Fiddling for Geese.

A lively air on a violin will sometimes set a whole-flock of geese wild with delight. On one occasion at a country wedding I was a witness of a curious performance by one of these animals. After dinner a lady entertained her guests assembled on a lawn with music from an accordeon. A flock of geese were feeding in the road just below the house, and with outstatetched necks answered back with notes of satisfaction. Soon a white gander began dancing a lively jig, keeping good time to the music. For several minutes he kept up the performance, to the great delight of the company. The experiment was tried several times for a week or more, and the tones of the accorder into a lively dance.-Maryland

It removes the cause of disease, and the patient recovers his health. It is the great Blood Purifier and Life-giving Principle; a Gentle Purgative and Tonic; a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possess-ing the power of VINEGAR BITTERS in healing the sick of every disease man is heir to. The Alterative, Apericat, Diaphoretic, Carminative, Nutritions, Laxative, Sedative, Counter-Irritant, Sudorific, Anti-Bilios, Sol-vent, Diaretic and Tonic properties of VINEGAR BITTERS exceed those of any other medicine in the world.

BITTERS exceed those of any other medicine in the world. No person can take the BITTERS accord-ing to directions and remain long mwell, provi-ded their bours are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair. Billious, Remittent, Intermittent and Malarial Fevers, are prevalent throughout the United States, particularly in the valleys of our great rivers and their vast tributaries during the Summer and Autum, especially during seasons of unusual heat and dryness. These Fevers are invariably accompanied by extensive derangements of the stomach. liver and bowels. In their treatment, a purgative, exerting a powerini influence upon these or-gans, is absolutely necessary. There is no cathartic for the purpose as it will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the eiver, and generally restoring the healty finne-tions of the digesite organs.
