THE CONSTITUTION.

On September 17, one hundred years ago, the Convention of all the States, presided over by George Washington and held in Philadelphia, adjourned after nearly four months' session, having adopted the Constitution afterwards ratified by the States. The centennial of this event is to be appropriately celebrated in Philadelphia on Thursday, Friday and Saturday of the present week.

When the Constitution was framed there were thirteen States in the Union. Now there are thirty-eight. The population of the United States in 1790, when the first census was taken, was 3,929,214. It is now nearly or quite 60,000,000. There were then about 1,500 Federal office-holders in the country. There are now more than 100,000. The total net ordinary receipts of the United States in 1792 were \$1,661,000. In 1886 they were \$336,439,000. The total net ordinary expenditures in 1792 were \$8,269,000. In 1886 they were \$242,483,000.

It is an evidence of the broad, unselfish patriotism as well as of the ripe judgment of the men who made the Constitution that their work has filled its purpose for one hundred years and is still the foundation rock of the greatness of the Republic and the rights of the citizens. For despite the wonderful development and altered circumstances of the country the Constitution promulgated a century ago remains as it was adopted, except as to changes necessitated by new conditions of affairs.

The first amendments to the original instrument were simply declaratory and restrictive, and were proposed in the first Congress to satisfy the scruples or doubts of some of the States. They in no manner changed the work of the Convention. The same is the case in regard to the amendments which followed as proposed in the Third and Eighth Congress. Then came the amendments demanded by the rebellion, and adopted in 1865, 1866 and 1869.

It is really astonishing that the Constitution constructed for the infant of 1787 should fit so well the giant of 1887. For the safeguards of the fundamental law have at all times proved sufficient to guide and guard the Republic through troubles and triumphs, through early struggles and succeeding prosperity, and are to-day the bulwark of the liberties of the people. It is well that the centennial of the completion of that great work should be duly observed and honored. While the Constitution is respected and obeyed the country will be safe.—N. Y. World.

FOREIGN INTERVENTION.

It is almost amusing to note the paternal manner in which the newspapers of some of the states, manifest their interest in Maryland affairs. It matters not how dismal may be the aspect of their home affairs, how rotten and corrupt their internal government, from these they turn aside to lend a helping hand as it were for the purgation and disentanglement of our citizens, as they patronizingly insist. But when all is said none of them can exhibit a cleaner sheet of good government, lower taxation, economy in expenditures, and a better standing as to the condition of the public securities. Those who choose to think can readily discern the course of things. The very policies that have given us our good fame are opposed to their own home concerns, and to see good in the course of an opposing party is not ordinarily given to mortals, and right and justice are expected to retire before the onslaught of greedy place-hunters, bound to rule or ruin.

The Fate of the Chicago Anarchists.

The Supreme Court of Illinois has affirmed the decision of the lower court in the case of Spies, Schwab, Fischer, Engel, Fielden, Parsons and Lingg, the Chicago anarchists, convicted on August 20, 1886, of having murdered a number of policemen by the use of dynamite bombs on May 4 of the same year, and has ordered that the sentence of death imposed on them be carried into effect on November 11.

The ninth International Medical Congress adjourned at Washington City on Saturday last.

KANSAS estimates that its annual poultry and egg crop is worth \$1,500,000.

THE PALLADIUM OF LIBERTY.

There can scarcely be any comparison between the relative importance of The Declaration of Independence, and the promulgation of our Federal Constitution. The former it is true made the latter possible, but the fruits of the Declaration, could only be gathered through the maturing processes of the Constitution. The Declaration was the work of States whose diverse interests and incoherent tendencies, could only be assimilated through the binding forces of mutually engaging laws.

The same spirit of compromise which has obtained at every stage of our progress, was conspicuous in the work of the Convention that framed the Constitution; but for its influence that body would have dissolved at the earliest stage of its sittings. The working of that instrument through the expansion of our territory, the vast increase of population, and the conflicting interests and contests, sectional and otherwise that time and again have agitated the country, may well command the wonder and the admiration of the world; and there stands the work of the giant intellects by whom it was elaborated, in its original entirety, with small, yet conspicuous changes, just as it was enacted. Under its protecting aegis millions of foreigners have settled in the land, and been brought into harmonious union with its benign spirit, and when Socialists, Anarchists and their kindred elements have tried to develop unnatural tendencies, quickly has the native love of the work of the fathers manifested itself to root out and dissipate the unnatural tendencies.

Every thing seems to indicate that the good work under which we have grown great and glorious will be transmitted to future ages. Embodying the genius and the tried wants of the people of 1787, the Constitution appeared as the true reflection of the popular ideas; these have descended from father to son, and so long as inborn principles maintain their actuating force, so long will they continue to mould and govern coming generations, to the glory of the Country and the good of mankind.

SUMMARY OF NEWS.

IMPRITIES of the blood often cause great annoyance at this season; Hood's Sarsaparilla purifies the blood, and cures all such affections.

The first litigation growing out of the Chatsworth horror cropped out Wednesday in the shape of nineteen damage suits aggregating \$127,000, which were begun in the Circuit Court at Peoria. Ten are for \$5,000 each, all death cases. The others are for injuries, and demand various sums, reaching in one instance \$20,000.

The executive committee of the new political party recently organized in Philadelphia under the name of "the American party" recently issued an official call for a national convention to meet in that city on Friday and Saturday, the 16th and 17th of September, and they call upon all American citizens, of whatever party or special affiliation, who sympathize with the sentiments and are in favor of the political objects of the new party to attend for the purpose of completing the organization and promoting, among others, the following specific objects:

First. To emphasize and perpetuate the sentiment, America for Americans.

Second. The restriction of immigration.

Third. A thorough revision of the naturalization laws.

Fourth. Reserving American lands for American citizens only.

Fifth. The protection of Americans in all their rights, on land or sea, in all parts of the world.

Sixth. To restrict and guard the right of elective franchise.

Seventh. To abolish polygamy in the United States immediately and entirely.

Eighth. To enact and enforce such laws as will tend to eradicate intemperance.

Ninth. To develop the resources of the country by a wise system of internal improvements.

Tenth. To protect and promote the American system of free common schools.

Eleventh. To adjust the relations between labor and capital on a permanent basis of equity and justice.

And especially do we invite representatives and members of the following organizations to meet and co-operate with us in said convention: The Patriotic Order Sons of America, the Order of United American Mechanics, the Junior Order of United American Mechanics, the Order of Deputies, the Sons of the Revolutionary Sires, the Political Alliance, the United Minute Men, the various granges, and all other orders and organizations whose principles and sentiments will enable them to work in the American party on the foregoing basis.

WASHINGTON GOSSIP.

Special to the Emmitsburg Chronicle. The medical Congress which has been in session here during the past week has been pronounced a great success.

The banquet at the Pension office was attended by from four to six thousand persons. Only five hundred of the guests could eat at one time. As is usual a great many fiend-lunchers procured access to the banquet. When one of these lunchers has fasted nearly as long as Dr. Tanner did, or about 39 days he can gaze at a table with edibles on it a long time in the face and not get tired. Many of the well-fed doctors had to go to their Hotels or abiding places and await what they could catch on to next morning.

As a general thing they are a "happy go fetch it" looking lot of individuals who seem to be relieved of the duties of their private graveyards, but as they remain from their duties time wears upon the countenance of the more solicitous, and marks are becoming a little visible about the eyelids.

The banquet was held in the Pension office building. This is a gay building—known generally as "Meigs' Barn." The architect of this building has belonged to the army of his country for many centuries, and on that account naturally prides himself on his aristocracy and general building capacity as an architect and engineer.

The "Barn" is a great monstrosity of brick-work with a belting around one story of "terra cotta" work—soldiers marching around who are presumed to have two arms, but some with their sword in one hand and some in the other. He didn't neglect to put in a few left-handed fellows.

Secretary Whitney did a grand thing in entertaining the foreign members of the Congress. He provided carriages for 250 and sent them out to his country residence near the City, where a superb collation on tables under the trees was served.

Mr. Randall who has been here denies he came on conference business.

Mr. Carlisle has left "Oak View" the Presidents country residence, and is now in the city at his old Hotel the "Riggs."

He is unwilling to talk about the tariff—or who are to be consulted.

The following will convey his views as near as could be arrived at.

"Just who are to be consulted you would not care to say?"

"Oh, no. It would be quite needless for me to mention names."

"There hasn't been any arrangement made for a general Democratic caucus or for a resumption of the conference at Oak View?"

"No; none that I know of. It is a long time before Congress meets."

"And at present you would not care to express your views upon what ought to be done, or what is likely to be done, about tariff by the Democratic party in Congress this winter?"

"No. I would not care to say anything about it just now. You know, until some shape is given to a thing it is too soon to discuss it in public."

The report printed about a probability that Mr. Carlisle would take the Chairmanship of the Committee on Ways and Means in the next House and let the Speakership go to some other Democrat, in the hope that Mr. Carlisle at the head of the aforesaid committee might harmonize the Democrats of the House on the subject of revenue reform as they have not been harmonized in the past, Mr. Carlisle characterized as a piece of wild speculation.

He said that certainly he knew nothing about such propositions, and he did not know that any of his friends had been talking of such a thing.

Mr. and Mrs. Carlisle are now at the Riggs House, where they will remain for a week.

THE OAK VIEW CONFERENCE.

The President was asked yesterday if he had anything to say regarding the much-talked-of conference at Oak View, and replied that the statement given the Associated Press by Representative Scott was a lot of nonsense, and he had nothing to add, as it covered the ground completely.

ALIC.

A GANG of carpenters were erecting a trestle forty-five feet high at the Mudfork Mines, in Ohio, on Tuesday, when the whole structure fell and all were thrown into the gully. Three men were instantly killed and four seriously injured.

EX-GOVERNOR LUKE P. BLACKBURN died on Wednesday at the residence of his brother-in-law Judge Lewis in Frankfort, Ky. He was aged over 71 years.

THE CHINESE WALL.—An American engineer, who has made the subject a special study on the spot, has calculated that the Chinese Wall has a contents of eighteen million cubic metres (6,350 million cubic feet). The cubic contents of the Great Pyramid is only 241,200 metres. The material used in the construction of the Chinese Wall would be sufficient to build a wall round the globe 1.8 metre (6 feet) high, and 0.6 metre (2 feet) thick. The same authority estimates the cost of the Chinese Wall to be equal to the railway mileage of the United States (128,000 miles). The stupendous work was constructed in the comparatively short period of twenty years.

REFORMED CHURCH IN THE UNITED STATES.—The statistics of the above church as compiled at the sessions of the last General Synod, held at Akron, Ohio, are as follows: Synods, 7; Classes, 54; Ministers, 825; Congregations, 1,481; Confirmed Members, 183,980; Unconfirmed Members, 108,724; Infant Baptisms, 42,299; Adult Baptisms, 4,254; Confirmed, 30,558; Certificates, 16,472; Communicants, 146,436; Dismissed, 7,250; Excommunicated, 168; Erased, 6,301; Deaths, 14,207; Sunday Schools, 1,422; Sunday School Scholars, 122,695; Students for the ministry, 186; Benevolent contributions, \$382,493; Congregational purposes, \$2,298,228.

Home Evidence

No other preparation has won success at home equal to Hood's Sarsaparilla. In Lowell, Mass., where it is now, as it has been for years, the leading medicine for purifying the blood, and toning and strengthening the system. This "good name at home" is "a tower of strength abroad."

It would require a volume to print all Lowell people have said in favor of Hood's Sarsaparilla. Mr. Albert Bates, living at 28 East Pine Street, Lowell, for 15 years employed as boss carpenter by J. W. Bennett, president of the Erie Telephone Company, had a large running sore come on his leg, which troubled him a year, when he began to lose in size, and in a short time disappeared.

Joe, Dunphy, 214 Central Street, Lowell, had swellings and lumps on his face and neck, which Hood's Sarsaparilla completely cured.

Mrs. C. W. Marriott, wife of the First Assistant Fire Engineer of Lowell, says that for 16 years she was troubled with stomach disorder and sick headache, which nothing relieved. The attacks came on every night, when she was obliged to take her bed, and was unable to endure any noise. She took Hood's Sarsaparilla, and after a time the attacks ceased entirely.

Many more might be given had we room. On the recommendation of 4 people of Lowell, who know us, we ask you to try

KASKINE

(THE NEW QUININE.)

A POWERFUL TONIC
that the most delicate stomach will bear.

A SPECIFIC FOR MALARIA.

RHEUMATISM, NERVOUS PROSTRATION,
and all Germ Diseases.

THE MOST SCIENTIFIC AND SUCCESSFUL BLOOD PURIFIER. Superior to Quinine. Rev. Wm. L. Lucas, Rector Grace Church, Havana, Cuba, writes: "I cordially endorse Kaskine as being just what you claim, an excellent substitute for quinine, with the exception of its effect on the stomach. It had effected Mrs. Lucas had a serious form of malaria, and was confined to her bed for months. Kaskine had her up and around in a few days, and a short time cured her."

Living in the malarial districts of Maryland I became a victim of worst forms of malarial fever. I drugged myself with quinine and other remedies without avail. I was greatly reduced when I heard of Kaskine. Its curative power was a medical revelation to me. It cured me and I have not had a return of the troubles.

(Prof.) J. D. Hild, B. A., Asst. Chemist, Maryland Agricultural College, writes: "I have used Kaskine on the above persons, giving full details, will be sent on application."

Kaskine can be taken without any special medical advice. \$1.00 per bottle, or six bottles for \$5. Sold by J. A. ELDER, Emmitsburg, or sent by mail on receipt of price.

EXHAUSTED VITALITY.

Health and Strength Regained

Knowledge is Power: Read!

The above cut represents the obverse and reverse sides of the GOLD and JEWELLED MEDALS presented to Dr. W. H. Parker by the NATIONAL MEDICAL ASSOCIATION, in recognition of his masterly Medical Treatise, entitled the SCIENCE OF LIFE OR SELF PRESERVATION, VITALITY, and the ten thousand ills that flesh is heir to, whether arising from Errors of Youth, Impudence, Over Taxation, Excesses, Accidental or Constitutional Predisposition. It is an invaluable treatise for the Young, the Middle-Aged, and even the Old, whether in health or disease. No other work ever published. It has been highly praised by the newspaper press throughout the country and even in England. Three hundred pages, substantially bound, enclosed in a full gilt. Contains 125 extraordinary prescriptions for prevailing diseases, either one of which is worth five times the price of the book, while some of them are absolutely invaluable, and should be in the hands of every one. Guaranteed the best work upon the above named subjects, or the money returned in every instance.

PRICE ONLY ONE DOLLAR. By mail postpaid, and concealed in plain wrapper. Illustrated by Dr. W. H. PARKER, No. 4 BULFINCH ST., BOSTON, MASS., who is the CHIEF CONSULTING PHYSICIAN of the PEARSON MEDICAL INSTITUTE, and may be confidentially consulted on all diseases requiring skill and experience.

The Registration.

The list of qualified voters, registered in Emmitsburg at the September sitting, on the 6th, 7th, 8th, 9th and 10th inst., foots up thirty-five (35) qualified, and presents sixty-two (62) disqualified voters, a loss of 27.

Mr. Yost's Barn Burned.

The barn of Philip J. Yost, near Elblave, Carroll county, was struck by lightning and burned to the ground about four o'clock, Thursday afternoon. All the recently-gathered crops and the farming implements in the barn were destroyed.—American.

MONDAY while Mr. John E. Smith was engaged picking peaches for Mr. Geo. W. Hoffman, the ladder upon which he was standing broke, precipitating Mr. Smith to the ground, a distance of fifteen feet. Mr. Smith was badly bruised and is now confined to the house.—Boonsboro Times.

THE contract for furnishing the new Hamilton Hotel, at Hagerstown, has been secured by Mr. M. L. Etchison, of Frederick, agent for the Robt. Mitchell Furniture Co., Cincinnati, Ohio. The furniture will be of quartered oak, cherry and walnut, and to the amount of twelve or fifteen thousand dollars.

THE Village Record, of Waynesboro, tells how Geo. D. Bonebrake, a farmer near that place, was duped out of sixty dollars by lightning rod sharps. They made him believe they would put the rods for \$6.99, and that the balls attached to the rods would make it so light around his barn after night thieves would not venture near it.

Accepted.

Rev. A. S. Weber, whose resignation as pastor of the Reformed church, of Westminster, was noticed a few weeks ago, has formally accepted the Presidency of Wichita College, Kansas, and expects to be on the ground to commence his work early in October. The good wishes and prayers of the church and friends will be with him in his new and important field of labor.

List of Letters.

The following letters remain in the Post Office, Emmitsburg, Md., Sept. 12, 1887. Persons calling will please say *advertised*, otherwise they may not receive them:

Vigor and Vitality.

Are quickly given to every part of the body by Hood's Sarsaparilla. That tired feeling is entirely overcome. The blood is purified, enriched, and vitalized, and carries health instead of disease to every organ. The stomach is toned and strengthened, the appetite restored. The kidneys and liver are roused and invigorated. The brain is refreshed, the mind made clear and ready for work. Try it.

A Strange Death.

Mrs. Susan Martin, an aged lady living in Pleasant Valley, near Weaverston died last week from a very simple cause. Sometime ago she trimmed a corn on her little toe, causing it to bleed. As she had done the same thing before, she did not think anything of it. The toe almost dried up, gangrene set in and caused her death. She leaves a large family of children, most all of them being married.—News.

CLINTON, N. J., Feb. 17, 1888.—While visiting Gettysburg, during the holidays, I was handed some of your "Black Pills," and found them to be such a grand pill for Headache, Sour Stomach, Nervousness and the Kidney and Liver. I have since used the Compound Cathartics but they do not seem to have half the effect that your "Black Pills" do. Knowing them to be such a good pill, I would like you to send me six boxes of them at once. Very respectfully, JAS. S. JACOBS.

Accident with a Gun.

On Monday afternoon last Mr. Anthony E. Smith, residing near this place, met with a painful though not serious accident while cleaning his gun. He had drawn the load and washed out the gun, he says, and then poured a little coal oil in the nipple and set fire to it, in order to blow out what little powder, if any, there might be sticking to the barrel. And just here he must have had his mouth over the mouth of the gun barrel, to blow into it, when there was a slight explosion, and the contents of the gun were blown into his mouth, striking the back part of it, near the palate. As he says there was no wad in the gun, and no more powder than might have been clinging to the barrel, the supposition is that the wound is not a serious one. Dr. Sim rendered surgical aid.—Banner of Liberty.

Give them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

FREDERICK CITY DOINGS.

News of the City in Brief—Rivals Fight Improvements at the Fair Grounds—Thieves at Work—Failure of Carriage Manufacturer—Register's Report—Board of Aldermen Does Good Work—Address—Petition Circulated &c., &c.

From our Special Correspondent.

FREDERICK, Md., Sept. 14.—Rev. E. J. Wolf, D. D., Professor of the Lutheran Theological Seminary at Gettysburg, Pa., occupied the pulpit in the Lutheran church, this city, Sunday last.

The number of telephone calls at the Exchange in this city, for the month of August was 22,479; in July last 19,480. Mr. John Eisenhauer will furnish the French Plate glass for the windows of the Fredericktown Savings Institution. We were visited by a glorious rain here on Sunday, Monday and Tuesday morning, making it very damp and disagreeable.

The small garden farm of Mr. John Wilson, situated a short distance west of this city, has been purchased by U. A. Lough for \$2,900.

Mr. McClintock Young, of this city, has been granted a United States patent on a compound steam engine of a high and low pressure cylinder.

Mr. Wm. J. Worman, about two miles north of this city, lost a valuable Durham cow, Monday by milk fever. He had just bought her for \$40.

Messrs. Edw. S. Eichelberger and Jacob Rohrbach, of this city, delivered the addresses at the tournament held at Cregarstown on Saturday last.

Mr. Wm. Kolb, butcher, living on the corner of Market and Third streets, is very ill, suffering from dropsy. Mr. Kolb is in the 81st year of his age.

The pie-nice season is over in this section and the people in this city are looking in another direction for popular amusement. The operas will attract many.

We learn from several farmers in the county who are growing buckwheat that it promises to be an abundant crop, provided it is not nipped by untimely frosts.

The United Fire Company of this city, have appointed a committee to make all necessary arrangements to have a firemen's ball next month, the week of the fair.

The erection of the Old Mutual Insurance Company's building on Market, near Church street, is progressing finely, and when completed will be one of the handsomest in the city.

The five hundred feet of hose for the Independent Fire Company of this city, arrived here last Saturday evening. The hose is made of the best of gum and shipped by a New York firm.

Col. L. V. Baughman, of this city, will deliver an address to the Moravian Sunday School picnic of Mechanics-town, to be held this coming Saturday in Black's grove, near that place.

Several ladies of this city are now circulating a petition for signatures for the retention of Dr. Diehl's services as pastor of the Lutheran Church. It is not known what course will be pursued.

The amount of work done by E. N. Hobbs, register of voters of this district, for the September setting is as follows: Number registered, 109; transferred, 37; stricken off, 11; dead, 51.

The Messrs. Steiner Bros., druggists of this city, receive, as heirs, \$500,000 from the decease of a near relative of Morgantown, W. Va. The amount consists mainly of land, real estate and bonds.

Thieves visited the chicken house of Mr. W. H. Leiberz, Sunday night and stole five of his finest chickens. The same gentleman was relieved of about twenty-five chickens in the same manner a short time ago.

Mr. Walter Davis, of this city, while standing on the corner of Market and All Saints' street, Friday night, in a crowd had the misfortune to lose his silver watch. Supposed to have been stolen by a pick pocket.

Mrs. M. M. Carthy and Mrs. Bettie M. Englebrecht have been appointed delegates of the Ladies' Missionary Society of the Lutheran church, this city, to attend the convention to be held in Emmitsburg, on October 4th.

Mr. John H. Ransburg, the carriage manufacturer on West Patrick street, this city, has failed in business. Mr. J. Hanshaw Markey has been appointed trustee. His liabilities are about \$14,000, assets between \$2,000 and \$3,000.

The September term of the Circuit Court for Frederick county will convene on Monday next. The most important case to be tried at this term of Court is that of Marshall F. Harding for the killing of Joshua Herbert, colored. Harding has been resting in jail ever since.

At a meeting of the Board of Aldermen of this city, on Friday evening \$12,000 worth of paid water bonds and \$35,005 worth of interest coupons on the bonded debt were destroyed. It would be very gratifying to tax-payers if a few more thousands would be destroyed in a similar manner.

It is rumored that the Carlin House and European House of this city, conducted by Mrs. A. C. Carlin, will soon change hands. It is said that Mr. Louis McMurray has purchased these houses, and Mr. Chas. Doll, the present manager for Mrs. Carlin will have sole charge in the future.

The Board of Managers of the Frederick County Agricultural Society, have ordered some little improvements to be made on the Fair grounds. The old dining-room is being torn down and the lumber will be used in enlarging the poultry department, which heretofore has been entirely too small. The grounds will have a general overhauling, and the fencing and sheds, &c., will be whitewashed. There is every indication for a most successful fair next month, and the society is offering more inducements than ever before to aid in this respect. The President of the Society has appointed the following aids: Messrs. J. H. Gambrill, Jr., John B. Barthlow, Jas. Smith, of T. Henry C. Thomas, Everett Harding, Jos. Roelkey Z. C. Magender and Wm. Smith.

The Maryland School for the Deaf and Dumb in this city, will open today (Wednesday) with the usual commencement exercises. A full attendance is expected, numbering about 100 scholars. Prof. Chas. Ely, is principal of this institution. The painting of the woodwork has been finished.

The Cumberland Base Ball Club which was to play here on Monday and Tuesday evenings, did not arrive here until 8:30 Monday evening, having been delayed by an accident on the B. & O. Railroad, near Martinsburg, W. Va. They played their first game at Association Park on Tuesday, it being one of the most interesting games played here this season. Score, 3 to 2 in favor of Frederick's. They will play another game here this (Wednesday) evening, and will leave for home to-morrow morning.

Mr. Alton B. Carthy, of this city, and connected with the Times, has just successfully completed the invention of a combined fountain and distributor. The mode which he has thoroughly tested in this city, gave general satisfaction, and fills a long felt want in proper distribution of ink on large or small jobs. Besides this Mr. Carthy has invented a division for the fountain, when used for orographic work. It is needless to explain its workings for one outside of an printing office will not understand its use. Mr. Carthy has applied for a patent. He left Tuesday evening for New York City with the model he had made at John Gomer's machine shops, this city, to exhibit it before Mr. Wesel, who is somewhat interested in the invention and a dealer in printer's supplies.

On Wednesday last week, Nicholas Burst and George Fagan, both of this city, two rivaling young bloods had quite a conflict over the merits of a certain young lady, also of this city, which would perhaps have ended seriously if not interfered with by other parties. The young lady who is quite prepossessing, entertains good feelings for both young men, but apparently cares more for Burst than the other, which has caused Fagan to be very bitter. It seems that on Wednesday the men met and over some remark Fagan made Burst showed fight, hitting his rival in the face, whereupon Fagan being angry engaged in the fight, and being much the heavier man soon had Burst down, whipping him in a frightful manner. They were soon parted, both having bruised and bleeding faces. It is thought that the matter is not yet settled and something more serious will occur.

NYES BLAW.

THE County statement of Washington county, is published in all the newspapers of that county, as usual. It is certainly refreshing to note the interest thus manifested by the Commissioners in the encouragement of their most efficient agents for promoting the public welfare; in the lessening of crime, and the consequent decrease of expense for its suppression. It cannot be supposed that Washington county officials are less regardless of the laws than are ours, and yet our Commissioners virtually make the matter of their printing a monopoly for the benefit of a couple of offices at Frederick. Economy is good and commendable, but that of the penny wise, and pound foolish, generally over-reaches itself. The Washington county officials are large hearted and appreciate the largest enlightenment of the entire people. We wish it understood in the above remarks, as noting a principle, and not conveying an impression of personal grievances, for such we have not. We advocate the greatest good to the greatest number.

Another drawing for jurors for the September term of court, which commences on Monday next, was made at the court house this morning, with the following result:

Frederick district—Wm. H. Kline, in the place of Wm. T. Delaplaine; John J. White, in place of Wilbur H. Duvall; Joel J. Marsh, in place of E. Lewis Cramer.

Emmitsburg district—Jas. A. Elder, in the place of Absalom Smith.

Urban district—Edward L. Leather, in the place of Luke T. Brien.

Hauvers district—Nathaniel F. Stottemeyer, in the place of Albert T. Hauver.

Mechanicstown district—Frank M. Stokes, in place of John Jones.

Linganore district—Peter Sloobkier, in the place of Chas. E. Carlisle; Wm. Ecker, in the place of David E. Roop.

THE Missionary Convention. The Fifth Annual Convention of the Woman's Home and Foreign Missionary Society of the Maryland Synod, will be held in the Lutheran church, in this place, October 4th and 5th, 1887. Rev. E. S. Johnston, pastor. There are 43 auxiliary Societies and Missionary Bands connected with this society, all of which are entitled to send delegates to the annual Convention. The delegates are each required to give a short report of what their Society has done during the year, to carry out the object of the Society. This is the dissemination of missionary news, the cultivation of a missionary spirit in its members, and the raising of funds to promote the work of the General Society, which consists of the support of the female missionaries and Zenana workers; the erection of a hospital in India; the support of missionaries and the building of churches in the home field. During the year 1886 the active membership was 1220, and the amount contributed was \$2,365.56. The Maryland Society is a part of the General Society, which consists of all the Synodical Societies in connection with the General Synod of the United States, and holds biennial conventions. Different clergymen and ladies will deliver addresses at the various sessions held on Tuesday afternoon and evening, and Wednesday morning, afternoon and evening, which will be open to all who may wish to attend.

From the Compiler.

Rev. Wm. P. Swartz, of this place, recently returned from Mission work in India, has received and accepted a call to the Fifth Presbyterian church of Trenton, New Jersey, and entered upon his duties.

Sergt. W. D. Holtzworth, the widely known battlefield guide, has been appointed by the War Department an assistant to the superintendent of the National Cemetery at Gettysburg, for a period of six months on probation, at \$40 per month, under the provisions of the Army Regulations on the subject.

Father Polhan has been transferred to Leonardtown, Md., and is succeeded at Conoway by Father Mulally, of Washington. Father Polhan enjoyed the high esteem of all creeds and classes, and the same measure of regard is no doubt in store for his successor.

The new Presbyterian chapel at Hunt-erstown was dedicated Sunday week, Rev. W. S. VanCleave conducting appropriate services before a large audience. The chapel is brick, 25 by 41 feet, one high story, built in handsome Gothic style, with stained glass windows.

As Mr. and Mrs. David Daugherty, of Highland township, were driving into the grounds at the Grangers' Picnic, on Wednesday, the horse in a carriage in front of them commenced backing and overturning their buggy threw the occupants under the vehicle. Mr. Daugherty escaped without any hurt, but Mrs. D. had her left collar bone broken. They came home on Thursday and Dr. A. P. Beaver, of Fairfield, gave the case surgical attention, and the lady is improving.

BLACK PILLS dispel melancholy.

MR. AARON BAKER, a most highly esteemed resident of this county, who has been confined to his bed for nearly one year, died at his residence near Wakersville, Tuesday last, aged 83 years and 9 days. His remains were interred at the Glade church, followed by a large number of relatives and friends, Rev. S. M. Hench preaching a sermon from Phil. 1: 21. Mr. Baker was for many years an active member of the Glade Reformed church, a good citizen and a kind neighbor, and we trust death has been gain to him.—Enterprise.

List of Patents.

The following patents were granted to citizens of Maryland, bearing date Sept. 6, '87 reported expressly for this paper by Louis Bagger & Co., Mechanical Experts and Solicitors of Patents, Washington, D. C. Advice Free.

Alcaeus Hooper, Woodberry, time-recorder.

C. O. Kelly and J. E. Lee, Baltimore, car-replacer.

Ate a Dynamite Cartridge.

Mr. George D. Ash, a tenant on the George Gambrill farm, a short distance from Hagerstown, on the Lettersburg pike, is engaged in quarrying stone on the farm, using dynamite for this purpose. A steer belonging to Mr. Ash strayed into the quarry, and, finding a dynamite cartridge, ate it. The dynamite proved unwholesome diet, exploding and bursting the animal, and resulting in its death. The carcass was hauled out for burial, and while awaiting this disposition, the notorious bell buzzard, that has been flying in this locality for some time past, was one of the visitors to the remains. The whole transaction may be regarded as singular. Hagerstown Globe.

The bell buzzard put in an appearance on the farm of Mr. Joshua S. Motter, near this place, last week.—Ed.

THE Missionary Convention. The Fifth Annual Convention of the Woman's Home and Foreign Missionary Society of the Maryland Synod, will be held in the Lutheran church, in this place, October 4th and 5th, 1887. Rev. E. S. Johnston, pastor. There are 43 auxiliary Societies and Missionary Bands connected with this society, all of which are entitled to send delegates to the annual Convention. The delegates are each required to give a short report of what their Society has done during the year, to carry out the object of the Society. This is the dissemination of missionary news, the cultivation of a missionary spirit in its members, and the raising of funds to promote the work of the General Society, which consists of the support of the female missionaries and Zenana workers; the erection of a hospital in India; the support of missionaries and the building of churches in the home field. During the year 1886 the active membership was 1220, and the amount contributed was \$2,365.56. The Maryland Society is a part of the General Society, which consists of all the Synodical Societies in connection with the General Synod of the United States, and holds biennial conventions. Different clergymen and ladies will deliver addresses at the various sessions held on Tuesday afternoon and evening, and Wednesday morning, afternoon and evening, which will be open to all who may wish to attend.
