VOL. I.

EMMITSBURG, MARYLAND, SATURDAY, JUNE 14, 1879.

NO. 1.

With White Hands.

Years she went about the world, Lovely eyes and smiling face, Dressed and scented, gemmed and curled-Always queen by right of grace.

All the time there was a grave 'Neath the warm Italian sky, By the Adriatic's wave; She alone, of all, knew why.

He whose dust lay lonely there, Far from friends and native land. Worked to win a name to wear Till she let him kiss her hand.

Love and longing, pain and pride, Passion first, and coldness next; When she went away he died, Being frail, intense and vexed. But the snow above her heart

Melted suddenly one day, And, awakening with a start, She wrote, 'Oh, forgive, I pray,

'All my coldness, all my pride; I, unwillingly, am true. When my lips said 'No!' I lied. I have never loved but you!'

Weeks she waited, then there came Tardily from that far land A brief letter to her name-Not his signet nor his hand-

Just to say that he was dead: His light went out suddenly. Brokenly she bowed her head 'All is said and done for me!'

Then remembering life, as 'twere, Just a burden at her feet, Heavily she stooped her there, Loathing what had been so sweet.

'And to-night there is a feast; I am promised, I must go. Might I see his grave at least! But the world would scorn me so.

'Well, it may be that some day, When I'm wrinkled, bent and old, When my hair is thin and gray, None will think but I am cold.

'I may do then as I please, Oross the sea and seek his grave, Linger near it at my ease-I that slew where I could save !'

Oh, she was so fair that night-Soft flushed cheeks and sweetest eyes, Shoulders so divinely white And a voice of low replies!

But the write she bent her head In the waltz's rapturous wave, She was thinking, 'He is dead!' And, 'What flowers grow on his grave?'

AFLOAT AND ASHORE.

Nobody was in the habit of calling Emily Travers a beauty, and few ever gave her a second glance in passing; yet some one else who wished to stay ashore, glad and eagerly, two hours after that, when you happened to linger at the in your life. But it was not Emily who she was, the whole world seemed beauthink on the subject; Emily had been a part of his world ever since he had had entered his head. He remembered the years old, he had been taken over the way to welcome the new baby there, and had asked to see her wings; he rememthe garden paths in his cart, and spilled remembered when he was fighting with Saunders, and getting worsted, how she arrived upon the scene with a stone beto hit him : in fact, he remembered no bubble, and she collapsed with it. time when she was not a part of himself, when he had not sat with his arms about her waist, when he had not kissed her at meeting and parting, when he had not left every other girl for her, and would have been amazed if she had not welcomed him as a matter of course. After he went away to the naval academy, Emily's letters were something that he looked forward to twice a week as unfailingly as to Wednesdays and Saturdays themselves; and when he made his flying visit home, it was to Emily that he went with the recital of all his hopes and angers and joys. 'Emily,' he said once, in a startled way, 'I believe I say my prayers to you.'

Being in this state of mind about sweet Emily Travers, you can imagine his wrathful consternation when, on returning home from his first cruise, having been for some time without letters, and coming in by the long window instead of the door, he saw a fellow leansome man, handsome but for a scar chair and holding her hand, while her again. backward and upward gaze was as

and as he stood, he heard Emily say:

Norman Mcpherson never condescended. he was gone; and he never knew again where he was, or what had happened, made him wheel about at once. till he found himself on blue water for time to eat his heart out, and profoundly blackest treachery, and that if Emily I have come to claim it.' were false, then all the world was false. Six months of that bitter diet, with the pherson, mechanically, with a bow. swift, mad scene before his eyes, changing only to show the man falling, Sophy running forward with a shriek, and

Down in the meadows, half asleep. Where breezes through the grasses sweep, An idle youth, in quiet lay, While at his side a blue-eyed fay Sat weaving with such artful care A dainty chain of daisies fair.

His eyes were closed in sweet contempt; Her thoughts alone on mischief bent; She wound the chain about his head, And arms, and form, and o'er him spread, Till he seemed but a daisy bed.

The laughing eyes then open flew And peered into the eyes of blue ; Up rose his hands, and with a bound The chain lay broken on the ground; The blue eyes flashed with sudden light, And, pelting him with daisies white, The vengeance in her eyes he read, As haughtily the midget said . Young man, another time I'll make A stouter chain you cannot break.'

The little witch ! Could it be true How well she spoke her dear heart knew? For, sure enough, around his heart She wove a chain he could not part ; And if this very day you pass Across the meadow's waving grass You'll see the children of this twain A wearing each a daisy chain.

FOR THE FARMER'S HOUSEHOLD.

Artificial Foods.

Millions of dollars' worth of so-called ply our competitors with the most effec- use. while we should prevent its use by our pour through a clean kitchen towel. competitors in business. Some may say we cannot afford to use these. This excuse is obviously groundless, when they are purchased by English farmers who pay rentals for their land of \$10 to \$50 the expenses and profits of at least two intermediate dealers, and yet use them with sufficient advantage to make them an object that is earnestly sough't after. The fact is, by neglecting these homemade products we are throwing away an immense advantage which cannot amount, in a money value, to less than a hundred million of dollars annually.

Recuperating Pastures.

In England the pastures of the great dairy county of Cheshire became so exhausted as to cease to be valuable for the purposes for which they had before their old pastures have increased in feedtheir old pastures have increased in feedstate of ruin as it remains at present,
considered the correct thing to go to a
poses. The Assyrian queen Semiramis
cribs. and we believe that in this country equally beneficial results are being experienced by the same means, and wherever it has been tried the farmer will be induced to extend the plan in the future. It not only gives the pastures a fresh start, but it is a dressing that will last quite a number of years; besides, the properties of the bone enter the grass, thus giving the cattle in the natural way what they very much need, and saves giving them bone meal in their feed. A dressing of 250 to 400 pounds per acre would be a good and cheap dressing, as it would last for a number of years. The bone-dust should be sown broadcast early in the spring as possible, when the young grass is starting. Hen manure can be used with loftiest mountains are found water-worn good success by composting with ground stones, and fossilized shells, while many bone, ashes or lime. Cover with loam interesting specimens and well-defined or muck two or three weeks until it heats, then work it over and mix it well with loam or muck to reduce to the proper strength, and apply in the hills. It is one of our best fertilizers.

Sugar Beet Culture.

sugar beets on one acre of land, which ed with well-rotted barnyard manure at they were thinned to one plant to every eight inches. After this time they were hoed but once, as the leaves shaded the ground and kept down the weeds.
