstered furniture one should check the joints, if sanded smooth, for corner blocks and kiln dried hardwood as well as screws and bolts to reinforce legs rather than nails; 16 coils are best for springs and a minimum of 4" for foam cushions. Mrs. Stabler concluded with six important comments: Ask the salesman, read the labels, look for reliable names and dealers, take your time, think about the way you live and furniture will look different at home than in the store.

The record by Dr. John Furbay, who is an internationally known lecturer, explorer and author, was played. He spoke of the "Four Dreams of Man" which are Peace, Freedom, Government and Human Dignity.

There were 15 members and three visitors (Mrs. Richard Wilhide, Mrs. Donald Stenley and Mrs. David Watkins) present. Mrs. Watkins joined the Club at this meeting. President Mary Ausherman made several announcements: Open House will be Thursday, May 7, from 10 A. M. to 1 P. M. with lunch being catered by Benny's Kitchen in Westminster and tickets are now available until April 30. Rural Short Course will be June 15 to 20 at Md. University. The Annual Dinner at the Ag Center will be April 4 at 7 P. M. with Mr. Grier as speaker. This will be in honor of

the 10th anniversary of the Ag Center. Mention was also made of the Slipcover Workshop in April and the Williamsburg Tour April 22 and 23.

The next meeting will be April 15 at the home of Mrs. Harold Thomas with Mrs. Charles Stonestifer as co-hostess. Topic will be "How to Deal with Your Tensions."

For those who are 50 or over, the wise words of Dr. Clendering may give you some comfort. "On the whole I am inclined to say that after the age of 50 no one should ever allow his blood pressure to be read, or if it is read, for a life insurance examination, to be known to him. The knowledge causes too much unhappiness. Life should be designed for living for the fullest expression of joy and activity. It is better that it should flame out in the full heat of exuberance than that it should ebb and flow, watched by apprehensive eyes, with the bobbling of a column of mercury."

Dr. James Teeter was the guest speaker at the evening service in the Church of God, Uniontown on Sunday evening, Dr. Teeter and his family live in Waynesboro, Penna., they formerly lived in Taneytown. Last Summer the Teeters worked in a mission hospital on the Ivory Coast in West Africa. They plan to repeat the experience this Summer. While working in Africa, Dr. Teeter took colored slides of the mission hospital, members of it's staff and some of the patients they worked with. Also pictures of the landscape and of the people who live in this part of Africa. From the pictures one came to the conclusion that this is a very satisfying and rewarding life even though few people are willing to give up the modern world for mission work in a faraway country. To those who do go, humanity will forever owe a debt of gratitude.

The brook would lose it's song if we removed the rocks.

for he has been able to convey to the general public much of his knowledge on the subject in the language it can understand. Recently, Sears, Roebuck and Company employed him to collect 50,000 paintings which were later offered to the public at bargain prices. They were snapped up in record time which proves that people in all different income brackets are interested in good art. Leisure time and increase money supply brings out the yearning for better things in all of us. Art, in one form or another, is hidden somewhere in each of us. It emerges when we are not compelled to use all of our energy and money for the necessities of living. Ancient civilizations built their best forms of art when they were free from war and free from famine. If this is true of the past, think what the future has in store for civilization when it gives up its arms race and its hatreds and settles down to devoting its genius and wealth to creating art.

One of the complaints heard daily in all parts of our great nation is this: "No one cares about the individual any more." This is one of those statements that are repeated but given no real thought, for if the individual would really think about it, he would find that quite a lot of people care about his welfare and his future. Pick up the local paper and learn what the work done by volunteer organizations is doing for the individual, either directly or indirectly. Begin with the Fire Companies, which are all volunteer in our small communities. They care whether your property is safe from fire and whether you reach the hospital in emergency. The Boy Scouts and Girl Scouts care whether the girls and boys of a community grow up with good physical and moral backgrounds. The Lions, Kiwanis, Rotary, Soroptist and the Chamber of Commerce organizations care about the environment you live in and the Churches care about all your spiritual needs. The Tuberculosis Association cares about your health and the American Legion and the Veterans of Foreign cares about your patriotism. When you realize just how many persons are engaged in worrying about your welfare, then you become a little embarrassed in repeating that meaningless statement that "nobody cares."

A young lady oyster had just returned from her first date with a dashing young lobster, and was telling another young oyster about it. "He was simply marvelous," she said. "First, he looked deep into my eyes. Then he put his arms around me. Then . . . A look of horror came over her as she clutched her throat and screamed, "Good heavens! My pearls!

Each week when I hang my clothes on the line I hide behind the sheets in fear of the white horse and his white helmeted knight dashing down upon me and spraying my clothes and me with that certain stuff that I do not use. Of all television commercials, that one irks me the most. Are women really persuaded to change soap powder brands by this type of advertisements? Most women do take pride in hanging up a pretty, white wash. But the few women that I have talked with about this, say they have used the same brand of soap powders ever since they have been managing a house, and doing the laundry. And as for the dozens of bleaches on the market, there is one provided by nature which outclasses them all. That is SUNSHINE.

The Union Bridge Community Center Park Board is to be congratulated upon the wise and democratic policies it has adopted concerning the use of the community center. The Center is the nicest thing that has happened to Union Bridge for a long time. It should be a source of deep pride for all its citizens now and for the future. The park board is made up of men who are leaders in the community and interested in keeping the Center as the focal point for all community activities. The policies adopted will do this and be fair to everyone.

For those who are 50 or over, the wise words of Dr. Clendering may give you some comfort. "On the whole I am inclined to say that after the age of 50 no one should ever allow his blood pressure to be read, or if it is read, for a life insurance examination, to be known to him. The knowledge causes too much unhappiness. Life should be designed for living for the fullest expression of joy and activity. THE CROSSES ON CALVARY

On Calvary on Good Friday there stood three crosses. According to the Scriptures, on the center cross hung Jesus Christ. On each of the other two crosses hung a thief.
The thieves apparently had some idea who Jesus was. One of them said, "Are you not the Messiah? Save yourself, and us." The other one said, "Have you no fear of God? You are under the same sentence as he. For us it is plain justice; we are paying the price for our misdeeds; but this man has done nothing wrong."
The second thief then said, "Jesus, remember me when you come to your throne." Jesus answered, "I tell you this: today you shall be with me in Paradise."
See how these two men reacted to Jesus. They were typical of man today. All three men on the three crosses died. But their deaths were not all the same. One died in sin. One died to sin. And the other died for sin.
The second thief knew his hours were numbered and asked for forgiveness. He was forgiven and thus died to sin.
The first thief thought only of the present and how he might regain his physical freedom. He taunted Jesus. He died in sin.
Jesus Christ died neither in sin nor to sin because he was without sin. He died for sin. Paul said that "God was in Christ reconciling the world to himself, no longer holding men's misdeeds against them." Here was the expression of God's love. "Christ died for us while we were yet sinners, and that is God's own proof of his love toward us."
Everyone to whom the message of the cross is presented must decide for or against the Christ who gave his life a ransom for sin. Shall we, like the impenitent thief, fall in with the spirit of the world and rail at Christ and his teachings? Or shall we, like the penitent thief, yield to the Spirit of God and pray to Christ for forgiveness, and thereby find life eternal?
As we gaze in hallowed awe upon that most sublime spiritual spectacle of all time, may our hearts be melted in deepest penitence and thrilled to highest adoration of the Holy Name of Jesus Christ. May we look upon Calvary determined as never before to harness to our lives the mighty power of the divine love revealed on Calvary.

THE WAY I SEE IT . . .

Observations on the World of Sports
The way Hank Bauer, Baltimore Orioles manager, looks at it, there were four players on the team last year who zigged when they should have zagged. Now, if they go back to zagging this year, the Orioles may zig-zag their way into the World Series ahead of the startled New York Yankees. Bauer, a blunt man, says: "I think we can take it all, provided those four guys have the year they are capable of having."
The four guys are third baseman Brooks Robinson, center fielder Jackie Brandt, second baseman Jerry Adair and pitcher Chuck Estrada. Brooks hit only .251 last year, after clubbing the ball for a .302 average the previous year. Adair skidded to a .228 average last season, after posting a .284 average in '62. Brandt dropped from .297 to .284. Estrada, a potential big winner, was troubled all year with a sore arm and won only three games while losing two.
Bauer, a former Yankee star, looks at the New York club with a cold eye and says: "They're not invincible. They can be beaten and I'll tell you something, I don't envy Yogi Berra. He has the hardest job in baseball. If the Yankees finish second he'll be a failure." Hank thinks the Baltimore pitching could be equal to any staff in the League. He names Steve Barber, Milt Pappas and Robin Roberts as starters. Then he mentions Estrada and also Mike McCormick and Dave McNally. Harvey Haddix may help the bullpen. Stu Miller, Dick Hall and Wes Stock, three hold-over firemen, all are right-handed and Haddix is being counted on to handle the southpaw relief assignments.
The Orioles think John Orsino will be one of the best catchers in the league this year, and he has Dick Brown to help him out. Jim Gentile is gone from first base but Norm Siebern was picked up in a big trade with Kansas City and will take his place. Siebern does not have Gentile's power but he is a more consistent hitter. Adair handles second base with professional skill and Luis Aparicio is a scooter at shortstop. Luis also is one of the finest base runners in the league. Robinson is a dependable glove man at third and is capable of a .300 or better batting average. The Orioles are expecting a lot of John (Boog) Powell, the left fielder who is built like something left over from the Colts. He hasn't yet had that tear-the-league apart season that has been expected of him each spring. But this could be the year. He has the muscle to set a hot pace at the plate for the rest of the club.
Brandt always looks the part of a big leaguer but he, too, has disappointed in the past. Jackie is a steady fielder and is better than an "out man" at the plate. Willie Kirkland, a slasher at the plate, probably will be in right field. Kirkland is mighty impressive when he has the ball in his sights. But he is not the most consistent man in the league. Sam Ewens, a rookie outfielder, is a possibility to break into the starting lineup. The Orioles definitely have added more speed this year and probably will play the running game more often than in past years.
Bauer is fully aware that his predecessor as manager of the Orioles, Billy Hitchcock, did not always have the complete support of his players in the past. But Hank does not intend to go around cracking the whip of discipline. He puts it this way: "Every club in baseball needs a certain amount of discipline. The Orioles need no more and no less than other teams."
It's great to be a winner in any sport. It's even better when you are a consistent winner and run up a total of eight straight division titles. I'm speaking of the Boston Celtics of the National Basketball Association. Any club that wins that many times is bound to pick some "Celtic haters" along the road (as the Yankees in baseball). After watching the "green tide" run up the score on the Baltimore Bullets one Sunday, I must be counted among the growing number of "Celtic haters." It's something to win a game and again it's something

else to run up a score against a team that was dead tired after a long and hard road trip. The TV camera showed the Celtic bench as the Bostonians continually stole the ball late in the game and made basket after basket after they had a comfortable lead, the players seemed to make sport of just running up the lead on the hapless Bullets. It seemed to be real fun for the champions to do this. Why? That's a good question. Boston already had won its division title and surely Baltimore hadn't given them too much trouble in the season just about completed. It seemed as though Boston enjoyed playing the part of the town bully who enjoys picking on the smaller boys and beating them up just for the sport of it. The Boston players on the bench were laughing and having a grand time watching the spectacle on the floor. Surely this is no way for "champions" to act. Every time that Baltimore beats Boston next season (and this probably won't be too many times) there will be great rejoicing at least in my part of town, and, I would imagine, among the rest of the Celtic haters association.
Remember When Dept. — Gene Woodling, now a coach with the Birds, was selected Most Valuable Player with two different teams. With Cleveland in 1957 and with Baltimore in 1959.
Today's Sport Laugh — When Ray Berry of the Colts asked his wife to throw him practice passes she replied: "Ray, I'd rather not. It's embarrassing. People will think I'm not very feminine." Berry answered: "It's all right. The other guys will envy me. They all wish their wives could throw." — John Breth.

HOME OWNERS' QUESTION BOX

Q. Can I assume that if a new house is insulated to meet FHA standards that it is insulated adequately?

A. No. FHA's Minimum Property Standards are just that—minimum. You'd be wise to follow the recommendations of the National Mineral Wool Insulation Association, which call for mineral wool with an installed resistance to heat loss of R-19 or R-24 in ceilings, R-11 in walls and R-13 in floors above unheated spaces. Following these standards will provide more comfort and will reduce heating and cooling bills.

Q. We are remodeling a rambling old house—circa 1780—and want to use modern materials without spoiling its Colonial air. What sort of roofing material "goes" with Colonial?

A. Dark colors are most appropriate. Heavyweight asphalt shingles in one of the dark blends

are being used extensively with both new and old Colonial-style homes because they look right and wear well.

Q. We plan to build a typical Colonial house with many small panes of glass. This type of window looks great, but seems to take forever to wash. Any suggestions?

A. If you'd asked me this question 10 years ago, I'd have had to say no, but today there's a solution. Specify ponderosa pine windows with removable grilles. These grilles are available in either diamond or rectangular patterns, and they snap in and out in seconds. With the grille out, you have only a single pane of glass to wash.

Q. What will remove a shellac stain from a wool carpet?

A. Try carefully sponging the spot with alcohol.

Bermuda Profile

Year-Round Paradise

From the balcony, a view of coral sands and sparkling sea... the feel of a warm and tropical sun. In the distance, the sound of a calypso band. Small wonder that Bermuda—only an hour-and-a-half from the U.S. by jet—is one of America's favorite year-round vacation lands.

Key word for Bermuda is romantic. The capital city, Hamilton, maintains its old-world charm right alongside modern shops and facilities. A buggy ride in the city—"with your sweetheart by your side..." as they say in a native calypso song—is a must for every visitor.

Water is never more than a mile away from any spot on the island... and there's every kind of fishing available. Some hotels, like the Elbow Beach Surf Club, have private beaches and pools for their vacationers.

Rooms at the Elbow Beach combine the best features of living room, bedroom, and outdoor terrace. There are also Lanai suites and more secluded surfside cottages. Guests can eat breakfast and luncheon on an open terrace... enjoy nightly entertainment in the

chic supper club. Among the extras the hotel offers: midnight picnics on the beach, tennis lessons, an 18-hole golf course, and English bicycles—courtesy of the house.

Many a visiting "explorer" rides a bicycle to the nearby limestone caves filled with pink and white sand and uniquely-shaped stalagmites. Strangely enough, one of the caves has an almost perfect bust of Shakespeare!

It's discoveries like this that make Bermuda the complete island paradise for Americans of every age.

St. Croix Holiday

For a Taste of The Good Life

Picture yourself high above a sparkling beach, overlooking the magnificent blue waters of a calm tropical sea. Add a vista of lush green hills rolling down to the nearby shore. Imagine a crown of unbelievably snowy white clouds. Sit back and relax.

You're in St. Croix (pronounced "croi"), in America's Virgin Islands and you're as near to paradise as you're likely to get for some time.

Your plane will arrive at Christiansted, St. Croix's capital. From there it's seven quiet, motorized miles through the heart of the island's sugarcane fields to the country-club atmosphere of the modern Grapetree Bay Hotel and Cottages.

Located right on the Caribbean, the Grapetree properties include 32 resort cottages, each with its own secluded dining patio. Informal, friendly Grapetree is a perfect retreat for honeymooners (with special plans available) or families with children.

Sports from tennis to deep-sea fishing are yours for the enjoyment. But for the thrill

of your life, take a Grapetree sloop on a guided sea tour through Buck Island Reef National Park. You'll explore the famous underwater sea trail, drifting effortlessly over beautiful coral formations inhabited only by brilliantly colored rare tropical fish—and you.

At sunset meander to poolside for a taste of cooling trade-wind breezes and, perhaps, a movie under the stars. Close your eyes as the rhythms of a native Steel Band drift across the island. You're in St. Croix and all's well with the world.

MORE PROGRAMS FOR YOUR CLUB

National Garden Bureau, the educational service of the garden seed industry, announces three new programs for 1964. In addition to the three offered in this publication last year. These programs are loaned to groups, the only cost being postage and insurance.

The new programs include two illustrated with 35mm kodachrome slides and one quiz program. The slide programs are titled "What's New For Your 1964 Garden" and "First Steps in Arranging Annual Flowers."

The "What's New" program shows new introductions, both flowers and vegetables, plus new ideas for gardens, all in brilliant color.

The "First Steps" are just that. Simple flower arrangements of popular, easy-to-grow annual flowers are shown, step by step, from selection of container to finished arrangement. Scripts to be read as the slides are viewed accompany both programs.

The quiz program is a real test of identification and is intended for groups well advanced in gardening knowledge. Called "Mix n' Match Vegetables and Their Flowers," it pictures a group of vegetables on one sheet; the flowers of these same vegetables on two additional sheets. The contestant will enjoy matching the mixed pictures.

An introduction and conclusion, plus instructions for the program chairman accompany this program. Seed prizes will be presented by National Garden Bureau to the three persons scoring highest in each group using the program.

The three programs announced in 1963 have been augmented by additional sets of each to supply the demand for 1964. These include: (1) a program of 35mm kodachrome slides called "See What Seeds Can Do For You," supplied with a script to be read by the program chairman; (2) a program of seed catalogs from all over the nation, titled "Your Garden's In The Catalogs," complete with introduction and conclusion.

(3) A quiz program consisting of twenty 16" x 20" black and white pictures of annual flowers with hints as to their identities. An introduction and conclusion are sent with this program as well as quiz forms to be filled in by contestants.

A gift certificate for seeds and two seed prizes will be sent by National Garden Bureau to the three persons scoring highest in each group which uses this quiz.

The three programs last described have been used and commended by hundreds of groups of varying sizes and kinds. Kiwanis, Lions and other luncheon groups; 4-H clubs, church altar groups, men's clubs, women's clubs and garden clubs all have found them interesting and entertaining.

The six programs are available from National Garden Bureau, 708 West Long Lake Rd., Bloomfield Hills, Mich. Write for a request form.

Travel Log by Judy Graham

Amerigo Vespucci, the navigator who lent his name to this continent, thought the Caribbean island of Curacao a beautiful haven when he shared in its discovery with Alonso de Ojeda in 1499.

Modern travellers find more people than did Vespucci—but the same serenity. A favorite spot for sun-bond vacationers, Curacao has the added attraction of being a free-port. Duty-free gifts can be bought at prices up to 40% cheaper than in the U.S.

This Netherlands Antilles island has enhanced its personality by encouraging new industries with benefits that can even include a 10 year tax holiday. For further information on tourism or investment write: Curacao Information Center, 1270 Avenue of the Americas, New York, N.Y. 10020.

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

Easter Faith
Lesson for March 29, 1964

Background Scripture: John 20:1-29.
Devotional Reading: Corinthians 15:42-57.

EASTER IS a Christian festival. That seems to insult your intelligence, perhaps? No offense is intended. But Christians as well as non-Christians need a reminder that apart from the Christian faith there would be no Easter.

All sorts of people try to latch on to Easter, so many in fact that it is observed as a holiday season by millions of people who have not the least idea what it really means.

Dr. Foreman: What word goes most often with "Easter" in newspapers and greeting cards? Over and over you will see or hear the expression, Easter bonnet, or Easter outfit, or Easter parade. A day to show off, to dress up to the nines and in fact try to out-dress everybody else; to make yourself into a fashion model. Sometimes the reason is given that because this is the season when all nature is bright and singing, we should be bright and gay ourselves. But of course this is not it, it isn't even a parody, it is not the Easter idea at all.

It is not a festival to celebrate the returning spring. There is a poem which is quite lovely and yet makes a sad mistake about God. The last lines go:

"Green April is thy very soul,
Thou great Lord God!"

But green April is not God's soul. Its beauty was no doubt in God's mind before the world began; but God's soul is not a season of the year.

Faith on the first Easter

Easter does not celebrate even immortality or resurrection, though this is getting "warm." On the first Easter morning in Jerusalem, what disciple of Jesus was happy? Not one, so far as we know. The disciples were anxious, downcast, in dire confusion. In a few hours it was quite different; but when that Sunday morning dawned, although all Jesus' friends so far as we know believed in immortality or resurrection, they were not made happy by that belief. We have two examples in John's story: Mary Magdalene and Thomas the apostle. Each of them began the day in confusion and sorrow. Spring had come, but how empty and mocking spring can be to a grieving heart! Mary on that very day, and Thomas a week afterwards, came to the Easter truth, the great fact: He is risen! That is the right message of the day. Not, we shall live again (although that is included), but He lives. By His resurrection Jesus was proclaimed Lord of death and the place of the dead. (See Rev. 1:17-19.) Now Mary and Thomas were quite different in their own expressions at their first discovery of the truth. Thomas said "My Lord and my God!" while Mary Magdalene said only "Rabboni!" which means "My teacher." Mary had a long way to go before she came to have the faith of Thomas; but Christ does not rebuke her for not being humble enough. If you start with realizing that in Christ we confront one who has battled with death and won—won a victory for us all—and if you keep on thinking what that means, you will be sharing the meaning and message of Easter tide.

Because He lives . . .

If that had been all it would have been enough. But there is something more. Christians have long believed: Because He lived, I too shall live! The writings of St. Paul are bright with the thought that we share in the risen life of Christ. The Resurrection, which is the reason for Easter, is also, and more importantly, the reason for the Christian's life of joy. Easter is not merely a time to re-tell wonder stories from the days of old. It is not a time to celebrate the heroic triumph of Jesus of Nazareth alone, it is a time to begin to share in the triumph. Each Christian is set free to say, because this is His Day, it is my Day no less. What does it benefit us that a light brighter than the sun shone in Joseph's garden long ago, if no light is kindled in your own soul?

Never Too Young To Learn Safety

Phil Silvers switches roles from comedian on his Saturday night CBS television show to his private-life role as father of twin 2½-year-old daughters, Candy and Cathy. Phil gives the youngsters some pointers on fire prevention and safety from the Junior Fire Marshal Magazine. This spring, more than 4.5 million boys and girls in the Junior Fire Marshal program, a public service activity sponsored by The Hartford Insurance Group in elementary schools across the country, are carrying out a special campaign to survey community fire and accident causes. The popular TV and movie performer's twin daughters have been named honorary Junior Fire Marshals.

PROGRESS
FOLLOWS IN THE WAKE OF KNOWLEDGE TO SHAPE OUR LIVES...

In the 25 years since the invention of FIBERGLAS by OWENS-CORNING, FIBERGLAS BOATS FROM PLEASURE CRUISERS TO TOP RACY SPEEDBOATS FOR FISHING AND WATER SPORTS, HAVE SHARED IN MAKING BOATING AMERICA'S NO. 1 WARM WEATHER ACTIVITY.

The versatility of FIBERGLAS TO ACCOMPLISH HULL CONSTRUCTIONS DESIGNED FOR PERFECT HYDRODYNAMIC PERFORMANCE MAKES IT EQUALLY SUITED FOR THE FORMING OF SOME 30,000 PRODUCTS SUCH AS SHAFTS FOR GOLF CLUBS, FISHING RODS, GUN BARRELS, SKIS, ETC.

The knowledge of the properties of this inorganic material, which has greater strength for weight than almost all other materials and is practically impervious to corrosion, fire and moisture, accounts for its importance and use in other fields such as construction, textiles and aerodynamics.

Field trials of vaccine against Asian influenza conducted in 1957 by Commission on Influenza, Armed Forces Epidemiological Board. Data from American Review of Respiratory Diseases, 83: 147 (1960). Variation in figures due to differing potencies of vaccines tested.

Your chance of remaining well during the cold winter months ahead may be increased if you take certain simple precautions now.

With the onset of winter, the commonest causes of illness are various respiratory infections. Of these, influenza is undoubtedly most important. It breaks out in epidemic form about every two or three years, affecting large numbers of individuals within a short time. It is a more serious disease when it occurs in the middle-aged and older groups and in pregnant women. Influenza takes its greatest toll among those who are chronically ill with such debilitating diseases as high blood pressure, rheumatic heart disease, asthma, bronchitis, tuberculosis, and hardening of the arteries.

The health hazard from flu has in the past been lessened by a simple immunization program. Vaccination now is recommended as a useful precaution, and, if the virus does not change, should provide protection for a significant number of individuals. The chart above shows that in 1957 Asian flu was substantially reduced after vaccination.

Flu vaccine is manufactured according to formulas and procedures prescribed by the United States Public Health Service. It presently contains killed virus of the A and B strains now prevalent in the United States, and of several other strains known to cause influenza in the past.

Surgeon General Luther L. Terry strongly urges the use of flu vaccine, especially by certain groups. He has repeatedly emphasized that the chronically ill and those over forty-five, but especially those over sixty-five, should be vaccinated. For some of these people, timely immunization may be a life-saving measure.

A THOUGHT FOR EASTER

The message of Easter is far deeper and more vital than can be symbolized by rabbits, or lilies, or even the latest in Spring attire.

Just as Spring brings an awakening of much in nature that seemed dead during the Winter, so Easter brings to our souls the glorious assurance of divine victory over death.

We recommend that you attend church on Easter Sunday and every Sunday.
