THE FOURTH OF JULY.

Another anniversary of our national birthday has been reached, making us a nation one hundred and ten years old. What an immensity of thought, crowds the retrospection of our history, since the announcement of the Declaration of Independence! With all the wisdom and patriotism that distinguished the illustrious signers of that glorious instrument, not one of them could have anticipated the rich fruitage of their planting which has ripened so abundantly for our enjoyment; they builded vastly better than their most sanguine hopes could have anticipated.

The thirteen colonies for whose liberty they pledged their "lives, their fortunes and their sacred honor;" then but sparsely settled and confined within comparatively narrow limits, have expanded into forty states, the most part of which now abounds in all that wealth with the triumphs of commerce, art and science can supply, directed by all the appliances civilization has produced; the territory extending from ocean to ocean in one direction, and from British America to the Gulf of Mexico in the other. From 820, 670 square miles in 1783, its extent now includes 3,602,990 square miles. From a population of 3,309,427 in 1800, the number is now estimated at 57,500,000.

Its greatest length from the Atlantic to the Pacific is 2,760 miles, greatest breadth from Maine to Florida is 1,600 miles. There are 12,600 miles of ocean coast, being 6,861 on the Atlantic, 3,461 on the Gulf of Mexico, and 2,281 on the Pacific, making such progress, in glory and grandeur as the world never before witnessed.

Every patriotic heart must expand with pride in contemplating the growth of the country, its statesmanship, and its achievements in every department of human action. Through all the changes of parties, and the diversities of opinion, necessarily belonging to the divergent interests of communities more or less distinct in character, yet recognizing a government in common; Through all the destructive influences of the most stupendous civil war, the world ever knew, the power and influence of the government, not only remains whole and undisputed, but commands the respect and admiration of all nations.

It is meet and right therefore that the people should at such a time suspend the cares and duties of daily life, and indulge in congratulation upon the inheritance that has come down to them from the fathers, and in rekindling in their breasts the patriotic impulses that governed them; give generous expression to their own resolves, that the blessings thus received shall be handed down with added glory, to the coming ages.

The enthusiasm of the demonstrations of our days may be less expressive than in those earlier days, so near "the times that tried men's souls," but they will be none the less earnest because tempered by the spirit of progress, that everywhere surrounds us.

Events have crowded so thick and fast, in the advances of recent generations, that one memorable occasion overlaps another, and the manifestation of rejoicing over the memories of the birthday of our country, are apt to grow less enthusiastic before the splendor of those more remote; but looming up among all the glorious epochs, the day that proclaimed the emancipation of the world can never cease to call forth reverential respect for its historical inauguration.

**CARDINAL GIBBONS.**  
The ceremonies of the investiture of Archbishop Gibbons of Baltimore, with the red beretta of the cardinalate, at the Cathedral in Baltimore, on Wednesday were of the most imposing character. The Mass was sung by Archbishop Williams of Boston, and the sermon was preached by Archbishop Ryan of Philadelphia. The beretta was presented by Mgr. Straniero, the Papal messenger, and conferred by Archbishop Kenrick, of St. Louis. The descriptions of the scenes, with the sermon and historical points, occupy several columns of the daily papers.

SECRETARY Manning's private secretary received a dispatch from him on Tuesday, saying that the story about his health was incorrect, and that he was much better than when he left Washington.

JUDGE DAVID DAVIS DEAD.

The Hon. David Davis died at Bloomington, Ills., on Saturday last. He was a native of Maryland and was born in Cecil county, on March 9, 1815, graduated at Kenyon college, Ohio, in 1832, studied law at Lenox, Mass., and at the New Haven Law School, began the practice of his profession in 1836 at the place of his death, was a member of the Illinois House of Representatives in 1844, of the State Constitutional Convention 1847, was elected Judge of the Circuit Court at Bloomington in 1848, resigned in 1862; was a delegate to the National Republican Convention at Chicago in 1860. He was appointed by President Lincoln a judge of the Supreme Court of the United States in 1862, and served until March 5, 1877, when he resigned and took his seat as Senator from Illinois to succeed John A. Logan. His term expired March 3d, 1883. On October 13, 1881 he was elected President pro tempore of the Senate, besides having filled many other prominent positions before the people.

ANOTHER venerable idol has been rudely shattered by the modern scientist. Once a year the swarming millions of India and their British rulers were accustomed to wait in dramatic expectancy for days, and sometimes weeks, for the news of the "bursting of the monsoon." Now the scientists of the British Meteorological Office of India announce to the world that there is not and never has been any such thing as the monsoon. And, of course, the "Barra Chuf" or Great Silence that we were told always preceded it as surely as the lightning flash goes before the thunder must be erased from the programme of nature now that the monsoon itself is discredited.—N. Y. World.

SUMMARY OF NEWS.

**CHOLERA** is spreading with great rapidity and deadliness in Southern Japan.

The Paris council of health has reported in favor of the expulsion of all dairy cows from that city. It is said that there are 5,000 cows in Paris, and their milk is an active source of pulmonary consumption.

It is announced that the Rev. Alfred A. Curtis, secretary of the Baltimore Cathedral, has been appointed Bishop of Wilmington, Del., to succeed the Right Rev. Thomas A. Becker, who was transferred to the Diocese of Savannah.

A MAGNIFICENT jewel, supposed to have cost \$4,000, was received on Friday last by Past Grand Master of the Grand Lodge of New Jersey-Free Masons. It is a present from the Prince of Wales, as grand master of the Grand Lodge of England. It is probably the finest and most valuable of its size in the country.

**BOMBI**, the great Rhinoceros that was recently brought from India for the New York park, and weighed 7,000 pounds, died on Saturday evening last, having spent but one week in his new abode. He died of pneumonia. His hide will be stuffed. Much of his composition went to the rendering vats. Thus the lovers of oleomargarine have a rare opportunity to test the virtues of the great pachydermaton's tallow in their cookery.

JAS. A. ELDER, Pres't.

### LOCAL ITEMS.

WHEN we reduced the Subscription Price of the **EMMITTSBURG CHRONICLE** to One Dollar a year, it was unmistakably announced that that sum would be received for *advance* payments. The same terms are open to all who pay at the beginning of each one's date of subscription. The terms do not admit of deviation. Our patrons get the reduction as the consideration for furnishing us the cash wherewith to meet our expenses. Look to your receipts and note the dates. We wish to be useful to the largest extent, and desire your cooperation.

**Don't forget the Firemen's Pic-Nic.**  
MR. OLIVER MORRISON is having his house reweatherboarded.

A cold spell has been predicted to begin on Monday, July 5th.

The street sprinkling should be general this (Saturday) morning.

Thus far we have had the coolest Summer within eight years.

I defy competition on Harvest Whiskey. Geo. Gungel, W. Main St.

REMEMBER the grand street Parade starts at 9.30 A. M., to-day (Saturday).

In the still hours of night comes a faint cry from baby for Victor Infant's Relief.

THE brick-layers have commenced work on Mr. Elder's new house on Carlisle street.

\$1,500 WANTED.—To be secured by mortgage on real estate. Enquire at this office.

WHEN you are warm it is best to let ice water "cool off" a bit, before you drink, and then drink slowly.

HARVESTING was generally under way in this community by Tuesday noon, and the progress has been rapid.

MR. JOHN M. SPOTTER having sold out his brick yards at Columbia Pa. has returned to his home near this place.

WANTED.—5,000 loaves at Iron Dale Saw Mill, to saw on shares, Wm. L. McGinnis, one mile west of Emmitsburg.

"DR. SELLERS' Liver Pills" have been the standard remedy for malaria, liver complaint, costiveness, etc., for fifty years.

DR. HENLEY'S Celery, Beef and Iron is a remedy every farmer should keep on hand, as it is invaluable for many diseases. All druggists sell it.

JOHN F. PETERS, of Fairfield, has been brought here from Ohio and lodged in jail. A Martinsburg, W. Va., detective, C. R. O'Neal, captured him.—*Compiler.*

In the absence of concerted arrangements for decorations, &c., it is presumed that the taste and inclination of our citizens will have to govern them in the premises.

A boiler of the Mount Alto Iron company exploded at a mine near the works on Tuesday. All escaped except the engineer who was somewhat injured.—*Compiler.*

THE Annual Excursion of the Employees of the Western Maryland R. R., on the 24th inst., promises to be a very enjoyable one. As the fare is only \$1.75 for the round trip, anyone can afford to go.

ALL subscriptions dating from June 13th are now due, and must be paid at once to avail of the \$1 a year rate. Deferred accounts will be charged at \$1.50. The same rule applies to other dates as they recur.

To keep postage stamps in the pocket or memorandum book from sticking together, fold them in oiled or waxed paper, such as comes around candy, &c., and place the gummed side of the stamps next the paper.

The present only is ours, therefore celebrate this centennial occasion so that you may tell of it to the coming generation. Will there be any of the present crowds, present a hundred years hence? thus the ages roll!

The Frederick News of Monday last says: The Court Square Improvement Committee have been further encouraged in their good work by a gift of \$250 from Gen. Jas. C. Clarke, President of the Illinois Central railroad, and formerly of this city, for the purpose of erecting a fountain in the square.

If you want a convenient, portable medical preparation, a purgative and tonic, that will purify the blood, sharpen the appetite, and invigorate the whole system, try a box of **Vinegar Bitters**—fifty doses for fifty cents. These powders embody the essential properties of **Vinegar Bitters**, which has been for twenty years the world's great family medicine.

Don't forget the Firemen's Pic-Nic.

HELLO, there! Do you know that "Dr. Sellers' Vermifuge" expelled 234 worms from a child two years old? Oh, it will know them! Try it! 25c.

MR. J. TAYLOR MOTTER a native and well known citizen of Emmitsburg and recently located at Reading, Pa. has been appointed, superintendent of Oak Hill Cemetery at Georgetown, D.C. to supply the place of A. Jackson Jones deceased.

#### Very Commendable.

The town authorities, with commissioner M. Hoke supervising, carted off the loose stones, bits of paper and other fragmentary things from the streets on Tuesday, making the roadway free of all obstructions, and unsightly objects.

#### A Strange Growth.

We were shown a piece of sponge recently which grew on the bottom of a cask in the beam room of one of our city tanneries. Though not as perfect as the salt water growth it is natural sponge and a very curious specimen.—*Frederick News.*

#### Grand Clearance Sale.

Your attention is directed to the Clearance Sale ad. of the Bee-Hive Store, Frederick, in this issue. As this sale is only for 30 days it will be well for all who can do so to take advantage of these inducements at the earliest opportunity, as those who come first will secure the greatest bargains.

#### Gold Fish.

Rev. I. M. Motter of Waynesboro, Pa., brought fifty gold fish from that town which he placed in the basin of the fountain. This is one of the most acceptable contributions which the fountain committee has received and has proved quite an added attraction to the resort.

#### Looking Ahead.

It is highly gratifying on this centennial occasion to note the prospective up-building of this village as appears in another column. On the next occasion St. Joseph's House may be in the heart of the place and Mt. St. Mary's College within its bounds.

Our thanks are due to our patrons who have promptly sent in their subscriptions to this paper. Those who have failed to do so will oblige us by an immediate call. We cannot visit them individually. The amount for each one is small, but the aggregate is our dependence. Send it in.

MR. B. C. BOGHER, of Mt. Pleasant, Md. says: Victor Pain Balm has been used in my family for a considerable time for cramps, colic, Neuralgia, Sore Throat, etc. also find it acts equally as well on stock we have never used it without obtaining immediate relief. I would not be without it under any circumstances.

#### Completed.

MR. JAS. O. HOPP'S new house on Green street is completed and ready to be occupied. It is a large frame structure intended for two families, and built without any direct communication between the two apartments. This building is a marked improvement in that section of the town, and we hope soon to learn of more buildings in it.

#### List of Letters.

The following letters remain in the Post Office, Emmitsburg, Md., June 28, 1886. Persons calling will please say *advertised*, otherwise they may not receive them:  
Miss Mary L. Bishop, Miss Aggie Classon, Mrs. Emma Dull, Miss Phebe A. E. Hill, Miss George Lyday, P. M. Mishler, Henry Newcomer.

#### Graduated.

A class of twenty-four young men was graduated from Pennsylvania College, Gettysburg, last Thursday. Among the graduates were four young gentlemen from this county, whose names and the titles of whose orations are as follows: E. Bitts, Ellerton, "The Character of Cicero," M. L. Rouzer, Mechanistown, "Dumas, the chemist," E. C. Shafer, Burkittsville, "The Ambition of Greece," H. H. Rouzer, Mechanistown, "The Greek and the Roman."—*Union.*

M. G. Motter, Emmitsburg, the subject of his oration, "Gladstone versus Huxley."—*Ed.*

#### They Passed Through.

Colonel Warner's Battery C. 3d Washington Artillery U. S. A., that reached Frederick on Friday evening of last week, having encamped for the night about one mile south of Mt. St. Mary's on Monday, passed through this place between 6 and 7 o'clock, Tuesday, on its way to the Gettysburg encampment. The battery is officered by Capt. Warner Lieutenants Randolph, Davis and Loveage, and is accompanied by Dr. Wilcox, assistant Surgeon. Their objective point is to participate in the exercises of The Grand Army of the Republic and re-union of the 3d Army Corps at Gettysburg in July. The Pennsylvania Department of the Grand Army of the Republic will encamp on the battle field from the 21 to the 27th of July and on the 21 and 24, the re-union of the 3d Army Corps will be held. General Sickles, Fitzhugh Lee and Longstreet have accepted invitations to be present to speak; from 5,000 to 7,000 members of the Grand Army of the Republic are expected to be present, and the demonstration promises to be a most notable one.

#### A Wise Reform.

The habit of administering quinine in powerful doses, as an antidote to malarial miasmas, was once dangerously common. Happily this practice has undergone a wide reform. Not only the public, but professional men have adopted, not wholly of course, but largely, Hostetter's Stomach Bitters as a safe tonic substitute for the pernicious alkaloid. The consequences of this change are most important. Now fever and ague sufferers are cured—formerly their complaints were only for the time relieved, or half cured—the remedy eventually failing to produce any appreciable effect, except the doses were increased. A course of the Bitters, persistently followed, breaks up the worst attacks and prevents their return. The evidence in favor of this specific and household medicine is of no ambiguous character, but positively and satisfactorily, and the sources whence it proceeds are very numerous.

Don't forget the Firemen's Pic-Nic.

**The New York World.**  
The advertisement of this most remarkable newspaper of the age, appears in this issue. Its circulation for Sunday June 27th, ult., was 237,700 copies, and its weekly issue is over 1,300,000 every week. It covers the entire field of the latest intelligence the world over, and takes front rank as the most progressive journal of the age.

MR. LOUIS MCCURRAY has planted at his farm, near Frederick, two thousand acres of mountain sugar corn. Other farmers in the neighborhood have planted eight hundred acres, and the product of all this land will be canned during the season, which commences about the middle of August. Four million cans are on hand, and forty-two hands are at work adding to the number.

THE work on Mr. Elder's new house is now progressing rapidly. It is to be three stories high with pressed brick front; the front of the first story will be almost entirely glass, the wall consisting of four pillars of pressed brick and three iron columns. The ceilings on the first floor will be 12 feet high and those of the second and third 10 feet. The entire structure will be covered with a slate roof.

#### Driving Party.

A pleasant drive was made during the past week by John J. Kunkel, John S. Macgill, W. P. Sullivan and E. S. Eichleberger, of this city, through the Northern portion of this county, Southern Pennsylvania and Washington county. The party left last Wednesday morning and visited Emmitsburg, Gettysburg, Fairfield, Monterey, Blue Mountain House, Waynesboro, Ringgold, Smithsburg and Hagerstown, returning on Monday evening by way of Middletown. The trip through the heart of the mountains was particularly enjoyable, but the tourists say that they saw nothing finer than our own valley as it burst into view through the pass in the Catoctin range. This spinning along over smooth pikes in one's own team, with an occasional halt to drink in some new view, is the height of summer enjoyment.—*Examiner.*

No doubt "to drink, in some new view," was a matter of frequent necessity.—*Ed.*

#### Distribution of Premiums at St. Euphemia's School.

This most excellent school closed its sessions for the year with the usual annual distribution of premiums, medals and honors to the deserving pupils on Tuesday morning last. The commodious hall in which the school is held was very tastefully and appropriately decorated for the occasion. The attendance consisted of a large number of the patrons of the school and invited spectators who enjoyed the exercises throughout. The following programme will represent their course and every part was performed in a manner highly creditable alike to the pupils, and their teachers. Strangers sojourning in the village who attended were most agreeably surprised at the talents displayed by the children, especially in the departments of music, both vocal and instrumental, and accorded to our Emmitsburg children, the encomium of being in advance of others elsewhere in the opportunities of educational facilities at their command. It is well known that the instructors are a band of devoted Sisters from St. Joseph's Institution near this place, and that to their skillful and patient training is due the excellent progress of the school, for all which the grateful appreciation of its patrons is justly due. Rev. Fr. White, Pastor, made a few remarks at the close of the performances, congratulating the scholars, and wishing them a happy vacation:

"Leaf by Leaf the Roses Fall," Trio—Bishop—Misses E. Hopp, M. Bussey, M. Smith; Premiums; "Old Farmer John," Boys Chorus—C. A. White; Calisthenics; Premiums; "Soft Fell the Dew," Duo—Solo Miss E. Hopp; "Come Where the Lilies Bloom," Trio—Thompson—Misses J. Lansing, C. Elder, E. Hopp; Premiums and Gold Medals; "O, Mater Admirabilis! Come—Solo, Misses C. Elder, M. Bussey; Exit March, Miss Elder.

#### DE. J. SHELTON MCKENZIE.

Oculist and Optician, Graduate of the University of Edinburgh, College of ophthalmology, and Royal Eye Infirmary has opened an office, in the Telephone Exchange Building, East Frederick street, where he will be consulted by those suffering from disease or any difficulty of their eyes. Dr. McKenzie has made a special study of diseases of the eye and having had an active practice of ten years in Europe and America believes he can successfully combat the diseases which are so destructive to this delicate organ. All examinations are made with the ophthalmoscope and other scientific instruments used in modern ophthalmology. A correct diagnosis is made of each person's case and an accurate statement given of the exact condition of their eyes. In functional diseases of the eyes, where glasses are indicated, the doctor cuts grinds and adjusts them for each person thus insuring perfect vision, ease and comfort to the wearer. These glasses are free from the imperfections, usually found in glasses, viz: Mud spots, cracks, flaws, waves, blisters, etc. They are made from pure quartz, very white and as transparent as the purest spring water. These glasses are not put on as in the shops. They are only ground and fitted to order. Thousands of people who are suffering with their eyes from over lachrymation, pain over the eye and through the globe, a dull heaviness of the eye itself, a morbid feeling as though there were sand imbedded in the mucous membrane of the lids, very sensible to light and air and a desire to partially close the eyes, or an incipient inflammation in the globe of lids. These and a great many more troubles may be cured which can be entirely overcome if the person so afflicted will consult an oculist who understands physical and physiological optics, the laws of light, refraction, etc. There are very few cases of eyes or vision but can be brought to approximate nearly normal vision with properly adjusted glasses. Testimonials of the most substantial character. Cases treated since the Doctor has been in town can be readily ascertained by any person who will take the trouble to inquire. Office hours from 7 to 9 a. m., 12 to 5 and 6 to 8 p. m. Aug. 15-17.

Don't forget the Firemen's Pic-Nic.

**Nice Fish.**  
Messrs. J. H. Rowe and D. T. Hoff, caught 15 fine bass on Thursday, among which was one 18 inches long that weighed 2lbs and 10ozs.

On Wednesday Messrs. Chas. C. Kretzer and D. Lawrence caught a bass that weighed 2½ lbs.

#### Improvement Abandoned.

The Reformed congregation of this place on Sunday last abandoned the project of repairing its church edifice. There were those who favored the erection of a new church and others simply repairs, but as the congregation did not deem it advisable to begin the erection of a new church at this time, and as the estimated cost of the proposed repairs amounted to about \$7,000, it was determined not to spend so much money in repairs and abandon the matter altogether for the present.—*Valley Register.*

A VERY severe storm visited York County, Pa., on Friday of last week. It was like a western cyclone. The effects were most destructive about East Berlin and Baughmansville; hail as large as walnuts fell in such quantities that it could be shovelled up; every window glass in some houses was broken, holes were knocked through roofs; trees, fences and some small buildings were blown down, trees were stripped of their foliage; on some farms the crops were utterly destroyed, cattle in the fields were so injured as to require wagons for their removal. There were cases of death from lightning and several very narrow escapes. Geo. and Joseph Nau, sons of John Nau of Littlestown, were severely injured as they were returning from erecting some tombstones. The storm-belt was about three miles long and as many broad.

#### College News.

The President of Mount St. Mary's College is about to issue the following circular to his friends and patrons, which we doubt not will be welcome news to them, as it indicates an advance in the internal policy for the extended usefulness of the venerable institution:

**MOUNT ST. MARY'S COLLEGE.**  
Emmitsburg, Md., June 29th, 1886.  
Looking to the welfare of our school and the interest of our pupils, it is our intention to reorganize the Junior Department in September, so that the younger pupils may be separated as much as possible from all associations with older students. The need of an institution for the training of very young boys is felt throughout the land. We hope therefore in reorganizing this department that our friends will give us that encouragement and patronage they have so freely bestowed in the past; while we on our part will endeavor to prove ourselves worthy of the public confidence so long enjoyed by this college. Letters of inquiry should be addressed to:

REV. EDW. P. ALLEN, A. M., President.

**More New Houses.**  
Mr. Oscar D. Fraley has purchased a building lot from Messrs. I. S. Annan & Bro., just opposite the public school house, on which he will build a house, commencing early in September. The Messrs. Annan have laid off the entire field back of the Emmitt House in building lots, with alleys the regular distance for every alternate lot, which will be opened as soon as the lots are sold, the alleys to run clear through to the mountain road. Building lots can be had in this place now at a low cost in three different directions, and we hope to hear of a number of new houses to be erected in the near future, and by all means a town hall.

Mr. John G. Hess has had the foundation dug for another new house at the west end, to join the one he already has there on the west.

William Wallace has completed the foundation of his house next to the Colored School House. When these houses are all completed it will make eight new ones for this season.

#### List of Patents.

Albert Rosenberg, Baltimore, Overalls.

A. H. Brinkmann, Baltimore, Bustle.

T. J. Carrick, Baltimore, Dental head rest.

W. C. Denmead, Baltimore, Rotary valve.

W. C. Turnbull, Baltimore, Telephone receiver.

D. G. Weems, Baltimore, Ore-separator.

#### Salaries of Maryland Postmasters.

The Washington Post says: "The annual adjustment of salaries of presidential postmasters, based upon the gross receipts of the offices, has been completed and will take effect July 1. The salary of the postmaster at Washington, \$5,000, remains unchanged. The following are the changes in Maryland: Annapolis, \$1,900 to \$2,300; Baltimore, \$5,000 to \$4,000; Cambridge, \$1,300 to \$1,400; Centerville, \$1,200 to \$1,300; Easton, \$1,600 to \$1,700; Elkton, \$1,500 to \$1,400; Emmitsburg, \$1,600 to \$1,200; Frostburg, \$1,100 to \$1,200; Port Deposit, \$1,200 to \$1,000, Towson, \$1,100 to \$1,000. A year or more since postage was reduced which, by increasing the amount of mail matter, added to the labors of the postmaster of Baltimore, but did not maintain the revenues up to the \$5,000 standard. The business, however, was nearly up to the \$500,000 limit, and a further examination of the records, it is believed, will show it fully up.

**A History of the United States,**

BOUND IN LEATHERETTE TREE CALF, GILT, AND CONTAINING

TWENTY-TWO FINE ENGRAVINGS.

This dainty book of 320 12mo pages is printed on good paper, with wide margins, and is a prize for a bibliophile.

This history is upon an entirely novel and original plan, which makes it indispensable to every person, no matter how many other histories he may have.

It is arranged chronologically by years, from the discovery of America in 1492. Every event is narrated in the order of its date. These are not confined, as in other works, to political matters, but embrace every branch of human action. It describes under its proper date all important events, all discoveries in science and the useful arts; the digging of canals and the building of railroads and telegraph lines; the founding of towns and the erection of notable buildings and bridges; the first performance of plays and the first appearance of actors and singers; first floods, hailstorms, tornadoes, cyclones, epidemics, accidents and business failures; "commercial panics" in all markets; labor troubles, strikes and lock-outs, and hundreds of matters never mentioned by historians, which are of the greatest importance to all who wish to understand the progress of their country. Besides being a history in the ordinary sense, it is a condensed newspaper file for four hundred years.

For scalds and burns no remedy is better than white of egg. It excludes air from the wound as well as collodion, and is more cooling than sweet oil and cotton. It should be poured over the wound as soon as it is made.

For some time past a number of prominent Knights of Labor organizers have been industriously at work among the servant girls of St. Louis with very satisfactory results to the order. A local assembly has been organized, and they will be admitted to the Knights of Labor as part of a national district assembly, to be composed entirely of servant girls. The assembly already numbers in the neighborhood of 150 members, and is increasing at every meeting. The place of meeting is kept a secret at present, the principal reason being the desire of the girls to withhold their names from the public for fear that if they were known to be members of the Knights of Labor they might lose their situations. Hotel waitresses will also be admitted, and the combined strength of these and the servant girls will, they are confident, bring their employers and mistresses to terms.

"Billy," as very proud of his command, and he turned to the chaplain and said: "That ain't necessary; I'll save you that trouble. Adjutant," said he, calling an officer, "you just go and make a detail of 300 men, and take 'em down to the creek and have 'em baptized. No—d—n—I regiment in this corps shall go ahead of Billy Wilson's Zouaves."

"And," continued the general, laughing heartily at the reminiscence, "blamed if the adjutant didn't obey Billy's orders."
