The Clerk Treasurer reported a balance of \$5,780.31 in the General Account and \$1,292.27 in Parking Meter Account.

Pool Tickets were \$130.00 for the month of April. The Pool Committee reported all members for the staff of the pool have been hired, and if weather permitting, the pool will open for the season on Saturday, May 27, 1967. Tickets for the 1967 season are on sale at the Town Office at the same prices as last year. The Pool Committee will announce the names of their staff in the near future.

Officer Joseph A. Fleischman reported for duty as the new Meter Attendant on Monday, May 1st.

Action was taken to close the park at 11:00 P. M. every evening.

A new agreement will be drawn up for Garbage Collection with Mr. Walter Benchoff to run through April 1968.

The I.N.A. Insurance Company received the bid for a blanket coverage of all the town property for a term of three years.

The Parking Meter spaces will be painted in the near future.

The election for the office of Mayor and two Councilmen will be held on Monday, June 5, 1967. All candidates for these offices must file a Certificate for Nomination by May 19, 1967. Forms for candidates can be secured from Mr. Henry Reindollar, Jr., Town Clerk.

The Park Board at their meeting requested that a barrier be placed along the roadway leading to the pavilions. This will be placed to stop cars from running over the grass play area.

The Superintendent of Utilities gave a report on the new well. The drilling is now at 380 ft. Kohl Bros. experienced very hard drilling at this well site.

The Council took action to have the roadway extension from the Harney Rd. to Pump House Rd. surveyed, the drain tile moved and the ground dumped in this area graded.

The Water Committee will review the billing and anyone with bills in arrears will be notified of possible cut off of supply unless some satisfactory way of compensation is arrived at. Non-payment of water bills by certain customers is very unfair to the general customer who is always on time with his payment.

"We seek through Previews to inspire more young people to make science and engineering their career and provide the trained talent America must have to keep pace with the promise of the future," James M.

"SPICE 'N' EVERYTHING NICE" (Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's
dawning.
I wish you health—life's greatest wealth;
I wish you always near so that I may help
to cheer
Each future day and in some way—help to
bring you happiness!

How beautiful the Azaleas are just about everywhere and they seem to be thriving in a more plentiful thickness in their rich pinks and reds. Now is truly the time for a long drive but "Never on a Sunday!" When you and you have the one day a week off, take my advice and drive that day when you can have the road to yourself.

And, Mrs. House Wife, in that Spring cleaning—don't have the rooms all upside down in the entire house—do one room at a time and that way it is more thorough and more systematic and you will really accomplish wonders.

Hope you and you did not miss the funeral of the great man, "AD-ENAUER" on TV. The other great man, Sir Winston Churchill said at one time that Adenauer he compared with Bismarck! If you observed as our President Johnson shook hands with DeGaulle, the latter did not even look at President Johnson! How different in years gone by when we were always on the most friendly terms with France! Eh?

And thinking about TV which a reader asked Paul Pry, "Is the Judge on Divorce Court really a Judge?" and the reply was to my astonishment—"No, he is an ACTOR!" And his name is Voltaire Perkins.

Don't forget, folks, plan to see "Open House on Tyson Street," this year for it will be a real treat. There will be e i g h t e n homes open to the public on Saturday, June 3 for the 17th annual Tyson St., "Open House." It is just different from any place you have ever visited and it is all chucked full of charm. They always do so much good with the money and this year it will benefit the Children's Guild of Baltimore, a day school for pre-school emotionally disturbed children. A contribution of \$2.00 will entitle visitors to inspect the homes, gardens and shops and attend an open air auction on Tyson St.

The hours are from 10:00 A. M. to 5:00 P. M. You will enjoy every minute!
First time, I have had a stamp book full of the "United Stamps" and the merchandise to redeem the books appear to be a fine quality and I saw items there much more reasonably counted than any other stamp values. I redeemed the one book for a very handsome blue wallet of real leather—blue in color for Summer handbags (as I keep those from year to year).

Now, folks, after so many years, my only sister, Mildred is returning North to live from St. Petersburg, Florida and believe it or not she purchased a Co-operative apartment in "Philly" (that I never would do, as to any Co-operative!) Nuff sed!
Hope you did not miss Joan Crawford on The Hollywood Palace Show last Saturday night with her lovely four changes of costumes! She is the most loved actress in Hollywood. Magnificent in color TV.

No matter what ails you, be sure and see the chiropractor for he can really heal you in no time and if he cannot, he will tell you if you need an operation. After a treatment, the other day, Dr. Hornstein told me that my blood pressure count was like a young girl's! Wonderful is the word! Don't ever be surprised if you see the MD's and the Chiropractors on TV. An article was in the Morning Sun paper recently about that one. Did you read it? And if you want FREEDOM of CHOICE... a right of every American puts Medicare in Chiropractic as it should be. Ask your Chiropractor about that, and then write to your Congressman or Senator! We must have that for all those 65 and over! That will help others to help themselves!

Have a grand week-end, folks. Hope to be seeing you "around the town" next week D. V.
And a P. S.—In the Readers Digest there is an article about Ronald Reagan, Governor of California. Then you will see what it means to be "Aquarius" born! That's what put him where he is—because he loves people.

I am,
Faithfully yours,
Irene deLeon Love.

GOODWILL WEEK

Goodwill Industries will receive well deserved recognition during Goodwill Week to be observed May 7-13. Without special help, handicapped people are often relegated to isolated lives confined to homes or institutions without opportunity, without work, dependent on families or taxpayers. An important answer to this problem has been found in vocational rehabilitation workshops, where handicapped people can be helped through counseling, evaluation, training, jobs and placement help. The 175 Goodwill Industries programs comprise the largest group of such workshops in the nation.

The purpose of Goodwill Week is to bring public attention to the handicapped and in areas where rehabilitation workshops operate to encourage support through donations of materials or money which make the operations possible. Local businesses and public service groups seeking ways to help the handicapped in their own communities may secure information from Goodwill Industries of America, Inc., 1913 N Street, N.W., Washington, D.C.

In these days when the answers to so many of our social problems are being sought in multibillion dollar federal welfare programs, it is tremendously encouraging to see the spirit of voluntary self-help still strongly at work in the land. Goodwill Industries deserves the thanks, the respect, the cooperation and the support of every one of us.

GRASSROOTS OPINIONS

ALTOONA, PA., MIRROR: "One of the things that hadn't been said about the Johnson Administration was that its Commerce Department is suffering from a split-personality syndrome and billboard schizophrenia. . . . Rep. William C. Cramer of Florida has pointed out to his colleagues in the House that at the very time the Commerce Department's Economic Development Administration is busily putting up roadside signs to plug its projects, the department's Bureau of Public Roads is just as busily drafting regulations to eliminate roadside signs."

LA PORTE, IND., HERALD-ARGUS: "Reducing the incidence of the major crimes such as murders, forcible rape, robbery, aggravated assault, burglary, larceny, auto theft, constitutes a social task of magnitude, but it would be interesting and startling, to assemble statistics on infrequently publicized 'white collar' crime, defalcation, fraud, shoplifting, embezzlement, blue sky salesmanship and other dishonest and illegal activity which does not involve violence. . . . A large business security firm estimates that business losses through fraud, thievery and related crime by employees rose 15 per cent last year over 1965. Employee theft in business generally is now estimated at \$2 to \$3 billion annually. . . . Dishonesty is making vast gains."

CLIFTON, ARIZ., COPPER ERA: "The young aspiring police officer who dreams of someday nabbing a bank robber might even consider it inglorious to arrest a citizen who thoughtlessly discards . . . items of litter. Nevertheless, the litterbug is breaking the law and his crime, statistically, is proving much more costly than the bank robber's. For instance, in 1965, \$4.5 million was stolen in bank holdups and burglaries across the country. But in the same year litterbugs committed a crime worth \$500 million, the amount paid by taxpayers to pick up litter from highways, city streets, parks and other public areas. Furthermore, a good deal of money robbed from banks is

recovered, whereas there is no recovery of the money spent cleaning up after litterbugs."

ABILENE, KAN., REFLECTOR-CHRONICLE: "A news story tells how a generous Congress has pushed the salaries of its top employees to such levels that \$20,000-a-year jobs (staff jobs, that is) are becoming commonplace. There are 494 of them ranging up to \$28,500 paid to the head doorkeeper of the House. That sounds like a lot of pay for a 'doorkeeper.' In fairness, this job may be misnamed, since it carries much more responsibility than the title implies. However, it is purely a political payoff type of job. And the salary is only \$1,500 less than a member of Congress."

FORT DODGE, IOWA, MESSENGER: "Social Security, like the public debt, is threatening to get entirely out of hand, and for the same reason—the failure of those responsible for policy to practice restraint. In considering President Johnson's request for (an) . . . increase in Social Security benefits, Congress has been brought face to face with a condition about which early advocates of moderation warned—a threatened breakdown of the system because of intolerable payroll exactions."

PETALUMA, CALIF., ARGUS-COURIER: "We don't like to rake over old coals, but it's important to point out that the controversial textbook 'Land of the Free' has become a 'must' in all California junior high schools. . . . The thing that does bother us about this text is its negative approach to our own glorious history. There are always those among us ready to point out our black marks in history and they completely distort our great heritage by failing to balance it with the shining moments that have made this country the beacon of freedom in a weary, troubled world."

HARRISONBURG, VA., NEWS-RECORD: "At last report Singapore wasn't at war with anyone. So it came somewhat as a surprise to learn that the United States was selling Singapore 23,000 automatic rifles of the M-16 type. It wasn't long ago that the Defense Department was busy explaining that the shortage of M-16's in Vietnam was temporary and that replacements soon would reach American troops who were forced to use World War II types."

The new Mobil oil burner is a remarkable breakthrough in efficiency—and the price is more than right.

Of course, not all furnaces need burner replacement. But yours could be one of the 75% that waste fuel—and money.

To find out, call Mobil. One of our men will give you a free Mobil Fuel-Saver Analysis—a scientific test that tells you exactly how much fuel your furnace is wasting.

If you do need a burner replacement, our men will show you how the new Mobil oil burner can give your heat-efficiency a big boost, while it keeps your fuel bills down.

Do call us. Our men believe you'll be just as hot as they are about Mobil's new burner.

You Can Believe It!

OVER 100 YEARS AGO A SCIENTIST NAMED CHARLES WHEATSTONE INVENTED A DEVICE FOR MEASURING DIFFERENCES IN RESISTANCE TO THE FLOW OF ELECTRICAL CURRENT. HIS DEVICE IS CALLED A "WHEATSTONE" BRIDGE.

THE NEWEST USE OF WHEATSTONE'S BRIDGE IS IN A WATER SOFTENING APPLIANCE. ELECTRONIC SENSORS IN THE SOFTENER TANK DETECT THE NEED FOR SOFT WATER JUST AS A THERMOSTAT DETECTS THE NEED FOR HEAT.

THIS NEW SENSING DEVICE KEEPS FAMILIES FROM RUNNING OUT OF SOFT WATER—REGARDLESS OF THE FAMILY OR THE AMOUNT OF WATER USED.

THE SOFTENER RECHARGES ONLY WHEN NEEDED WHICH, ACCORDING TO THE CULLIGAN WATER INSTITUTE, SAVES AS MUCH AS 41% ON SALT. WHEN THE FAMILY TAKES A VACATION, THE SOFTENER TAKES ONE TOO.

If you ask Mrs. Brown, gurgles are sometimes just as good as words—especially when they come from a new grandson some 500 miles away. And she would have you believe she can understand every one of them, with only minor help from the youngster's mother.

And the phone works magic between grown-ups, too. Quite often, the fact that you cared enough to call means as much as the words themselves.

So if you miss someone across town, across the state, or clear across the country, get with this magic yourself.

Just pick up the phone.

No question about it. The phone keeps people close to you.

And providing a service that does so much, keeps us close to people, too.

As usual, it was a most inspiring and informative session. Mrs. Frank Fife spoke on "Stop the church: I want to get off." She elaborated on the fact that the world is changing and we—the church—must be willing to change with it or we are, in effect, wanting "off." The afternoon featured Miss Beth Platz, who works with students at the University of Maryland, and a musical version of a service such as the student will oftentimes experiment with in learning and getting the "feel" of their own thoughts about the church. Mrs. David Babylon of Westminster was installed as new District Chairman for the Westminster District. Mrs. Floyd Devillbiss of Uniontown is the outgoing chairman.

Haugh's Church was surely a meeting place for 4-H clubs on Sunday to celebrate Rogate Sunday. Pastor Gardner greeted the Eager Beaver Girls' 4-H Club (from the Middleburg-Mt. Union area), New Midway Beys' Club and Rocky Ridge Progressive Club. He spoke about the earth being used for many things and our need to care for it as it is a trust from God.

Glad to report that Susan and Christine, daughters of Mr. and Mrs. Richard Wilhide on the Forest and Stream Club Road, are recovering now after being sick for over a week. Have you noticed the new young growth coming out on the evergreens? I think it always looks so pretty. Especially the contrast of the light against the dark on our yews.

Wills are a Christian responsibility, they said, and talked about what a will is and who should have one. Two filmstrips about wills were shown which stressed the importance of having them because this way your family will have what you want them to have. Sunday supper guests at the Carroll Wilhide home near Detour were Mr. and Mrs. Francis Fry, Mike and Lois of Baltimore and Mr. and Mrs. Richard Wilhide, Susan and Christine near Detour.

Last week I read in the newspaper—and I quote—"Induction officers said (Cassius) Clay will be treated like any other draftee." — unquote. Well, if this is the case and he is eligible, why isn't he in the service? Doesn't it just make you boil when you read about someone like this managing all kinds of legal to-do to stay out of the service when our own relatives, neighbors and friends are having to put their time in to serve our country? And THEY have to go whether they like it or not? Sure it is very hard to see your own go and no one realizes exactly how hard until they come to it themselves, but there is no excuse for this kind of shenanigans! Makes you wonder what things are coming to when the law can be so mismanaged as we read about it in the papers all the time these days. . . . And how about Senator Dodd protesting his innocence and yet there is proof that he billed both the Senate and private organizations for at least seven trips? Certainly overpayment is an understatement here. No wonder we keep having to have tax increases; even our own government representatives don't seem to respect our (John Q. Public's) pocketbook. Think we need a new Maryland Constitution and then a federal government shakeup. How about you?

A Mother's Prayer

Father in Heaven make me wise,
So that my gaze may never meet a
question in my children's eyes.
God keep me always kind and sweet,
And patient, too, before their need;
Let each vexation know its place,
Let gentleness be all my creed.
Let laughter live upon my face!
A Mother's day is very long, there
are so many things to do!
But never let me lose my song
Before the hardest day is through.

THE WAY I SEE IT . . .

Observations on the World of Sports — John Breth

Stu Miller

Baltimore pitching coach Harry (The Cat) Brecheen purred contentedly whenever he talks about the Orioles bullpen. The Cat's pet reliever is STU MILLER, a kittenish, soft-throwing veteran right-hander. Brecheen is regarded as one of the finest pitching coaches in baseball and he is well-versed on Miller. Brecheen also was a standout pitcher for eleven seasons, ten with the St. Louis Cardinals. He is the only left-hander in baseball history to win three games in one World Series—1946 against the Boston Red Sox. And he is the only uniformed member of the Orioles who has been with the club since it started in Baltimore in 1954.

Brecheen got his first glimpse of Miller in 1952. At the time, Brecheen was playing his last season with the Cardinals and Miller was a rookie with St. Louis. After that year, they separated until 1962, when Miller came to the Orioles in a trade with the San Francisco Giants. Since then, Miller has been the workhorse of the Orioles' bullpen and Brecheen has been his number one admirer.

The admiring pitching coach says: "He is so amazing that I didn't believe what I saw when he first came to Baltimore. When Stu pitches, almost all the batters swing as if they were seeing nothing but fast balls, but they rarely do."

Miller reportedly has three speeds—slow, slower and slowest. But Brecheen disagrees. He says:

"It is my theory that all the batters try to outguess him. But what they are trying to do is outwit four or five different speeds. No one I have seen can throw with so many changes of speed so deceptively, as if the one pitch were coming in all the time."

Miller appears easy to hit because he is not an overpowering pitcher. But in addition to throwing off the batters' timing with his deceptiveness, he uses a jerky head motion to upset them.

Miller's deceptiveness and pitching have led Brecheen to nickname him "The Finesser."

The veteran right-hander has averaged between 63 and 64 appearances for the Orioles in the past four seasons. Barring injury, he figures to equal or surpass that figure this season because of the uncertain physical condition of Baltimore's starting pitchers.

ROGER MARIS makes no secret of the fact that he is not in baseball for the joy of the game. And he very often drags out the threat that he is about to retire.

But despite what he says, Maris has been playing with all the enthusiasm and drive of a bright-eyed rookie this spring for his new team, the St. Louis Cardinals. His hitting is one of the reasons St. Louis is off to so fast a start this season.

Maris has been meeting the ball just right, hitting whistling line drives to left and spraying hits to all fields. After nine games, he is batting a very impressive .378. That picture-book swing of his is just as smooth and sharp as it was in 1961 when he set the sports world on its ear by hitting an all-time record 61 home runs.

Yet, surprisingly enough, in nine games in the National League he has not hit a single home run. Maybe that's a tip-off to the reason for Maris' success thus far. He isn't going for the seats but is swinging for those base hits.

He also has surprised a great many people by neatly placing some bunts along the third base line when the infield shifts too far over to the right on him.

Old hands at the game say it's much too early to get excited about Maris' success with the bat in the National League. They point out that Roger is new to the league and its pitchers. The hurlers haven't had a chance to test his strengths and weaknesses with various pitches.

But the Cardinal management seems satisfied that Maris will provide the answer to the reason—a solid left-handed hitter and a strong-armed right fielder.

Maris seems fairly pleased about wearing the Cardinals' uniform. He lives in independence, Missouri, less than one hour's drive from the Cardinals' new Busch Stadium. So, he is able to spend half the season at home, which is to his liking.

There isn't any question about the fact that Maris was very unhappy playing for the New York Yankees. His feelings showed up in his play during the last few years, which was less than inspired.

The new surroundings could work wonders for Maris' attitude. That could mean a big year ahead for both him and the Cardinals.

Today's Sports Laugh — Dick

Stuart, now playing baseball in Japan, was never known for his good fielding while playing first base in the majors. And he was well aware of his shortcomings. He often poked fun at his weakness.

He once told an interviewer: "I have refined the art of fielding to the point where I can now catch two out of three throws to me."

VIEW FROM MY KITCHEN WINDOW "ON NATURE"

"Nature, like a loving mother, is ever trying to keep land and sea, mountain and valley, each in its place, to hush angry winds and waves, balance the extremes of heat and cold, of rain and drought, that peace, harmony and beauty may reign supreme."

—Elizabeth Cady Stanton

"The country life is to be preferred, for there we see the works of God; but in cities, little else but the works of men; and the one makes a better subject for our contemplation than the other. . . . The country is both the philosopher's garden and library, in which he reads and contemplates the power, wisdom, and goodness of God."

—William Penn

"Surely there is something in the unruffled calm of nature that overawes our little anxieties and doubts; the sight of the deep-blue sky, and the clustering stars above, seem to impart a quiet to the mind."

—Jonathan Edwards

"Nature gives to every time and season some beauties of its own; and from morning to night, as from the cradle to the grave, is but a succession of changes so gentle and easy that we can scarcely mark their progress."

RURAL LIFE

Rural life is for living, The days are zestful and long . . . You greet the sun at dawn And the day begins with song.

The rolling hills are friendly, Meadow grass lush and green. A star-spangled sky above you, So fragrant the air and clean.

You sow and reap in season And God rewards you in kind. You're one with all things around you . . . Sweet peace fills body and mind.

A Country Road There's nothing like a country road, There's wealth in every mile, There's gold in the sun, in the dust of the road, It's riches, country style.

Note: The above poems were taken from Rural Ideals and with Sunday, April 30, being Rural Life Sunday, I thought them most appropriate. —Esther N. Speak

ON GIVING Louise Dale Nelson

Sometimes the gift we have to give Seems very little indeed, But often it's the small things That fill the greatest need.

A shielding hand to break a fall, A smile, a warm handshake Are help for all our weaknesses That serve for goodness sake.

Encouragement or words of praise Are lodestones filled with power That swing the pendulum of hope Through that sustaining hour.

Sometimes the one who climbs the hill Just needs a little shove, An earnest prayer in his behalf Will lift two souls above.

No person is too small or poor To do some thoughtful thing, The little grace notes that you add May make a sad heart sing.

Kindness is the language spoken That every kindred knows, And from each little seed we sow, A sweet remembrance grows.

Dandelions may be flowers to some but to homeowners they're just plain weeds. To say that many lawns are unsightly with a multitude of dandelion is putting it mildly.

Weeds in established stands of alfalfa and clover seem to be especially bothersome this year. James Zollickhoffer, Uniontown, called to ask what could be done about them.

All is not in vain since 2,4-D, one of the most common and cheapest weed chemicals will do a superior job of controlling both dandelion and several other broad leaved weeds.

Unfortunately no chemical control can be applied this late in the spring. The weed with both yellow and white flowers called yellow top, wild mustard, and methodist weed all are closely related. These annuals live through winter after fall germination and begin to mature now as seed heads are formed.

Spraying should be done now on a

Cutting early for silage gets the weed off the field before seeds mature and reinfest the field. Seeds already formed will usually be killed as the green material heats and goes through the silage process.

To Be Shaken Again
Lesson for May 7, 1967

Background Scripture: Acts 4:23 through 5:11
Devotional Reading: Isaiah 43:1-13.

Peter and John knew that the leaders of Jerusalem meant business. No more preaching and teaching in the name of Jesus of Nazareth!

They had no objection to this little band of people meeting in one another's homes and going together as a group to the temple at the hours of prayer. Nor did they particularly care if these people wanted to continue to venerate the memory of their departed leader, so long as they kept it to themselves. They did not have to get out of town, but let there be no more public witnessing in his name, nor works of healing attributed to him.

Rev. Althouse's ory of their departed leader, so long as they kept it to themselves. They did not have to get out of town, but let there be no more public witnessing in his name, nor works of healing attributed to him.

Beyond Respectability

It is much the same today. No one seems to mind if we "attend the church of our choice." In fact, respectability seems to demand it. There is a difference, however, between attending a church and witnessing to a faith. It is one thing to study the Bible, but something else to apply it to life in your own community. Religion, it seems, is for quieting people down, not stirring them up. Worship this Jesus all you please, but don't try to mix him and his teachings with business, politics, race, community affairs, international relations, or anything else that really matters in this world.

Peter and John made the mistake of translating their private faith into public profession and, like their Master, incurred the wrath of the Jerusalem "establishment." What should they do now? There were several alternatives that lay open to them:

They could leave town and continue preaching and teaching some where else. This would allow them to continue to witness, but without the danger of arrest and punishment.

They could stop work for a while until "things cooled off." Later, when conditions became more favorable, they could begin again. Better to be a "livecoward" than a "dead hero."

They could "tone down" their message so that it would not be offensive to the authorities. If they were clever, they could avoid the name of Jesus and most people would still know what they were talking about.

They could go back to their fishing nets and forget the whole thing. They had done their part, hadn't they?

They Had Friends

Peter and John, however, did none of these things. Instead, "When they were released they went to their friends and reported what the chief priests and the elders and said to them." These two men had no important contacts, no access to influential people in high places, but they had a small group of friends in Christ with whom they could share this problem. They were people who had nothing to give but prayer. "And when they heard it, they lifted their voices together to God" and prayed. That was all, but it was enough.

What would you have prayed for? Escape? Concealment? Destruction of your enemies? Any of these would seem reasonable under the circumstances. But Peter and John were more than "reasonable." They were obedient to their mission. So, instead of asking for deliverance, they asked only that they be given the power "to speak thy word with all boldness." Though a miracle had already gotten them into difficulty, let the "signs and wonders" continue.

Power For Mission

"And when they had prayed, the place in which they were gathered together was shaken, and they were all filled with the Holy Spirit and spoke the word of God with boldness." (Acts 4:31 RSV)

Because they would not abandon their Pentecostal mission, they were blessed once again with Pentecostal power. So it will be with us when witness is difficult or dangerous. Let us ask for power, not to escape, but to witness boldly. If we do, the church will be shaken again.

Annual Dinner Meeting of the Carroll County T. B. Association

The Carroll County Tuberculosis Association held its 17th annual dinner meeting Mon. night, April 17, at the Community Center, Union Bridge. John E. Goff, Hampstead, was elected president of the association.

A certification of appreciation was noted for Mrs. John Schaeffer, who served four years as TB Christmas Seal Campaign. Mrs. Schaeffer could not be present. Mrs. James E. Gartland, Westminster, was introduced as her successor.

Other officers elected were: Thomas Norris and Preston G. Coffman, vice presidents; Mrs. Virginia Minnick, secretary; Edwin Shauck, treasurer; Charles Stonesifer, chairman, Ned Musser and Robert E. Miller, executive committee; and board of directors: Mrs. H. Leroy Campbell, Vincent Fiocco, Charles B. Gendell, Mrs. William J. Harryman, Samuel M. Jenness, Mrs. A. Millard Roelke, John O. Steel, Mrs. Vernon A. Stump, Jr., Willard U. Uhler, Wilbur S. Wimmer and Mrs. Thomas R. Winebrenner.

Dr. William Keith Morgan, associate professor of medicine, University Hospital Baltimore, was the speaker. His subject was "The Role of the TB Association." He recalled the treatment of the disease from 1900-20 when bed rest was required for long periods of time.

He told of the present treatment of drugs with little bed rest needed, and short time confinement in sanatoriums. With the progress in treating tuberculosis, he urged the TB Association to look towards further curative disease help. Here, he named lung cancer and emphysema as taking the most lives. He felt strongly that these two diseases could be traced to cigarette smoking. He also mentioned the danger of air pollution.

Goff, as vice-president, was toastmaster. The invocation and benediction were given by the Rev. George W. Townshend, pastor of Manchester Baptist Church.

He presented Charles Lampman, program director of the Maryland TB Association, who brought greetings from the state organization.

Dr. Vincent Fiocco thanked the group for the grant of \$300.00 given to him for further study at the Boston Hospital at a workshop on chest diseases.

Goff stated the final figure of the 1966 Christmas Seal Campaign was \$14,192, an increase of \$83,000 over 1965.

Seven per-cent was given to the National TB Association, 15 per-cent to Maryland TB Association and 78 per-cent remains in Carroll County to carry on its work.

The association paid \$736 toward the cost of tuberculin testing of the first, seventh and tenth grades of the county schools and paid \$255 for the cost of films on mobile unit.

It gave \$300 to Western Maryland College for continuation of the research program, and scholarship has been offered a pupil or teacher to attend the Health Education Program at the University of Maryland in June.

The staff, Mrs. Ethel Cook executive secretary, and Mrs. Ruby Armacost, seal campaign secretary, were recognized for their excellent work.

It was announced the mobile unit will be in the county June 12-23 and August 28 to September 6.

LUTHERAN BROTHERHOOD REPRESENTATIVE FAIR CITED FOR INSURANCE WORK

James H. Fair, 302 E. Baltimore St., Taneytown, placed in the top ten of all Lutheran Brotherhood agents in the percentage of insurance kept in force during 1966.

Mr. Fair, a district representative in the Donald C. Haynes agency of Lutheran Brotherhood, had the third highest persistency rating in the 1,000-man field force during the past calendar year.

Commending Mr. Fair for his efforts in writing insurance for individuals who realize the importance of keeping policies in force, Mr. Haynes said that a significant part of insurance is its constantly increasing value.

"This can only be done if policies are kept in force," Mr. Haynes said, "and Mr. Fair's policyholders obviously recognize the long-term value of life insurance contracts obtained through him. It is a tribute to Mr. Fair's work and a compliment to the many people he serves."

Mr. Haynes has general agency offices at 325 Pangborn Blvd. Hagerstown.

A full-time representative of Lutheran Brotherhood since 1956, Mr. Fair holds the Fraternal Insurance Counselor degree. It was awarded for advanced studies in his field. Mr. Haynes said that the persistency rating of Mr. Fair for keeping life insurance in force has been consistently high throughout his career.

Lutheran Brotherhood, now in its 50th year as a fraternal insurance society, has assets of over 376 million dollars and more than 2.7 billion dollars of life insurance in force.

GRACE U.C.O.C. CHURCH SCHOOL OFFICERS AND TEACHERS MEET

General superintendent George Fream called the meeting to order on Thursday, April 27, in the Parish House. Rev. Wiley offered the prayer. The minutes of the previous meeting were read by the secretary, LaReina Fream, and approved. Robert Fitz, treasurer, gave the financial report.

Three new teachers joined the staff since the last meeting (Caroline Warehime, Catherine Martin and Doris Green) and they were welcomed by the superintendent.

The following business was discussed: Church School vacation Sundays will be August 6 and August 20; two people will be contacted to teach the Jr.-Hi through Adult Departments two Sundays during the summer months; June 11 will be observed as Church School Day (S.S. will commence at 9:45)—this program will be arranged by Anna Motter and Margaret Shreeve and will be held during the Worship Service at 10:30 in the sanctuary; the Church School will again pay one-half of the registration fee for those desiring to attend Camp Michaux this summer; the song book, "Sing to the Lord," was highly recommended by the committee for use in the Parish House at a cost of \$2.15 each (100 copies will be needed)—a motion was made and seconded to table the purchase of these books by the Church School at this time but that the congregation be advised of our desire to obtain these song books and that they will be given the opportunity to donate same as a gift or memorial; Rally Day will be observed on September 24—the speaker will be Rev. John Winters, York, Pa.

George Motter, chairman of the Renovation Committee, gave a progress report on the remodeling of the Junior Department. He advised the group of the "extra work" completed to date and other improvements which will be made as the renovation progresses. He will contact Mr. Menchey regarding a piano for one of the class rooms. It was suggested by the superintendent that the congregation be informed in the bulletin each month of the financial standing of this project (total donations and material gifts given by members).

provided enough energy to operate a portable radio.

Another example of solar energy, the amazing Sunmobile, was demonstrated. The 15-inch model car depends on eight photoelectric cells for its operation. The button-like cells on the hood of the car convert light rays into electricity which drives a small electrical motor inside the car. A 300-watt lamp was used to simulate the sun's rays during the show. As the light struck the cells, the Sunmobile moved smoothly across a table.

In addition to sun power, the Previews audience saw an air bearing platform in operation. This small platform, supported by three large circular pads, is designed to slide over any flat surface on a thin layer of air.

The operation of the Previews platform is simple. A small blower forces air through the three pads, creating a thin layer of air between the pads and the floor. The air eliminates nearly all sliding friction, enabling easy mobility of the platform.

Another Previews sequence illustrated principles used in modern guidance systems. A student volunteer manipulated a suitcase with "a mind

of its own" as the lecturer explained how today's planes, ships and missiles are safely guided along predetermined courses.

Students also saw the Exploding Wire Phenomenon. Using the principle of stored energy, a 10-watt power supply furnished about 30-million watts in an instant to demonstrate the electrical disintegration of a fine wire. This phenomenon may someday propel space vehicles.

Other Previews demonstrations included examples of the wonders of modern chemistry and a capsule history of jet propulsion traced from 200 B.C. to futuristic gas turbine power.

Previews of Progress has been seen by more than 34 million American students and adults. The demonstrations, constantly updated to keep pace with recent technological advances and presented in easy-to-understand non-technical language, have proved to be a big hit with students around the globe. Nearly eight million persons in Latin America, Europe, Africa, Australia and New Zealand have seen the show.

At the request of the U.S. Department of Commerce, GM equipped and trained special units of the show for appearances at five International Trade Fairs in South America and the Near East.

Gene Bellew, General Motors "Previews of Progress" science lecturer, explains the pulse jet engine to Joe Morningstar, Alice Barnhouse and Ken Haines of Taneytown Junior High School. The jet engine, plus nine other exciting sequences, were demonstrated during the 45 minute applied science show Monday, May 1, at the school.

VIEW FROM MY KITCHEN WINDOW

April has danced over the hill and the beautiful lady-like month of May comes on the scene. Now spring beauties, violets and May-apples carpet the woodlands, and dandelions sparkle in emerald meadows. The gay birds of summer return in full force.

Even as I type this article, a Baltimore Oriole whistles from the South Carolina Poplar, and a tiny wren pours out its song from a fence post. Down in the woods, the tohee, or ground robin, scratches vigorously in the dead leaves, and the warblers, those colorful butterflies of the bird kingdom, fly high in the tree tops, catching insects. Of all the months of the year, for the bird watcher May is surely the most exciting!

But whether we watch the birds or not, May dispenses a stimulating kind of magic that makes a person glad to be alive. In such a vernal season, let us take time out to enjoy Nature's bountiful riches.
