GOV. JACKSON ILL.

Governor Jackson was taken seriously ill at the Girard House in Philadelphia on Friday morning. He was conveyed to his home on a special car Saturday. He is suffering from erysipelas, and at last accounts is reported to be improving.

PRESIDENT HARRISON has issued a proclamation fixing nine o'clock A. M. as the hour for prayer and thanksgiving on the centennial anniversary of Washington's inauguration.

WASHINGTON GOSSIP.

Special Correspondence.

While there is not a unanimity of expression among the great dailies of the country, still there is a very general outspoken condemnation of the Senate in refusing the confirmation of Murat Halstead. A majority of the press throughout the country incline to the opinion that this action of certain Senators was intended as a direct thrust at freedom of speech. It is very true that many individuals in high places feel exceedingly tender when the methods which have been resorted to in compassing their elections are freely discussed by the press. But what must we do—sit quietly by and condone all sorts of villainous practices in our elections? A poor and righteous patriot stands but little show when the millionaire is against him with his "barrel," and seeks election.

Your correspondent, in response to an invitation extended to him by a party of naval officers, paid a visit a few days ago to the Washington Navy Yard. Since the first disturbance at Samoa, and the possibility of trouble with Germany, orders have been given to push work as rapidly as possible, and in compliance with this demand fully six hundred workmen have been busily employed. The greatest activity was everywhere seen. In the ordnance shop it looked as if war was indeed upon us. Scores of mechanics were engaged on guns, gun carriages, steel shields—all being made for the new Navy—which, thanks to the late Secretary Whitney, has become a reality, and not a myth. Although it is not generally known, the United States Navy soon have a Navy equal in quality, if not in size, to any foreign power. When Mr. Whitney assumed the position of Secretary, he did so with the determination of improving the condition of the service. How well he succeeded may be learned from a glance at the work now in progress upon the new war ships. The following ships are now either completed or in course of construction, viz: The Newark, Charlestown, Baltimore, Philadelphia, Chicago, Atlanta, San Francisco, Yorktown, Petrel, Concord, Bennington, Vesuvius, Maine, Texas, Puritan, Terror, Miantonomah, Amphitrite, Minadnock, two torpedo boats, and one formidable gunboat for harbor defense. Besides these twenty-two vessels, appropriations for twelve more were made during the last Congress. When completed this will give the United States thirty-four vessels of war of the latest design. Most of the new vessels will be built by ship builders located along the Delaware river, who, in anticipation of the contracts, have lately increased their forces to nearly double the number of men formerly employed. There will be brisk competition among these companies, and the best results may be looked for. As the present Secretary, General Tracy, has given every indication that he will continue the good work of his Democratic predecessor, it may be predicted that the United States Navy will soon rank in position with that of European powers. ALC.

It is said that Postmaster General Wanamaker has his life insured for \$1,750,000, the annual premiums upon which aggregate \$60,000. No other single individual in the United States carries so much insurance.

A "wild cat" freight train was crashing into the rear end of a passenger train on the Chicago, Santa Fe & California railroad early Wednesday morning, the engine telescoping the rear passenger car. Four persons were killed and ten others seriously injured.

THE Eiffel tower, completed recently at Paris, is the highest structure ever reared by human hands, being 1,178 feet high, or over twice as high as our great monument at Washington. The electric light at its summit will be visible for forty miles, and it will be strong enough to enable a person to read a newspaper at the distance of seven miles.

THERE is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years Doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucus surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

THE extensive axe, shovel and saw factories of Hubbard & Co., Pittsburgh, Pa., were burned Sunday. Loss fully \$500,000.

ON Monday Harry D. Darby a registry clerk in the Washington postoffice, was arrested on the charge of robbing the mails.

THE 26th day of April has been fixed in a proclamation issued by Governor Beaver, of Pennsylvania, to be observed as Arbor day.

PECULIAR in medicinal merit and wonderful cures—Hood's Sarsaparilla. Now is the time to take it, for now it will do the most good.

THE town board of Ohiowa, Neb., with an eye to the future, has passed an ordinance compelling all lot owners to plant at least three trees in front of each lot.

AN American schooner, which arrived at New York on Wednesday, reports having been fired upon by a San Domingo war steamer, when off Saona Island on the 21st of March.

The Oft Told Story

Of the peculiar medicinal merits of Hood's Sarsaparilla is fully confirmed by the voluntary testimony of thousands who have tried it. Peculiar in the combination, proportion and preparation of its ingredients, peculiar in the extreme care with which it is put up, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in the unequalled good name it has at home, which is a "tower of strength" in the phenomenal sales it has attained.

Hood's Sarsaparilla
Is the most popular and successful medicine before the public today for purifying the blood, giving strength, creating an appetite, and suffering from weakness and low spirits, and also had eczema on the back of my head and neck, which was very annoying. I took one bottle of Hood's Sarsaparilla, and I have received so much benefit that I am very grateful, and I am very glad to speak a good word for this medicine." Mrs. J. S. Snyder, Pottsville, Penna.

Purifies the Blood

Henry Diggs, Campbell Street, Kansas City, had serious sores all over his body for fifteen years. Hood's Sarsaparilla completely cured him.

Wallace Buck, of North Bloomfield, N. Y., suffered eleven years with a terrible venereal ulcer on his leg, so bad that he had to give up business. He was cured of the ulcer, and also of catarrh, by

EXAMINATION OF TEACHERS.

The annual examination of applicants for Teachers' Certificates will be held at the Court House, in Frederick, Md.,

On Wednesday, Thursday and Friday, the 22nd, 23rd and 24th days of May, 1889.

The examination for First Grade Certificates will begin on Wednesday morning at 9 o'clock, and continue two days; for Second Grade Certificates at 9 o'clock on Friday morning. Applicants are requested to appear as early as possible on the morning named, so that their names may be registered without transgression. All applicants will be required to make 75 per cent, both in arithmetic and in grammar, with a general average of 80 per cent, in the First Grade, and 70 per cent, in the Second Grade, in order to pass. The Teachers will be examined in the principles and methods of teaching in addition to the usual branches.

Teachers whose certificates will expire on or before the 31st day of August, 1889, and are not renewed before the day of examination, must be re-examined. A special examination, to be held in July, will be granted those who produce a writing from the principal of a Normal or Select School, stating that they have attended school for at least one month during the summer, for the purpose of qualifying themselves for teaching.

No other special examination will be granted unless for reasons satisfactory to the School Board.

Teachers for colored schools will be examined on Monday, June 3d.

DIVINE SERVICES will be held in the Reformed Church of this place during the coming Holy Week, as follows: On Monday, Tuesday, Wednesday and Thursday evenings: On Good Friday at 10 a. m., and on Saturday, with Preparatory and Confirmation, at 2 p. m. The Holy Communion will be administered on Easter Sunday at 10 a. m. Sermons will be spoken at all the above services. A Sunday School Easter Service will be held on Easter Sunday evening, in which a specially prepared order of Service will be followed. All are cordially invited to come and join in these Solemn Services of Holy Week.

If you have a discharge from the nose, offensive or otherwise, partial loss of the sense of smell, taste or hearing, eyes watering or weak, feel dull or debilitated, pain or pressure in the head, take cold easily, you may rest assured that you have the Catarrh. Thousands of cases annually, without manifesting half of the above symptoms, terminate in Consumption and end in the grave. No disease is so common, more deceptive, less understood or more unsuccessfully treated by physicians. The manufacturers of Dr. Sage's Catarrh Remedy have, for many years, offered a standing reward of \$500 for a case of Nasal Catarrh, no matter how bad or of how long standing, which they cannot cure. Remedy sold by druggists, at 50 cents.

The Exposition Booming.

That the Pimlico Exposition will be a grand success there is no longer any doubt. New features are being added almost daily. The latest attraction decided upon will be a reproduction of the battle of North Point on the 12th of September, its anniversary, followed on the night of the 13th by a reproduction of the bombardment of Fort Mifflin. On the evening of the dedicatory ceremonies a strong chorus will render Francis Scott Key's deathless song, "The Star Spangled Banner," before the President and guests in the great hall of the new postoffice building, with full brass and string accompaniment. In a recent interview with a reporter of the Baltimore News, President Frank Brown said: "We mean to do everything that lies in our power as patriotic Americans and loyal Marylanders to make the Pimlico Exposition of 1889 one ever memorable in the annals of all similar exhibitions."

LADIES

Needing a tonic, or children that want building up, should take BROWN'S IRON BITTERS. It is pleasant to take, cures biliousness, indigestion, and all ailments. All druggists keep it.

Shriver, 9, average 1,030. The above weights were furnished us by Mr. J. H. Stokes who has charge of the cattle sales in this place.

MAYOR LATROBE signed the Western Maryland Tidewater Railroad ordinance last Friday. Mr. Frank Brown says the construction of this road insures the popularity of Pimlico as a permanent exhibition ground for the Agricultural Society. The new railroad will cross the Baltimore and Ohio tracks and place Pimlico within easy reach of Camden Station. The Tidewater Railroad will have half a dozen stations that will be accessible for travel to Pimlico.

A Letter From Dr. Hans Von Bulow. The Knabe Pianos which I did not know before, have been chosen for my present concert tour in the United States by my Impresario and accepted by me on the recommendation of my friend, Bechtel, acquainted with their merits. Had I known these pianos as now I do, I would have chosen them by myself, for their sound and touch are more sympathetic to my ears and hands than all others of the kind.

DR. HANS VON BULOW. New York, April 6, 1889. To Messrs. Wm. Knabe & Co.

A Fine Building.

The new building to be occupied by St. Euphemia's School in this place will be one of the finest structures in town. The work of digging out the basement is finished and masons will begin operations very shortly.

THE BUILDING.

Will have a frontage of 71 feet 6 inches, on Green street, running back 48 feet 6 inches. It will stand 8 feet from the street line, and nine steps leading to the first floor will make an easy ascent to the entrance. The stone work of the foundation will extend 4 feet 6 inches up the wall to the first floor, the rest of the walls to be built of brick. The height of the building will be 36 feet from the ground to the square, total height to top of roof being 51 feet. The front and back of the building will be alike, the walls being divided into three parts, the middle section, 21 feet 6 inches, will project 21 inches with gables in the center, the only difference between the front and back being that the latter having no doors will contain two more windows than the former.

INTERIOR.

The basement will be divided into two rooms with 9 foot ceilings, the walls of which are to be cemented, to be used as play rooms for the girls, one 37x44 feet for white, the other 29x18 feet for colored girls. These play rooms to be furnished with water closets. The first floor will have 15 foot ceilings with an eight foot corridor running the full length of the building, from East to West, and from North to South, which will divide this floor into four class rooms, 18x25 feet, to be used by the white scholars, two for the boys and two for the girls. The boys entrance will be on the North side or front, and that for the girls on the west. A flight of granite steps with iron railings will lead to a vestibule at each entrance. The second floor will be used as a distribution hall, and has a movable partition to form a class room for the colored scholars at one corner, which will be entered by a wooden staircase from the outside, leading to the door at the eastern end of the building. The second floor ceiling will be 14 foot high. The building will be covered by a steel roof, and all the water carried off by terra cotta pipes which empty into a large sewer. Light and ventilation will be furnished by 72 large windows, 23 in the front, 25 in back, 12 on the west end and 7 on the east end, each of these to have large transoms hung on hinges at the bottom, so as to open inwards from the top, thereby furnishing ventilation without draught. The transoms will be operated with Woollensack transom-lifters. All the window sills will be of granite. The entire building will be heated by steam and supplied with mountain water.

The plans and drawings were made under the direction of Rev. Alexius Mandine. The carpenter work will all be done by Messrs. Tyson and Linsinger, who already have a large amount of the material worked out, such as doors and frames, window frames and sash, etc. The mason work will be done by Mr. Henry Lingz, and Mr. Jno. D. Seabold has the contract for plastering, so the entire work, from that of the architect to the completion of the building will be done by resident mechanics. It is expected that the building will be completed by September.

We are indebted to Mr. Bennet Tyson, of the firm of Tyson & Linsinger, for the information that enabled us to give the above description.

Spring Medicine. The necessity of a spring medicine is almost universally admitted. And the superiority of Hood's Sarsaparilla for this purpose becomes more and more widely known every year. That power to purify the blood, and those elements of strength and health which the system craves, and to which it is so susceptible at this season, are possessed by this peculiar medicine in a pre-eminent degree. Scrofula, pimples, boils, or any humor, biliousness, dyspepsia, sick headache, catarrh, rheumatism, or any diseases or affections caused or prompted by impure blood or low state of the system, are cured by Hood's Sarsaparilla. Try the peculiar medicine.

A Valuable Tree.

Last week Mr. Henry Norris, residing near the dividing line, and in the Johnsview districts, had a tree felled and cut into cord wood, which made eleven cords and seven feet. Such trees are scarce in this county.—*Banner of Liberty*.

We acknowledge with thanks a box containing a beautiful collection of fragrant Arabus Violets and English Daisies from Mrs. Joseph G. Miller, nee Miss Maggie Agnew, of Unionville. A card accompanying them says they were gathered on Paradise Hill by Miss Mattie Scheier of Liberty, to whom we also extend thanks.

A Great Battle.

Is continually going on in the human system. The demon of impure blood strives to gain victory over the constitution, to ruin health, to drag victims to the grave. A good reliable medicine like Hood's Sarsaparilla is the weapon with which to defend one's self, drive the desperate enemy from the field, and restore peace and bodily health for many years. Try this peculiar medicine.

Base Ball.

A fine exhibition game of base ball was played on the Mt. St. Mary's College grounds this week, between the Fourth nine of the College and the Emmitsburg team, which resulted in a victory for the former by a score of 21 to 12.

Summary.—Base hits, Emmitsburg 5, College 6; two base hits, Gibbons and O. Byrne; wild pitches, Parke 1, Adelsberger 4; stolen bases, College 7, Emmitsburg 4. Three base hit, Donohue. Hit by pitched ball, J. Bowers, J. Adelsberger; passed balls, McDonald 2, Bowers 1. The battery of the Emmitsburg nine was C. Bowers and R. Adelsberger, of the College, D. McDonald and H. Parker. Time of game one hour and forty minutes. B. McKenna was umpire and W. Wadden scorer. The game was witnessed by about two hundred people.

Arbor Day.

There was no special celebration of Arbor Day in this place, except at the public schools, but a large number of trees were planted in town, most of them on Main street. Thirteen trees were planted by the scholars of the public schools assisted by their teachers, and the ceremonies attending were very pleasant. Rev. U. H. Heilman, pastor of the Reformed Church, planted three young maple trees in front of the church yard. All the others as far as we can learn were planted at private residences.

The observance of the day throughout the State was pretty general, but confined principally to the public and private school children. The Baltimore Sun says:

It is estimated that more than 250 trees were planted in Baltimore alone. Granting that an equal number at least was planted in each of the twenty-three counties of the State, the total number set out was 5,000—quite a respectable wood if all were gathered in one locality. Arbor Day was a successful all around.

Items From Fairplay.

FAIRPLAY, Pa., April 10.—Our community was startled on Monday morning as the sad news was whispered from house to house that Robert Weikert was dead. This another one was taken from our immediate neighborhood.

Robert G. Weikert was the only son of Geo. W. Weikert, and lived on the farm of the late Joshua Brown. His age was 28 years, 4 months and 3 days. A complication of diseases was the cause of his death. "Rob" was a favorite with all who knew him, and his death is deeply lamented. His remains were interred at Evergreen Cemetery, Gettysburg, on Tuesday. The bereaved family have the heartfelt sympathy of the entire community in this sad loss of one of its members, just fairly entered upon the activities of life. A widow and four children survive him.

Miss Jennie White, daughter of Hon. A. F. White, has been ill for many weeks.

Unintentionally Laughed At.

The unthinking are prone to make game of nervousness. Yet this is a very real and serious affliction, the harassing symptoms of which are rendered all the more poignant by ridicule. The stomach is usually responsible for these symptoms—its weakness and disorder find a reflex in the brain, which is the headquarters of the nervous system. As a nerve tonic and tranquillizer, we believe that no one can be pointed out so effective as Hostetter's Stomach Bitter. In renewing vigorous digestion, it strikes the keynote of recovery of strength and quietude by the nerves. Headaches, tremors in quiet sleep, abnormal sensitiveness to unexpected noises—all these modify and ultimately disappear as the system gains strength from the re-formation. Dyspepsia, biliousness, rheumatism, constipation and kidney complaints are subdued by the Bitter.

DIED.

WEIKERT.—On April 7, 1889, at 50 years of age, Robert G. Weikert, of Adams County, Pa., died. He was born in Germany, aged 23 years, 4 months and 3 days.
