Christmas Time.

One night ages ago a little star twinkled and glittered in the heavens, and wise men by its brilliancy made their way to the birthplace of a little babe in Bethlehem. These wise men burned incense about the cradle of this babe and made it presents of myrrh and sweet ointments. In after years that same babe fulfilled the predictions of these solemn savants and was known to mankind as Christ, the Saviour. In the 4th Century Pope Julius I. issued an order for an investigation inquiry by the theologians of the East and West was an agreement Doonville was a small place, and dle of dry leaves. Two famished "And-did-did-nobody else upon the 25th of December. Since that time the date has never so poor that I dare intrude upon corner of the room. A very old looking up surprised at the questhentic proof of the identification of the day. The Christmas celeare nearly gone by, and family reunions and evergreen trimmings are almost all that remains of the various rough merriments which used to mark the festival. To the children it is a time of unalloyed pleasure, and even old folks take on something of their youth again under the magnetic influence of the occasion. Stockings will be hung up by all the little folk on mas morning, big with blissful anticipation. May they not open in

Miscellaneous. SNOW BALLS.

How doth the little busy boy Improve each idle hour By making snow up into balls To throw with all his power.

How cunningly he flingeth them, Regardless quite of sex, And grinneth when the snow in crumbs Falls down his victims' necks.

-Boston Gazette.

### Ice-House.

Compared with necessary cost, nothing is more profitable than an ice-house. The smallness of the number of ice-houses found in the country is sufficient foundation for the belief that but few farmers properly estimate their value. Rightly they are more than a luxury. To those who have them they Lo! He cometh in scarlet and purple become a necessity. They do more than give pleasure and comfort; they allow of better butter being made, preserve vegetables, fruits and meats, and in many other ways will increase the income or reduce the expenses of the household. Rightly employed, their contents not only make food and drink more agreeable, but more wholesome. off its burdens never to take them Nor need an ice-house to be expensive. We know of an ice-house that when he grew older he would that has given good satisfaction for years, and its sides are made of poles and its roof of clapboards. A tured. When he had older grown close pen of poles was built up to a he started on his journey, but he height of eight feet. Another close pen was built around this one, two feet from it on all sides, the space between the two being filled with sawdust as the outer pen was built up. Pole rafters held the clapleft open, to save material and la- whispered to himself: bor and also to secure ventilation. The floor was excavated to a depth or I have taken the wrong direction. of three feet and a drain dug from I will renew the search by and by." the outside. Old poles and rails Sickness and trouble and danger were laid to the depth of two feet came to him as he waited. Men to secure proper drainage. A argued with and ridiculed him. doorway was cut in one end, and They scoffed at the idea of the land the house was made. Where of rest and peace, but deep down timber is abundant this is the in his own heart he felt the conviccheapest ice-house that can be con- tion that there must be, and as his structed. Another man has one burdens of life increased he someice within the proper distance of had come nearer to him. Poor, the poles and filling in between with sawdust as the ice is filled in. On the thought as a prisoner for life is about all that is required if the ice is laid properly. Of course Once, when sickness and poverty must be ugly it need not be put up in a conspicuous location. The die without finding it. But it was tion are essential.
