VIEW FROM MY KITCHEN WINDOW

Now April trips over the hill, wearing daffodils in her hair and carrying a dainty umbrella. This tearful young lady generally brings showers, but she occasionally pelts us with a few snow flurries, for early April is apt to be blustery and cold, and to remind us far more of winter than of spring. However, despite low temperatures and biting winds, the robins' flashing red breasts (these birds are simply everywhere), the greening meadows, and the sunny juncos nodding their bright heads, reassure me that Spring is definitely "in."

As I enjoy April's debut, courtesy of my kitchen window, it seems that all of nature is bursting with vibrant new life. It is all around me, on every side. The lilac bush is spiked with tiny green buds, and the South Carolina poplar is coming into leaf. Our mother cat proudly displays her three mites, looking incredibly frail and vulnerable. Down near the woods, the groundhog is back in his old familiar haunts, and Beau, the puppy, keeps a sharp eye out for him. Nothing would please Beau more than to catch Woody-Woodchuck in an unsuspecting moment!

Song-sparrows, red-wings and meadow larks sound their silvery notes, and I am reminded of the words of Song of Solomon 2:12, "The flowers appear on the earth; the time of the singing of birds is come, and the voice of the turtle (dove) is heard in our land."

"SPICE 'N' EVERYTHING NICE" (Your Chatty Column)

With all my heart, I wish you every morning a smile that shall last until the next day's dawning. I wish you health—life's greatest wealth; I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

How wonderful it was to be around the town last Friday, for the day, and meeting those Dear Hearts and Gentle people! Even if those who did not recognize me it was a big smile and a glad, "Good Morning!" Nothing like a little town where everyone cares, and I think you know just what I mean. It would be a wonderful world if everyone felt that way—even in the big cities! Eh? And glad to have seen Mr. Arnold—that wise man of the bank who knows all the answers!

Now, padded Pew seats will be coming in and there will be many to fall asleep right there—making the public too, too comfortable! Those Scout boys kept visiting me—how nice it all is! And they just seem to be wanting to do their good deeds for the day.

Well, now we know why Jimmy Durante, always at the end of his program would say, "Goodnight, Mrs. Calabash!" That was an affectionate term he had for his first wife who passed away in 1943.

Ever since writing about that grand big sandwich at O'Dell's in the Lexington Market, there is a long standing line each day at noon and it sure did please the big boss. Now, he has taken over the ready Barbecued Chicken stall and he has added lirkies, too, and they all appear like pictures in the magazines. Just stop, folks the next time you are downtown, for you won't need any other lunch. Ummmmmmmmmm!

And this really was so nice to hear from a close friend the other day that her 1916 graduating class of Maryland High School, met, which was then the school at Lafayette and McCulloch Streets. The old part was there were no celebrations other years and this 50th one was the first and 60 were present out of over 200 girls who graduated in that year! A nice luncheon was served, old pictures shown and all reminiscing of those days so long ago.

Ladies, there are more beautiful "throw" pillows being sold than ever before which seems to be the added touch for any room.

And what a surprise to read that America was the world's leading export exporter in 1965, shipping 23.2 billion, valued at over \$106 million compared with \$68 million six years ago. Tobacco is the fifth largest crop ranking behind cotton, wheat, corn and soybeans. And—this—in 1963 Americans purchased more than 523 billion cigarettes. . . 64.8 million lbs. of chewing tobacco and more than 32.5 million lbs. of SNUFF! (I thought only the English snuffed up the latter) and each year, the tobacco industry uses more than 71 million pounds of aluminum foil; nearly 27 billion printed packs and 2.7 billion cartons! Wheeeeeeeeee! How about that?

Congratulations to the new owner of the Drug Store, around the town, which is just about the best-stocked drug store that I have ever seen in any big city. Went into the Reindollar Hardware Store where we always dealt and I knew Henry would have what I wanted to purchase. A very thick rope which I am going to use daily for jumping and hope to increase the amount each week. More about that in a later column. What a nice surprise hearing from The Duke of Edinburgh (Prince Phillip) from the Pierre Hotel in N. Y. in answer to my letter! I think he is loved more by America than any other Royalty! When he walks a few steps behind Her Majesty, Queen Elizabeth, the thought always comes to me, "Such a Kindly Prince!"

If you own a pair of "Sugar Tongs," Mrs. Housekeeper, they are really Antique and valuable, and still being used when lump sugar is taking place. Many years ago, sugar was only made in lumps. It really is two spoons joined together by an arch and many were made years ago to match the other silver. And thinking about silver—as I stated in a previous Column (minus the amount) which Luci B. Johnson ordered from Kirk's, right here in Baltimore—just—\$5,800.00 worth! What could she be going to do with all that silver?

The movie, "Inside Daisy Clover" with the Star, Natalie Wood, showing at the "Crest" and "Senator" Theaters is just different from what you expect. First of all the "Senator" is about the most comfortable and beautiful theatre for a neighborhood theatre in which I ever sat! The show, a two-hour affair was beautifully acted by Miss Wood. In the beginning you see a natural fifteen-year-old girl living with her mother near the water in old Los Angeles amusement park. She is a real tom-boy with faded jeans and a terrible hair cut with that awful cigarette constantly between her lips. She wants to be a movie picture actress and the times are in the 1930's. Such vitality, I have never seen in any actress to the very end. Daisy sends a recording of her voice and when a big limousine calls for her from the "Swan Studio" with none other but Christopher Plummer as Mr. Swan. He makes her a Star in no time and the picture is nothing but sadness from then on!

Have a grand week-end now that Spring is here. Until next week D. V.

I am,
Faithfully,
YOUR OBSERVER.

I have learned silence from the talkative, toleration from the intolerant, and kindness from the unkind.

SKILLET COOKERY FOR LENTEN LUNCHES

Lenten lunches will take on new interest when you combine the ease of skillet cookery with canned, fresh or frozen fish. Keep several cans of tuna, shrimp and salmon on your pantry shelf for emergency meals. Put your skillet to quick use with favorite recipes; or use prepared cream soups with canned fish and mixed vegetables to serve in patty shells. This recipe from General Electric Housewares test kitchens takes only twenty minutes.

- 6 English muffins
- 2 cans tuna or salmon (2 cups), drained
- 1/2 can cream-of-mushroom soup, undiluted
- 1/4 cup grated process American cheese

Preheat skillet to 300°F. Hollow out English muffins almost to bottom. Leave sides about 1/2 inch thick. Fill hollows with tuna or salmon. Spoon soup over top. Sprinkle with cheese. Add a cooked shrimp on top. Place in skillet. Bake, covered with vents open, for 20 minutes. Yield: 6 servings.

Serve a HOT TOMATO & CLAM JUICE COCKTAIL, another good-tasting and tested recipe:
1 can tomato juice
1 can clam juice
lemon

Heat tomato juice and clam juice. Garnish with twist of lemon. Serve hot in demi-tasse cups.

Toss a variety of fresh greens with a favorite salad dressing. You'll enjoy the contrast in fla-

Add a decorator touch by cutting a tablecloth from spring-green felt you can buy by the yard. Sew a fringe or felt flower appliques in a border design on the cloth edge. Use white plates and napkins for color contrast. Carry out the spring theme by combining red and yellow straw flowers in a basket.

HUNTINGTON, IND., HERALD-PRESS: "In Sweden, where compulsory health insurance has been in effect 10 years, largely paid for by state subsidy, the system in its present state of development is less than a conspicuous success. . . . Doctors, practically all of them overworked, are compelled to turn away thousands of patients a year. Many of the uncared-for patients are old people in need of service. . . . The shortage exists in spite of the fact that the number of doctors has doubled and nurses nearly doubled since 1950. Number of hospital beds has increased 25 per cent while population has gone up less than 10 per cent. . . . A Swedish insurance official says, 'Before medicare, people used to call the doctor only in an emergency. Today everybody can afford to pay the doctor and go to the hospital.' It does not necessarily mean that medicare in the United States will follow that in Sweden, but in view of this country's beginning venture the experience in countries that have tried it is pertinent."

DELTA, COLO., INDEPENDENT: ". . . the present too-liberal system of unemployment compensation is in danger of being changed to the point of making it even easier for the work-avoiders to draw doles in lieu of work. Among other things, H.R. 8232, the bill now before Congress, would wipe out present regulations in many states which disqualify persons who simply quit their jobs or are fired for misconduct. . . . No, state and federal aid in any form is not free. And it certainly will not be free with respect to H.R. 8232. It will cost every employer dearly, and with what result? The unemployment compensation rather than go increasingly to those who deserve it, would go increasingly to those who do not."

BROWNSVILLE, PA., TELEGRAPH: "Better world monetary machinery to handle world trade is sought. The idea is to make the wheels of global finance produce more with fewer revolutions."

HUNTSVILLE, ALA., NEWS: "Sen. Maurine Neuberger of Oregon is preparing to make her own effort in behalf of beautification of America. She plans to introduce bills that would put cross-country power lines underground. . . . However. . . Many see a real beauty in the great power poles. The tall steel towers, especially, look like great giants stalking across the landscape, beautiful in line,

A Voice from the House

Educational television will become a fact in the State of Maryland under a Bill now passed by both Houses of the Legislature. After the House affixed amendments to the Bill setting up a separate Commission to operate the stations, the Senate reviewed the recommendations and concurred substantially in the changes. As a result, the Bill in amended form passed both Houses creating a Commission to operate the stations with exclusive control over the educational portion of the television programming which is to be used in schools' retained by the Board of Education.

The Senate passed the Bill providing for a dualizing of the Bay Bridge and the matter has received favorable action by the House Ways and Means Committee and is expected to pass the House this week. There are several amendments being offered in an endeavor to cause technical delays and possible defeat of the Bill by parliamentary procedure. However, it is anticipated that the Bill will pass both Houses this Session. There has been a threat of petitioning the Bill to referendum if it does pass.

The Implied Consent Bill requiring anyone operating an automobile on the Maryland highways to take a breathalyzer or blood test for alcohol if arrested for drunken driving has passed the Senate. The Bill is now in the House and has been amended substantially. There has been considerable debate in the House and the question of its passage is not certain at the moment. It is being argued in the House, with good foundation, that the Bill runs contrary to basic constitutional guarantees and provisions.

A Bill has received favorable action by the Ways and Means Committee which would re-write the Public Welfare Law of the State to some extent. The net result on the Carroll County Welfare Board would be the establishment of a board of nine rather than seven non-paid members. Any member who missed six meetings during the year would automatically be held to have resigned his position. The Welfare Department expends approximately 10 per cent of the State's budget, but much of this money is used for training schools, adoptions, and matters which are other than pure welfare matters. Some revisions are being made in the laws regarding training schools and other agencies related to the Welfare Department.

Most of the Carroll County Bills have now passed both Houses, and will become law upon the signature of the Governor. The creation of a County-wide Sanitary District is being retained in the House for amendments after which it is expected that it will pass.

The law providing for a grant by the State to Carroll County of \$130,000 for a new jail is expected to pass after the Budget is adopted.

At the present time, hospitals and other charitable organizations are exempt from liability if someone is injured as a result of carelessness or negligence of the hospital or charitable institution. A Bill has passed the House providing that such institutions shall be liable to the extent of \$100,000 for negligence or carelessness resulting in the injury or death of individuals. It is not certain at this time what the reaction of the Senate will be on this Bill.

The major subject of legislation, the Cooper-Hughes proposal, cannot be voted upon until after the Budget is adopted. It is anticipated that the State Budget will be adopted within a day or two and the debate will then start on the Cooper-Hughes proposals.

William B. Dulany Member, House of Delegates.

THE WAY I SEE IT . . .

Observations on the World of Sports - John Breth

DICK RADATZ was more "monster" than "monster" last year but the Boston Red Sox front office thinks the big right-hander will be his old bulldozing self again this year. The Red Sox had many chances to trade the towering relief ace at the winter meetings but rejected all offers.

Radatz fell off to a record of nine and eleven last year with an ordinary earned-run average of 3.92 after winning 16 games the year before and posting an earned-run mark of 2.29. That earned-run average was glittering but it still wasn't as good as Dick had in his first two seasons in Boston, 2.23 in 1962 and 1.98 in 1963.

What was wrong last season? Well, some observers thought that Dick had lost just a little something from his fast ball. American League hitters more or less confirmed that by saying that his pitches "flattened out." That would indicate a loss of speed.

Radatz himself thought it was control. Control is a big part of a relief pitcher's delivery and it could easily have figured in Dick's slump. At any rate, manager Billy Herman of the Red Sox says Dick's training methods will be somewhat different this spring than they were last year.

As the acknowledged relief ace of the majors last spring, Radatz was allowed to set his own training pace. But not this time, Herman says he will often work Dick on two consecutive days and will allow him to stay in there for longer periods on the mound.

That should improve Dick's control. What it will do to his fast ball is something that will be answered in due course by the American League hitters.

One of the big men in the plans of the San Francisco Giants this year is FRANK LINZY.

Frank is a relief pitcher and a good one, last year he probably was one of the best in the National League. He gave the Giants a terrific mid-season pickup with his brilliant performance as a late-inning fireman. And the San Francisco club came close to winning the main money. The Dodgers beat them out with a 13-game winning spree at the end of the season.

To get back to Linzy, he had a record of nine victories and three defeats and a really handsome earned-run average, 1.43. He also was credited with 14 saves.

Frank is a thrower. He isn't old enough yet to be a pitcher. He says: "I use the same prescription on all hitters, low fast balls and hard sliders."

Linzy has excellent control, however. In 82 innings of pitching in 1965 he handed out only 23 walks, meaning roughly one free ticket in every three and one-half innings of pitching.

He also was touched for only two homers, a tribute to his low ball pitching. The Los Angeles Dodgers made both of them, Willie Davis getting one and Wes Parker the other.

Linzy is amazed by the speed of Maury Wills, the captain of the Dodgers, who got three hits off Frank last season without getting the ball out of the infield.

Frank had a fine record against the feared slugger of the Braves, Hank Aaron, who got only one hit off him, a high bouncer which he outran.

Linzy believes in letting his actions speak for him and he is something less than a pop-off when it comes to discussing baseball matters.

At a baseball clinic recently he was called on to say a few words and this is what he said: "I would like to say that Willie Mays is the greatest ball player I have ever played with." Then he sat down. Come to think of it, what else could he have said?

Today's Sport Lughan - Old time baseball great Joe Dugan says he was signed by the old Philadelphia Athletics because Connie Mack offered his father a \$500 bonus. The senior Dugan, whose brood included nine children, announced: "For \$500 you can have the whole family."

TIGERS OPEN TRAINING

MANAGER FOGLE DISPLEASED WITH POOR TURNOUT

As one player put it, it was weather better suited for football. The temperature was in the 40's and the

Ernie Combs "Last Year's M.V.P."

cold wind blowing didn't make the climate favorable for spring training. The calendar said late March but it felt more like November.

Manager Bob Fogle greeted a turnout of ten players to take their first tries at loosening up. Skipper Bob could not hide his displeasure at the veterans who were missing. A few rookies did put in an appearance, though, to help curb Fogle's ire.

One who must be classed in the rookie category, as far as the Tigers are concerned, is Britt Fleagle. Britt practically rewrote the record books with Junior Baseball last season. His name was on everyone's lips this past summer and since he has outgrown his other league, he is going to perform with the Tigers in 1966; a fact that should bring out the fans in large numbers to see how he does against bigger opposition. A picture that the Tigers are looking forward to with great pleasure.

Another newcomer to the Tigers, but not to the league, is Gene Moose. Moose has played with Harney for the past few seasons and has decided to cast his fortunes with the local nine for 1966. Last year, Gene hit a resounding .360 for the Bombers and as a pitcher won every game that Harney racked up in the win column.

As far as the schedule goes, the Tigers will play the following games AT HOME -

- May 1-Cashtown
May 15-Littlestown
May 29-Mummasburg
June 19-New team
July 3-Brushtown
July 17-Harney
July 31-McSherrystown
Aug. 14-New Oxford
Aug. 21-Bendersville
That's the home games for Taneytown this year. Actually there will be some more at the end of the season, hopefully. The South Penn League will return to playoffs again and Taneytown hopes to be host to them as a participant.

Next Week - More spring training news and All-Star game notes.

MEETING OF BOARD OF EDUCATION

A regular meeting of the Board of Education of Carroll County was held Wednesday, March 9. Vice President Thomas A. Raver presided due to the illness of Mr. Hering. All members were in attendance except Mr. Nathan Weinstock who has not returned from Florida.

The Board took action to approve the minutes of the February meeting directing that they be made a part of the permanent record.

Approval was also given to the reported financial transactions and the financial statement.

Teaching contracts for 1966-67 were approved for Martha Wickless, Virginia Hoffman, Mrs. Janet H. Martin, Peggy H. Fischer and James Lewis Reek. Approval was also granted for the employment of Mrs. Mary B. Smith, Francis Scott Key, and Mr. Arthur Lange, Taneytown High School. Mrs. Carole L. Torrey, Christine L. Emar and Karen Heit were approved as part-time employees in the central office and Mrs. Ruth Shipley as part-time library clerk in the Mechanicsville Elementary School. The employment of H. Milton Long as custodian at the Hampstead School effective Feb. 1 was also approved.

The Board took action to approve a number of adjustments in salary and certificate classifications.

The Board accepted the resignation and notice of intention to retire in the case of Miss Lois A. Silverberg, who has been a business education teacher in this County since September 1937, when she entered service at the Elmer Wolfe High School. She continued in that assignment until September 1941 when her assignment was modified to include New Windsor. In 1959 when the Francis Scott Key High School was opened, Miss Silverberg was transferred to that location and has continued there since.

Resignations were accepted at various dates from Karen E. Carbaugh, Mrs. Jean A. Shaw and Janet Jump.

The Board was advised that the completed budget had been submitted to the County Commissioners on March 1 as per their request. It was further reported that the budget is under consideration and that planning for 1966-67 will be limited until final budget figures are available.

In this connection, discussion disclosed that the salaries for beginning teachers in counties named are as follows: Montgomery County, \$5,450; Baltimore County, \$5,500; Anne Arundel County, \$5,600; Prince George's County, \$5,600; Frederick County, \$5,500; Baltimore City, \$5,400; Harford County, \$5,400; Charles County, \$5,400; Cecil County, \$5,500. The Carroll County budget requested a beginning salary of \$5,200 which was an official action taken by the Board of Education at an earlier meeting. Attention of the Board was called to the fact that salaries have a direct bearing on teacher retention and recruitment.

The Board took action to approve the purchase of lockers for the South Carroll School after advertising and opening of bids. Information was furnished the Board regarding the bids received and, after consideration, it was directed that the lockers be ordered on the basis of the bid of Lyons Metal Products Co., this firm being the low bidder. Consideration of the replacement of lockers in the Westminster High School was deferred pending approval of the budget.

The Superintendent reported that on the basis of an analysis as to need, he would recommend the trading in of one used vehicle on the purchase of a new automobile for use by the Administrative Assistant and eventually by the Superintendent. On the basis of the bids received, decision was made by the Board to purchase the automobile from Neel Chevrolet-Oldsmobile, Inc., Eldersburg.

The Board heard a brief report from Mr. John F. Wooden who has been engaged in continuous implementation and negotiations related to the proposed community college for Carroll County. Mr. Wooden reported his activities in connection with a number of appearances before groups and, also, as related to a meeting of the duly constituted county committee.

The Board heard a brief report from Mr. George E. Thomas related to efforts in progress on the structuring of teaching staff personnel for 1966-67. Mr. Thomas reported continued effort to secure as highly qualified persons as possible to fill teaching vacancies and new positions.

The Board adopted, as recommended, certain policies in connection with the employment of central office clerical personnel.

The Board heard a brief report from Dr. Charles L. Ecker informing the Board regarding building progress at the locations where operations are under way including Mechanicsville, Winfield and South Carroll. The Board also heard a report regarding plans and activities related to the Englehardt Survey.

Action was taken to approve recommended transfer of land from State Road authorities to the Board of Education and, in exchange, approved a deed of transfer involved in the right-of-way now in use for Route 32 as a Sykesville by-pass.

Members of the Board were advised regarding plans for attendance of representative members at the National School Boards Convention which will be held in Minneapolis, April 23-26. Mrs. Margaret R. Marsh and Mr. Thomas A. Raver will represent the Board at the convention.

The Board devoted some time to a discussion of the structure of transportation in the county schools and requested certain information from the Superintendent of Transportation regarding these matters. Action was also taken to give consideration to a plan for securing adequate insurance coverage for the three-year period beginning January 1967.

The Board considered a resolution planned in a previous action of the Board and submitted for approval by Attorney L. Pearce Bowlus. The resolution had to do with the relinquishment of duties by the Superintendent of Schools, Samuel M. Jenness. The following resolution was adopted and it was directed that the resolution

should be made available to the public and press:

Resolutions on the Retirement of Samuel M. Jenness

WHEREAS Samuel M. Jenness, Superintendent of Carroll County Schools, on February 1, 1966, in a letter directed to the Board of Education of said county, tendered his resignation from that office to become effective at the expiration of his present term on August 1, 1966; and

WHEREAS, the Board of Education, mindful of the many years Superintendent Jenness has devoted to public education in Carroll County and elsewhere, and aware of the invaluable contribution he has made to that cause in this county during his 44-year tenure: first as a teacher, then as principal and for the last 20 years as superintendent of schools; and

WHEREAS, this Board accepts his resignation with regret, but with sincere appreciation for the life-time of service he so faithfully devoted to his chosen profession during which he has aided immeasurably in the advancement and continual progress which have taken place in the educational world during his many years of association with the public school system in Carroll County;

THEREFORE, BE IT RESOLVED, that this Board recognizes that in the resignation of Samuel M. Jenness as Superintendent of Schools, the Carroll County community and State of Maryland have lost an eminent educator and a tireless public servant, who has contributed vastly to the field of endeavor to which he has so conscientiously devoted a lifetime.

And be it further resolved that a copy of these Resolutions be sent to the retiring Superintendent of Carroll County Schools, and a copy be spread upon the minutes of the Board of Education.

Adopted by the Board of Education of Carroll County at its regular meeting held in Westminster, Maryland, March 9, 1966.

Why the Church Lesson for April 3, 1966

Background Scripture: Matthew 28:16-20; 2 Corinthians 5:16-21; Ephesians 3:7-13; 6:10-20; Revelation 2 and 3. Devotional Reading: Ephesians 6:10-20.

"Marriage is a sure cure for true love". "It's the courtrooms that make Justice blind". "Laws kill the conscience". You will hear nonsense like that wherever men gather to discuss what is wrong with the world.

Dr. Foreman we didn't have the institution of marriage, just as we would have better justice if it were not for law courts and lawyers, and better behavior if we had conscience alone to guide us instead of rules and statutes, so we would have purer religion without the churches to choke it. So why the church?

Living sense of God

There are three big reasons, which include many smaller reasons, why the church is on the scene and ought to be on the scene. Why the church? Because it is indispensable, that's why. It is an institution prone to all the weaknesses of corporations, all the stiffness of human institutions, all the arrogance of bureaucracies; yes, but it is a divine institution and indispensable, all the same. This world is crowded with institutions. The river of time reeks with the waste of human institutions. But the church is indispensable. The church alone exists to keep alive a keen sense of God among men. Oh, you say you know some non-church-members who are more godly than most of the members; or you may

know some phony hypocrites in your own church. But the fact remains that by and large, where the church is weak, there the sense of God is weak. How much of the time do you believe in God, really believe in him with all your heart, to say nothing of loving him? Once a week, maybe? Perhaps not so often. To our shame be it said: we forget God more than we remember him. But there stands the church, raising above her deep foundations the spires of faith, the church, affirming week by week in so many words, "I believe in GOD", and through the week by her very physical existence as a building witnessing to the faith of the men and women for whom she is a spiritual home. No other institution is dedicated to God by faith; no other has witness to God as a primary aim. The church is indispensable.

Man's grandeur and misery

The church is indispensable for another reason also. It is she alone who keeps reminding man both of his grandeur and his misery (to use the two words Pascal made famous). Against all the voices of cynicism and despair, against all who belittle man, against those who see in man only another animal, an organism destined at last for the dust, — the church by contrast keeps telling those who will listen, the truth that man is a child of God, made in the image of God, a creature whose destiny and origin are alike God-determined and God-given.

Church has the answer

The Church, therefore, has the key, the clue, the answer to the great practical riddle and problem of human life. Many a scheme for the betterment of mankind and the transformation of human society has gone to smash on one and the same reef: the perversity and weakness (either or both) of human nature. What is needed is a power above nature — super-human, no less — which will transform persons from the inside. We need people who have been "born again", people who think and act with God and not against him.

Letter from Annapolis

The legislators were moving hundreds of bills a day through the Senate and the House in this last hectic week of the session. In one day, for example, we dealt with 124 measures—most of them local bills from the 23 counties—and debated some of the State issues which were still hanging fire.

Senate Bill 1, the Budget, had passed the Senate, but its counterpart in the House was mired in Ways and Means Committee, delaying action on the controversial Cooper-Hughes tax reform plan. Legislative crystal ball gazers are predicting the failure of the plan in this session in spite of the optimism of its supporters.

The political pundits are also predicting the death of the implied consent bill when it returns to the Senate in a modified form. The House passed the breath test bill after changing it to permit only Maryland State Police to give the test unless a motorist requests another police department, and allowing the driver to choose between a blood test and the Breathalyzer for alcoholic content when suspected of driving while drunk.

The new congressional seating plan putting Carroll County in a congressional district with Howard, Frederick, Washington, Allegany and Garrett Counties, appeared to be making its way through the House but again faced a dubious future in the Senate as Baltimore and Anne Arundel Counties fought the dissecting of their counties.

Educational television, fought over the question of independent or educational control, is in the Governor's hands awaiting his signature. The bill was molded to a compromise measure by a joint conference committee which put three educators on the independent 11-man commission. The educators will be responsible for all in-school programming, but cultural and other non-instructional programs will be handled by the new agency.

Local bills ready for signature were those dealing with zoning, capital improvements and junked cars. Enacted March 18 were House Bill 415, authorizing the County Commissioners to zone and rezone land; House Bill 901, changing the powers and duties of the Capital Improvements Commissioners to zone and rezone land; House Bill 956, making it illegal to leave "junk" cars on private or public property in open sight.

Another local bill enacted March 21 is House Bill 957, permitting the removal of election registration forms from the election office for data processing under a new system.

House Bill 1209, to put volunteer fire department members and employees under workmen's compensation laws, passed the House on March 21 and was slated for passage in the Senate later that week.

Both Houses have passed House Bill 902 creating a governmental study committee for the local County government.

Thomas R. O'Farrell
Senator from Carroll County
