## New Professional Building for Taneytown

Ground was broken last week for the new Taneytown Professional Building at 438 E. Baltimore Street. This facility is being erected by the Perry Builders.

Taneytown will now have the most modern professional building with the offices of Drs. Paul Roxin and Marvin Apter, dentists, and Drs. Sheldon Keyser and Sheldon Liebowitz, optometrists. Negotiations are still underway to secure the professional services of a podiatrist and orthodontist. The building will be a one-story contemporary structure the exterior of which will be white Ranch Rock with a black shingled hip roof. Patient parking will be available at the rear of the building. It was the architect's opinion that this design would add to the dignity and charm of Taneytown.

Dr. Roxin has expressed his confidence in the growth of Taneytown and Carroll County by the erection of this building. It is his hope that more professional services will be made available to meet the ever growing needs of our community. Completion date for our town's new building is expected by mid-October 1965.

## MEETING OF BOARD OF EDUCATION

The Board of Education of Carroll County held a regular meeting on August 18 with all members present. Minutes were reviewed and adopted for the regular meeting of July 21 and special meetings of July 29 and August 3.

Action was taken to approve contracts for the following to be assigned to available school positions: R. Kenneth Hood, Jane B. Bryan, Donna S. Unterberg, Catherine J. Blackman, Mrs. Emma Godnell, Mrs. Ann W. Norvell and Diane Nadeau as teachers; John McLaughlin as school psychologist; and Mrs. Jessie Peeling and Mrs. Kathryn Green as school secretaries. Resignations were accepted from the following: Phyllis C. Enzor, Mrs. Catherine Henry, Mrs. Dorothy R. Brown, teachers, and Mrs. Catherine Albrecht, secretary.

Miscellaneous action was taken in connection with payments for special services by teachers in summer programs.

Approval was granted for participation in the purchase of band uniforms for the Taneytown High School Band as requested by the organization. Considerable time was devoted to the discussion of communications from a resident of Finksburg calling the Board's attention to the very unfavorable view at the Sandymount School resulting from the vast increase in junk yard operations. The Board is unable to take any action in connection with this matter but is desirous of being understood among those who object to this type of activity on a well traveled highway and near an educational institution, especially at a time when national and state publicity is being given to beautification.

The Board was furnished copies of communications related to the development of community college opportunities with the objective of having such opportunities available to Carroll County students in September 1966. The Superintendent reported on conferences being held with the County Commissioners regarding their support of this activity.

Brief reports were heard regarding the progress at the elementary school locations at Mechanicsville and Winfield. The Board is very hopeful that work can begin at both locations very promptly.

The Board took action to reconsider the general contract bids submitted for the Winfield School addition and new bids were opened from the general contractors interested. Bids submitted were: O. H. Hostetter, \$147,500; E. E. Stuller, \$147,990; I. H. Crouse, \$155,500; Spa Construction, \$148,306. Immediate action was taken by the Board to direct that contracts be prepared for O. H. Hostetter as the general contractor at the Winfield School addition. His work is expected to get under way promptly.

The Board discussed, at length, the injunction facing the Board in connection with the South Carroll High School and action was taken to direct that a special release be prepared and submitted to the newspapers in connection with the delay. This issue will be issued separately.

The Board gave consideration to problems of land and building construction confronting it in the future. Action was taken to direct that a special committee be appointed to give further study and make recommendations as soon as possible.

Action was taken to approve the installation of additional lighting at the Robert Moton School with the objective of reducing vandalism and protecting school property.

The Board was advised regarding progress in conveying certain land to the Carroll County Auxiliary for the construction of facilities.

The Board was furnished copies of the complete teacher roster. The Taneytown teachers are listed following: a complete list of the teachers will be published in next week's issue. —Ed.) In this connection the Superintendent commented that work toward the recruitment of teaching personnel had gone on since early in the school year 1964-65 and that the schools of the county are totally staffed as of August 18. It has not been possible to secure and employ qualified teachers for every vacancy but assurance was given to the Board that every effort would be made to see that qualified people were assigned within the limits of their availability. Schools throughout the country are confronted with a shortage of teachers in certain fields and not enough personnel is being trained. Approval was given by the Board for employment of teachers on the substitute basis to be assigned to positions where better qualified personnel is not available.

Members were given copies of announcements regarding the opening of schools and conferences and workshops related thereto. Official opening of schools is set for Wednesday, September 8. Prior to the opening, principals will hold conferences with both old and new faculty members, a workshop for custodians will be conducted, bus inspection will be carried on, a special workshop for school lunch personnel will be arranged and a full week's workshop for special training of elementary teachers will be in operation during the week of August 30. A special teachers' conference is being arranged for Monday, September 20, which will be the date of the next regular Board of Education meeting. Members of the Board will be encouraged and invited to attend the teachers' conference.

Announcement was made to the Board regarding the acceptance and approval of the State Board of Education and the State Department of Health with respect to the sewage (Continued on Page 8)

## Maryland National Proposes 50% Stock Dividend and Increases Annual Dividend

The board of directors of Maryland National Bank on Friday, Aug. 13, voted to recommend to the bank's stockholders the payment of a 50 per cent stock dividend. A special meeting of stockholders is being called on Sept. 14, 1965, to vote upon this recommendation, which is also subject to the approval of the controller of the currency. The 50 per cent stock dividend would result in each stockholder receiving one additional share for each two shares owned.

The board also took action to increase the annual dividend on the bank's stock by declaring a cash dividend of \$0.45 a share on the anticipated increased number of shares, payable September 30.

The quarterly cash dividend of \$0.45 per share on the increased number of shares is at the annual rate of \$1.80 per share. This is equal to \$2.70 per share annually on the present number of outstanding shares or an increase of \$0.20 per share over the present rate of \$2.50.

The stock dividend will be effected by a transfer of \$5,190,480 from undivided profits to capital. A transfer of \$309,520 will also be made from undivided profits to surplus. The bank will then have capital of \$15,571,440 and surplus of \$32,428,560 for a combined total of \$48,000,000, and undivided profits of over \$12,000,000. Capital and surplus presently total \$42,500,000. Total capital accounts of the bank are in excess of \$60,000,000.

Seniors 106, Juniors 114, Sophomores 117 and Freshmen 112. Enrollments, this year, will be higher due to transfers from Robert Moton High School and Taneytown High School.

## Family Doctors Needed

Attorney General Thomas B. Finan today called for additional scholarships to be offered to medical students who intend to enter general practice.

In a letter to Governor Tawes, the attorney general cited the growing shortage of general practitioners and said the family doctor is disappearing from the medical scene, almost "achieving the status of the vanishing American."

Mr. Finan remarked that the Tawes administration had successfully sponsored legislation providing for ten full tuition scholarships to medical students with the strict stipulation that they must enter general practice in Maryland where a need exists.

"I believe this is a step in the right direction," Mr. Finan said, "but more should be done."

He continued: "I respectfully urge you to consider setting up twenty such scholarships and continue your efforts in the search for ways and means to alleviate the shortage of general practitioners in Maryland."

Mr. Finan said both as attorney general and chairman of the board of the Sacred Heart Hospital in Cumberland he is "constantly confronted with evidence of the growing shortage of general practitioner in our State."

He noted that a committee appointed by Governor Tawes reported the demand for the services of a family doctor is not declining in Maryland, but the qualified general practitioners is not being produced in sufficient quantity to meet this demand.

Mr. Finan quoted a Baltimore City report which stated that overloading of hospital emergency rooms could be traced in part to the shortage of the family doctor.

## Comprehensive Zoning Ordinance Now Effective

The County Commissioners of Carroll County put into effect the Comprehensive Zoning Ordinance on Tuesday of this week. This action followed a public hearing held on August 10 and several months of study by the Planning Commission and its many advisory committees.

In taking the final step for comprehensive zoning in Carroll County, the County Commissioners expressed their appreciation to all of Carroll County's citizens and the many organizations for the cooperation received in making the regulations possible. The county, which has had only a very limited zoning ordinance since 1961, is in great need of these regulations now, according to the County Commissioners.

Horace S. Brauning, President of the Board, announced that the regulations were effective immediately and noted that the County Commissioners would make available, following the official printing of the Ordinance and maps, copies at cost. He anticipated that this may take one month.

The new zoning ordinance creates nine zoning districts — Conservation, Agriculture, three Residence, two Business and two Industrial Districts. Special regulations are included governing Shopping Centers, Industrial Parks, Planned (residential) Unit Development, Cluster Subdivisions, Mobile Homes, Signs and Off-Street Parking.

Following the public hearing, the County Commissioners and the Planning Commission reviewed all comments received and several minor changes were made based on the recommendations or comments received. While not all the suggestions made were adopted into the new regulations, the Commissioners noted that the final decision was made which is believed by the Board to be in the best interests of the county as a whole.

The County Commissioners were quick to point out that the zoning regulations adopted are not a cure-all. No building, plumbing, or electrical codes exist, nor are all of the standards of control for non-conforming uses such as junk yards available as yet.

Taking part in the official adoption of the regulations on Tuesday were Horace S. Brauning, President of the Board; Francis J. Crawford and Robert M. McKinney, County Commissioners.

## "SPICE 'N' EVERYTHING NICE" (Your Chatty Column)

With all my heart, I wish you every morning a smile that shall last until the next day's dawning. I wish you health—life's greatest wealth; I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

Now, here is to the girls of yesterday as many Teen-agers have inquired!

First of all, girls were modest, never permitted kissing or hugging and it was something to be caught under the Mistletoe at Christmas time! Girls really went to church and Sunday School and were permitted to see a movie (they were silent ones those days) once a week or whenever there was another show.

Very little cosmetics were used, in fact here is exactly what these girls did. Vaseline was the cosmetic to place on your hands to keep them beautifully soft and smooth at night time and an old pair of Kid Gloves were worn over the hands and it really did the trick as all expensive lotions do today. (Just try it some night to be convinced.) Those who did not have naturally curly hair when going anywhere very special went to the "Hair Dressers" and had their hair waved which they called "Marcelled." Hair always was clean (not dry) and so shiny because each girl brushed their hair at bed time, just 100 strokes! And the hair those days appeared more beautiful than now because it was all natural. Blondes were very scarce but when you would see one she truly was a Natural!

Long skirts were worn which was called the hobble skirt which meant you could not take long strides when you walked but that was mainly for dress of course. The "Merry Widow" hat was worn and they were beautiful. (I possessed one with a huge flowing red feather on black all over satin!)

Teen-agers wore Tom 'O Shanters and they were most fetching in different colors, made of course with real wool. Every girl boasted of one of those and they did appear most attractive, especially if the girl was a pretty Miss.

Shirt waists and skirts were worn but not matching ones as they mainly wore white blouses. Large bows were worn in the hair of different colors. No girl went out for afternoon dress without white short kid gloves.

Automobiles were most reasonably priced those days and all the most comfortably fixed families owned one.

Girls always attended the Saturday afternoon matinee as to a fine show at one of the prominent theatres. Also girls would attend the Opera now and then with their parents or a member of the family. Most every girl studied piano and I still can hear that tune of "Hearts and Flowers" ringing in my ears! Their first sheet music.

On Friday evenings, Teen-agers would meet at one of the homes and entertain all the parents. The chairs were placed in rows and it was really something to remember as each Teen-ager would perform with their God Given talent! This was always throughout the entire Winter.

Books and magazines were read more frequently and "The Ladies Home Journal" was the big magazine of the day along with the "Saturday Evening Post."

## **FACTS AND OPINIONS**

From The Wall Street Journal:  
"Irresponsibility continues to be a  
conscious preachment. It issues from  
those in the arts who deliberately  
seek to loosen moral standards. It is  
taught by those who insist that the  
unformed schoolchild must have total  
freedom of expression. It is proclaimed  
by sociologists who say the criminal  
has no responsibility for his crime. It is  
evidenced in countless  
ways in the responsibility-diminishing  
efforts of the national govern-  
ment. It is sometimes declared the  
law of the land by our highest magis-  
trates."

Shortly before his untimely death  
in London, Adlai Stevenson said:  
"Aggression begets aggression. Re-  
treat begets retreat. We either stand,  
as we discovered in Europe, and hold  
the line at appropriate places or we  
don't. And if we don't and aggression  
succeeds, they knock on door after  
door and find that they open. Ulti-  
mately they come to the ultimate door  
where resistance becomes imperative.  
Then you have a holocaust. You have  
a major war. This is what we are  
trying desperately to avoid in South  
Viet Nam."

The Wholesale Price Index for  
Ethical Pharmaceuticals has declined  
for the sixth straight year. It fell  
during 1964 from a level of 86.2 to an  
all-time low of 86.0 (1949 equals  
100). This index, which measures  
price changes annually, has been pre-  
pared by Dr. John M. Firestone of  
the City College of the City Univer-  
sity of New York.

Handicapped people in more than  
25 different disability groups are  
served by the nonprofit Goodwill In-  
dustries. They receive on-the-job  
training, paid employment and hope  
for a fuller life. Goodwill needs pub-  
lic support by giving household items  
no longer needed.

Barry Goldwater writes: "Income  
in the business world is distributed on  
the basis of how hard and how well  
you work or build or plan. But when  
a politician passes out money the ba-  
sis may be for any reason at all, in-  
cluding partisan advantage. No mat-  
ter what the reason, however, the  
giving of money is a poor substitute  
for the earning of money. Money  
earned in a productive job is true  
business expansion. Money given  
away is nothing but a drain on avail-  
able resources."

While drilling for oil in the Sahara  
Desert, Oil Facts reports, U.S. oil-  
men discovered a huge underground  
lake of fresh water. More than 200  
water wells have now been drilled in  
the area, each capable of irrigating  
up to 500 acres. With this water sup-  
ply the desert can produce three crops  
of fruits and vegetables a year.

From Church Management: "The  
scientific mind and a religious out-  
look are distinctly compatible but,  
beyond that, scientists tend to have  
deeper religious persuasions than  
those in other walks of life. These  
conclusions were developed in a sur-  
vey of more than 300 outstanding  
high school science students who at-  
tended the recent National Youth  
Conference on the Atom in Chicago.  
Of the hundreds queried, fully 85  
per cent of the young men and wo-  
men stated they were devoutly reli-  
gious, attended church regularly,  
and were active in their church or-  
ganizations."

Secretary of Commerce John T.  
Connor says that the truck user  
charge package "is essential and an  
important part of the President's  
program" and that the "Administra-  
tion plans to push the tax program  
this year."

Potomac Edison is pleased to announce this latest rate reduction to all Maryland customers. This makes over two-dozen rate decreases during the past thirty years. And practically all of these reductions have been during times of inflation and steadily rising

costs of living. Think back, if you will, to 1940 or 1950 . . . ask yourself how many electrical conveniences you had then, and how many you have today . . . and you'll see why we say that "Electricity is your budget's best friend."

Greetings to you:

Week-end visitors at Niagara Falls, who also visited the Corning Glass Works on their return trip home, were Mr. and Mrs. Robert Dutrow and Mr. and Mrs. Kenneth Filler and son Neal of New Midway.

Cassie and Suzie were also visitors with her parents, Mr. and Mrs. Daniel Seibert, and had supper with them and her sister Mariann and brothers Timmy, Paul and Johnny.

Some more New York state visitors were Mr. and Mrs. John Blanchfield, Sr., of the Roop Road. They visited in Cooperstown, Gloversville and near Lake Placid before coming back to New York City for four days with their daughter and son-in-law, Mr. and Mrs. Carl Panero. The house being built by William Doble in Keyword Village really looks good with white paint and the black shutters. The building being put up there in the back by builder Ed Sell is under roof now. Noticed curtains and draperies in the new home of Mr. and Mrs. Eugene Glass and family on the Keysville Road near Gregg Kiser farm today (18th). **"I KNOW SOMETHING GOOD ABOUT YOU"**

Wouldn't this old world be better. If the folks we met would say: I know something good about you. And then treat us just that way!

Wouldn't it be fine and dandy. If each hand-clasp warm and true, Carried with it this assurance I know something good about you!

Wouldn't things here be more pleasant. If the good that's in us all, Were the only thing about us, That folks bothered to recall!

Wouldn't life be lots more happy. If we'd praise the good we see! For there's such a lot of goodness In the worst of you and me.

Wouldn't it be nice to practice This fine way of thinking too? You know something good about me. I know something good about you! —Author Unknown.

## THE WAY I SEE IT . . .

Observations on the World of Sports  
—by John Breth

The rotund catcher is known as SMOKY BURGESS around the trails of organized baseball.

Back in Caroleen, N. C., he was raised as Forrest Harrill Burgess. But he acquired the nickname of Smoky because his father also was known by that moniker.

Burgess doesn't do too much catching these days. But he certainly does a lot of pinch-hitting and quite successfully, too.

In fact, he is now the holder of the record for the most pinch hits with 103. And it is an honor of sorts for a ball player who has shuttled around the country.

Burgess has been in such places as Lockport, Portsmouth, Macon, Fayetteville, Nashville and Springfield in addition to the Major League stops at Philadelphia, Cincinnati, Pittsburgh and Chicago.

Burgess always has been a good hitter—his .297 lifetime average in the Majors attests to that. But his achievements in a pinch-hitter's role have overshadowed his other work.

It is rather a tough job, getting off the bench cold and stepping into a game to hit for someone else.

But Burgess has managed to collect 108 hits doing just that.

The Chicago White Sox catcher broke into the Majors with the Chicago Cubs. That was 16 seasons ago.

He can't even remember when he got the first pinch-hit of his career.

The record broken by Burgess belonged to a journeyman pitcher — Red Lucas — who used to work for the Cincinnati Reds, Pittsburgh Pirates and Boston Braves from 1923 to 1938.

Burgess started this campaign with 95 pinch-hits and has gathered 13 more this year.

His latest effort was on Sunday against the Detroit Tigers. It was a double and drove in a pair of runs.

He tied the record last week with a two-run single off the New York Yankees. He has driven in 19 runs thus far this season with his pinch hits. There are quite a few regulars who haven't done that well this year without mentioning any names.

HANK AARON has three big goals in baseball but he probably won't reach any of them this year.

Hank would like to win the triple crown of batting—that's top average and the championship in home runs and runs batted in. He would like to reach the 3,000-hit mark and he would like to beat Mel Ott's National League home run record of 511.

First things first. Hank is hammering away at a merry clip but will have to hit even harder to win the batting triple crown this year. The season is roughly 3/4 over and while he is a strong contender for batting average honors he has a lot of ground to make up in homers and R-B-I's.

About that 3,000-hit mark, a lofty figure to shoot at. Hank began the 1965 season with a career total of 2,085 hits. That means he'll need at least five full seasons to reach the 3,000 mark. That also means five seasons without any kind of injury or sickness that will sideline him for any length of time.

At the age of 31, Hank has an excellent chance of getting his five seasons. The Milwaukee bomber had 366 home runs at the start of the current campaign and is a pretty good bet to go over 400 by the end of it.

If he stays in good shape and continues his normal home run pace he should go well over the 500 mark before he is finished. However, he may have other competition there.

Willie Mays of San Francisco, who is only a couple of years older than Aaron, has a big jump on Hank in homers and batting injury will pass Ott's mark long before Henry nears it.

Hank's big season this year is all the more remarkable when you consider that he underwent an operation on his ankle as late in the Spring training season as March 17th. His rapid comeback was a tribute to his desire to get into the game.

Hank went into this season with a lifetime batting average of .320. And judging by the way he is going that average won't suffer from his work this year.

**Remember When Dept.** — How long has it been since the Orioles filled Memorial stadium for a baseball game? Please enlighten me, my memory isn't that long. It's a good thing that the Orioles are owned by a local group or there would surely be talk about the Orioles moving to greener pastures.

**Today's Sport Laugh** — Jim Barnes of the New York Knicks last winter lost a shoe during a basketball game. The referee refused to call a time out and play continued as Barnes raced up and down the court while the action continued. The Knicks scored one basket and Barnes then grabbed a rebound under the other basket before time was called, allowing Barnes to retrieve his sneaker.

Taneytown suffered its worst beating since 1961 in losing to the league-leading McSherrystown Twins 18-2 at Memorial Park on Sunday.

The Twins collected only 14 hits but coupled with ten Tiger miscues, was more than enough for the easy victory. McSherrystown was off and running with seven runs in the first inning and were never headed. They added five each in the eighth and ninth frame to "ice" it up.

Not since the 2nd of July, 1961 has a Taneytown team been so thoroughly beaten. The score that day was 20-3 in favor of Fairfield.

The Tigers would get men on base, but for the lack of a timely hit, they would remain there. Only seven safeties were registered; two by Arvin Bollinger and the same number by Ernie Combs. It was the pitcher, Art Caple, though, that knocked in the lone Taneytown Tallies in the sixth inning. Art Caple deserves the "star of the Game" award for his gritty performance on the hill. Coming in relief of the starter and loser, Walt Donohue in the first with the bases loaded and one out, Art pitched as well as could be expected considering the lack of support in the field. With ten errors of commission and as many of omission, the McSherrystown Twins easily clinched the South Penn League pennant. Taneytown must now fight to hold its second place standing.

Elkridge, Md. — Irvin King, 24-year-old farm boy from Gaithersburg, Md., driving a Sportsman Stock Car, humbled a powerful field of "super" modifieds when he won the 25-lap main event at the Dorsey Speedway.

King took the lead on the 8th lap from Vic Lewis and went on to win. Bobby Abel, point leader going into Friday night's event, spun in the 2nd lap and had to settle for 7th spot. The finish dropped Abel from the point lead. King, with two 2nd places and a win on his record, now leads the division in the point standings.

**"Tips by Tootie"**

A very easy-to-make drink for the family to enjoy is pre-sweetened Kool-Aid. You don't have to drag a lot of heavy bottles home, it is very economical, there is a wide variety of flavors to choose from and best of all there is no sugar in it, so therefore fewer calories, which means it is kinder to our teeth and our figures. Use your imagination—a little like adding chilled Ginger Ale to a package of grape Kool-Aid or make a delicious punch by adding lemon Jello (diluted of course so it won't jell) and chilled Ginger Ale. Remember to add the Ginger Ale just before serving.

For the old time bolster look on your beds, turn your pillow cases around and tuck the open ends into one another. I like it much better.

Try a colored sheet and white pillow cases together or a white sheet and colored pillow cases for a pretty look.

This is the do it yourself age—so why not make yourself an economical litter bag for your car. Use a medium size paper bag saved from the grocery store and label it Litter Bag with your magic marker. Tape it where it will be most handy for you to use. It saves you from picking up the children's candy wrappers. When it is full just tape up a clean one.

When we go shopping it is much nicer to take a few extra minutes to freshen up and slip into a pretty dress. Shorts are fine around the house but we look much more feminine in a dress. I guess I am old-fashioned but that is how I feel.

Do you have a small space between your kitchen appliances? It is very difficult to clean, so measure the width and buy some mystic tape and close the gap. Replace when soiled. It comes in white and colors, so perhaps if you have colored appliances

you might be able to find matching tape.

Has anyone ever said to your children, who cooks better than your Mom and they reply, no one. It is hard to describe but it is a feeling that all the money in the world can't buy.

It is disappointing to me that Taneytown does not have a Homemakers Club. It only takes a few interested people to get a club started I am told.

Take time to remember someone who does services for you the year around, like our ministers and our doctors for example. I am guilty of this sometimes I am afraid. Instead of fussing because we have to wait so long to see a doctor we should be grateful to them for all they try to do for us. Don't forget to thank God for these servants of his who are willing to serve in our little community.

Until next time, H. H.

### Purity First

Lesson for August 22, 1965

Background Scripture: Galatians 5:13-26.  
Devotional Reading: Colossians 3:1-10.

ABOUT THE only place where a man can safely do as he pleases is inside a padded cell. An old-time ruffian, swinging his fists and spoiling for a fight, shouted, "I can swing my fist anywhere I please, they ain't no-

body to stop me, this is a free country, see?" A quiet man there present retorted, "But your freedom to swing your fist stops where my nose begins!" Maybe Dr. Foreman neither man was a Christian, but the story shows that you don't have to be a Christian to see that freedom always has its limits. If a man does exactly what and as he likes, he is pretty sure to do what somebody else doesn't like, and that is where the trouble begins.

### A Mistake About Freedom

Many religious people, who maybe have more "religion" than common sense, make the same mistake about freedom. They know two things which are true, but they put them together wrong. They know they have been "called to freedom," which is one of Paul's ways of describing conversion, called from slavery into a free world. They know too that God is a gracious God and has forgiven them their sins. True; but then these people go on to a wrong conclusion. They think that now they have reached that happy land where they can do just as they please, and God won't mind a bit. People in Paul's time made the same mistake. They "mistook liberty for license." They used their freedom as if it were freedom to do wrong. They supposed that freedom meant that a kindly God excused them from all responsibility, that they could break any of his laws and not displease him at all.

### The New Puritanism

It used to be true of run-to-seed puritans that they would judge a man by some one particular point. If he made good on that, he was rated a Christian; if not, he was out. For instance, a great and good man arrived in Korea on a preaching mission; but he got off the plane with a cigar in his hand. That killed him for some of the old-style puritans who saw or heard of it. He couldn't be a Christian, he smoked! But the modern puritan turns it upside down. His position is that if only a man is concerned with the race question, and preferably has taken part in demonstrations somewhere, then God will overlook everything else. We can see the absurdity, now, of saying, "He must be a Christian; he doesn't smoke." It is as wrong to say a man has fulfilled his Christian ideal when he has a good personal character, as it is to say he is all a Christian should be if he has a sense of social justice. Personal purity AND social justice, — being a Christian includes both. But personal purity comes first. Doing good in society, real, enduring good, if it comes out of a pure heart, has a stronger base than when it is done by those who have low personal ideals, or none.

### The Disinherited

A man who knew God if any one ever did, the apostle Paul, wrote to clear up this matter for some people he knew in Galatia. He draws up (Gal. 5, our "background Scripture") two lists, one of acts or habits which are in harmony with God ("fruits of the Spirit" he calls them) and also a list of deadly sins. The bad list starts with immorality and impurity. Persons who do such things, he tells us, are disinherited. God will not take them into his kingdom. If you will look at these two lists, you will find that the life described on what I have called the "bad list" is easier by far than living by the good list. To put it better: Living like God is always harder than living like the devil.

### Tips For The Ladies—

#### On Choosing Sunglasses

With summer sunshine—and summer glare—here, sunglasses time is upon us.

Sunglasses should be chosen with as much care as regular glasses, since incorrect lenses offer no protection from the sun and can actually be dangerous.

So called bargain glasses not only fail to filter out harmful rays but often hinder normal vision because of their optical defects. It is important that your glasses protect your eyes from glare while filtering out invisible infrared and ultraviolet rays. Plastic lenses, for instance, afford no protection from infrared rays.

And, from a fashion point of view, you'll want to choose your sunglasses with as much care as any other accessory.

Here is a check list from Bausch & Lomb, makers of quality Ray-Ban sunglasses for women who want to flatter their appearance while protecting their eyes.

- Always "shelter" your eyes from excessive light. Make sure your glasses transmit no more than 35% of the light.

- In choosing the color of your lenses, avoid pastels or red, yellows, blues and orange shades; stick to the neutral gray and sage green shades.

- Avoid extremes in frame shapes. The design should flatter, not "bury" your face.

- Sunglasses with sturdy, simple frames should be selected for active, outdoor occasions. For dressier events, a high fashion design in flattering color is more appropriate.

- For a round, square or full face choose the "upswept" frame shape. For an oval, slender or long face, the new squared designs are very suitable.

- For a really dramatic effect with your gayest swim-suit, try the sophisticated extra-large designs or the big round-eye style.

- The more elaborate your coiffure, the simpler your sunglass design should be. On the other hand, if your hair style is very conservative, you can "perk it up" with a glamorous pair of high fashion glasses.

- Never wear sunglasses while driving at night.
- If you wear eyeglasses for distance vision, be sure to have your sunglasses ground to your prescription.

### "Food for Thought"

Here's a little "food for thought" for you folks who don't like to "do the dishes."

Thank God for dirty dishes. They have a tale to tell. While others may go hungry, We're eating very well.

With home and health and happiness, I shouldn't want to fuss. By this stack of evidence, God's very good to us.

## Roadwork Plans for Carroll County Roads Department

Carroll County Roads Department maintenance forces have been busy in patching and leveling of the roads that are to be surface treated. The roads to be surface treated are: Crouse Mill, Harney, Walnut Grove, Ruggles, Teeter, Brehm, Tannery, Brodbeck, Snyderburg, Royer, Meadow Branch, Old Bachman Valley, Fridinger Mill, Upper Beckleysville, Gorsuch, Watersville, Bloom, Henry-ton Park, London Bridge, Gillis Falls, Klee's Mill, Morgan, Fannie Dorsey, Hook, Poole, Fleming, Fairfield Development, Quaker Hill, Springdale, Circle Drive and John Pickett Roads. The total mileage of these roads is 70.2. The Walsh Equipment and Construction Company started Surface Treatment Contract 65-R-4 on August 2 on Crouse Mill Road. The Sykesville Construction Company will begin work on Surface Treatment 65-R-5 in about a week.

All the bridges in Carroll County have been inspected and bridges that were found in bad condition were repaired or scheduled to be repaired in the near future.

The other activities of the Roads Department are the cutting of brush that overhangs the roads to improve sight distance and to protect cars from being scratched.

There are many, many Road Name Signs in Carroll County that have been maliciously disfigured and it is at considerable expense that Carroll County replaces signs that have been damaged. We also place Road Name Signs on all new streets that are County maintained.

The cutting of side ditches and the cleaning out of culvert pipes and the construction of outlet ditches is also one of the big problems of maintaining the roads.

Carroll County forces are grading on Louisville Road. Bollinger Mill Road is being widened with slopes cut back and the surface improved in order to provide a more suitable road for the use of the local residents.

We have four mowing machines cutting grass and weeds in the shoulder areas and slopes along all paved roads. It takes these machines about one month to make a complete round of all paved roads in Carroll County.

Carroll County received bids on Halter Road Bridge. Thomas, Bennett & Hunter, Inc., were low bidders at a contract price of \$130,341.00, and the State Roads Commission has been requested to concur in the award of this project.

Bids were received on Old Baltimore Road. Charles J. Miller, Inc., was low bidder and the project has been awarded to him at a contract price of \$4,781.20.

Bids were received for storm drains and paving on Gist Road. Carroll County Construction Corp. were low bidders and the contract has been awarded to them at a contract price of \$21,128.50.

Work has been started on Nico-demus Road by Sykesville Construction Company and Halter Road will be started in the near future by Walsh Equipment and Construction Co.

Plans are being prepared for the construction of Franklinville, Winter's Church, Woodbine and Union-town Roads.

Klee's Mill Road will be completed as a Federal Aid Project and the State Roads Commission, together with the Bureau of Public Roads, has been requested to make a final survey of this project for acceptance by them.

Bennett Road has been seeded by the forces of the County.

Woodbine Road in Woodbine was surface treated with slag aggregate to eliminate a very slippery and dangerous condition because of numerous complaints from the local residents.

Surveys are now being made on Houck Road.

Plans on the Trevanion Road Bridge are nearing completion and the project is expected to be advertised the latter part of August.

The Roads Department also maintains and services the four landfill areas in Carroll County, namely Bark Hill, Bachman Valley, Kate Wagner, and Hodges Landfill. The Health Department exhibited an educational film to the employees of Carroll County to show the correct method of the disposal of trash in landfill areas.

Advance planning is being contemplated to make an overall study of the needs of Carroll County Roads to improve them for sight distance, heavier traffic, and to make suitable connecting roads to serve all the people of Carroll County.

Some of the developer road that have been completed this month are: Westview Road in Woodridge Subdivision, Woodside Drive in Walnut Ridge Subdivision, and Harvest Farm Road in Carroll Highlands Subdivision.

Dixon Avenue was completed by Walsh Equipment and Construction Company as a Private Street Contract.

### 1965 WHEAT DIVERSION PROGRAM RESULTS

Farmers in Carroll County signed up to divert 712.0 acres from wheat production to approved conservation uses under the 1965 voluntary wheat program. Sterling J. Leister, chairman, Carroll ASC County Committee, reported today. Total wheat diversion and certificate payments in the county amounted to \$32,310.00.

Benefits available through the 1965 Voluntary Wheat Program include price support loans on all of a participating farm's wheat production, marketing certificates on as much as 80 per cent of the normal production of the farm allotment, and diversion payments for reducing wheat acreage at least 10 per cent below the farm allotment and putting these acres into an approved conserving use.

Mr. Leister states that participating farmers may sell their wheat on the market the same as non-participants, and in addition receive additional income from the diversion and certificate payments.

### YOUR OBSERVER

(Continued from Page 1)

Girls never ran after the boys for it was then that the boy pursued the girl!

Boys at 18 years of age were really men and most gentlemanly!

If one was engaged to be married, beau nights were Wednesday and Sunday evenings and when that would happen everyone knew there would be wedding announcements soon!

No girl ever remained out to midnight and when special affairs would take place the girl and her escort would leave by Taxi (just like Cinderella) to return home by the stroke of 12!

The parents always remained up until the daughter arrived home!

Girls were taught to cook and prepare for their marriage.

One never heard of any girl going astray! Never was there any of this so called, "Necking" as young men had more respect for any girl. When private lovely dance affairs were held, the young girls would carry their dance shoes in a fancy bag (I still have mine) and change to them in what today is called "The Powder Room." No drinks of any kind were ever served of liquors and no girl ever smoked!

Girls did not run away to be married or elope, in other words, as they always looked forward to their special day in a church!

No gifts were ever presented of value to any girl from a young man with the exception of flowers or a book or a corsage! On Sunday afternoons, the young lady was invited to go to "Willow Grove" to hear the fine orchestras or bands of Sousa, Damroch, Pryor, Victor Herbert, The Thomas Orchestra and so on. That was free to the public right there under that huge pavilion by the Lake. (An hour's ride from Phila.)

All girls graduated from high school and those who could not afford to attend College, enrolled at some business school for their special subject which they desired. Oh! there is so much more of which I could write! Life was beautiful, serene and happy! Ah! those were the days when girls were really girls and young men were really gentlemanly! Today, Teen-agers would think life was dull as to those days but they were truly filled with beautiful romance as in story books.

So in closing, I must admit that I certainly think those days were the very best! (No matter how you look at it!)

So long, Folks until next week D. V. And this is to the parents, especially the mothers—if you are not compelled to go out to business remain at home as the Mothers did those days and be sure to give your son or daughter much affection—for they grow up too soon! Teen-agers are precious and I would like to have a dozen around me!

I am,

Faithfully,

YOUR OBSERVER.
