WHAT IS

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifesta tions usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrof-

ulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. Carlile, Nauright, N. J. N. B. Be sure to get only

HAD A RAT TRAP. But He Made a Mistake in Waking Up a Passenger.

It was on one of the sound steamers coming down the other day, A man of middle age and much dignity had fallen asleep in his rocking chair on the promenade deck, when he was approached by a sharp nosed, hawk eyed man of 40, who had a parcel in his hand.

"Hey-you!" he exclaimed as he slapped the sleeping man on the shoulder.

"Sir! How dare you!" sternly demanded the latter, as he roused

"I haven't done anything that I can be sent to state prison for, have

When I say Cure I do not mean merely to stop them for a time, and then have them return again. I Mean A RADICAL CURE.

I have made the disease of open wine for the party."

Brick Residences Should be Painted.

Statistics show that people live longer in brick houses than in stone, and wooden houses are the healthi est. This suggests the idea of using paint on masonary. An authority states that a hundred years ago it was fashionable to paint brick buildings white and many charming old structures remain to attest the value of the coat of paint in preserving the masonry and its pleasant, homelike effect is a foil to the vines and shrubs with which even city houses are now commonly adorned. If it should prove, as might be easily ascertained, that the painted brick houses preserve their inhabitants more effectually from sickness and premature death than the unpainted ones, it would be worth while to revive ancient fashion, and with our greater re-A PRETTY and very relishable sources in the way of materials and "And you won't look at my way of preparing tomatoes is the ideas, exterior coloring might befollowing: - Select those a little come as important an accessory to more than medium size, and as the architecture of the twentieth "And you want me to leave you smooth as possible.
