THE SHERIFF'S SALARY, AND THE SCHOOLS.

Two projects have recently been somewhat discussed, in regard to our County affairs. One has been the question of the Sheriff's salary; the other that of extending the term of the public schools to nine months in each year.

When we consider the size and the vast wealth of Frederick county; its honorable and influential position among the other counties of the State, its acknowledged social culture, and the laudable ambition to maintain the position of leader in the practical movements of the day, we are actually confused by the contradiction of ideas that presents itself.

That the people should desire the lowest practical rates of taxation, is as natural as that life evermore tends to unfold itself. But then regarding the honorable and enlightened character of our people, we cannot conceive that they would for a moment give place to any ideas involving parsimony or meanness in the conduct of their affairs. The existing tendency, whatever it may be, has its origin, beyond doubt, in the rivalry of political parties, striving for ascendancy, and basing their action on the well known reluctance of the voters, to encourage or to justify movements that are not well grounded in the public needs, and regulated by the prudential considerations that should govern in the affairs of private life.

There are however certain ideas inherent in sovereignty, that cannot be laid aside. No people would be content to have their public offices appear in the simple forms of private residences, but they demand imposing structures in which grand architectural designs are wrought out, to give external representation of the inner life that gives them character and influence, unfolding the idea of the power that resides within. Hence appear our national Capitol, our State Houses, Court Houses, City Halls, &c., down to the unpretentious offices of our villages. Our barns have a significance unmistakable to the obtusest intellect, and the same sense of innate fitness governs us in every department of national and state affairs.

When we consider the momentous trusts involved in the Sheriff's office, the intelligence and dignity of manners he should possess, the decision of purpose; the high sense of justice and impartiality that should appear, it is evident that the officer cannot be picked up in a haphazard way, but must arise from conditions that have favored the development of the traits, and peculiar bearings requisite in the case.

To obtain the right man implies a compensation suited to the value of the services to be rendered, and this should be accorded without theiggardly consideration of the lowest bidder, or the effort to lower the compensation and thus invite mediocre ability. The Sheriff's pay should be ample and in accordance with the dignity and importance of the office, that these may be maintained to the honor and the best interests of the people.

The Public Schools are either a momentous power for good or for evil in the public interests. If the first they should be maintained in the highest efficiency, with reference to their objective ends; if the latter be the case, the sooner they are abolished the better. It is neither wise nor economical to have them drag out a finished existence, on a tantalizing basis of the possibilities involved and then stop there.

The offset of a few thousand dollars withheld from the schools is but idleness, vagrancy, and the possible development of crime. The complement of instruction involves the advancement of knowledge, discipline of character, and the inculcation of morality, in all which the State's highest progress is advanced. As insufficient food to the workman, so is the want of intellectual culture to a people.

We think the support of the schools should be based, as before said, on the idea of their highest efficiency, and this should be provided, independent of all considerations in the contrary direction.

The claims of party are not to be set aside in their legitimate bearings, there must be policies of government, and the parties must orig-

inate and advance them, but on questions of universal interest, apart from particular dispute, the public good should have precedence, and in the long run, the advantage in common must outweigh the selfish and short sighted views of party advocates.

If the schools are to reach their proper ends they should be divorced financially, morally and completely from the influence of party control, and stand forth as an independent department of public affairs.

THE CHIEF JUSTICE DEAD.

Chief Justice Morrison R. Waite died at his home in Washington City, suddenly and unexpectedly at 6:10 o'clock, a. m., on Friday the 23d inst. He passed away after but a few days sickness. A severe cold was followed by pneumonia, and when he was thought to be convalescent, nervous failure of the heart's action brought on death in a few moments, as his son and daughter were bending over his bed side. He was appointed to his office by General Grant, January 21st, 1874, to succeed Chief Justice Chase. He was born in Connecticut, Nov. 27th, 1816.

The funeral services were held in the House of Representatives on Wednesday and were attended by the members of the Supreme Court. The President and his Cabinet, the Congressmen and the Diplomatic Corps. The services were conducted by Bishop Pare of the P. E. church, and were intensely solemn, the remains were conveyed to the cars to be taken to Toledo, Ohio, accompanied by the family, the committees of Congress and of the Supreme Court, where the interment will take place.

EASTER.

The church year reaches its culmination in the glorious festival of Easter. As Christmas brings us the glad tidings of the birth of the world's Redeemer, so Easter fulfills the promises of that birth, and proclaims the finished work of the Saviour, in his triumph over death and the grave and the power of darkness, in His glorious Resurrection from the grave, and thereby assures His followers that to them also shall be secured the resurrection to Life Immortal.

In the celebration of the grandest event in the history of humanity, heaven and earth are brought together in the most intimate relations and the thanksgivings and praises are joined in the universal song of victory. "The Lord is risen indeed."

HON. WILLIAM DORSHEIMER DEAD.

Ex-Lieutenant Governor William Dorsheimer, Editor and Proprietor of the New York Star died Wednesday night at Savannah, Ga. He left New York March 15th, for Florida, he took cold on the way and stopped at Savannah, the cold developed into pneumonia. He was as a lawyer, and as a speaker forcible and eloquent, witty in conversation, and as a writer was thoughtful and graceful. Under his management the Star became a very influential journal. In 1874 he was elected Lieutenant Governor of New York on the ticket with Governor Tilden. He was just aged 56 years. As Lawyer, Congressman and Editor he discharged his duties with great ability.

A KANSAS TOWN DESTROYED.

On Saturday evening last the town of Minnescah, Kingman County, Kansas, was almost utterly destroyed by a tornado. It had rained all day and as evening came on a storm from the South-west, struck the town and destroyed everything in its path, leaving but three houses standing in the entire place. Two churches, five stores and fourteen dwellings were torn to pieces, and the flying debris killed three persons and maimed seventeen others.

THE REDISTRICTING BILL.

The bill before the Legislature to redistrict the Congressional Districts of Maryland received its quicks on Wednesday. The House desired the bill to be returned from the Senate and shortly after it was done, there it was referred to the Committee on Elections where it will stay.

THE B. & O. RAILROAD.

The Drexel and Morgan Syndicate having purchased the remaining \$2,500,000 of the consolidated mortgage five per cent. bonds of the B. & O. railroad, makes that Company "not only sound financially, but in a thoroughly independent condition."

SUMMARY OF NEWS.

JOSEPH W. DREXEL, the well known banker died at his home in New York on Sunday aged 58 years.

MR. ISAAC HINCKLEY President of the Philadelphia, Wilmington & Baltimore rail road died at Philadelphia, on Wednesday, in the 73d year of his age.

THE worst storm the South has had in fifty years formed near Calhoun, Ga., and drifted northwest up the Tennessee Valley last week. Many barns and farm houses were demolished and farmers lost considerably in the destruction of buildings and killing of stock.

The banks of the Elbe are flooded for a distance of many miles. Hundreds of villages are submerged. An enormous amount of damage has been done, and many lives have been lost.

The river Warth, a tributary of the Vistula, has burst its dykes on the Russian frontier, causing enormous damage.

THE efficacy of oil on waves at sea was pretty completely demonstrated again by the master of the Boston yacht Iroquois, who recently rode out a frightful gale off Cape Henlopen with ease and safety by allowing oil to drip out through a trap underneath the water line. The cold was too great to permit of the use of the oil in the ordinary way, on top of the water.—N. Y. Mail and Express.

By the burning of a theatre at Oporto, Portugal, last week, upwards of one hundred lives were lost. The fire started in the scenery and the wildest panic ensued. In the cheaper parts of the house the attendance was principally of the rougher class, including sailors and dock porters, who pitilessly crushed down the weaker people in the rush for the door, using their fists, shoes and knives a mercilessly slaying their way to the front. Girls, children and women were literally butchered.

Why You Feel

So weak and exhausted is because your blood is impure. As well expect the sanitary condition of a city to be perfect with polluted water and defective sewerage, as to expect such a complicated piece of mechanism as the human frame to be in good order with impure blood circulating even to its minutest veins. Do you know that every drop of your two or three gallons of blood passes through the heart and lungs in about two and a half minutes, and that, on its way, it makes bones and muscle, brain and nerve, and all other solids and liquids of the body? The blood is the great nourisher, or, as the Bible terms it,

"The Life of the Body."

Is it any wonder, then, that if the blood be not pure and perfect in its constituents, you suffer so many indescribable symptoms?

Ayer's Sarsaparilla stands "head and shoulders" above every other Alternative and Blood Medicine. As proof, read these reliable testimonials:

G. C. Brock, of Lowell, Mass., says: "For the past years I have sold Ayer's Sarsaparilla. In my opinion, the best remedial agencies for the cure of all the diseases arising from impurities of the blood are contained in this medicine."

Engene I. Hill, M. D., 381 Fifth Ave., New York, says: "As a blood-purifier and general builder-up of the system, I have never found anything to equal Ayer's Sarsaparilla. It gives perfect satisfaction."

Ayer's Sarsaparilla proves equally efficacious in all forms of Scrofula, Boils, Carbuncles, Eczema, Humors, Lumbago, Catarrh, &c.; and is, therefore, the very best.

Spring and Family Medicine in use. "It beats all," says Mr. Cutler, of Cutler Brothers & Co., Boston, "how Ayer's Sarsaparilla does sell."

Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1; six bottles, \$5. Worth \$5 a bottle.

Friday, April 13th, consider appeals and make transfers for Lewisistown and Tuscarora districts.

THIRD WEEK.

This week will be set apart specially for hearing applications for School Houses and Bridges.

The particular attention of the public is called to this notice as it will be the only opportunity for abatement on the valuation of Real Estate, to apply to taxes for 1888. Transfers may be made before the Clerk to the Board either before or after the session, not later than April 30th.

All persons who have built during the past years will please report to the Commissioners during this session, otherwise they may be excessively valued.

We are always pleased to receive communications from our friends, containing an account of the news of their localities. Incidents of interest to the public, given in a few words setting forth the facts, are always acceptable. We will give them the shape proper for publication, when the name of the writer accompanies them, this we must have.

SALES.

On March 31, Wm. P. Eyler will sell a lot of personal property at his residence in Eyler's Valley.

On April 5, Prof. C. H. Jourdan will sell at his residence near Mt. St. Mary's College, valuable live stock, farming implements, household goods, &c.

Prof. C. H. Jourdan offers his valuable little farm, situated near Mt. St. Mary's College, at private sale. See ad.

LOCAL ITEMS.

The Public School will close for the season on April 13th.

Gov. BEAVER has designated Monday April 27 as Arbor day.

Small onions are scarce it seems, but they may come along later.

BARNUM'S "Greatest Show on Earth" will exhibit at Frederick May 4th.

MR. BASIL C. GILSON caught a large white owl in a steel trap last week.

Post MASTER Martin J. Eichelberger of Motter's has resigned in favor of Jos. C. Rosensteel.

Hot beds require special attention now, when the changes of the air are sudden and extreme.

MR. JACOB SMITH has had his new awning covered with tin. Mr. Geo. C. Gottwald did the work.

The window plants should be in their neatest trim and cleanest aspects on tomorrow, and all to the front.

MR. LEWIS DELAMATER, republican, was elected Mayor of Hagerstown on Monday by a majority of 216 votes.

It has been proposed in the Legislature to reduce the State rate of taxation from 18 1/2 to 17 1/2 cents, of this 10 cents goes to the Schools and 7 1/2 to the State.

The glorious sunshine appeared on Thursday afternoon, and all nature seemed to rejoice in its genial presence. It came as the rain comes to a weary land.

Our thanks are due to our esteemed friend Mr. J. W. Troxell, Agent, for a richly illustrated catalogue of the McCormick Machines, and accompanying papers.

A solitary fly appeared in this office a few days ago and interviewed all hands, but not finding any bald-head within, disappeared as mysteriously as it came.

TWELVE shares of the stock of the Gettysburg National Bank were sold last week for a higher price than ever before obtained. The price paid was \$115, par value \$50.

SUBSCRIBERS about to change their residence, should notify us of the fact that they may duly receive their papers. Always give the present address along with the one for the future.

The public sales are said to be well attended, the bidding is spirited and prices well maintained. Just as we said it would be, where the Chronicle's advertisements and sale bills invited to the warfare.

WANTED.—Men to canvass this County for the sale of a popular household article, steady work and good pay. Address 85 E. Second St., Frederick, Md. mar. 24-28.

The moon was full on Tuesday, but the misty veil has dimmed her light to a mere transience but little removed from deep darkness, and the lamplighter has smoked his pipe in composure, no matter who groped in the gloom.

AYER'S Cathartic Pills are known to be the safest, surest, and best purgative medicine ever offered to the public. They are mild yet certain in their effects, give tone and strength to the stomach, and keep the system in a perfectly healthy condition.

The house and lot belonging to the late John Burkett (colored), situated on the Broad Alley in this place, was sold at Sheriff's sale on Wednesday for \$200. Mr. Charles F. Rowe was the purchaser.

Bound to Come.

The project for erecting a permanent Exposition Building in Baltimore is moving rapidly forward under the able and judicious suggestion and advocacy of the American.

BANANA and orange skins, and an occasional egg dropped on the footwalks, though contrary to good taste, are things the physician can always find time to smile over, but none for their removal. He just shies like, at them, lest he might encourage the removal.

Electric Light.

The streets of Frederick were successfully illuminated by electricity on Monday evening. It is thought they will soon use that sort of light instead of gas. It remains to be seen how the Court House railings may affect the subtle fluid of the light.

We are glad to report that the Choral Union which was organized by Prof. S. G. Smith of Kittanning, Pa., is to be kept up through the Summer at least, and has a good roll of members. Rev. W. Simonton, D. D., has been elected president and Dr. J. K. Wrigley, director.

Death of Charles Pole.

Died, Sunday the 25th inst., at Shullsburg, Lafayette County, Wisconsin, Charles Pole, aged about 75 years, a native of this county, brother of the late Geo. W. Pole, of Washington County, and brother-in-law of Mr. Thomas Gorsuch, of this city; a widow and three daughters survive him. His first wife was Miss Boyd, of Lexington, Virginia, his second a Western lady. He went to Wisconsin Territory, in 1836 or 37 and engaged extensively in developing the mineral lands of that famous section of the country, with varying success, and after a season spent in California, in 1850 he returned to Wisconsin and became a farmer and stock breeder until his death. He represented his county in the Legislature a number of times before the war as a Whig, and since the war as a Democrat—always being held in high esteem by his neighbors and other people, as an honest, upright and conscientious citizen.—*Examiner.*

The April issue of the *Eclectic Magazine*, we need hardly say appeals strongly to the tastes of thinking and cultivated readers, in the variety and interest of its contents. Prof. Huxley's opening paper on "The Struggle for Existence" is a brilliant application of the evolutionary theory. "Islam and Christianity in India," by one of the greatest minds of the time, reviews with extraordinary keenness the conditions which have made Mohammedanism a potent rival to Oriental missionary work. H. D. Traill contributes a suggestive article in "The Evolution of Humor." G. Monod writes about "Contemporary Life and Thought in France." An article, which will be read with no little interest, is entitled "The Ascent of Mind," by Herbert Junius Harlowe, M. D. A clever writer discusses "The Higher Education of Women." Frances Power Cobbe discusses "The Education of the Emotions." An interesting paper on a subject of great international interest, by C. R. Lowell, is entitled "English and American Federalism." In the "Reminiscences of Cardinal Richelieu," we have a very readable contribution to French history. The concluding paper on Cesar Borgia is published, and other contributions of interest are "Robespierre's Love," "Chevalier Bayard," "A Night in the Jungle," and "Humors of Metaphysics."

Who is Your Best Friend?

Your stomach of course. Why? Because if it is out of order you are one of the most miserable creatures living. Give it a fair, honorable chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does not digest right—if you are troubled with Heartburn, Dizziness of the head, coming up of the food after eating, Bilelessness, indigestion, or any other trouble of the stomach, you had best use Green's August Flower, as no person can go to it without immediate relief.

These indications are that spring weather will come late this year. The delay in the appearance of the blossoms is favorable to good crops. A warm spell now, followed by frosts, would be very disastrous to our hopes in that direction. The draw back of last year was the deluging showers in June, accompanied by hail, that washed off the blossoms in one night.

Strains and external injuries are the chief causes of weak ankles and joints. By the free use of Salivation Oil a cure will be effected in a short time.

"And there was a mask ball that night," yes, and they kept it up pretty lively until morning. You see they weren't afraid of the early frost—knowing that the old druggists kept supplied with Dr. Bull's Cough Syrup, the old reliable standby.

The Fitting Time.

The wagons with their elevated loads of bureaus and chairs strapped and bound together in every conceivable position of suspension; the rakes and hoes and pots and kettles and stoves, and high over all the inevitable cradle, that pass through our village, show unmistakably that the social cyclone is on its annual gyration, with the patient cool bringing up the rear.

THE Compiler says:—Rev. Dr. J. O. Miller, of York, Rev. Dr. E. R. Eshbach, of Frederick, and Rev. J. C. Bowman, of Hanover, will sail early in May for London, to attend the fourth general council of the Alliance of the Reformed churches holding the Presbyterian system of government. They contemplate a tour of Europe, and some of the delegates will take in Egypt and the Holy Land.

AYER'S Sarsaparilla was the first successful blood medicine ever offered to the public. This preparation is still held in the highest public estimation both at home and abroad. Its miraculous cures and immense sales show this. Ask your druggist for it.

This local column is the place to make known in short terms, what you have to sell, what you wish to buy; what you desire to supply. Articles that have been lost or found. In a word it will serve as a memorandum of all business or domestic matters, by which you reach a ready acquaintance with customers. All who try it are perfectly satisfied.

Largest Classes on Record.

Prof. Loisset is achieving not only a great success with the pupils he teaches by correspondence from his offices, No. 237 Fifty Avenue, but also in classes which he personally instructs. His latest success in the lecturing line is at Baltimore, where he has a class of 1087 pupils from the professors and students of Johns Hopkins University and the elite of that city; also 1005 at Detroit, 1100 at Washington and 1500 at Philadelphia.

New Easter Anthem.

The Choir of the Church of the Incarnation will at their Easter morning service, sing a new Easter Anthem entitled "The Easter Bells," the music of which has been specially composed for this hymn, by Dr. J. K. Wrigley, the efficient organist of the Church. This is one of the best among the Easter hymns, and competent judges who have heard Dr. Wrigley's composition pronounce it to be a most excellent interpretation of the hymn. The Choir on this occasion will be reinforced by a number of male voices.

Mission at St. Joseph's Church. Rev. F. H. O'Donohue, C. M., and Rev. D. Downing, C. M., both of the Seminary of our Lady of Angels, Niagara Falls, will open a Mission on Sunday next, in St. Joseph's Church, of this place, and will continue during the week. The Mission will open on Sunday, at 10 A. M., with a solemn High Mass and a sermon by Father O'Donohue, in which he will lay down the programme of the exercises to be carried out during the Mission, and will explain their nature and import. The first Mass on Sunday will be at 6:30 A. M.—last Mass at 10 A. M.

The publishers of *Scribner's Magazine* announce in the April number, just received, that the series of articles on Railways, mentioned in the prospectus for the year 1888, will begin in the June number. These articles are expected to give the greatest amount of information on this widely important subject, in the most popular and attractive manner. The frontispiece of this number represents "A Street in Gibraltar," of which historic stronghold Henry M. Field furnishes an admirable and entertaining description, accompanied with a number of illustrations by well known artists; the article on "The Campaign of Waterloo," by John C. Ropes is concluded; the first part of an article by James Baldwin entitled "The Centre of the Republic," "The Greek Vase," by William P. Longfellow; "The Town of the Holy Children," a short story by Thomas A. Janvier; "A Happy Accident," by Sophie Radford de Meissner; "A. W. Greeley's question 'Where Shall we Spend our Summer?'" continuation of "First Harvests," by F. J. Timson; "Pulsis et Umbra," by Robert Louis Stevenson, together with several poems, make up the contents of this April number.

A Reprieve for the Condemned. Wretched men and women long condemned to suffer the tortures of dyspepsia, are filled with new hope after a few doses of Hostetter's Stomach Bitters. This budding hope blossoms into the fruition of certainty, if the Bitters is persisted in. It brings a reprieve to all dyspeptics who seek its aid. Flatulence, heartburn, sinking at the pit of the stomach between meals, the nervous tremors and insomnia of which chronic indigestion is the parent, disappear with their hateful progenitor. Most beneficent of stomachics! who can wonder that in so many cases it is a weak voluntarily to its aid? It requires a graphic pen to describe the torments of dyspepsia, but to many of the testimonials received by the proprietors of the Bitters, these are portrayed with vivid truthfulness. Consumption, biliousness, morbid debility, malarial fevers and rheumatism are relieved by it.

Victor Horse and Cattle Powder.

Pays every Farmer 500 per cent for feeding them. Stock fatten much faster, increases the flow of milk. It cures Hog Cholera, Chicken Cholera and Gapes. Fowls will lay one-third more eggs if fed regularly. feb 18-6m.

The storm of last Sunday was peculiar. The morning was cool, with a degree of humidity that made out door progression intensely disagreeable. The afternoon was varied with a light snowstorm that continued into the night, and Monday came in with rain that continued at intervals until after noon, and then the moisture congealed and gave that beautiful aspect of crystalline tracery that so often decorates the scenery of mid-winter. The mercury rose on Tuesday, but the clouds and the dampness still prevailed, and an hour or two after dark it was precipitated in the form of a heavy shower. Wednesday was but the repetition of the day before, but 53° was the temperature at noon, and leaving us to our best resources, the office stove took to balking and wouldn't draw a puff, pokers rattling, ashes flying and the "devil" rampant all to no purpose. Thursday was as murky and disagreeable as the days preceding, but the heightened temperature proclaims the winter ended.

MT. ST. MARY'S NEWS.

From our Special Correspondent. Mount St. Mary's, March 28.—Miss Ida Eckenrode of Emmitsburg, made a visit to friends at this place.

Mr. Robert Elder has returned from Baltimore county, Md.

Miss Annie Elder made a visit to Emmitsburg last week.

Miss Little Hoke of Emmitsburg, made a visit to Miss A. Elder, last week. Mr. Robert Shriver has returned home from Easton, Md.

Edw. P. Hemler made a trip to Mechanicstown.

Mr. W. S. Topper has removed to Mechanicstown.

Mr. Francis Caughy of Baltimore, made a visit to Mr. Charles A. Manning. Mr. Jos. C. Rosensteel made a trip to Emmitsburg.

Miss Carrie Eckenrode of Littlestown is stopping at Mr. Vincent Eckenrode's. Messrs. John A. Peddicord, James Wagner, Augustus Wagner and Charles E. Sanford, made a trip to Mechanicstown. Mr. Augustus Hahn of Mechanicstown met with a painful accident at Mr. Felix Walter's, near this place, on Wednesday, March 21. He had been in at Mr. Walter's and coming out of the lane to the public road, his wagon struck a defective culvert, and the sudden jar threw him out of the wagon to the ground, severely cutting him about the head and also his knuckles. His wounds were dressed and he was sent to his home.

How To Dye Easter Eggs.

As Easter is near at hand, the following suggestions in regard to dyeing eggs are timely:

The methods of coloring Easter eggs are various. To dye eggs black put logwood chips into the water in which they are to be boiled. These chips may be bought at a druggist's for a trifle. It is easy to tell when the water is black enough by taking up a little with a spoon. Eggs can be dyed with these chips from a lovely pure wine color to a jet black. To obtain brown eggs put strong coffee grounds of settlements into the water. For yellow use plenty of onion peelings. Put the peelings into the water while cold and boil the eggs among them.

In dyeing eggs great care should be taken to use only one spoon and that an old one. The oldest saucepan in the house, too, will answer the purpose. All dyes are difficult to remove from these things. The following is an excellent way of ornamenting eggs with gold and silver: Boil them for an hour in plain water only. When quite cold rub them all over with painters' size. Have ready in a saucer some gold or silver bronze powder such as book-binders use. Roll the eggs one at a time in this, rubbing gently off with a soft cloth all the loose dust. Do this until the eggs can be dyed of any color, and a name, date or device put on in the same manner by size and dust. Cochineal, a perfectly harmless dye, will make the eggs of any shade from a deep crimson to a lovely rose pink, according to the quantity used. A pretty effect is sometimes given to the eggs by dabbing them here and there with grease before putting them in boiling water. Wherever the grease is the dye will not take, therefore the eggs come out spotted. Sometimes the name of the person who is to receive the egg is written on with grease in the same manner.

Interesting to Ladies.

Our lady readers can hardly fail to have their attention called this week to the latest combination of improvements in that most useful of all domestic implements, the "sewing machine."

As we understand it, a machine for family use should meet first of all these requirements: It should be simple in its mechanism; it should run easily; it should be a wide range of work; it should be as nearly noiseless as possible; it should be light, handsome, durable, and as cheap as is consistent with excellence throughout.

These conditions the "Light-Running New Home" certainly meets. It has also several very important and useful attachments and "notions of its own, which go far to make good its claims to popular favor.

The "New Home" specially recommends itself to purchasers on account of its superior mechanical construction, ease of management and reasonable price. Over half a million have been sold in the last three years, all of which are giving universal satisfaction. This unrivaled machine is manufactured by the NEW HOME SEWING MACHINE CO., Orange, Mass., and 30 Union Square New York.

The Legislature will close its sessions on Monday night.

FREDERICK is to have a big firemen's parade on Easter Monday.

MR. S. N. McNAIR has sold out his stock of stationery, fancy goods and tobacco, to Jos. K. Hays, who removed the same to his store.

REV. DR. ESHBACH of Frederick will deliver a free lecture in Trinity Reformed Church, Mechanicstown, on Easter Monday evening. Subject "Across the Continent."

THE ladies of the Missionary Society of the Reformed Church, will sell Ice Cream, etc., at the residence of Dr. J. K. Wrigley on Saturday afternoon and evening, April 7th.

WHILE blasting rocks near the old cave, at Caveyton, Washington county, Mr. David Penner discovered a new cave which promises to excel anything in that part of the county. Three rooms have already been explored.

WILLIAM A. GRIMES, huckster of Westminster, was killed almost instantly last Friday morning near that place. He was returning from Baltimore, and when near Westminster one of his horses shied, and running to the side of the road pulled the wagon down an embankment. Mr. Grimes was thrown to the ground with great violence, receiving a wound just behind the right ear, which resulted fatally in an hour after the accident. He was married and leaves a wife and several children.

Rabies Raging in West Virginia.

The farmers of Jackson county, W. Va., have been troubled for more than two weeks with hydrophobia among the cattle. A short time ago a dog belonging to John Gault went mad, and was locked up. He broke out and killed several cattle belonging to Gault, then bit some swine belonging to a man named Wright. From there he went among the sheep of a man named Burk, killing a number and biting others. A school in the neighborhood was just dismissed for the day when the dog attacked the school children, but was beaten off before anyone was seriously hurt. Within the past few days more than 200 cattle and sheep have died from the dog's attacks. Several other dogs have gone mad, and the farmers throughout the entire neighborhood are being greatly troubled.—*American.*

Sanitary Literature.

We have received a set of the Lomb Prize Essays—entitled:

No. 1. Healthy Homes and Foods for the Working Classes by Victor C. Vaughan, Ph. D., University of Michigan.—Price \$2.00.
No. 2. The Sanitary Conditions and Necessities of School Houses and School Life, by D. F. Lincoln, M. D., Boston, Mass.—Price \$2.00.
No. 3. Disinfection and Individual Prophylaxis Against Infectious Diseases by George M. Sternberg, M. D., Major and Surgeon U. S. Army.—Price \$5.00.
No. 4. The Preventable Causes of Disease, Injury, and Death in American Manufactories and Workshops, and the Best Means and Appliances for Preventing and Avoiding Them, by George H. Ireland, Springfield, Mass.—Price \$2.00.
Mr. Henry Lomb, a philanthropist of Rochester, N. Y., offered prizes through the American Public Health Association Concord, Mass., on the above subjects, and at its last meeting the prizes were awarded as above exhibited.

The Essays are furnished at prices that barely cover their cost. No. 1, being 10 cents. Nos. 2, 3, 4, 5 cents each. The entire four in pamphlet for 25 cents or in cloth binding at 50 cents, to 75 cents, according to style and quality of paper. They are gotten up in such a lucid style of expression, as to come within the comprehension of all persons, and are intensely interesting throughout, and should be in the hands of physicians, school officers, manufacturers and families everywhere, and may be had of Dr. Irving A. Watson, Secretary, Concord, N. H.

Nothing that has ever come under our inspection, so forcibly illustrates the far reaching and intensely earnest character of the philanthropic endeavors of our age.

AN OPPORTUNITY FOR THE PEOPLE OF EMMITSBURG.

In Baltimore one of the most rapidly growing enterprises of the last few years, and one of the most appreciated as well as being the Instalment Business. Its great advantage and benefits especially to the medium and poorer classes, cannot be overestimated. Formerly people in ordinary circumstances were compelled to do without a great many necessary comforts of life, as their houses were scantily furnished, and only because they could not at any time raise sufficient cash money to properly furnish them. What little furniture they had, was of the poorest and cheapest class and never made a respectable appearance, or conveyed satisfaction. Now on the Instalment Plan any honest person, no matter how poor or how rich, can get anything in the way of Furniture, Carpets, Stoves, Crockery, Refrigerators, Baby Carriages, Parlor Organs, etc., in fact any or everything necessary to furnish the home complete from cellar to attic—they can get all these by simply paying a small amount cash down and the balance on small monthly payments, which are made to suit their circumstances and are always made so low that the money will hardly be missed. This plan has become so popular in Baltimore that over two-thirds of all the people now purchase their household goods that way—in fact all excepting the extreme wealthy classes. Now the People of Emmitsburg never had this opportunity offered them, so the People's Instalment Company, 119 and 120 N. Howard Street, between Fayette and Lexington Streets, Baltimore, the largest and best conducted and most reliable Instalment house in Baltimore, have decided to allow any resident of Emmitsburg or immediate vicinity, the same advantage as the people of Baltimore now enjoy—that is, to sell them anything which they may desire to have on the Instalment Plan at lowest cash prices and make terms of payments low enough to suit anyone's convenience. This house not only sells everything in the way of Furniture, Carpets, Stoves, Refrigerators, Baby Carriages, Crockery, Cutlery, House Furnishing Goods, Parlor Organs, etc., but also carries a complete stock of Silks, Velvets, Furriers and Domestic Dress Goods, Ladies' Cloaks and Wraps, Millinery, Hats, Trunks, Bags and Children's Clothing. These Ladies' Waists, Jewels, etc., are all made by general outfitters and are the only house in Baltimore where wearing apparel as well as furniture can be bought on the Instalment Plan at Cash Prices and very easy terms of payment. This is a plan always glad to have the People of Emmitsburg call on them whether they intend purchasing or not. It will be a pleasure to show through their immense Warehouse and get full particulars regarding Terms, etc. Any information desired by mail will be promptly furnished. mar. 17-18.

Rev. E. Welty, M. D., of Baltimore will preach at Apples Church, preparatory sermon Saturday afternoon next at 2 o'clock, communion sermon Easter morning at 10 o'clock. He will also preach in Trinity Church after Sunday school Easter Sunday.—*Clarion.*

The large barn of Mrs. Mary Fahrney, near Chewsville, Washington county, was burned to the ground Saturday night last. Nothing was saved excepting the stock. The fire is supposed to be of incendiary origin. The farm is tenanted by Mr. Benjamin Knodle. Loss about \$2,000, partially insured.

MR. GEORGE FRICK, the well known President of The Frick Manufacturing Company of Waynesboro, has retired from active business, by reason of growing age. He retires full of honor and with the respect and esteem of the entire community which so largely has been built up by his skill and good management in the industries he conducted.

West in Eyes Turned Eastward.

M. N. Richards, land and emigration agent of the B. & O. R. R. company, Thursday received a large number of letters from various parts of the North-west and West asking for information in regard to lands and facilities for reaching markets, etc., in Maryland, Virginia and West Virginia. One of the letters was from a gentleman who was recently visited by the Dakota blizzard. The writer says: "I would like to live here, but find it impossible and am contemplating removing to Maryland or the Valley of Virginia." Mr. Richards a few weeks ago received a communication from a farmer living in Western Iowa.

The reply to the latter was so satisfactory that the Iowa personally visited the Valley of Virginia. He not only bought a farm there, but has returned to Iowa to organize a colony of fifty families, who are also expected to remove to the Valley of Virginia in the early spring.

The B. & O. Company is arranging for a series of cheap excursions from various western points to Maryland, Virginia and West Virginia and the effort can hardly fail to be beneficial to all of the states named.

Can I Navigate on the road. Three boats were loaded at Cumberland on Monday with George's Creek Company's coal for Georgetown and one on the Consolidation wharf for Williamsport. Way-bills were issued and these boats cleared on Tuesday.—*Harold and Torch Light.*
