Since it is quite an expense to send letters, then another mailing for the card, it was thought quite a saving for the Auxiliary to let the chairmen collect the dues of \$1 for 1967. So kindly send to Mrs. Roy B. Kiser, 59 W. Baltimore St., Taneytown, and Mrs. Roy E. Baumgardner, Keymar, for your Auxiliary membership cards. Taneytown H. S. Open House

A review of the arts was held at Taneytown High School on Monday night at an open house held during the regular meeting of the Parent-Teacher Association. The Industrial Arts, Art, Home Economics, Music, and Physical Education Departments displayed a great variety of talents.

On display in the Industrial Arts department were the many types of home furnishings, from bowls to beds, which were made by Industrial Arts students under the supervision of Mr. Kenneth Hood.

Mr. Harold Rodgers, art teacher, had on display the many types of art produced in his classes. Included in this display were paper mache figures and drawings.

Eighty-three girls from the Home Economics department modeled their original creations in "A Shower of Fashions" which was organized and directed by the senior Home Economics girls, under the supervision of Mrs. Barbara Airing and Mrs. Jacqueline Herring. With a background of piano music played by Mrs. Anna Motter, these girls modeled their creations on the stage which was transformed into a garden, centered with a latticed gazebo. The fashions were centered around the four seasons. Choral music was provided by the ninth grade chorus, under the direction of Mrs. Jean Bowers. Co-chairmen were Judy Welty and Susan Copenhaver; the stage was decorated by Myron Smith.

Highlighting the evening was the Girls' Physical Education Program. Similarities and differences in other denominations, interpretation of The Lord's Supper were compared. Prefacing the topic and to set the theme, was the recitation of the "Words of Institution of The Lord's Supper," followed by The Lord's Prayer and the singing of the Angust Dei. The presentation of the different comparative facets of this sacred ceremony was most informative and impressive.

Hayden of 41 Hook Rd., Westminster, Md., is a motor vehicle and truck driver in Hoa Khanh, Vietnam, attached to the truck company of Headquarters and Service Battalion, First Force Service Regiment.

Last year, each vehicle of his company was driven over 1,400 road miles per month, for a yearly total of more than 2 million miles, all in support of combat operations in the war zone. He helped in transporting more than 800,000 people, approximately 8 million gallons of water, and some 6 million gallons of fuel. The operation was launched on the theory that national Viet Cong political and military headquarters might be located in the area along the Cambodian border.

Meeting little VC resistance, the operation has been successful in the confiscation of large quantities of food and arms.

"SPICE 'N' EVERYTHING NICE" (Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's
dawning.
I wish you health—life's greatest wealth;
I wish you always near so that I may help
to cheer
Each future day and in some way—help to
bring you happiness!

Forsythia, Phlox and Jonquils are just about everywhere as I write this column and the Japanese Cherry Blossom trees are also in much evidence on many of the lawns. What a shame all this beauty to last for so short a period!

Did you see Arthur Godfrey on "Coliseum"? I enjoyed that precious horse more so than all those other dangerous acts. Such love for a horse that it is beautiful to see the real affection that comes from the heart!

Thinking of TV and Lucille Ball—it is becoming most monotonous and if she is wise she should give up for the time being and make a "come-back" in about two years, for she is a person who will never grow old—that beautiful "Leo" sign! So many do not watch the show anymore stating, "It is all just about the same!"

Now, will be the beautiful time of the year to vacation in the merry month of May, no matter in which direction you go.

Connie Stevens was on the late show the other night and she is truly a lovely looking gal—one would think she was a daughter of Debbie Reynolds! She is the one engaged to Eddie Fisher.

If you are interested in furs, now is the right time to purchase and there is just one place—"Where the Label Counts," and that "Mano Schwartz" on N. Howard St. One can have the real confidence right there for it has been in the family for many years.

How nice to deal with the sales lady at the "Max Factor" booth in the Hecht-May Co., down town. It is fascinating just to stand by and listen to her tell the real facts and which is best for you (Miss Dorothy Speight).

And thinking about two nice saleswomen and the product—did you ever shop for hose at the "Park-lectric"? It is across from the Gas & Electric Co.—a tiny store next to the Nut Shop—101 W. Lexington St. Miss Jean and Miss Rose take such an interest and—oh—so patient, as I observed their selling, and that is as it should be. Why pay more for hose? They are the best I have ever worn and a perfect fit! And this one from a Mrs. John Gardiner of 2200 W. Rogers Ave., and so true—Legs, legs, legs, legs, short legs, long legs, skinny legs, fat legs, veined legs, straight legs and another pair of pretty legs.

Now this is what we always meet. When walking up and down the street.

Then let us kneel and reverently pray That very soon will come the day, When old "Dame Fashion" will decrease.

To put the hem below the knee! Today's "Mini Skirts"—it all started in 1946 when hemlines rose!

I was surprised that Mrs. Kennedy wears such short—short dresses! That poem is called, "A Prayer for Cover". Cute? It was published in the Sun paper!

Don't forget, folks to buy those "FIG" bars and eat some daily for they surely are just the best for what ails you!

There is a doctor who presents a lily plant to his patients on Easter Day! Is not that sweet and thoughtful? Never have I heard one like that before!

Now, here's a sweet one—a retired school teacher met a gentleman on the street who was a "First Grader" in her class. "Oh," he said greeting her warmly, "You are the one I always wanted to marry!"

How did you like "The Oscars" on TV? Simply beautiful in color!

What a grand letter arrived from Lowell Thomas and one from Julie Harris!

So long, folks until next week D. V. and remember always that "Seven Days without a Prayer makes One WEAK!"

I am,
Faithfully yours,
Irene deLeon Love.

VIEW FROM MY KITCHEN WINDOW

After yesterday's April showers, the sun is breaking through heavy gray wind clouds, and it promises to be a pleasant, clear day. This kind of weather is fine for newly-planted gardens. As a general rule, I am a late gardener, but this year, spurred on by a few warm summer-like days, and my neighbor's kindness in doing the necessary plowing, I determined to set out a part of my "patch", at least, by mid-April.

And so I made a trip out to Rein-dollars Hardware Store and stocked up on lettuce, cabbage and tomato plants. The Rein-dollars, by the way, enjoy quite a reputation for the excellent quality of their plants and flowers, and I have been buying from them for years.

It so happened that my mother, dad, and daughter were all here for the afternoon, and so we made this particular gardening project a "family affair." Work goes so much faster when there is talk and laughter, and before we realized it, our task was done.

There is a certain, humble satisfaction that comes from getting down on one's knees in the soil, and in working with God's good earth. Furthermore, those fresh vegetables will taste so delicious later on in the season.

The Taneytown Kiwanis Club presents an Eli Bentley clock to the Carroll County Farm Museum. It is one of the finest antiques so far presented to the Museum. Records indicate the clock is one of only a known total of 48 made by Mr. Bentley in the 1780-1820 period at Taneytown. It is in perfect running order and continues to strike the time of the day on each hour. We are informed that while the clock was made by Mr. Bentley, the cabinet was the product of a Fuss Cabinet Shop located in Taneytown. A few residents of Taneytown have these very rare and valuable clocks in their homes today. Shown in the official presentation to the Museum are (left to right): Felix Westine, treasurer; Oliver Leakins, secretary; and Francis Lookingbill, president, of the Taneytown Kiwanis Club.

GRASSROOTS OPINIONS

VIRGINIA, MINN., NEWS: "Every
so often we hear the complaint that
while the economic system of the
United States is the most successful
in the world, the people who enjoy its
benefits understand little of how it
works. Americans are economic illit-
erates. Wealthy illiterates, but illit-
erates none the less. A study made
in 1963 revealed that among large
school systems in the nation, fewer
than one-fifth had a required course
in economics. Many schools offered
no economics at all. Only 22 states
required economics courses for social
studies teachers. . . Nikita Khrush-
chev once said that he would bury us
—that is, that his economic system
would triumph over ours. Not if
we're smart, it won't."

**CHICO, CALIF., ENTERPRISE-
RECORD:** ". . . there is no way to
rationally avoid the analysis that
termination of the bombing pressure
on North Vietnam might actually
serve to prolong the ground war in
the south—and even permit Ho Chi
Minh's easier-to-supply forces to in-
crease their scope. Those to whom
the phrase 'Stop the Bombing' has
come to be a magic key to unlock the
door to peace should consider that
. . . factor. Thousands of our young
Americans could be killed by Ho Chi
Minh's greater and better-supplied
forces. The true fact is that if the
Communists are sincerely desirous of
talking about peace, American bomb-
ers are not standing in their way.
President Johnson is eager to hear
from them at any time."

OAKHURST, N. J., NEWS: "As
a general rule, one should know the
people and the system of adminis-
tration to which his donation is directed.
Even some of the larger charitable
organizations, or disease fighting
organizations, spend too much of their
income on administration. A reason-
able guideline is to insist that at
least seventy-five per cent of all in-
come be used for nonadministrative
purposes. Also, most charity is bet-
ter used and utilized at home. In our
communities, there are those in need.
And curiously, many of us donate
rather generously to several far-away
charity drives each year while over-
looking what we might do in our area
with the same generosity."

SULLIVAN, ILL., PROGRESS:
"After several years of inaction, gov-
ernment officials are suddenly be-
coming concerned about growing . . .
crime in our country. More important
yet, they are suddenly aware that
. . . criminals are now receiving a lot
of special benefits and protection as a
result of recent rulings of the high-
est court of our nation. The court
seems to have suddenly become more
concerned with rights of criminals,
than it is with the rights of all the
other citizens. . . Law enforcement
officials . . . are getting discouraged
—they put forth a big effort in solv-
ing cases and capturing criminals,
only to see them go merrily on their
way, unhindered and unconvicted on
technicalities so vague that they often
reach the point of being silly."

ELIZABETHTOWN, KY., NEWS:
"A few weeks ago most of the large
oil companies in the United States
announced increases in price which
would amount to about a cent a gallon
to the consumer. The action was
promptly denounced by Secretary of
Interior Udall, who demanded that it
be rescinded. . . The NEWS doesn't
know what the price of crude oil or
of gasoline should be. Neither does
anybody in Washington. This news-
paper knows that the oil business is
not subsidized and that the law of
supply and demand should fix its
price in the open market. Further-

more, if there is any collusion among
companies in price fixing the legal
machinery of the Department of Jus-
tice is poised to act against them.
The Government in Washington gets
wrought up about almost any, or
every, kind of price rise except that
in wages. The latter never seems to
ruffle its feathers."

CASSVILLE, WISC., AMERICAN:
"Several years ago a voluntary health
organization launched a vigorous pro-
gram to educate the public about the
rudimentary symptoms of chronic
respiratory disease. The watchword
was (and still is): 'Cough too much?'
Short of breath? You may have a
respiratory disease. Don't take chances—
see your doctor.' . . . Only a
doctor can tell for certain whether
cigarette smoke or polluted air is
having a discernible effect on your
breathing apparatus. But the obvious
danger signs are those noted above:
a cough that won't go away or keeps
coming back; and shortness of breath
that isn't due to unusual exertion. If
you have either symptom, you owe it
to yourself to consult a doctor."

"No matter what my birth may be,
No matter where my lot is cast,
I am the heir in equity
Of all the precious Past."

Abbie Farwell Brown

There is an obligation to the future that we must assume—to provide those who come after us with a record of what has gone before. The Carroll County Historical Society is keenly aware of this obligation, and through its efforts, and with the support of the County Commissioners, the organization has gathered a wealth of documents, relics and antiques to give present and future generations a better understanding of the way their forefathers lived.

As the Society has become more active and better known, public interest and public contributions to its work have increased. Many people, becoming aware for some time of the public repository for antiques and artifacts, have made donations of personal items handed down to them from parents and grandparents. Thousands of visitors each year view the Society's collections and take the suggested historical tours.

Each year up to 1,000 students from Carroll County schools have history enriched for them by seeing the displays of century-old articles.

The Society's Shellman House has been pronounced "perfect" by an architect famous for restoration work. The preservation of this building in its original form is a rich source of information and inspiration for the thousands of people who view it yearly.

The Society believes, however, that its obligations extend beyond a mere "storage" of antiques. The Society is obligated to provide information to interested people, to generate interest in the traditions and background of Carroll County and to help every resident share in the rich heritage of the County.

In addition to school tours and public tours of the buildings, the Society provides suggestions for tours of historical places; makes the buildings available to civic, political and cultural groups for meetings; provides knowledgeable speakers for interested groups and publishes important booklets and maps.

Society publications include quarterly bulletins featuring new historical material and articles developed by members, a Tourist Brochure for Carroll County, and a County Map of the Civil War that is in use in County schools.

The Society produced a book on Carroll County's role in the Civil War, entitled "Just South of Gettysburg." The book has been sold nationwide and has been awarded the "Certificate of Commendation" by the American Association of State and Local Histories. Several Civil War

pageants have been staged by the Society, and it has sponsored the erection of many historical markers in Carroll County.

Working in conjunction with the Farm Museum, the Historical Society completes the rounded view of 19th Century life. It complements the Farm Museum's displays of tools and machines with a presentation of home life in the last century.

The Society, however, recognizes yet another responsibility. Beyond its debt to the past and its obligations to the future, the Society feels that it has a tangible function in the continuing growth and prosperity of the County.

The "cultural revolution" felt throughout the United States is no less at work in Carroll County. Increased public interest and participation in the Society's work point to that. Today, it is important for any area hoping to maintain a healthy, balanced growth and prosperity to provide cultural enrichment for its residents.

The importance of this is emphasized repeatedly by firms searching for plant and office locations, and by prospective residents and natives of the area to look elsewhere for the cultural stimulation they seek.

Carroll County has done an admirable job in providing a happy balance of cultural, recreational and inspirational opportunities for its citizens. The Historical Society, following this tradition, hopes to continue to make valuable contributions to the wealth of the County for all of the county's present residents, for newcomers and visitors, and for all the generations that will someday enjoy the pleasure of living here.

Could we but draw the curtains that surround each other's lives, see the naked heart and spirit, know what spur the action gives, often we should find it better; purer than we judge we should; we should love each other better if we only understood.

Could we judge all deeds by motives, See the good and bad within, Often we should love the sinner all the while we loathe the sin; Could we know the powers working To overthrow integrity, We should judge each other's errors With more patient charity.

If, we knew the cares and trials, Knew the efforts all in vain And the bitter disappointments, Understood the loss and gain, Would the grim external roughness Seem I wonder just the same? Should we help where now we hinder? Should we pity where we blame?

Ah, we judge each other harshly, Knowing not life's hidden force; Knowing not the fount of action Is less turbid at its source. Seeing not amid the evil all the Golden grains of good.

Oh, we'd love each better if we only understood.

The Cost Is Small

Kindness has been described in many ways. It is the poetry of the heart, the music of the world. It is a golden chain which binds society together; it is a fountain of gladness.

Kind hearts are more than coronets. Kind words produce their own beautiful image in man's soul.

Everyone knows the pleasure of receiving a kind look, a warm greeting, a hand held out in time of need; and such gestures can be made at so little expense, yet they bring such dividends to the investor.

Prayer meeting will be held in the home of Mr. and Mrs. Wm. Corbin, Tuesday, April 25, at 7:30 P. M. by the pastor, Rev. Herbert Myers of The First Church of God.

THE WAY I SEE IT . . .

Observations on the World of Sports — John Breth

In the San Francisco Giant scheme of things, WILLIE MAY is a man for all seasons.

Mays is the only player on the San Francisco club who also saw action for the Giants in New York and who has been with the team in the decade since they left Manhattan.

Southpaw Mike McCormick pitched in New York, but he is a retard, having joined the Giants this season after a tour of the American League.

What all this proves is that a decade is a long time in baseball. It often can be the span of a man's career.

Of the other Giant players, Jimmy Davenport, utility infielder, joined them in 1958, their first year in San Francisco. Manager Herman Franks caught one game for the Giants in New York in 1949 and was the third base coach for them when they opened in San Francisco.

Getting back to Mays, Willie will reach the ripe old baseball age of 36 on May 6. If 40 is an unhappy milestone for everybody else, 35 is traditionally the time of life when an athlete really begins to feel the weight of the calendar.

Joe Louis said it best many years ago when training for a big fight that he did not win. It was at the tail-end of his career and a weary Louis said, "When you reach 35 it all depends on how you feel when you get up in the morning."

Mays takes a realistic view of this. He has his own rest program which is designed, among other things, to prolong his major league career. When Mays gets tired he sits down for a day or two.

Willie expects to be playing in the major leagues when he's 40. Barring accident the chances are good that he will.

Here are some notes from the NATIONAL FOOTBALL LEAGUE—

The three top-rated passers in National Football League history are playing now. They are Johnny Unitas of Baltimore, number one; Bart Starr of Green Bay, number two; and the fast-climbing Sonny Jurgensen of Washington who is number three and moved up from sixth place last year.

Lifetime ratings in the NFL are computed under the current formula which takes into equal account the completion percentage, touchdown passes, interception percentage and average gain per attempt.

Only those men who have attempted 1,500 or more passes in NFL play are eligible. Just for the record, Unitas has completed 2,006 passes in 3,661 attempts. Starr has made good on 1,328 out of 2,320 tries and Jurgensen has hit on 1,253 in 2,284 attempts.

Green Bay Packer power is taken for granted. But there is always new evidence. Of the 42 intra-conference home-and-home series last year in the NFL, 18 ended in sweeps. The Packers swept four opponents, Chicago, Baltimore, Detroit and Los Angeles. No other team had more than two sweeps.

The Atlanta Falcons plan to give defensive back Ron Smith a chance as a running back this year. Atlanta coach Norb Hucker says, "Smith can run and he's tough. He's 193 pounds and he's not afraid to stick his head into a crowd."

Pittsburgh Steeler coach Bill Austin had been entertaining thoughts of trying flanker Roy Jefferson at a running spot but changed his mind after the Steelers traded Gary Ballman, their top receiver, for Earl Goss, big Philadelphia Eagle fullback.

The Steelers will look at a lot of receivers this year. At last count they had 18 pass catchers scheduled to report to their training camp in Latrobe, Pa.

Today's Sport Laugh — A tennis tournament is being played in New York on a court made of composition rubber. And some of the players don't care for it. One of them—Ion Tiriac of Rumania—says he doesn't like any surface but clay.

Continues Tiriac: "Wood is for basketball games, and grass should be turned over to cows and horses."

Maryland State Troopers Needed

Applications for appointment as Trooper in the Maryland State Police are now being accepted.

Colonel Carey Jarman, Superintendent, in making this announcement, pointed out that the next recruit class will get under way at the Police Academy in Pikesville on July 10, 1967. Accepted applicants will undergo 21 weeks of intensive basic training in all phases of police work before they are assigned to field duty.

The starting salary is \$6,700 with automatic increases over a period of six years to \$8,716.

"Law enforcement," he said, "is an expanding field which offers real opportunities of a challenging nature to serious young men who are willing to work toward advancement."

Applicants must be citizens of the United States, residents of Maryland on the date of appointment; between the ages of 21 and 31; minimum height requirement of 5 ft. 10 in.; approximate minimum weight of 160 pounds; high school diploma or equivalency certificate is required; and they must be physically qualified and of excellent moral character.

The Commissioner of Personnel will hold written examinations for qualified applicants in Baltimore on May 13, 1967, and in Hagerstown and Cambridge on Saturday, May 27, 1967. Closing date for submitting applications is April 28, 1967.

Applications may be obtained at Maryland State Police Headquarters or any State Police Installation.

ACROSS THE FENCE

by
ROBERT L. JONES
County Extension Agent

The Carroll County Farm Museum took another giant step forward when it opened its doors this past Saturday and Sunday for the first full season of activity.

Much interest centers on the additional displays and the rooms in the main house. Immediately upon entering the grounds through the log cabin, visitors take a step back into the past and see how grandpa lived and worked.

Fortunately the existing buildings could be left very nearly as they were with only minor renovations being needed. At the same time many volunteers have spent hundreds of hours seeking essential items and filling in interesting details which are necessary to make a well arranged and authentic exhibit.

Chairman Elmer P. Pfoutz, the Board of Governors and his volunteer advisory committees deserve our appreciation for making this unique farm into Maryland's first Farm Museum.

Heading the advisory committees are Mrs. Landon C. Burns, house and furnishings; Mrs. Mary Ellen Bay, research; Mrs. Dean Griffin and Mrs. Julia Gouge, guides; Mrs. Betty Grier, gift shop; H. S. Brauning, concessions; and Sterling J. Leister, crops.

Within the next few weeks over 60 thousand acres of Carroll County will be plowed and made ready for crop production. The rich soil tilled by our skilled farmers will build the foundation for bountiful crops of corn, wheat, barley, hay, and pasture if the necessary moisture is available.

While a number of good steady rains are hoped and prayed for, one so-called "gully washer" can bring disaster to many of these plowed

fields. Within a few minutes thousands of tons of our richest top soil, with recently applied fertilizer and lime, can be washed into the rivers and stream and on to roadbeds.

Of course this destruction is unnecessary if proper precautions are taken to prevent erosion. Grass strips, strip cropping, sod waterways, contouring and terracing where needed can prevent much of the erosion. It's the "ounce of prevention" that's needed.

Drought conditions during recent years should not catch any one napping when it comes to erosion. Technical help is provided by the local Soil Conservation Service by calling 848-5995. Land owners should insist today that Carroll County's rich productive soil is preserved for tomorrow's generation.

Alfalfa is our most important hay crop. While the alfalfa weevil has caused considerable damage in recent years, no other crop can equal alfalfa for hay production. Even after costs for spraying are deducted, alfalfa is still more profitable than other hay crops in terms of net profit per acre.

Of course all land is not suitable for alfalfa. Soils having wet areas are more suitable for clover and timothy because of a more shallow root system.

The alfalfa weevil can and should be controlled in order to harvest high quality hay. Research indicates that satisfactory control can be obtained. Attention must be given to timing the spray applications for best results.

Specific chemicals recommended giving amounts to use, time to apply and time limitation to avoid chemical residues are contained in Fact Sheet 149 on Control of Insects on Alfalfa and Clover. This fact sheet can be obtained by calling or writing our office in Westminster.

Along the Way

Lesson for April 23, 1967

Background Scripture: Acts 3.
Devotional Reading: Hebrews 11:32-40.

A man driving on an expressway grew so impatient at what he considered to be "Sunday driving," that he purposely bumped the rear of the car in front of him to prod the slower driver. Unfortunately for the impatient motorist, a policeman saw this deliberate act and arrested him. Later, when asked by the judge why he had been in such a hurry, the man explained that he was on his way to church and didn't want to be late.

Rev. Althouse

Few of us have ever seen anyone that anxious to get to church! Yet, perhaps we do know that getting to church and going about our normal religious routine may sometimes get in the way of our living in a Christian manner along the way. This was true of the Levite and the priest who, anxious to be on their way, did not stop to help the man who had fallen victim to thieves on the Jericho road.

Peter and John had a similar challenge one day as they were on their way to the temple for prayer. A crippled man lay at one of the temple gates asking for alms. It was his only way of making a living. What should Peter and John do? If they stopped to help him, they would probably miss the service in the temple. Yet, important as that was to them, they had to stop: this is what the Master himself would do. He never let religious practices get in the way of doing the will of God.

The "will of God." Ah, there's the rub. Apparently Peter and John believed that it was God's will that this man be made whole. How could they be sure? How did they know he wasn't being punished for some special sin?

Perhaps this sickness would lead him to repent or grow in faith or learn humility? Maybe the man wasn't good enough or pious enough to be helped?

Matter of Compassion

Peter and John, however, would not have been deterred by objections such as these. They had never heard Jesus pray, "If it be thy will," when he asked God to save or heal someone. They had never heard him tell someone that it would be better for his soul to remain sick a while longer. When the blind man was brought to him, they recalled, Jesus denied that it was his or his parents' sin that was to blame. He had never sent anyone away saying, "I'm sorry, you're not good enough or spiritual enough." When someone ill or in difficulty confronted him, Jesus thought of none of these. He saw only people in need and was moved by compassion.

So also were Peter and John moved by compassion to stop on their way to church and heal a crippled beggar. Yet, we might ask, if God wanted this man whole, then why didn't he just heal him without stopping these two men? Why must we ask for God's help if he already knows we need it?

Peter said, "Look at us." We often think of prayer as getting God's attention; in reality it is a matter of giving our attention to him so that he can do with us what he desires. We pray, not to persuade a reluctant God, but to submit ourselves to his will, which, Jesus made clear, includes wholeness of mind, body, and spirit.

Waiting For You

Furthermore, we must expect to receive something. This is all that faith really is. Instead of some mysterious gift of mind over matter, it is a trust in Jesus Christ. Too many try to "have faith" by gritting their teeth and clenching their fists. It is more a matter of letting go of ourselves and letting God take over.

The man asked for alms but was given something much greater. We ask for help and often fail to realize that he has answered our prayers by sending someone to help us. Perhaps today as you go about your daily work, there is someone asking God for help, someone who unknowingly is waiting for you to stop along the way.

First Year From Seeds

These delicate sprays of bloom are those of a new foxglove, Foxy by name, which has won an All-America Selections silver medal for 1967. When properly handled, it blooms in 5 months.

The foxgloves that have previously been grown in gardens are biennials—that is the seeds are planted one year, grow and form leaves that year, but wait until the next year to flower. Not so a new foxglove named Foxy.

Foxy won an All-America Selections silver medal for 1967 because of its different flowering habit. Blooms can be expected only 5 months from the time seeds are sown.

In terms of plant breeding, these fewer months to flowering represent a great achievement. In terms of gardening they mean that gardeners no longer need think ahead a whole year in order to have the white, cream, yellow, pink, lavender, magenta and purple spotted blooms in their yards.

Foxy is a dwarf foxglove, averaging 2½ feet in height. In addition to the main bloom spike a plant may have as many as 9 branch spikes, all with flowers closely packed along the top 8 to 12 inches.

Foxy has two foibles. Plants react adversely to being transplanted except when seedlings are very small. And plants need moisture at their roots all summer long.

If the gardener moves plants when half grown or neglects to water in dry spells Foxy will not flower in 5 months. Instead it will observe the usual biennial schedule and bloom the following year.

Indulge these two minor whims and treat your garden to Foxy's display of 15-inch-wide plants topped with delicately-colored flowers for weeks in mid-to late summer.

MEETING OF BOARD OF EDUCATION

A meeting of the Board of Education of Carroll County was held in the County Office Building, Westminster, at 9:30 A. M. Wednesday, April 12, with all members present. President DeVries R. Hering presided.

Minutes of the previous meeting were approved and the financial statements for January and February were approved.

The following resignations were approved: teachers — Patricia Reising, Samuel E. Corbin, Jr., Mrs. Joan Champagne, Mrs. Elizabeth M. Leberer; teacher-aide — Mrs. Joyce Plank; and secretaries — Mrs. Marie Metcalf, Mrs. Wanda Pond and Karen Holt. Contracts were approved as follows: teachers for service 1967-68

Roger Alvin Hicks, Richard M. Owens, John J. Kutchi, Ann D. Starner, Pearllette M. Graff, Patricia F. Moler, Richard E. Porter, John H. Titus, Jr., Ruth H. Farley, Durwood H. Farley, Carole D. Lupis and Carolyn Warehime; for service during the remainder of the current year — Mary Pusey, Mt. Airy Elementary teacher; Mrs. M. Jean Cook, Westminster Jr. High Library, and Mrs. Lois H. Sheehan, Central Office.

Mr. John Diven, County Roads Department, presented to the Board information that the County Roads Department could absorb into its system 2.2 miles of school entrance drive-ways for maintenance, provided approval is given by the State Roads Commission. Such approval from the State would mean reimbursement to the County from the State. The Board of Education would be responsible for snow removal. The Board voted to accept this maintenance provided State Roads Commission approval is given. Mr. Diven indicated that he would report as soon as possible the decision.

The Board met with the County Commissioners for two hours in the morning session. There was discussion of the capital improvements budget, particularly with regard to land purchases for school construction. The total capital improvements budget and the current expenditures budget were also discussed. The Board of Education gave complete information and projection on needs for the 1967-68 school year.

In the afternoon session there were considered at the beginning matters of student accident insurance in public schools and insurance coverage, generally, for the Board of Education. On the recommendation of the Board Insurance Agent for pupil accident insurance, it was decided to continue for the next school year with the Student Accident Insurance program presently used in the Carroll County Schools. It was voted, also, to consider putting student accident insurance under bid for the school year 1968-69. The Board Insurance Committee reported that bids on general board insurance coverage had been let, and would be submitted prior to the May Board meeting. At this time the committee would make recommendations concerning the bidding companies.

The contract for the installation of the running track at the South Carroll High School was awarded to the firm of Richard Klein Construction Co., Frederick, Md., low bidder.

Dr. Charles Ecker, Assistant Superintendent, reported that final inspection of the South Carroll building would be held on April 27. If inspection conditions are satisfied, the building would then be accepted by the Board of Education.

The Board approved for the next school year the purchase of one relocatable classroom to be positioned at the decision of the Superintendent and staff.

Dr. Ecker reported that consideration for the best use of the area of land purchased from the City of Manchester was under study. The Board is concerned about improvement of facilities for loading and unloading school buses at Manchester.

The Superintendent advised that the recent State Legislature had passed the duty-free lunch period bill for instructional personnel. He indicated that a study was being started in order to determine how this would affect the operation of schools and the cost of the program.

The Board also heard and directed answers to a number of communications from individuals and groups with regard to areas of public education and activities.

Mr. Thomas Raver, vice president, and Mr. Robert Haight, member, will attend the National School Boards Convention in Portland, Ore., April 22-26.

The Board considered a resolution concerning the consolidation of Taneytown High Schools, grades 9-12, with the same grades from Francis Scott Key at the latter location effective September 1, 1968, action on said resolution being tabled. The Board felt that in terms of renovations, modifications and additions to the existing Key building, it should table the resolution until action by the County Commissioners on the capital improvements budget.

Adjournment was at 4:40 P. M.

Pineapple Sodas Cooling For Spring

Pineapple Growers Association Photo

Springtime sodas get a taste of the tropics with canned pineapple juice. Choose your best looking tall glasses to fill with canned pineapple juice, vanilla ice cream and ginger ale. For pink color stir in a little maraschino cherry syrup. Canned pineapple chunks, maraschino cherries and lime slices make pretty swizzle stick garnishes.

Canned pineapple juice is a good inexpensive soft drink to have on ice during the festive spring season. For weddings, proms and graduation parties, pineapple juice is the classic punch ingredient.

TROPICAL PINEAPPLE SODAS

1 (46-ounce) can pineapple juice
Maraschino cherry syrup
1 quart vanilla ice cream
Ginger ale or sparkling water
Canned pineapple chunks
Cherries
Lime slices

Divide chilled pineapple juice among 6 to 8 tall glasses. Add a tablespoon cherry syrup to each glass and a double scoop of ice cream. Fill glass with ginger ale or sparkling water. Make swizzle stick kabobs by stringing pineapple chunks, cherries and lime slices on straws or bamboo picks. Makes 6 to 8 sodas.
