THE DANGER OF THE STOCK MARKET.—A man may be incredulous enough to risk his money in the fickle mysteries of a mercurial stock market but when he gets the Itching Piles, he goes straight for Dr. Swayne's Ointment. Unlike the Bulls and Bears of the Stock Exchange, who clean you out of hard earned cash, it returns your money with interest, in the way of allaying the intense itching and insuring sweet repose. jul7

NOTICE TO FARMERS AND OWNERS OF PRIVATE RESIDENCES.—The safest and best company in which Farmers and owners of Private Residences can insure their property, is the Time-Tried and Fire-Tested Agricultural Insurance Company. It insures nothing but private Residences and Farm Property. In the last 27 years it has not had a loss of over \$5,000, in one Fire, and cannot be affected by sweeping conflagrations, as its risks are all detached. It insures against damage by Lightning, whether fire ensues or not, and insures Live Stock against being killed by Lightning anywhere on the farm. The Agricultural Insurance Co. is a stock company, and the strongest and largest company, doing an exclusive Dwelling Business in the United States, if not in the world, and is now issuing 50,000 Policies a year. For further particulars apply to W. G. HORNER, Agent, Emmitsburg, Md.

Mr. S. has our hearty thanks for his kind remembrance.

The Results of Necessity. What the ancients suffered for the want of knowledge in medical science can only be appreciated by contrasting the vast amount of suffering cured and pain alleviated in modern times, by the use of Swaney's Ointment for skin diseases. Its introduction was characterized by the necessary withdrawal of a score or more of illusive, quack nostrums, whose evil effects have left living monuments to denounce them. Thus is exemplified the proverb, Necessity is the mother of Invention. July 17

The Ninth Annual Tri-State Picnic and Exhibition of the Patrons of Husbandry of Pennsylvania, Maryland and West Virginia at Williams' Grove, Cumberland county, Pa., twelve miles southwest of Harrisburg, on the Dillsburg branch of the Cumberland Valley railroad, will commence Monday, August 21 and close Saturday, August 26. Manufacturers of agricultural and domestic implements and machinery and breeders of good stock will do well to make note of this exhibition. Last year it was attended by more than thirty thousand farmers, representing ten different States. Circulars, giving full details of the arrangements, will be issued by July 1st. For further particulars address, R. H. Thomas, Manager Tri-State Picnic and Exhibition, Mechanicsburg, Pa.

By Universal Accord, ATER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use, and being sugar-coated, they are pleasant to take. In intrinsic value and curative powers no other Pills can be compared with them; and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required.

For sale by all druggists.

From the Examiner. DEATH OF MR. CHARLES COLE.—The death of this gentleman occurred at his late residence on West South street, on Saturday morning last, after a painful illness of ten days from the effects of a stroke of paralysis received on Wednesday, the 7th inst. We chronicle this fact with much pain. Mr. Cole was in the 61st year of his age. He was born in York, Pa., and came to this city when quite a young man. In 1857, in company with Gen. Bradley T. Johnson and Clarke Koontz, he became identified with the interests of the *Maryland Union*, a Democratic paper, established here by Col. Wm. P. Mansby, in 1853. A few years subsequently he became the sole editor and proprietor of that journal, and continued so until death. He was a staunch Democrat throughout his entire editorial career and as such he never hesitated to give expressions to any views tending to the promotion of the interests of that party. Whenever he took a position, he maintained it relentlessly and to the best of his ability to the end. In social life he was genial and kind but of very retiring disposition. He was a good citizen and his loss will be felt in the community. He leaves our children, three sons and one daughter. His funeral took place on Monday afternoon and was largely attended.—Among the organizations which did honor to his memory by following his remains to the grave were Adam Lodge of Odd Fellows, the Encampment, Knights of Pythias, United Steam Fire Engine Company, of each of these he was a prominent and active member. Also, the editors and employees of the *Citizen* and *Examiner* offices. Rev. Dr. Diehl officiated.

ARMY WORMS.—Report has it, that these pests are again upon the rampage in this county and that in some vicinities great destruction has already been done to the growing wheat. We trust that these reports may be greatly exaggerated, but from the evidence of their ravages presented in the fields belonging to Mr. Thomas M. Markell, on the southeastern suburbs of the town, we fear there is ground for serious apprehension. First hail, then army worms, what next?

The Emmitsburg railroad is well off-ered and remarkable for its watchfulness in guarding against accidents. It pursues the even tenor of its way undisturbed by the ordinary course of things, and yet by some contrivance of action, the hand-car ran off the track last week, and Mr. John Schour is said to have demonstrated wildly on the occasion.

The *Baltimore Day* appeared on Wednesday with a new heading, being a correct representation of the Maryland Coat of Arms. It is simply an enlarged form of the design which has appeared on our sheet from the time of its engagement. The *Day* is continually improving in interest, and already is entitled to a front rank, not only as the Democratic paper of this State, but the paper in excellence, that follows closely after the *New York Sun*, in its claims upon public attention.

Keep This for Reference. The Officer of Registration for Fifth Election District will attend and sit at the Western Maryland Hotel, Emmitsburg, on Tuesday, the 11th, Wednesday, the 12th, Thursday, the 13th, Friday, the 14th, and Saturday, the 15th days of July, 1882; and on Monday, the 14th, Tuesday, the 15th, Wednesday, the 16th, Thursday, the 17th, Friday, the 18th, and Saturday, the 19th days of August, 1882. EDWARD S. TANEY, Registration Officer for Election District No. 5, of Frederick County.

Rev. H. WISLER, of Mechanicsburg, assisted Rev. Wm. A. Gring, in the services of the Reformed Church on Saturday afternoon, and at the Celebration of the Lord's Supper, on Sunday, Rev. Dr. Anglinbaugh, of Mercersburg College, delivered a sermon that was highly appreciated by the large audience, many of whom were his former parishioners when he was Pastor of the Church. On Sunday evening the Rev. Dr. delivered a sermon on the duty of children to their parents, which was also very edifying. It will be highly pleasing to his many friends to know that advancing years have left no signs of declining vigor in his ministrations, and that the blessing of health is his.

Not Able to Pay for a Paper. A man who says he is not able to pay for a paper ought to go at once to the county court and have his property appointed his guardian. Remember that a newspaper is worth more to a family than a three months' school. A family that takes a paper lives, as it were, in a house set upon a hill, from whose windows he can see all that is going on in the world. Friend, don't say you are not able to pay for your paper. Say you don't like the paper, or say you would rather live in ignorance; or declare that you do not want your children to learn anything; but don't say you can't pay—because to say you can't pay, is to say you are no man, have no backbone, and ought to be in the poor house.—Exchange.

Suicide of Andrew Pfautsch. Andrew Pfautsch, convicted of murder in the first degree at the May term of the Carroll county court, of the murder of Jacob Lockner, in December last, committed suicide about 11 o'clock yesterday morning, at the almshouse, where he was confined, by cutting his throat with a razor blade stuck in a corn-cob. He blind-folded himself, laid down on his couch and then committed the deed. The windpipe was severed and also one of the jugular veins. The attention of the guards was called by the peculiar noise he was making, and on entering his cell it was found that he had cut his throat. Information was immediately sent to the sheriff and physicians summoned, but he lived only a few seconds after their arrival. The guards had left him only a few minutes before the deed was committed.—*Advocate*.

No other business of general interest was transacted. The pupils went to their homes to-day to remain until September 13, when school will be resumed.—*Sun*.

### Take Care of the Tomato Vines.

If there is any one subject that would seem to be exhausted, it is the Tomato Trellises. During the past 20 years we have described probably twenty different trellises, and the story of the whole is: keep your Tomato vines from resting upon the ground. One of the simplest methods is, to drive in stakes at an angle of 45°, and nail, or lash to these, light poles of any kind; in the absence of poles use wire. The whole object is to so place the vines that they can be reached on all sides, not only that they may free them from "the worm," but also save the fruit from decay. If the fruit is left in direct contact with the soil, decay sets in soon after ripening begins; supporting the clusters of fruit, where all can be seen, will allow of the removal of the poorly shaped, and when they are too much crowded, they may be thinned. The French advise training the Tomato to a single stake. We have tried this and do not like it. The clusters of fruit, as they approach maturity, become very heavy, and just as they are the most promising will break away from the main stem. Such clusters can not be readily supported when the plants are trained to a single stake, but on a trellis of almost any kind they may be kept up. The Tomato may be cultivated in two methods: as a field crop in which it is allowed to have its own way; or in the garden, where those who appreciate excellence in vegetable will find the Tomato to amply repay whatever care may be given to it. Were it only for the facilities it affords for catching "The Worm," we should always provide some kind of a trellis for the Tomato. Besides this, the handsome appearance of the ripening fruit is greatly in its favor.—*American Agriculturist for July.*

### The Buckwheat Crop.

Buckwheat is the latest grain crop of the season, and in the latitude of New York is usually sown from the last of June to the middle of July. It is frequently sown as a filling crop, that is, on ground where some other crop has failed. It makes an excellent cleaning crop on foul or rough land, especially upon rich soil where it makes a rank growth and smothers out all other plants. Buckwheat is used to some extent as a green manure to be turned under for wheat or rye. The buckwheat plant is a deep feeder, and has the power of obtaining the food elements when present only in small quantities in the soil. Light sandy soils, deficient in vegetable matter, can be brought up to a good state of cultivation by first growing buckwheat as a green manure crop, followed by clover which is afterwards turned under. Though buckwheat will grow on comparatively poor soil, it makes a good use of a light dressing of barn-yard manure or some quick-acting fertilizer. A hundred pounds of Peruvian guano or an equal weight of fish scrap will greatly raise the yield of a buckwheat crop on a poor soil, and prove a profitable investment for outlay. The harvesting of buckwheat is quite different from that of other grains. The grain "shells" or drops from the straw very readily, and therefore must be gathered with special care. It is best to cut it with a cradle and leave it in the swath until the next morning, when it should be rolled and set on end while it is moist with the dew. After standing for a few days it is ready to be threshed. The straw has no special value as fodder, but should be used as a litter and absorbent of liquid manure. The grain makes an excellent food for poultry, and when its flour is in the form of buckwheat cakes, it is highly prized, especially in cold weather.—*American Agriculturist for July.*

### Take a Holiday.

The Fourth of July is the great summer holiday, and if possible every farmer should so arrange his labor that "all hands" may stop work and enjoy it. It seems to us that a picnic party made up of a few families in the neighborhood is not far from the best way to make the day a pleasant one. Some quiet, shady spot, not too far away, may be selected where the table may be spread with the best products of the farm and garden. The older members of the party will have time in social talk, thus getting better acquainted with each other, while the children can run in the woods, gather flowers, fire off their crackers and torpedoes, etc. A day thus spent is far from being a day lost, as, properly used, it breaks the monotony of daily farm labor and serves to sweeten farm life.

## VALUABLE RECIPES.

### Mrs. PATTEN'S FLOATING ISLAND.

—Make a cake with cup of sugar, cup sweet milk, a well beaten egg, a piece of butter size of an egg, little salt, two teaspoonfuls cream-tartar, and one teaspoonful of soda sifted in two cupfuls of flour. Beat all together several minutes, and pour the batter, half an inch thick, into a common long, square-cornered tin. The remainder of the cake will make a small Washington pie.—Bake quickly. Make a soft boiled custard by heating four cupfuls of milk in a pail set in a kettle of hot water; when scalding hot, pour a cupful on to three eggs, beaten with a cupful and a half of sugar, and three teaspoonfuls of cornstarch; then pour all together and cook till it begins to thicken, and pour through a tin strainer, and flavor with lemon. Lay your cake, cut in small squares, on a platter; sift over powdered sugar, and put a slice of jelly on each piece. Serve by filling a saucer half full of custard and laying on a slice of the cake. How to TREAT SUNSTROKE.—A physician gives the following as good to observe in case of sunstroke where a physician cannot be immediately obtained: "If a person feels a dizziness and sees black spots before his eyes he should be at once hurried to a shady spot. The wrists should be washed with iced cloths, over the pulse, and as soon as possible a lump of ice should be placed at the base of the brain, the patient's head resting upon it. It is best also to plunge the arms in cold water half way up to the elbow, until the physician arrives. If accessible, cold cloths might be placed over the chest. It is very essential to produce a movement of the bowels as soon as possible, that the circulation of the blood may be equalized. Sunstroke is caused by the blood becoming so greatly heated that the nerve centres are affected.

### WINSTON, Forsyth Co., N. C.

Gents:—I desire to express to you my thanks for your wonderful Hop Bitters. I was troubled with dyspepsia for five years previous to commencing the use of your Hop Bitters some six months ago. My cure has been wonderful. I am pastor of the First Methodist Church of this place, and my whole congregation can testify to the great virtues of your Bitters. Very respectfully, REV. H. FERRELL.

### DELICIOUS tea biscuits are made in this way:

Boil one quart of milk for two or three minutes, let it cool, then add half a cake of yeast (dissolve the yeast in a little warm water first, and strain it so that the meal will not give a bitter taste to the dough), melt a piece of butter the size of a large walnut, stir this in with flour enough to make a stiff sponge. Let it rise for three hours, then roll and cut out the biscuits, make them thinner than for ordinary biscuits; spread them evenly with butter, double together, draw them out to make good shape, let them rise for from fifteen minutes to half an hour, then bake in a quick oven.

### A prominent gentleman of Cerro Gordo county, Iowa, writes us that he finds Kidney-Wort to be the best remedy he ever knew for a complication of diseases. It is the specific action which it has on the liver, kidneys and bowels, which gives it such curative power, and it is the thousands of cures which it is performing which gives it its great celebrity. Liquid (very concentrated) or dry, both act efficiently.

### Indigestion and Scratches in Horses.

For indigestion give the following:—Blood root, mandrake, gentian, liquorice, ginger, lobelia, each 1 oz.; nitre, 3 oz.; sulphate of iron, 4 oz.; sulphur, 6 oz.; sassafras, 3 oz. Mix and powder. Dose, 1 oz. a day in a pint of flaxseed jelly. For scratches give the above powder and the same amount; then take the water that potatoes are boiled in and wash the limb clean once a day. Then apply this ointment: Sulphuric acid, 2 drachms; belladonna, 1 oz.; lanolin, 1 oz.; aloes, 1 oz.; sulphur, 2 oz.; lard, 9 oz. Stir well and apply.

"Yes," said the Denver editor, "I think I must have got out a very readable paper this morning. I've been licked by three prominent citizens to-day, another chased me with dogs and a gun, and the police had hard work to keep a mob from wrecking my office."

**JOHN V. L. GROESBECK.** "Why do editors lie so badly?" "John, you think it smart to ask that cruel question, but we will answer it, although such questions do not deserve an answer. Editors lie so badly because they are not used to it."

A YOUNG man who went to the circus and stepped too near the monkey's cage had his arm seized and savagely jerked by one of the monkeys. He would have escaped safely if he had not said: "It's merely a monkey-wrench," but when they heard that the infuriated crowd threw him into the lion's den.

**GUARD against disease.** If you find yourself getting bilious, head heavy, mouth foul, eyes yellow, kidneys disordered, symptoms of piles tormenting you, take at once a few doses of Kidney-Wort. It is nature's great assistant. Use it as an advance guard—don't wait to get down sick. Read the advertisement.

The first instance where physicians are mentioned in the Bible is in Chronicles xvi, 12: "And Asa, in the thirty-ninth year of his reign, was diseased in his feet until the disease was exceeding great; yet in his disease he sought not the Lord, but to the physicians." The compiler coolly adds, as though a natural consequence: "And Asa slept with his fathers."

Just as a girl was about to drown herself at Atkese, Ala., a man caught her. She struggled, but he held her fast. "I'll give you ten minutes to think it over," he said, "and if you then want to die I'll let you do it." When the time was up he released her, and she quietly went home. A ten minute hug had convinced her that life was worth living.

The Boston Advertiser suggests that the old Roman amphitheatre furnishes the ideal plan of a theatre for safety. The Advertiser might have gone back still farther, and suggested that the bonnet worn by our first female parent, in the garden of Eden, furnishes the ideal for a theatre headgear. Profanity would decrease fifty per cent. if it were adopted.—*Norristown Herald.*

**BACHELOR JONES.**—"The State would be better off if every Chinaman was kicked out of it to-morrow." His married friend—"Where would you get your washing done, then?" Bachelor Jones—"Marry some nice girl and have it done at home." Chorus by six eligible young ladies who happened to overhear Jones and his friend talking—"The Chinese must go!"—*London Punch.*

The bishop of Limerick being in failing health his physician recently told him it would be necessary for him to seek rest and change of air at Nice. The bishop positively declined to do so. Then said the doctor, plainly: "My lord, I tell you candidly that your case is a most serious one, and if you do not go to Nice you must very soon go to heaven." "Oh, well, in that case," replied the bishop, dismally, "I will go to Nice."

It is quite common now for newspapers to read banking people a lesson. But the banks method of doing business, it must be remembered, is totally different from the method of the newspapers. In one establishment contributors must write only on one side of the paper, while in the other the cashier insists that all favors must be written on both sides of the sheet, and the more writing on the back the better.
