Taneytown Man Killed by Power Line Voltage

A 25-year-old Taneytown construction worker was killed Tuesday near New Milford, Pa., when his truck accidentally struck a 7,200 volt power

line,
Police said Donald E. Airing, of
RFD 1, Taneytown, was installing a
pole in the ground and was standing near the truck when it touched the power line.

A companion, Jesse Horton, also of Taneytown, was taken to nearby Carbondale Hospital for treatment of shock, police said.

Statement Authorized by Board of Education Regular Meeting, August 18, 1965

The Board of Education at its regular August meeting gave substantial consideration to the delays confronting the Board in connection with the improvement of educational fa-cilities in the southern part of the county. Action of the Board directed the preparation of a statement with respect to the delay and to the effects of the delay on future educational op-

A. The Board of Education is, as of August 18, confronted with a delay in the approval of contracts for the construction of a secondary school to accommodate the pupils of senior high school grades residing in Mt. Airy, Berrett, Franklin, Freedom and portions of the Westminster District. The Board is not able to proceed until the way is clear for formal action on the contracts.

B. The Board regrets the delay and assures those interested in education of its desire to proceed as promptly as legal obstacles can be

removed.

C. Strong feeling exists among the members of the Board of Education, who wish to be quoted as unanimously expressing their regret at the delay and the probable educational deprivations resulting therefrom.

Specifically: 1: Over-crowding in the existing high and elementary schools. existing high and elementary schools resulting in reduction of effectiveness; 2. possible emergency measures which may mean double sessions in both elementary and high shoools; 3. reduction of morale among teachers Burial will be in the church cemetery.

The Board denies allegations made regarding competence and sin-cerity and avers its purpose in mak-ing available to the Carroll County children the best educational oppor-tunity possible through the construc-tion of facilities, the providing of variety in programs, the meeting of special needs and the planning of courses suited to the ability and in-

opportunities resulting from delay and

terests of pupils.

E. The Board repeats its unanimous disposition to proceed in the planning of educational facilities and the completeing of same with the sole desire of improving educational opportunit-ies of Carroll County pupils. F. The Board also wishes to repeat

its purpose in constructing a compre-hensive school designed to afford modern and adequate facilities for a variety of programs permitting a broader and richer program of offer-ings to meet the needs of the pupils. The new building provides for many programs not now possible, including academic, general, commercial and vocational, and will permit the meeting of many needs not now being met. Attractive working conditions will attract better trained personnel and the centralized location will in-crease availability of building to the

Farmer Receives Payment in

Feed Grain Program

Final payment was made last week under the 1965 Feed Grain Program to Woodrow W. Leppo in the amount of \$1,254.27. The payment covered both diversion and price support, according to Sterling J. Leister, Chairman, Agricultural Stabilization and Conservation committee; 33 Court Street, Westminster.

The diversion payments are made for reducing the acreage of one or more of three crops—corn, grain sor-ghum, or barley—by at least 20% of the farm's base acreage and devoting such acreage to an approved conserving use. The payment is based on the normal yield for the farm

made on the normal production of the acreage planted to the three grains in 1965; rates for the pricesupport payments are 20 cents per bushel for corn, 16 cents per bushel for corn, 16 cents per bushel for barley, and 35 cents per hundred-weight for grain sorghum. This payment is assured no matter what disposition

is made to the crop. Farmers are also reminded by the Chairman that, even though program payments are about completed, the approved conservation practices are expected to be carried out on designated diverted acreage throughout ing ministers and wives and families the remainder of the year.

to compare! Now, here is to the Virgo individual—those born from Aug. 20 to Sept. 20 inclusive. These people—both sexes—are marked by the onebig and grand thing, being orderly and methodical in their habits. Mercury is the ruling plant of this signa which gives to its subjects wit also ingenious minds. They love music and poetry and mathematics and take great delight in the study of chemistry and the sciences. They are graceful and charming with well propor-tioned figures. They must be very careful of the kind of cosmetics they use as their skin is always the most sensitive. These people always have a most gracious manner that they are liked immediately. Many times they make others really care as they are very independent as their choice of a mate and they may drop the person for no reason whatsoever causing heart breaks which is most characteristic of both men and women. But when they really love—it is the real thing and most enduring! In many instances they give counsel to their friends which would be good to follow. They are very well balanced as a rule and not likely to go to extremes in anything. People born under this sign have an innate refinement and purity and are most sensitive. And are always most modest! They are rather exclusive as to their friends and companions. There is so much, much more to Virgo for it is truly as beautiful sign!

Have a grand week-end, folks. Be most careful when you drive and be sure and make someone else happy Until next week, D.V.

YOU DO!

Suppose you work the standard 8-hour day and are in an average income bracket. How much of that time goes to pay for elements that make up your cost of living?

Here are some examples: Food and tobacco cost one hour and 18 minutes; clothing and related items 30 minutes; recreation 19 minutes; transportation 39 minutes; medical expenses 21 minutes.

But there's another item that is bigger than any of these. It is taxes. They account for two hours and 20 minutes of your working time more than a quarter of the whole.

To put it another way, it means that you must work more than three months of each year before you begin earning money you can spend as you wish. Taxes take all that you make during that three-months-plus

The chances are that this will come as news to great numbers of people. They have small knowledge of the size and scope of the tax bill, the primary reasons being that many taxes are hidden in the cost of the goods and services we buy and that most individual income taxes are paid through the withholding system, rather than being personally paid to the government by the earner. But, realize it or not, they are the biggest single item of expense to most

In sum - who pays for big and wasteful government? you do! -Industrial News Review.

"GRASSROOTS OPINIONS"

GARNER, IOWA, LEADER: "Why have we been unable to keep American values uppermost in our educational life? We have been sleeping soundly, while the Reds have been very much awake. We have ineffectively given insufficient doses of civics and history in which the American heritage is the chief ingredient. The resentments and frustrations thrust upon the big-campus student, who so often lacks understanding of his purposes in college, open him to radicalism. Where no objective values are forthcoming, the route to false ideology is made easy. The pity of it is that too many of these recruits find their way into positions of respect and leadership-in education, in politics, in government, and in communications. So you take it from

GRAYSLAKE, ILL., TIMES: ". . President Johnson and his administration along with liberal lawmakers and self-seeking labor bosses are furthering the substitution of force and compulsion for freedom of choice by urging the repeal of Section 14B of the Taft Hartley Act. This would take away the freedom of the individual to choose whether or not he wants to join a union. Compulsion has no place in a republic. Every American should have the right to work, whether he wants to join a union or not."

FINDLAY, OHIO, REPUBLICAN-COURIER: "The administration discourages tourists from spending money abroad. They figure it's more efficient to send it over there wholesale than to have people take it a little at a time."

MESA, ARIZ., TRIBUNE: "Federal spending on scientific research is a succulent pie nourshing a fortunate few of our states, cities, universities, industries and private laboratories Currently one of the most sought-after of these goodies is a \$280-million, 200-BEV (billion electron volt) nuclear particle accelerator the Atomic Energy Commission plans to build."

The Army psychiatrist was probing the young recruit's mind in his usual roundabout fashion. "What would you say was the difference between a boy and a dwarf?" asked the psychiatrist. "Well, lots of difference," replied

the recruit.

"Could you give me an example?"
said the psychiatrist.

"The dwarf might be a girl," said the recruit, brightly.

The Chairman said some county farmers have established permanent grasses and legumes on their farms in the past using cost-share assistance of the Agricultural Conservation Program, administered by the ASC County Committee, 33 Court Street,

Westminster, Maryland. Under the 1965 ACP developed lo-cally for this county, the ASC committee may approve cost-share assistance up to \$15.40 an acre for initial establishments of grasses and legumes on land unsuited for cultivation. Usually this represents about 50% of the total cost. The remainder s paid by the farmer himself.

Chairman Leister pointed out that grass is just as important today as it was when the ACP was first start-

'Cool' Advice for Homeowners

Before that summer sun begins blazing try these tips to comfort condition your home without using air conditioning. If you already have a cooling unit, these suggestions can improve its

A summer sun begins heating a south wall at a 65 degree angle by mid-morning while in winter it never strikes above 35 degrees. A carefully designed overhang installed over a south window wall can screen out the high summer sun while allowing the low-angled winter sun to enter.

3 More than twice as much summer heat enters the house through the roof as through the walls. If attic insulation is less than four inches thick, simply pour the mineral vermiculite over the old insulation and level it off to a four-inch depth. Available at building supply stores, vermiculite loose fill insulation will reduce indoor summer temperatures by

Observations on the World of Sports -by John Breth

LOU GROZA has all kinds of scoring and kicking records in the books but he is closing in fast on another mark that has nothing to do with either. Groza is coming up to his 15th season with the Browns as a National League player. The record number of seasons was posted by Sammy Baugh, who spent 16 Au-tumns in the uniform of the Washington Redskins.

Of course, Groza put in 4 years with the Browns in the All-America conference which broke up after the 1949 season but that doesn't count in the National League record man-

Pass-catcher Buddy Dial of the Dallas Cowboys has a simple philosophy about latching on to the football. He says: "If I can touch the ball it's mine.'

The crack split end of the Cleve-land Browns, Paul Warfield, will miss about two months of action because of the shoulder injury he suffered in the All-Star game in Chicago. But Paul is anxious to return. Despite his great success as a rookie last year he says he still has a lot to

Here are the initial figures on one of last Spring's trades in the NFL.

Under Pressure

Lesson for August 29, 1965

Background Scripture: Ephesians 6:10-20; Jomes 4:1-8; 1 John 2:15-17. Devotional Reading: Psalm 26.

VOU NEVER know what kind of stuff a man is made of till you have seen him under pressure. You never know what sort of Christian a man is until you have seen him under pressure. We all think we could do a better

job of whatever we are doing if only we could get out from under pressure. But some pressure you will always find against you as long as you live. Not just the

Dr. Foreman same, of course. What seems like terrific pressure at eight years old or whenever it was that the school-yard bully was making life miserable for us, is not the kind of trouble we get when we are worrying most about how to get money to pay the tax collectors. But pressure of some kind or other is lifelong trouble, off and on if not every minute. The Bible does not promise freedom from pressure; it shows us how to stand up under it.

A real Christian lives a hard life. That is, he is constantly under attack not to be a Christian. It is hard to believe that God should have enemies, but he does. And God's enemies are your enemies. This is just as true of a sinner as of a saint, a bad man and a good one. To put it as plainly as possible: God wants the human race to succeed; and there are enemies of God who are also enemies of the human race. Saint Paul's writings are full of the thought of the Christian life as a fight, a contest, a struggle. At the close of his life he says, "I have fought the good fight!" He had many enemies; but in writing to the Ephesians he is plainly not thinking of human hostility, however dangerous that may be. He is

thinking of super-human enemies our wrestling is not against flesh and blood, he says. He calls our enemies "principalities and powers, world-rulers of darkness spiritual hosts of wickedness in heavenly places." He does not explain what these are; but it is clear that the pressures on the Christian are most dangerous beural. The terrifying thought here is that we as Christians, as human beings indeed, are under attack by forces more ancient, shrewd and vicious than all our own powers can overcome.

What is at Stake?

If you prefer to think, as many do, of the "devil" and all these "rulers of darkness" as figures of speech for strictly human forces, you can see Paul's point even so. Considering the many evil men in the world, all the forces pressing against the lives of decent people, whether Christian or not, to tear down their character and destroy their lives, you get a sinking feeling in the pit of your stomach. But why the hatred, why the pressure? What is at stake? Nothing less than your destiny and the destiny of the race. What hope is there for us?

Reinforcements

Paul pictures for us just such a soldier as may have been standing guard at his cell at that very time. As he mentions each piece of the soldier's armor, he likens it to something that the Christian needs and uses in his fight against the pressures of evil day by day. The climax of it all is in two words: Stand, and Pray. Stand; don't run away; if you can't advance, at all events don't retreat. Don't compromise with evil, don't negotiate with the devil. ("He must have a long spoon who eats with the devil," as the old saying has it.) Don't start fighting tomorrow, stand up and fight now! But even with all the armor of God, even with the shield of faith and the sword of the Word of God, you will still be a loser if you stand alone, so Pray! Prayer is asking God for reinforcements.

How to plug up the money drain

If the part of your pay you planned to save always seems to leak out of your pocket, you need a new stopper for your money drain.

The Payroll Savings Plan is one of the best plugs around—and it's guaranteed.

Here's the blueprint: just tell your employer to put aside a small amount from each pay check and apply it to the purchase of United States Savings Bonds.

Once you get it started, the Plan is fully automatic. Chances are you'll never miss the little cash you're setting aside. After all, it just leaked away before, remember?

"And here's the best part. Not only have you stopped the flow, but you're putting your dollars to work earning more dollars-\$4 at maturity for every \$3 you invested.

So stop in at your payroll department and set your Plan in action. And watch your savings grow instead of go.

> Quick facts about Series E Savings Bonds

√ You get back \$4 for every \$3 at maturity

√ You can get your money when you need it

Your Bonds are replaced free if lost, destroyed or stolen ∨ You can buy Bonds where you bank, or on the Payroll Savings Plan where you work

Zoning Ordinance Explained

THIS IS THE FIRST IN A SERIES OF WEEKLY DISCUSSIONS ON THE COMPREHENSIVE ZONING ORDINANCE ADOPTED FOR CAR ORDINANCE ADOPTED FOR CARROLL COUNTY. THE DISCUSSIONS WILL BE CONFINED TO A
SEPARATE PHASE OF THE ORDINANCE EACH WEEK AND WILL
BE PUBLISHED IN THIS NEWSPAPER. THE FIRST DISCUSSION
IS GENERAL, OTHERS WHICH
WILL FOLLOW WILL SPECIFICALLY BE CONFINED TO DETAILS
IN THE ORDINANCE.) IN THE ORDINANCE.)

A zoning ordinance is nothing mysterious. It is a set of rules developed to regulate the use of land and structures for trade, industry, residence or other purposes, including the size of lots and the number of people using such lots or parcels of land. A zoning ordinance also reg-ulates the height and how close a

building or structure may come to front, side, and rear lot lines. Zoning is an administrative func-tion. In the case of Carroll County, the County Commissioners adopted the ordinance, appointed a person to | QATS

administer the zoning ordinance, and

administer the zoning ordinance, and a Board of Zoning Appeals to rule on any appeals or cases required to be heard by that Board.

The zoning regulations also include a set of 41 maps which define the limits of the nine zoning districts created upon the adoption of the ordinance. Approximately 85% of the land area in the county is zoned "Agriculture". Along the major stream valleys approximately 15,000 acres have been classified as a "Conservation District." Contrary to the belief of many, housing is a permitbelief of many, housing is a permitted use in both districts and will be discussed in more detail at a later

Three zoning districts have been created for residential areas, these being designated by a prefix "R" for residential and a number indicating the minimum lot size in sq. ft. These three districts are R-20,000 Residence District, the R-10,000 Residence District, and the R-7,500 Residence District. The latter district is the multi-family district and includes apartment uses, two family as well as single and two family residences.

Business is covered in two zoning districts—"B-L" District which denotes business of a "light" nature and a "B-G" District which is for "general" business. The "B-L" District includes these businesses which normally serve a small neighborhood and include such things as antique shops, drug stores, shoe repair shops, gro-cery stores and the like. The "B-G" District includes categories which might serve a community and major highways such as amusement parks, automobile sales, department stores,

truck terminals and similar uses.

Two industrial districts were created under Carroll County's Zoning ated under Carroll County's Zoning Ordinance. Again the extent of the operation determines the category—light or restricted uses being set forth in the "I-R" Restricted Industrial District, and the heavier industrial operations being permitted in the "I-G" General Industrial District. An example of the "I-R" District is the manufacture and assembly of electronics equipment. The "I-G" General Industrial District includes permitted uses such as manufacture of paper, automobiles, printing inks, food products. food products.

All nine districts have established in the ordinance these uses which are in the ordinance these uses which are shown as "principal permitted uses." In addition, each district has a list of uses which are permitted only upon approval of the Board of Appeals after public hearing. These are called "conditional uses" in the ordinance. The County Commissioners of Carrell County upon adopting the ord-

roll County, upon adopting the ord-inance, have indicated that following printing, copies will be available for distribution. Until such time, all in-quiries should be made at the Zoning Administrator's Office on any ques-tion relative to the regulations or

maps.
The next in the series which will follow will include a discussion on general provisions found in the ord-
